ITEM 7.01. Regulation FD Disclosure

On May 7, 2008, FTI Consulting, Inc. (FTI) held a conference call relating to our financial results for the three months ended March 31, 2008, operating results by business segment, updated outlook for 2008 and other information. The full text of the transcript of the conference call is furnished as Exhibit 99.1 hereto and incorporated by reference herein.

The transcript contains some discussion regarding FTI s earnings before interest, taxes, depreciation and amortization and litigation settlement losses (EBITDA) and EBITDA by business segment. Although EBITDA and Segment EBITDA are not measures of financial condition or performance determined in accordance with GAAP, FTI believes that they can be useful operating performance measures for evaluating FTI s results of operations as compared from period to period and as compared to its competitors. EBITDA is a common alternative measure of operating performance used by investors, financial analysts and rating agencies to value and compare the financial performance of companies in FTI s industry. FTI uses EBITDA to evaluate and compare the operating performance of its segments and it is one of the primary measures used to determine employee bonuses. FTI also uses EBITDA to value businesses it acquires or anticipates acquiring. EBITDA is not defined in the same manner by all companies and may not be comparable to other similarly titled measures of other companies unless the definition is the same. In addition, EBITDA is one of the financial measures included in the maintenance covenants contained in FTI s bank credit facility and, thus, as a supplemental financial measure is also indicative of FTI s capacity to service debt and thereby provides additional useful information to investors regarding FTI s financial condition and results of operations. EBITDA for purposes of those covenants is not calculated in the same manner as it is calculated by FTI. A reconciliation of EBITDA to operating income and net income and Segment EBITDA to operating income was included in the financial tables to FTI s press release disseminated on May 7, 2008 and furnished as Exhibit 99.1 to FTI s Current Report on Form 8-K dated May 7, 2008, which was filed with the Securities and Exchange Commission on May 8, 2008.

The information included herein, including Exhibit 99.1 furnished herewith, shall not be deemed to be filed for purposes of Section 18 of the Securities Act of 1934, as amended (the Exchange Act), or otherwise subject to the liabilities of that section, nor shall it be incorporated by reference into any filing pursuant to the Securities Act of 1933, as amended, or the Exchange Act, regardless of any incorporation by reference language in any such filing, except as expressly set forth by specific reference in such filing.
