Notes to Consolidated Financial Statements (Unaudited)

Three Months Ended March 31, 2007 and 2006

1. Nature of Operations

Assurant, Inc. (formerly, Fortis, Inc.) (the "Company") is a holding company whose subsidiaries provide specialized insurance products and related services in North America and selected international markets. Prior to the Initial Public Offering (the "IPO") on February 5, 2004, Fortis, Inc. was incorporated in Nevada and was indirectly wholly owned by Fortis N.V. of the Netherlands and Fortis SA/NV of Belgium (collectively, "Fortis") through their affiliates, including their wholly owned subsidiary, Fortis Insurance N.V.

In connection with the IPO, Fortis, Inc. was merged into Assurant, Inc., a Delaware corporation, which was formed solely for the purpose of the redomestication of Fortis, Inc. After the merger, Assurant, Inc. became the successor to the business, operations and obligations of Fortis, Inc. Assurant, Inc. is traded on the New York Stock Exchange under the symbol AIZ.

Through its operating subsidiaries, the Company provides creditor-placed homeowners insurance, manufactured housing homeowners insurance, debt protection administration, credit insurance, warranties and extended service contracts, individual health and small employer group health insurance, group dental insurance, group disability insurance, group life insurance and pre-funded funeral insurance.

2. Basis of Presentation

The accompanying unaudited interim consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") for interim financial information. Accordingly, these statements do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements.

In the opinion of management, all adjustments (consisting only of normal recurring accruals) considered necessary for a fair statement of the financial statements have been included. Certain prior period amounts have been reclassified to conform to the 2007 presentation.

The Company recorded a cumulative effect of change in accounting principles of \$(4,264) and \$(1,508) during the three months ended March 31, 2007. A charge of \$(4,264) related to the adoption of AICPA Statement of Position 05-1, *Accounting by Insurance Enterprises for Deferred Acquisition Costs in Connection With Modification or Exchange of Insurance Contracts*, ("SOP 05-1") and a charge of \$(1,508) related to the adoption of FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes - an interpretation of FASB Statement No. 109* ("FIN 48") (Note 3). These amounts are reflected in the statement of changes in stockholders' equity as required. The Company also recorded a cumulative effect of change in accounting principle of \$1,547 during the three months ended March 31, 2006 related to the adoption of statement of Financial Accounting Standards ("FAS") No. 123 (revised 2004), *Share Based Payment* ("FAS 123R") which is reflected in the statement of operations.

Amounts are in thousands, except for number of shares and per share amounts.

The consolidated financial statements include the accounts of the Company and all of its wholly owned subsidiaries. All inter-company transactions and balances are eliminated in consolidation.

Operating results for the three months ended March 31, 2007 are not necessarily indicative of the results that may be expected for the year ending December 31, 2007. The accompanying interim consolidated financial statements should be read in conjunction with the audited consolidated financial statements and related notes included in the Company's annual report on Form 10-K for the year ended December 31, 2006.

3. Recent Accounting Pronouncements

On January 1, 2007, the Company adopted SOP 05-1. SOP 05-1 provides guidance on internal replacements of insurance and investment contracts. An internal replacement is a modification in product benefits, features, rights or coverages that occurs by the exchange of a contract for a new contract or by amendment, endorsement, or rider to a contract, or by the election of a feature or coverage within a contract. Modifications that result in a new contract that is substantially different from the replaced contract are accounted for as an extinguishment of the replaced contract, and the associated unamortized DAC, unearned revenue liabilities and deferred sales inducements from the replaced contract must be reported as an expense immediately. Modifications resulting in a new contract that is substantially the same as the replaced contract are accounted for as a continuation of the replaced contract. Prior to the adoption of SOP 05-1, certain internal replacements that did meet new criteria were accounted for as continuations of the replaced contract. Therefore, the accounting policy for certain internal replacements has changed as a result of the adoption of this SOP. At adoption, the Company recognized \$4,264 decrease to deferred acquisition costs, which was accounted for as a reduction to the January 1, 2007 balance of retained earnings.

On January 1, 2007, the Company adopted FAS No. 155, *Accounting for Certain Hybrid Financial Instruments – an amendment of FASB Statements No. 133 and 140* (FAS 155). This statement resolves issues addressed in FAS 133 Implementation Issue No. D1, Application of Statement 133 to Beneficial Interest in Securitized Financial Assets. FAS 155 (a) permits fair value remeasurement for any hybrid financial instrument that contains an embedded derivative that otherwise would require bifurcation; (b) clarifies which interest-only strips and principal-only strips are not subject to the requirements of FAS 133; (c) establishes a requirement to evaluate beneficial interests in securitized financial assets to identify interests that are freestanding derivatives or that are hybrid financial instruments that contain an embedded derivative requiring bifurcation; (d) clarifies that concentrations of credit risk in the form of subordination are not embedded derivatives; and (e) eliminates restrictions on a qualifying special-purpose entity's ability to hold passive derivative financial instruments that pertain to beneficial interests that are or contain a derivative financial instrument. FAS 155 also requires presentation within the financial statements that identifies those hybrid financial instruments for which the fair value election has been applied and information on the income statement impact of the changes in fair value of those instruments. The adoption of FAS 155 did not have a material impact on the Company's financial statements.

On January 1, 2007, the Company adopted FIN 48. As a result of the implementation, the Company recognized a \$1,508 increase to the liability for unrecognized tax benefits, which as required was accounted for as a reduction to the January 1, 2007 balance of retained earnings. At adoption, total unrecognized tax benefits are \$33,339. Of the total unrecognized tax benefits, approximately \$11,998, if recognized, would impact the Company's consolidated effective tax rate. The Company, or one of its subsidiaries, files income tax returns in the U.S. and various state and foreign jurisdictions. The Company has substantially concluded all U.S. federal income tax matters for years through 2002, with the exception of one item from 2001 that is under appeal. The issue under appeal relates to the sale of one of the Company's businesses during 2001. The final outcome of this appeal is not yet determinable; however, management does not anticipate the adjustments would result in a material change to the financial statements. Substantially all state, local and non-U.S. income tax matters have been concluded for the years through 1999. The Company's continuing practice is to recognize interest and/or penalties related to income tax matters in income tax expense. At the date of adoption, the Company had approximately \$3,541 accrued for tax related interest and penalties on its Consolidated Balance Sheets. The Company does not anticipate a significant change to the total amount of unrecognized tax benefits within the next 12 months.

Notes to Consolidated Financial Statements (Unaudited)

Three Months Ended March 31, 2007 and 2006

Recent Accounting Pronouncements Outstanding

In September 2006, the FASB issued FAS 157, *Fair Value Measurements* (FAS 157). FAS 157 defines fair value, addresses how companies should measure fair value when they are required to use a fair value measure for recognition or disclosure purposes under GAAP, and expands disclosures about fair value measurements. FAS 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. Therefore, the Company is required to adopt FAS 157 in the first quarter of 2008. The Company is currently evaluating the requirements of FAS 157 and the potential impact on the Company's financial statements.

In February 2007, the FASB issued FAS 159, *The Fair Value Option for Financial Assets and Financial Liabilities* (FAS 159). FAS 159 provides a choice to measure many financial instruments and certain other items at fair value and requires disclosures about the election of the fair value option. Unrealized gains and losses on items for which the fair value option has been elected are reported in earnings. FAS 159 is effective for fiscal years beginning after November 15, 2007. Therefore, the Company is required to adopt FAS 159 in the first quarter of 2008. The Company is currently evaluating the requirements of FAS 159 and the potential impact on the Company's financial statements.

In March 2007, the FASB ratified the consensus reached by the Emerging Issues Task Force (EITF) in Issue 06-10, *Accounting for Deferred Compensation and Postretirement Benefit Aspects of Collateral Assignment Split-Dollar Life Insurance Arrangements* (EITF 06-10). EITF 06-10 provides guidance regarding the employer's recognition of the liability and the related compensation costs for collateral assignment split-dollar life insurance arrangements that provide a benefit to an employee that extends into postretirement periods. This consensus concludes that for a collateral assignment split-dollar life insurance arrangement, an employer should recognize a liability for future benefits in accordance with FASB Statement No. 106 (if, in substance, a postretirement benefit plan exists) or APB Opinion No. 12 (if the arrangement is, in substance, an individual deferred compensation contract) based on the substantive agreement with the employee. EITF 06-10 also provides guidance regarding the employer's recognition of the asset in collateral assignment split-dollar life insurance arrangements. EITF 06-10 is effective for financial statements issued for fiscal years beginning after December 15, 2007 and therefore the Company is required to adopt EITF 06-10 in the first quarter of 2008. The Company is currently evaluating the requirements of EITF 06-10 and the potential impact on the Company's financial statements.

4. Debt

In February 2004, the Company issued two series of senior notes with an aggregate principal amount of \$975,000. The Company received net proceeds from this transaction of \$971,537, which represent the principal amount less the discount. The discount will be amortized over the life of the notes.

The interest expense incurred related to the senior notes was \$15,047 for the three months ended March 31, 2007 and 2006, respectively. There was \$7,356 of accrued interest at March 31, 2007 and 2006, respectively. The Company made an interest payment of \$30,094 on February 15, 2007.

In March 2004, the Company established a \$500,000 commercial paper program, which is available for working capital and other general corporate purposes. This program is backed up by a \$500,000 senior revolving credit facility. On January 9, 2007, the Company used \$20,000 from the commercial paper program for general corporate purposes, which was repaid on January 16, 2007. There were no amounts relating to the commercial paper program outstanding at March 31, 2007. The Company did not use the revolving credit facility during the three months ended March 31, 2007 and no amounts are currently outstanding.

The revolving credit facility contains restrictive covenants. The terms of the revolving credit facility also require that the Company maintain certain specified minimum ratios and thresholds. The Company is in compliance with all covenants and the Company maintains all specified minimum ratios and thresholds.

Table of Contents**Assurant, Inc. and Subsidiaries****Notes to Consolidated Financial Statements (Unaudited)****Three Months Ended March 31, 2007 and 2006****5. Stock Based Compensation****Directors Compensation Plan**

The Company's Directors Compensation Plan permits the issuance of up to 500,000 shares of the Company's common stock to Non-Employee Directors. There were no common shares issued or expense recorded related to the Director's Plan for the three months ended March 31, 2007 and 2006, respectively.

Long-Term Incentive Plan

The 2004 Long-Term Incentive Plan provides for the granting of up to 10,000,000 shares of the Company's common stock to employees and officers under the Assurant Long Term Incentive Plan, Business Value Rights Program and CEO Equity Grants Program.

Restricted Stock

A summary of the Company's outstanding Restricted Stock as of March 31, 2007, is presented below:

	Shares	Weighted-Average Grant-Date Fair Value
Shares outstanding at December 31, 2006	154,033	\$ 45.55
Grants	77,009	53.87
Vests	(3,362)	43.88

 SARs exercisable at March 31, 2007	 3,108,888	 \$ 24.86	 5.3	 \$ 89,457

There were 1,531,525 and zero SARs granted during the three months ended March 31, 2007 and 2006, respectively. The compensation expense recorded related to SARs was \$2,165 and \$2,951 for the three months ended March 31, 2007 and 2006, respectively. The related income tax benefit recognized for the same periods was \$758 and \$1,033, respectively. The weighted average grant date fair value for SARs granted during the three months ended March 31, 2007 was \$11.44.

The total intrinsic value of SARs exercised during the three months ended March 31, 2007 and 2006 was \$13,123 and \$4,971, respectively. As of March 31, 2007, there was approximately \$26,459 of unrecognized compensation cost related to outstanding SARs. That cost is expected to be recognized over a weighted-average period of 1.9 years.

The fair value of each SAR outstanding was estimated on the date of grant using the Black-Scholes option-pricing model. Expected volatilities for awards issued during the three months ended March 31, 2007 were based on the median historical stock price volatility of a peer group of insurance companies and implied volatilities from traded options on the Company's stock. The expected term for grants issued during the three months ended March 31, 2007 was assumed to equal the average of the vesting period of the SARs and the full contractual term of the SARs. The risk-free rate for periods within the contractual life of the option was based on the U.S. Treasury yield curve in effect at the time of grant.

Under the Employee Stock Purchase Plan (ESPP), the Company is authorized to issue up to 5,000,000 new shares to employees who are participants in the ESPP. The compensation expense recorded related to the ESPP was \$336 and \$317 for the three months ended March 31, 2007 and 2006, respectively.

In January 2007, the Company issued 80,282 shares to employees at a price of \$43.52 for the offering period of July 1 through December 31, 2006, related to the ESPP. In January 2006, the Company issued 73,992 shares to employees at a price of \$32.59 for the offering period of July 1 through December 31, 2005, related to the ESPP.

The fair value of each award under the ESPP was estimated at the beginning of each offering period using the Black-Scholes option-pricing model and the assumptions in the following table. Expected volatilities are based on implied volatilities from traded options on the Company's stock and the historical volatility of the Company's stock. The risk-free rate for periods within the contractual life of the option is based on the U.S. Treasury yield curve in effect at the time of grant.

(1) The Company's nonqualified plans are unfunded.

During the first three months of 2007, the Company contributed \$10,000 to the qualified pension benefits plan. The Company expects to contribute \$40,000 to the qualified pension benefits plan for the full year 2007.

9. Segment Information

On April 1, 2006, the Company separated Assurant Solutions business segment into two business segments: Assurant Solutions and Assurant Specialty Property. In addition, concurrent with the creation of the new Assurant Solutions and Assurant Specialty Property segments, the Company realigned the Preneed segment under the new Assurant Solutions segment. The segment income statement for the three months ended March 31, 2006 has been recast to reflect the new segment reporting structure.

In connection with the segment changes described above, the Company transferred the run-off Asbestos business previously in the Assurant Solutions segment to the Corporate & Other segment. The transfer of this business is consistent with the Company's policy of managing run-off business in the Corporate & Other segment.

The Company has five reportable segments, which are defined based on the nature of the products and services offered: Assurant Solutions, Assurant Specialty Property, Assurant Health, Assurant Employee Benefits, and Corporate & Other. Assurant Solutions provides credit insurance, including life, disability and unemployment, debt protection administration services, warranties and extended service contracts, life insurance policies and annuity products that provide benefits to fund pre-arranged funerals. Assurant Specialty Property provides creditor-placed homeowners insurance and manufactured housing homeowners insurance. Assurant Health provides individual, short-term and small group health insurance. Assurant Employee Benefits provides employee and employer paid dental, disability, and life insurance products and related services. Corporate & Other includes activities of the holding company, financing and interest expenses, net realized gains (losses) on investments, interest income earned from short-term investments held and additional costs associated with excess of loss reinsurance programs reinsured and ceded to certain subsidiaries in the London market between 1995 and 1997. Corporate & Other also includes the amortization of deferred gains associated with the sales of Fortis Financial Group and Long-Term Care through reinsurance agreements.

Edgar Filing: ASSURANT INC - Form 10-Q

The Company evaluates performance of the operating business segments based on segment income (loss) after-tax excluding realized gains (losses) on investments. The Company determines reportable segments in a manner consistent with the way the Company organizes for purposes of making operating decisions and assessing performance.

10. Commitments and Contingencies

In the normal course of business, letters of credit are issued primarily to support reinsurance arrangements. These letters of credit are supported by commitments with financial institutions. The Company had \$33,261 of letters of credit outstanding as of March 31, 2007.

The Company is regularly involved in litigation in the ordinary course of business, both as a defendant and as a plaintiff. The Company may from time to time be subject to a variety of legal and regulatory actions relating to the Company's current and past business operations. While the Company cannot predict the outcome of any pending or future litigation, examination or investigation and although no assurances can be given, the Company does not believe that any pending matter will have a material adverse effect individually or in the aggregate, on the Company's financial condition or results of operations.

One of the Company's subsidiaries, American Reliable Insurance Company (ARIC), participated in certain excess of loss reinsurance programs in the London market and, as a result, reinsured certain personal accident, ransom and kidnap insurance risks from 1995 to 1997. ARIC and a foreign affiliate ceded a portion of these risks to retrocessionaires. ARIC ceased reinsuring such business in 1997. However, certain risks continued beyond 1997 due to the nature of the reinsurance contracts written. ARIC and some of the other reinsurers involved in the programs are seeking to avoid certain treaties on various grounds, including material misrepresentation and non-disclosure by the ceding companies and intermediaries involved in the programs. Similarly, some of the retrocessionaires are seeking avoidance of certain treaties with ARIC and the other reinsurers and some reinsureds are seeking collection of disputed balances under some of the treaties. The disputes generally involve multiple layers of reinsurance, and allegations that the reinsurance programs involved interrelated claims spirals devised to disproportionately pass claims losses to higher-level reinsurance layers. Many of the companies involved in these programs, including ARIC, are currently involved in negotiations, arbitrations and/or litigation between multiple layers of retrocessionaires, reinsurers, ceding companies and intermediaries, including brokers, in an effort to resolve these disputes.

Many of the disputes involving ARIC and an affiliate, Bankers Insurance Company Limited (BICL), relating to the 1995 and 1997 program years, were resolved by settlement or arbitration in 2005. As a result of the settlements and an arbitration (in which ARIC did not prevail) additional information became available in 2005, and based on management's best estimate, the Company increased its reserves and recorded a total pre-tax charge of \$61,943 for the year ended December 31, 2005. Negotiations, arbitrations and litigation are still ongoing or will be scheduled for the remaining disputes. On February 28, 2006 there was a settlement relating to the 1996 program. Loss accruals previously established relating to the 1996 program were adequate. The Company believes, based on information currently available, that the amounts accrued for currently outstanding disputes are adequate. However, the inherent uncertainty of arbitrations and lawsuits, including the uncertainty of estimating whether any settlements Company may enter into in the future would be on favorable terms, makes it difficult to predict the outcomes with certainty.

As part of ongoing, industry-wide investigations, the Company has received various subpoenas and requests from the Securities and Exchange Commission and the United States Attorney for the Southern District of New York in connection with various investigations into certain loss mitigation products and the use of finite risk insurance. The Company is cooperating fully with these investigations and is complying with these requests.

The Company conducted an evaluation of the transactions that could potentially fall within the scope of the subpoenas, as defined by the authorities, and has provided information as requested. Based on the Company's investigation to date, the Company has concluded that there was a verbal side agreement with respect to one of our

reinsurers under our catastrophic reinsurance program. While management believes that the difference resulting from the appropriate alternative accounting treatment would be immaterial to our financial position or results of operations, regulators may reach a different conclusion. This contract expired in December 2004 and was not renewed.

The Audit Committee of the Board of Directors, with the assistance of independent and Company counsel as it deemed appropriate, also completed its own investigation of the matters raised by the subpoenas, continues to respond to inquiries from the regulatory agencies and otherwise continues to fully cooperate with the regulatory agencies. The Audit Committee has not found any wrongdoing on the part of any employees of the Company.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

(Dollar amounts in thousands except share data)

Management's Discussion and Analysis of Financial Condition and Results of Operations (MD&A) addresses the financial condition of Assurant, Inc. and its subsidiaries (which we refer to collectively as Assurant) as of March 31, 2007, compared with December 31, 2006, and our results of operations for the three months ended March 31, 2007 and 2006. This discussion should be read in conjunction with our MD&A and annual audited financial statements as of December 31, 2006 included in our Annual Report on Form 10-K for the year ended December 31, 2006 filed with the U.S. Securities and Exchange Commission (SEC) and the March 31, 2007 unaudited consolidated financial statements and related notes included elsewhere in this Form 10-Q.

Some of the statements in this MD&A and elsewhere in this report may contain forward-looking statements which reflect our current views with respect to, among other things, future events and financial performance. You can identify these forward-looking statements by the use of forward-looking words such as outlook, believes, expects, potential, continues, may, will, should, seeks, approximately, pre estimates, anticipates or the negative version of those words or other comparable words. Any forward-looking statements contained in this report are based upon our historical performance and on current plans, estimates and expectations. The inclusion of this forward-looking information should not be regarded as a representation by us or any other person that the future plans, estimates or expectations contemplated by us will be achieved. Such forward-looking statements are subject to various risks and uncertainties. Accordingly, there are or will be important factors that could cause our actual results to differ materially from those indicated in this report. We believe that these factors include but are not limited to those described under the subsection entitled Risk Factors in our 2006 Annual Report on Form 10-K. These factors should not be construed as exhaustive and should be read in conjunction with the other cautionary statements that are included in this report. We undertake no obligation to publicly update or review any forward-looking statement, whether as a result of new information, future developments or otherwise. If one or more of these or other risks or uncertainties materialize, or if our underlying assumptions prove to be incorrect, actual results may vary materially from what we projected. Any forward-looking statements you read in this report reflect our current views with respect to future events and are subject to these and other risks, uncertainties and assumptions relating to our operations, results of operations, financial condition, growth strategy and liquidity.

Company Overview

Assurant is a premier provider of specialized insurance products and related services in North America and selected international markets. On April 1, 2006, the Company separated the Assurant Solutions business segment into two business segments: Assurant Solutions and Assurant Specialty Property. In addition, concurrent with the creation of the new Assurant Solutions and Assurant Specialty Property segments, the Company realigned the Preneed segment under the new Assurant Solutions segment. The segment income statements for the three months ended March 31, 2006 have been recast to reflect the new segment reporting structure. The four business segments Assurant Solutions; Assurant Specialty Property; Assurant Health; and Assurant Employee Benefits have partnered with clients who are leaders in their industries and have built leadership positions in a number of specialty insurance market segments in the U.S. and selected international markets. The Assurant business segments provide creditor-placed homeowners insurance; manufactured housing homeowners insurance; debt protection administration services; credit insurance including life, disability and unemployment; warranties and extended services contracts; individual, short-term and small employer group health insurance; group dental insurance; group disability insurance; group life insurance; and pre-funded funeral insurance.

Critical Factors Affecting Results

Our results depend on the adequacy of our product pricing, underwriting and the accuracy of our methodology for the establishment of reserves for future policyholder benefits and claims, returns on invested assets and our ability to manage our expenses. Therefore, factors affecting these items may have a material adverse effect on our results of operations or financial condition.

Critical Accounting Policies and Estimates

Our 2006 Annual Report on Form 10-K described the accounting policies and estimates that are critical to the understanding of our results of operations, financial condition and liquidity. The accounting policies and estimates described in the 2006 Annual Report on Form 10-K were consistently applied to the consolidated interim financial statements for the three months ended March 31, 2007.

For The Three Months Ended March 31, 2007 Compared to The Three Months Ended March 31, 2006.*Net Income*

Net income before cumulative effect of change in accounting principle increased by \$18,532, or 12%, to \$179,457 for the three months ended March 31, 2007 from \$160,925 for the three months ended March 31, 2006. The increase was primarily driven by an increase in Assurant Specialty Property's creditor-placed homeowners business and Assurant Employee Benefit's investment income from real estate partnerships and favorable group disability and group life experience. The increase in consolidated net income is partially offset by a decrease in Assurant Health's net income primarily due to the continuing decline in small employer group net earned premiums. The \$1,547 cumulative effect of change in accounting principle was due to the adoption of FAS 123R on January 1, 2006.

Table of Contents

For The Three Months Ended March 31, 2007 Compared to The Three Months Ended March 31, 2006.

Net Income

Segment net income increased by \$4,322, or 11%, to \$44,069 for the three months ended March 31, 2007 from \$39,747 for the three months ended March 31, 2006. The increase in segment net income was primarily due to an increase in investment income from real estate partnerships of approximately \$7,800 (after tax). Absent the increase in investment income from real estate partnerships, net operating income decreased primarily due to our continued investments made to support our international expansion and poor domestic service contract experience attributable to two clients.

Total Revenues

Total revenues increased by \$31,439 or 4%, to \$733,079 for the three months ended March 31, 2007 from \$701,640 for the three months ended March 31, 2006. The increase is primarily due to an increase in net investment income of \$14,935, or 15%, primarily due to an increase in investment income from real estate partnerships of approximately \$12,000 and due to higher average invested assets from growth in our domestic and international service contract businesses. This increase is also due to an increase in net earned premiums and other considerations of \$12,623. The increase in net earned premiums is primarily attributable to higher net earned premiums in our service contract and international business. These increases are partially offset by the decrease in the net earned premiums in our Preneed business due to the sale of the Independent-U.S. distribution channel combined with the continued decline of our domestic credit insurance business. The increase in revenues was also due to an increase in fees and other income of \$3,881, primarily due to the continued growth from our domestic service contract business. The increase was partially offset by reduced fee income resulting from the loss of a debt deferment client.

We experienced growth in most of our core product lines, with the exception of our domestic credit insurance and Preneed businesses. Gross written premiums in our domestic credit insurance business decreased by \$7,084 due to the continued decline of this product line and the termination of a client. Gross written premiums from our international credit business increased by \$30,391 due to growth in our expansion countries. Gross written premiums in our domestic service contract business increased by \$99,442 due to the addition of a new client and growth generated from existing clients. Gross written premiums in our international service contract business increased by \$13,326, mainly due to increased premium from existing clients. We also experienced a decrease in our Preneed business due to the sale of the U.S. Independent distribution channel in November 2005.

Total Benefits, Losses and Expenses

Total benefits, losses and expenses increased by \$27,731, or 4%, to \$670,989 for the three months ended March 31, 2007 from \$643,258 for the three months ended March 31, 2006. This increase was primarily due to an increase in selling, underwriting and general expenses of \$32,767. Commissions, taxes, licenses and fees, of which amortization of DAC is a component, increased by \$30,553 primarily due to the

Table of Contents

associated increase in revenues and a change in the mix of business. Commissions increased due to higher commission rates on our increasing service contract business versus lower commission rates on the decreasing U.S. Independent Preneed business. General expenses increased by \$2,214 due to higher expenses directly related to the growth of the business. Policyholder benefits decreased by \$5,036 as a result of the sale of the U.S. Independent Preneed business. This was partially offset by an increase in service contract policyholder benefits from growth in the business. The domestic combined ratio increased 90 basis points, to 100.9% from 100.0%, primarily due to poor domestic service contract experience attributable to two clients. The international combined ratio increased 690 basis points, to 102.1% from 95.2%, primarily due to international expansion costs.

Table of Contents

For The Three Months Ended March 31, 2007 Compared to The Three Months Ended March 31, 2006.

Net Income

Segment net income increased by \$9,990, or 16%, to \$74,434 for the three months ended March 31, 2007 from \$64,444 for the three months ended March 31, 2006. The increase in segment income is primarily due to increased net earned premiums and fee income associated with the growth of our creditor placed homeowners business. This increase has resulted in higher invested assets which resulted in a 30% increase in investment income. These increases were partially offset by an increase in catastrophe reinsurance premiums and a decrease of \$5,200 (after tax) in reimbursements from the National Flood Insurance Program.

Total Revenues

Total revenues increased by \$122,509, or 44%, to \$401,506 for the three months ended March 31, 2007 from \$278,997 for the three months ended March 31, 2006. The increase is primarily due to an increase in net earned premiums and other considerations of \$114,292, or 45%. This increase was primarily attributable to the growth in the creditor placed homeowners product line, including the Safeco Financial Insurance Services (SFIS) acquisition during the second quarter of 2006, combined with continued organic growth of this business. In addition, we have experienced an increase in the number of policies issued due to a higher volume of creditor placed homeowners policies combined with a higher average insured value on these policies. The overall increase in net earned premiums was partially offset by higher catastrophe reinsurance premium of approximately \$27,100. The increase in revenues was also driven by an increase in investment income of \$5,079, or 30%, primarily due to higher invested assets. Also contributing to the increase in revenue was an increase in fee income of \$3,138, or 33%, primarily driven by growth in the number of creditor placed homeowners loans tracked.

Total Benefits, Losses and Expenses

Total benefits, losses and expenses increased by \$108,038, or 60%, to \$287,586 for the three months ended March 31, 2007 from \$179,548 for the three months ended March 31, 2006. This was due to an increase in policyholder benefits of \$46,328 and an increase in selling, underwriting, and general expenses of \$61,710. The increase in policyholder benefits is primarily attributable to the continued growth in our creditor-placed homeowners business and approximately \$7,800 in lower reimbursements from the National Flood Insurance Program. The combined ratio increased 730 basis points to 75.8% from 68.5%, primarily due to increased catastrophe reinsurance premium and lower reimbursements from the National Flood Insurance Program. Commissions, taxes, licenses and fees, of which amortization of DAC is a component, increased by \$35,138 primarily due to the associated increase in revenues. General expenses increased by \$26,572 due to increases in employment related expenses consistent with business growth and the additional operating expenses associated with the SFIS business.

Table of Contents

For The Three Months Ended March 31, 2007 Compared to The Three Months Ended March 31, 2006.

Net Income

Segment net income decreased by \$4,572, or 10%, to \$40,524 for the three months ended March 31, 2007 from \$45,096 for the three months ended March 31, 2006. The decrease in segment income was primarily attributable to the continuing decline in small employer group net earned premiums and a decrease in investment income from real estate partnerships.

Total Revenues

Total revenues decreased by \$15,390, or 3%, to \$541,742 for the three months ended March 31, 2007 from \$557,132 for the three months ended March 31, 2006. Net earned premiums and other considerations from our individual markets business increased by \$14,884, or 5%, primarily due to premium rate increases. Net earned premiums and other considerations from our small employer group business decreased by \$25,505, or 13%, due to a decline in members, partially offset by premium rate increases. The small employer group business continues to experience decreases in new business due to increased competition and our strict adherence to underwriting guidelines. Net investment income decreased by \$4,731 primarily due to lower income from real estate partnerships.

Total Benefits, Losses and Expenses

Total benefits, losses and expenses decreased by \$8,919, or 2%, to \$479,194 for the three months ended March 31, 2007 from \$488,113 for the three months ended March 31, 2006. Policyholder benefits decreased by \$7,617, or 2%, and the benefit loss ratio improved slightly to 62.0% from 62.2%. Selling, underwriting and general expenses decreased by \$1,302, or 1%. The expense ratio increased by 40 basis points, to 30.9% from 30.5%. The increase in the expense ratio was primarily due to higher commission expense on increased individual medical first year business.

For The Three Months Ended March 31, 2007 Compared to The Three Months Ended March 31, 2006.

Net Income

Segment net income increased by \$9,772, or 51%, to \$28,957 for the three months ended March 31, 2007 from \$19,185 for the three months ended March 31, 2006. The increase in segment net income was primarily driven by increased investment income from real estate partnerships of approximately \$9,200 (after tax) and continued favorable group disability experience and group life experience. Group dental experience was

Edgar Filing: ASSURANT INC - Form 10-Q

less favorable compared to the prior year, driven by higher claims. The improvement in loss ratios is partially offset by the decrease in revenues.

Total Revenues

Total revenues decreased by \$18,945, or 5%, to \$354,837 for the three months ended March 31, 2007 from \$373,782 for the three months ended March 31, 2006. This is primarily due to a decrease in net earned premiums and other considerations. Excluding group disability single premium for closed blocks,

Table of Contents

net earned premiums and other considerations decreased \$18,365, or 6%. The decrease is primarily a result of the residual impact of lower sales and persistency over the past several quarters as the business continues to implement its small case strategy. Sales in first quarter of 2007 increased to \$74,481 compared to \$47,293 for the first quarter of 2006, which we expect will lead to increased revenue over time. The decrease in revenues was partially offset by an increase in investment income of \$11,048, or 27%, primarily driven by an increase in investment income from real estate partnerships of approximately \$14,200.

Total Benefits, Losses and Expenses

Total benefits, losses and expenses decreased by \$33,993, or 10%, to \$310,560 for the three months ended March 31, 2007 from \$344,553 for the three months ended March 31, 2006. The loss ratio decreased 370 basis points, to 71.6% from 75.3%, primarily due to continued favorable group disability experience and favorable group life experience. The continued favorable group disability experience in the current year is driven by continued good incidence and favorable disability recovery rates, which includes claimants who return to work. Group life experience was favorable for the first quarter of 2007 compared to first quarter of 2006, driven by favorable mortality. Group dental experience was less favorable than the prior year due to higher claims. The expense ratio increased 260 basis points, to 32.4% from 29.8% primarily driven by the decrease in revenues that was proportionally larger than the decrease in general expenses. Selling, underwriting, and general expenses have decreased \$1,088, or 1%, period over period due to expense management.

Table of Contents***Assurant Corporate and Other******Overview***

The Corporate and Other segment includes activities of the holding company, financing expenses, net realized gains (losses) on investments, interest income earned from short-term investments held and additional costs associated with excess of loss reinsurance programs reinsured and ceded to certain subsidiaries in the London market between 1995 and 1997. The Corporate and Other segment also includes the amortization of deferred gains associated with the sales of Fortis Financial Group (FFG) (a business we sold via reinsurance on April 2, 2001) and Long Term Care (LTC) (a business we sold via reinsurance on March 1, 2000).

For The Three Months Ended March 31, 2007 Compared to The Three Months Ended March 31, 2006.***Net Loss***

Segment net loss increased by \$980, or 13%, to \$(8,527) for the three months ended March 31, 2007 from \$(7,547) for the three months ended March 31, 2006. This increase is primarily due to additional tax expense of approximately \$5,800 due to additional tax liabilities and the increase is also due to reduced investment income from real estate partnerships. These declines were partially offset by an increase in net realized gains on investments.

Total Revenues

Total revenues increased by \$7,868, or 43%, to \$26,099 for the three months ended March 31, 2007 from \$18,231 for the three months ended March 31, 2006. Revenues increased mainly due to an increase of \$10,022 in net realized gains on investments.

Total Benefits, Losses and Expenses

Net unrealized gains on fixed maturity securities decreased by \$3,775 from December 31, 2006 to March 31, 2007 to a net unrealized gain of \$180,257. The decrease in net unrealized gains on fixed maturities was primarily due to the widening corporate spreads and realized gains related to security sales offset by the net effect of a decrease in treasury yields. Net unrealized gains on equity securities increased by \$1,478 from December 31, 2006 to March 31, 2007 to a net unrealized gain of \$7,551. The increase is primarily due to changes in the preferred market.

Net investment income increased by \$24,334, or 13%, to \$216,896 for the three months ended March 31, 2007 from \$192,562 for the three months ended March 31, 2006. The increase is primarily due to higher net investment income from real estate partnerships which was \$33,540 for the three months ended March 31, 2007 compared to \$14,735 for the comparable period in 2006.

The investment category of the Company's gross unrealized losses on fixed maturities and equity securities at March 31, 2007 and the length of time the securities have been in an unrealized loss position were as follows (in thousands):

The total unrealized loss represents less than 2% of the aggregate fair value of the related securities. Approximately 80% of these unrealized losses have been in a continuous loss position for less than twelve months. The total unrealized losses are comprised of 1,292 individual securities with 93% of the individual securities having an unrealized loss of less than \$200. The total unrealized losses on securities that were in a continuous unrealized loss position for greater than six months but less than 12 months were approximately \$1,285. There were no securities with an unrealized loss of greater than \$200 having a market value below 84% of book value.

As part of our ongoing monitoring process, we regularly review our investment portfolio to ensure that investments that may be other than temporarily impaired are identified on a timely basis and that any impairment is charged against earnings in the proper period. We have reviewed these securities and no additional other than temporary impairments were recorded during the three months ended March 31, 2007 and 2006, respectively. Due to issuers' continued satisfaction of the securities' obligations in accordance with their contractual terms and their continued expectations to do so, as well as our evaluation of the fundamentals of the issuers' financial condition, we believe that the prices of the securities in an unrealized loss position as of March 31, 2007 in the sectors discussed above were temporarily depressed primarily as a result of the prevailing level of interest rates at the time the securities were purchased. We have the intent and ability to hold these assets until the date of recovery.

Liquidity and Capital Resources*Regulatory Requirements*

Assurant, Inc. is a holding company, and as such, has limited direct operations of its own. Our holding company assets consist primarily of the capital stock of our subsidiaries. Accordingly, our future cash flows depend upon the availability of dividends and other statutorily permissible payments from our subsidiaries, such as payments under our tax allocation agreement and under management agreements with our subsidiaries. The ability to pay such dividends and to make such other payments will be limited by applicable laws and regulations of the states in which our subsidiaries are domiciled, which subject our subsidiaries to significant regulatory restrictions. The dividend requirements and regulations vary from state to state and by type of insurance provided by the applicable subsidiary. These laws and regulations require, among other things, our insurance subsidiaries to maintain minimum solvency requirements and limit the amount of dividends these subsidiaries can pay to the holding company. Solvency regulations,

capital requirements and rating agencies are some of the factors used in determining the amount of capital used for dividends. For 2007, the maximum amount of distributions our subsidiaries could pay, under applicable laws and regulations without prior regulatory approval for our statutory subsidiaries, is approximately \$476,070.

Liquidity

Dividends paid by our subsidiaries were zero and \$554,270 for the three months ended March 31, 2007 and for the year ended December 31, 2006, respectively. We use these cash inflows primarily to pay expenses, to make interest payments on indebtedness, to make dividend payments to our stockholders, and to repurchase our outstanding shares.

The primary sources of funds for our subsidiaries consist of premiums and fees collected, the proceeds from the sales and maturity of investments and investment income. Cash is primarily used to pay insurance claims, agent commissions, operating expenses and taxes. We generally invest our subsidiaries' excess funds in order to generate income.

Generally, our subsidiaries' premiums, fees and investment income, along with planned asset sales and maturities, provide sufficient cash to pay claims and expenses. However, there are instances where unexpected cash needs arise in excess of that available from usual operating sources. In such instances, we have several options to raise needed funds including selling assets from the subsidiaries' investment portfolios, using holding company cash (if available), issuing commercial paper and drawing funds from our revolving credit facility. We consider the permanence of the cash need as well as the cost of each source of funds in determining which option to utilize.

We paid dividends of \$0.10 per common share on March 12, 2007 to stockholders of record as of February 26, 2007. Any determination to pay future dividends will be at the discretion of our Board of Directors and will be dependent upon: our subsidiaries' payment of dividends and/or other statutorily permissible payments to us; our results of operations and cash flows; our financial position and capital requirements; general business conditions; any legal, tax, regulatory and contractual restrictions on the payment of dividends; and any other factors our Board of Directors deems relevant.

Retirement and Other Employee Benefits

Our pension plans were under-funded by \$113,026 at December 31, 2006. In prior years we established a funding policy in which service cost plus 15% of plan deficit will be contributed annually. During the first three months of 2007, we contributed \$10,000 to the qualified pension benefits plan. We expect to contribute \$40,000 to the qualified pension benefits plan for the full year 2007.

Commercial Paper Program

In March 2004, we established a \$500,000 commercial paper program, which is available for working capital and other general corporate purposes. This program is backed up by a \$500,000 senior revolving credit. On January 9, 2007, we used \$20,000 from the commercial paper program for general corporate purposes, which was repaid on January 16, 2007. There were no amounts relating to the commercial paper program outstanding at March 31, 2007. We did not use the revolving credit facility during the three months ended March 31, 2007 and no amounts are outstanding.

The revolving credit facility contains restrictive covenants. The terms of the revolving credit facility also require that we maintain certain specified minimum ratios or thresholds. We are in compliance with all covenants and we maintain all specified minimum ratios and thresholds.

Table of Contents*Senior Notes*

On February 18, 2004, we issued two series of senior notes in an aggregate principal amount of \$975,000. The first series is \$500,000 in principal amount, bears interest at 5.625% per year and is payable in a single installment due February 15, 2014. The second series is \$475,000 in principal amount, bears interest at 6.750% per year and is payable in a single installment due February 15, 2034. Our senior notes are rated bbb by A.M. Best, Baa1 by Moody's and BBB+ by S&P.

Interest on our senior notes is payable semi-annually on February 15 and August 15 of each year. The senior notes are unsecured obligations and rank equally with all of our other senior unsecured indebtedness. The senior notes are not redeemable prior to maturity.

In management's opinion, our subsidiaries' cash flow from operations together with our income and gains from our investment portfolio will provide sufficient liquidity to meet our needs in the ordinary course of business.

Cash Flows

We monitor cash flows at both the consolidated and subsidiary levels. Cash flow forecasts at the consolidated and subsidiary levels are provided on a monthly basis, and we use trend and variance analyses to project future cash needs.

The table below shows our recent net cash flows:

	For The Three Months	
	Ended March 31,	
	2007	2006
	(in thousands)	
Net cash provided by (used in):		
Operating activities (1)	\$ 172,314	\$ 57,417
Investing activities	(523,141)	(121,631)
Financing activities	122,990	(140,650)
Net change in cash	\$ (227,837)	\$ (204,864)

(1) Includes effect of exchange rate changes on cash and cash equivalents.

Net cash provided by operating activities was \$172,314 and \$57,417 for the three months ended March 31, 2007 and 2006, respectively. The \$114,897 increase in net cash provided by operating activities in 2007 over the comparable period in 2006 is primarily attributable to fewer settlements related to hurricane losses during the three months ended March 31, 2007 compared to the same period in 2006. Also contributing to the increase was an increase in receivables, slightly offset by an increase in DAC due to growth in the extended service contract business.

Net cash used in investing activities was \$523,141 and \$121,631 for the three months ended March 31, 2007 and 2006, respectively. The \$401,510 increase in net cash used in investing activities is primarily attributable to an increase in net cash used to purchase short term investments and a change in collateral held under securities lending.

Net cash provided by financing activities was \$122,990 for the three months ended March 31, 2007, compared to net cash used in financing activities of \$140,650 for the three months ended March 31, 2006. The \$263,640 increase in net cash provided by financing activities in 2007 is primarily attributable to a change in collateral held under securities lending.

Letters of Credit

In the normal course of business, letters of credit are issued to support reinsurance arrangements and other corporate initiatives. These letters of credit are supported by commitments with financial institutions. We had \$33,261 and \$33,219 of letters of credit outstanding as of March 31, 2007 and December 31, 2006, respectively.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

Our 2006 Annual Report on Form 10-K described our Quantitative and Qualitative Disclosures About Market Risk. There were no material changes to the assumptions or risks during the three months ended March 31, 2007.

Item 4. Controls and Procedures.**Evaluation of Disclosure Controls and Procedures**

The Company's Chief Executive Officer and Chief Financial Officer have evaluated the effectiveness of the Company's disclosure controls and procedures pursuant to Rule 13a-15 under the Exchange Act of 1934, as of March 31, 2007. This included an evaluation of disclosure controls and procedures applicable to the period covered by and existing through the filing of this periodic report. Based on that review, the Company's Chief Executive Officer and Chief Financial Officer have concluded that the Company's disclosure controls and procedures are effective to provide reasonable assurance that information the Company is required to disclose in its reports under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported accurately including, without limitation, ensuring that such information is accumulated and communicated to the Company's management as appropriate to allow timely decisions regarding required disclosure.

Internal Controls over Financial Reporting

No material weaknesses were identified at March 31, 2007. During the quarter ending March 31, 2007, we have made no changes in our internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents**PART II****OTHER INFORMATION****Item 1. Legal Proceedings.**

As previously disclosed, as part of ongoing, industry-wide investigations, we have received various subpoenas and requests from the United States Securities and Exchange Commission and the U.S. Attorney for the Southern District of New York in connection with various investigations into certain loss mitigation products and the use of finite reinsurance. We are cooperating fully with these investigations and are complying with these requests.

Item 1A. Risk Factors.

Our 2006 Annual Report on Form 10-K described our Risk Factors. There have been no material changes to the Risk Factors during the three months ending March 31, 2007.
