Disclaimer Regarding Forward-Looking Statements

This semi-annual report includes forward-looking statements (within the meaning of Section 27A of the U.S. Securities Act of 1933 and Section 21E of the U.S. Securities Exchange Act of 1934) about Matsushita and its Group companies (the Matsushita Group). To the extent that statements in this semi-annual report do not relate to historical or current facts, they constitute forward-looking statements. These forward-looking statements are based on the current assumptions and beliefs of the Matsushita Group in light of the information currently available to it, and involve known and unknown risks, uncertainties and other factors. Such risks, uncertainties and other factors may cause the Matsushita Group's actual results, performance, achievements or financial position to be materially different from any future results, performance, achievements or financial position expressed or implied by these forward-looking statements. Matsushita undertakes no obligation to publicly update any forward-looking statements after the date of this semi-annual report. Investors are advised to consult any further disclosures by Matsushita in its subsequent filings with the U.S. Securities and Exchange Commission pursuant to the Securities Exchange Act of 1934.

The risks, uncertainties and other factors referred to above include, but are not limited to, economic conditions, particularly consumer spending and corporate capital expenditures in the United States, Europe, Japan, China and other Asian countries; volatility in demand for electronic equipment and components from business and industrial customers, as well as consumers in many product and geographical markets; currency rate fluctuations, notably between the yen, the U.S. dollar, the euro, the Chinese yuan, Asian currencies and other currencies in which the Matsushita Group operates businesses, or in which assets and liabilities of the Matsushita Group are denominated; the ability of the Matsushita Group to respond to rapid technological changes and changing consumer preferences with timely and cost-effective introductions of new products in markets that are highly competitive in terms of both price and technology; the ability of the Matsushita Group to achieve its business objectives through joint ventures and other collaborative agreements with other companies; the ability of the Matsushita Group to maintain competitive strength in many product and geographical areas; the possibility of incurring expenses resulting from any defects in products or services of the Matsushita Group; the possibility that the Matsushita Group may face intellectual property infringement claims by third parties; current and potential, direct and indirect restrictions imposed by other countries over trade, manufacturing, labor and operations; fluctuations in market prices of securities and other assets in which the Matsushita Group has holdings or changes in valuation of long-lived assets, including property, plant and equipment and goodwill, and deferred tax assets; future changes or revisions to accounting policies or accounting rules; as well as natural disasters including earthquakes and other events that may negatively impact business activities of the Matsushita Group. The factors listed above are not all-inclusive and further information is contained in Matsushita's latest annual report on Form 20-F, which is on file with the U.S. Securities and Exchange Commission.

Note: Certain information previously filed with the SEC in other reports, including English summaries of non-consolidated (parent company alone) financial information, is not included in this English translation.

MATSUSHITA ELECTRIC INDUSTRIAL CO., LTD.
AND SUBSIDIARIES

(2) Principal Businesses

The Matsushita Group is comprised primarily of the parent Matsushita Electric Industrial Co., Ltd. and 638 consolidated subsidiaries in and outside of Japan, operating in close cooperation with each other. As a comprehensive electronics manufacturer, Matsushita is engaged in production, sales and service activities in a broad array of business areas.

The Company's business segment classifications consist of six segments, namely, AVC Networks, Home Appliances, Components and Devices, MEW and PanaHome*, JVC and Other.

For production, Matsushita adopts a management system that takes charge of each product in the Company or its affiliates. In recent years, the Company has been enhancing production capacity at its overseas affiliates, to further develop global business. Meanwhile, in Japan, Matsushita's products are sold through sales channels at several domestic locations, each established according to products or customers. The Company also sells directly to large-scale consumers, such as the Government and corporations.

For export, sales are handled mainly through sales subsidiaries and agents located in respective countries.

Certain products produced at domestic affiliates are purchased by the Company and sold through the same sales channels as products produced by the Company itself. Additionally, products produced at overseas affiliates are sold mainly through sales subsidiaries.

Meanwhile, most import operations are carried out internally, with the aim of expanding international economic cooperation.

Certain MEW, PanaHome and JVC products are sold on a proprietary basis at home and abroad.

* MEW stands for Matsushita Electric Works, Ltd. and PanaHome stands for PanaHome Corporation.

MATSUSHITA ELECTRIC INDUSTRIAL CO., LTD.
AND SUBSIDIARIES

The main products and main group companies for each business segment are as follows:

AVC Networks

Video and audio equipment

Plasma, liquid crystal display (LCD) and cathode ray tube (CRT) TVs, DVD recorders/players, videocassette recorders (VCRs), camcorders, digital cameras, compact disc (CD), Mini Disc (MD) and Secure Digital (SD) players, other personal and home audio equipment, SD memory Cards and other recordable media, optical pickup and other electro-optic devices, etc.

Information and communications equipment

Personal computers (PCs), optical disc drives, copiers, printers, telephones, mobile phones, facsimile equipment, broadcast- and business-use AV equipment, communications network-related equipment, traffic-related systems, car AVC equipment, etc.

The main group companies for AVC Networks are:

Matsushita Electric Industrial Co., Ltd.

Panasonic Mobile Communications Co., Ltd.

Panasonic Communications Co., Ltd.

Panasonic Shikoku Electronics Co., Ltd.

Panasonic Corporation of North America

Panasonic AVC Networks Czech, s.r.o.

Home Appliances

Refrigerators, room air conditioners, washing machines, clothes dryers, vacuum cleaners, electric irons, microwave ovens, rice cookers, other cooking appliances, dish washer/dryers, electric fans, air purifiers, electric heating equipment, electric hot water supply equipment, sanitary equipment, healthcare equipment, electric lamps, ventilation and air-conditioning equipment, car air conditioners, compressors, vending machines, medical equipment, etc.

The main group companies for Home Appliances are:

Matsushita Electric Industrial Co., Ltd.

Matsushita Refrigeration Company

Matsushita Ecology Systems Co., Ltd.

Panasonic Home Appliances Air-Conditioning (Guangzhou) Co., Ltd.

Panasonic Refrigeration Devices Singapore Pte. Ltd.

II The Business

(1) Operating Results

During the first half ended September 30, 2006, despite signs of a slowdown in the U.S. economy with weaker housing investment, the global economic situation as a whole remained steady due mainly to high economic growth in China and the recovery trend of the European economy. The Japanese economy also continued steady growth with favorable export and capital investment.

Meanwhile, in the electronics industry, although there was shown partly a backlash of the FIFA World Cup boom, market conditions were favorable overall. However, there remains a severe business environment due primarily to rising raw materials prices and continuous price declines mainly in digital AV products caused by intensified global competition. Under these circumstances, Matsushita strives to implement growth strategies and strengthen management structures to ensure its future growth trend.

As part of such efforts, the Company aggressively launched and promoted a new series of V-products to capture leading market shares and make a significant contribution to overall business results. Aiming to reinforce its management structures, the Company has made all-out efforts to reduce raw materials costs and eliminate redundancies throughout the Matsushita Group.

During the first half, ended September 30, 2006, consolidated group sales increased 3%, from the previous year's first half, to 4,389.5 billion yen. Explaining the first half results, the Company cited sales gains mainly in digital audiovisual (AV) products, especially V-products.

Regarding earnings, negative factors such as intensified global price competition and increased raw materials prices were more than offset by comprehensive cost reduction efforts, successive launch of V-products and other positive factors. As a result, the Company's operating profit* for the first half increased 21% from a year ago to 207.4 billion yen.

Income before income taxes for the six-month period increased 51% to 232.5 billion yen from a year ago. In other income (deductions), the Company recorded gains on the sale of the investments and tangible fixed assets, and incurred less expenses associated with the implementation of early retirement programs, compared with the previous year's first half. Net income was also up 79% to 115.1 billion yen from the previous year's first half.

* In order to be consistent with financial reporting practices generally accepted in Japan, operating profit (loss) is presented as net sales less cost of sales and selling, general and administrative expenses. Under U.S. GAAP, expenses associated with the implementation of early retirement programs at certain domestic and overseas companies are included as part of operating profit in the consolidated statements of income.

Table of Contents

- 8 -

MATSUSHITA ELECTRIC INDUSTRIAL CO., LTD.
AND SUBSIDIARIES

The Company's first half consolidated results by business segment, as compared with prior year results, are summarized as follows:

AVC Networks

AVC Networks sales increased 1% to 1,908.7 billion yen, compared with last year's first half. Sales of video and audio equipment increased from the previous year's first half, due mainly to favorable sales in digital AV products such as flat-panel TVs and digital cameras. In information and communications equipment, the Company recorded strong sales of PCs and automotive electronics, but sales downturns of mobile phones in Japan and overseas and other products led to a decreased sales overall.

Segment profit increased 20% to 101.5 billion yen. This improvement was due mainly to the aforementioned sales increases of digital AV products such as flat-panel TVs and digital cameras.

Home Appliances

Sales of Home Appliances increased 6% to 637.1 billion yen from the previous year's first half, due mainly to favorable sales of air conditioners and compressors.

Segment profit increased 2% to 40.3 billion yen, due mainly to increased sales of high value-added products mainly in air-conditioners and washing machines, and cost rationalization effects.

Components and Devices

Sales of Components and Devices were also up 1% to 685.3 billion yen from a year ago. Favorable sales in general electronic components, batteries and electric motors led to overall increased sales in this category.

Segment profit increased 50% to 50.6 billion yen, due mainly to profit growth in semiconductors and general electronic components.

MEW and PanaHome

Sales of MEW and PanaHome increased 6% to 891.2 billion yen, compared with the previous year's first half. At MEW and its subsidiaries, sales gains were recorded in electrical construction materials and electronic and plastic materials. At PanaHome Corporation, sales gains were recorded in detached housing, contributing to overall increased sales.

Segment profit increased 14% to 32.5 billion yen, mainly as a result of sales increases and cost rationalization efforts.

JVC

Sales for JVC (Victor Company of Japan, Ltd. and its subsidiaries) totaled 327.1 billion yen, down 3% compared with the previous year's first half, due primarily to sluggish sales of AV equipment.

In terms of profitability, this segment recorded a loss of 1.0 billion yen compared with a loss of 4.0 billion yen in the previous year's first half, mainly as a result of a decrease in sales despite the rationalization effects.

Table of Contents

- 9 -

MATSUSHITA ELECTRIC INDUSTRIAL CO., LTD.
AND SUBSIDIARIES

Other

Sales for Other totaled 751.1 billion yen, up 21% from the same period a year ago. Sales gains were recorded in factory automation equipment, contributing to the favorable sales results within this category.

Segment profit increased 11% to 31.9 billion yen, due mainly to sales increases and rationalization efforts.

First-half Results by Domestic and Overseas Company Location*

* The following information shows the geographical sales and profit by region for the six months ended September 30, 2006.

Japan

Sales of companies in Japan increased 2% to 3,384.2 billion yen, led by digital AV products, including flat-panel TVs and digital cameras, as well as air conditioners. Profit in this region rose 18% to 189.9 billion yen due mainly to increased sales.

Americas

Sales in the Americas increased 2% to 684.2 billion yen from the same period a year ago, due mainly to sales increases in flat-panel TVs, digital cameras and video broadcasting systems, as well as general electronic components. Profit in this region rose 55% from the previous year's first half to 14.0 billion yen, mainly as a result of sales gains and rationalization effects.

Europe

Sales in this region increased 13% to 553.8 billion yen, due mainly to favorable sales, especially in flat-panel TVs, digital cameras and general electronic components. Profit in this region improved to 6.9 billion yen, compared with a loss of 0.4 billion yen in the previous year's first half.

Asia and Others

Sales of companies in Asia and Others were up 6% to 1,428.2 billion yen, due mainly to sales gains in flat-panel TVs, digital cameras, washing machines and compressors. Geographical profit increased 3% to 45.2 billion yen, due mainly to favorable sales and cost rationalization effects.

Table of Contents

- 10 -

MATSUSHITA ELECTRIC INDUSTRIAL CO., LTD.
AND SUBSIDIARIES

(2) Cash Flows

Cash flows from operating activities

Net cash provided by operating activities in the fiscal 2007 first half amounted to 197.7 billion yen, compared with 190.2 billion yen in the previous year's first half. This was attributable mainly to cash inflows from net income in the first half of fiscal 2007.

Cash flows from investing activities

Net cash used in investing activities amounted to 343.1 billion yen, compared with net cash provided by investing activities of 274.4 billion yen in the previous year's first half. This 343.1 billion yen includes capital expenditures for tangible fixed assets mainly consisting of manufacturing facilities for priority business areas such as plasma display panels (PDPs) and semiconductors. The movement from a year ago was due mainly to the previous year's proceeds from the sale of shares of Matsushita Leasing & Credit Co., Ltd.

Cash flows from financing activities

Net cash used in financing activities amounted to 127.8 billion yen, compared with 187.7 billion yen in the previous year's first half. This was due primarily to a decrease in repayments of long-term debt and bonds as well as a decrease in repurchase of common stock.

All these activities, after adding 13.5 billion yen for the effects of exchange rate changes, resulted in a net decrease of 259.7 billion yen in cash and cash equivalents during the first half of fiscal 2007. Cash and cash equivalents at the end of this first half totaled 1,407.7 billion yen.

(3) Corporate Management Strategies and Challenges

The Matsushita Group aims to achieve, through cutting-edge technologies, global excellence in 2010 by pursuing the two visions of contributing to the realization of a ubiquitous networking society and coexistence with the global environment. Regarding the business environment for fiscal 2007, Matsushita expects to continue to encounter severe conditions, such as keen competition in the electronics industry, ever-intensifying global price declines in digital products and rising raw materials prices. In fiscal 2007, the final year of the mid-term management plan Leap Ahead 21, Matsushita will further accelerate growth strategies and strengthen management structures.

<Principal Initiatives for Fiscal 2007>

1. V-products

Matsushita places particular emphasis, as the centerpiece of the Company's growth strategy, on V-products which feature black-box technologies, environmentally friendly features, while incorporating universal design concepts. In fiscal 2007, the Company expects sales of approximately 1.8 trillion yen in a total of 82 product categories. During the first half of fiscal 2007, V-products, including flat-panel TVs and digital cameras, recorded sales of about 775 billion yen. Matsushita will carry out intensive marketing campaigns that focus on product functions and features. Furthermore, Matsushita will expand the scope of simultaneous global introductions in terms of both products and regions.

Table of Contents

- 11 -

MATSUSHITA ELECTRIC INDUSTRIAL CO., LTD.
AND SUBSIDIARIES

2. Investment Strategy

Regarding capital expenditures, Matsushita continues to focus investment into strategic businesses including cutting-edge system LSIs and other semiconductors as well as plasma TVs, global demand for which is expected to grow considerably. In PDPs, the Company announced the construction of a fourth domestic factory in Amagasaki, Japan, where operations are scheduled to commence in fiscal 2008. Including the new factory, Matsushita will increase annual production capacity of PDPs to 11.5 million units by fiscal 2009, enabling the Company to meet rapidly expanding global demand.

3. Overseas Strategy

Matsushita is also strengthening overseas operations, which serve as a growth engine for the entire Matsushita Group. The Company will select products and sales channels according to specific strategies in each region or country, and concentrate management resources accordingly. In the growing markets such as China and Russia, as well as Europe and the United States, the Company will strive to strengthen sales initiatives, aiming at expanding sales.

4. Strengthening Management Structure

In order to further strengthen management structures, Matsushita implemented the Next Cell Production Project in fiscal 2006, which will facilitate a more flexible manufacturing structure. In fiscal 2007, the Company intends to further take advantage of information technology (IT) in promoting large-scale inventory reduction activities. Meanwhile, through various cost reduction activities companywide, the Company will eliminate redundancies throughout all areas of business, to enhance profitability.

5. Collaboration with MEW

Matsushita strives to achieve further success through collaboration with MEW, by integrating the components and devices and black-box technologies of both companies, in addition to comprehensive utilization of sales channels and augmented overseas businesses.

(4) Research and Development

Aiming at the realization of a ubiquitous networking society and coexistence with the global environment, Matsushita executed a number of initiatives to accelerate R&D as well as enhancing R&D efficiency and reinforcing intellectual properties strategies.

In order to accelerate its R&D activities, Matsushita has adopted value chain strategies, focused on creating added value, as the core of its R&D strategy. The Company implemented initiatives to hold added value in the Matsushita Group by a vertically integrated business model that facilitates close cooperation between devices and finished products in the Company's development and manufacturing structure. A representative example is the development of full high-definition (HD) VIERA plasma TVs ranging from the world's largest 103-inch to 50-inch, which utilize the full HD PEAKS* System that realizes the synergy of panel, driver and processor, and enables to produce high-quality pictures at 1,920 x 1,080 pixel resolution. The Company also strengthened a horizontal value chain, which establishes common platforms for various product categories. A representative example is the development of the Integrated Platform, which combines software and hardware resources across differing digital product categories to improve R&D efficiency and design quality. Advanced system LSIs for this Integrated Platform are used in plasma TVs, DVD recorders with built-in hard disc drives, and camcorders, etc.

Table of Contents

- 12 -

MATSUSHITA ELECTRIC INDUSTRIAL CO., LTD.
AND SUBSIDIARIES

Furthermore, the Company has reinforced activities regarding universal designs and eco-friendly innovations in order to realize ease-of-use of high performance digital products and reduce the environmental impacts.

Matsushita's R&D expenditures for the first half of fiscal 2007 totaled 281,824 million yen.

* The name PEAKS is used only in the Japanese market.

The following is the breakdown of R&D expenditures by business segment:

MATSUSHITA ELECTRIC INDUSTRIAL CO., LTD.
AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(1) Summary of Significant Accounting Policies

(a) **Description of Business**

Matsushita Electric Industrial Co., Ltd. (hereinafter, the Company, including consolidated subsidiaries, unless the context otherwise requires) is one of the world's leading producers of electronic and electric products. The Company currently offers a comprehensive range of products, systems and components for consumer, business and industrial use based on sophisticated electronics and precision technology, expanding to building materials and equipment, and housing business. Most of the Company's products are marketed under Panasonic and several other trade names, including National, Technics, Quasar, Victor, JVC and PanaHome.

Sales for the six months ended September 30, 2006 were categorized as follows: AVC Networks 40%, (Video and audio equipment 18%, Information and communications equipment 22%), Home Appliances 14%, Components and Devices 13%, MEW and PanaHome 19%, JVC 7%, and Other 7%. A sales breakdown by geographical market was as follows: Japan 50%, North and South America 16%, Europe 13%, and Asia and Others 21%.

The Company is not dependent on a single supplier, and has no significant difficulty in obtaining raw materials from suppliers.

(b) **Basis of Presentation of Consolidated Financial Statements**

The Company and its domestic subsidiaries maintain their books of account in conformity with financial accounting standards of Japan, and its foreign subsidiaries in conformity with those of the countries of their domicile.

The consolidated financial statements presented herein have been prepared in a manner and reflect adjustments which

are necessary to conform with U.S. generally accepted accounting principles.

(c) **Principles of Consolidation**

The consolidated financial statements include the accounts of the Company and its majority-owned, controlled subsidiaries. The Company also consolidates entities in which controlling interest exists through variable interests in accordance with Financial Accounting Standards Board (FASB) Interpretation No. 46 (revised December 2003), Consolidation of Variable Interest Entities (FIN 46R).

Table of Contents

- 25 -

MATSUSHITA ELECTRIC INDUSTRIAL CO., LTD.
AND SUBSIDIARIES

Notes to Consolidated Financial Statements

The Company changed the presentation of deposits and advances from customers from net cash used in financing activities to net cash provided by operating activities in the consolidated statements of cash flows for the year ended March 31, 2006. In addition, the Company revised the corresponding prior period presentation. The revision decreased net cash provided by operating activities and increased net cash used in financing activities by 1,750 million yen for the six months ended September 30, 2005. These changes were not material to the consolidated statements of cash flows for the six months ended September 30, 2005.

(d) Revenue Recognition

The Company generates revenue principally through the sale of consumer and industrial products, equipment, and supplies. The Company recognizes revenue when persuasive evidence of an arrangement exists, delivery has occurred, and title and risk of loss have been transferred to the customer or services have been rendered, the sales price is fixed or determinable, and collectibility is reasonably assured.

Revenue from sales of products is generally recognized when the products are received by customers. Revenue from sales of certain products with customer acceptance provisions related to their functionality is recognized when the product is received by the customer and the specific criteria of the product functionality are successfully tested and demonstrated.

The Company enters into arrangements with multiple elements, which may include any combination of products, equipment, installment and maintenance. The Company allocates revenue to each element based on its relative fair value if such element meets the criteria for treatment as a separate unit of accounting as prescribed in the Emerging Issues Task Force (EITF) Issue 00-21, Revenue Arrangements with Multiple Deliverables (EITF 00-21).

The Company's policy is to accept product returns only in the case that the products are defective. The Company issues contractual product warranties under which it guarantees the performance of products delivered and services rendered for a certain period of time. A liability for the estimated product warranty related cost is established at the

time revenue is recognized, and is included in Other accrued expenses. Estimates for accrued warranty cost are primarily based on historical experience and current information on repair cost.

Historically, the Company has made certain allowances related to sales to its consumer business distributors. Such allowances are generally provided to compensate the distributors for a decline in the product's value, and are classified as a reduction of revenue on the consolidated statements of income. Estimated price adjustments are accrued when the related sales are recognized. The estimate is made based primarily on the historical experience or specific arrangements made with the distributors.

Table of Contents

- 26 -

MATSUSHITA ELECTRIC INDUSTRIAL CO., LTD.
AND SUBSIDIARIES

Notes to Consolidated Financial Statements

The Company also occasionally offers incentive programs to its distributors in the form of rebates. These rebates are accrued at the later of the date at which the related revenue is recognized or the date at which the incentive is offered, and are recorded as reductions of sales in accordance with EITF 01-09, Accounting for Consideration Given by a Vendor to a Customer (Including a Reseller of the Vendor's Products).

(e) **Leases**

The Company accounts for leases in accordance with Statement of Financial Accounting Standards (SFAS) No. 13, Accounting for Leases. Leases of the assets under certain conditions are recorded as capital leases and are included in property, plant and equipment in the consolidated balance sheets.

(f) **Inventories**

Finished goods and work in process are stated at the lower of cost (average) or market. Raw materials are stated at cost, principally on a first-in, first-out basis, not in excess of current replacement cost.

(g) **Foreign Currency Translation**

Foreign currency financial statements are translated in accordance with SFAS No. 52, Foreign Currency Translation, under which all assets and liabilities are translated into yen at period-end rates and income and expense accounts are translated at weighted-average rates. Adjustments resulting from the translation of financial statements are reflected under the caption, Accumulated other comprehensive income (loss), a separate component of stockholders' equity.

(h) **Property, Plant and Equipment**

Edgar Filing: MATSUSHITA ELECTRIC INDUSTRIAL CO LTD - Form 6-K

Property, plant and equipment is stated at cost. Depreciation is computed primarily using the declining balance method based on the following estimated useful lives:

Buildings	5 to 50 years
Machinery and equipment	2 to 10 years

Certain assets with a net book value of 1,058 million yen are collateralized.

Table of Contents

- 27 -

MATSUSHITA ELECTRIC INDUSTRIAL CO., LTD.

AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(i) **Goodwill and Other Intangible Assets**

Goodwill represents the excess of costs over the fair value of net assets of businesses acquired. The Company adopted the provisions of SFAS No. 142, Goodwill and Other Intangible Assets. Goodwill and intangible assets acquired in a purchase business combination and determined to have an indefinite useful life are not amortized, and are instead tested for impairment at least annually based on assessment of current estimated fair value of the intangible asset. SFAS No. 142 also requires that intangible assets with estimable useful lives be amortized over their respective estimated useful lives to their estimated residual values, and reviewed for impairment based on an assessment of the undiscounted cash flows expected by the asset. An impairment charge is recognized for the amount by which the carrying amount of the asset exceeds the fair value of the asset.

(j) **Investments and Advances**

Investments and advances primarily consist of investments in and advances to associated companies, cost method investments, available-for-sale securities, and long-term deposits. Cost method investments and long-term deposits are recorded at historical cost.

The equity method is used to account for investments in associated companies in which the Company exerts significant influence, generally having a 20% to 50% ownership interest, and corporate joint ventures. The Company also uses the equity method for some subsidiaries if the minority shareholders have substantive participating rights. Under the equity method of accounting, investments are stated at their underlying net equity value after elimination of intercompany profits. The cost method is used when the Company does not have significant influence.

The excess of cost of the stock of the associated companies over the Company's share of their net assets at the acquisition date, included in the equity investment balance, is recognized as equity method goodwill. Such equity method goodwill is not being amortized and is instead tested for impairment as part of the equity method investment.

The Company accounts for debt and equity securities in accordance with SFAS No. 115, Accounting for Certain Investments in Debt and Equity Securities.

SFAS No. 115 requires that certain investments in debt and equity securities be classified as held-to-maturity, trading, or available-for-sale securities. The Company classifies its existing marketable equity securities other than investments in associated companies and all debt securities as available-for-sale. Available-for-sale securities are carried at fair value with unrealized holding gains or losses included as a component of accumulated other comprehensive income (loss), net of applicable taxes.

Realized gains and losses are determined on the average cost method and reflected in earnings.

Table of Contents

- 28 -

MATSUSHITA ELECTRIC INDUSTRIAL CO., LTD.
AND SUBSIDIARIES

Notes to Consolidated Financial Statements

On a continuous basis, but no less frequently than at the end of each semi-annual period, the Company evaluates the carrying amount of each of the investments in associated companies, cost method investments and available-for-sale securities for possible other-than-temporary impairment. Factors considered in assessing whether an indication of other-than-temporary impairment exists include the period of time the fair value has been below the carrying amount or cost basis of investment, financial condition and prospects of each investee, and other relevant factors.

Investments in associated companies, cost method investments and available-for-sale securities are reduced to fair value by a charge to earnings when impairment is considered to be other than temporary. Impairment is measured based on the amount by which the carrying amount or cost basis of the investment exceeds its fair value. Fair value is determined based on quoted market prices, discounted cash flows or other valuation techniques as appropriate.

(k) **Allowance for Doubtful Receivables**

An allowance for doubtful trade receivables and advances is provided at an amount calculated based on historical experience, while specific allowances for doubtful receivables are provided for the estimated amounts considered to be uncollectible after reviewing individual collectibility.

(l) **Income Taxes**

Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases, and operating loss and tax credit carryforwards.

Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

(m) **Advertising**

Advertising costs are expensed as incurred.

(n) **Net Income per Share**

The Company accounts for net income per share in accordance with SFAS No. 128, Earnings per Share. This Statement establishes standards for computing net income per share and requires dual presentation of basic and diluted net income per share on the face of the statements of income for all entities with complex capital structures.

Table of Contents

- 29 -

MATSUSHITA ELECTRIC INDUSTRIAL CO., LTD.
AND SUBSIDIARIES

Notes to Consolidated Financial Statements

Under SFAS No. 128, basic net income per share is computed based on the weighted-average number of common shares outstanding during each period, and diluted net income per share assumes the dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock or resulted in the issuance of common stock.

(o) **Cash Equivalents**

Cash equivalents include all highly liquid debt instruments purchased with a maturity of three months or less.

(p) **Derivative Financial Instruments**

Derivative financial instruments utilized by the Company are comprised principally of foreign exchange contracts, interest rate swaps, cross currency swaps and commodity futures used to hedge currency risk, interest rate risk and commodity price risk.

The Company accounts for derivative instruments in accordance with SFAS No. 133, Accounting for Derivative Instruments and Hedging Activities, as amended. The Company recognizes derivatives in the consolidated balance sheets at their fair value in Other current assets, Other assets, Other current liabilities or Other liabilities. On the date the derivative contract is entered into, the Company ordinarily designates the derivative as either a hedge of the fair value of a recognized asset or liability or of an unrecognized firm commitment (fair-value hedge), a hedge of a forecasted transaction or of the variability of cash flows to be received or paid related to a recognized asset or liability (cash-flow hedge), or a foreign-currency fair-value or cash-flow hedge (foreign-currency hedge). The Company formally documents all relationships between hedging instruments and hedged items, as well as its risk-management objective and strategy for undertaking various hedge transactions. The Company also formally assesses, both at the hedge's inception and on an ongoing basis, whether the derivatives that are used in hedging transactions are highly effective in offsetting changes in fair values or cash flows of hedged items.

Changes in the fair value of a derivative that is highly effective and that is designated and qualifies as a fair-value hedge, along with the loss or gain on the hedged asset or liability or unrecognized firm commitment of the hedged item that is attributable to the hedged risk, are recorded in earnings. Changes in the fair value of a derivative that is highly effective and that is designated and qualifies as a cash-flow hedge are recorded in other comprehensive income (loss), until earnings are affected by the variability in cash flows of the designated hedged item. Changes in the fair value of derivatives that are highly effective as hedges and that are designated and qualify as foreign-currency hedges are recorded in either earnings or other comprehensive income (loss), depending on whether the hedge transaction is a fair-value hedge or a cash-flow hedge. The ineffective portion of the change in fair value of a derivative instrument that qualifies as either a fair-value hedge or a cash-flow hedge is reported in earnings.

MATSUSHITA ELECTRIC INDUSTRIAL CO., LTD.
AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(q) Impairment of Long-Lived Assets

The Company accounts for impairment or disposition of long-lived assets in accordance with SFAS No. 144, Accounting for Impairment or Disposal of Long-Lived Assets. In accordance with SFAS No. 144, long-lived assets, such as property, plant and equipment, and purchased intangibles subject to amortization, are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to estimated undiscounted future cash flows expected to be generated by the asset. If the carrying amount of an asset exceeds its estimated future cash flows, an impairment charge is recognized for the amount by which the carrying amount of the asset exceeds the fair value of the asset.

(r) Restructuring Charges

The Company accounts for costs associated with exit or disposal activities in accordance with SFAS No. 146, Accounting for Costs Associated with Exit or Disposal Activities. Pursuant to SFAS No. 146, liabilities for restructuring costs are recognized when the liability is incurred, which may be subsequent to the date when the Company has committed to a restructuring plan.

(s) Stock-Based Compensation

SFAS No. 123 (revised 2004), Share-Based Payment (SFAS No. 123R) addresses accounting and disclosure requirements with measurement of the cost of employee service using a fair-value-based method of accounting for stock-based employee compensation plans.

Until fiscal 2006, the Company applied the intrinsic-based-method of accounting prescribed by Accounting Principles Board (APB) Opinion No. 25, Accounting for Stock Issued to Employees, and related interpretations to account for its stock option plans and adopted only the disclosure requirements of SFAS No. 123 Accounting for Stock-Based

Compensation, and SFAS No. 148, Accounting for Stock-Based Compensation Transition and Disclosure, an amendment of SFAS No. 123 until fiscal 2006. The Company adopted SFAS No. 123R for the six months ended September 30, 2006.

If the accounting provision of SFAS No. 123R had been adopted, the impact on the Company's net income for the six months ended September 30, 2005 and for the year ended March 31, 2006 would not be material.

(t) **Use of Estimates**

Management of the Company has made a number of estimates and assumptions relating to the reporting of assets and liabilities and the disclosure of contingent assets and liabilities to prepare these financial statements in conformity with generally accepted accounting principles. Actual results could differ from those estimates.

(u) **Reclassifications**

Certain reclassifications have been made to the consolidated financial statements for the six months ended September 30, 2005 to conform with the presentation used for the six months ended September 30, 2006.

Notes to Consolidated Financial Statements

(4) Leases

The Company has operating leases for certain machinery and equipment. Future minimum lease payments under operating leases at September 30, 2006 are as follows:

	Yen (millions)
Due within 1 year	52,006
Due after 1 year within 2 years	53,645
Due after 2 years within 3 years	32,416
Due after 3 years within 4 years	26,268
Due after 4 years within 5 years	29,072
Thereafter	4,739
Total minimum lease payments	198,146

(5) Long-Lived Assets

The Company periodically reviews the recorded value of its long-lived assets to determine if the future cash flows to be derived from these assets will be sufficient to recover the remaining recorded asset values. Impairment losses are included in other deductions in the consolidated statements of income, and are not charged to segment profit.

The Company recognized impairment losses in the aggregate of 1,016 million yen of property, plant and equipment for the six months ended September 30, 2006.

The impairment losses mainly consist of the impairment of certain manufacturing facilities used in connection with glass lenses and certain sensor at a domestic subsidiary. Due to the low profitability by reduction of the production and low sales with the delay of new product introduction compared to original plan, the Company wrote down the carrying amount of these assets to the recoverable amount. The fair value was based on discounted estimated future cash flows.

Impairment losses of 837 million yen, 153 million yen and 26 million yen were related to Components and Devices, MEW and PanaHome and the remaining segments, respectively.

The Company recognized impairment losses in the aggregate of 5,433 million yen of property, plant and equipment for the six months ended September 30, 2005.

The impairment losses mainly consist of the impairment of certain unused assets and manufacturing facilities at domestic and overseas subsidiaries. Due to the decline of the fair value of the unused assets and lower profitability of their business, the Company wrote down the carrying amount of these assets to the recoverable amount. The fair value of the land, buildings and manufacturing facilities was determined by specific appraisal or based on discounted estimated future cash flow.

Table of Contents

- 35 -

MATSUSHITA ELECTRIC INDUSTRIAL CO., LTD.
AND SUBSIDIARIES

Notes to Consolidated Financial Statements

The remaining impairment loss is mainly related to write-down of land, buildings and equipments for information and communications products at domestic manufacturing subsidiaries. Due mainly to the weak market demand and plans to reduce production of these products, the Company estimated the carrying amounts would not be recovered by the future cash flows. The fair value was determined by estimating the market value.

Impairment losses of 2,462 million yen, 406 million yen, 1,868 million yen and 697 million yen were related to AVC Networks, Home Appliances, MEW and PanaHome and the remaining segments, respectively.

The Company recognized impairment losses in the aggregate of 16,230 million yen of property, plant and equipment during fiscal 2006.

The Company decided to sell certain land and buildings, and classified those land and buildings as assets held for sale. These assets are included in other current assets in the consolidated balance sheet and the Company recognized an impairment loss. The fair value of the land and buildings was determined by using a purchase price offered by a third party.

The Company also recorded impairment losses related to write-down of land and buildings used in connection with the manufacture of certain information and communications equipment at a domestic subsidiary. As a result of plans to carry out selection and concentration of businesses, the Company estimated the carrying amounts would not be recovered by the future cash flows. The fair value of land was determined by specific appraisal. The fair value of buildings was determined based on the discounted estimated future cash flows expected to result from the use of the buildings and their eventual disposition.

Impairment losses of 4,260 million yen, 2,771 million yen, 2,488 million yen, 2,754 million yen and 3,957 million yen were related to AVC Networks, Components and Devices, MEW and PanaHome, Other and the remaining segments respectively.

The Company recognized an impairment loss of 50,050 million yen during fiscal 2006 related to goodwill of a mobile communication subsidiary. The Company also recognized an impairment loss of 98 million yen of non-amortizing intangible assets, in connection with the decline of their market value during fiscal 2006.

MATSUSHITA ELECTRIC INDUSTRIAL CO., LTD.
AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(10) Derivatives and Hedging Activities

The Company operates internationally, giving rise to significant exposure to market risks arising from changes in foreign exchange rates, interest rates and commodity prices. The Company assesses these risks by continually monitoring changes in these exposures and by evaluating hedging opportunities. Derivative financial instruments utilized by the Company to hedge these risks are comprised principally of foreign exchange contracts, interest rate swaps, cross currency swaps and commodity derivatives. The Company does not hold or issue derivative financial instruments for any purposes other than hedging.

Gains and losses related to derivative instruments are classified in other income (deductions) in the consolidated statements of income. The amount of the hedging ineffectiveness and net gain or loss excluded from the assessment of hedge effectiveness is not material for the six months ended September 30, 2006 and 2005 and for the year ended March 31, 2006. Amounts included in accumulated other comprehensive income (loss) at September 30, 2006 are expected to be recognized in earnings principally over the next twelve months. The maximum term over which the Company is hedging exposures to the variability of cash flows for foreign currency exchange risk is approximately five months.

The Company is exposed to credit risk in the event of non-performance by counterparties to the derivative contracts, but such risk is considered mitigated by the high credit rating of the counterparties.

(11) Commitments and Contingent Liabilities

The Company provides guarantees to third parties mainly on bank loans provided to its employees, associated companies and customers. The guarantees for the employees are principally made for their housing loans. The guarantees for associated companies and customers are made to enhance their credit. For each guarantee provided, the Company is required to perform under the guarantee if the guaranteed party defaults on a payment. At September 30, 2006, the maximum amount of undiscounted payments the Company would have to make in the event of default is 18,892 million yen. The carrying amount of the liabilities recognized for the Company's obligations as a guarantor

under those guarantees at September 30, 2006 and 2005 and March 31, 2006 was insignificant.

In connection with the sale and lease back of certain machinery and equipment, the Company guarantees a specific value of the leased assets. For each guarantee provided, the Company is required to perform under the guarantee if certain conditions are met during or at the end of the lease term. At September 30, 2006, the maximum amount of undiscounted payments the Company would have to make in the event that these conditions are met is 42,874 million yen. The carrying amount of the liabilities recognized for the Company's obligations as guarantors under those guarantees at September 30, 2006 and 2005 and March 31, 2006 was insignificant.

- 40 -

MATSUSHITA ELECTRIC INDUSTRIAL CO., LTD.
AND SUBSIDIARIES

Notes to Consolidated Financial Statements

Contingent liabilities at September 30, 2006 for discounted export bills of exchange amounted to 948 million yen.

There are a number of legal actions against the Company. Management is of the opinion that damages, if any, resulting from these actions will not have a material effect on the Company's consolidated financial statements.

(12) Segment Information

In accordance with SFAS No. 131, Disclosures about Segments of an Enterprise and Related Information, the segments reported below are the components of the Company for which separate financial information is available that is evaluated regularly by the chief operating decision maker of the Company in deciding how to allocate resources and in assessing performance.

Business segments correspond to categories of activity classified primarily by markets, products and brand names.
