13 December 2002

Diageo agrees the sale of Burger King

Diageo plc announces that it has agreed the sale of Burger King Corporation under revised terms to the buying group composed of Texas Pacific Group (TPG), Bain Capital Partners and Goldman Sachs Capital Partners. The transaction is expected to close later today when payment will be received.

Diageo previously announced on 18 November 2002 that the buying group would not be able to complete the transaction on the terms agreed and announced on 25 July 2002. This was due to the highly competitive trading environment in which Burger King and other quick service restaurant businesses are currently operating and the deterioration in the capital markets. Under the revised agreement:

The purchase price is \$1.5 billion. The purchase price will be settled in part by cash, by \$86 million in assumed debt and the balance by means of subordinated debt with a principal amount of \$212.5 million.

The cash portion of the purchase price reflects agreed adjustments for working capital and capital expenditure of Burger King and its subsidiaries. These variations are subject to the normal post-closing settlements, which are not expected to result in material changes to the cash received. Diageo is receiving \$1.2 billion in cash. However Diageo is obliged to ensure that at completion Burger King has \$65 million in cash.

The post closing capital structure of the Burger King group will include \$750 million of senior loans provided by external lenders and \$425 million of subordinated debt provided equally by Diageo and the buying group. The senior loans will have a term of 5 years. The subordinated debt will have a term of 10 and a half years and carries a non-cash cumulative coupon of 9%, which could become cash at the issuers option.

To facilitate the timely completion of this transaction, Diageo is guaranteeing the \$750 million senior loans and a \$100 million revolving credit facility at Burger King. However, the arrangements are structured in such a way as to encourage the Burger King group to refinance these loans on a non-guaranteed basis before their contractual maturity. If refinancing does not occur in the first 3 years Diageo will receive thereafter an annual guarantee fee of 5% of the outstanding principal amounts of the loans. Diageo will make an incentive payment of \$10 million if the loans are refinanced during the first 18 months following closing or a payment of \$5 million if they are refinanced during the next 18 months. The buying group has agreed to use all reasonable commercial efforts to assist in refinancing. Diageo will compensate Burger King for any fees and additional interest incurred during the outstanding term of the senior loans if those refinancing terms are satisfactory to Diageo. If the refinancing were to take place after 2 years the cost to Diageo is currently estimated to be approximately \$55 million. Diageo expects to make provisions in respect of its obligations relating to these loans.

Diageo will not incur a tax liability as a result of the disposal. In addition aspects of the agreed transaction will result in a \$100 million exceptional tax credit for the six months ended 31 December 2002.

Table of Contents

The necessary regulatory approvals have already been obtained. Diageo anticipates that the cash proceeds will be used to pay down debt.

For the year ended 30 June 2001 Burger King's UK GAAP operating profit, before exceptional items and goodwill amortisation, was \$257 million. For the year ended 30 June 2002 Burger King's UK GAAP operating profit, before exceptional items and goodwill amortisation, was \$230 million. Operating profit, which was \$114 million in the six months ended 31 December 2001, is expected to decline by approximately 20% in the six months ending 31 December 2002. At 30 June 2002 Burger King's net assets, before inter company balances and net borrowings, were \$2.2 billion. Goodwill previously written off was \$1.1 billion.

Announcing the agreement, Paul Walsh, CEO of Diageo, said:

We are pleased that we have been able to reach this agreement despite a difficult market and at a time of tough trading conditions for the quick service restaurant sector. We continued to review our options but concluded that this transaction with this buying group was the most certain route to achieving separation. Securing separation represents the best option through which Diageo can further realise value for its shareholders.

The sale of Burger King represents an important step for Diageo in delivering its strategy, laid out in 2000, to focus on its premium drinks business. Since that time, Diageo has concluded major transactions to realign the strategic focus of the group, including the sale of Pillsbury to General Mills and the acquisition, jointly with Pernod Ricard, of the Seagram's spirits and wine business. Diageo is now well positioned to deliver superior levels of growth and return on invested capital.
