The Exchange Offer	We are offering to issue the new notes in exchange for a like principal amount of your old notes. Table of Contents

You will be able to resell the new notes without registering them with the SEC if you meet the requirements described below

Based on interpretations by the SEC's staff in no-action letters issued to third parties, we believe that new notes issued in exchange for old notes in the exchange offer may be offered for resale, resold or otherwise transferred by you without registering the new notes under the Securities Act or delivering a prospectus, unless you are a broker-dealer receiving notes for your own account, so long as:

- you are not one of our affiliates, as defined in Rule 405 of the Securities Act;
- you acquire the new notes in the ordinary course of your business;
- you do not have any arrangement or understanding with any person to participate in the distribution of the new notes; and
- you are not engaged in, and do not intend to engage in, a distribution of the new notes.

If you are an affiliate of E*TRADE, or you are engaged in, intend to engage in or have any arrangement or understanding with respect to, the distribution of new notes acquired in the exchange offer, you (1) should not rely on our interpretations of the position of the SEC's staff and (2) must comply with the registration and prospectus delivery requirements of the Securities Act in connection with any resale transaction.

If you are a broker-dealer and receive new notes for your own account in the exchange offer:

- you must represent that you do not have any arrangement with us or any of our affiliates to distribute the new notes;
- you must acknowledge that you will deliver a prospectus in connection with any resale of the new notes you receive from us in the exchange offer; the letter of transmittal states that by so acknowledging and by delivering a prospectus, you will not be deemed to admit that you are an underwriter within the meaning of the Securities Act; and
- you may use this prospectus, as it may be amended or supplemented from time to time, in connection with the resale of new notes received in exchange for old notes acquired by you as a result of market-making or other trading activities.

For a period of 180 days after the expiration of the exchange offer, we will make this prospectus available to any broker-dealer for use in connection with any resale described above.

Table of Contents**SUMMARY DESCRIPTION OF THE NEW NOTES**

The terms of the new notes and the old notes are identical in all material respects, except that the new notes have been registered under the Securities Act, and the transfer restrictions and registrations rights relating to old notes do not apply to the new notes. The following summary is provided solely for your convenience. For a more detailed description of the new notes, see Description of the New Notes.

Issuer	E*TRADE Financial Corporation
Notes Offered	\$400,000,000 aggregate principal amount of 8% Senior Notes due 2011.
Maturity	June 15, 2011.
Interest	8% per annum, payable semi-annually in arrears on and of each year, beginning on December 15, 2004.
Optional Redemption	We may redeem any of the new notes beginning on June 15, 2008. The initial redemption price is 104% of their principal amount, plus accrued interest. The redemption price will decline after 2008 as follows:

If Redeemed During the Twelve- Month Period Commencing June 15,	Redemption Price
2008	104.000%
2009	102.000%
2010 and thereafter	100.000%

In addition, at any time prior to June 15, 2007, the Company may redeem up to 35% of the principal amount of the notes with the Net Cash Proceeds (as defined under Description of the New Notes Definitions) of one or more sales of its Capital Stock (other than Disqualified Stock) (each, as defined under Description of the New Notes Definitions) at a redemption price of 100% of their principal amount plus a premium equal to the interest rate per annum on the new notes applicable on the date on which notice of redemption is given, plus accrued interest; *provided* that at least 65% of the aggregate principal amount of notes originally issued on the Closing Date remains outstanding after each such redemption and notice of any such redemption is mailed within 90 days of each such sale of Capital Stock.

Change of Control	Upon a Change of Control (as defined under Description of the New Notes Definitions) we may be required to make an offer to purchase the new notes. The purchase price will equal 101% of the principal amount of the new notes on the date of purchase, plus accrued interest, if, as a direct or indirect result of the Change of Control, a Rating Decline (as defined under Description of the New Notes Definitions) occurs. We may not have sufficient funds available at the time of a Change of Control to make any required debt payment (including repurchases of the new notes).

Table of Contents

Ranking

The new notes will be general senior obligations of the Company but will not be guaranteed by the subsidiaries through which the Company currently conducts substantially all of its operations. The new notes will rank equal in right of payment with all of the Company's current and future unsubordinated indebtedness, and will rank senior in right of payment to all of the Company's current and future subordinated indebtedness.

As of September 30, 2004, the Company had approximately \$585.5 million of debt, of which \$0.3 million was secured debt.

Because the Company's obligations under the new notes are not guaranteed by its subsidiaries, creditors of the Company's subsidiaries generally will have priority over the claims of the Holders with respect to the assets and earnings of the subsidiaries. As a result, the new notes will be structurally subordinated to the claims of creditors, including trade creditors, customers, and preferred stockholders (if any) of the Company's subsidiaries. As of September 30, 2004, the Company's subsidiaries had \$15.6 billion outstanding in such liabilities, excluding deposits, which were \$12.0 billion. Claims of the Holders will also rank lower in priority than the Company's guarantees of indebtedness of its subsidiaries, which the Company enters into in the ordinary course of business. As of September 30, 2004, there were \$ 223.6 million of such guarantees. In addition, from time to time the Company provides guarantees of obligations of its subsidiaries that fluctuate in amount based on the size of the relevant transaction, such as guarantees of foreign exchange agreements, standby letters of credit and securities lending obligations.

The new notes are also effectively subordinated to the secured debt of the Company and its subsidiaries, which the indenture permits the Company to incur more of under certain circumstances. If the Company's existing or future secured creditors were to exercise their rights to liquidate its pledged assets, they would be entitled to be repaid in full from the resulting proceeds before those assets would be available for distribution to other creditors, including holders of the new notes. Holders of the new notes would be entitled to make claims on the Company's remaining assets ratably with all of its other unsubordinated creditors. In such circumstances, there may not be sufficient assets remaining to pay amounts due on any or all of the new notes then outstanding.

Certain Covenants

The terms of the new notes will limit our ability and the ability of our Restricted Subsidiaries and, in certain limited cases, Regulated Subsidiaries, among other things, to:

- incur additional debt and issue Preferred Stock;
- pay dividends, acquire shares of capital stock, make payments on subordinated debt or make investments;
- place limitations on distributions from Regulated Subsidiaries or Restricted Subsidiaries;
- issue or sell capital stock of Regulated Subsidiaries or Restricted Subsidiaries;
- issue guarantees;
- sell or exchange assets;
- enter into transactions with shareholders and affiliates;
- create liens; and
- effect mergers.

These covenants are subject to important exceptions and qualifications, which are described under the heading "Description of the New Notes Covenants" in this prospectus. These exceptions and qualifications include, among other things, a variety of provisions that are intended to allow the Company to continue to conduct its brokerage and banking operations in the ordinary course of business.

Pursuant to the Indenture, the following covenants apply to the Company and its Restricted Subsidiaries, but generally do not apply to the Company's Regulated Subsidiaries:

- limitation on indebtedness and issuances of preferred stock, which restricts the Company's ability to incur additional indebtedness or to issue preferred stock;
- limitation on restricted payments, which generally restricts the Company's ability to declare certain dividends or distributions or to make certain investments;

- limitation on dividend and other payment restrictions affecting Restricted Subsidiaries or Regulated Subsidiaries, which generally prohibits restrictions on the ability of certain of the Company's subsidiaries to pay dividends or make other transfers;
- limitation on the issuance and sale of capital stock of Restricted Subsidiaries or Regulated Subsidiaries, which restricts sales of capital stock of certain of the Company's subsidiaries;

Table of Contents

- future Subsidiary Guarantees, which prohibits certain of the Company's subsidiaries from guaranteeing indebtedness of the Company or any Restricted Subsidiary unless the new notes are comparably guaranteed;
- limitation on transactions with shareholders and affiliates, which generally requires transactions among the Company's affiliated entities to be conducted on an arm's-length basis;
- limitation on liens, which generally prohibits the Company or its Restricted Subsidiaries from granting liens unless the new notes are comparably secured;
- limitation on sale-leaseback transactions, which generally prohibits the Company and its Restricted Subsidiaries from engaging in such transactions; and
- limitation on asset sales, which generally prohibits the Company and certain of its subsidiaries from selling assets or certain securities or property of significant subsidiaries.

Under certain circumstances, however, the covenants under Limitation on Indebtedness and Issuances of Preferred Stock, Limitation on Restricted Payments, Limitation on Dividend and Other Payment Restrictions Affecting Restricted Subsidiaries or Regulated Subsidiaries, Limitation on the Issuance and Sale of Capital Stock of Restricted Subsidiaries or Regulated Subsidiaries, Future Subsidiary Guarantees, Limitation on Transactions with Shareholders and Affiliates, Limitation on Sale-Leaseback Transactions and Limitation on Asset Sales may apply to the Company's Regulated Subsidiaries, depending on the nature of the transaction in question, whether a Regulated Subsidiary is incurring any Indebtedness (as defined in the Indenture) and a variety of other factors. In addition, the covenant under Limitation on Lines of Business, which generally prohibits the Company and certain of its subsidiaries from engaging in businesses unrelated to financial services, applies to the Company, its Restricted Subsidiaries and its Regulated Subsidiaries.

For purposes of these covenants, Regulated Subsidiaries generally include any of the Company's subsidiaries that are regulated by foreign, federal or state banking regulators; subsidiaries of such entities the sole purpose of which is to issue trust preferred securities; registered broker-dealers; entities that conduct an insurance business and that are regulated by a state, federal or foreign insurance regulatory body; and any other subsidiary that is

Table of Contents

subject to minimum capital requirements or other similar material regulatory requirements by applicable authorities. Restricted Subsidiaries generally include any of the Company's subsidiaries that are not Regulated Subsidiaries and that have not been designated by the Company's board of directors as unrestricted.

Neither the old notes nor the new notes have been rated by Moody's or Standard & Poor's. In the event that the new notes are rated investment grade by Moody's or Standard & Poor's, many of the restrictive covenants will permanently cease to apply.

As of September 30, 2004, Regulated Subsidiaries represented 97% of our total assets and for the nine months ended September 30, 2004, represented 98% and 83% of our total net revenues and net income, respectively.

Use of Proceeds

We will not receive any proceeds from the exchange of new notes for old notes.

- (1) For the nine months ended September 30, 2003 and 2004, amount is calculated as net revenues less expenses excluding interest.
- (2) For the nine months ended September 30, 2003 and 2004, amount is gain (loss) on sale and impairment of investments.
- (3) On June 30, 2004, the Company completed the sale of substantially all of the assets and liabilities of E*TRADE Access to Cardtronics, LP and Cardtronics, Inc. for \$106.7 million in cash. The Company has reflected E*TRADE Access' results of operations as discontinued operations for all periods presented.
- (4) In 2002, we recorded a \$293.7 million charge in connection with the cumulative effect of accounting changes resulting from the adoption of Statement of Financial Accounting Standards (SFAS) No. 142, *Goodwill and Other Intangible Assets*. This standard prohibits the amortization of goodwill and intangible assets with indefinite lives and requires the testing of these assets for impairment upon adoption of SFAS No. 142 and at least annually thereafter. Impairment of goodwill that was identified upon adoption in January 2002 is reported as a cumulative effect of accounting change.
- (5) For the nine months ended September 30, 2004, diluted net income per share is calculated using the if converted method, which includes the additional dilutive impact assuming conversion of the Company's subordinated convertible debt. Under the if converted method, the per share numerator excludes the interest expense and related amortization of offering costs from the convertible debt, net of tax of \$17.5 million. The denominator includes the shares issuable from the assumed conversion of the convertible debt of 31.8 million shares. For the other periods, the if converted method is not used as its effect would be anti-dilutive.
- (6) The ratio of earnings to fixed charges is computed by dividing (i) income before income taxes, equity in income of investments and fixed charges by (ii) fixed charges. Fixed charges consists of interest expense and the portion of rental expense which is deemed to represent interest. Earnings were insufficient to cover fixed charges for the year ended December 31, 2001, by \$254.8 million.

BUSINESS

E*TRADE Financial Corporation offers a wide range of financial solutions under the brand E*TRADE FINANCIAL. We offer value to our customers by using technology to provide brokerage, banking and lending solutions, primarily through electronic delivery channels. We serve retail, institutional and corporate customers. We derive a majority of our revenues from our retail customers and less than half of our revenues from our institutional customers. Retail customers can move money electronically between brokerage, banking and lending accounts and have access to physical touchpoints that include E*TRADE FINANCIAL Centers and E*TRADE FINANCIAL branded automated teller machines (ATMs) that are owned by Cardtronics, LP, located throughout the United States and Canada. We maintain E*TRADE FINANCIAL centers within the United States in Alpharetta, Georgia; Beverly Hills, California; Boston, Massachusetts; Chicago, Illinois; Costa Mesa, California; Denver, Colorado; New York, New York; Orlando, Florida; San Diego, California; and San Francisco, California. Institutional customers, from whom we derive a significant portion of our total revenues, enjoy access to a broad range of brokerage products and services, including cross-order trading and third party independent research. Corporate clients, from whom we derive less than 5% of our revenues, use our employee stock plan administration and options management tools and their employees maintain retail brokerage accounts to hold and manage their stock option and other equity compensation awards. As their awards vest and are exercised, we seek to expand our relationship with these employees and provide them with other brokerage and banking products.

Our business results are presented as two segments, Brokerage and Banking, which have different characteristics. The Brokerage segment earns revenues primarily from commissions, principal transactions and margin lending. The Banking segment earns revenues primarily from diversified interest-earning assets, gains on sales of loans and banking fees. During 2003, the Brokerage segment generated 59% and the Banking segment generated 41% of the Company's net revenues. In 2003, net interest income represented 27% of consolidated net revenue, commission revenues represented 23% of consolidated net revenue, gain on sales of loans and securities (net of provision for loan losses) represented 17% of consolidated net revenue, revenues from principal transactions represented 15% of consolidated net revenue, other brokerage-related revenues represented 12% of consolidated net revenue and other banking-related revenues represented the remaining 6% of consolidated net revenue. Increased market activity generally leads to higher revenues in the Brokerage segment, while reductions in loan prepayments and our cost of funds contribute to increases in our net interest spread and higher revenues in the Banking segment. During the first three quarters of 2003, the Banking segment generated greater operating income than the Brokerage segment as low interest rates spurred high volumes of new mortgage origination. In the fourth quarter of 2003, however, the Brokerage segment generated more operating income than the Banking segment due to a combination of increased trading activity in the equity markets, especially by retail investors, and a dramatic decline in refinancing and new mortgage originations.

The retail Brokerage business continues to be the primary point of introduction for the majority of our customers, and we have added Banking solutions, which complement our Brokerage business. In late 2003, we began lowering our overall cost of funds at the Bank and deepening our customer relationships by sweeping certain Brokerage customer money market balances into an FDIC-insured Sweep Deposit Account product, which reduced our reliance on other higher cost FDIC-insured deposit accounts including many market accounts and certificates of deposit and providing our Brokerage customers a higher rate of return. In addition, the Bank has added higher-yielding consumer loans to its portfolio of products that we will continue to integrate into our offerings to Brokerage customers.

In January 2005 we announced an organizational realignment to more directly link our business operations with our customer segments. As part of this realignment, we have implemented a new management structure that aligns all of our operations directly to new retail and institutional customer segments, marking a change from our prior business alignment of banking and brokerage. We also plan to realign our external financial segment reporting around the new retail and institutional customer segments for periods beginning on or after January 1, 2005.

We provide institutional customers with online brokerage and financial services, as well as direct access to international exchanges through a web-based platform. The platform also offers our institutional customers real-time, online access to statements and electronic settlement capabilities. A significant part of our institutional business includes providing our customers worldwide access to research provided by third parties. Our customers select research data they consider relevant and use it to assist in reaching trading decisions. Customers may use a portion of the commissions that they generate in trading securities to pay for the research services. We use our proprietary system to track the commissions a customer has generated and the corresponding research credits awarded.

Market-Making Activities. Market-making activities in listed issues are conducted by Dempsey, our Chicago Stock Exchange specialist. A specialist is an exchange member responsible for maintaining a fair and orderly market in securities assigned to that specialist, and frequently takes or is required to take principal positions in the securities it trades to counteract an imbalance in the supply and demand of a security. Trading gains or losses result from these activities. A specialist also acts as an agent when executing orders on behalf of the public. While a significant portion of security trades originated by E*TRADE Securities' customers are directed to Dempsey, a large percentage of Dempsey's trading volume comes from parties other than E*TRADE Securities. GVR, a wholly owned subsidiary of Dempsey, is a market-maker in Nasdaq National Market System and bulletin board securities.

Margin Lending. We make margin loans to customers, including employees, that are collateralized by their securities. Our margin lending is subject to the margin rules of the Board of Governors of the Federal Reserve System, NYSE margin requirements and our own internal policies, which are more stringent in some respects than the Federal Reserve and NYSE requirements. In permitting customers to purchase securities on margin, we take the risk of a market decline that could reduce the value of the collateral held by us below the customers' indebtedness before the collateral can be sold, which could result in losses to us. In overseas markets, the rules regarding margin lending vary significantly and are generally not as well defined as the rules within the U.S.

Clearing Operations. Clearing operations include the confirmation, receipt, settlement, custody and delivery functions involved in securities transactions. Performing substantially all of our own clearing operations allows E*TRADE Clearing to retain customer free credit balances and securities for use in margin and stock lending activities. E*TRADE Clearing had an agreement with BETA Systems, through January 2006, for the provision of computer services to support order entry, order routing, securities processing, customer statement preparation, tax reporting, regulatory reporting and other services necessary to manage a brokerage clearing business. E*TRADE Clearing signed an agreement with ADP Services to replace BETA Systems upon completion of certain contract milestones. In September 2004, we transitioned to ADP. We outsource clearing of all international institutional transactions with the exception of the Japanese, Hong Kong, Singapore and Thai markets.

Securities Lending and Borrowing. We borrow securities both to cover customer short sales and to complete customer transactions in the event a customer fails to deliver securities by the required settlement date. We collateralize such borrowings by depositing cash or securities with the lender and receive a rebate (in the case of cash collateral) or pay a fee calculated to yield a negotiated rate of return. When lending securities, we receive cash or securities and generally pay a rebate (in the case of cash collateral) to the other party in the transaction. Securities lending and borrowing transactions are generally conducted pursuant to written and/or oral agreements with counterparties requiring that the securities borrowed be marked-to-market on a daily basis through the facilities of the various national clearing organizations.

Proprietary Trading. Proprietary trading activities involve employing registered proprietary traders. Proprietary traders at E*TRADE Professional trade with the Company's capital, which consist of E*TRADE Professional's members' capital and retained profits. Traders are assigned buying power based upon their trading experience and performance, trading strategy and relationship with E*TRADE Professional's clearing firm. Trading gains and losses result from these activities.

RISK FACTORS

Risks Relating to Owning the New Notes

Our broker dealer and bank subsidiaries, which generate substantially all of our revenues and net income and own substantially all of our assets, are not subject to many of the restrictive covenants in the indenture governing the new notes

Our broker dealer and bank subsidiaries, which we refer to as our regulated subsidiaries, including E*TRADE Bank, E*TRADE Mortgage Corporation, E*TRADE Consumer Finance Corporation, E*TRADE Securities LLC, E*TRADE Clearing LLC and E*TRADE Professional Trading, LLC, are generally not subject to the restrictive covenants in the indenture that place limitations on the Company's actions, and where they are subject to covenants there are numerous exceptions and limitations. The indenture does not restrict our broker dealer or bank subsidiaries from incurring debt, which would be structurally senior to the new notes. Our broker dealer and bank subsidiaries are also not subject to restrictions relating to the sale of assets or making investments. The incurrence of debt, the sale of assets or the making on investments, without indenture restrictions, by our broker dealer and bank subsidiaries may impair our ability to make payments on principal and interest on the new notes. As of September 30, 2004, our regulated subsidiaries represented 97% of our total assets and, for the nine months ended September 30, 2004, represented 98% and 83% of our total net revenues and net income, respectively.

Our regulated subsidiaries are subject to regulation by U.S. Federal and state regulatory agencies and securities exchanges and by various non-U.S. governmental agencies or regulatory bodies, securities exchanges and central banks, each of which has been charged with the protection of the financial markets and seek to protect the interests of our broker dealer and bank clients. Such regulations may not serve, and you should not rely on them, to protect your interests as a holder of the new notes. Depending on these circumstances, these regulations may prevent our broker dealer or bank subsidiaries from paying dividends or other distributions to us without which we cannot make payments of interest or principal on the new notes.

We depend almost entirely on the cash flow from our subsidiaries to meet our obligations, and your right to receive payment on the new notes will be structurally subordinate to the obligations of these subsidiaries

Our subsidiaries are separate and distinct legal entities with no obligation to pay any amounts due pursuant to the notes or to provide us with funds for our payment obligations. Our cash flow and our ability to service our debt, including the new notes, may depend in part on the earnings of our subsidiaries and on the distribution of earnings, loans or other payments to us by these subsidiaries. These subsidiaries represented substantially all of our revenues and net profits in 2003 and for the nine months ended September 30, 2004. As of December 31, 2003 and as of September 30, 2004, these subsidiaries represented substantially all of our assets. In addition, the ability of these subsidiaries to make any dividend, distribution, loan or other payment to us could be subject to statutory or contractual restrictions. For example, in order for E*TRADE Bank to declare and pay a dividend, it would currently require the permission of its regulators. To date E*TRADE Bank has never applied for this permission, has never paid a dividend and has retained all net earnings for reinvestment in its business. Payments to us by these subsidiaries will also be contingent upon their earnings and their business considerations. Because we may depend in part on the cash flow of these subsidiaries to meet our obligations, these types of restrictions may impair our ability to make scheduled interest and principal payments on the new notes.

Furthermore, in the event of any bankruptcy, liquidation or reorganization of a non-guarantor subsidiary, you will not have any claim as a creditor against that subsidiary. As a result, all indebtedness and other liabilities, including trade payables, of the non-guarantor subsidiaries, whether secured or unsecured, must be satisfied before any of the assets of those subsidiaries would be available for distribution, upon a

Edgar Filing: E TRADE FINANCIAL CORP - Form 424B3

liquidation or otherwise, to us in order for us to meet our obligations with respect to the notes. As of September 30, 2004, our subsidiaries had \$15.6 billion in outstanding indebtedness, excluding deposits, and \$27.6 billion in outstanding indebtedness, including deposits.

Table of Contents

We will be substantially restricted by the terms of the new notes, which could adversely affect us and increase your credit risk

The indenture governing the new notes contains various covenants and restrictions that limit our ability and certain of our subsidiaries' ability to, among other things:

- incur additional indebtedness;
- create liens;
- pay dividends or make other distributions;
- repurchase or redeem capital stock;
- make investments or other restricted payments;
- enter into transactions with our stockholders or affiliates;
- sell assets or shares of capital stock of our subsidiaries;
- restrict dividend or other payments to us from our subsidiaries; and
- merge, consolidate or transfer substantially all of our assets.

As a result of the covenants and restrictions contained in the indenture, we are limited in how we conduct our business and we may be unable to raise additional debt or equity financing to compete effectively or to take advantage of new business opportunities. The terms of any future indebtedness we may incur could include more restrictive covenants.

We cannot assure you that we will be able to remain in compliance with these covenants in the future and, if we fail to do so, that we will be able to obtain waivers from the appropriate parties and/or amend the covenants.

Our substantial level of indebtedness could adversely affect our ability to react to changes in our business, and we may be limited in our ability to use debt to fund future capital needs

We have a substantial amount of indebtedness. As of September 30, 2004, our total debt was \$585.5 million. Our substantial indebtedness could have important consequences for you by adversely affecting our financial condition and thus making it more difficult for us to satisfy our

Edgar Filing: E TRADE FINANCIAL CORP - Form 424B3

obligations with respect to the notes. Our substantial indebtedness could:

- require us to dedicate a substantial portion of our cash flow from operations to payments in respect of our indebtedness, thereby reducing the availability of our cash flow to fund working capital, capital expenditures and other general corporate expenditures;
- increase our vulnerability to adverse general economic or industry conditions;
- limit our flexibility in planning for, or reacting to, competition and/or changes in our business or our industry;
- limit our ability to borrow additional funds;
- restrict us from making strategic acquisitions, introducing new products or services or exploiting business opportunities;
- make it more difficult for us to satisfy our obligations with respect to the new notes; and
- place us at a competitive disadvantage relative to competitors that have less debt or greater financial resources.

Table of Contents

The Company also guarantees certain indebtedness of its subsidiaries in the ordinary course of business. As of September 30, 2004, there were \$223.6 million of such guarantees. In addition, from time to time the Company provides guarantees of obligations of its subsidiaries that fluctuate in amount based on the size of the relevant transaction, such as guarantees of foreign exchange agreements, standby letters of credit and securities lending obligations.

We cannot guarantee that we will be able to generate enough cash flow from operations or that we will be able to obtain enough capital to service our debt, pay our obligations under our convertible notes or fund our planned capital expenditures. In addition, we may need to refinance some or all of our indebtedness on or before maturity. We cannot guarantee that we will be able to refinance our indebtedness on commercially reasonable terms or at all. We have the ability under our debt instruments to incur substantial additional indebtedness, and any additional indebtedness we incur could exacerbate the risks described above.

The new notes are subject to prior claims of our secured creditors, and if a default occurs, we may not have sufficient funds to fulfill our obligations under the new notes

As of September 30, 2004, we had approximately \$0.3 million of secured indebtedness outstanding. The indenture governing the new notes permits us and our subsidiaries to incur additional secured debt under specified circumstances. Our assets and the assets of our subsidiaries will be subject to prior claims by our secured creditors. In the event of our bankruptcy, liquidation, reorganization or other winding up, assets that secure debt will be available to pay obligations on the new notes only after all debt secured by those assets has been repaid in full. Holders of the new notes will participate in our remaining assets ratably with all of our unsubordinated creditors, including our trade payables. If we incur any additional obligations that rank equally with the new notes, including trade payables, the holders of those obligations will be entitled to share ratably with you in any proceeds distributed upon our insolvency, liquidation, reorganization, dissolution or other winding up. This may have the effect of reducing the amount of proceeds paid to you. If there are not sufficient assets remaining to pay all these creditors, then all or a portion of the new notes then outstanding would remain unpaid.

There is no public market for the new notes

The new notes are a new issue of securities and there is no existing trading market for the new notes. Although the initial purchasers have informed us that they intend to make a market in the new notes, they have no obligation to do so and may discontinue making a market at any time without notice. Accordingly, we cannot assure you that a liquid market will develop for the new notes, that you will be able to sell your new notes at a particular time or that the prices that you receive when you sell the new notes will be favorable.

We do not intend to apply for listing or quotation of the new notes on any securities exchange or stock market. The liquidity of any market for the new notes will depend on a number of factors, including:

- the number of holders of new notes;
- our operating performance and financial condition;
- the market for similar securities;

- the interest of securities dealers in making a market in the new notes; and
- prevailing interest rates.

Historically, the market for non-investment grade debt has been subject to disruptions that have caused substantial volatility in the prices of these securities. We cannot assure you that the market for the new notes will be free from similar disruptions. Any such disruptions could have an adverse effect on holders of the new notes.

Risks Relating to the Nature of the Financial Services Business

Many of our competitors have greater financial, technical, marketing and other resources than we do

We face direct competition from retail and institutional financial service companies in each of our lines of business. Many of our competitors have longer operating histories and greater resources than we do and offer a wider range of financial products and services. Many also have greater name recognition, greater market acceptance and larger customer bases. These competitors may conduct extensive promotional activities and offer better terms, lower prices and/or different products and services to customers than we do. Moreover, some of our competitors have established relationships among themselves or with third parties to enhance their products and services. This means that our competitors may be able to respond more quickly to new or changing opportunities and demands and withstand changing market conditions better than we can.

Downturns or disruptions in the securities markets could reduce transaction volumes and margin borrowing and increase our dependence on our more active customers who receive lower prices

A significant portion of our revenues in recent years has been from online investing services, and although we continue to diversify our revenue sources, we expect this business to continue to account for a significant portion of our revenues in the foreseeable future. Like other financial services firms, we are affected directly by national and global economic and political conditions, broad trends in business and finance, disruptions to the securities markets and changes in volume and price levels of securities and futures transactions.

A decrease in transaction volume may be more significant for us with respect to our less active customers, increasing our dependence on our more active and professional trading customers who receive more favorable pricing based on their transaction volume. Decreases in volumes, as well as securities prices, are also typically associated with a decrease in margin borrowing. Because we generate revenue from interest charged on margin borrowing, such decreases result in a reduction of revenue to E*TRADE Clearing. When transaction volume is low, our operating results are harmed in part because some of our overhead costs remain relatively fixed.

Downturns in the securities markets increase the credit risk associated with margin lending or stock loan transactions

We permit customers to purchase securities on margin. When the market declines rapidly, there is an increased risk that the value of the collateral we hold in connection with these transactions could fall below the amount of a customer's indebtedness. Similarly, as part of our broker-dealer operations, we frequently enter into arrangements with other broker-dealers for the lending of various securities. Under regulatory guidelines, when we borrow or lend securities, we must generally simultaneously disburse or receive cash deposits. We may risk losses if there are sharp changes in market values of many securities and the counterparties to the borrowing and lending transactions fail to honor their commitments. Any downturn in public equity markets may lead to a greater risk that parties to stock lending transactions may fail to meet their commitments.

We may be unsuccessful in managing the effects of changes in interest rates and the interest-bearing assets in our portfolio

Edgar Filing: E TRADE FINANCIAL CORP - Form 424B3

The results of operations for the Bank depend in large part upon its level of net interest income, that is, the difference between interest income from interest-earning assets (such as loans and mortgage-backed and other asset-backed securities) and interest expense on interest-bearing liabilities (such as deposits and borrowings). The Bank uses derivatives to help manage its interest rate risk. However, derivatives utilized may not be entirely effective and changes in market interest rates and the yield curve could reduce the value of the Bank's financial assets and reduce net interest income. Many factors affect interest rates, including governmental monetary policies and domestic and international economic and political conditions.

Table of Contents

The Bank's diversification of its asset portfolio may increase the level of charge-offs

As the Bank diversifies its asset portfolio through purchases and originations of higher-yielding asset classes, such as automobile, marine and recreational vehicle loans and credit card portfolios, we will have to manage assets that carry a higher risk of default than our mortgage portfolio. Consequently, the level of charge-offs associated with these assets may be higher than previously experienced. In addition, if the overall economy weakens, we could experience higher levels of charge-offs. If expectations of future charge-offs increase, a corresponding increase in the amount of our allowance for loan loss would be required. The increased level of provision for loan losses recorded to meet additional allowance for loan loss requirements could adversely affect our financial results if those higher yields do not cover the provision for loan losses.

An increase in our delinquency rate could adversely affect our results of operations

Our underwriting criteria or collection methods may not afford adequate protection against the risks inherent in the loans comprising our consumer loan portfolio. In the event of a default, the collateral value of the financed item may not cover the outstanding loan balance and costs of recovery. In the event our portfolio of consumer finance receivables experience higher delinquencies, foreclosures, repossessions or losses than anticipated, our results of operations or financial condition could be adversely affected.

Risks associated with principal trading transactions could result in trading losses

A majority of our specialist and market-making revenues at Dempsey are derived from trading by Dempsey as a principal. Dempsey may incur trading losses relating to the purchase, sale or short sale of securities for its own account, as well as trading losses in its specialist stocks and market maker stocks. From time to time, Dempsey may have large positions in securities of a single issuer or issuers engaged in a specific industry. Dempsey also operates a proprietary trading desk separately from its specialist and market maker operations, which may also incur trading losses.

Certain portions of our E*TRADE Professional business are also involved in proprietary trading, in which the firm provides capital that becomes traded by employees and others. Similar to Dempsey's business, the proprietary trading positions of E*TRADE Professional may also incur trading losses.

Reduced spreads in securities pricing, levels of trading activity and trading through market makers and/or specialists could harm our specialist and market maker business

The increase in computer generated buy/sell programs in the marketplace has continued to tighten spreads, resulting in reduced revenue capture per share by the specialist and market making community and reduced payment for order flow revenues for us. Similarly, a reduction in the volume and/or volatility of trading activity could also reduce spreads that specialists and market makers receive, also adversely affecting revenues generated by Dempsey.

Edgar Filing: E TRADE FINANCIAL CORP - Form 424B3

Alternative trading systems that have developed over the past few years could also reduce the levels of trading of exchange-listed securities through specialists and the levels of over-the-counter trading through market makers. In addition, electronic communication networks have emerged as an alternative forum to which broker-dealers and institutional investors can direct their limit orders. This allows broker-dealers and institutional investors to avoid directing their trades through market makers. As a result, Dempsey may experience a reduction in its flow of limit orders.

If we do not successfully manage consolidation opportunities, we could be at a competitive disadvantage

There has been significant consolidation in the online financial services industry over the last several years, and the consolidation is likely to continue in the future. Should we fail to take advantage of viable consolidation opportunities or if we overextend our efforts by acquiring businesses that we are unable to integrate or manage

Table of Contents

properly, we could be placed at a competitive disadvantage. Acquisitions entail numerous risks including retaining or hiring skilled personnel, integrating acquired operations, products and personnel and the diversion of management attention from other business concerns. In addition, there can be no assurance that we will realize a positive return on any acquisition or that future acquisitions will not be dilutive to earnings.

We rely heavily on technology to deliver products and services on a secure basis

Disruptions to or instability of our technology, including an actual or perceived breach of the security of our technology, could harm our business and our reputation.

The nature of our international efforts subject us to additional risks and regulation, which could impair our business growth

One component of our strategy has been an effort to build an international business. We have established certain joint venture and/or licensee relationships. We have limited control over the management and direction of these venture partners and/or licensees, and their action or inaction, including their failure to follow proper practices with respect to regulatory compliance and/or corporate governance, could harm our operations and/or our reputation.

Risks Relating to the Regulation of Our Business

We are subject to extensive government regulation, including banking and securities rules and regulations, which could restrict our business practices

The securities and banking industries are subject to extensive regulation. All of our broker-dealer subsidiaries have to comply with many laws and rules, including rules relating to possession and control of customer funds and securities, margin lending and execution and settlement of transactions. We are also subject to additional laws and rules as a result of our specialist and market maker operations.

To the extent that, now or in the future, we solicit orders from our customers or make investment recommendations (or are deemed to have done so), or offer products and services, such as investing in futures, that are not suitable for all investors, we would become subject to additional rules and regulations governing, among other things, sales practices and the suitability of recommendations to customers.

As part of our institutional business we provide clients access to certain third-party research tools and other services in exchange for commission earned. Currently, these activities are allowed by various regulatory bodies, however, changes have been proposed in the United Kingdom and the United States that may limit or eliminate altogether the services we could provide to clients in exchange for commissions. If these proposals are adopted, we may realize a decrease in our institutional commission revenues.

Edgar Filing: E TRADE FINANCIAL CORP - Form 424B3

Similarly, E*TRADE Financial Corporation, E*TRADE Re, LLC and ETBH, as savings and loan holding companies, and E*TRADE Bank, as a Federally chartered savings bank, are subject to extensive regulation, supervision and examination by the OTS, and, in the case of the Bank, the FDIC. Such regulation covers all banking business, including lending practices, safeguarding deposits, capital structure, recordkeeping, transactions with affiliates and conduct and qualifications of personnel.

If we fail to comply with applicable securities, banking and insurance laws, rules and regulations, we could be subject to disciplinary actions, damages, penalties or restrictions that could significantly harm our business

The SEC, NYSE, NASD, Commodity Futures Trading Commission or other self-regulatory organizations and state securities commissions can, among other things, censure, fine, issue cease-and-desist orders or suspend or expel a broker-dealer or any of its officers or employees. The OTS may take similar action with respect to our banking activities. Similarly, the attorneys general of each state could bring legal action on behalf of the citizens

Table of Contents

of the various states to ensure compliance with local laws. The ability to comply with applicable laws and rules is dependent in part on the establishment and maintenance of a reasonable compliance system. The failure to establish and enforce reasonable compliance procedures, even if unintentional, could subject us to significant losses or disciplinary or other actions.

If we do not maintain the capital levels required by regulators, we may be fined or even forced out of business

The SEC, NYSE, NASD, OTS and various other regulatory agencies have stringent rules with respect to the maintenance of specific levels of net capital by securities broker-dealers and regulatory capital by banks. Net capital is the net worth of a broker or dealer (assets minus liabilities), less deductions for certain types of assets. Failure to maintain the required net capital could result in suspension or revocation of registration by the SEC and suspension or expulsion by the NYSE and/or NASD, and could ultimately lead to the firm's liquidation. In the past, our broker-dealer subsidiaries have depended largely on capital contributions by us in order to comply with net capital requirements. If such net capital rules are changed or expanded, or if there is an unusually large charge against net capital, operations that require an intensive use of capital could be limited. Such operations may include investing activities, marketing and the financing of customer account balances. Also, our ability to withdraw capital from brokerage subsidiaries could be restricted, which in turn could limit our ability to repay debt and redeem or purchase shares of our outstanding stock. See the notes to our historical financial statements that are incorporated by reference in this prospectus for more information on the minimum net capital requirements for our domestic broker-dealer subsidiaries.

Similarly, the Bank is subject to various regulatory capital requirements administered by the OTS. Failure to meet minimum capital requirements can trigger certain mandatory, and possibly additional discretionary actions by regulators that, if undertaken, could harm a bank's operations and financial statements. A bank must meet specific capital guidelines that involve quantitative measures of a bank's assets, liabilities and certain off-balance sheet items as calculated under regulatory accounting practices. A bank's capital amounts and classification are also subject to qualitative judgments by the regulators about the strength of components of its capital, risk weightings of assets, off-balance sheet transactions and other factors.

Quantitative measures established by regulation to ensure capital adequacy require a bank to maintain minimum amounts and ratios of Total and Tier 1 Capital to risk-weighted assets and of Tier I Capital to adjusted total assets. To satisfy the capital requirements for a well capitalized financial institution, a bank must maintain minimum Total and Tier 1 Capital to risk-weighted assets and Tier I Capital to adjusted total assets ratios. See the notes to our historical financial statements that are incorporated by reference in this prospectus for more information on capital adequacy requirements for the Bank.

As a non-grandfathered savings and loan holding company, we are subject to regulations that could restrict our ability to take advantage of certain business opportunities

We are required to file periodic reports with the OTS and are subject to examination by the OTS. The OTS also has certain types of enforcement powers over the Company, ETBH and E*TRADE Re, LLC, including the ability to issue cease-and-desist orders, force divestiture of the Bank and impose civil and monetary penalties for violations of Federal banking laws and regulations or for unsafe or unsound banking practices. In addition, under the Gramm-Leach-Bliley Act, our activities are restricted to those that are financial in nature and certain real estate-related activities. We may make merchant banking investments in companies whose activities are not financial in nature if those investments are made for the purpose of appreciation and ultimate resale of the investment and we do not manage or operate the company. Such merchant banking investments may be subject to maximum holding periods and special recordkeeping and risk management requirements.

Edgar Filing: E TRADE FINANCIAL CORP - Form 424B3

We believe all of our existing activities and investments are permissible under the Gramm-Leach-Bliley Act, but the OTS has not yet fully interpreted these provisions. Even if our existing activities and investments are

Table of Contents

permissible, we are unable to pursue future activities that are not financial in nature. We are also limited in our ability to invest in other savings and loan holding companies.

In addition, the Bank is subject to extensive regulation of its activities and investments, capitalization, community reinvestment, risk management policies and procedures and relationships with affiliated companies. Acquisitions of and mergers with other financial institutions, purchases of deposits and loan portfolios, the establishment of new Bank subsidiaries and the commencement of new activities by Bank subsidiaries require the prior approval of the OTS, and in some cases the FDIC, which may deny approval or limit the scope of our planned activity. These regulations and conditions could place us at a competitive disadvantage in an environment in which consolidation within the financial services industry is prevalent. Also, these regulations and conditions could affect our ability to realize synergies from future acquisitions, could negatively affect us following the acquisition and could also delay or prevent the development, introduction and marketing of new products and services.

USE OF PROCEEDS

We will not receive any cash proceeds from the issuance of the new notes. The new notes will be exchanged for old notes as described in this prospectus upon our receipt of old notes. We will cancel all of the old notes surrendered in exchange for the new notes.

Our net proceeds from the sale of the old notes were approximately \$392 million, after deduction of the initial purchasers' discounts and commissions and other expenses of the offering. We used substantially all of those net proceeds to fund the redemptions in July 2004, of the remaining \$162.5 million principal amount of our 6¾% convertible subordinated notes due 2008 and of 50%, or \$185.2 million principal amount, of our 6% convertible subordinated notes due 2007. Any proceeds not applied in connection with such redemptions will be used for general corporate purposes, which may include the purchase of our debt securities (other than the old notes or the new notes) in the open market or in negotiated transactions.

The following table sets forth, as of September 30, 2004, our cash and cash equivalents and capitalization after giving effect to the application of the net proceeds from this offering and other transactions. This table should be read in conjunction with our historical financial statements and the related notes thereto, Use of Proceeds and Management's Discussion and Analysis of Financial Condition and Results of Operations, and other financial information that is included in or incorporated by reference in this offering memorandum.

- (1) On January 22, 2001, the Company changed its fiscal year-end from September 30 to December 31. Accordingly, results are separately disclosed for the three-month transition period ended December 31, 2000.
- (2) For the nine months ended September 30, 2003 and 2004, amount is calculated as Net Revenues less Expenses Excluding Interest.
- (3) For the nine months ended September 30, 2003 and 2004, amount is Gain (Loss) on Sale and Impairment of Investments.
- (4) On June 30, 2004, the Company completed the sale of substantially all of the assets and liabilities of E*TRADE Access to Cardtronics, LP and Cardtronics, Inc. for \$106.7 million in cash. The Company has reflected E*TRADE Access results of operations as discontinued operations for all periods presented.
- (5) In 2002, we recorded a \$293.7 million charge in connection with the cumulative effect of accounting changes resulting from the adoption of SFAS No. 142, *Goodwill and Other Intangible Assets*. This standard prohibits the amortization of goodwill and intangible assets with indefinite lives and requires the testing of these assets for impairment upon adoption of SFAS No. 142 and at least annually thereafter. Impairment of goodwill that was identified upon adoption in January 2002 is reported as a cumulative effect of accounting change. In 2002, the Company adopted SFAS No. 145, *Rescission of FASB Statements No. 4, 44, and 64, Amendment of FASB Statement No. 13, and Technical Corrections*, resulting in a reclassification of previously reported extraordinary gain (loss) on early extinguishment of debt, net of tax, to gain on early extinguishment of debt in non-operating income (expense); along with an adjustment of previously reported tax expense (benefit). In the three months ended December 31, 2000, a cumulative effect of a change in accounting principle resulted from the implementation of SFAS No. 133, *Accounting for Derivative Instruments and Hedging Activities*, which requires that all derivatives be recorded on the balance sheet at fair value, with the initial application reported as the cumulative effect of a change in accounting principle. In 1999, the cumulative effect of change in accounting principle resulted from the implementation of Statement of Position 98-5, *Reporting on the Cost of Start-Up Activities*, which requires that the cost of start-up activities be expensed as incurred rather than capitalized, with the initial application reported as the cumulative effect of a change in accounting principle.
- (6) For the nine months ended September 30, 2004, diluted net income per share is calculated using the if converted method, which includes the additional dilutive impact assuming conversion of the Company's subordinated convertible debt. Under the if converted method, the per share numerator excludes the interest expense and related amortization of offering costs from the convertible debt, net of tax of \$17.5 million. The denominator includes the shares issuable from the assumed conversion of the convertible debt of 31.8 million shares. For the other periods, the if converted method is not used as its effect would be anti-dilutive.
- (7) The ratio of earnings to fixed charges is computed by dividing (i) income before income taxes, equity in income of investments and fixed charges by (ii) fixed charges. Fixed charges consists of interest expense and the portion of rental expense which is deemed to represent interest. Earnings were insufficient to cover fixed charges for the years ended December 31, 2001, and September 30, 1999, by \$254,763 and \$80,651, respectively.

DESCRIPTION OF THE NEW NOTES

E*TRADE Financial Corporation (the **Company**) issued the old notes under, and the new notes will be subject to, an indenture (the **Indenture**), dated as of June 8, 2004 between the Company, as issuer, and The Bank of New York, as trustee (the **Trustee**). The terms of the Notes include those stated in the Indenture and those made part of the Indenture by reference to the Trust Indenture Act of 1939, as amended (the **TIA**).

The following is a summary of the material provisions of the Indenture but does not restate the Indenture in its entirety. You can find the definitions of certain capitalized terms used in the following summary under the subheading **Definitions**. We urge you to read the Indenture because it, and not this description, defines your rights as holders of the Notes. A copy of the proposed form of Indenture is available upon request from the Company. For purposes of this **Description of the New Notes**, the term **the Company** means E*TRADE Financial Corporation and its successors under the Indenture, in each case excluding its subsidiaries, and the term **Notes** refers collectively to the old notes and the new notes.

Our broker dealer and bank regulated subsidiaries, which we refer to as our **Regulated Subsidiaries**, are generally not subject to the restrictive covenants in the Indenture which place limitations on the **Company's** actions, and where they are subject to covenants, there are numerous exceptions and limitations. As of September 30, 2004, **Regulated Subsidiaries** represented 97% of our total assets and for the nine months ended September 30, 2004, represented 98% and 83% of our total net revenues and net income, respectively.

General

The new notes will be unsecured senior obligations of the Company, initially limited to \$400 million aggregate principal amount. The new notes will mature on June 15, 2011. Subject to the covenants described below under **Covenants** and applicable law, the Company may issue additional new notes (**Additional Notes**) under the Indenture. References to new notes means the new notes initially issued and any **Additional Notes** provided that the Company Incurred such **Additional Notes** in compliance with the covenant described under the caption **Covenants Limitation on Indebtedness and Issuances of Preferred Stock** below. The new notes offered hereby and any **Additional Notes** would be treated as a single class for all purposes under the Indenture.

Interest on the new notes will accrue at the rate *per annum* shown on the cover page hereof and will be payable semi-annually in cash on each June 15 and December 15 and commencing December 15, 2004, and accruing from the **Closing Date** of the offering. We will make interest payments to the persons who are registered holders at the close of business on the June 1 and December 1 immediately preceding the applicable interest payment date. Interest on the new notes will accrue from the most recent date on which interest on the new notes was paid or, if no interest has been paid, from and including the date on which the new notes were originally issued. Interest will be computed on the basis of a 360-day year of twelve 30-day months.

The new notes will initially be represented in the form of one or more global notes in fully registered book-entry form without interest coupons that will be deposited upon issuance with the Trustee as custodian for The Depository Trust Company, also referred to as **DTC**, in New York, New York and registered in the name of **DTC** or its nominee, in each case for credit to an account of a direct or indirect participant as described below. See **Book-Entry; Delivery and Form**.

Table of Contents**Optional Redemption**

The Company may redeem the Notes at any time on or after June 15, 2008. The redemption price for the Notes (expressed as a percentage of principal amount), will be as follows, plus accrued interest to the redemption date:

If Redeemed During the Twelve-	Redemption
Month Period Commencing June 15,	Price
2008	104.000%
2009	102.000%
2010 and thereafter	100.000%

In addition, at any time prior to June 15, 2007, the Company may redeem up to 35% of the principal amount of the Notes with the Net Cash Proceeds of one or more sales of its Capital Stock (other than Disqualified Stock) at a redemption price of 100% of their principal amount plus a premium equal to the interest rate per annum on the Notes applicable on the date on which notice of redemption is given, plus accrued interest; *provided* that at least 65% of the aggregate principal amount of Notes originally issued on the Closing Date remains outstanding after each such redemption and notice of any such redemption is mailed within 90 days of each such sale of Capital Stock.

The Company will give not less than 10 days nor more than 90 days notice of any redemption. If less than all of the Notes are to be redeemed, selection of the Notes for redemption will be made by the Trustee:

- in compliance with the requirements of the principal national securities exchange, if any, on which the Notes are listed, or,
- if the Notes are not listed on a national securities exchange, by lot or by such other method as the Trustee in its sole discretion shall deem to be fair and appropriate.

However, no Note of \$1,000 in principal amount or less shall be redeemed in part. If any Note is to be redeemed in part only, the notice of redemption relating to such Note will state the portion of the principal amount to be redeemed. A new Note in principal amount equal to the unredeemed portion will be issued upon cancellation of the original Note.

Ranking

The Notes will be general senior obligations of the Company and will rank equal in right of payment with all existing and future unsubordinated indebtedness of the Company. The Notes will also rank senior in right of payment to all existing and future subordinated indebtedness of the Company.

As of September 30, 2004, the Company had approximately \$585.5 million of senior debt (\$0.3 million of which was secured).

The Company currently conducts most of its operations through its Subsidiaries. As the Company's obligations under the Notes are not guaranteed by its Subsidiaries, creditors of the Company's Subsidiaries, including trade creditors, customers, and preferred stockholders, if any, of such Subsidiaries generally will have priority with respect to the assets and earnings of such Subsidiary over the claims of the Holders. The Notes, therefore, will be effectively subordinated to the claims of creditors, including trade creditors, customers and preferred stockholders, if any, of the Subsidiaries of the Company. As of September 30, 2004, after giving effect to the sale of the Notes in this offering and the application of the net proceeds from the offering of the Notes, the Company expects its Subsidiaries to have \$15.6 billion outstanding in such liabilities, excluding deposits of \$12.0 billion.

Table of Contents

The indenture permits the Company and its Subsidiaries to incur secured debt under specified circumstances. If the Company's existing or future secured creditors exercise their rights with respect to its pledged assets, the secured creditors would be entitled to be repaid in full from the proceeds of the liquidation of those assets before those assets would be available for distribution to other creditors, including holders of the Notes. Holders of the Notes will participate in the Company's remaining assets ratably with all of its other unsubordinated creditors. We advise you that there may not be sufficient assets remaining to pay amounts due on any or all of the Notes then outstanding.

Absence of FDIC Insurance and Guarantees

The Notes are not savings accounts or deposits with E*TRADE Bank or any other Subsidiary of the Company nor are they insured by the FDIC or by the United States or any agency or fund of the United States. In addition, the Notes are not obligations of, or guaranteed by any of our Subsidiaries. The Notes are not secured by our assets or those of any of our Subsidiaries.

Sinking Fund

There will be no sinking fund payments for the Notes.

Governing Law

The Indenture and the Notes will be governed by, and construed in accordance with, the laws of the State of New York.

Covenants

Overview

In the Indenture, the Company will agree to covenants that limit its and its Restricted Subsidiaries' and, in certain limited cases, Regulated Subsidiaries', ability, among other things, to:

- incur additional debt and issue Preferred Stock;
- pay dividends, acquire shares of capital stock, make payments on subordinated debt or make investments;
- place limitations on distributions from Regulated Subsidiaries or Restricted Subsidiaries;

- issue or sell capital stock of Regulated Subsidiaries or Restricted Subsidiaries;
- issue guarantees;
- sell or exchange assets;
- enter into transactions with shareholders and affiliates;
- create liens; and
- effect mergers.

Pursuant to the Indenture, the covenants under Limitation on Indebtedness and Issuances of Preferred Stock, Limitation on Restricted Payments, Limitation on Dividend and Other Payment Restrictions Affecting Restricted Subsidiaries or Regulated Subsidiaries, Limitation on the Issuance and Sale of Capital Stock of Restricted Subsidiaries or Regulated Subsidiaries, Future Subsidiary Guarantees, Limitation on Transactions with Shareholders and Affiliates, Limitation on Liens, Limitation on Sale-Leaseback Transactions, Limitation on Asset Sales, apply to the Company and the Restricted Subsidiaries, but generally do not apply to Regulated Subsidiaries.

Table of Contents

If a Change of Control occurs and triggers a Rating Decline, each Holder of Notes will have the right to require the Company to repurchase all or a part of the Holder's Notes at a price equal to 101% of their principal amount, plus any accrued interest to the date of repurchase.

Limitation on Indebtedness and Issuances of Preferred Stock

(a) The Company will not, and will not permit any of its Restricted Subsidiaries to, Incur any Indebtedness, including Disqualified Stock (other than the Notes, any Notes Guarantees, the Exchange Notes and Indebtedness existing on the Closing Date), and the Company will not permit any Restricted Subsidiary to issue Preferred Stock; *provided* that the Company or any Subsidiary Guarantor may Incur Indebtedness and any Restricted Subsidiary may Incur Acquired Indebtedness if, after giving effect to the Incurrence of such Indebtedness and the receipt and application of the proceeds therefrom, the Consolidated Fixed Charge Coverage Ratio would be greater than 2.5:1.

Notwithstanding the foregoing, the Company and any Restricted Subsidiary (except as specified below) may Incur each and all of the following:

(1) Indebtedness of the Company under any Credit Facility in an aggregate principal amount at any one time outstanding (with letters of credit being deemed to have a principal amount equal to the maximum potential liability of the Company and its Restricted Subsidiaries thereunder) not to exceed \$300 million;

(2) Indebtedness owed (A) to the Company or any Subsidiary Guarantor evidenced by an unsubordinated promissory note or (B) to any Restricted Subsidiary or Regulated Subsidiary; *provided* that (x) any event which results in any such Restricted Subsidiary or Regulated Subsidiary ceasing to be a Restricted Subsidiary or Regulated Subsidiary or any subsequent transfer of such Indebtedness (other than to the Company or another Restricted Subsidiary or Regulated Subsidiary) shall be deemed, in each case, to constitute an Incurrence of such Indebtedness not permitted by this clause (2) and (y) if the Company (or any Subsidiary that is a Subsidiary Guarantor at the time such Indebtedness is Incurred) is the obligor on such Indebtedness, such Indebtedness must be expressly contractually subordinated in right of payment to the Notes, in the case of the Company, or the Note Guarantee, in the case of a Subsidiary Guarantor;

(3) Indebtedness issued in exchange for, or the net proceeds of which are used to refinance or refund, then outstanding Indebtedness (other than Indebtedness outstanding under clause (1), (2) or (6)) and any refinancings thereof in an amount not to exceed the amount so refinanced or refunded (plus premiums, accrued interest, fees and expenses); *provided that* (a) Indebtedness the proceeds of which are used to refinance or refund the Notes or Indebtedness that is *pari passu* with, or subordinated in right of payment to, the Notes or a Note Guarantee shall only be permitted under this clause (3) if (x) in case the Notes are refinanced in part or the Indebtedness to be refinanced is *pari passu* with the Notes or a Note Guarantee, such new Indebtedness, by its terms or by the terms of any agreement or instrument pursuant to which such new Indebtedness is outstanding, is expressly made *pari passu* with, or subordinate in right of payment to, the remaining Notes or the Note Guarantee, or (y) in case the Indebtedness to be refinanced is subordinated in right of payment to the Notes or a Note Guarantee, such new Indebtedness, by its terms or by the terms of any agreement or instrument pursuant to which such new Indebtedness is issued or remains outstanding, is expressly made subordinate in right of payment to the Notes or the Note Guarantee at least to the extent that the Indebtedness to be refinanced is subordinated to the Notes or the Note Guarantee, (b) such new Indebtedness, determined as of the date of Incurrence of such new Indebtedness, does not mature prior to the Stated Maturity of the Indebtedness to be refinanced or refunded, and the Average Life of such new Indebtedness is at least equal to the remaining Average Life of the Indebtedness to be refinanced or refunded and (c) such new Indebtedness is Incurred by the Company or a Subsidiary Guarantor or by the Restricted Subsidiary that is the obligor on the Indebtedness to be refinanced or refunded;

(4) Indebtedness of the Company, to the extent the net proceeds thereof are promptly (A) used to purchase Notes tendered in an Offer to Purchase made as a result of a Change in Control or (B) deposited to defease the Notes as described under *Defeasance*; and

Table of Contents

(5) Guarantees of Notes and Guarantees of Indebtedness of the Company or by any Restricted Subsidiary provided the Guarantee of such Indebtedness is permitted by and made in accordance with the Future Subsidiary Guarantees covenant.

(b) Notwithstanding any other provision of this Limitation on Indebtedness and Issuances of Preferred Stock covenant, the maximum amount of Indebtedness that may be Incurred pursuant to this Limitation on Indebtedness and Issuances of Preferred Stock covenant will not be deemed to be exceeded, with respect to any outstanding Indebtedness due solely to the result of fluctuations in the exchange rates of currencies or due to fluctuations in the value of commodities or securities which underlie such Indebtedness. For the purposes of determining compliance with any restriction on the Incurrence of Indebtedness (x), the U.S dollar equivalent principal amount of any Indebtedness denominated in a foreign currency shall be calculated based on the relevant currency exchange rate in effect on the date such Indebtedness was Incurred, in the case of term debt, or first committed, in the case of revolving credit debt and (y) the principal amount of any Indebtedness which is calculated by reference to any underlying security or commodity shall be calculated based on the relevant closing price of such commodity or security on the date such Indebtedness was incurred.

(c) For purposes of determining any particular amount of Indebtedness under this Limitation on Indebtedness and Issuances of Preferred Stock covenant, (x) Indebtedness outstanding under any Credit Facility on the Closing Date shall be treated as Incurred pursuant to clause (1) of the second paragraph of clause (a) of this Limitation on Indebtedness and Issuances of Preferred Stock covenant, (y) Guarantees, Liens or obligations with respect to letters of credit supporting Indebtedness otherwise included in the determination of such particular amount shall not be included and (z) any Liens granted pursuant to the equal and ratable provisions referred to in the Limitation on Liens covenant shall not be treated as Indebtedness. For purposes of determining compliance with this Limitation on Indebtedness and Issuances of Preferred Stock covenant, if an item of Indebtedness meets the criteria of more than one of the types of Indebtedness described above (other than Indebtedness referred to in clause (x) of the preceding sentence), including under the first paragraph of part (a), the Company, in its sole discretion, shall classify, and from time to time may reclassify, such item of Indebtedness.

(d) Neither the Company nor any Subsidiary Guarantor will Incur any Indebtedness if such Indebtedness is subordinate in right of payment to any other Indebtedness unless such Indebtedness is also subordinate in right of payment to the Notes or the applicable Note Guarantee to the same extent.

(e) The Company will not permit any Regulated Subsidiary (x) to Incur any Indebtedness the proceeds of which are not invested in the business of such Bank Regulated Subsidiary (or any Subsidiary of such Bank Regulated Subsidiary) or such Broker Dealer Regulated Subsidiary (or any Subsidiary of such Broker Dealer Regulated Subsidiary which is also a Regulated Subsidiary), (y) to Incur any Indebtedness for the purpose, directly or indirectly, of dividending or distributing the proceeds of such Indebtedness to the Company or any Restricted Subsidiary; *except* that the Incurrence of Indebtedness by a Regulated Subsidiary that does not comply with (x) and (y) above shall be permitted provided that such Incurrence complies with paragraph (a) of this Limitation on Indebtedness and Issuances of Preferred Stock covenant as if such paragraph applied to such Regulated Subsidiary.

Limitation on Restricted Payments

(a) The Company will not, and will not permit any Restricted Subsidiary or Regulated Subsidiary to, directly or indirectly,

(1) declare or pay any dividend or make any distribution on or with respect to its Capital Stock held by Persons other than the Company or any of its Restricted Subsidiaries or Regulated Subsidiaries (other than (w) dividends or distributions payable solely in shares of its Capital Stock (other than Disqualified Stock) or in options, warrants or other rights to acquire shares of such Capital Stock, (x) pro rata dividends or

distributions on Common Stock of Restricted Subsidiaries or Regulated Subsidiaries held by minority

stockholders, (y) dividends or distributions on non-voting Preferred Stock the proceeds from the sale of which were invested in the business of such Regulated Subsidiary (or any Subsidiary of such Regulated Subsidiary which is also a Regulated Subsidiary), and (z) pro rata dividends on Preferred Stock of Subsidiaries that are real estate investment trusts, including Highland REIT, Inc., held by minority stockholders;

(2) purchase, call for redemption or redeem, retire or otherwise acquire for value any shares of Capital Stock of (A) the Company or any Subsidiary Guarantor (including options, warrants or other rights to acquire such shares of Capital Stock) held by any Person (other than the Company, any Restricted Subsidiary or any Regulated Subsidiary) or (B) a Restricted Subsidiary or Subsidiary Guarantor (including options, warrants or other rights to acquire such shares of Capital Stock) held by any Affiliate of the Company (other than the Company or a Wholly Owned Restricted Subsidiary or Wholly Owned Regulated Subsidiary);

(3) make any voluntary or optional principal payment, or voluntary or optional redemption, repurchase, defeasance, or other acquisition or retirement for value, of Indebtedness of the Company that is subordinated in right of payment to the Notes or any Indebtedness of a Subsidiary Guarantor that is subordinated in right of payment to a Note Guarantee; or

(4) (a) with respect to the Company and any Restricted Subsidiary, make any Investment, other than a Permitted Investment, in any Person, and (b) with respect to any Regulated Subsidiary, make any Investment in an Unrestricted Subsidiary (such payments or any other actions described in clauses (1) through (4) above being collectively Restricted Payments);

if, at the time of, and after giving effect to, the proposed Restricted Payment:

(o) any Subsidiary Guarantor that is a Significant Subsidiary repudiates its obligations under its Note Guarantee or, except as permitted by the Indenture, any Note Guarantee is determined to be unenforceable or invalid or shall for any reason cease to be in full force and effect.

If an Event of Default (other than an Event of Default specified in clause (g) or (h) above that occurs with respect to the Company or any Subsidiary Guarantor) occurs and is continuing under the Indenture, the Trustee or the Holders of at least 25% in aggregate principal amount of the Notes, then outstanding, by written notice to the Company (and to the Trustee if such notice is given by the Holders), may, and the Trustee at the request of such Holders shall, declare the principal of, premium, if any, and accrued interest on the Notes to be immediately due and payable. Upon a declaration of acceleration, such principal of, premium, if any, and accrued interest shall be immediately due and payable. In the event of a declaration of acceleration because an Event of Default set forth in clause (e) above has occurred and is continuing, such declaration of acceleration shall be automatically rescinded and annulled if the event of default triggering such Event of Default pursuant to clause (e) shall be remedied or cured by the Company or the relevant Significant Subsidiary or waived by the holders of the relevant Indebtedness within 60 days after the declaration of acceleration with respect thereto. If an Event of Default specified in clause (g) or (h) above occurs with respect to the Company, the principal of, premium, if any, and accrued interest on the Notes then outstanding shall automatically become and be immediately due and payable without any declaration or other act on the part of the Trustee or any Holder. The Holders of at least a majority in principal amount of the outstanding Notes by written notice to the Company and to the Trustee, may waive all past defaults and rescind and annul a declaration of acceleration and its consequences if (x) all existing Events of Default, other than the nonpayment of the principal of, premium, if any, and interest on the Notes that have become due solely by such declaration of acceleration, have been cured or waived and (y) the rescission would not conflict with any judgment or decree of a court of competent jurisdiction. For information as to the waiver of defaults, see Modification and Waiver.

The Holders of at least a majority in aggregate principal amount of the outstanding Notes may direct the time, method and place of conducting any proceeding for any remedy available to the Trustee or exercising any trust or power conferred on the Trustee. However, the Trustee may refuse to follow any direction that conflicts with law or the Indenture, that may involve the Trustee in personal liability, or that the Trustee determines in good faith may be unduly prejudicial to the rights of Holders of Notes not joining in the giving of such direction and may take any other action it deems proper that is not inconsistent with any such direction received from Holders of Notes. A Holder may not pursue any remedy with respect to the Indenture or the Notes unless:

- (1) the Holder gives the Trustee written notice of a continuing Event of Default;
- (2) the Holders of at least 25% in aggregate principal amount of outstanding Notes make a written request to the Trustee to pursue the remedy;
- (3) such Holder or Holders offer the Trustee indemnity satisfactory to the Trustee against any costs, liability or expense;
- (4) the Trustee does not comply with the request within 60 days after receipt of the request and the offer of indemnity; and
- (5) during such 60-day period, the Holders of a majority in aggregate principal amount of the outstanding Notes do not give the Trustee a direction that is inconsistent with the request.

However, such limitations do not apply to the right of any Holder of a Note to receive payment of the principal of, premium, if any, or interest on, such Note or to bring suit for the enforcement of any such payment, on or after the due date expressed in the Notes, which right shall not be

impaired or affected without the consent of the Holder.

Officers of the Company must certify, on or before a date not more than 90 days after the end of each fiscal year, that a review has been conducted of the activities of the Company and its Restricted Subsidiaries and Regulated Subsidiaries and the Company's and its Restricted Subsidiaries and its Regulated Subsidiaries

performance under the Indenture and that, to their knowledge, the Company has fulfilled all obligations thereunder, or, if there has been a default in the fulfillment of any such obligation, specifying each such default and the nature and status thereof. The Company will also be obligated to notify the Trustee of any default or defaults in the performance of any covenants or agreements under the Indenture.

Consolidation, Merger and Sale of Assets

The Company will not consolidate with, merge with or into, or sell, convey, transfer, lease or otherwise dispose of all or substantially all of its property and assets (as an entirety or substantially an entirety in one transaction or a series of related transactions) to, any Person or permit any Person to merge with or into it unless:

(1) it shall be the continuing Person, or the Person (if other than it) formed by such consolidation or into which it is merged or that acquired or leased such property and assets of (the Surviving Person) shall be an entity organized and validly existing under the laws of the United States of America or any jurisdiction thereof and shall expressly assume, by a supplemental indenture, executed and delivered to the Trustee, all of the Company's obligations under the Indenture and the Notes; *provided*, that if such continuing Person or Person shall not be a corporation, such entity shall organize or have a wholly-owned Subsidiary in the form of a corporation organized and validly existing under the laws of the United States or any jurisdiction thereof, and shall cause such corporation to expressly assume, as a party to the supplemental indenture referenced above, as a co-obligor, each of such continuing Person or Person's obligations under the Indenture and the Notes;

(2) immediately after giving effect to such transaction, no Default or Event of Default shall have occurred and be continuing;

(3) immediately after giving effect to such transaction on a *pro forma* basis, the Company or the Surviving Person, as the case may be, shall have a Consolidated Net Worth equal to or greater than the Consolidated Net Worth of the Company immediately prior to such transaction;

(4) immediately after giving effect to such transaction on a *pro forma* basis the Company or the Surviving Person, as the case may be, could Incur at least \$1.00 of Indebtedness under the first paragraph of the Limitation on Indebtedness and Issuances of Preferred Stock covenant;

(5) it delivers to the Trustee an Officers' Certificate (attaching the arithmetic computations to demonstrate compliance with clauses (3) and (4)) and Opinion of Counsel, in each case stating that such consolidation, merger or transfer and such supplemental indenture complies with this provision and that all conditions precedent provided for herein relating to such transaction have been complied with; and

(6) each Subsidiary Guarantor, unless such Subsidiary Guarantor is the Person with which the Company has entered into a transaction under this Consolidation, Merger and Sale of Assets section, shall have by amendment to its Note Guarantee confirmed that its Note Guarantee shall apply to the obligations of the Company or the Surviving Person in accordance with the Notes and the Indenture;

provided, however, that clauses (3) and (4) above do not apply if, in the good faith determination of the Board of Directors of the Company, whose determination shall be evidenced by a Board Resolution, the principal purpose of such transaction is to change the state of organization or convert the form of organization of the Company to another form, and any such transaction shall not have as one of its purposes the evasion of

the foregoing limitations.

Defeasance

Defeasance and Discharge

The Indenture will provide that the Company will be deemed to have paid and will be discharged from any and all obligations in respect of the Notes on the 91st day after the deposit referred to below, and the provisions of the Indenture will no longer be in effect with respect to the Notes (except for, among other matters, certain

obligations to register the transfer or exchange of the Notes, to replace stolen, lost or mutilated Notes, to maintain paying agencies and to hold monies for payment in trust) if, among other things:

(A) the Company has deposited with the Trustee, in trust, money and/or U.S. Government Obligations that through the payment of interest and principal in respect thereof in accordance with their terms will provide money in an amount sufficient to pay the principal of, premium, if any, and accrued interest on the Notes on the Stated Maturity of such payments in accordance with the terms of the Indenture and the Notes;

(B) the Company has delivered to the Trustee (1) either (x) an Opinion of Counsel to the effect that Holders will not recognize income, gain or loss for federal income tax purposes as a result of the Company's exercise of its option under this Defeasance provision and will be subject to federal income tax on the same amount and in the same manner and at the same times as would have been the case if such deposit, defeasance and discharge had not occurred, which Opinion of Counsel must be based upon (and accompanied by a copy of) a ruling of the Internal Revenue Service to the same effect unless there has been a change in applicable federal income tax law after the Closing Date such that a ruling is no longer required or (y) a ruling directed to the Trustee received from the Internal Revenue Service to the same effect as the aforementioned Opinion of Counsel and (2) an Opinion of Counsel to the effect that the defeasance trust is not required to register as an investment company under the Investment Company Act of 1940 and, after the passage of 123 days following the deposit, the trust fund will not be subject to the effect of Section 547 of the United States Bankruptcy Code or Section 15 of the New York Debtor and Creditor Law; and

(C) immediately after giving effect to such deposit on a *pro forma basis*, no Event of Default, or event that after the giving of notice or lapse of time or both would become an Event of Default, shall have occurred and be continuing on the date of such deposit or during the period ending on the 123rd day after the date of such deposit, and such deposit shall not result in a breach or violation of, or constitute a default under, any other agreement or instrument to which the Company or any of its Subsidiaries is a party or by which the Company or any of its Subsidiaries is bound.

Defeasance of Certain Covenants and Certain Events of Default

The Indenture further will provide that the provisions of the Indenture will no longer be in effect with respect to clauses (3) and (4) under Consolidation, Merger and Sale of Assets and all the covenants described herein under Covenants, clause (c) under Events of Default with respect to such clauses (3) and (4) under Consolidation, Merger and Sale of Assets, clause (d) under Events of Default with respect to such other covenants and clauses (e) and (f) under Events of Default shall be deemed not to be Events of Default upon, among other things, the deposit with the Trustee, in trust, of money and/or U.S. Government Obligations that through the payment of interest and principal in respect thereof in accordance with their terms will provide money in an amount sufficient to pay the principal of, premium, if any, and accrued interest on the Notes on the Stated Maturity of such payments in accordance with the terms of the Indenture and the Notes, the satisfaction of the provisions described in clauses (B)(2) and (C) of the preceding paragraph and the delivery by the Company to the Trustee of an Opinion of Counsel to the effect that, among other things, the Holders will not recognize income, gain or loss for federal income tax purposes as a result of such deposit and defeasance of certain covenants and Events of Default and will be subject to federal income tax on the same amount and in the same manner and at the same times as would have been the case if such deposit and defeasance had not occurred.

Defeasance and Certain Other Events of Default

If the Company exercises its option to omit compliance with certain covenants and provisions of the Indenture with respect to the Notes as described in the immediately preceding paragraph and the Notes are declared due and payable because of the occurrence of an Event of Default that remains applicable, the amount of money and/or U.S. Government Obligations on deposit with the Trustee will be sufficient to pay amounts

Edgar Filing: E TRADE FINANCIAL CORP - Form 424B3

due on the Notes at the time of their Stated Maturity but may not be sufficient to pay amounts due on the Notes at the time of the acceleration resulting from such Event of Default. However, the Company will remain liable for such payments, and any Subsidiary Guarantor's Note Guarantee with respect to such payments will remain in effect.

Satisfaction and Discharge

The Indenture will be discharged and will cease to be of further effect as to all Notes issued thereunder when:

(1) either:

(a) all Notes that have been authenticated and delivered (other than destroyed, lost or stolen Notes that have been replaced, notes that are paid and notes for whose payment money or securities have theretofore been deposited in trust and thereafter repaid to the Company) have been delivered to the Trustee for cancellation and the Company has paid all sums payable under such Indenture; or

(b) all Notes mature within one year or are to be called for redemption within one year and the Company has irrevocably deposited with the Trustee, as trust funds in trust solely for the benefit of the holders, money or U.S. Government Obligations sufficient, without consideration of any reinvestment of interest, to pay principal, premium, if any, and accrued interest on the notes to the date of maturity or redemption and all other sums payable under such Indenture;

(2) no Default or Event of Default shall have occurred and be continuing on the date of such deposit and such deposit will not result in a breach or violation of, or constitute a default under such Indenture or any other instrument to which the Company or any Subsidiary Guarantor is a party or by which the Company or any Subsidiary Guarantor is bound; and

(3) the Company has delivered irrevocable instructions to the Trustee to apply the deposited money toward the payment of the Notes at maturity or the redemption date, as applicable.

In addition, the Company must deliver an Officers Certificate and an Opinion of Counsel to the Trustee stating that all conditions precedent to satisfaction and discharge have been satisfied.

Modification and Waiver

The Indenture may be amended or supplemented, without the consent of any Holder, to:

(1) cure any ambiguity, defect or inconsistency in the Indenture, *provided* that such amendments or supplements shall not, in the good faith opinion of the Board of Directors of the Company as evidenced by a board resolution, adversely affect the interest of the holders in any material respect;

Edgar Filing: E TRADE FINANCIAL CORP - Form 424B3

- (2) comply with the provisions described under Consolidation, Merger and Sale of Assets or Guarantees by Restricted Subsidiaries ;

- (3) comply with any requirements of the Securities and Exchange Commission in connection with the qualification of the Indenture under the TIA;

- (4) evidence and provide for the acceptance of appointment by a successor Trustee;

- (5) make any change that, in the good faith opinion of the Board of Directors as evidenced by a Board Resolution, does not materially and adversely affect the rights of any Holder;

- (6) to provide for uncertificated Notes in addition to or in place of certificated Notes;

- (7) to provide for the issuance of Additional Notes in accordance with the Indenture;

- (8) add Guarantees with respect to the Notes in accordance with the applicable provisions of the Indenture;

- (9) secure the Notes; or

- (10) to conform any provision contained in the Indenture to this Description of the Notes.

Modifications and amendments of the Indenture may be made by the Company and the Trustee with the consent of the Holders of not less than a majority in aggregate principal amount of the outstanding Notes;

Table of Contents

provided, however, that no such modification or amendment may, without the consent of each Holder affected thereby:

- (1) change the Stated Maturity of the principal of, or any installment of interest on, any Note;
- (2) reduce the principal amount of, or premium, if any, or interest on, any Note;
- (3) change the optional redemption dates or optional redemption prices of the Notes from that stated under the caption *Optional Redemption* ;
- (4) change the place or currency of payment of principal of, or premium, if any, or interest on, any Note;
- (5) impair the right to institute suit for the enforcement of any payment on or after the Stated Maturity (or, in the case of a redemption, on or after the Redemption Date) of any Note;
- (6) waive a default in the payment of principal of, premium, if any, or interest on the Notes or modify any provision of the Indenture relating to modification or amendment thereof;
- (7) reduce the above-stated percentage of outstanding notes of such series, the consent of whose holders is necessary to modify or amend the applicable indenture;
- (8) release any Subsidiary Guarantor from its Notes Guarantee, except as provided in the Indenture; or
- (9) reduce the percentage or aggregate principal amount of outstanding Notes the consent of whose Holders is necessary for waiver of compliance with certain provisions of the Indenture or for waiver of certain defaults.

No Personal Liability of Incorporators, Stockholders, Officers, Directors, or Employees

No recourse for the payment of the principal of, premium, if any, or interest on any of the Notes or for any claim based thereon or otherwise in respect thereof, and no recourse under or upon any obligation, covenant or agreement of the Company in the Indenture, or in any of the Notes or because of the creation of any Indebtedness represented thereby, shall be had against any incorporator, stockholder, officer, director, employee, manager, partner, equityholder or controlling person of the Company or of any successor Person thereof. Each Holder, by accepting the Notes, waives and releases all such liability. The waiver and release are part of the consideration for the issuance of the Notes. Such waiver may not be effective to waive liabilities under the federal securities laws.

The Trustee

Except during the continuance of a Default, the Trustee will not be liable, except for the performance of such duties as are specifically set forth in the Indenture. If an Event of Default has occurred and is continuing, the Trustee will use the same degree of care and skill in its exercise of the rights and powers vested in it under the Indenture as a prudent person would exercise under the circumstances in the conduct of such person's own affairs.

The Indenture and provisions of the TIA, incorporated by reference therein contain limitations on the rights of the Trustee, should it become a creditor of the Company, to obtain payment of claims in certain cases or to realize on certain property received by it in respect of any such claims, as security or otherwise. The Trustee is permitted to engage in other transactions; *provided, however*, that if it acquires any conflicting interest, it must eliminate such conflict or resign.

Book-Entry; Delivery and Form

The new notes will initially be represented in the form of one or more global notes in fully registered book-entry form without interest coupons that will be deposited upon issuance with the Trustee as custodian for The Depository Trust Company, also referred to as DTC, in New York, New York and registered in the name of DTC or its nominee, in each case for credit to an account of a direct or indirect participant as described below.

Table of Contents

Except as set forth below, the global notes may be transferred, in whole but not in part, only to another nominee of DTC or to a successor of DTC or its nominee. Beneficial interests in the global notes may not be exchanged for notes in certificated form except in the limited circumstances described below. See Exchange of Book-Entry Notes for Certificated Notes. In addition, transfer of beneficial interests in the global notes will be subject to the applicable rules and procedures of DTC and its direct or indirect participants (including, if applicable, those of Euroclear and Clearstream), which may change from time to time.

The Notes may be presented for registration of transfer and exchange at the offices of the registrar.

Depository Procedures

DTC has advised the Company that DTC is a limited-purpose trust company created to hold securities for its participating organizations and to facilitate the clearance and settlement of transactions in those securities between the Participants through electronic book-entry changes in accounts of the participants. The participants include securities brokers and dealers (including the initial purchasers), banks, trust companies, clearing corporations and certain other organizations. Access to DTC's system is also available to other entities such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a participant, either directly or indirectly. Persons who are not participants may beneficially own securities held by or on behalf of DTC only through the participants or the indirect participants. The ownership interest and transfer of ownership interest of each actual purchaser of each security held by or on behalf of DTC are recorded on the records of the participants and the indirect participants.

DTC has also advised the Company that, pursuant to procedures established by it,

(1) upon deposit of the global notes, DTC will credit the accounts of participants designated by the beneficiaries with portions of the principal amount of the global notes; and

(2) ownership of such interests in the global notes will be shown on, and the transfer of ownership thereof will be effected only through, records maintained by DTC (with respect to the participants) or by the participants and the indirect participants (with respect to other owners of beneficial interests in the global notes).

All interests in a global note, including those held through Euroclear or Clearstream, may be subject to the procedures and requirements of DTC. Those interests held through Euroclear or Clearstream may also be subject to the procedures and requirements of such system.

The laws of some states require that certain persons take physical delivery in definitive form of securities that they own. Consequently, the ability to transfer beneficial interests in a global note to such persons may be limited to that extent. Because DTC can act only on behalf of the participants, which in turn act on behalf of the indirect participants and certain banks, the ability of a person having beneficial interests in a global note to pledge such interests to persons or entities that do not participate in the DTC system or otherwise take actions in respect of such interests, may be affected by the lack of a physical certificate evidencing such interests.

Except as described below, owners of interests in the global notes will not have notes registered in their names, will not receive physical delivery of notes in certificated form and will not be considered the registered owners or holders thereof under the indenture for any purpose.

Payments in respect of the principal of (and premium, if any) and interest on a global note registered in the name of DTC or its nominee will be payable to DTC or its nominee in its capacity as the registered holder under the indentures. Under the terms of the indenture, the Company and the Trustee will treat the persons in whose names the notes, including the global notes, are registered as the owners thereof for the purpose of receiving such payments and for any and all other purposes whatsoever. Consequently, none of the Company, the placement agents, the Trustee nor any agent of the Company, the placement agents or the Trustee has or will have any

Table of Contents

responsibility or liability for (1) any aspect or accuracy of DTC's records or any participant's or indirect participant's records relating to the beneficial ownership or (2) any other matter relating to the actions and practices of DTC or any of the participants or the indirect participants.

The Company understands that DTC's current practice, upon receipt of any payment in respect of securities such as the notes (including principal and interest), is to credit the accounts of the relevant participants with the payment on the payment date, in amounts proportionate to their respective holdings in principal amount of beneficial interests in the relevant security as shown on the records of DTC. Payments by the participants and the indirect participants to the beneficial owners of notes will be governed by standing instructions and customary practices and will not be the responsibility of DTC, the Trustee or the Company. None of the Company nor the Trustee will be liable for any delay by DTC or any of the participants in identifying the beneficial owners of the notes, and the Company and the Trustee may conclusively rely on and will be protected in relying on instructions from DTC or its nominee as the registered owner of the global notes for all purposes.

Except for trades involving only Euroclear and Clearstream participants, interests in the global notes will trade in DTC's same-day funds settlement system and secondary market trading activity in such interests will therefore settle in immediately available funds, subject in all cases to the rules and procedures of DTC and the participants.

Transfers between participants in DTC will be effected in accordance with DTC's procedures and will be settled in same-day funds. Transfers between accountholders in Euroclear and Clearstream will be effected in the ordinary way in accordance with their respective rules and operating procedures.

Subject to compliance with the transfer restrictions applicable to the Notes described herein, cross-market transfers between the accountholders in DTC on the one hand and directly or indirectly through Euroclear or Clearstream accountholders, on the other hand, will be effected through DTC in accordance with DTC's rules on behalf of Euroclear or Clearstream, as the case may be, by its respective depository; however, such cross-market transactions will require delivery of instructions to Euroclear or Clearstream, as the case may be, by the counterparty in such system in accordance with the rules and procedures and within the established deadlines (Brussels time) of such system. Euroclear or Clearstream, as the case may be, will, if the transaction meets its settlement requirements, deliver instructions to its respective depository to take action to effect final settlement on its behalf by delivering or receiving interests in the relevant global note in DTC, and making or receiving payment in accordance with normal procedures for same-day funds settlement applicable to DTC. Euroclear or Clearstream accountholders may not deliver instructions directly to the depositories for Euroclear or Clearstream.

Because of time zone differences, the securities account of a Euroclear or Clearstream accountholder purchasing an interest in a global note from an accountholder in DTC will be credited, and any such crediting will be reported to the relevant Euroclear or Clearstream participant, during the securities settlement processing day (which must be a business day for Euroclear or Clearstream) immediately following the settlement date of DTC. Cash received in Euroclear or Clearstream as a result of sales of interests in a global note by or through a Euroclear or Clearstream accountholder to a participant in DTC will be received with value on the settlement date of DTC but will be available in the relevant Euroclear or Clearstream cash account only as of the business day for Euroclear or Clearstream following DTC's settlement date.

The Company understands that DTC will take any action permitted to be taken by a holder of notes only at the direction of one or more participants in whose account with DTC interests in the global notes are credited and only in respect of such portion of the aggregate principal amount at maturity of the notes as to which such participant or participants has or have given such direction. However, if any of the events described under "Exchange of Book-Entry Notes for Certificated Notes" occurs, DTC reserves the right to exchange the global notes for notes in certificated form and to distribute such notes to its participants.

Edgar Filing: E TRADE FINANCIAL CORP - Form 424B3

The information in this section concerning DTC, Euroclear and Clearstream and their book-entry systems has been obtained from sources that the Company believes to be reliable, but the Company takes no responsibility for the accuracy thereof.

Table of Contents

Although DTC, Euroclear and Clearstream have agreed to the foregoing procedures to facilitate transfers of interests in the global notes among accountholders in DTC and accountholders of Euroclear and Clearstream, they are under no obligation to perform or to continue to perform such procedures, and such procedures may be discontinued at any time. None of the Company, the initial purchasers or the Trustee nor any agent of the Company, the initial purchasers or the Trustee will have any responsibility for the performance by DTC, Euroclear or Clearstream or their respective participants, indirect participants or accountholders of their respective obligations under the rules and procedures governing their operations.

Exchange of Book-Entry Notes for Certificated Notes

A global note is exchangeable for definitive notes in registered certificated form if:

- (1) DTC (A) notifies the Company that it is unwilling or unable to continue as depository for the global note and the Company thereupon fails to appoint a successor depository or (B) has ceased to be a clearing agency registered under the Exchange Act; or
- (2) there shall have occurred and be continuing a Default or an Event of Default with respect to the notes.

In all the above cases, certificated notes delivered in exchange for any global note or beneficial interests therein will be registered in the names, and issued in any approved denominations, requested by or on behalf of DTC (in accordance with its customary procedures).

Definitions

Set forth below are defined terms used in the covenants and other provisions of the Indenture. Reference is made to the Indenture for other capitalized terms used in this Description of the Notes for which no definition is provided.

Acquired Indebtedness means Indebtedness of a Person existing at the time such Person becomes a Restricted Subsidiary or Indebtedness of a Restricted Subsidiary assumed in connection with an Asset Acquisition by such Restricted Subsidiary; provided such Indebtedness was not Incurred in connection with or in contemplation of such Person becoming a Restricted Subsidiary or such Asset Acquisition.

Adjusted Consolidated Net Income means, for any period, the aggregate net income (or loss) of the Company and its Restricted Subsidiaries and Regulated Subsidiaries for such period determined in conformity with GAAP; provided that the following items shall be excluded in computing Adjusted Consolidated Net Income (without duplication):

- (1) the net income (or loss) of any Person that is not a Restricted Subsidiary or Regulated Subsidiary, except that the Company's equity in the net income of any such Person for such period (to the extent not otherwise excluded pursuant to clauses (2) through (6) below) will be included up to the aggregate amount of cash actually distributed by such Person during such period to the Company or to its Restricted Subsidiaries or

THE EXCHANGE OFFER

In a registration rights agreement between E*TRADE and the initial purchasers of the old notes, we agreed:

- (1) to file a registration statement on or prior to 60 days after the closing of the offering of the old notes with respect to an offer to exchange the old notes for a new issue of notes, with terms substantially the same as of the old notes but registered under the Securities Act;
- (2) to use our reasonable best efforts to cause the registration statement to be declared effective by the SEC on or prior to 240 days after the closing of the old notes offering; and
- (3) use our reasonable best efforts to consummate the exchange offer and issue the new notes within 30 business days after the registration statement is declared effective.

The registration rights agreement provides that if:

- (1) we fail to file a registration statement within 60 days after the closing of the old notes offering;
- (2) we fail to cause the registration statement to be declared effective by the SEC on or prior to 240 days after the closing of the old notes offering;
- (3) we fail to consummate the exchange offer within 30 business days after the registration statement is declared effective; or
- (4) in the event we file a shelf registration statement, our shelf registration statement is declared effective but thereafter ceases to be effective or usable in connection with resales or exchanges of old notes during the periods specified in the registration rights agreement,

then we must pay additional interest (in addition to interest which is otherwise due on the old notes) to each holder of old notes, with respect to the first 90-day period immediately following the occurrence of the first event referred to in clauses (1) through (4) above (each such event, a registration default), in an amount equal to 0.25% per annum of the principal amount of old notes held by such holder. The amount of additional interest (in addition to interest which is otherwise due on the old notes) will increase by an additional 0.25% per annum of the principal amount of such old notes with respect to each subsequent 90-day period until all registration defaults have been cured, up to a maximum amount of additional interest (in addition to interest which is otherwise due on the old notes) for all registration defaults of 1.0% per annum of the principal amount of such old notes. Once we complete this exchange offer, we will no longer be required to pay additional interest on the old notes.

The exchange offer is not being made to, nor will we accept tenders for exchange from, holders of old notes in any jurisdiction in which the exchange offer or acceptance of the exchange offer would violate the securities or blue sky laws of that jurisdiction.

Terms of the Exchange Offer; Period for Tendering Old Notes

This prospectus and the accompanying letter of transmittal contain the terms and conditions of the exchange offer. Upon the terms and subject to the conditions included in this prospectus and in the accompanying letter of transmittal, which together are the exchange offer, we will accept for exchange old notes which are properly tendered on or prior to the expiration date, unless you have previously withdrawn them.

- When you tender to us old notes as provided below, our acceptance of the old notes will constitute a binding agreement between you and us upon the terms and subject to the conditions in this prospectus and in the accompanying letter of transmittal.
- For each \$1,000 principal amount of old notes surrendered to us in the exchange offer, we will give you \$1,000 principal amount of new notes.

Table of Contents

- We will keep the exchange offer open for not less than 20 business days, or longer if required by applicable law, after the date that we first mail notice of the exchange offer to the holders of the old notes. We are sending this prospectus, together with the letter of transmittal, on or about the date of this prospectus to all of the registered holders of old notes at their addresses listed in the trustee's security register with respect to the old notes.

- As of the date of this prospectus, \$400,000,000 in aggregate principal amount of the old notes were outstanding. The exchange offer is not conditioned upon any minimum principal amount of old notes being tendered.
- Our obligation to accept old notes for exchange in the exchange offer is subject to the conditions that we describe in the section called "Conditions to the Exchange Offer" below.
- We expressly reserve the right, at any time, to extend the period of time during which the exchange offer is open, and thereby delay acceptance of any old notes, by giving oral or written notice of an extension to the exchange agent and notice of that extension to the holders as described below. During any extension, all old notes previously tendered will remain subject to the exchange offer unless withdrawal rights are exercised. Any old notes not accepted for exchange for any reason will be returned without expense to the tendering holder as promptly as practicable after the expiration or termination of the exchange offer.
- We expressly reserve the right to amend or terminate the exchange offer, and not to accept for exchange any old notes that we have not yet accepted for exchange, if any of the conditions of the exchange offer specified below under "Conditions to the Exchange Offer" are not satisfied.
- We will give oral or written notice of any extension, amendment, termination or non-acceptance described above to holders of the old notes as promptly as practicable. If we extend the expiration date, we will give notice by means of a press release or other public announcement no later than 9:00 a.m., New York City time, on the business day after the previously scheduled expiration date. - Holders of old notes do not have any appraisal or dissenters' rights in connection with the exchange offer.
- Old notes which are not tendered for exchange or are tendered but not accepted in connection with the exchange offer will remain outstanding and be entitled to the benefits of the indenture, but will not be entitled to any further registration rights under the registration rights agreement.

Procedures for Tendering Old Notes

What to submit and how

If you, as the registered holder of an old note, wish to tender your old notes for exchange in the exchange offer, you must transmit a properly completed and duly executed letter of transmittal to The Bank of New York at the address set forth below under "Exchange Agent" on or prior to the expiration date.

In addition,

- (1) certificates for old notes must be received by the exchange agent along with the letter of transmittal;
- (2) a timely confirmation of a book-entry transfer of old notes, if such procedure is available, into the exchange agent's account at DTC using the procedure for book-entry transfer described below, must be received by the exchange agent prior to the expiration date; or
- (3) you must comply with the guaranteed delivery procedures described below.

The method of delivery of old notes, letters of transmittal and notices of guaranteed delivery is at your election and risk. If delivery is by mail, we recommend that registered mail, properly insured, with return receipt requested, be used. In all cases, sufficient time should be allowed to assure timely delivery. No letters of transmittal or old notes should be sent to E*TRADE.

How to sign your letter of transmittal and other documents

Edgar Filing: E TRADE FINANCIAL CORP - Form 424B3

Signatures on a letter of transmittal or a notice of withdrawal, as the case may be, must be guaranteed unless the old notes being surrendered for exchange are tendered

- (1) by a registered holder of the old notes who has not completed the box entitled "Special Issuance Instructions" or "Special Delivery Instructions" on the letter of transmittal or
- (2) for the account of an eligible institution.

If signatures on a letter of transmittal or a notice of withdrawal, as the case may be, are required to be guaranteed, the guarantees must be by any of the following eligible institutions:

- a firm which is a member of a registered national securities exchange or a member of the National Association of Securities Dealers, Inc. or
- a commercial bank or trust company having an office or correspondent in the United States.

Table of Contents

If the letter of transmittal is signed by a person or persons other than the registered holder or holders of old notes, the old notes must be endorsed or accompanied by appropriate powers of attorney, in either case signed exactly as the name or names of the registered holder or holders that appear on the old notes and with the signature guaranteed.

If the letter of transmittal or any old notes or powers of attorney are signed by trustees, executors, administrators, guardians, attorneys-in-fact, officers or corporations or others acting in a fiduciary or representative capacity, the person should so indicate when signing and, unless waived by E*TRADE, proper evidence satisfactory to E*TRADE of its authority to so act must be submitted.

Acceptance of Old Notes for Exchange; Delivery of New Notes

Once all of the conditions to the exchange offer are satisfied or waived, we will accept, promptly after the expiration date, all old notes properly tendered and will issue the new notes promptly after acceptance of the old notes. See **Conditions to the Exchange Offer** below. For purposes of the exchange offer, our giving of oral or written notice of our acceptance to the exchange agent will be considered our acceptance of the exchange offer.

In all cases, we will issue new notes in exchange for old notes that are accepted for exchange only after timely receipt by the exchange agent of:

- certificates for old notes, or
- a timely book-entry confirmation of transfer of old notes into the exchange agent's account at DTC using the book-entry transfer procedures described below, and
- a properly completed and duly executed letter of transmittal.

If we do not accept any tendered old notes for any reason included in the terms and conditions of the exchange offer or if you submit certificates representing old notes in a greater principal amount than you wish to exchange, we will return any unaccepted or non-exchanged old notes without expense to the tendering holder or, in the case of old notes tendered by book-entry transfer into the exchange agent's account at DTC using the book-entry transfer procedures described below, non-exchanged old notes will be credited to an account maintained with DTC as promptly as practicable after the expiration or termination of the exchange offer.

Book-Entry Transfer

The exchange agent will make a request to establish an account with respect to the old notes at DTC for purposes of the exchange offer promptly after the date of this prospectus. Any financial institution that is a participant in DTC's systems may make book-entry delivery of old notes by causing DTC to transfer old notes into the exchange agent's account in accordance with DTC's Automated Tender Offer Program procedures for transfer. However, the exchange for the old notes so tendered will only be made after timely confirmation of book-entry transfer of old notes into the exchange agent's account, and timely receipt by the exchange agent of an agent's message, transmitted by DTC and received by the exchange agent and forming a part of a book-entry confirmation. The agent's message must state that DTC has received an express

Edgar Filing: E TRADE FINANCIAL CORP - Form 424B3

acknowledgment from the participant tendering old notes that are the subject of that book-entry confirmation that the participant has received and agrees to be bound by the terms of the letter of transmittal, and that we may enforce the agreement against that participant.

Although delivery of old notes may be effected through book-entry transfer into the exchange agent's account at DTC, the letter of transmittal, or a facsimile copy, properly completed and duly executed, with any required signature guarantees, must in any case be delivered to and received by the exchange agent at its address listed under Exchange Agent on or prior to the expiration date.

If your old notes are held through DTC, you must complete a form called instructions to registered holder and/or book-entry participant, which will instruct the DTC participant through whom you hold your notes of

Table of Contents

your intention to tender your old notes or not tender your old notes. Please note that delivery of documents to DTC in accordance with its procedures does not constitute delivery to the exchange agent and we will not be able to accept your tender of notes until the exchange agent receives a letter of transmittal and a book-entry confirmation from DTC with respect to your notes. A copy of that form is available from the exchange agent.

Guaranteed Delivery Procedures

If you are a registered holder of old notes and you want to tender your old notes but your old notes are not immediately available, or time will not permit your old notes to reach the exchange agent before the expiration date, or the procedure for book-entry transfer cannot be completed on a timely basis, a tender may be effected if:

- (1) the tender is made through an eligible institution;
- (2) prior to the expiration date, the exchange agent receives, by facsimile transmission, mail or hand delivery, from that eligible institution a properly completed and duly executed letter of transmittal and notice of guaranteed delivery, substantially in the form provided by us, stating:
 - (a) the name and address of the holder of old notes;
 - (b) the amount of old notes tendered;
 - (c) the tender is being made by delivering that notice and guaranteeing that within three New York Stock Exchange trading days after the date of execution of the notice of guaranteed delivery, the certificates of all physically tendered old notes, in proper form for transfer, or a book-entry confirmation, as the case may be, will be deposited by that eligible institution with the exchange agent; and
- (3) the certificates for all physically tendered old notes, in proper form for transfer, or a book-entry confirmation, as the case may be, are received by the exchange agent within three New York Stock Exchange trading days after the date of execution of the Notice of Guaranteed Delivery.

Withdrawal Rights

You can withdraw your tender of old notes at any time on or prior to the expiration date.

For a withdrawal to be effective, a written notice of withdrawal must be received by the exchange agent at one of the addresses listed below under Exchange Agent. Any notice of withdrawal must specify:

- the name of the person having tendered the old notes to be withdrawn;

- the old notes to be withdrawn;
- the principal amount of the old notes to be withdrawn;
- if certificates for old notes have been delivered to the exchange agent, the name in which the old notes are registered, if different from that of the withdrawing holder;
- if certificates for old notes have been delivered or otherwise identified to the exchange agent, then, prior to the release of those certificates, you must also submit the serial numbers of the particular certificates to be withdrawn and a signed notice of withdrawal with signatures guaranteed by an eligible institution unless you are an eligible institution; and
- if old notes have been tendered using the procedure for book-entry transfer described above, any notice of withdrawal must specify the name and number of the account at DTC to be credited with the withdrawn old notes and otherwise comply with the procedures of that facility.

Please note that all questions as to the validity, form, eligibility and time of receipt of notices of withdrawal will be determined by us, and our determination shall be final and binding on all parties. Any old notes so withdrawn will be considered not to have been validly tendered for exchange for purposes of the exchange offer.

If you have properly withdrawn old notes and wish to re-tender them, you may do so by following one of the procedures described under Procedures for Tendering Old Notes above at any time on or prior to the expiration date.

Conditions to the Exchange Offer

Notwithstanding any other provisions of the exchange offer, we will not be required to accept for exchange, or to issue new notes in exchange for, any old notes and may terminate or amend the exchange offer, if at any time before the acceptance of old notes for exchange or the exchange of the new notes for old notes, that acceptance or issuance would violate applicable law or any interpretation of the staff of the SEC.

That condition is for our sole benefit and may be asserted by us regardless of the circumstances giving rise to that condition. Our failure at any time to exercise the foregoing rights shall not be considered a waiver by us of that right. Our rights described in the prior paragraph are ongoing rights which we may assert at any time and from time to time.

In addition, we will not accept for exchange any old notes tendered, and no new notes will be issued in exchange for any old notes, if at that time any stop order shall be threatened or in effect with respect to the exchange offer to which this prospectus relates or the qualification of the indenture under the Trust Indenture Act.

Transfer Taxes

Holders who tender their old notes for exchange will not be obligated to pay any transfer taxes in connection therewith, except that holders who instruct us to register new notes in the name of, or request that old notes not tendered or not accepted in the exchange offer be returned to, a person other than the registered tendering holder will be responsible for the payment of any applicable transfer tax thereon.

Resale of the New Notes

Under existing interpretations of the staff of the SEC contained in several no-action letters to third parties, the new notes would in general be freely transferable after the exchange offer without further registration under the Securities Act. The relevant no-action letters include the Exxon Capital Holdings Corporation letter, which was made available by the SEC on May 13, 1988, and the Morgan Stanley & Co. Incorporated letter, made available on June 5, 1991.

However, any purchaser of old notes who is an affiliate of E*TRADE or who intends to participate in the exchange offer for the purpose of distributing the new notes:

- (1) will not be able to rely on the interpretation of the staff of the SEC;
- (2) will not be able to tender its old notes in the exchange offer; and
- (3) must comply with the registration and prospectus delivery requirements of the Securities Act in connection with any sale or transfer of the notes unless that sale or transfer is made using an exemption from those requirements.

By executing, or otherwise becoming bound by, the Letter of Transmittal each holder of the old notes will represent that:

- (1) it is not our affiliate ;
- (2) any new notes to be received by it were acquired in the ordinary course of its business; and
- (3) it has no arrangement or understanding with any person to participate, and is not engaged in and does not intend to engage, in the distribution, within the meaning of the Securities Act, of the new notes.

In addition, in connection with any resales of new notes, any broker-dealer participating in the exchange offer who acquired notes for its own account as a result of market-making or other trading activities must deliver a prospectus meeting the requirements of the Securities Act. The SEC has taken the position in the Shearman & Sterling no-action letter, which it made available on July 2, 1993, that participating broker-dealers may fulfill their prospectus delivery requirements with respect to the new notes, other than a resale of an unsold allotment from the original sale of the old notes, with the prospectus contained in the exchange offer registration statement. Under the registration rights agreement, we are required to allow participating broker-dealers and other persons, if any, subject to similar prospectus delivery requirements to use this prospectus

as it may be amended or supplemented from time to time, in connection with the resale of new notes.

MATERIAL U.S. FEDERAL TAX CONSIDERATIONS

The exchange of old notes for new notes in the exchange offer will not result in any U.S. federal income tax consequences to holders. When a holder exchanges an old note for a new note in the exchange offer, the holder will have the same adjusted basis and holding period in the new note as in the old note immediately before the exchange.

PLAN OF DISTRIBUTION

Each broker-dealer that receives new notes for its own account in the exchange offer must acknowledge that it will deliver a prospectus in connection with any resale of new notes. This prospectus, as it may be amended or supplemented from time to time, may be used by a broker-dealer in connection with resales of new notes received in exchange for old notes where old notes were acquired as a result of market-making activities or other trading activities. We have agreed that, for a period of 180 days after the expiration date, we will make this prospectus, as amended or supplemented, available to any broker-dealer for use in connection with any resale of new notes received by it in exchange for old notes.

We will not receive any proceeds from any sale of new notes by broker-dealers.

New notes received by broker-dealers for their own account in the exchange offer may be sold from time to time in one or more transactions:

- in the over-the-counter market;
- in negotiated transactions;
- through the writing of options on the new notes; or
- a combination of those methods of resale;

at market prices prevailing at the time of resale, at prices related to prevailing market prices or negotiated prices.

Any resale may be made:

- directly to purchasers; or

Edgar Filing: E TRADE FINANCIAL CORP - Form 424B3

- to or through brokers or dealers who may receive compensation in the form of commissions or concessions from any broker-dealer or the purchasers of any new notes.

Any broker-dealer that resells new notes that were received by it for its own account in the exchange offer and any broker or dealer that participates in a distribution of those new notes may be considered to be an underwriter within the meaning of the Securities Act. Any profit on any resale of those new notes and any commission or concessions received by any of those persons may be considered to be underwriting compensation under the Securities Act. The letter of transmittal states that, by acknowledging that it will deliver and by delivering a prospectus, a broker-dealer will not be considered to admit that it is an underwriter within the meaning of the Securities Act.

For a period of 180 days after the expiration date, we will promptly send additional copies of this prospectus and any amendment or supplement to this prospectus to any broker-dealer that requests those documents in the letter of transmittal. We have agreed to pay all expenses incident to the exchange offer, including the expenses of one counsel for the holders of the notes, other than commissions or concessions of any brokers or dealers and will indemnify the holders of the notes, including any broker-dealers, against some liabilities, including liabilities under the Securities Act.
