1096 BC Amsterdam The Netherlands

This report comprises a copy of the *Quarterly Report of the Philips Group* for the three months ended June 30, 2008 and a copy of each of following press releases entitled:

Philips notifies Dutch Authority for the Financial Markets of holding over 5% of its own shares , dated June 9, 2008;

Philips CEO elaborates on Philips progress in building the leading Health and Well-being brand at JP Morgan CEO Conference , dated June 11, 2008;

Philips CFO elaborates on Philips progress in building the leading Health and Well-being brand at Exane BNP Seminar in Paris , dated June 13, 2008;

Philips to transfer its PC monitors business to TPV Technology, entering into a brand license agreement , dated July 8, 2008.

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf, by the undersigned, thereunto duly authorized at Amsterdam, on the 15th day of July 2008.

**KONINKLIJKE PHILIPS
ELECTRONICS N.V.**

/s/ E.P. Coutinho
(General Secretary)

Forward-looking statements

This document contains certain forward-looking statements with respect to the financial condition, results of operations and business of Philips and certain of the plans and objectives of Philips with respect to these items, in particular the outlook paragraph in this report. Examples of forward-looking statements include statements made about our strategy, estimates of sales growth, future EBITA and future developments in our organic business. By their nature, forward-looking statements involve risk and uncertainty because they relate to future events and circumstances and there are many factors that could cause actual results and developments to differ materially from those expressed or implied by these forward-looking statements. These factors include but are not limited to domestic and global economic and business conditions, the successful implementation of our strategy and our ability to realize the benefits of this strategy, our ability to develop and market new products, changes in legislation, legal claims, changes in exchange and interest rates, changes in tax rates, pension costs, raw materials and employee costs, our ability to identify and complete successful acquisitions and to integrate those acquisitions into our business, our ability to successfully exit certain businesses or restructure our operations, the rate of technological changes, political, economic and other developments in countries where Philips operates, industry consolidation and competition. As a result, Philips' actual future results may differ materially from the plans, goals and expectations set forth in such forward-looking statements.

Statements regarding market share, including those regarding Philips' competitive position, contained in this document are based on outside sources such as specialized research institutes, industry and dealer panels in combination with management estimates. Where information is not yet available to Philips, those statements may also be based on estimates and projections prepared by outside sources or management. Rankings are based on sales unless otherwise stated.

Use of non-US GAAP information

In presenting and discussing the Philips Group's financial position, operating results and cash flows, management uses certain non-US GAAP financial measures. These non-US GAAP financial measures should not be viewed in isolation as alternatives to the equivalent US GAAP measure(s) and should be used in conjunction with the most directly comparable US GAAP measure(s). A discussion of the non-US GAAP measures included in this document and a reconciliation of such measures to the most directly comparable US GAAP measure(s) are contained in this document.

Use of fair-value measurements

In presenting the Philips Group's financial position, fair values are used for the measurement of various items in accordance with the applicable accounting standards. These fair values are based on market prices, where available, and are obtained from sources that are deemed to be reliable.

Readers are cautioned that these values are subject to changes over time and are only valid at the balance sheet date. When a readily determinable market value does not exist, fair values are estimated using valuation models which we believe are appropriate for their purpose. They require management to make significant assumptions with respect to future developments which are inherently uncertain and may therefore deviate from actual developments. In certain cases, independent valuations are obtained to support management's determination of fair values.

All amounts in millions of euros unless otherwise stated; data included are unaudited. Financial reporting is in accordance with US GAAP, unless otherwise stated.

Philips reports strong sales of EUR 6.5 billion, up 6% year-on-year; EBITA rises to EUR 413 million
Strong comparable sales growth of 6%, fueled by 16% growth in emerging markets.

EBITA increased to EUR 413 million from EUR 386 million in Q2 2007, mainly driven by higher earnings at Lighting.

Strong contribution to results from recent acquisitions, both in Home Healthcare Solutions and in Professional Luminaires.

Consumer Lifestyle performed well in a weaker environment; plans to improve the Television business remain well on track.

Net income of EUR 720 million includes a gain of EUR 780 million on the sale of TSMC shares and an impairment charge of EUR 299 million for NXP. Net income for Q2 2007 included a EUR 1.2 billion gain in respect of TSMC.

Gerard Kleisterlee,

President and CEO of Royal Philips Electronics:

Our second quarter results are a reflection of both the quality and the resilience of our overall business portfolio in a rapidly deteriorating macro-economic environment. Revenue growth was excellent, with currency-corrected nominal growth of 14% and comparable growth of 6%, well ahead of both last year as well as the previous quarter. Also profitability developed positively, as increased contribution from the business, including the latest acquisitions, more than offset the impact of incidental results. We also

2

continued to successfully expand our strong position in high-growth emerging markets.

Our Healthcare sector posted strong results in Home Healthcare Solutions, Patient Monitoring and Clinical Care Systems. Imaging Systems posted lower results but continued to increase its order book backlog, with a better product mix, which gives us confidence for the full year. In a much-weakened consumer environment our Consumer Lifestyle business continued to perform well, and the implementation of our Television strategy of rightsizing and selective growth is ahead of plan. Also, Lighting continued to deliver, helped by their balanced exposure to different end markets, both from an application and a geographic perspective.

The execution of our plans kept us well on track with regard to the implementation of our Vision 2010 strategy and ambition.

Highlights in the quarter

Net income

Income from continuing operations was lower than in Q2 2007, primarily due to EUR 440 million lower gains on the sale of TSMC shares and a EUR 299 million impairment charge for NXP. Additionally, Q2 2007 included dividend income from TSMC of EUR 139 million; this year's TSMC dividend income approximately EUR 24 million is expected to be recorded in Q3.

Results relating to equity-accounted investees were below Q2 2007, when LG Display was presented as an equity-accounted investee.

The improvement in results from discontinued operations was mainly due to a EUR 35 million impairment of the stake in MedQuist in Q2 2007.

Sales by sector

Sales amounted to EUR 6,463 million, a nominal increase of 7% compared to Q2 2007. Excluding portfolio changes (8%) and a negative currency impact of 7%, comparable sales grew by 6%, driven by Consumer Lifestyle and Lighting, moderated by 3% growth at Healthcare.

Healthcare sales grew 11% nominally on the back of the acquisition of Respironics. On a comparable basis, sales grew 3%, driven by solid growth at Customer Services, Home Healthcare Solutions, Clinical Care Systems and Patient Monitoring.

Consumer Lifestyle sales increased by 7% on a comparable basis, led by strong double-digit growth at Health & Wellness and Television.

Lighting sales increased 19% nominally, driven by both strong organic growth and the acquisition of Genlyte. Comparable sales grew 6%, led by good growth at Lamps and Professional Luminaires.

Sales per market cluster

Double-digit comparable sales growth was visible in most of the emerging markets, most notably Latin America, Eastern Europe and India, driven mainly by Lighting and Consumer Lifestyle.

Sales in mature markets overall showed limited comparable growth, impacted by weaker market conditions in Western Europe, albeit solid growth was seen in a few major economies.

Earnings

EBITA amounted to EUR 413 million, which was EUR 27 million higher than in Q2 2007. It included restructuring, acquisition and integration-related charges of EUR 121 million, which were more than offset by improved earnings from new acquisitions, a EUR 56 million gain on the sale of the Set-Top Box activity and a EUR 39 million gain on the sale of real estate in Taiwan.

Healthcare EBITA of EUR 195 million included EUR 35 million of acquisition and integration-related charges, largely offsetting the contribution from recent acquisitions.

Consumer Lifestyle EBITA included restructuring charges totaling EUR 66 million and a EUR 56 million gain on the sale of the Set-Top Box activity. Earnings from operating activities improved year-on-year, thanks to Television and Video & Multimedia Applications.

Lighting EBITA benefited from the addition of earnings at Genlyte and improved margins at Consumer Luminaires, partly offset by lower earnings at Lamps.

I&EB EBITA declined slightly, reflecting additional investments in Research and in the Healthcare Incubator.

GM&S EBITA improved by EUR 37 million compared to Q2 2007, mainly due to gains at the Real Estate Service Unit.

Ending balance	6,261	2,490
Less cash of discontinued operations	131	94
Cash of continuing operations	6,130	2,396
Financial income and expenses		

The further sale of TSMC shares resulted in a gain of EUR 780 million, compared to a gain of EUR 1.2 billion in Q2 2007. The Q2 2007 results also included a dividend on TSMC shares of EUR 139 million.

Due to deteriorating market conditions, a EUR 299 million impairment was recorded on the stake in NXP.
Cash balance

The Group cash balance declined by EUR 2.3 billion in the quarter, mainly due to repayment of debt (EUR 1.6 billion), share buy-backs (EUR 1.1 billion) and payment of the annual dividend to shareholders (EUR 698 million), partly offset by EUR 1.2 billion in proceeds from the further sale of shares in TSMC.

Cash flows from operating activities

Operating activities generated EUR 140 million in cash during the quarter, compared to an outflow of EUR 26 million in Q2 2007, largely thanks to improved working capital at Healthcare (mainly a reduction in accounts receivable following the implementation of a new IT system), partly offset by higher working capital requirements at Lighting and Consumer Lifestyle.

6

Gross capital expenditures

Gross capital expenditures for property, plant and equipment were EUR 6 million lower than in Q2 2007. Higher investments at Lighting were more than offset by lower expenditures in all other sectors, most notably in Group Management & Services (Real Estate).

Inventories

Inventories increased from 12.8% of sales in Q2 2007 to 14.1% at the end of Q2 2008, largely due to the integration of Genlyte and Respironics in Q1 2008 and proportionally higher stock levels at Consumer Lifestyle and Lighting.

Net debt and group equity

At the end of June, the Group had a EUR 1.5 billion net debt position (EUR 2.4 billion of cash and EUR 3.9 billion of debt), compared to a net cash position of EUR 2.3 billion in Q2 2007. The change was mainly due to EUR 6.0 billion in acquisition-related cash outflows, EUR 2.9 billion in share repurchases and a EUR 0.7 billion dividend payment, partly offset by EUR 4.5 billion proceeds from the sale of securities, mainly TSMC and LG Display.

Compared to Q2 2007, group equity declined by EUR 3.2 billion, as the equity reduction from share buy-backs and currency translation differences were largely offset by retained earnings (net of dividend) and the accounting reclassification of LG Display (to available-for-sale securities).

Employment

The decline in the number of employees compared to Q1 2008 was primarily due to a seasonal reduction in temporary employees, mainly at Lighting.

The higher number of employees compared to Q2 2007 was mainly due to the recent acquisitions of Genlyte, Respiroics and VISICU.

8

Healthcare

Key data

in millions of euros unless otherwise stated

	Q2 2007	Q2 2008
Sales	1,625	1,800

% comparable	4	3
EBITA	218	195
as a % of sales	13.4	10.8
EBIT	185	138
as a % of sales	11.4	7.7
Net operating capital (NOC)	4,857	8,382
Number of employees (FTEs)	28,114	35,087

Business highlights

Philips significantly strengthened its presence in two key emerging markets through the acquisition of Brazilian patient monitoring and critical care company Dixtal Biomédica e Tecnologia and Chinese patient monitoring company Shenzhen Goldway Industrial. This represents a further step towards the creation of a low-cost global supply base for value-segment products.

Philips' cutting-edge Brilliance iCT scanner has been installed in a few selected healthcare facilities across the globe, and full commercial delivery will start in the second half of the year.

The Ultrasound business announced the launch of the CX50 Compact Extreme, our first entry into the high-growth compact ultrasound market, which is estimated to be worth USD 700 million in 2008.

Philips launched the latest addition to its nuclear medicine product portfolio with the introduction of the BrightView XCT, which delivers high-resolution CT images while exposing patients to only low radiation doses.

Financial performance

Equipment order intake grew 4% on a currency-comparable basis, further strengthening the order book backlog. Strong growth was seen at Patient Monitoring and Clinical Care Systems, while Imaging Systems showed modest growth.

Sales grew by 11% nominally, driven by strong performance of our recent acquisition Respirationics. Sales growth was 3% on a comparable basis, driven by solid growth at Customer Services, Home Healthcare Solutions, Clinical Care Systems and Patient Monitoring. Imaging Systems saw strong growth in Magnetic Resonance and Nuclear Medicine more than offset by a decline in Computed Tomography as a result of a lower-value mix, partly in anticipation of commercial delivery of the new Brilliance iCT scanner later in the year.

EBITA amounted to EUR 195 million, or 10.8% of sales, including EUR 35 million of acquisition and integration-related charges, mainly for Respirationics. Higher earnings were reported at Home Healthcare Solutions, Healthcare Informatics (driven by higher margins) and Clinical Care Systems (thanks to a favorable product mix).

Net operating capital increased by EUR 3.5 billion compared to Q2 2007, mainly due to acquisitions.

Looking ahead

The expectation for the Healthcare sector's full-year results remains in line with plan. Consequently, we expect sales and margins to improve during the second half of the year.

For 2008, acquisition and integration charges related to Respironics, VISICU and Emergin are estimated at approximately EUR 100 million, of which around EUR 30 million is expected to impact EBITA in Q3.

Philips reached an agreement with TPV on key terms and conditions to enter into a brand-licensing agreement under which it will transfer its PC monitors business IT Displays to TPV. Philips will receive revenue-based royalties as part of the agreement.

Philips and Swarovski launched the 2008 Active Crystals range. This is the 2nd generation of this line of fashionable lifestyle technology accessories, including USB sticks and Bluetooth headsets.

Philips completed the sale of its Set-Top Box activity to UK-based Pace Micro Technology.

Financial performance

Consumer Lifestyle's comparable sales grew 7% year-on-year, driven by double-digit growth in emerging markets.

Most businesses contributed to the year-on-year sales growth, in particular Health & Wellness, Television and Domestic Appliances.

Comparable sales growth at Television reached 14%, driven by strong growth in emerging markets and supported somewhat by demand from soccer's Euro 2008 championship.

EBITA included restructuring charges of EUR 66 million mainly at Television in connection with ongoing actions to improve profitability and a EUR 56 million gain on the sale of the Set-Top Box activity.

Looking ahead

New product launches scheduled for the third quarter include the Senseo Latte and a new mid-range shaver series.

The brand license agreements with Funai and TPV are expected to close in Q3 and Q4 respectively.

Television-related restructuring charges are expected to amount to EUR 125 million for the full year, of which EUR 40 million in Q3.

Business highlights		

Philips has launched a license program for LED-based luminaires intended for general illumination as well as for architectural and theatrical lighting, in order to unleash the full potential of new LED lighting solutions.

French insurer Generali will be the first company worldwide to have an entire office building lit by LED lighting, with Philips being the sole supplier for this innovative project in Paris.

British Gas has instigated one of the biggest green initiatives of its kind by distributing no fewer than 52 million energy-saving bulbs from Philips to some 13 million households in the UK.

Financial performance

Lighting sales increased by EUR 275 million compared to Q2 2007, driven by the good performance of Genlyte. On a comparable basis, sales rose 6% thanks to 16% growth in energy-efficient lighting solutions including Lumileds and 18% growth in emerging markets, partly tempered by softening markets in Western Europe and North America.

The EUR 41 million year-on-year increase in EBITA was supported by the recent acquisitions of Genlyte and Color Kinetics and profitable growth in energy-efficient lighting solutions. Restructuring and acquisition-related charges amounted to EUR 20 million, compared to EUR 18 million in Q2 2007.

The increase in both net operating capital and employees was primarily a result of the Genlyte and Color Kinetics acquisitions.

Looking ahead

Lighting will continue to drive both growth and profitability including from recent acquisitions in line with Vision 2010 targets.

Restructuring and integration-related charges are expected to amount to approximately EUR 85 million for the full year 2008, of which EUR 15 million in Q3.

At its annual Corporate Research Exhibition, Philips Research showcased new, innovative Organic Light-Emitting Diode (OLED) lighting solutions for future use in homes, workplaces, stores, public areas and cars.

Philips joined forces with Axel Springer, combining Philips Aprico software with Axel Springer's TV program information, thus allowing viewers to create their own Internet TV channels.

Philips signed a letter of intent to set up a clinical research partnership with the Maastricht University Medical Centre and the University Medical Center Aachen in the fields of cardiovascular disease and cancer treatment.

Financial performance

EBITA of Innovation & Emerging Businesses was in line with expectation, albeit slightly lower than in Q2 2007 due to additional investments in innovative healthcare technologies.

Looking ahead

Investment in Research and the Incubators is expected to remain at a quarterly run-rate of EUR 40 million for the second half of the year, with a higher spend expected in Q3.

Philips was recognized as one of the Worlds Most Ethical Companies for 2008 by the Ethisphere Institute, a US-based think tank that studies business ethics and corporate responsibility.

Philips Singapore s Toa Payoh Complex has been awarded a Green Mark Gold Award by the Building and Construction Authority of Singapore. This award is given to sustainable buildings based on energy efficiency, water efficiency and management criteria and is recognition of Philips commitment to further increase the energy efficiency of its operations.

Philips came top in a Dutch corporate reputation study by Erasmus University and Reputation Institute, winning the Reputation Institute Award 2008.

Financial performance

Investment in the global brand campaign was lower than expected due to a shift in seasonal spend pattern.

Compared to Q2 2007, EBITA at the Service Units was positively impacted by higher gains on the sale of real estate.

Costs of pensions and other post-retirement benefits were broadly in line with Q2 2007.

The increase in net operating capital mainly relates to increased prepaid pension assets in the Netherlands.

Looking ahead

Corporate and Regional overhead costs are expected to decrease in the second half of 2008 thanks to ongoing cost-reduction initiatives.

Costs of pensions and other post-retirement benefit plans allocated to Group Management & Services are expected to total approximately EUR 40 million for the full year 2008.

Highlights in the 1st six monthsThe 1st six months of 2008

Comparable sales were 3% higher than in the 1st half of 2007, supported by Healthcare (4%) and Lighting (4%).

Income from continuing operations declined by EUR 1,510 million to EUR 956 million due to lower gains on the sale of stakes in TSMC.

EBITA amounted to EUR 678 million, 10% lower than in the corresponding period of 2007 due to restructuring, acquisition and integration-related charges.

Results relating to equity-accounted investees increased by EUR 57 million, driven by improved results from LG Display in the first quarter.

Management summary

Income from continuing operations amounted to EUR 956 million, a decline of EUR 1,510 million compared to the first six months of 2007. This decline was largely attributable to a EUR 1,476 million reduction in financial income and expenses, which included lower proceeds from the sale of stakes in TSMC, higher impairment charges and lower income from LG Display.

Sales for the first half-year totaled EUR 12,428 million, 3% higher than in the corresponding period of 2007 on a comparable basis. Order intake at Healthcare rose 6%, which is 2 percentage points above the first half of 2007. Sales at Healthcare showed moderate comparable growth of 4% compared with the first half of 2007. On the back of 6% comparable Television sales growth, Consumer Lifestyle's comparable sales increased by 3%. Lighting's comparable sales grew 4% year-on-year.

EBITA in the first six months was EUR 678 million, 10% lower than in the corresponding period of 2007, mainly due to higher incidental charges at Consumer Lifestyle and acquisition-related charges at Healthcare and Lighting, partly offset by the gain on the sale of the Set-Top Box activity.

Net income in the first half of 2008 decreased by EUR 1,505 million compared to the first half of 2007. This reduction is attributable to EUR 149 million lower EBIT and a EUR 1,476 million decline in financial income mainly related to lower proceeds from the sale of TSMC shares and the EUR 299 million impairment in respect of

NXP.

Cash flows from operating activities showed an earnings-related EUR 214 million decline compared to the first half of 2007.

Net operating capital increased by EUR 6.6 billion compared to Q2 2007, largely due to EUR 5.8 billion of intangible assets from acquisitions made during the past year and EUR 0.3 billion of additional working capital.

15

Outlook

Our second-quarter sales growth and profitability underscored the resilience of Philips' portfolio of global businesses in the face of weaker economic conditions in many of our mature markets. While the full magnitude and duration of the current economic downturn in Europe and North America has yet to become clear, we expect the growth in emerging markets to continue supporting sales in all three sectors during the second half of the year.

We will continue to execute our 2008 management agenda, most importantly the further integration of recent acquisitions as well as actions to improve the future profitability of our Television business. We remain confident that 2008 will be a year in which we make progress towards realizing our Vision 2010 objectives.

Amsterdam, July 14, 2008

Philips notifies Dutch Authority for the Financial Markets of holding over 5% of its own shares
Monday, June 09, 2008

Amsterdam, The Netherlands Royal Philips Electronics (NYSE:PHG, AEX:PHI) announced today that it has notified the Netherlands Authority for the Financial Markets (AFM) that it currently holds over 5 per cent of its own issued shares. This holding of Philips consists of shares that have been acquired for cancellation purposes under Philips current EUR 5 billion share repurchase program and shares that are held to cover for obligations resulting from Philips existing long-term incentive and employee stock purchase programs.

Philips CEO elaborates on Philips' progress in building the leading Health and Well-being brand at JP Morgan CEO Conference

Wednesday, June 11, 2008

Surrey, United Kingdom Today, Gerard Kleisterlee, President and Chief Executive Officer of Royal Philips Electronics (NYSE: PHG, AEX: PHI), will give a presentation at the JP Morgan 6th Annual Pan-European Capital Goods & Aerospace CEO Conference in Surrey, United Kingdom, in which he will further elaborate on how Philips is transforming into a leading global brand in Health and Well-being.

In his presentation, Mr. Kleisterlee will discuss how Philips' focus on Health and Well-being is perfectly aligned with important demographic and economic trends, while also tapping into the people's increasing demand for advanced but easy-to-use products and solutions that improve the quality of their lives. He will show how Philips has become a much simpler and more focused company dedicated to leveraging its deep consumer insight, technological prowess and innovative strength to deliver uniquely differentiating propositions to businesses and consumers under its strong brand name. Mr. Kleisterlee will confirm the financial guidance issued by Philips as part of the company's Vision 2010 strategic plan, and will elaborate on the drivers behind the profit improvement Philips expects to realize as part of the plan.

The presentation starts at 2:35 PM local time (or 3:35 PM CET). While there will not be a webcast of this presentation available, the slides that will be used during this presentation are [available here](#).

Philips CFO elaborates on Philips' progress in building the leading Health and Well-being brand at Exane BNP Seminar in Paris

Friday, June 13, 2008

Paris, France Today, Pierre-Jean Sivignon, Chief Financial Officer of Royal Philips Electronics (NYSE: PHG, AEX: PHI), will give a presentation at the 10th Exane BNP Paribas European Seminar in Paris, France, in which he will further elaborate on how Philips is transforming into a leading global brand in Health and Well-being.

In his presentation, Mr. Sivignon will discuss how Philips' focus on Health and Well-being is perfectly aligned with important demographic and economic trends, while also tapping into the people's increasing demand for advanced but easy-to-use products and solutions that improve the quality of their lives. He will show how Philips has become a much simpler and more focused company dedicated to leveraging its deep consumer insight, technological prowess and innovative strength to deliver uniquely differentiating propositions to businesses and consumers under its strong brand name. Mr. Sivignon will confirm the financial guidance issued by Philips as part of the company's Vision 2010 strategic plan, and will elaborate on the drivers behind the profit improvement Philips expects to realize as part of the plan.

He will also state that, in line with financial market conditions in Taiwan, Philips has decided, with acknowledgement from Taiwan Semiconductor Manufacturing Company Ltd. (TAIEX: 2330, NYSE: TSM), to accelerate the last step of its previously announced, multi-phased plan to exit from its remaining TSMC shareholding. Mr. Sivignon will also mention that Philips is ahead-of-plan in its efforts to further optimize its television global supply base and as a consequence will now book approximately half of the previously-announced EUR 125 million in charges related to these efforts in the second quarter of 2008.

The presentation starts at 9.45 AM Central European Time (CET). While there will not be a webcast of this presentation available, the slides that will be used during this presentation are [available here](#).

Philips to transfer its PC monitors business to TPV Technology, entering into a brand license agreement
Tuesday, July 08, 2008

Amsterdam, The Netherlands Royal Philips Electronics (NYSE:PHG, AEX:PHI) today announced that it has reached an agreement with TPV Technology Limited. (SEHK: 903) on key terms and conditions of a brand licensing agreement under which Philips will transfer its PC monitors business, IT Displays, to TPV. This is in line with Philips previously communicated commitment to take decisive steps to improve the profitability levels at its Television business, of which the IT Displays unit forms part.

Under the terms of this agreement, TPV, the largest producer of PC monitors worldwide, will assume responsibility for sourcing, distribution, marketing and sales of all Philips IT Displays activities worldwide. As part of the intended brand licensing agreement, TPV can exclusively use the Philips brand name for PC monitors worldwide, in exchange for which Philips will receive revenue-based royalty payments. Philips IT Displays sales amounted to approximately EUR 600 million in 2007. Completion of this intended transaction, which is expected in the course of 2008, is subject to applicable regulatory approvals and the fulfillment of specific closing conditions.

The intended agreement with TPV represents a further step by Philips to fundamentally reposition itself in the digital display business and accelerates Philips efforts to address the unsatisfactory performance of its television business. In April of this year, Philips already announced it would transfer its consumer television operations in North America, while at the same time it said it would take steps to further optimize its global supply base in TV. Philips remains ahead-of-plan in optimizing its TV operations and will book approximately EUR 66 million in charges in the second quarter of 2008, which are largely related to these efforts.
