PART 1 FINANCIAL INFORMATION

ITEM 1. FINANCIAL STATEMENTS

The following balance sheet as of December 31, 2006, which has been derived from audited financial statements, and the unaudited interim financial statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and note disclosures normally included in annual financial statements prepared in accordance with generally accepted accounting principles (GAAP) have been omitted pursuant to those rules and regulations, although the company believes that the disclosures made are adequate to make the information not misleading. It is suggested that these financial statements be read in conjunction with the financial statements and notes thereto included in the company's latest Annual Report on Form 10-K. In the opinion of management, all adjustments (consisting of normal, recurring adjustments) necessary for a fair presentation for the periods presented have been included. The results of operations for the six and three months ended June 30, 2007 are not necessarily indicative of the results that may be expected for the full year.

Notes to Consolidated Financial Statements

(Unaudited)

NOTE A SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Business and Organization

Federal Realty Investment Trust (the "Trust") is an equity real estate investment trust specializing in the ownership, management, development and redevelopment of retail and mixed-use properties. Our properties are located primarily in densely populated and affluent communities in strategic metropolitan markets in the Mid-Atlantic and Northeast regions of the United States, as well as in California.

We operate in a manner intended to enable us to qualify as a real estate investment trust (or REIT) for federal income tax purposes. A REIT that distributes at least 90% of its taxable income to its shareholders each year and meets certain other conditions is not taxed on that portion of its taxable income which is distributed to its shareholders. Therefore, federal income taxes on our REIT taxable income have been and are generally expected to be immaterial. We are obligated to pay state taxes, generally consisting of franchise or gross receipts taxes in certain states. Such state taxes also have not been material.

We have elected to treat certain of our subsidiaries as taxable REIT subsidiaries, each of which we refer to as a TRS. In general, a TRS may engage in any real estate business and certain non-real estate businesses, subject to certain limitations under the Internal Revenue Code of 1986, as amended (the "Code"). A TRS is subject to federal and state income taxes. The sales of condominiums at Santana Row, which went from August 2005 through August 2006, and the sales of Bath Shopping Center, Key Road Plaza and Riverside Plaza in 2007 were conducted through a TRS. Other than these sales, our TRS activities have not been material.

Basis of Presentation

Our consolidated financial statements include the accounts of the Trust, its corporate subsidiaries, and all entities in which the Trust has a controlling interest or has been determined to be the primary beneficiary of a variable interest entity. The equity interests of other investors are reflected as minority interests. All significant intercompany transactions and balances are eliminated in consolidation. We account for our interests in joint ventures, which we do not control, using the equity method of accounting. Certain amounts in the 2006 consolidated financial statements have been reclassified to conform to current period presentation.

In June 2006, we sold Greenlawn Plaza to our unconsolidated real estate partnership resulting in a gain of \$7.4 million. In our 2006 Form 10-K, the operations of the property prior to June 2006 and the gain on sale of real estate were included in discontinued operations. However, due to our continuing involvement in the property, Greenlawn Plaza does not qualify for discontinued operations classification under SFAS No. 144,

Accounting for the Impairment or Disposal of Long-Lived Assets. Accordingly, we have reclassified the results of operations through the date of sale to continuing operations and reclassified the gain on sale from gain on sale of real estate from discontinued operations to gain on sale of real estate. This reclassification does not impact net income.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America, referred to as "GAAP," requires management to make estimates and assumptions that in certain circumstances affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities, and revenues and expenses. These estimates are prepared using management's best judgment, after considering past, current and expected events and economic conditions. Actual results could differ from these estimates.

Revenue Recognition and Accounts Receivable

Our leases with tenants are classified as operating leases. Substantially all such leases contain fixed escalations which occur at specified times during the term of the lease. Base rents are recognized on a straight-line basis from when the tenant controls the space through the term of the related lease, net of valuation adjustments, based on management's assessment of credit, collection and other business risk. Percentage rents, which represent additional rents based upon the level of sales achieved by certain tenants, are recognized at the end of the lease year or earlier if we have determined the required sales level is achieved and the percentage rents are collectible. Real estate tax and other cost reimbursements

Edgar Filing: FEDERAL REALTY INVESTMENT TRUST - Form 10-Q

are recognized on an accrual basis over the periods in which the related expenditures are incurred. We make estimates of the collectibility of our accounts receivable related to minimum rents, straight-line rents, expense reimbursements and other revenue or income. In some cases, primarily relating to straight-line rents, the collection of these amounts extends beyond one year. Our experience relative to unbilled straight-line rents is that a certain portion of the amounts otherwise recognizable as revenue is never billed to or collected from tenants due to early lease terminations, lease modifications, bankruptcies and other factors. Accordingly, the extended collection period for straight-line rents along with our evaluation of tenant credit risk may result in the non-recognition of a portion of straight-line rental income until the collection of such income is reasonably assured. If our evaluation of tenant credit risk changes indicating more straight-line revenue is reasonably collectible than previously estimated and realized, the additional straight-line rental income is recognized as revenue. If our evaluation of tenant credit risk changes indicating a portion of realized straight-line rental income is no longer collectible, a reserve and bad debt expense is recorded. At June 30, 2007 and December 31, 2006, accounts receivable include approximately \$29.4 million and \$24.8 million, respectively, related to straight-line rents. At June 30, 2007 and December 31, 2006, our allowance for doubtful accounts was \$6.8 million and \$6.2 million, respectively.

- (1) Cash paid for income taxes for the six months ended June 30, 2006 includes \$2.8 million related to the sales of condominiums at Santana Row which were conducted through a TRS.

Accounting for Income Taxes

In July 2006, the Financial Accounting Standards Board (FASB) issued FASB Interpretation No. 48 (FIN 48), Accounting for Uncertainty in Income Taxes an interpretation of FASB Statement No. 109, Accounting for Income Taxes. FIN 48 was issued to reduce the diversity in practice associated with certain aspects of recognition, disclosure and measurement related to accounting for uncertain income tax positions. We adopted FIN 48 effective January 1, 2007. The adoption of FIN 48 did not have a material impact on our financial position, results of operation, or cash flows. We recognize penalties and interest accrued related to unrecognized tax benefits as income tax expense. With few exceptions, we are no longer subject to U.S. federal, state, and local tax examinations by tax authorities for years before 2003. As of June 30, 2007, we had no material unrecognized tax benefits.

New Accounting Pronouncements

In September 2006, the FASB issued SFAS No. 157 Fair Value Measurement (SFAS No. 157). SFAS No. 157 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles, and expands disclosures about fair value measurements. SFAS No. 157 applies to accounting pronouncements that require or permit fair value measurements, except for share-based payments under SFAS No. 123(R). We are required to adopt SFAS No. 157 effective January 1, 2008. We do not believe the adoption of SFAS No. 157 will have a material impact on our financial position, results of operations or cash flows.

In February 2007, the FASB issued SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities Including an Amendment of FASB Statement No. 115 (SFAS No. 159). This standard permits entities to choose to measure many financial instruments and certain other items at fair value and is effective for the first fiscal year beginning after November 15, 2007. We do not expect SFAS No. 159 to have a material impact on our financial statements.

Table of Contents**NOTE B REAL ESTATE**

The following table provides a summary of significant acquisitions made by us and our consolidated affiliates during the six months ended June 30, 2007:

Date	Property	City, State	Gross	
			Leasable Area (In square feet)	Purchase Price (In millions)
February 28, 2007	Crow Canyon Crest	San Ramon, CA	17,000	\$ 10.9(1)

May 30, 2007	Shoppers World	Charlottesville, VA	169,000	27.2(4)(5)
	Total		800,000	\$ 227.5

- (1) As part of the preliminary purchase price allocation, approximately \$0.4 million and \$1.8 million of the net assets acquired were allocated to other assets for above market leases and liabilities for below market leases, respectively.
- (2) The White Marsh Portfolio was purchased using \$11.5 million of cash plus a combination of common stock and convertible preferred stock, downREIT operating partnership units, and the assumption of mortgage loans through a merger with Nottingham Properties, Inc. The acquisition also included ground leases covering 50,000 square feet of office space and a hotel which are not included in gross leasable area.
- (3) As part of the preliminary purchase price allocation, approximately \$8.5 million and \$7.0 million of the net assets acquired were allocated to other assets for above market leases and liabilities for below market leases, respectively.
- (4) A preliminary allocation of the purchase price has been made and will be finalized after various valuation studies are complete.
- (5) On May 30, 2007, we entered into a Section 1031 like-kind exchange agreement with a third party intermediary related to the acquisition of Shoppers World. The exchange agreement is for a maximum of 180 days and allows us to defer gains on sale of other properties sold within this period. We have identified the properties we intend to sell during this period to complete the Section 1031 exchange. Until the earlier of termination of this exchange agreement or November 26, 2007, the third party intermediary is the legal owner of the property, although we control the property and retain all of the economic benefits and risks associated with the property. This property is held in a variable interest entity for which we are the primary beneficiary. Accordingly, as of June 30, 2007, we consolidate the property and its operations.

The following table provides a summary of significant dispositions made by us and our consolidated affiliates during the six months ended June 30, 2007. All three properties were acquired in August 2006 by a TRS as part of a larger portfolio. The properties are classified as held for sale and their operations are included in discontinued operations for all periods presented.

For mortgages payable totaling \$36.7 million that are secured by three properties owned by subsidiaries of the Partnership, we are the guarantor for the obligations of the joint venture which are commonly referred to as non-recourse carve-outs. The guaranties do not have a finite term; however, once the lenders have been repaid in accordance with the loan documents, the only likely basis for a claim on the guaranty is for loss to the lender as a result of potential future environmental liability at the properties to which the loans relate. We are not guaranteeing repayment of the debt itself. The Partnership indemnifies us for any loss we incur under these guarantees.

Table of Contents

The following table provides a summary of acquisitions made by the Partnership, during the six months ended June 30, 2007:

Date	Property	City, State	Gross	
			Leasable Area (In square feet)	Purchase Price (In millions)
February 15, 2007	Free State Shopping Center	Bowie, MD	278,000	\$ 64.1
February 20, 2007	Lake Barcroft Shopping Center(1)	Falls Church, VA	9,000	6.0
Total			287,000	\$ 70.1

(1) The property acquired is adjacent to and operated as part of Barcroft Plaza.

On April 10, 2007, the Partnership entered into a mortgage note for approximately \$4.2 million. The mortgage note is secured by the Lake Barcroft property. The note matures on July 1, 2016, bears interest at 5.71% per annum and requires monthly payments of interest only.

NOTE D DEBT

In connection with the acquisition of the White Marsh portfolio and Shoppers World, we assumed five mortgage notes as follows:

Property	Fair Value (1) (In millions)	Maturity Date	Stated Annual Interest Rate
THE AVENUE at White Marsh	\$ 61.9	January 1, 2015	5.46%
White Marsh Plaza	\$ 6.4	April 1, 2013	5.96%
White Marsh Plaza	\$ 4.5	April 1, 2013	6.18%
White Marsh Other	\$ 1.2	December 31, 2008	6.06%
Shoppers World	\$ 6.0	January 31, 2021	5.91%

(1) The aggregate face amount of the mortgage notes is \$79.7 million. However, in accordance with GAAP, these mortgage notes were recorded at their fair value of \$80.0 million.

With the exception of one of the mortgage notes on White Marsh Plaza, all of the mortgage notes assumed require monthly payments of principal and interest. The \$4.5 million mortgage note on White Marsh Plaza is interest only through the maturity date.

During the six months ended June 30, 2007, the maximum amount of borrowings outstanding under our \$300 million revolving credit facility was \$203 million. The weighted average amount of borrowings outstanding was \$152.1 million and \$167.2 million for the six months and three months ended June 30, 2007, respectively. Our revolving credit facility had a weighted average interest rate, before amortization of debt fees, of 5.7% for the six months and three months ended June 30, 2007.

Our credit facility and certain notes require us to comply with various financial covenants, including the maintenance of minimum shareholder equity and debt coverage ratios and a maximum ratio of debt to net worth. At June 30, 2007, we were in compliance with all loan covenants.

NOTE E COMMITMENTS AND CONTINGENCIES

We are currently a party to various legal proceedings. Other than as described below, we do not believe that the ultimate outcome of these matters, either individually or in the aggregate, could have a material adverse effect on our financial position or overall trends in results of operations; however, litigation is subject to inherent uncertainties. Also under our leases, tenants are typically obligated to indemnify us from and against all liabilities, costs and expenses imposed upon or asserted against us (1) as owner of the properties due to certain matters relating to the operation of the properties by the tenant, and (2) where appropriate, due to certain matters relating to the ownership of the properties prior to their acquisition by us.

Table of Contents

We are also involved in a litigation matter relating to a shopping center in New Jersey where a former tenant has alleged that we, through our management agent, engaged in fraud by failing to disclose a condemnation action at the property that was pending when the lease was signed. A trial as to liability only has been concluded and post-trial briefs have been filed but no decision is expected to be rendered for 30-90 days. If we are found liable, a trial will be held to determine the amount of damages. Based on the evidence and information available to us, we believe there is a reasonable possibility that we will be successful in the litigation and found to have no liability, however, if a verdict is rendered against us, we will seek indemnification from the third party management company that negotiated the lease on our behalf. We cannot assess with any certainty at this time the potential damages for which we would be liable if a verdict is rendered against us or the potential amounts we would recover against the third party management company; however, if a verdict is rendered against us, there may be a material adverse impact on our net income in the period during which our indemnification claim is pending.

We also have one litigation matter filed against us in May 2003 which alleges that a one page document entitled Final Proposal, which included language that it was subject to approval of formal documentation, constituted a ground lease of a parcel of property located adjacent to our Santana Row property and gave the plaintiff the option to require that we acquire the property at a price determined in accordance with a formula included in the Final Proposal. The plaintiff is seeking an unspecified amount of monetary damages. A trial as to liability only was held on June 27, 2006 and a jury rendered a verdict against us. A trial date on the issue of damages has been set for March 2008. The complaint did not specify the amount of damages claimed however, we now understand that the plaintiff is claiming damages of \$18 million. We cannot make a reasonable estimate of potential damages until experts are retained, additional discovery is completed on the damages issue and the court rules on various legal issues impacting the calculation of damages. The additional discovery on the damage claim has now commenced. We intend to appeal the jury verdict; however, no appeal of the judgment can be taken until the trial on damages has been completed. If we are not successful in overturning the jury verdict, we will be liable for damages and, based on our analysis with information available to date, we believe those damages could be de minimis. However, it is possible, there could be a material adverse impact on our net income in the period in which it is both probable that we will have to pay the damages and such damages can be reasonably estimated. In any event, management does not believe it will have a material impact on our financial position.

NOTE F SHAREHOLDERS EQUITY

On March 8, 2007, as part of the consideration to acquire the White Marsh portfolio, we issued (i) 884,066 common shares at \$88.18 per share, par value \$0.01 per share, (ii) 399,896 shares of 5.417% Series 1 Cumulative Convertible Preferred Shares (Series 1 Preferred Shares) at the liquidation preference of \$25 per share, par value \$0.01 per share, and (iii) 185,504 downREIT operating partnership units at \$88.18 per share. The Series 1 Preferred Shares will accrue dividends at a rate of 5.417% per year and are convertible at any time by the holders to our common shares at a conversion rate of \$104.69 per share. The Series 1 Preferred Shares are also convertible under certain circumstances at our election. The holders of the Series 1 Preferred Shares have no voting rights.

The following table provides a summary of dividends declared and paid per share:

Overview

We are an equity real estate investment trust (REIT) specializing in the ownership, management, development and redevelopment of high quality retail and mixed-use properties. As of June 30, 2007, we owned or had a majority interest in community and neighborhood shopping centers and mixed-use properties which are operated as 88 predominantly retail real estate projects comprising approximately 19.5 million square feet, located primarily in densely populated and affluent communities in strategic metropolitan markets in the Northeast and Mid-Atlantic regions of the United States, as well as in California. In total, the real estate projects were 96.1% leased at June 30, 2007. A joint venture in which we own a 30% interest owned six retail real estate projects totaling approximately 0.9 million square feet as of June 30, 2007. In total, the joint venture properties in which we own an interest were 98.7% leased at June 30, 2007. We have paid quarterly dividends to our shareholders continuously since our founding in 1962 and have increased our dividends per common share for 39 consecutive years.

2007 Property Acquisitions and Dispositions

The following table provides a summary of significant acquisitions made by us and our consolidated affiliates during the six months ended June 30, 2007:

Date	Property	City, State	Gross	
			Leasable Area (In square feet)	Purchase Price (In millions)
February 28, 2007	Crow Canyon Crest	San Ramon, CA	17,000	\$ 10.9
March 8, 2007	The White Marsh Portfolio: (1)	White Marsh, MD		189.4
	THE AVENUE at White Marsh		296,000	
	White Marsh Plaza		79,000

May 30, 2007	Shoppers World	Charlottesville, VA	169,000	27.2 (2)
	Total		800,000	\$ 227.5

- (1) The White Marsh Portfolio was purchased using \$11.5 million of cash plus a combination of common stock and convertible preferred stock, downREIT operating partnership units, and the assumption of mortgage loans through a merger with Nottingham Properties, Inc. The acquisition also included ground leases covering 50,000 square feet of office space and a hotel which are not included in gross leasable area.

Table of Contents

- (2) On May 30, 2007, we entered into a Section 1031 like-kind exchange agreement with a third party intermediary related to the acquisition of Shoppers World. The exchange agreement is for a maximum of 180 days and allows us to defer gains on sale of other properties sold within this period. We have identified the properties we intend to sell during this period to complete the Section 1031 exchange. Until the earlier of termination of this exchange agreement or November 26, 2007, the third party intermediary is the legal owner of the property, although we control the property and retain all of the economic benefits and risks associated with the property. This property is held in a variable interest entity for which we are the primary beneficiary. Accordingly, as of June 30, 2007, we consolidate the property and its operations.

The following table provides a summary of significant dispositions made by us and our consolidated affiliates during the six months ended June 30, 2007. All three properties were acquired in August 2006 by a TRS as part of a larger portfolio. The properties are classified as held for sale and their operations are included in discontinued operations for all periods presented.

Date	Property	City, State	Gross Leasable Area (In square feet)	Sales Price (In millions)	Gain
April 5, 2007	Bath Shopping Center	Bath, ME	101,000	\$ 21.8	\$ 0.6(1)

	Total		395,000	\$ 63.0	\$ 1.5

(1) Gain of \$0.6 million is net of \$0.3 million in taxes.

(2) Gain of \$0.4 million is net of \$0.1 million in taxes.

(3) Gain of \$0.5 million is net of \$0.1 million in taxes.

Two properties located in the East region are currently under contract for sale and closing is projected to occur in 2007. The properties are classified as held for sale and their operations are included in discontinued operations for all periods presented. The revenues from all properties included in discontinued operations were \$3.7 million and \$1.1 million for the six months ended June 30, 2007 and 2006, respectively, and \$1.4 million and \$0.5 million for the three months ended June 30, 2007 and 2006, respectively.

The following table provides a summary of acquisitions made by our unconsolidated real estate partnership during the six months ended June 30, 2007:

Date	Property	City, State	Gross Leasable Area (In square feet)	Purchase Price (In millions)
February 15, 2007	Free State Shopping Center	Bowie, MD	278,000	\$ 64.1
February 20, 2007	Lake Barcroft Shopping Center(1)	Falls Church, VA	9,000	6.0
	Total		287,000	\$ 70.1

(1) The property acquired is adjacent to and operated as part of Barcroft Plaza.

2007 Significant Debt, Equity and Other Transactions

In connection with the acquisition of the White Marsh portfolio and Shoppers World, we assumed five mortgage notes as follows:

Property	Fair Value (1) (In millions)	Maturity Date	Stated Annual Interest Rate
THE AVENUE at White Marsh	\$ 61.9	January 1, 2015	5.46%
White Marsh Plaza	\$ 6.4	April 1, 2013	5.96%
White Marsh Plaza	\$ 4.5	April 1, 2013	6.18%
White Marsh Other	\$ 1.2	December 31, 2008	6.06%
Shoppers World	\$ 6.0	January 31, 2021	5.91%

- (1) The aggregate face amount of the mortgage notes is \$79.7 million. However, in accordance with GAAP, these mortgage notes were recorded at their fair value of \$80.0 million.

Table of Contents

On March 8, 2007, as part of the consideration to acquire the White Marsh portfolio, we issued (i) 884,066 common shares at \$88.18 per share, par value \$0.01 per share, (ii) 399,896 shares of 5.417% Series 1 Cumulative Convertible Preferred Shares (Series 1 Preferred Shares) at the liquidation preference of \$25 per share, par value \$0.01 per share, and (iii) 185,504 downREIT operating partnership units at \$88.18 per share. The Series 1 Preferred Shares will accrue dividends at a rate of 5.417% per year and are convertible at any time by the holders to our common shares at a conversion rate of \$104.69 per share. The Series 1 Preferred Shares are also convertible under certain circumstances at our election. The holders of the Series 1 Preferred Shares have no voting rights.

On April 10, 2007, our unconsolidated real estate partnership entered into a mortgage note for approximately \$4.2 million. The mortgage note is secured by the Lake Barcroft property which was acquired in February 2007 and is adjacent to and operated as part of Barcroft Plaza. The note matures on July 1, 2016, bears interest at 5.71% per annum and requires monthly payments of interest only.

Outlook

General

We anticipate our 2007 income from continuing operations to grow in comparison to our 2006 income from continuing operations. We expect this income growth primarily to be generated by a combination of the following:

increased earnings in our same-center portfolio and from properties under redevelopment; and

increased earnings as we expand our portfolio through property acquisitions.

On May 2, 2007, we announced a regular quarterly cash dividend of \$0.575 per share on our common shares, resulting in an indicated annual rate of \$2.30 per share. The regular common dividend was payable on July 16, 2007, to common shareholders of record as of June 22, 2007.

We continue to see a positive impact on our income as a result of the redevelopment of our shopping centers and higher rental rates on existing spaces as leases on these spaces expire. We anticipate investments in redevelopment projects of approximately \$110 million and \$97 million to stabilize in 2007 and 2008, respectively. As redevelopment properties are completed, spaces that were out of service begin generating revenue; in addition, spaces that were not out of service and that have expiring leases may generate higher revenue because we generally receive higher rent on new leases. For example, many of the leases with rents commencing in 2007 were signed in 2006 or earlier, and leases signed in 2005, 2006 and year-to-date 2007 on spaces for which there was a previous tenant have on average been renewed at double digit cash basis base rent increases. On spaces where the tenant leases are expiring later in 2007, our analysis of current market rents as compared to rents on the existing leases leads us to expect that the base rents on new leases will have double-digit weighted average increases over the cash basis base rents currently in place.

At June 30, 2007, the leasable square feet in our shopping centers was 94.7% occupied and 96.1% leased. The leased rate is higher than the occupied rate due to leased spaces that are being redeveloped or improved or that are awaiting permits and, therefore, are not yet ready to be occupied. Our occupancy and leased rates are subject to variability over time due to factors including acquisitions, the timing of the start and stabilization of our redevelopment projects, lease expirations and tenant bankruptcies.

Acquisitions

We anticipate growth in earnings from acquisitions of neighborhood and community shopping centers in our primary markets in the East and West regions, as well as a reduction in earnings from selective dispositions. Any growth in earnings from acquisitions is contingent, however, on our ability to find properties that meet our qualitative standards at prices that meet our financial hurdles. Changes in interest rates may also affect our success in achieving growth through acquisitions by affecting both the price that must be paid to acquire a property, as well as our ability to economically finance the property acquisition.

Same-Center

Throughout this section, we have provided certain information on a same-center basis. Information provided on a same-center basis includes the results of properties that we owned and operated for the entirety of both periods being compared except for properties for which significant development, redevelopment or expansion occurred during either of the periods being compared and properties classified as discontinued

operations.

Property Revenues

Total property revenue increased \$27.4 million, or 12.6%, to \$244.3 million in the six months ended June 30, 2007 compared to \$216.9 million in the six months ended June 30, 2006. The percentage leased at our shopping centers decreased slightly to 96.1% at June 30, 2007 compared to 96.7% at June 30, 2006 due primarily to vacancies caused by the Chapter 7 liquidation of Tower Records and Storehouse Furniture during the fourth quarter of 2006. Changes in the components of property revenue are discussed below.

Rental Income

Rental income consists primarily of minimum rent, cost recoveries from tenants and percentage rent. Rental income increased \$26.8 million, or 12.7%, to \$237.1 million in the six months ended June 30, 2007 compared to \$210.3 million in the six months ended June 30, 2006 due primarily to the following:

an increase of \$14.2 million attributable to properties acquired in 2007 and 2006 and the completion of the power-center at Assembly Square Mall,

an increase of \$8.2 million at same-center properties due to increased rental rates on new leases and increased cost recoveries,

Edgar Filing: FEDERAL REALTY INVESTMENT TRUST - Form 10-Q

an increase of \$3.6 million at redevelopment properties due to increased occupancy, increased rental rates on new leases and increased cost recoveries,

offset by an increase of \$1.7 million at Santana Row residential due primarily to leasing of residential units throughout 2006,

a decrease of \$0.9 million related to the sale of Greenlawn Plaza to our unconsolidated real estate partnership in June 2006.

Table of Contents

Other Property Income

Other property income increased \$1.0 million, or 26.1%, to \$5.0 million in the six months ended June 30, 2007 compared to \$4.0 million in the six months ended June 30, 2006. Included in other property income are items which, although recurring, tend to fluctuate more than rental income from period to period, such as lease termination fees. This increase is due primarily to an increase in lease termination fees at same-center properties.

Mortgage Interest Income

Mortgage interest income decreased \$0.4 million, or 15.5%, to \$2.3 million in the six months ended June 30, 2007 compared to \$2.7 million in the six months ended June 30, 2006. This decrease is primarily due to an amendment of our \$17.7 million secondary mortgage note receivable secured by a hotel at our Santana Row project in San Jose, California which was executed on August 4, 2006 and decreased the interest rate from 14% per annum to 9% per annum.

Property Expenses

Total property expenses increased \$9.3 million, or 14.7%, to \$72.8 million in the six months ended June 30, 2007 compared to \$63.5 million in the six months ended June 30, 2006. Changes in the components of property expenses are discussed below.

Rental Expenses

Rental expenses increased \$7.0 million, or 16.5%, to \$49.5 million in the six months ended June 30, 2007 compared to \$42.5 million in the six months ended June 30, 2006. This increase is due primarily to the following:

an increase of \$2.5 million in repairs and maintenance at same-center and redevelopment properties due primarily to higher snow removal and maintenance costs,

an increase of \$2.4 million attributable to properties acquired in 2007 and 2006 and the completion of the power-center at Assembly Square Mall,

an increase of \$1.0 million in utilities at same-center and redevelopment properties, and

an increase of \$0.7 million in legal fees related to the litigation at a shopping center in New Jersey.

As a result of the changes in rental income, rental expenses and other property income described above, rental expenses as a percentage of rental income plus other property income increased to 20.4% in the six months ended June 30, 2007 from 19.8% in the six months ended June 30, 2006.

Real Estate Taxes

Real estate tax expense increased \$2.3 million, or 10.9%, to \$23.3 million in the six months ended June 30, 2007 compared to \$21.0 million in the six months ended June 30, 2006. This increase is due primarily to increased taxes of \$1.3 million related to properties acquired in 2007 and 2006 and Assembly Square Mall and \$1.1 million related to higher assessments at our same-center, redevelopment and Santana Row residential properties.

Property Operating Income

Property operating income increased \$18.1 million, or 11.8%, to \$171.5 million in the six months ended June 30, 2007 compared to \$153.4 million in the six months ended June 30, 2006. This increase is due primarily to the following:

earnings attributable to properties acquired in 2007 and 2006 and the completion of the power-center at Assembly Square Mall,

growth in same-center earnings,

growth in earnings at redevelopment properties, and

growth in earnings at Santana Row residential.

Other

Interest Expense

Interest expense increased \$10.0 million, or 20.4%, to \$59.0 million in the six months ended June 30, 2007 compared to \$49.0 million in the six months ended June 30, 2006. This increase is due primarily to the following:

an increase of \$13.8 million due to higher borrowings to finance our acquisitions,

Table of Contents

offset by

an increase of \$2.8 million in capitalized interest,

a decrease of \$0.7 million due to a lower overall weighted average borrowing rate, and

a decrease of \$0.3 million due to lower participation on certain capital leases.

Gross interest costs were \$63.1 million and \$50.4 million in the six months ended June 30, 2007 and 2006, respectively. Capitalized interest amounted to \$4.1 million and \$1.3 million in the six months ended June 30, 2007 and 2006, respectively. Capitalized interest increased due primarily to development at Linden Square which was acquired in August 2006 and redevelopment at Arlington East.

General and Administrative Expense

General and administrative expense increased \$2.2 million, or 22.7%, to \$11.6 million in the six months ended June 30, 2007 compared to \$9.5 million in the six months ended June 30, 2006. This is primarily due to an increase in wages and bonuses and increased share-based compensation expense.

Depreciation and Amortization

Depreciation and amortization expense increased \$4.4 million, or 9.1%, to \$52.5 million in the six months ended June 30, 2007 from \$48.1 million in the six months ended June 30, 2006. This increase is due primarily to acquisitions and improvements at same-center properties.

Minority Interests

Income to minority partners increased \$0.3 million, or 11.8%, to \$2.7 million in the six months ended June 30, 2007 compared to \$2.4 million in the six months ended June 30, 2006. This increase is due primarily to an increase in earnings at properties held in non-wholly owned partnerships and an increase in operating partnership units issued to acquire the White Marsh portfolio in March 2007.

Income from Discontinued Operations

Income from discontinued operations represents the operating income of properties that have been disposed or will be disposed, which is required to be reported separately from results of ongoing operations. The reported operating income of \$1.0 million and \$0.2 million for the six months ended June 30, 2007 and 2006, respectively, represents the operating income for the period during which we owned properties sold or to be sold in 2007 and 2006.

Gain on Sale of Real Estate From Discontinued Operations

The gain on sale of real estate from discontinued operations decreased \$14.5 million to \$1.8 million in the six months ended June 30, 2007 compared to \$16.3 million in the six months ended June 30, 2006. All of the properties sold in 2007 (Bath Shopping Center, Key Road Plaza, and Riverside Plaza) and 2006 (condominiums at Santana Row) resulted in gains.

Gain on Sale of Real Estate

The gain on sale of real estate includes properties which we maintained continuing involvement through our unconsolidated real estate partnership. No properties were sold in 2007 for which we maintained continuing involvement. One property, Greenlawn Plaza, was sold in 2006 to our unconsolidated real estate partnership, which resulted in a \$7.4 million gain.

Segment Results

Edgar Filing: FEDERAL REALTY INVESTMENT TRUST - Form 10-Q

We operate our business on an asset management model, where property management teams are responsible for a portfolio of assets. We manage our portfolio as two operating regions: East and West. Property management teams consist of regional directors, leasing agents, development staff and financial personnel, each of whom has responsibility for a distinct portfolio.

Table of Contents

The following table provides selected key segment data for the six months ended June 30, 2007 and 2006. The results of properties classified as discontinued operations have been excluded for rental income, total revenue and property operating income from the following table.

	Six months ended June 30,

- (1) Property operating income consists of rental income, other property income and mortgage interest income, less rental expenses and real estate taxes. This measure is used internally to evaluate the performance of our regional operations, and we consider it to be a significant measure.

East

Rental income for the East region increased \$22.7 million to \$185.5 million in the six months ended June 30, 2007 compared to \$162.8 million in the six months ended June 30, 2006 due primarily to the following:

an increase of \$13.9 million attributable to properties acquired in 2007 and 2006 and the completion of the power-center at Assembly Square Mall,

an increase of \$7.4 million at same-center properties due to increased rental rates on new leases and increased cost recoveries,

an increase of \$2.3 million at redevelopment properties
offset by

a decrease of \$0.9 million related to the sale of Greenlawn Plaza to our unconsolidated real estate partnership in June 2006.

Property operating income for the East region increased \$15.7 million due primarily to the increase in rental income discussed above partially offset by a \$5.9 million increase in rental expense due to the acquisition of properties, additional snow removal costs, repairs and maintenance costs, and additional legal costs and a \$2.2 million increase in real estate taxes due primarily to the acquisition of properties and higher assessments on our same-center and redevelopment properties. As a result of these changes, the ratio of property operating income to total revenue for the East region decreased to 71.4% in the six months ended June 30, 2007 from 72.2% in the six months ended June 30, 2006.

West

Edgar Filing: FEDERAL REALTY INVESTMENT TRUST - Form 10-Q

Rental income for the West region increased \$4.1 million to \$51.6 million in the six months ended June 30, 2007 from \$47.5 million in the six months ended June 30, 2006 due primarily to the following:

an increase of \$2.5 million at Santana Row due to leasing residential units throughout 2006 and increased rental rates on new retail leases, and

an increase of \$1.4 million at redevelopment projects.

Property operating income for the West region increased \$2.4 million due primarily to the increase in rental income discussed above partially offset by a \$1.1 million increase in rental expense primarily at Santana Row and a \$0.4 million decrease in mortgage interest income due to an amendment of our \$17.7 million mortgage note receivable secured by a hotel at our Santana Row project in San Jose, California, which was executed on August 14, 2006 and decreased the interest rate from 14% per annum to 9% per annum. As a result of these changes, the ratio of property operating income to total revenue for the West region remained consistent at 65.9% in the six months ended June 30, 2007 and 2006.

Property Revenues

Total property revenue increased \$15.1 million, or 13.9%, to \$123.6 million in the three months ended June 30, 2007 compared to \$108.5 million in the three months ended June 30, 2006. The percentage leased at our shopping centers decreased slightly to 96.1% at June 30, 2007 compared to 96.7% at June 30, 2006 due primarily to vacancies caused by the Chapter 7 liquidation of Tower Records and Storehouse Furniture during the fourth quarter of 2006. Changes in the components of property revenue are discussed below.

Rental Income

Rental income consists primarily of minimum rent, cost recoveries from tenants and percentage rent. Rental income increased \$14.6 million, or 13.9%, to \$119.9 million in the three months ended June 30, 2007 compared to \$105.3 million in the three months ended June 30, 2006 due primarily to the following:

an increase of \$8.5 million attributable to properties acquired in 2007 and 2006,

an increase of \$3.8 million at same-center properties due to increased rental rates on new leases and increased cost recoveries,

Edgar Filing: FEDERAL REALTY INVESTMENT TRUST - Form 10-Q

an increase of \$2.1 million at redevelopment properties due to increased occupancy, increased rental rates on new leases and increased cost recoveries, and

an increase of \$0.6 million at Santana Row residential due primarily to leasing of residential units throughout 2006,
offset by

a decrease of \$0.4 million related to the sale of Greenlawn Plaza to our unconsolidated real estate partnership in June 2006.

Other Property Income

Other property income increased \$0.7 million, or 37.0%, to \$2.6 million in the three months ended June 30, 2007 compared to \$1.9 million in the three months ended June 30, 2006. Included in other property income are items which, although recurring, tend to fluctuate more than rental income from period to period, such as lease termination fees. This increase is due primarily to an increase in lease termination fees at same-center properties.

Table of Contents

Mortgage Interest Income

Mortgage interest income decreased \$0.2 million, or 16.5%, to \$1.1 million in the three months ended June 30, 2007 compared to \$1.3 million in the three months ended June 30, 2006. This decrease is primarily due to an amendment of our \$17.7 million secondary mortgage note receivable secured by a hotel at our Santana Row project in San Jose, California which was executed on August 4, 2006 and decreased the interest rate from 14% per annum to 9% per annum.

Property Expenses

Total property expenses increased \$5.6 million, or 18.0%, to \$36.4 million in the three months ended June 30, 2007 compared to \$30.8 million in the three months ended June 30, 2006. Changes in the components of property expenses are discussed below.

Rental Expenses

Rental expenses increased \$4.1 million, or 20.0%, to \$24.4 million in the three months ended June 30, 2007 compared to \$20.3 million in the three months ended June 30, 2006. This increase is due primarily to the following:

an increase of \$1.5 million attributable to properties acquired in 2007 and 2006,

an increase of \$0.8 million in utility costs at same-center and redevelopment properties,

an increase of \$0.6 million in legal fees related to the litigation at a shopping center in New Jersey, and

an increase of \$0.4 million in repairs and maintenance at same-center and redevelopment.

As a result of the changes in rental income, rental expenses and other property income described above, rental expenses as a percentage of rental income plus other property income increased to 19.9% in the three months ended June 30, 2007 from 18.9% in the three months ended June 30, 2006.

Real Estate Taxes

Real estate tax expense increased \$1.5 million, or 14.2%, to \$12.0 million in the three months ended June 30, 2007 compared to \$10.5 million in the three months ended June 30, 2006. This increase is due primarily to higher assessments of \$0.8 million at our same-center, redevelopment and Santana Row residential properties and increased taxes of \$0.7 million related to properties acquired in 2007 and 2006.

Property Operating Income

Property operating income increased \$9.5 million, or 12.2%, to \$87.2 million in the three months ended June 30, 2007 compared to \$77.7 million in the three months ended June 30, 2006. This increase is due primarily to the following:

earnings attributable to properties acquired in 2007 and 2006,

growth in same-center earnings, and

growth in earnings at redevelopment properties.

Other

Interest Expense

Interest expense increased \$5.0 million, or 20.1%, to \$29.7 million in the three months ended June 30, 2007 compared to \$24.8 million in the three months ended June 30, 2006. This increase is due primarily to the following:

an increase of \$7.6 million due to higher borrowings to finance our acquisitions,
offset by

an increase of \$1.5 million in capitalized interest,

a decrease of \$0.7 million due to a lower overall weighted average borrowing rate, and

a decrease of \$0.4 million due to lower participation on certain capital leases.

Table of Contents

Gross interest costs were \$31.9 million and \$25.4 million in the three months ended June 30, 2007 and 2006, respectively. Capitalized interest amounted to \$2.2 million and \$0.6 million in the three months ended June 30, 2007 and 2006, respectively. Capitalized interest increased due primarily to development at Linden Square which was acquired in August 2006 and redevelopment at Arlington East.

General and Administrative Expense

General and administrative expense increased \$1.1 million, or 21.2%, to \$6.0 million in the three months ended June 30, 2007 compared to \$5.0 million in the three months ended June 30, 2006. This is primarily due to an increase in wages and bonuses and increased stock based compensation expense.

Depreciation and Amortization

Depreciation and amortization expense increased \$2.4 million, or 9.7%, to \$26.5 million in the three months ended June 30, 2007 from \$24.2 million in the three months ended June 30, 2006. This increase is due primarily to acquisitions and improvements at same-center properties.

Minority Interests

Income to minority partners increased \$0.1 million, or 4.5%, to \$1.4 million in the three months ended June 30, 2007 compared to \$1.3 million in the three months ended June 30, 2006. This increase is due primarily to an increase in operating partnership units issued to acquire the White Marsh portfolio in March 2007.

Income from Discontinued Operations

Income from discontinued operations represents the operating income of properties that have been disposed or will be disposed, which is required to be reported separately from results of ongoing operations. The reported operating income of \$0.6 million and \$0.2 million for the three months ended June 30, 2007 and 2006, respectively, represents the operating income for the period during which we owned properties sold or to be sold in 2007 and 2006.

Gain on Sale of Real Estate from Discontinued Operations

The gain on sale of real estate from discontinued operations decreased \$5.7 million, or 75.6%, to \$1.8 million in the three months ended June 30, 2007, compared to \$7.6 million in the three months ended June 30, 2006. All of the properties sold in 2007 (Bath Shopping Center, Key Road Plaza, and Riverside Plaza) and 2006 (condominiums at Santana Row) resulted in gains.

Gain on Sale of Real Estate

The gain on sale of real estate includes properties which we maintained continuing involvement through our unconsolidated real estate partnership. No properties were sold in 2007 for which we maintained continuing involvement. One property, Greenlawn Plaza, was sold in 2006 to our unconsolidated real estate partnership, which resulted in a \$7.4 million gain.

Segment Results

We operate our business on an asset management model, where property management teams are responsible for a portfolio of assets. We manage our portfolio as two operating regions: East and West. Property management teams consist of regional directors, leasing agents, development staff and financial personnel, each of whom has responsibility for a distinct portfolio.

Table of Contents

The following table provides selected key segment data for the three months ended June 30, 2007 and 2006. The results of properties classified as discontinued operations have been excluded for rental income, total revenue and property operating income from the following table.

	Three Months Ended June 30,

- (1) Property operating income consists of rental income, other property income and mortgage interest income, less rental expenses and real estate taxes. This measure is used internally to evaluate the performance of our regional operations, and we consider it to be a significant measure.

East

Rental income for the East region increased \$12.3 million to \$93.8 million in the three months ended June 30, 2007 compared to \$81.6 million in the three months ended June 30, 2006 due primarily to the following:

an increase of \$8.2 million attributable to properties acquired in 2007 and 2006,

an increase of \$3.2 million at same-center properties due to increased rental rates on new leases and increased cost recoveries,

an increase of \$1.3 million at redevelopment properties
offset by

a decrease of \$0.4 million related to the sale of Greenlawn Plaza to our unconsolidated real estate partnership in June 2006. Property operating income for the East region increased \$8.5 million due primarily to the increase in rental income discussed above partially offset by a \$3.1 million increase in rental expense due to the acquisition of properties, additional snow removal costs, repairs and maintenance costs, and additional legal costs and a \$1.4 million increase in real estate taxes due primarily to the acquisition of properties and higher assessments on our same-center and redevelopment properties. As a result of these changes, the ratio of property operating income to total revenue for the East region decreased to 72.1% in the three months ended June 30, 2007 from 73.1% in the three months ended June 30, 2006.

West

Rental income for the West region increased \$2.3 million to \$26.1 million in the three months ended June 30, 2007 from \$23.7 million in the three months ended June 30, 2006 due primarily to an increase of \$1.2 million at Santana Row. The increase in rental income at Santana Row is

Edgar Filing: FEDERAL REALTY INVESTMENT TRUST - Form 10-Q

due primarily to leasing residential units throughout 2006 and increased occupancy rates.

Property operating income for the West region increased \$1.0 million due primarily to the increase in rental income discussed above partially offset by a \$1.0 million increase in rental expenses and real estate taxes primarily at Santana Row and a \$0.2 million decrease in mortgage interest income due to an amendment of our \$17.7 million second mortgage note receivable secured by a hotel in our Santana Row project in San Jose, California, which was executed on August 14, 2006 and decreased

the interest rate from 14% per annum to 9% per annum. As a result of these changes, the ratio of property operating income to total revenue for the West region decreased to 65.1% in the three months ended June 30, 2007 from 66.6% in the three months ended June 30, 2006.

New Accounting Standards Implemented

In July 2006, the Financial Accounting Standards Board (FASB) issued FASB Interpretation No. 48 (FIN 48), Accounting for Uncertainty in Income Taxes an interpretation of FASB Statement No. 109, Accounting for Income Taxes. FIN 48 was issued to reduce the diversity in practice associated with certain aspects of recognition, disclosure and measurement related to accounting for uncertain income tax positions. We adopted FIN 48 effective January 1, 2007. The adoption of FIN 48 did not have a material impact on our financial position, results of operation, or cash flows. We recognize penalties and interest accrued related to unrecognized tax benefits as income tax expense. With few exceptions, we are no longer subject to U.S. federal, state, and local tax examinations by tax authorities for years before 2003. As of June 30, 2007, we had no material unrecognized tax benefits.

New Accounting Standards to Be Implemented

In September 2006, the FASB issued SFAS No. 157 Fair Value Measurement (SFAS No. 157). SFAS No. 157 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles, and expands disclosures about fair value measurements. SFAS No. 157 applies to accounting pronouncements that require or permit fair value measurements, except for share-based payments under SFAS No. 123(R). We are required to adopt SFAS No. 157 effective January 1, 2008. We do not believe the adoption of SFAS No. 157 will have a material impact on our financial position, results of operations or cash flows.

In February 2007, the FASB issued SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities Including an Amendment of FASB Statement No. 115 (SFAS No. 159). This standard permits entities to choose to measure many financial instruments and certain other items at fair value and is effective for the first fiscal year beginning after November 15, 2007. We do not expect SFAS No. 159 to have a material impact on our financial statements.

Liquidity and Capital Resources

Due to the nature of our business and strategy, we generally generate significant amounts of cash from operations. The cash generated from operations is primarily paid to our shareholders in the form of dividends. As a REIT, we must generally make annual distributions to shareholders of at least 90% of our REIT taxable income.

Our short-term liquidity requirements consist primarily of obligations under our capital and operating leases, normal recurring operating expenses, regular debt service requirements (including debt service relating to additional or replacement debt, as well as scheduled debt maturities), recurring expenditures, non-recurring expenditures (such as tenant improvements and redevelopments) and dividends to common and preferred shareholders. Overall capital requirements in 2007 will depend upon acquisition opportunities, the level of improvements and redevelopments on existing properties and the timing and cost of development of future phases of existing properties.

Our long-term capital requirements consist primarily of maturities under our long-term debt, development and redevelopment costs and potential acquisitions. We expect to fund these through a combination of sources which we believe will be available to us, including additional and replacement secured and unsecured borrowings, issuance of additional equity, joint venture relationships relating to existing properties or new acquisitions and property dispositions.

The cash needed to execute our strategy and invest in new properties, as well as to pay our debt at maturity, must come from one or more of the following sources:

cash provided by operations that is not distributed to shareholders,

proceeds from the issuance of new debt or equity securities, or

Edgar Filing: FEDERAL REALTY INVESTMENT TRUST - Form 10-Q

proceeds from property dispositions.

It is management's intention that we continually have access to the capital resources necessary to expand and develop our business. As a result, we intend to operate with and maintain a conservative capital structure that will allow us to maintain strong debt service coverage and fixed-charge coverage ratios as part of our commitment to investment-grade debt ratings. We may, from time to time, seek to obtain funds by the following means:

additional equity offerings,

unsecured debt financing and/or mortgage financings, and

Table of Contents

other debt and equity alternatives, including formation of joint ventures, in a manner consistent with our intention to operate with a conservative debt structure.

The following factors could affect our ability to meet our liquidity requirements:

we may be unable to obtain debt or equity financing on favorable terms, or at all, as a result of our financial condition or market conditions at the time we seek additional financing;

restrictions in our debt instruments or preferred stock equity may prohibit us from incurring debt or issuing equity under certain circumstances, or on acceptable terms under then-prevailing market conditions; and

we may be unable to service additional or replacement debt due to increases in interest rates or a decline in our operating performance.

Cash and cash equivalents were \$11.7 million at June 30, 2007, which is a \$0.2 million increase from the balance of cash and cash equivalents at December 31, 2006. Cash and cash equivalents are not a good indicator of our liquidity. We have a \$300.0 million unsecured revolving credit facility that matures July 27, 2010, subject to a one-year extension at our option. We intend to utilize our revolving credit facility to initially finance the acquisition of properties and meet other short-term working capital requirements.

Summary of Cash Flows

	Six months ended June 30,	
	2007	2006
	(In thousands)	
Cash provided by operating activities	\$ 110,231	\$ 93,798
Cash used in investing activities	(92,747)	(17,875)
Cash used in financing activities	(17,261)	(70,520)

Cash and cash equivalents, beginning of year	11,495	8,639
Cash and cash equivalents, end of period	\$ 11,718	\$ 14,042

Net cash provided by operating activities increased \$16.4 million to \$110.2 million during the six months ended June 30, 2007 from \$93.8 million during the six months ended June 30, 2006. The increase was primarily attributable to:

\$11.0 million decrease in cash used for working capital due primarily to higher accounts payable and lower prepaid balances, and

\$5.5 million higher net income before gain on sale of real estate, depreciation and amortization, minority interest, and other non-cash expenses.

Net cash used in investing activities increased \$74.9 million to \$92.7 million during the six months ended June 30, 2007 from \$17.9 million during the six months ended June 30, 2006. The increase was primarily attributable to:

\$23.9 million decrease in proceeds from the sale of real estate,

Edgar Filing: FEDERAL REALTY INVESTMENT TRUST - Form 10-Q

\$19.1 million increase in capital expenditures primarily for development and redevelopment activities,

\$16.2 million increase in acquisitions of real estate,

\$15.5 million increase in contributions to our unconsolidated real estate partnership due to additional acquisitions by the real estate partnership, and

\$1.4 million increase in leasing costs
partially offset by

\$0.8 million increase in mortgage and note receivable repayments.

Net cash used in financing activities decreased \$53.3 million to \$17.3 million during the six months ended June 30, 2007 from \$70.5 million used during the six months ended June 30, 2006. The decrease was primarily attributable to:

\$40.5 million repayment of senior debentures in 2006,

\$10.9 million decrease in dividends paid to shareholders due primarily to \$10.6 million of special common dividends paid in 2006 and a \$5.7 million decrease in preferred share dividends offset by an increase in the common dividend rate in 2007,

and

\$2.5 million increase in net borrowings on our revolving credit facility
partially offset by

\$0.8 million increase in distributions to minority interests.

Off-Balance Sheet Arrangements

We are joint venture partners in eight restaurants at Santana Row. Our investment balance in the restaurant joint ventures was approximately \$8.2 million and \$8.6 million at June 30, 2007 and December 31, 2006, respectively. Our equity in earnings from the restaurant joint ventures was \$0.9 million for the six months ended June 30, 2007 and 2006.

In July 2004, we entered into a joint venture arrangement (the Partnership) by forming a limited partnership with affiliates of Clarion Lion Properties Fund (Clarion), a discretionary fund created and advised by ING Clarion Partners. We own 30% of the equity in the Partnership, and Clarion owns 70%. We are the manager of the Partnership and its properties, earning fees for acquisitions, management, leasing and financing. We also have the opportunity to receive performance-based earnings through our Partnership interest. We account for our interest in the Partnership using the equity method. In total, at June 30, 2007, the Partnership had \$81.6 million of mortgages payable outstanding. For mortgages payable totaling \$36.7 million that are secured by three properties owned by subsidiaries of the Partnership, we are the guarantor for the obligations of the joint venture which are commonly referred to as non-recourse carve-outs. The guaranties do not have a finite term; however, once the lenders have been repaid in accordance with the loan documents, the only likely basis for a claim on the guaranty is for loss to the lender as a result of potential future environmental liability at the properties to which the loans relate. We are not guaranteeing repayment of the debt itself. The Partnership indemnifies us for any loss we incur under these guarantees.

 - 2) The interest rate of 6.04% represents the weighted average interest rate for two mortgage notes secured by this property. The loan balance represents an interest only note of \$4.35 million at a rate of 6.18% and the remaining balance at a rate of 5.96%.

Table of Contents

- 3) The interest rate is fixed at 5.66% for the first ten years and then will be reset to a market rate. The lender has the option to call the loan on April 15, 2013 or any time thereafter.
- 4) The maximum amount drawn under our revolving credit facility during the six and three months ended June 30, 2007 was \$203 million. The weighted average effective interest rate on borrowings under our revolving credit facility, before amortization of debt fees, was 5.7% for the six and three months ended June 30, 2007. This credit facility is subject to a one-year extension at our option.
- 5) The bonds require monthly interest only payments through maturity. The bonds bear interest at a variable rate determined weekly, which would enable the bonds to be remarketed at 100% of their principal amount. The property is not encumbered by a lien.
- 6) We purchased an interest rate lock to hedge a planned note offering. A hedge loss of \$1.5 million associated with this hedge is being amortized into the note offering, thereby increasing the effective interest rate on these notes to 6.325%.
- 7) On August 15, 2008, the debentures are redeemable by the holders thereof at the original purchase price of \$1,000 per debenture. Our credit facility and other debt agreements include financial and other covenants that may limit our operating activities in the future. As of June 30, 2007, we were in compliance with all of the financial and other covenants. If we were to breach any of our debt covenants and did not cure the breach within any applicable cure period, our lenders could require us to repay the debt immediately and, if the debt is secured, could immediately begin proceedings to take possession of the property securing the loan. Many of our debt arrangements, including our public notes and our credit facility, are cross-defaulted, which means that the lenders under those debt arrangements can put us in default and require immediate repayment of their debt if we breach and fail to cure a covenant under certain of our other debt obligations. As a result, any default under our debt covenants could have an adverse effect on our financial condition, our results of operations, our ability to meet our obligations and the market value of our shares.

Interest Rate Hedging

We enter into interest rate swaps and treasury rate locks that qualify as cash flow hedges under SFAS No. 133, Accounting for Derivative Instruments and Hedging Activities. We generally enter into interest rate swaps to manage our exposure to variable interest rate risk and treasury locks to manage the risk of interest rates rising prior to the issuance of debt. We do not purchase derivatives for speculation. Our cash flow hedges are recorded at fair value. The effective portion of changes in fair value of our cash flow hedges is recorded in other comprehensive income and reclassified to earnings when the hedged item affects earnings. The ineffective portion of changes in fair value of our cash flow hedges is recognized in earnings in the period affected. We assess effectiveness of our cash flow hedges both at inception and on an ongoing basis. Hedge ineffectiveness did not have a significant impact on earnings in the six months ended June 30, 2007 and 2006, and we do not anticipate it will have a significant effect in the future. We had no hedging instruments outstanding during the six months ended June 30, 2007.

Table of Contents**Funds From Operations**

Funds from operations (FFO) is a supplemental non-GAAP financial measure of real estate companies' operating performance. The National Association of Real Estate Investment Trusts (NAREIT) defines FFO as follows: net income, computed in accordance with the U.S. GAAP, plus depreciation and amortization of real estate assets and excluding extraordinary items and gains and losses on the sale of real estate. We compute FFO in accordance with the NAREIT definition, and we have historically reported our FFO available for common shareholders in addition to our net income and net cash provided by operating activities. It should be noted that FFO:

does not represent cash flows from operating activities in accordance with GAAP (which, unlike FFO, generally reflects all cash effects of transactions and other events in the determination of net income);

should not be considered an alternative to net income as an indication of our performance; and

is not necessarily indicative of cash flow as a measure of liquidity or ability to fund cash needs, including the payment of dividends. We consider FFO available for common shareholders a meaningful, additional measure of operating performance primarily because it excludes the assumption that the value of the real estate assets diminishes predictably over time, as implied by the historical cost convention of GAAP and the recording of depreciation. We use FFO primarily as one of several means of assessing our operating performance in comparison with other REITs. Comparison of our presentation of FFO to similarly titled measures for other REITs may not necessarily be meaningful due to possible differences in the application of the NAREIT definition used by such REITs.

An increase or decrease in FFO available for common shareholders does not necessarily result in an increase or decrease in aggregate distributions because our Board of Trustees is not required to increase distributions on a quarterly basis unless necessary for us to maintain REIT status. However, we must distribute 90% of our REIT taxable income (including net capital gain) to remain qualified as a REIT. Therefore, a significant increase in FFO will generally require an increase in distributions to shareholders although not necessarily on a proportionate basis.

The reconciliation of net income to funds from operations available for common shareholders is as follows:

- (1) The weighted average common shares used to compute FFO per diluted common share includes operating partnership units that were excluded from the computation of diluted EPS. Conversion of these operating partnership units is dilutive in the computation of FFO per diluted common share but is anti-dilutive in the computation of diluted EPS for the periods presented.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our use of financial instruments, such as debt instruments, subjects us to market risk which may affect our future earnings and cash flows, as well as the fair value of our assets. Market risk generally refers to the risk of loss from changes in interest rates and market prices. We manage our market risk by attempting to match anticipated inflow of cash from our operating, investing and financing activities with anticipated outflow of cash to fund debt payments, dividends to common and preferred shareholders, investments, capital expenditures and other cash requirements.

Table of Contents

We also enter into certain types of derivative financial instruments to further reduce interest rate risk. We use interest rate protection and swap agreements, for example, to convert some of our variable rate debt to a fixed-rate basis or to hedge anticipated financing transactions. We use derivatives for hedging purposes rather than speculation and do not enter into financial instruments for trading purposes. We had no hedging instruments outstanding during the six months ended June 30, 2007.

Interest Rate Risk

The following discusses the effect of hypothetical changes in market rates of interest on interest expense for our variable rate debt and on the fair value of our total outstanding debt, including our fixed-rate debt. Interest risk amounts were determined by considering the impact of hypothetical interest rates on our debt. This analysis does not purport to take into account all of the factors that may affect our debt, such as the effect that a changing interest rate environment could have on the overall level of economic activity or the action that our management might take to reduce our exposure to the change. This analysis assumes no change in our financial structure.

Fixed Interest Rate Debt

The majority of our outstanding debt obligations (maturing at various times through 2031 or through 2106 including capital lease obligations) have fixed interest rates which limit the risk of fluctuating interest rates. However, interest rate fluctuations may affect the fair value of our fixed rate debt instruments. At June 30, 2007 we had \$1.5 billion of fixed-rate debt outstanding. If interest rates on our fixed-rate debt instruments at June 30, 2007 had been 1.0% higher, the fair value of those debt instruments on that date would have decreased by approximately \$76.5 million. If interest rates on our fixed-rate debt instruments at June 30, 2007 had been 1.0% lower, the fair value of those debt instruments on that date would have increased by approximately \$78.6 million.

Variable Interest Rate Debt

We believe that our primary interest rate risk is due to fluctuations in interest rates on our variable rate debt. At June 30, 2007, we had \$156.4 million of variable rate debt outstanding. Based upon this amount of variable rate debt, if interest rates increased 1.0%, our annual interest expense would increase by approximately \$1.6 million, and our net income and cash flows for the year would decrease by approximately \$1.6 million. Conversely, if interest rates decreased 1.0%, our annual interest expense would decrease by approximately \$1.6 million, and our net income and cash flows for the year would increase by approximately \$1.6 million.

ITEM 4. CONTROLS AND PROCEDURES

Periodic Evaluation and Conclusion of Disclosure Controls and Procedures

An evaluation has been performed, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of June 30, 2007. Based on this evaluation, our management, including our Chief Executive Officer and Chief Financial Officer, concluded that our disclosure controls and procedures were effective as of June 30, 2007 to provide reasonable assurance that information required to be disclosed in our reports filed or submitted under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission.

Changes in Internal Control Over Financial Reporting

There has been no change in our internal controls over financial reporting during the quarterly period covered by this report that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II OTHER INFORMATION

Item 1. Legal Proceedings

In May 2003, First National Mortgage Company filed a complaint against us in the United States District Court for the Northern District of California. The complaint alleged that a one page document entitled Final Proposal, which included language that it was subject to approval of formal documentation, constituted a ground lease of a parcel of property located adjacent to our Santana Row property and gave First National Mortgage Company the option to require that we acquire the property at a price determined in accordance with a formula included in the Final Proposal. The plaintiff is seeking an unspecified amount of monetary damages. A trial as to liability only was held on June 27, 2006 and a jury rendered a verdict against us. A trial date on the issue of damages has been set for March 2008. The complaint did not specify the amount of damages claimed however, we now understand that the plaintiff is claiming damages of \$18 million. We cannot make a reasonable estimate of potential damages until experts are retained, additional discovery is completed on the damages issue and the court rules on various legal issues impacting the calculation of damages. The additional discovery on the damage claim has now commenced. We intend to appeal the jury verdict; however, no appeal of the judgment can be taken until the trial on damages has been completed. If we are not successful in overturning the jury verdict, we will be liable for damages and, based on our analysis with information available to date, we believe those damages could be de minimis. However, it is possible, there could be a material adverse impact on our net income in the period in which it is both probable that we will have to pay the damages and such damages can be reasonably estimated. In any event, management does not believe it will have a material impact on our financial position.

We are also involved in a litigation matter relating to a shopping center in New Jersey where a former tenant has alleged that we, through our management agent, engaged in fraud by failing to disclose a condemnation action at the property that was pending when the lease was signed. A trial as to liability only has been concluded and post-trial briefs have been filed but no decision is expected to be rendered for 30-90 days. If we are found liable, a trial will be held to determine the amount of damages. Based on the evidence and information available to us, we believe there is a reasonable possibility that we will be successful in the litigation and found to have no liability, however, if a verdict is rendered against us, we will seek indemnification from the third party management company that negotiated the lease on our behalf. We cannot assess with any certainty at this time the potential damages for which we would be liable if a verdict is rendered against us or the potential amounts we would recover against the third party management company; however, if a verdict is rendered against us, there may be a material adverse impact on our net income in the period during which our indemnification claim is pending.

Item 1A. Risk Factors

There have been no material changes to the risk factors previously disclosed in our Annual Report for the year ended December 31, 2006 filed with the Securities and Exchange Commission on March 1, 2007. These factors include, but are not limited to, the following:

risks that our tenants will not pay rent or that we may be unable to renew leases or re-let space at favorable rents as leases expire;

risks that we may not be able to proceed with or obtain necessary approvals for any redevelopment or renovation project, and that any redevelopment or renovation project that we do pursue may not perform as anticipated;

risks that the number of properties we acquire for our own account, and therefore the amount of capital we invest in acquisitions, may be impacted by our real estate partnership;

risks normally associated with the real estate industry, including risks that:

occupancy levels at our properties and the amount of rent that we receive from our properties may be lower than expected,

Edgar Filing: FEDERAL REALTY INVESTMENT TRUST - Form 10-Q

completion of anticipated or ongoing property redevelopments or renovations may cost more, take more time to complete, or fail to perform as expected,

new acquisitions may fail to perform as expected,

competition for acquisitions could result in increased prices for acquisitions,

environmental issues may develop at our properties and result in unanticipated costs, and

because real estate is illiquid, we may not be able to sell properties when appropriate;

risks that our growth will be limited if we cannot obtain additional capital;

risks of financing, such as our ability to consummate additional financings or obtain replacement financing on terms which are acceptable to us, our ability to meet existing financial covenants and the limitations imposed on our operations by those covenants, and the possibility of increases in interest rates that would result in increased interest expense; and

risks related to our status as a real estate investment trust, commonly referred to as a REIT, for federal income tax purposes, such as the existence of complex tax regulations relating to our status as a REIT, the effect of future changes in REIT requirements as a result of new legislation, and the adverse consequences of the failure to qualify as a REIT.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

On March 8, 2007, we acquired the White Marsh Portfolio for which part of the consideration consisted of the issuance of (i) 884,066 common shares, (ii) 399,896 shares of 5.417% Series 1 Cumulative Convertible Preferred Shares (iii) 185,504 downREIT operating partnership units. On April 19, 2007, we registered the common shares and the shares which will be tendered on conversion by the preferred shareholders or downREIT operating partnership unit holders.

Under the terms of various operating partnership agreements of certain of our affiliated limited partnerships, the interests of limited partners in those limited partnerships may be redeemed, subject to certain conditions, for cash or an equivalent number of our common shares, at our option. On April 6, 2007, we redeemed 4,000 operating partnership units for cash.

Item 3. Defaults Upon Senior Securities

Item 4. Submission of Matters to a Vote of Security Holders

During the fiscal quarter ended June 30, 2007, we submitted certain matters to a vote of our shareholders through the notice of annual meeting of shareholders and the solicitation of proxies related thereto. The proxy materials related to our annual meeting of shareholders were distributed beginning March 26, 2007, and the annual meeting of shareholders was held on May 2, 2007 in Rockville, Maryland. As of the record date prior to such meeting, 56,316,447 of our common shares were outstanding. At the annual shareholders meeting on May 2, 2007, 47,511,778 shares of our common stock were presented in person or by proxy, representing 84% of our outstanding common shares. The following table sets forth the matters presented for a vote by the shareholders and the votes cast for and against such matters:

Matter	Votes for	Votes against	Abstentions
(1) Election of Mr. Jon E. Bortz as a Class II Trustee with a term serving until the 2010 Annual Meeting	47,017,082	519,120	
(2) Election of Mr. David W. Faeder as a Class II Trustee with a term serving until the 2010 Annual Meeting	47,014,094	522,108	
(3) Election of Ms. Kristin Gamble as a Class II Trustee with a term serving until the 2010 Annual Meeting	46,665,777	870,425	
(4) The ratification of the appointment of Grant Thornton LLP as the Trust's independent registered public accounting firm for the year ending December 31, 2007	47,020,742	444,108	71,308
(5) The approval of our Amended and Restated 2001 Long-Term Incentive Plan, which will, among other things, increase the aggregate number of shares available under the 2001 Long-Term Incentive Plan by 1,500,000 shares	40,686,669	1,823,535	222,438

The terms of office of the following Trustees continued after the meeting: Gail P. Steinel, Joseph S. Vassalluzzo and Donald C. Wood.
