Table of Contents**NEOGEN CORPORATION AND SUBSIDIARIES****NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)****1. BASIS OF PRESENTATION**

The accompanying unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (generally accepted accounting principles) for interim financial information and with the instructions to Form 10-Q and Article 10 Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting only of normal recurring adjustments) considered necessary for a fair presentation have been included. The results of operations for the three month and nine month periods ended February 29, 2008 are not necessarily indicative of the results to be expected for the fiscal year ending May 31, 2008. For more complete financial information, these consolidated financial statements should be read in conjunction with the May 31, 2007 audited consolidated financial statements and the notes thereto included in the Company's annual report on Form 10-K for the year ended May 31, 2007.

On July 26, 2007, Board of Directors declared a 3 for 2 stock split payable on August 17, 2007. Equity accounts and per share amounts have been adjusted to reflect the split as of the beginning of the periods presented.

The Company adopted the provisions of FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes (FIN 48), on June 1, 2007. The adoption of FIN 48 had no significant effect on the financial statements. The Company has no significant accrual for unrecognized tax benefits at February 29, 2008. Should the accrual of any interest or penalties relative to unrecognized tax benefits be necessary, such accruals will be reflected within income tax accounts.

2. INVENTORIES

Inventories are stated at the lower of cost, determined on the first-in, first-out method, or market. The components of inventories follow:

	February 29, 2008	May 31, 2007
	<i>(In thousands)</i>	
Raw materials	\$ 11,864	\$ 7,884
Work-in-process	482	390
Finished goods	13,419	10,842
	\$ 25,765	\$ 19,116

3. NET INCOME PER SHARE

The calculation of net income per share follows:

	Three Months Ended February 29/28, 20082007		Nine Months Ended February 29/28, 20082007	
	(In thousands except per share amounts)			
Numerator for basic and diluted net income per share:

Denominator:				
Denominator for basic net income per share-weighted average shares	14,359	13,838	14,226	13,746
Effect of dilutive stock options and warrants	559	381	566	350

Edgar Filing: NEOGEN CORP - Form 10-Q

Denominator for diluted net income per share	14,918	14,219	14,792	14,096
Net income per share:				
Basic	\$.19	\$.14	\$.63	\$.50
Diluted	\$.18	\$.14	\$.60	\$.48

Table of Contents**4. STOCK REPURCHASE**

The Company's Board of Directors has authorized the purchase of up to 1,250,000 shares of the Company's Common Stock. As of February 29, 2008, the Company has cumulatively purchased 893,000 shares in negotiated and open market transactions. No shares were purchased in the first nine months of fiscal year 2008. Shares purchased under this buy-back program were retired.

5. SEGMENT INFORMATION

The Company has two reportable segments: Food Safety and Animal Safety. The Food Safety segment produces and markets diagnostic test kits and related products used by food producers and processors to detect harmful natural toxins, drug residues, food borne bacteria, food allergens, pesticide residues, disease infections and levels of general sanitation. The Animal Safety segment is primarily engaged in the production and marketing of veterinary instruments, rodenticides and a complete line of consumable products to veterinarians and animal health product distributors.

These segments are managed separately because they represent strategic business units that offer different products and require different marketing strategies. The Company evaluates performance based on sales and operating income of the respective segments.

Segment information for the three months ended February 29, 2008 and February 28, 2007 follows:

	Food Safety	Animal Safety	Corporate and Eliminations (1)	Total
	<i>(In thousands)</i>			
Fiscal 2008				
Net sales to external customers	\$ 13,835	\$ 11,345	\$	\$ 25,180
Operating income (reduction)	3,369	913	(301)	3,981
Total assets	\$ 61,393	\$ 50,239	\$ 8,186	\$ 119,818
Fiscal 2007				
Net sales to external customers	\$ 11,565	\$ 9,489	\$	\$ 21,054
Operating income (reduction)	2,492	746	(216)	3,022
Total assets	\$ 53,117	\$ 38,910	\$ 7,964	\$ 99,991

(1) Includes corporate assets, consisting principally of marketable securities, deferred assets and overhead expenses not allocated to specific business segments. Also includes the elimination of intersegment transactions and minority interests.

Segment information for the nine months ended February 29, 2008 and February 28, 2007 follows:

	Food Safety	Animal Safety	Corporate and Eliminations (1)	Total
	<i>(In thousands)</i>			
Fiscal 2008				
Net sales to external customers	\$ 42,068	\$ 33,231	\$	\$ 75,299
Operating income (reduction)	10,972	3,390	(1,036)	13,326
Fiscal 2007				
Net sales to external customers	\$ 34,749	\$ 28,714	\$	\$ 63,463
Operating income (reduction)	7,456	3,562	(722)	10,296

(1) Includes the elimination of intersegment transactions and minority interests.

Table of Contents**6. EQUITY COMPENSATION PLANS**

Options are generally granted under the employee and director stock option plan for 5 years and become exercisable in varying installments. Certain non-qualified options are granted for 10 year periods. A summary of stock option activity during the nine months ended February 29, 2008 follows:

	Shares	Weighted-Average Exercise Price
Options outstanding at June 1, 2007	1,511,736	\$ 11.00
Granted	389,756	20.54
Exercised	(357,548)	8.38
Expired and cancelled	(18,451)	13.90
Options outstanding at February 29, 2008	1,525,493	14.12
Exercisable at February 29, 2008	632,949	11.29

Options outstanding at February 29, 2008 had a weighted-average remaining contractual term of 4.0 years. At February 29, 2008, the aggregate intrinsic values of options outstanding and options exercisable were \$19,634,000 and \$9,935,000, respectively. The aggregate intrinsic value of options exercised during the nine-month periods ended February 29, 2008 and February 28, 2007 was \$5,119,000 and \$5,072,000, respectively. The 1997 Stock Option Plan expired August 14, 2007. On October 11, 2007 the shareholders passed a resolution for the adoption of the 2007 Stock Option Plan. The provisions of the new plan are substantially the same as the expired plan. Exercise prices for options outstanding as of February 29, 2008 ranged from \$3.33 to \$25.07. At February 29, 2008 there was \$2,736,000 of unrecognized compensation cost related to nonvested stock option compensation arrangements granted under the plan. That cost is expected to be recognized over a weighted-average period of 3.0 years. During the nine months ended February 29, 2008 and February 28, 2007 the Company recorded \$1,430,000 and \$934,000 compensation expense related to its share-based awards.

The grant date fair value of options granted during the nine months ended February 29, 2008 using the Black-Scholes option pricing model was \$6.91 and was estimated using the following weighted-average assumptions:

Risk-free interest rate	4.55%
Expected dividend yield	0%
Expected stock price volatility	34.18%
Expected option life	4 years

The risk-free rate reflects the expected life of the option is based on the U.S. Treasury yield curve in effect at the time of grant. Expected volatilities are based on historical volatility of the Company's stock. The Company uses historical data related to option exercises and employee terminations to determine the expected option life.

The Company issued 57,000 warrants that are exercisable for common stock. The warrants have lives of 5 years and are expensed at fair value upon issuance.

The Company has an Employee Stock Purchase plan that provides for employee stock purchases at a 5% discount to market as defined. The discount is expensed as of the date of purchase.

7. NEW ACCOUNTING PRONOUNCEMENTS

Subsequent to the end of the Company's second fiscal quarter, SFAS No. 141 Business Combinations (revised 2007) (SFAS 141(R)) was issued. The revision is intended to converge rulemaking and reporting under U.S. Generally Accepted Accounting Principles (GAAP) with international accounting rules. SFAS 141(R) establishes principles and requirements for how an acquirer in a business combination recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, and any controlling interest; recognizes and measures the goodwill acquired in the business combination or a gain from a bargain purchase; and determines what information to disclose to enable users of the financial statements to evaluate the nature and financial effects of the business combination. FAS 141(R) is effective for the Company for business combinations closed on or after June 1, 2009. SFAS No. 160 Noncontrolling Interests in Consolidated Financial Statements and

Edgar Filing: NEOGEN CORP - Form 10-Q

amendment of ARB No. 51. (SFAS 160) was also issued. SFAS No. 160 requires all entities to report noncontrolling (minority) interests in subsidiaries as equity in the consolidated financial statements. Its intention is to eliminate the diversity in practice regarding the accounting for transactions between and entity and noncontrolling interests.

Table of Contents

The Company is required to adopt the provisions of both SFAS 141 (R) and SFAS 160 simultaneously at the beginning of fiscal 2010. Earlier adoption is prohibited. The Company is currently evaluating the provisions of these pronouncements, however it expects the potential impact on its consolidated financial statements will be minimal.

In September 2006, the FASB issued SFAS No. 157, Fair Value Measurements (SFAS 157). This new standard establishes a framework for measuring the fair value of assets and liabilities. This framework is intended to provide increased consistency in how fair value determinations are made under various existing accounting standards which permit, or in some cases require, estimates of fair value market value. SFAS 157 also expands financial statement disclosure requirements about a company's use of fair value measurements, including the effect of such measures on earnings. The company is required to adopt this new accounting guidance at the beginning of fiscal 2009. In November 2007, the FASB deferred the effective date until fiscal 2010 for nonfinancial assets and liabilities except those items recognized or disclosed at fair value on an annual or more frequently recurring basis. While the company is currently evaluating the provisions of SFAS 157, the adoption is not expected to have a material impact on its consolidated financial statements.

In February 2007, the FASB issued SFAS No. 159 The Fair Value Option for Financial Assets and Financial Liabilities (SFAS 159). SFAS 159 expands the use of fair value measurement by permitting entities to choose to measure at fair value, many financial instruments and certain other items that are not currently required to be measured at fair value. The company is required to adopt SFAS 159 at the beginning of fiscal 2009 and is in the process of evaluating the applicability and potential impact to its financial statements.

8. LEGAL PROCEEDINGS

The Company is subject to certain legal and other proceedings in the normal course of business. In the opinion of management the outcome of the legal matters will not have a material effect on its future results of operations or financial position.

9. BUSINESS AND PRODUCT LINE ACQUISITIONS

On August 24, 2007, Neogen Corporation purchased the operating assets of Brandon, South Dakota based Kane Enterprises, Inc. Consideration for the purchase, including additional net current assets of \$800,000 and subject to certain post closing adjustments, consisted of \$6,600,000 of cash. The preliminary allocation of the purchase price consisted of \$600,000 in accounts receivables, \$1,775,000 in inventory, \$55,000 in fixed assets, \$4,350,000 in goodwill and other intangible assets and \$180,000 in assumed liabilities. On December 3, 2007, Neogen Corporation purchased the assets of Winnipeg, Manitoba based Rivard Instruments Inc. Assets acquired consisted of inventory, equipment and intangibles. The acquisitions have been integrated into the Lexington, Kentucky operations and are expected to be strong synergistic fits with the Company's Animal Safety product line.

Results of operations have been included as of the date of acquisition.

10. LONG TERM DEBT

The Company maintains a financing agreement with a bank (no amounts drawn at February 29, 2008 or May 31, 2007) providing for an unsecured revolving line of credit of \$10,000,000. The interest rate is LIBOR plus 95 basis points (rate under terms of the agreement was 4.09% at February 29, 2008) or prime less 100 basis points (5.00% at February 29, 2008) at the Company's option. Financial covenants include maintaining specified funded debt to EBITDA and debt service ratios as well as specified levels of tangible net worth, all of which are complied with at February 29, 2008.

Table of Contents

11. HEDGE TRANSACTIONS

The Company follows Statement of Financial Accounting Standards (SFAS) No. 133, Accounting for Derivative Instruments and Hedging Activities, as amended by SFAS Nos. 137 and 138, which requires that all derivative instruments be recorded on the consolidated balance sheets at fair value and establishes criteria for designation and effectiveness of hedging relationships. The Company utilizes foreign currency forward exchange contracts to manage the volatility associated with sales in foreign currency made to a European based customer in the normal course of business. At February 29, 2008 foreign exchange contracts with a notional value of \$4,000,000 were outstanding to purchase U.S. dollars with maturities ranging up to 137 days. There were no such contracts at February 28, 2007. As of February 29, 2008, liabilities of \$124,306 have been recognized for the fair value of the foreign exchange contracts. The fair value of the foreign currency forward exchange contracts represents the estimated receipts or payments necessary to terminate the contracts.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The information in this Management's Discussion and Analysis of Financial Condition and Results of Operations contains both historical financial information and forward-looking statements. Neogen does not provide forecasts of future performance. While management is optimistic about the Company's long-term prospects, historical financial information may not be indicative of future financial performance.

Safe Harbor and Forward-Looking Statements

Forward-looking statements, within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, are made throughout this Quarterly Report on Form 10-Q. For this purpose, any statements contained herein that are not statements of historical fact may be deemed to be forward looking statements. Without limiting the foregoing, the words "believes," "anticipates," "plans," "expects," "seeks," "estimates," and similar expressions are intended to identify forward-looking statements. There are a number of important factors, including competition, recruitment and dependence on key employees, impact of weather on agriculture and food production, identification and integration of acquisitions, research and development risks, patent and trade secret protection, government regulation and other risks detailed from time to time in the Company's reports on file at the Securities and Exchange Commission, that could cause Neogen Corporation's results to differ materially from those indicated by such forward-looking statements, including those detailed in this Management's Discussion and Analysis of Financial Condition and Results of Operations.

In addition, any forward-looking statements represent management's views only as of the day this Quarterly Report on Form 10-Q was first filed with the Securities and Exchange Commission and should not be relied upon as representing management's views as of any subsequent date. While management may elect to update forward-looking statements at some point in the future, it specifically disclaims any obligation to do so, even if its views change.

Critical Accounting Policies and Estimates

The discussion and analysis of the Company's financial condition and results of operations are based on the consolidated financial statements that have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements requires that management make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an ongoing basis, management evaluates the estimates, including those related to receivable allowances, inventories and intangible assets. These estimates are based on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

The following critical accounting policies and estimates reflect management's more significant judgments and estimates used in the preparation of the consolidated financial statements.

Table of Contents

Revenue Recognition

Revenue from sales of products is recognized at the time title of goods passes to the buyer and the buyer assumes the risks and rewards of ownership, which is generally at the time of shipment. Where right of return exists, allowances are made at the time of sale to reflect expected returns based on historical experience.

Accounts Receivable Allowance

Management attempts to minimize credit risk by reviewing customers' credit history before extending credit and by monitoring credit exposure on a regular basis. An allowance for possible losses on accounts receivable is established based upon factors surrounding the credit risk of specific customers, historical trends and other information, such as changes in overall changes in customer credit and general credit conditions. Actual collections can differ from historical experience, and if economic or business conditions deteriorate significantly, adjustments to these reserves could be required.

Inventory

A reserve for obsolescence is established based on an analysis of the inventory taking into account the current condition of the asset as well as other known facts and future plans. The amount of reserve required to record inventory at lower of cost or market may be adjusted as conditions change. Product obsolescence may be caused by shelf life expiration, discontinuation of a product line, or replacement products in the market place or other competitive situations.

Valuation of Intangible Assets and Goodwill

Management assesses goodwill and other non-amortizable intangible assets for possible impairment on no less often than an annual basis. This test was performed in the fourth quarter of fiscal 2007 and it was determined that no impairment exists. In the event of changes in circumstances that indicate the carrying value of these assets may not be recoverable, management will make an assessment at any time. Factors that could cause an impairment review to take place would include:

Significant underperformance relative to expected historical or projected future operating results.

Significant changes in the use of acquired assets or strategy of the Company.

Significant negative industry or economic trends.

When management determines that the carrying value of intangible assets may not be recoverable based on the existence of one or more of the above indicators of impairment, the carrying value of the reporting unit's net assets is compared to the projected discounted cash flows of the reporting unit using a discount rate commensurate with the risk inherent in the Company's current business model. If the carrying amounts of these assets are not recoverable based upon a discounted cash flow analysis, such assets are reduced by the estimated shortfall of fair value to recorded value. Changes to the discount rate or projected cash flows used in the analysis can have a significant impact on the results of the impairment test.

Equity Compensation Plans

Financial Accounting Standards Board Statement No. 123(R), *Share-Based Payment*, (SFAS 123(R)) addresses the accounting for share-based employee compensation and was adopted by the Company on June 1, 2006 utilizing the modified retrospective transition method. Further information on the Company's equity compensation plans, including inputs used to determine fair value of options is disclosed in Note 6 to the consolidated financial statements. SFAS 123(R) requires that share options awarded to employees and shares of stock awarded to employees under certain stock purchase plans are recognized as compensation expense based on their fair value at grant date. The fair market value of options granted under the Company's stock option plans was estimated on the date of grant using the Black-Scholes option-pricing model using assumptions for inputs such as interest rates, expected dividends, volatility measures and specific employee exercise behavior patterns based on statistical data. Some of the inputs used are not market-observable and have to be estimated or derived from available data. Use of different estimates would produce different option values, which in turn would result in higher or lower compensation expense recognized.

Table of Contents

To value options, several recognized valuation models exist. None of these models can be singled out as being the best or most correct one. The model applied is able to handle some of the specific features included in the options granted, which is the reason for its use. If a different model were used, the option values would differ despite using the same inputs. Accordingly, using different assumptions coupled with using a different valuation model could have a significant impact on the fair value of employee stock options. Fair value could be either higher or lower than the ones produced by the model applied and the inputs used.

New Accounting Pronouncements

RESULTS OF OPERATIONS

Executive Overview

Neogen Corporation revenues increased by 20% in the third quarter to \$25.2 million and by 19% to \$75.3 million for the nine-month period ended February 29, 2008. Food Safety sales increased by 20% and 21% in the quarter and in the nine month period ended February 29, 2008, respectively, with strong contributions from each of the three product groups, when compared with the prior year. Animal Safety sales increased by 20% and 16% in the quarter and in the nine-month period ended February 29, 2008, with strong contributions in the sales of Life Science and Equine Vaccine Products and Veterinary Instruments and Other products. Exclusive of the revenues from the Kane Enterprises and Rivard acquisitions, overall revenues increased 11% and 13% in the third quarter and year-to-date periods, respectively. Gross margins decreased from 52.0% in the February 2007 quarter to 50.3% in the February 2008 quarter but remained consistent on a year-to-date basis at 52.0%. Product mix and the effect of the Kane Enterprises Acquisition were the biggest factors in the reduction in gross margins. Operating margins increased in the quarter and the nine-month periods from 14.4% to 15.8% and from 16.2% to 17.7% respectively. These gains were the result of continuing cost control efforts and the revenues from the Kane Enterprises acquisition, net of change in gross margins.

Table of Contents**Three and Nine Months Ended February 29, 2008 Compared to Three and Nine Months Ended February 28, 2007**

	Three Months Ended February 29/28			
	2008	2007	Increase (Decrease)	%
	(Dollars in thousands)			
<u>Food Safety</u>				
Natural Toxins, Allergens & Drug Residues	\$ 7,073	\$ 6,069	\$ 1,004	17
Bacteria & General Sanitation	3,771	3,446	325	9
Dehydrated Culture Media & Other	2,991	2,050	941	46
	13,835	11,565	2,270	20
<u>Animal Safety</u>				
Life Sciences & Equine Vaccines	2,080	1,759	321	18
Rodenticides & Disinfectants	1,823	2,247	(424)	(19)
Veterinary Instruments & Other	7,442	5,483	1,959	36
	11,345	9,489	1,856	20
Total Sales	\$ 25,180	\$ 21,054	\$ 4,126	20
	Nine Months Ended February 29/28			
	2008	2007	Increase (Decrease)	%
	(Dollars in thousands)			
<u>Food Safety</u>				
Natural Toxins, Allergens & Drug Residues	\$ 21,647	\$ 18,997	\$ 2,650	14
Bacteria & General Sanitation	12,031	9,626	2,405	25
Dehydrated Culture Media & Other	8,390	6,126	2,264	37
	42,068	34,749	7,319	21
<u>Animal Safety</u>				
Life Sciences & Equine Vaccines	5,746	5,415	331	6
Rodenticides & Disinfectants	8,057	8,727	(670)	(8)
Veterinary Instruments & Other	19,428	14,572	4,856	33
	33,231	28,714	4,517	16
Total Sales	\$ 75,299	\$ 63,463	\$ 11,836	19

In the Food Safety Segment, Natural Toxin, Allergen and Drug Residue product sales increased 17% in the third quarter and increased 14% on a year-to-date basis. Bacteria and General Sanitation product sales increased 9% in the quarter and 25% in the nine-month period. Dehydrated Culture Media and Other product sales increased 46% and 37% in the three and nine month periods respectively. Sales increases were broad based with effective selling programs in place for the markets Neogen serves. In addition, Neogen's wide product offerings continue to be well accepted in the marketplace and the Company is benefitting from accelerating worldwide concerns about safety of food. Neogen Europe led Food Safety growth with sales up 35% for the quarter and 37% for the year-to-date. Sales of mycotoxin test kits, and sales of dehydrated culture media have been leading Neogen Europe's strong revenue growth.

In the Animal Safety Segment, Life Sciences and Vaccine product sales increased 18% in the third quarter and 6% for the year-to-date periods. Rodenticide and Disinfectant sales decreased by 19% in the quarter and by 8% on a year-to-date basis. Veterinary Instrument and Other product sales increased by 36% in the quarter and by 33% in the first nine months of the fiscal year. Life sciences and equine vaccines increased for the three and nine-month periods from new direct international customers and instrument placements for forensic customers. Rodenticides and disinfectants were down for the three and nine month periods following cyclical down turns in the rodenticide market. Veterinary instruments and other were up following the acquisition on Kane Enterprises, market share gains for instruments and syringes and gains with retail

Edgar Filing: NEOGEN CORP - Form 10-Q

customers, and wound care products. Exclusive of the sales acquired in the Kane and Rivard acquisitions, sales of Animal Safety, products increased .5% over the prior year in the third quarter and 2.5% in the nine-month period.

Table of Contents

Gross margins decreased from 52.0% in the prior year to 50.3% in the third quarter of FY-08 but remained unchanged for the year-to-date at 52.0%. These changes in the third quarter resulted from product mix, the effect of the Kane acquisition and to some effect, increases in raw material costs not yet offset by selling price increases. Operating margins increased in the quarter and the nine-month period from 14.4% to 15.8% and from 16.2% to 17.7% respectively. The gains resulted from continued cost control efforts, economies of scale with added revenues (organic and from the Kane acquisition), all net of the effect of changes in gross margins. The company has had some increases in raw material costs. Some of these costs have been recovered through increases in sales prices and additional price increases are planned in the fourth quarter. The Company is committed to adjusting prices to protect margins. Sales and Marketing as a percentage of revenues decreased in the third quarter from 21.9% to 19.6% and decreased on a year to date basis from 21.3% to 20.0%. The decrease in selling cost as a percent of revenue reflects the increased sales without a commensurate increase in selling and distribution costs. General and Administrative expense as a percentage of revenues was essentially unchanged in the three and nine month periods when compared to the prior year. Changes in dollar amounts are related to staffing levels, increased option expense, and changes in the nine-month period changes in legal fees. Research and Development expense, while growing in absolute dollars by \$81,000 for the quarter declined as a percentage of revenues from 4.5% to 4.0% and from 4.2% in FY-07 to 3.7% in FY-08 on a year to date basis.

Financial Condition and Liquidity

Proceeds of \$2,997,000 were realized with the exercise of 375,000 stock options and the issuance of 12,000 shares under the Employee Stock Purchase Plan during the nine months ended February 29, 2008. Despite increases in accounts receivable, and inventories, \$6,306,000 cash was generated from operations. Inflation and changing prices do not generally have a material effect on operations. Cash used in the Kane and Rivard acquisitions amounted to approximately \$10,000,000.

Management believes that the Company's existing cash balances at February 29, 2008, along with available borrowings under its credit facility and cash expected to be generated from future operations, will be sufficient to fund activities for the foreseeable future. However, existing cash and borrowing capacity may not be sufficient to meet the Company's cash requirements to commercialize products currently under development or its plans to acquire other organizations, technologies or products that fit within its mission statement. Accordingly, the Company may be required to issue equity securities or enter into other financing arrangements for a portion of its future financing needs.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company has moderate interest rate and foreign exchange rate risk exposure and no long-term fixed rate investments or borrowings. The Company's primary interest rate risk is due to potential fluctuations of interest rates for variable rate borrowings.

Foreign exchange risk exposure arises because Neogen markets and sells its products throughout the world. It therefore could be affected by weak economic conditions in foreign markets that could reduce demand for its products. Additionally, sales in certain foreign countries as well as certain expenses related to those sales are transacted in currencies other than the U.S. dollar. The Company's operating results are primarily exposed to changes in exchange rates between the U.S. dollar, the British Pound and the Euro. When the U.S. dollar weakens against foreign currencies, the dollar value of sales denominated in foreign currencies increases. When the U.S. dollar strengthens, the opposite situation occurs. Additionally, previously recognized sales in the course of collection can be affected positively or negatively by changes in exchange rates. The Company uses derivative financial instruments to manage the economic impact of fluctuations in certain currency exchange rates. The Company enters into forward currency exchange contracts to manage these economic risks. These contracts are adjusted to fair value through earnings.

Neogen has assets, liabilities and operations outside of the United States that are located primarily in Ayr, Scotland where the function currency is the British Pound. The Company's investment in its foreign subsidiary is considered long-term.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

An evaluation of the effectiveness of the design and operation of the Company's disclosure controls and procedures as of February 29, 2008 was carried out under the supervision and with the participation of the Company's management, including the Chairman & Chief Executive Officer and the Vice President & Chief Financial Officer (the Certifying Officers). Based on that evaluation, the Certifying Officers concluded that the Company's disclosure controls and procedures are effective to bring to the attention of the Company's management the relevant information necessary to permit an assessment of the need to disclose material developments and risks pertaining to the Company's business in its periodic filings with the Securities and Exchange Commission. There was no change to the Company's internal control over financial reporting during the nine months ended February 29, 2008 that materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.
