NOTE D STOCK-BASED COMPENSATION

Prior to January 1, 2006, the Company's stock option plans were accounted for under the recognition and measurement provisions of APB Opinion No. 25 (Opinion 25), *Accounting for Stock Issued to Employees*, and related Interpretations, as permitted by FASB Statement No. 123, *Accounting for Stock-Based Compensation* (as amended by SFAS No. 148, *Accounting for Stock-Based Compensation Transition and Disclosure*) (collectively SFAS 123). No stock-based employee compensation cost was recognized in the Company's consolidated statements of income through December 31, 2005, as all options granted under the plans had an exercise price equal to the market value of the underlying common stock on the date of grant.

Effective January 1, 2006, the Company adopted the fair value recognition provisions of FASB Statement No. 123(R), *Share-Based Payment* (SFAS 123R), using the modified-prospective-transition method. Under that transition method, compensation cost recognized in 2006 includes: (a) compensation cost for all share-based payments granted prior to, but not yet vested as of January 1, 2006, based on the grant fair value calculated in accordance with the original provisions of SFAS 123, and (b) compensation cost for all share-based payments granted subsequent to December 31, 2005, based on the grant-date fair value estimated in accordance with the provisions of SFAS 123(R). As of December 31, 2006, only 5,283 stock options were not fully vested and no stock options were granted during the three months ended September 30, 2007 or the nine months ended September 30, 2007.

As a result of adopting SFAS 123(R) on January 1, 2006, the Company's earnings before income taxes for the three-months ended September 30, 2007 and the nine months ended September 30, 2007, are not materially different than if it had continued to account for share-based compensation under Opinion 25. As of September 30, 2007, the Company had 1,809 stock options not fully vested and there was \$1,866 of total unrecognized compensation cost related to these non-vested options.

ITEM NO. 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS
FINANCIAL CONDITION

The following discussion contains forward-looking statements relating to, without limitation, future economic performance, plans and objectives of management for future operations, and projections of revenues and other financial items that are based on the beliefs of the Company's management, as well as assumptions made by and information currently available to the Company's management. The words expect, estimate, anticipate, and believe, as well as similar expressions, are intended to identify forward-looking statements. The Company's actual results may differ materially from the results discussed in the forward-looking statements, and the Company's operating performance each quarter is subject to various risks and uncertainties that are discussed in detail in the Company's filings with the Securities and Exchange Commission, including the Risk Factors section in the Company's most recently filed 10-KSB.

The First represents the primary asset of the Company. The First reported total assets of \$490.8 million at September 30, 2007, compared to \$416.5 million at December 31, 2006. Loans increased \$81.1 million, or 28.2%, during the first nine months of 2007. Deposits at September 30, 2007, totaled \$394.3 million compared to \$360.4 million at December 31, 2006. For the nine month period ended September 30, 2007, The First reported net income of \$3.2 million compared to \$2.7 million for the nine months ended September 30, 2006.

NONPERFORMING ASSETS AND RISK ELEMENTS. Diversification within the loan portfolio is an important means of reducing inherent lending risks. At September 30, 2007, The First had no concentrations of ten percent or more of total loans in any single industry or any geographical area outside its immediate market areas.

At September 30, 2007, The First had loans past due as follows:

	(\$ In Thousands)
Past due 30 through 89 days	\$ 2,787
Past due 90 days or more and still accruing	709

The accrual of interest is discontinued on loans which become ninety days past due (principal and/or interest), unless the loans are adequately secured and in the process of collection. Nonaccrual loans totaled \$1,685,000 at September 30, 2007. Any other real estate owned is carried at the lower of cost or fair value, determined by an appraisal. Other real estate owned totaled \$1,070,000 at September 30, 2007. A loan is classified as a restructured loan when the interest rate is materially reduced or the term is extended beyond the original maturity date because of the inability of the borrower to service the debt under the original terms. The First had no restructured loans at September 30, 2007.

LIQUIDITY AND CAPITAL RESOURCES

Liquidity is adequate with cash and cash equivalents of \$11.8 million as of September 30, 2007. In addition, loans and investment securities repricing or maturing within one year or less exceeded \$215 million at September 30, 2007. Approximately \$50.8 million in loan commitments are expected to be funded within the next six months and other commitments, primarily standby letters of credit, totaled \$1.2 million at September 30, 2007.

There are no known trends or any known commitments or uncertainties that will result in The First's liquidity increasing or decreasing in a material way. In addition, The First is not aware of any recommendations by any regulatory authorities which would have a material effect on its liquidity, capital resources or results of operations.

Total consolidated equity capital at September 30, 2007, is \$34.8 million, or approximately 7% of total assets. On November 21, 2006, the Company closed on a public offering of its common stock. As a result of this offering, 365,000 shares were sold at a price of \$22.50 per share, with net proceeds of approximately \$8.2 million. The Company currently has adequate capital positions to meet the minimum capital requirements for all regulatory agencies. The capital ratios as of September 30, 2007, are as follows:

Tier 1 leverage	9.16%
Tier 1 risk-based	11.42%
Total risk-based	12.45%

On March 26, 2002, The First Bancshares Statutory Trust 1 (the Trust), a wholly-owned subsidiary trust of the Company, issued \$7,000,000 of redeemable cumulative trust preferred securities. Earning assets through September 30, 2007, increased \$133.5 million and interest-bearing liabilities also increased \$113.3 million when compared to September 30, 2006, reflecting increases of 40.3% and 40.8%, respectively.

Noninterest income for the nine months ended September 30, 2007, was \$2,327,000 compared to \$1,632,000 for the same period in 2006, reflecting an increase of \$695,000 or 42.6%. Included in noninterest income is service charges on deposit accounts, which for the nine months ended September 30, 2007, totaled \$1,380,000, compared to \$932,000 for the same period in 2006.

The provision for loan losses was \$966,000 in the first nine months of 2007 compared with \$583,000 for the same period in 2006. The allowance for loan losses of \$4.0 million at September 30, 2007 (approximately 1.08% of loans) is considered by management to be adequate to cover losses inherent in the loan portfolio. The level of this allowance is dependent upon a number of factors, including the total amount of past due loans, general economic conditions, and management's assessment of potential losses. This evaluation is inherently subjective as it requires estimates that are susceptible to significant change. Ultimately, losses may vary from current estimates and future additions to the allowance may be necessary. Thus, there can be no assurance that charge-offs in future periods will not exceed the allowance for loan losses or that additional increases in the loan loss allowance will not be required. Management evaluates the adequacy of the allowance for loan losses quarterly and makes provisions for loan losses based on this evaluation.

Noninterest expenses increased by \$3.0 million or 38.4% for the nine months ended September 30, 2007, when compared with the same period in 2006. The increase is primarily due to the continued growth and the related services being offered.

ITEM NO. 3. CONTROLS AND PROCEDURES

As of September 30, 2007, (the Evaluation Date), we carried out an evaluation, under the supervision and with the participation of our Chief Executive Officer and our Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures, as such term is defined under Rule 13a-15(e) promulgated under the Securities Exchange Act of 1934, as amended, as of the end of the period covered by this report. Based on this evaluation, our Chief Executive Officer and our Chief Financial Officer

concluded that our disclosure controls and procedures are effective to ensure that material information we are required to disclose in reports that we file or submit under periods specified in SEC rules and forms is approximately disclosed.

There have been no changes, significant or otherwise, in our internal controls over financial reporting that occurred during the quarter ended September 30, 2007, that has materially affected, or is reasonably likely to affect, our internal control over financial reporting.

ITEM NO. 4. RECENT ACCOUNTING PRONOUNCEMENTS

In February 2007, the Financial Accounting Standards Board (FASB) issued Statement No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities Including an Amendment of FASB Statement No. 115* (SFAS No. 159) which permits an entity to choose to measure many financial instruments and certain other items at fair value. Most of the provisions in SFAS No. 159 are elective; however, the amendment to FASB Statement No. 115, *Accounting for Certain Investments in Debt and Equity Securities* , applies to all entities with available-for-sale and trading securities. The FASB s stated objective in issuing this standard is as follows: to improve financial reporting by providing entities with the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions.

The fair value option established by SFAS No. 159 permits all entities to choose to measure eligible items at fair value at specified election dates. A business entity will report unrealized gains and losses on items for which the fair value option has been elected in earnings at each subsequent reporting date. The fair value option: (a) may be applied instrument by instrument, with a few exceptions, such as investments otherwise accounted for by the equity method; (b) is irrevocable (unless a new election date occurs); and (c) is applied only to entire instruments and not to portions of instruments. If SFAS No. 159 is adopted, its impact, if any, on the financial statements of the Company is yet to be determined.

In September 2006, the FASB issued Statement No. 157, *Fair Value Measurements* (SFAS No. 157) which defines fair value, establishes a framework for measuring fair value under accounting principles generally accepted in the United States of America, and expands disclosures about fair value measurements. SFAS No. 157 applies to other accounting pronouncements that require or permit fair value measurements. This Statement is effective for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. We will be required to adopt SFAS No. 157 in the first quarter of fiscal year 2008. Management is currently evaluating the requirements of SFAS No. 157, but does not expect the impact to be significant.

In September 2006, the consensus reached in EITF Issue No. 06-4, *Accounting for Deferred Compensation and Postretirement Benefit Aspects of Endorsement Split-Dollar Life Insurance Arrangements* (EITF 06-4) was ratified by the FASB. EITF 06-4 requires that a liability be recognized for contracts written to employees which provide future postretirement benefits that are covered by endorsement split-dollar life insurance arrangements because such obligations are not considered to be effectively settled upon entering into the related insurance arrangements. EITF 06-4 is effective for fiscal years beginning after December 15, 2007, with the guidance applied using either a retrospective approach or through a cumulative-effect adjustment to beginning undivided profits. The Company is currently assessing the financial impact of adopting EITF 06-4.
