AMENDMENT OF CHARTER, BY-LAWS OR OTHER DOCUMENTS

Creating a Classified Board of Directors

This request for written consent proposes an amendment to the Company's By-Laws. The Proposal would apply to Article IV, Section 3. The purpose of this Proposal is to create three classes of directors with each class consisting, as equally as possible, of the same number of directors. If this Proposal No. 3 is approved, the Board of Directors of the Company will be divided into three classes, consisting of Class I, Class II and Class III. Each director will serve for a term ending on the date of the third annual meeting of the shareholders following the annual meeting at which such director was elected; provided, that each initial director in Class I shall serve for a term ending on the date of the annual meeting of the shareholders in 2008, each initial director in Class II shall serve for a term ending on the date of the annual meeting of the shareholders in 2009, and each initial director in Class III shall serve for a term ending on the date of the annual meeting of the shareholders in 2010. The Written Consent provides that the effectiveness of approval of this Proposal number three is contingent upon approval of Proposals one and two above. Such Proposal would be effective immediately upon delivery to the Company of written consents signed by a majority of the common stock outstanding on the record date, the number of holders required to take action.

Purpose of Creating a Classified Board of Directors; Disadvantages of Creating a Classified Board

This Proposal is considered an anti-takeover Proposal by the SEC per release No. 34-15230 (Oct. 13, 1978).

To enhance continuity and stability of the Board of Directors and the policies formulated by the Board, this solicitation is proposing amendments to the By-Laws to provide for classification of the Board of Directors and certain related matters.

In the opinion of the author of this solicitation, the proposed amendments are desirable to help ensure stability and continuity in the management of the Company's business and affairs. The author of this proxy solicitation also believes that the proposed amendments are desirable to help discourage hostile attempts to take control of the Company. Neither the Company's Articles of Incorporation nor the By-Laws presently contain provisions that could be characterized as specific anti-takeover provisions.

The author of this proxy solicitation believes that substantial inequities can result to remaining shareholders of the company that has become the target of such takeover tactics. The threat of removal of the Company's Board in these situations could severely curtail its ability to negotiate effectively with a potential purchaser. The Board would be deprived of time and information necessary to evaluate a takeover Proposal, to study alternative Proposals and to help maximize the price obtained in any transaction. Among other things, the Classified Board Amendments further reduce this threat to the removal of the Company's Board of Directors by classifying the Board so that only one-third of its members are elected each year.

Although the author of this solicitation believes there are advantages to adopting a classified board, there may also be perceived disadvantages including, entrenchment of the members of the board of directors for longer terms, reducing the number of directors being considered for election at each meeting of shareholders, and generally reducing the shareholders participation in the election of directors on an annual basis.

Directors of the Company are presently elected by a plurality of the votes cast in an election of Directors, and holders of common stock are entitled to cast one vote for each share of Common Stock held. Under the Florida law, the affirmative vote of the holders of a majority of the Common Stock of the Company entitled to vote at the annual meeting of shareholder is required to adopt the proposed Amendments to the By-laws.

Amendment to By-Laws.

If Proposal No. 3 is approved by written consent, Article IV, Section 3 of the By-Laws shall be deleted in its entirety and replaced with the following:

Section 3. Election and Term. At each annual meeting the Shareholders shall elect directors to hold office until the end of their term. The Board of Directors shall be divided into three classes. The number of directors elected to each class shall be as nearly equal in number as possible. Each director in the first class shall be elected to an initial term expiring at the next ensuing annual meeting of stockholders, each director in

Table of Contents

the second class shall be elected to an initial term expiring at the annual meeting of stockholders held one year thereafter and each director in the third class shall be elected to an initial term expiring at the annual meeting of stockholders held two years thereafter, in each case until his or her successor is duly elected and qualified or until his or her earlier resignation, death, incapacity or removal from office. The Company will use its best efforts to have an uneven number of directors on the Company's Board of Directors after the third class of directors is elected. Upon expiration of the initial terms of office for each class of directors, the successor directors of each class shall be elected for a full term of three years, to serve until their successors are duly elected and qualified or until their earlier resignation, death, incapacity or removal from office. The Board of Directors shall apportion any increase or decrease in the number of directors among the classes as nearly equal in number as possible.

THE AUTHOR OF THIS PROXY SOLICITATION RECOMMENDS A VOTE FOR THE ADOPTION OF THE ABOVE PROPOSED AMENDMENT.

PROPOSAL NO. 4

AMENDMENT OF CHARTER, BY-LAWS OR OTHER DOCUMENTS

For Cause Removal Prior to Expiration of Term

This request for written consent proposes an amendment to the Company's By-Laws. The Proposal would apply to Article IV, Section 5. The purpose of this Proposal is to provide that a member of the board of directors may only be removed for cause prior to the expiration his or her term. The Written Consent provides that the effectiveness of approval of this Proposal number four is contingent upon approval of Proposals one and two above. Such Proposal would be effective immediately upon delivery to the Company of written consents signed by a majority of the common stock outstanding on the record date, the number of holders required to take action.

Purpose of Requiring For Cause Removal Prior to Expiration of Term

This Proposal is considered an anti-takeover Proposal by the SEC per release No. 34-15230 (Oct. 13, 1978).

To enhance continuity and stability of the Board of Directors and the policies formulated by the Board, this solicitation is proposing amendments to the By-Laws to provide that a board member may be removed only for cause prior to the expiration his or her term.

Unless superseded by a specific provision, such as this, providing otherwise, Florida law provides that any or all of the directors of a corporation may be removed with or without cause by a vote of the shareholder. Fla. Stat. 607.0808(1) (2007).

In the opinion of the author of this solicitation, the proposed amendments are desirable to help discourage hostile attempts to take control of the Company and ensure stability and continuity in the management of the Company's business and affairs.

Although the author of this solicitation believes there are advantages to requiring for cause termination prior to the expiration of a board members term, there may also be perceived disadvantages including, entrenchment of the members of the board of directors.

Table of Contents

Directors of the Company presently may be removed for any reason or without reason prior to the expiration the such director s term.

Amendment to By-Laws.

If Proposal No. 4 is approved by written consent, Article IV, Section 5 of the By-Laws shall be deleted in its entirety and replaced with the following:

Section 5. Removal: A director may only be removed for cause by the affirmative vote of the holders of shares of stock having a majority of the votes which could be cast by the holders of all outstanding shares entitled to vote thereon at a meeting called for that purpose at which a quorum is present.

PROPOSAL NO. 5

AMENDMENT OF CHARTER, BY-LAWS OR OTHER DOCUMENTS

Removal of Ability to Take Shareholder Action By Written Consent

This request for written consent proposes an amendment to the Company s By-Laws. The Proposal would delete Section 9, Article III, in its entirety, from the Company s By-Laws. Section 9, Article III of the Company s By-Laws permits shareholders of the Company to take corporate action by written action without a meeting. If approved by written consent, the shareholders would not be able to take corporate action by written action without a meeting. This amendment to the Company s By-Laws would not have any effect on the Written Consent authorizing its removal. The Written Consent provides that the effectiveness of approval of this Proposal number five is contingent upon approval of Proposals one and two above. Such Proposal would be effective immediately upon delivery to the Company of written consents signed by a majority of the common stock outstanding on the record date, the number of holders required to take action.

Purpose of Eliminating the Ability to Take Shareholder Action by Written Consent

This Proposal may be considered an anti-takeover proposal by the SEC per release No. 34-15230 (Oct. 13, 1978).

Unless superseded by a specific provision, such as this, Florida business corporation law provides that any action required to be taken or which may be taken at any meeting of shareholder may be taken without a meeting, without prior notice and without a vote, by written consent of the holders of outstanding stock having not less than the minimum number of votes that would be necessary to authorize or take such action at a meeting at which all shares entitled to vote thereon were present and voted. Prompt notice of the taking of the corporate action without a meeting by less than unanimous written consent shall be given to those shareholders who have not consented in writing and who, if the action had been taken at a meeting, would have been entitled to notice of the meeting. Section 9, Article III of the By-Laws provide similarly. This fifth Proposal, if approved, would eliminate this section of the By-Laws and supersede the default Florida business corporation law provision. This would mean that no shareholder approval could be obtained without having an actual meeting of shareholders where information would be presented to all shareholders. The author of this solicitation believes that this is in the best interest of all the shareholders because before any shareholder vote could be taken more information would be available to them to evaluate the specific proposals. While it could slow down and

Table of Contents

increase the cost to get shareholder approval in the event of certain ministerial events, the author of this solicitation believes it is in the best interest of the Company to make sure there is the opportunity for a full discussion of the issue before an important matter affecting the Company requiring a shareholder vote is decided.

In the opinion of the author of this solicitation, as a public company, actions should be taken by shareholders at the Annual or Special Meetings. Although the author of this solicitation believes there advantages to requiring all actions of shareholders to be taken at an Annual or Special Meeting, there may also be perceived disadvantages including, reductions in shareholder flexibility.

INFORMATION DISCLOSED AS PART OF THIS INFORMATION STATEMENT

Interest Of Certain Persons In Matters To Be Acted Upon

The Participants in this Solicitation have an interest in all of the submitted Proposals. Both Mr. Flood and Mr. Depalo, Participants in this Solicitation, are nominees should vacancies exist upon the proposed removal of two existing members of the Board of Directors, pursuant to the Proposals set forth above. Such Proposals, if approved by written consent, will appoint Messrs. Flood and Depalo to the Board of Directors. Together with Mr. Prentice and Dr. Kratz who currently serve on the Board of Directors, the Participants in this Solicitation will obtain a controlling majority of the Company's five person Board of Directors, if the Proposals set forth above are approved. As a result, the adoption of the Proposals will allow the Participants to exercise considerable power in the operation of World Energy Solutions, Inc. In addition, Proposals three and four are considered anti-takeover Proposals by the SEC per release No. 34-15230 (Oct. 13, 1978), and as such will make it difficult for future attempts to remove such directors, if elected. Proposal five may be considered an anti-takeover Proposal and may have the same effect.
