This Proxy Statement describes issues on which we would like you to vote at our annual meeting of stockholders. It also gives you information on these issues so that you can make an informed decision. The Board of Directors of Mirant Corporation is soliciting your proxy for the 2009 Annual Meeting of Stockholders and any adjournments thereof. The meeting will be held at 8:00 a.m., Eastern Daylight Time, on Thursday, May 7, 2009, at Mirant's corporate headquarters, 1155 Perimeter Center West, Atlanta, GA 30338-5416. This Proxy Statement and proxy form initially are being provided to stockholders on or about March 27, 2009.

What is being voted upon at the meeting?

The election of nine directors for a one-year term, the ratification of the appointment of KPMG LLP as the Company's independent registered public accountant for 2009 and a stockholder proposal are being voted on at the meeting. We are not aware of any other matters to be presented to the meeting; however, the holders of the proxies will vote in their discretion on any other matters properly presented.

How does the Board of Directors recommend I vote?

Our Board of Directors unanimously recommends that you vote:

How do I give voting instructions?

You may give your voting instructions by the Internet, by telephone, by mail or in person at the meeting. Instructions on how to vote are on the proxy form and on the Notice of Internet Availability of Proxy Materials previously sent to stockholders. The proxy committee named on the enclosed proxy form will vote all properly executed proxies that are delivered pursuant to this solicitation and not subsequently revoked in accordance with your voting instructions. If you hold shares through a bank or broker, please refer to your proxy card or the information forwarded by your bank or broker to see which options are available to you.

Table of Contents

What happens if I sign and return my proxy card but do not provide voting instructions?

If you return a signed card but do not provide voting instructions, your shares will be voted FOR all nine director nominees, FOR the ratification of the appointment of our independent registered public accountant for 2009, and AGAINST the stockholder proposal.

Will my shares be voted if I do not vote by using the Internet, by telephone or by signing and returning my proxy card?

If you hold your shares directly and not in street name through a bank or broker, and do not vote your shares using the Internet, by telephone or by signing and returning a proxy card, then your shares will not be voted and will not count in deciding the matters presented for stockholder consideration at the Annual Meeting.

If your shares are held in street name through a bank or broker, your bank or broker may vote your shares under certain circumstances if you do not provide voting instructions before the Annual Meeting, in accordance with New York Stock Exchange rules that govern the banks and brokers. These circumstances include routine matters, such as the election of directors and the ratification of the appointment of our independent registered public accountant described in this Proxy Statement. Thus, with respect to these matters, if you do not vote your shares, your bank or broker may vote your shares on your behalf. On non-routine matters, such as the stockholder proposal described in this Proxy Statement, a bank or broker may not cast a vote, absent specific voting instructions from you. This is referred to as a broker non-vote in this Proxy Statement.

What constitutes a quorum for the meeting?

A quorum consists of a majority of the outstanding shares, present or represented by proxy. A quorum is necessary to conduct business at the Annual Meeting. For the purpose of determining whether or not a quorum exists, abstentions and broker non-votes are counted as shares present or represented by proxy.

What are the voting requirements for electing members of our Board of Directors?

The affirmative vote of a plurality of the votes cast is required for the election of directors, which means that the director nominee with the most votes for a particular slot is elected for that slot. You may vote for or withhold authority with respect to the election of directors. Only votes for or withhold authority are counted in determining whether a plurality has been cast in favor of a director.

What are the voting requirements for ratification of the appointment of KPMG LLP as our independent registered public accountant for 2009?

The affirmative vote of a majority of the shares present and entitled to vote is required for the ratification of the appointment of KPMG LLP as our independent registered public accountant for 2009. You may vote for, against or abstain with respect to the ratification of the appointment of our independent registered public accountant. Abstentions will have the effect of votes cast against the ratification of the appointment of our independent registered public accountant.

What are the voting requirements for approval of the stockholder proposal?

The affirmative vote of a majority of the shares present and entitled to vote is required to approve the stockholder proposal. You may vote for, against or abstain with respect to the stockholder proposal. Abstentions will have the effect of votes cast against the approval of the stockholder proposal. Broker non-votes will have no effect on the outcome of the vote.

Table of Contents

What does it mean if I get more than one proxy form?

You will receive a proxy form for each account that you have. Please vote proxies for all accounts to ensure that all your shares are voted. You may consolidate multiple accounts through our transfer agent, Mellon Investor Services, online at www.melloninvestor.com or by calling (866) 463-1222.

Mirant pays the cost of soliciting proxies. The officers or other employees of Mirant or its subsidiaries may solicit proxies in person or by telephone, electronic transmission or facsimile transmission. Such officers or other employees will not receive any additional compensation for these activities.

Will a list of stockholders entitled to vote at the meeting be available?

Corporate Governance

Board Structure

Our current Board of Directors consists of nine directors who have diverse backgrounds and experience and is chaired by Edward R. Muller, our President and Chief Executive Officer. Mr. Muller was elected as Chairman of the Board, President and Chief Executive Officer on September 30, 2005. The other individuals listed above were originally appointed as directors on January 3, 2006, in conjunction with our emergence from bankruptcy. All members of the current Board were re-elected at our 2008 Annual Meeting of Stockholders on May 7, 2008. Each director serves a one-year term and is subject to annual election.

A. D. (Pete) Correll serves as lead independent director. In this role he coordinates the activities of the other non-management directors, serves as chairman of the Nominating and Governance Committee, presides over meetings of the non-management directors and serves as the liaison between the non-management directors and the Chairman of the Board.

The Board of Directors met 13 times in 2008 and the non-management Directors met in executive session four times in 2008. No director attended fewer than 75% of the total of the Board meetings and the meetings of the committees upon which he served. All directors were present at our 2008 Annual Meeting of Stockholders held at our corporate headquarters on May 7, 2008.

Corporate Governance Guidelines and Committee Charters

In 2006, the Board of Directors approved new Corporate Governance Guidelines and new charters for the Audit, Compensation, and Nominating and Governance Committees that comply with applicable laws and regulations and the listing standards of the New York Stock Exchange. The Corporate Governance Guidelines describe the qualifications and role of the Board and outline the responsibilities of the directors. They provide that the Board will conduct an annual evaluation to assess and enhance its effectiveness, and the Guidelines direct non-management directors to meet in executive session at least quarterly, with the Company's lead independent director presiding at these sessions. Under the Guidelines, directors are expected to attend the Company's Annual Meeting of Stockholders. The Corporate Governance Guidelines and all three committee charters are posted on our website at <http://www.mirant.com>. Stockholders may obtain a copy of the Guidelines and committee charters by written request to the Corporate Secretary at Mirant Corporation, 1155 Perimeter Center West, Atlanta, GA 30338-5416.

Director Independence

The Board has determined that each of the following non-management directors is independent under applicable New York Stock Exchange listing standards and our Corporate Governance Guidelines: Thomas W. Cason, A.D. (Pete) Correll, Terry G. Dallas, Thomas H. Johnson, John T. Miller, Robert C. Murray, John M. Quain, and William L. Thacker. Each director designated as independent has no material relationship with the Company that would impair his independence. This determination was based upon the recommendation of the Nominating and Governance Committee and all relevant facts and circumstances appropriate for consideration in the judgment of the Board. As described in the Corporate Governance Guidelines, the Board applies the following standards in assessing independence:

- (1) No director can qualify as independent if he or she has a material relationship with the Company, either directly or as a partner, stockholder or officer of an organization that has a relationship with the Company.
- (2) A director is not independent if:
 - (i) The director is, or has been within the last three years, an employee of the Company, or an immediate family member of the director is, or has been within the last three years, an executive officer of the Company.

Table of Contents

- (ii) The director, or an immediate family member of the director, has received during any 12-month period during the last three years more than \$100,000 in direct compensation from the Company, other than director and committee fees and pension or other forms of deferred compensation for prior service (provided such compensation is not contingent in any way on continued service). Compensation received by an immediate family member for service as an employee (other than an executive officer) is not considered for purposes of this standard.

- (iii) (A) The director or an immediate family member is a current partner of a firm that is the company's internal or external auditor; (B) the director is a current employee of such a firm; (C) the director has an immediate family member who is a current employee of such a firm and who participates in the firm's audit, assurance or tax compliance (but not tax planning) practice; or (D) the director or an immediate family member was within the last three years (but is no longer) a partner or employee of such a firm and personally worked on the listed company's audit within that time.

- (iv) The director, or an immediate family member of the director, is, or within the last three years has been, employed as an executive officer of another company where any of the Company's present executive officers serves or served at the same time on that company's compensation committee.

- (v) The director is a current employee, or has an immediate family member who is a current executive officer, of another company that has made payments to, or received payments from, the Company for property or services in an amount which, in any of the last three fiscal years, exceeds the greater of \$1 million or 2% of the other company's consolidated gross annual revenues.

- (vi) The director is, or in the past three years has been, an executive officer of a charitable organization to which the Company made contributions in an amount which in any single fiscal year exceeds the greater of \$1 million or 2% of such charitable organization's consolidated gross annual revenues.

Related Person Transactions

Review and Approval of Related Person Transactions

Our Nominating and Governance Committee is responsible for reviewing and approving any related person transactions by the Company. Mirant's legal department has adopted written policies and procedures to track and assess relationships and transactions to which the Company and our directors and executive officers or their immediate family members are parties to determine if they have a direct or indirect material interest in the transaction. At the first scheduled Nominating and Governance Committee meeting each calendar year, management identifies for the Committee any related person transactions to be entered into for that calendar year, including the proposed aggregate value of such transactions. All related person transactions must be approved by the Nominating and Governance Committee and must be on terms comparable to those that could be obtained in arms-length dealings with an unrelated third party.

Related Person Transactions

There were no reportable transactions between the Company and related persons in 2008.

The Compensation Committee met six times in 2008 and met five times in executive session at those meetings. The Chief Executive Officer, the Corporate Secretary, the Senior Vice President, Administration and the Director of Compensation and Benefits attend Compensation Committee meetings as representatives of the Company.

The Compensation Committee is responsible for establishing and administering the compensation and benefits programs for our named executive officers. The key responsibilities of the Compensation Committee are:

Each member was appointed by the Board of Directors on January 3, 2006 and reappointed annually each year thereafter. The Board of Directors determined that each of the members of the Nominating and Governance Committee meets the independence requirements of the New York Stock Exchange and our Corporate Governance Guidelines. Stockholders making a director nominee recommendation must submit a written notice to the Corporate Secretary, Mirant Corporation, 1155 Perimeter Center West, Atlanta, GA 30338-5416. Recommendations submitted for consideration by the Nominating and Governance Committee in preparation for the 2010 Annual Meeting of Stockholders must be received by November 27, 2010, and must contain the following information: (a) the name and address of the recommending stockholder; (b) the name and address of the person to be nominated; (c) a representation that the stockholder is a holder of Mirant's common stock entitled to vote at the meeting; (d) a statement in support of the

stockholder's recommendation, including a description of the candidate's qualifications; (e) information regarding the candidate that would be required to be included in a Proxy Statement filed in accordance with the rules of the Securities and Exchange Commission (the "SEC"); and (f) the candidate's written, signed consent to serve if elected. The Nominating and Governance Committee will evaluate candidates recommended by stockholders based on the same criteria it uses to evaluate candidates from other sources.

The Nominating and Governance Committee's process includes identification of director candidates and evaluation of the candidates based on the Corporate Governance Guidelines and the following minimum qualifications:

the highest ethics, integrity and values;

an outstanding personal and professional reputation;

professional experience that adds to the mix of the Board as a whole;

the ability to exercise independent business judgment;

freedom from conflicts of interest;

demonstrated leadership skills; and

the willingness and ability to devote the time necessary to perform the duties and responsibilities of a director.

The Committee's selection process also provides for engagement of third party search firms, interviews with various members of the Committee, the Board and management, and an evaluation of each individual in the context of the Board as a whole, applying the criteria that it deems appropriate. The final selection of nominees is made by the Board of Directors.

Alternatively, stockholders intending to appear at our Annual Meeting of Stockholders in order to nominate a candidate for election at the meeting (in cases where the Board of Directors does not intend to nominate the candidate or where the Nominating and Governance Committee was not required to consider his or her candidacy) must comply with the requirements set forth in *Article II, Section 11A* of the Company's Bylaws, which may be found on our website at <http://www.mirant.com>.

Global Warming

WHEREAS:

In 2007, the Intergovernmental Panel on Climate Change found that that warming of the climate system is unequivocal and that man-made greenhouse gas emissions are now believed, with greater than 90 percent certainty, to be the cause.

In October 2007, a group representing the world's 150 scientific and engineering academies including the U.S. National Academy of Sciences issued a report urging governments to lower greenhouse gas emissions by establishing a firm and rising price for such emissions and by doubling energy research budgets to accelerate deployment of cleaner and more efficient technologies.

In October 2006, a report authored by former chief economist of The World Bank, Sir Nicolas Stern, estimated that climate change will cost between 5% and 20% of global domestic product if emissions are not reduced, and that greenhouse gases can be reduced at a cost of approximately 1% of global economic growth. The report also warned that the investment that takes place in the next 10-20 years will have a profound effect on the climate in the second half of this century and in the next.

In 2004, combustion of coal was responsible for approximately 35% of all greenhouse gas emissions generated by fossil fuels in the U.S.

Seventeen U.S. states have established statewide emissions reduction goals and a majority of U.S. states have entered into regional initiatives to reduce emissions. Two such initiatives are the Western Climate Initiative, a six-state collaboration with an emissions reduction goal of 15% below 2005 levels by 2020; and the Regional Greenhouse Gas Initiative, involving nine northeastern states that aim to reduce carbon dioxide emissions from power plants by 10% between 2009 and 2019. As of September 2007, the U.S. Senate is considering at least seven proposals calling for a national cap-and-trade system to regulate and reduce greenhouse gas emissions.

In May 2007, Standard and Poors indicated that energy efficiency is likely to emerge as a major part of the solution to climate change, and warned that the global power system can't do without coal, but it also continue to burn coal in its current form.

In a July 2007 report, Citigroup warned that, "Prophesies of a new wave of Coal-fired generation have vaporized, while clean Coal technologies such as IGCC with carbon capture and Coal-to-Liquids remain a decade away, or more, and that, company productivity/margins are likely to be structurally impaired by new regulatory mandates to reduce greenhouse gas emissions."

RESOLVED: Shareholders request a report [reviewed by a board committee of independent directors] on how the company is responding to rising regulatory, competitive, and public pressure to significantly reduce carbon dioxide and other emissions from the company's products and operations. The report should be provided by September 1, 2009 at a reasonable cost and omit proprietary information.

BOARD OF DIRECTORS STATEMENT IN OPPOSITION OF THE PROPOSAL

The Board of Directors recommends a vote AGAINST this proposal under Item No. 3.

Mirant's principal responsibility is to provide reliable and competitive electricity. In doing so, Mirant recognizes the importance of minimizing the environmental impact of our operations. For example, we:

have underway a \$1.674 billion initiative to install, by 2010, emissions controls at our Maryland facilities that will be capable of reducing emissions of sulfur dioxide, nitrogen oxides and mercury by approximately 98%, 90% and 80%, respectively, for three of our largest coal-fired units;

participate in the Regional Greenhouse Gas Initiative, a multi-state effort in the Northeast, which calls for the stabilization of carbon dioxide emissions at current levels from 2009 to 2015, followed by a 2.5% reduction each year from 2015 to 2018;

participate in the Climate Registry for our California plants;

have adopted corporate Principles for Addressing Greenhouse Gases and supported a global approach to reducing emissions of all sources of carbon, not just emissions from the electric sector;

have supported cap and trade legislation in Congress; and

recently joined the Chicago Climate Exchange, a voluntary greenhouse gas registry, reduction and trading system, and have committed to meet annual emissions reduction targets and, by 2010, to reduce our greenhouse gas emissions by 6% below the average of our 1998 to 2001 levels.

Although there is no existing cost-effective technology to reduce emissions of carbon dioxide from power plants fueled by coal, oil or gas, we are exploring ways to mitigate emissions by, among other things, improving the efficiency of our plants, recycling waste products like gypsum and ash and seeking offsets. We think that we have taken a reasonable and practical approach to manage carbon dioxide and other emissions and have estimated and disclosed our existing and future emissions and described our emissions reduction efforts in our Securities and Exchange Commission filings, including our recently filed Annual Report on Form 10-K. We think the proposed report would be largely duplicative of our current disclosure and we do not think that the time and resources required to produce this report would create additional value for our stockholders.

The Board of Directors, therefore, recommends a vote AGAINST this proposal.

Executive Compensation

Compensation Discussion and Analysis

The following discussion and analysis describes the philosophy and objectives of our executive compensation program, explains the compensation decision-making process, and details the individual components of total compensation for our named executive officers in 2008. Our 2008 named executive officers are as follows: Edward R. Muller President and Chief Executive Officer; James V. Iaco, Jr. Executive Vice President and Chief Financial Officer; Robert M. Edgell Executive Vice President and Chief Operating Officer; S. Linn Williams Executive Vice President, General Counsel and Chief Compliance Officer; and Thomas E. Legro Senior Vice President and Controller.

Executive Summary

Set forth below is an overview of the more detailed disclosure included in our Compensation Discussion and Analysis.

There were no material changes to our compensation objectives, components and practices from 2007 to 2008.

The main objectives of our compensation program are paying for performance, aligning our named executive officers' interests with those of our stockholders, and attracting and retaining qualified executives.

Our Compensation Committee makes all final compensation decisions regarding our named executive officers.

We target the median level of the market for all elements of compensation with the possibility of above market short-term incentive and long-term incentive payments for superior performance. In some instances, we also may set base salaries above the market median to attract and retain valuable employees.

The Compensation Committee engages a compensation consultant to provide expertise on program design and implementation. Our Chief Executive Officer also provides input on compensation programs and policies and makes recommendations to the Compensation Committee with regard to compensation for our named executive officers other than himself.

We provide the following elements of compensation for our named executive officers: base salary, short-term cash incentives, long-term equity-based incentives, post-termination benefits and certain other benefits, including perquisite allowances.

We have employment agreements with each of our named executive officers that govern key compensation terms, including minimum base salaries, target short-term incentive levels and eligibility to receive annual equity awards. These employment agreements were entered into to attract these executives to our Company prior to, and shortly following, our emergence from bankruptcy in January 2006.

For 2008, the Compensation Committee assessed the compensation of our named executive officers by benchmarking them against executive compensation market studies and peer companies.

Edgar Filing: MIRANT CORP - Form DEF 14A

We encourage pay for performance with a short-term incentive program that provides for cash payments on an annual basis to our named executive officers and other employees based on their individual target bonus percentages, the achievement of financial, operational and strategic goals by the Company, and individual performance. The 2008 Company performance goals consisted of Adjusted EBITDA (earnings before interest, taxes, depreciation and amortization, as adjusted for certain non-recurring items), which is 2/3 of the calculation, and eight operational and strategic goals, which is the remaining 1/3 of the calculation. The corporate payout factor for our short-term incentive program in 2008 was 107% of target.

Table of Contents

We encourage alignment of our named executive officers' interests with those of our stockholders through the award of equity-based long-term incentive grants. In 2008 the value of each award was granted as one-third stock options and two-thirds restricted stock units that, once vested, must be held until termination.

Each of our named executive officers is entitled to severance and change in control payments upon termination pursuant to the terms of their individual employment agreements. The payments generally are based on a multiple of the executive officer's base salary and annual short-term incentive. For termination without cause, the amounts range from a multiple of one time to two times base salary and short-term incentive. For termination resulting from a change in control, each of our named executive officers would receive a multiple of three times his base salary and annual short-term incentive.

All equity grants are made pursuant to our equity grant policy, which requires that they be made during an open trading window following a quarterly release of financial results.

Compensation Program Philosophy and Objectives

The Compensation Committee determines the philosophy and objectives for our compensation program, which applies to our executive officers. In determining total compensation, the Compensation Committee focuses on creating a pay for performance culture and strives to ensure that our compensation programs achieve the following objectives through a combination of fixed and variable cash- and equity-based elements:

Performance Motivating performance by creating a direct link between a significant portion of the compensation that can be earned by each named executive officer and Company performance, as measured against our financial, operational and strategic goals, as well as the performance of our common stock;

Alignment Aligning our named executive officers' interests with those of our stockholders by fostering stock ownership by our named executive officers; and

Retention Providing a competitive total compensation package, thereby enabling us to attract and retain qualified executives. Both our short-term cash incentive program and equity-based grants under our long-term incentive program provide performance-based incentives for our named executive officers. Our short-term cash incentive payments are made at the discretion of the Compensation Committee based on the achievement of quantitative and qualitative goals by the Company and may be adjusted up or down by the Compensation Committee for individual performance. Long-term equity-based incentive grants are made under our 2005 Omnibus Incentive Compensation Plan. The purpose of the 2005 Omnibus Incentive Compensation Plan is to provide a means whereby employees and directors develop a sense of proprietorship and personal involvement in our development and financial success and to encourage them to devote their best efforts to our business, thereby advancing our interests and those of our stockholders. The Compensation Committee also has adopted stock ownership guidelines for our named executive officers and certain other employees to further align their interests with those of stockholders.

Our compensation program recognizes the need to retain our key executive officers by offering a total compensation package that is competitive with the market. The Compensation Committee benchmarks components of executive compensation against several of our peer companies and by reviewing a variety of general survey data on executive compensation, as described below under *Compensation Assessment Using General Survey Data and Peer Group Data*. In structuring our base salary and short-term and long-term incentive programs, we generally target the median level of the market with the possibility of above market short-term incentive payments and long-term incentive payouts for superior performance. In years where the Company meets or exceeds its goals and objectives, high performers may receive total cash compensation, consisting of base salary and short-term incentive, ranging from the 60th to 75th percentile of market. We may also pay above the market median for any element of compensation in order to attract and retain executive talent.

Compensation Consultant

From 2001 to early 2008, the Compensation Committee engaged Hewitt Associates (*Hewitt*) to advise the Committee and provide expertise on compensation strategy and program design. In early 2008 the Compensation Committee engaged Frederic W. Cook & Co. (*Cook*) to advise the Committee on compensation strategy and program design. Cook provides advice on the design of our compensation programs, supplies competitive data, reviews technical provisions of program designs and advises the Committee and management on the impact of regulatory and legislative changes on the Company's compensation programs. The consultant works from time to time with management, at the request of the Compensation Committee, in formulating materials and proposals for consideration by the Committee. In such instances the Senior Vice President, Administration, the Chair of the Compensation Committee and the consultant work together to determine the nature and scope of the consultant's assignments.

Hewitt's 2008 services included preparing tally sheets outlining total compensation of our named executive officers, analysis regarding targets for 2008 under the Company's short-term incentive plan, the allocation and economic value of 2008 long-term incentive grants, consultation on 2008 executive base salaries and review of the Company's 2008 Compensation Discussion and Analysis. Cook's 2008 services included analyzing the tally sheets previously prepared by Hewitt, reviewing and recommending changes to our director compensation program, reviewing our long-term incentive plan design for 2009 and reviewing Compensation Committee materials prior to Committee meetings. A representative of Hewitt Associates attended one Compensation Committee meeting and a representative of Cook attended three Compensation Committee meetings in 2008.

In addition to serving as consultant to the Compensation Committee until March 2008, Hewitt provided and continues to provide actuarial and consulting services for the Company's pension programs. For services performed in 2008, Hewitt billed the Company \$72,493 and \$237,715 for compensation consulting and pension consulting services, respectively. Hewitt billed the Company's pension plan \$390,697 for pension actuarial services, paid out of its trust funds. The Compensation Committee has determined that Hewitt's pension administration work and Hewitt's and Cook's work with management at the Committee's request did not impair the independence of Hewitt or Cook in their roles as compensation consultants during 2008. The Compensation Committee determined in its annual review of compensation consultants to engage Cook as the Compensation Committee's compensation consultant for the remainder of 2008 and going forward. Cook provides no other services to the Company beyond executive and board compensation assistance as requested or approved by the Compensation Committee.

Compensation Committee Process

In determining compensation for our named executive officers, the Compensation Committee evaluates general survey data, as well as company and individual performance. The Committee approves the compensation arrangements of all officers at the level of Senior Vice President and above. In conducting its 2008 annual review of our named executive officers' compensation, the Committee examined tally sheets prepared by our compensation consultant at the time, Hewitt. The tally sheets outlined the comprehensive compensation for each named executive officer in 2008, including the value of long-term incentive grants and the potential payouts under various termination scenarios, including a change of control. The Compensation Committee approves any proposed changes to our compensation policies and programs and reviews those policies and programs annually in light of our compensation philosophy and competitive practices. Each of the named executive officers has an employment agreement with the Company, described under *Elements of Compensation* below, that specifies minimum compensation levels that may not be reduced by the Compensation Committee without triggering certain severance provisions contained within the employment agreement, which has affected the compensation decisions with respect to these named executive officers.

Role of Chief Executive Officer and Management

Mr. Muller actively participates in Compensation Committee meetings, other than executive sessions of the Committee that include discussions regarding his compensation. Mr. Muller attended six Compensation

Table of Contents

Committee meetings in 2008. He provides specific recommendations to the Compensation Committee with regard to equity grants, annual short-term incentive awards and merit increases for the named executive officers other than himself. He also provides input on other aspects of our compensation program, including plan design, timing and structure of incentive grants and compensation policies. The Senior Vice President, Administration also attends all Compensation Committee meetings, prepares meeting materials and provides guidance to the Committee on compensation programs and policies.

Compensation Assessment Using General Survey Data and Peer Group Data

In 2006 and 2007 we benchmarked the base salary and short-term and long-term incentives for our named executive officers against a peer comparator group of 55 companies of similar revenue size, including certain industry peers, compiled by Hewitt. Because the results of the custom peer comparator group survey did not differ significantly from general survey data for our industry, for 2008 the Compensation Committee determined not to request an extensive peer group data study. Rather, the Compensation Committee assessed the compensation of our named executive officers by reviewing a variety of general survey data on executive compensation and analyzing executive compensation information in the proxies of six industry-specific peer companies selected by the Compensation Committee. The general surveys and peer group considered are as follows:

General Surveys on Executive Compensation:

Hewitt Associates Executive Compensation Database (2007)
Hay Group Executive Compensation Report (2007)

Mercer Benchmark Database (2007)
Towers Perrin General Industry Regression Database (2007)

Industry-Specific Peer Group:

AES Corporation
Calpine Corporation
Constellation Energy Group

Dynergy Inc.
NRG Energy, Inc.
Reliant Energy, Inc.

To ensure that 2008 market data from the surveys were appropriate for our size, we regressed the 2008 market data to \$2 billion in revenue, which is approximately half the market data revenue scope used in prior years. The regression of market data to \$2 billion in revenue was primarily because of our divestiture of assets, which resulted in reduced Company revenue. The companies included in the industry-specific peer group were selected primarily based on their status as merchant generators of electricity with which we compete.

We target the median market level in determining compensation. In the section *Elements of Compensation* below, we describe where components of named executive officer pay vary from the targeted median market level.

For 2009, in reviewing base salary levels, the Compensation Committee again assessed the compensation of our named executive officers by reviewing a variety of general survey data on executive compensation and analyzed executive compensation information in the proxies of the same six industry-specific peer companies. The Compensation Committee supplemented this data with Cook's salary band analysis, which provided short and long-term incentive compensation data based on salary levels.

Elements of Compensation

In 2008, as in 2007, our named executive officers' compensation consisted of base salary, short-term cash incentives, long-term equity incentives, benefits and perquisites.

Each of the named executive officers has an employment agreement with the Company that is described in the narrative following the table below entitled *Grants of Plan-Based Awards in 2008*. Each of these agreements was approved by the Compensation Committee. We utilized employment agreements to attract our named executive

Table of Contents

officers because they were being hired both prior to and shortly following our emergence from bankruptcy in January 2006. The Compensation Committee concluded that employment agreements were necessary to provide certainty to our named executive officers, particularly with respect to severance benefits and change-in-control protections.

Base Salary

The Committee establishes base salary levels and considers annual salary adjustments for our executive group by comparison to competitive market levels for their job functions, as well as individual performance and internal pay equity. We think that our base salaries are set at competitive rates to attract and retain executive talent. As described above under *Compensation Assessment Using General Survey Data and Peer Group Data*, in 2008, we assessed the competitiveness of the compensation of our named executive officers by reviewing both general survey data and peer group data, consistent with our objective to pay at the median of market for target performance. Because we replaced most of our existing senior management in conjunction with our emergence from bankruptcy in January 2006, we thought that it was necessary to pay base salaries ranging from the 50th to the 75th percentile of market in order to attract the caliber of talent needed to execute a demanding business plan. In late 2006, as the Company was in the process of selling a substantial portion of its assets, we amended the named executive officers employment agreements to specify a minimum base salary and target bonus level to ensure retention of these key executives.

In 2007, most of our named executive officers' base salaries were near the 50th percentile of the market for their equivalent positions. Mr. Williams' base salary was near the 75th percentile of market for his position. In 2008, Messrs. Edgell and Iaco's base salaries were between the 50th and 75th percentile of the market for their equivalent positions and Messrs. Muller, Williams and Legro's base salaries were near the 75th percentile of the market for their equivalent positions. The increase in relative market position of named executive salaries from 2007 to 2008 was primarily because the 2008 market data was regressed to \$2 billion in revenue. The regression in revenue was necessary because the Company's revenue declined significantly from the time the named executive officers joined Mirant because of the Company's asset sales during that period. The lower revenue scope resulted in lower comparative executive compensation market data in 2008.

On February 28, 2008, each of our named executive officers received an annual salary increase ranging from 2% to 6%, as provided below.

Named Executive Officer	2007 Salary	2008 Salary	Percentage Increase
Edward R. Muller	\$ 1,100,000	\$ 1,135,000	3%
James V. Iaco, Jr.	\$ 470,000	\$ 486,000	3%
Robert M. Edgell	\$ 545,000	\$ 556,000	2%
S. Linn Williams	\$ 470,000	\$ 486,000	3%
Thomas E. Legro	\$ 315,000	\$ 335,000	6%

Small upward adjustments were made in 2008 to our named executive officers' base salaries based on individual performance as well as a wish to motivate and retain such executives. Generally, the companywide compensation guidelines provide that base salary increases be limited to 3% where the employee's base salary is already at or above market. Mr. Legro's salary was adjusted upward by 6% in order to preserve internal pay equity with respect to other Company senior vice presidents. Mr. Muller provided recommendations on base salary increases for named executive officers other than himself.

Table of Contents

On February 25, 2009, after reviewing the compensation market data for each of our named executive officers and considering the current negative economic conditions, the Compensation Committee froze salaries at 2008 levels for all of our named executive officers.

Named Executive Officer	2008 Salary	2009 Salary	Percentage Increase
Edward R. Muller	\$ 1,135,000	\$ 1,135,000	0%
James V. Iaco, Jr.	\$ 486,000	\$ 486,000	0%
Robert M. Edgell	\$ 556,000	\$ 556,000	0%
S. Linn Williams	\$ 486,000	\$ 486,000	0%
Thomas E. Legro	\$ 335,000	\$ 335,000	0%

Short-Term Incentives

As discussed under *Compensation Philosophy and Objectives*, pay for performance is a key feature of our compensation program. We have established a broad-based short-term cash incentive program in which all of our named executive officers participate. This program is designed to award participants based upon our achievement of key operational and strategic goals that are established annually by the Compensation Committee. The Compensation Committee also has the discretion to adjust upward or downward the amounts payable under the program to our named executive officers based on their individual performance.

2008 Target Incentive Amounts

Under our short-term incentive plan, annual cash bonuses are awarded taking into account an individual's target bonus percentage (a percentage of such participant's base salary), our performance against established financial, operational and strategic goals (referred to as the corporate payout factor), and individual performance. The target bonus percentages for our named executive officers are set forth in their employment agreements. The target percentages and equivalent dollar amounts in 2008 are shown below. The target percentages did not change compared to 2007.

Named Executive Officer	Target Bonus Percentage	Equivalent Dollar Amount
Edward R. Muller	100%	\$ 1,135,000
James V. Iaco, Jr.	65%	\$ 315,900
Robert M. Edgell	65%	\$ 361,400
S. Linn Williams	65%	\$ 315,900
Thomas E. Legro	50%	\$ 167,500

2008 Performance Goals

The Compensation Committee approves the short-term incentive plan goals at the beginning of each calendar year after considering management's recommendations. In 2008, two-thirds of the corporate payout factor was dependent on achieving an Adjusted EBITDA target. We think that Adjusted EBITDA is an appropriate financial measure because it provides insight into the overall health of our earnings. The level of Adjusted EBITDA necessary to earn 50%, 100% and 200% of the target payout under the short-term incentive plan was set at the beginning of 2008, taking into consideration our projected Adjusted EBITDA under our 2008 operating plan. The Adjusted EBITDA target amounts were as follows: 50% of target = \$750 million (threshold); 100% of target = \$900 million; and 200% of target = \$1.025 billion (maximum). For the Adjusted EBITDA portion of the corporate payout, amounts between the threshold and target and between the target and maximum are based on interpolated performance between the specified levels.

The remaining one-third of the corporate payout factor was based on achieving the following eight operational and strategic goals and metrics:

1. top quartile safety performance based on recordable injury rates;

Table of Contents

2. top quartile safety performance based on lost time rates;
3. top quartile environmental performance based on number of incidents;
4. 87% commercial availability, a measure that reflects the percentage of gross margin (operating revenue, less cost of fuel, electricity and other products) that was captured through unit availability;
5. a level of contract availability at our California plants of (all three must be met to achieve target or maximum):

Pittsburg 92%

Contra Costa 92%

Potrero 86%

6. on-budget and on-schedule performance at year end of our program to add environmental controls at our Maryland plants;
7. progress toward developing our business in California; and
8. resolution of issues associated with the operation of our Potomac River plant.

If pre-established levels of exceptional performance are met with respect to the environmental, safety or commercial and contract availability targets, that goal may be counted twice toward the achievement of the operational and strategic portion of the corporate payout factor. The target amounts for the strategic and operational goals are as follows: 50% of target = achievement of four goals (threshold); 100% of target = achievement of five goals; and 200% of target = achievement of six goals (maximum).

The short-term incentive plan goals are set at levels deemed by the Compensation Committee, with input from management, to be achievable with strong performance by all employees. Generally, the Committee sets the minimum, target and maximum levels such that the relative difficulty of achieving the target level is consistent from year to year.

2008 Actual Performance and Incentive Award Payouts

Following completion of the annual financial audit process, the Compensation Committee assesses our achievement of the operational and strategic goals and metrics under the short-term incentive plan and makes award decisions. Our 2008 Adjusted EBITDA used for purposes of the short-term incentive payment calculation was \$782 million. Adjusted EBITDA (earnings before interest, taxes, depreciation and amortization, as adjusted for certain non-recurring items) is the same measure reported in our 2008 annual earnings press release. In 2008, we achieved goals one, three, four, seven and eight identified above. We achieved exceptional performance with respect to our environmental goal, with the result that it was counted twice pursuant to the pre-established 2008 program described above, for a total of six strategic and operational goals being achieved. This overall performance resulted in a corporate payout factor of 107% of target.

The short-term incentive payments may be adjusted by the Compensation Committee, in its discretion, for individual performance. In assessing Mr. Muller's individual performance for purposes of his short-term incentive payout, the Compensation Committee met with him in an executive session in January 2008 to discuss his individual performance. In February 2009 they again met with him in executive session to review his performance. Mr. Muller meets with the other named executive officers to assess their performance and makes a recommendation to the Compensation Committee with respect to their individual short-term incentive payouts. For 2008, the Compensation Committee did not make an adjustment to Mr. Muller's short-term incentive payment based on his individual performance and his short-term incentive payment remained the

Edgar Filing: MIRANT CORP - Form DEF 14A

same as it was in 2007. There was no significant adjustment for individual performance to the other named executive officers' short-term incentive payouts in 2008. See the *2008 Summary Compensation Table* for the actual amounts earned by our named executive officers under the short-term incentive plan.

Table of Contents

2009 Incentive Award Program

Our 2009 short-term incentive goals are based on the same structure utilized in 2008, with an Adjusted EBITDA goal representing two-thirds of the corporate payout factor and operational and strategic goals comprising the other one-third. The target bonus percentages for our named executive officers have not changed. The Adjusted EBITDA target amounts are as follows: 50% of target = \$740 million (threshold); 100% of target = \$875 million; and 200% of target = \$1.0 billion (maximum). The remaining one-third of the corporate payout factor will be dependent upon achieving the following nine operational and strategic goals:

1. top quartile safety performance based on recordable injury rates;
2. top quartile safety performance based on lost time rates;
3. top quartile environmental performance based on number of incidents;
4. 88% commercial availability;
5. a level of contract availability at our California plants that results in a revenue contribution of at least \$116 million;
6. on-budget and on-schedule performance at year end of our program to add environmental controls at our Maryland plants;
7. implementation of a solution for ash management at our Maryland plants;
8. progress toward enhancing our business in California; and
9. progress toward enhancing our Kendall cogeneration station.

If certain levels of exceptional performance are met with respect to the first four goals above regarding safety, environmental or commercial availability targets, that goal may be counted twice toward the achievement of the operational and strategic portion of the corporate payout factor. The Compensation Committee may, in its discretion, award partial credit for the partial achievement of a goal. The target amounts for the strategic and operational goals are as follows: 50% of target = achievement of five goals (threshold); 100% of target = achievement of six goals; and 200% of target = achievement of seven goals (maximum).

Long-Term Incentives

All long-term incentive grants are issued under our 2005 Omnibus Incentive Compensation Plan. We utilized stock options and restricted stock units for our 2008 long-term incentive grants to executive officers, with two-thirds of the economic value of the grants delivered as restricted stock units and one-third of the economic value delivered as stock options. In determining to use such components and in determining the relative allocation, the Committee weighed the effectiveness and the perceived value of such grants by participants against their associated compensation expense. The Committee thinks the current allocation of long-term incentive grants, including the larger weighting of restricted stock units, provides both an important retention incentive for our named executive officers and aligns compensation with maintenance and growth of stockholder value by requiring that restricted stock units be held by named executive officers until termination. The 2008 awards vest ratably over three years, and delivery of shares for vested restricted stock units for our named executive officers is deferred until termination.

Edgar Filing: MIRANT CORP - Form DEF 14A

The Compensation Committee approved the 2008 annual long-term incentive grants on March 7, 2008. The Compensation Committee approves the economic value (dollar-denominated) of the equity compensation for each named executive officer, and that economic value is converted on the grant date into the equivalent number of restricted stock units and stock options based on the allocation outlined above. In determining the economic value of the grants, the Committee used the 50th percentile market equivalent economic value for employees at companies in Hewitt's general industry comparator group where long-term incentives are a prevalent component of pay. As a result of internal equity considerations among our named executive officers, the Committee

Table of Contents

approved a 2008 long-term incentive grant for Messrs. Iaco, Legro and Williams that was between the 50th and 75th percentile of market for their positions. Mr. Edgell's 2008 long-term incentive grant was slightly below the 50th percentile of market for his position. Mr. Muller's 2008 long-term incentive grant was determined by reviewing market data averages of long-term incentives as a percentage of salary for his position. His 2008 long-term incentive grant of 300% of base salary was slightly above the average percentage indicated by market data of 288% of base salary, but consistent with prior years' grants of 300% of base salary.

2008 Restricted Stock Unit Grants

The Compensation Committee utilizes restricted stock units in part because such grants align the executive's incentives with the interests of stockholders. Restricted stock units are not transferable, and a significant portion of their value derives from increases in our stock price. The following chart summarizes the grants that we made to our named executive officers in 2008 and the alignment of these grants with stockholder returns:

Named Executive Officer	Grant Date	Number of Units	Grant Date Fair Value ⁽¹⁾	Market Value at 12-31-08 ⁽²⁾	Market Value at 2-25-09 ⁽³⁾
Edward R. Muller	3/7/2008	61,318	\$ 2,269,992	\$ 1,157,071	\$ 829,633
James V. Iaco	3/7/2008	17,504	\$ 647,998	\$ 330,300	\$ 236,829
Robert M. Edgell	3/7/2008	20,025	\$ 741,326	\$ 377,872	\$ 270,938
S. Linn Williams	3/7/2008	17,504	\$ 647,998	\$ 330,300	\$ 236,829
Thomas E. Legro	3/7/2008	7,360	\$ 272,467	\$ 138,883	\$ 99,581

(1) Grant date fair value is the total amount we will expense for the award in accordance with generally accepted accounting principles, including Statement of Financial Accounting Standards No. 123(R), *Share-Based Payment* (FAS 123R). In accordance with FAS 123R, we will record this expense pro rata over the 3-year vesting period. This is the amount reported in the *Grants of Plan-Based Awards in 2008* table, below. The amount reported in the *2008 Summary Compensation Table* is a pro rata portion of this amount plus a pro rata portion of the fair value of awards made in prior years to the extent the vesting period occurred in 2008.

(2) Based on closing market price of our common stock of \$18.87 as of December 31, 2008.

(3) Based on closing market price of our common stock of \$13.53 as of February 25, 2009, the date the Compensation Committee met to determine certain compensation for our named executive officers for 2009.

2008 Option Grants

The Compensation Committee utilizes stock options in part because such grants align the executive's incentives with the interests of stockholders. The options generally are not transferable, and have value only to the extent that our stock price increases over the level at the time of the grant. The following chart summarizes the grants that we made to our named executive officers in 2008 and the relationship of the option exercise price on the grant date to the Company's stock price on the dates noted:

Named Executive Officer	Grant Date	Number of Options	Exercise Price	Stock Price at 12-31-08 ⁽¹⁾	Stock Price at 2-25-09 ⁽²⁾
Edward R. Muller	3/7/2008	130,742	\$ 37.02	\$ 18.87	\$ 13.53

Table of Contents*2006 Special Bonus Plan and Special Equity Grants*

In November 2006, the Compensation Committee approved the implementation of the 2006 Special Bonus Plan to reward participants for successful completion of our planned business and asset sales announced in July and August 2006, as well as to provide a retention incentive for certain participants. Participants in the 2006 Special Bonus Plan included approximately 125 U.S. employees (representing 7% of the U.S. employee population) at a level of Senior Vice President or below who were considered critical to our operation. Mr. Legro was a participant in the 2006 Special Bonus Plan.

Our named executive officers at that time, which did not include Mr. Legro, did not participate in the 2006 Special Bonus Plan. In lieu of their participation in the 2006 Special Bonus Plan, the Compensation Committee approved special equity grants to those named executive officers under the 2005 Omnibus Incentive Compensation Plan to reward them for successful completion of our planned business and asset sales.

Both the 2006 Special Bonus Plan awards and the special equity grants to our named executive officers were structured to vest and become non-forfeitable on June 30, 2008, if the following conditions were met by December 31, 2007: (1) the achievement of an established threshold value from the planned sales of our Philippine and Caribbean businesses and certain U.S. natural gas-fired assets; and (2) the completion of the planned sale of our Philippine business and receipt of 65% of the threshold values from the planned sales of the Caribbean business and the U.S. natural gas-fired assets. On September 12, 2007, the Committee affirmed that the conditions to vesting, other than the passage of time, for the 2006 Special Bonus Plan and the special equity grants had been met. Mr. Legro received an award pursuant to the 2006 Special Bonus Plan of \$1.1 million, consisting of \$830,000 in cash and the equivalent of \$270,000 in deferred restricted stock units. His cash bonus award is set forth in the *2008 Summary Compensation Table* and the deferred restricted stock units, which vested on June 30, 2008, are included in *Option Exercises and Stock Vested in 2008* table below.

The special equity grants to our named executive officers were structured with an economic value equal to three times the executive's base salary. These awards were granted as 50% stock options and 50% restricted stock units. The options expire on November 13, 2009. Delivery of shares for the vested restricted stock units is deferred until employment terminates. The option grants for each named executive officer are included in the table below entitled *Outstanding Equity Awards at 2008 Fiscal Year End* and the deferred restricted stock units, which vested on June 30, 2008, are included in the *Option Exercises and Stock Vested in 2008* table below.

Benefits

Company benefits available to all of our employees, including our named executive officers, include health and welfare, dental, prescription drugs, paid vacation, life insurance, accidental death and dismemberment, short term disability and long-term disability. All employees, including our named executive officers, also are entitled to participate in our qualified 401(k) program, pursuant to which we match 75% of the first 6% contributed. We also provide for both a 3% quarterly fixed contribution and an annual discretionary profit sharing contribution to all employees who are not accruing a defined benefit pension or who are not subject to a collective bargaining agreement, based on our performance against our short-term incentive goals. The discretionary contribution for 2008 was 3.28% of base salary and short-term incentive.

Senior executives, including our named executive officers, participate in a nonqualified Supplemental Benefit (Savings) Plan. The Supplemental Benefit (Savings) Plan is intended to compensate for IRS limitations on compensation for company matching and profit sharing contributions to a qualified 401(k) plan. The Compensation Committee thinks that this plan is market-competitive.

Senior executives, including our named executive officers, also participate in a nonqualified deferred compensation plan. The nonqualified deferred compensation plan allows senior executives to defer certain amounts of base salary and short-term incentive compensation. Please see *Impact of Regulatory Requirements* below for a discussion of Regulation 409A and its effect on our nonqualified deferred compensation plan.

Table of Contents

Perquisites

We have a perquisite policy that provides for an annual allowance to each of our named executive officers. The allowance amounts are pre-tax and are fully taxable to our executives. For our named executive officers, two tiers of annual perquisite allowance are provided: Level I \$21,000; and Level II \$18,000. Our Chief Executive Officer receives a Level I perquisite allowance, and each of our other named executive officers receives the Level II allowance. The allowances are paid in monthly increments and are intended to compensate executives for financial and estate planning, income tax return preparation and personal club memberships. We also provide executive physicals to these officers and relocation benefits, when necessary. We think these perquisite levels are competitive in the market, while allowing more flexibility in choosing a service provider and minimizing the administrative burden of such a program.

Post-Termination Compensation

The post-termination benefits for our named executive officers are provided in their individual employment agreements. The terms of those agreements, including those related to severance and change in control, were negotiated in conjunction with the hiring of our named executive officers.

Severance and Change in Control

All of our named executive officers have employment agreements that provide specified change in control and severance benefits. These provisions were included because of the prevalence of such programs in the market and because we thought the protections were necessary to recruit and retain executive talent.

In the event Mr. Muller is terminated by us without cause, he will receive two times his base salary plus two times his target short-term incentive, in addition to certain other benefits further outlined below under *Potential Payments Upon Termination*. If terminated without cause, Mr. Iaco, Mr. Edgell and Mr. Williams each would receive 1.5 times his base salary plus 1.5 times his target short-term incentive, and Mr. Legro would receive one time his base salary plus one time his target short-term incentive, in addition to certain benefits outlined below under *Potential Payments Upon Termination*. If any of our named executive officers is terminated in conjunction with a change in control, he will receive three times his base salary plus three times the higher of his target short-term incentive or his actual annual short-term incentive for the year preceding the change in control. Termination of any of our named executive officers without cause or in the event of a change in control will normally result in the immediate vesting of all of his outstanding stock options and restricted stock units. See *Potential Payments Upon Termination* below for the definition of change in control under our executives' award agreements and a further discussion of amounts payable to our named executive officers upon termination. See *Employment Agreements* in the narrative discussion below the *Grants of Plan-Based Awards in 2008* table for a description of the vesting terms of long-term incentive awards for our named executive officers in the event of termination or a change in control.

Restrictive Covenants

All of our employees enter into confidentiality and intellectual property agreements, and our named executive officers are also subject to non-solicitation, non-disparagement and non-compete provisions.

Impact of Regulatory Requirements

Several regulatory requirements have an impact on certain of our compensation decisions. Section 162(m) of the Internal Revenue Code of 1986, as amended, generally denies a publicly traded company a federal income tax deduction for compensation in excess of \$1 million paid to certain of its executive officers unless the amount of such excess is payable based solely upon the attainment of objective performance criteria. We have undertaken to qualify certain components of our incentive compensation to executive officers for the performance exception to non-deductibility. However, in appropriate circumstances, it may be necessary or appropriate to pay

Table of Contents

compensation or make special incentive or retention awards that do not meet the performance-based exception and therefore may not be deductible under Section 162(m). In 2008, \$148,597 of compensation to our executive officers was not deductible under the provisions of Section 162(m).

We account for stock-based compensation under FAS 123R, which requires companies to recognize in the income statement the grant-date fair value of stock options and other equity-based compensation issued to employees. All of the stock-based awards granted in 2008 qualified for equity accounting treatment under FAS 123R. We use the Black-Scholes option-pricing model to measure the grant-date fair value of our stock options. Historically, for determining the number of stock options to grant to employees, we have used a smoothed Black-Scholes volatility rate. Our reason for using a smoothed volatility rate was that volatility, one of the major inputs in the Black-Scholes calculation, can fluctuate greatly on a given trading day, which can have unintended consequences for purposes of determining the size of employee option grants. For 2008, in order to add more precision to our grant methodology, we began using a volatility rate in the Black-Scholes calculation based on the average volatility of our traded options during the 45 trading days immediately preceding (and inclusive of) the grant date in order to eliminate any perception of subjectivity in determining option award sizes.

Equity Grant Policy

The Equity Grant Policy adopted by the Compensation Committee requires that both annual equity grants and special equity grants must be made during an open trading window, which normally follows our quarterly earnings releases. The annual equity awards specifically are to be made at a Compensation Committee meeting scheduled during the first week of the open trading window following the release of our financial results for the previous fiscal year. The Equity Grant Policy applies to any compensatory equity grant made to employees, including our named executive officers. The Equity Grant Policy requires that the grant date of any equity award approved by the Compensation Committee will be the date of the meeting at which the award was approved, and the grant price will be the closing price of our common stock on the New York Stock Exchange on such date. All of our 2008 long-term incentive awards complied with the terms of our Equity Grant Policy.

Stock Ownership Guidelines

Stock ownership guidelines approved by the Compensation Committee in November 2006 require that our named executive officers, certain other corporate officers and our Board of Directors own certain levels of our stock. Those levels of ownership must be attained over five years from (1) the date of implementation of the guidelines or (2) if the individual did not hold the relevant office at that time, the date the individual becomes a director or an officer at that level. The stock ownership guidelines are set forth below:

Position	Multiple of Annual Salary
Chief Executive Officer	500%
Executive Vice President	400%
Senior Vice President	300%
Vice President	100%
Board of Directors	3x annual LTI Grant

Shares counted toward satisfaction of the guidelines outlined above include shares owned outright, vested restricted stock units or restricted shares, vested stock options (at two-thirds of their value), and phantom shares/units. As of March 9, 2009, due to the significant decline in the price of our common stock as a result of challenging market conditions, none of our named executive officers had met the share ownership requirements under the guidelines. Generally, our named executive officers have until November 2011 to reach these share ownership goals. At its most recent meeting, the Compensation Committee discussed our officers' current stock ownership levels and the impact of the recent stock price decline on their compliance with these guidelines. The Compensation Committee plans to continue to monitor the appropriateness of the multiples and the timeline for compliance.

Grant Date Fair Value vs. Market Value of Stock Awards. Due to the decline in the market price of our common stock, if the stock awards for which expense is shown in this column were valued in accordance with the market value of the Company's common stock as of December 31, 2008 or February 25, 2009, rather than the FAS 123R expense, their valuations would differ. Grant Date Fair Value vs. Market Value of Option Awards. Due to the decline in the market price of our common stock, if the valuation for fiscal 2008 expense for the options for which expense is shown in this column was based on the intrinsic value of the award (calculated as the difference between the value of the option based upon the share price of our common stock as of the market close on December 31, 2008 of \$18.87 and February 25, 2009 of \$13.53 and the option exercise price) rather than the FAS 123R expense reflected in the *2008 Summary Compensation Table*, all of the options would be out of the money and have no intrinsic value. These amounts are reflected in the supplemental table below for each named executive officer as of December 31, 2008 and February 25, 2009.

Mirant Corporation Deferred Compensation Plan

The Deferred Compensation Plan is a non-qualified plan intended to comply with the requirements of Section 409A of the Internal Revenue Code. Employees may defer up to 100% of base pay and/or short-term incentive pay (less applicable FICA taxes). The Plan allows participants to choose among 21 different investment funds. The investment funds are the same funds offered under our 401(k) plan, with two exceptions. Because common collective trusts are not allowed in the Deferred Compensation Plan, two fund choices have been substituted. Deferred Compensation Plan participants may change their investment election or transfer balances amongst the various funds at any time. Final distributions from the accounts are made upon termination of employment with the Company and may be made in a lump sum or in annual installments for up to 10 years, in accordance with the participant's prior election. Distributions to named executive officers will be made no earlier than six months following their termination of service. Early withdrawals from the accounts are not permitted, with the exception of an in-service withdrawal election for a future known date set during the annual enrollment period.

Mirant Corporation Supplemental Benefit (Savings) Plan

The Supplemental Benefit (Savings) Plan is a non-qualified plan intended to compensate executives for IRS limitations on compensation on Company matching and profit sharing contributions to a qualified 401(k) plan or to provide parity with respect to Company matching and profit sharing 401(k) contributions due to executive deferrals of income pursuant to the Deferred Compensation Plan. All amounts credited to the account of a participant are credited with deemed interest at the prime rate as published in the *Wall Street Journal*, compounded daily. Final distributions from the accounts are made upon termination of employment with the Company and may be made in a lump sum or in annual installments for up to 10 years, in accordance with the participant's prior election. Distributions to named executive officers will be made no earlier than six months following their termination of service. Early withdrawals from the accounts are not permitted.

Potential Payments Upon Termination

Each of our named executive officers has an employment agreement that provides for certain severance payments in the event his employment is terminated without good cause, or due to death, disability or a change in control. The agreements have three-year terms and continue through late 2008 or early 2009. After the three year term, the agreements are to be automatically extended in one-year increments unless we give prior notice of termination. All of the agreements have been automatically extended for the first one-year period.

Termination Without Cause or for Good Reason

Under the agreements, the executives receive severance payments in the event of (1) termination without Cause (as defined below); (2) failure to renew their contract on competitive terms; or (3) termination by the executive for Good Reason (as defined below). These severance payments are a combination of a multiple of the executive's annual salary and a multiple of his target short-term incentive in the year in which his employment is terminated. A description of the payout multiples for our named executive officers is included under *Post-Termination Compensation* in *Compensation Discussion and Analysis* above. Unvested stock options and unvested restricted stock units held by executives will accelerate, vest and become exercisable. Executives also will receive a pro-rata portion of their target bonus payment under the short-term incentive plan for the year in

Table of Contents

which they are terminated, regardless of Company performance. In addition to the payments related to base salary and short-term incentive, the named executive officer will receive the following:

An amount equal to two times the Company's annual cost for life and long-term disability insurance provided to the executive immediately prior to termination (Mr. Legro will receive an amount equal to one time the Company's annual cost for life and long-term disability insurance provided to him immediately prior to termination);

An amount equal to two times the sum of the annual matching contribution under the Employee Savings Plan and Supplemental Benefit (Savings) Plan for the year immediately preceding the year in which employment terminates (Mr. Legro will receive an amount equal to one time the sum of the annual matching contribution under the Employee Savings Plan and Supplemental Benefit (Savings) Plan for the year immediately preceding the year in which employment terminates);

An amount equal to the fixed profit sharing and discretionary profit sharing contributions received under the 401(k) Plan for the year immediately preceding the year in which employment terminates;

18 months of continued coverage for medical, dental and other group health benefits and plans in effect on the date of termination (Mr. Legro will receive 12 months of continued coverage for medical, dental and other group health benefits and plans in effect on the date of termination); and

A lump sum amount equal to the cost of 6 months of additional benefit coverage under the medical, dental and vision plans in which the executive participates on the date of termination (not applicable to Mr. Legro).

The amounts described in the first three bullet points above will be paid in a lump sum on the date 6 months from separation of service in accordance with Section 409A.

Cause is defined in the named executive officers' employment agreements as:

the conviction of, or an agreement to a plea of nolo contendere to, a crime involving moral turpitude or any felony;

willful refusal to perform duties as reasonably directed by the Board under the employment agreement or any other agreement;

in carrying out executive duties, engagement in conduct that constitutes fraud, willful neglect or willful misconduct which, in either case would result in demonstrable harm to the business, operations, prospects or reputation of the Company;

a material violation of the requirements of the Sarbanes-Oxley Act of 2002 or other federal or state securities law, rule or regulation;
or

any other material breach of the employment agreement.

Good Reason is defined in the named executive officers' employment agreements as:

Edgar Filing: MIRANT CORP - Form DEF 14A

reduction by the Company of the amount of the executive's then current base salary or the target for his annual bonus;

a material diminution in the executive's title, authority, duties or responsibilities or the assignment of duties to executive which are materially inconsistent with his position;

the failure of the Company to obtain in writing the obligation to perform the employment agreement by any successor to the Company or a purchaser of all or substantially all of the assets of the Company within 15 days after a merger, consolidation, sale or similar transaction; or

following a change in control, the requirement that the executive move his principal place of business by more than 50 miles from the previous location without his consent.

Table of Contents

Death or Disability

Under their employment agreements, the named executive officers or their representatives are entitled to severance payments upon death or disability. In the event that an executive's employment is terminated as a result of death or disability, he or his representative would receive the following:

a lump sum payment in an amount equal to his target annual bonus for the year of termination prorated for the number of days that the executive was employed by the Company, regardless of Company performance;

base salary through the date of termination to the extent not previously paid;

to the extent not previously paid, the amount of any bonus, incentive compensation, and other compensation earned or accrued by the executive as of the date of termination under any compensation and benefit plans, programs or arrangements maintained in force by the Company; and

any vacation pay, expense reimbursements and other cash entitlements due and owing to the executive, in accordance with Company policy, as of the date of termination to the extent not previously paid.

Unvested stock options and unvested restricted stock units held by executives will accelerate, vest and become exercisable upon termination as a result of death or disability.

Termination Following Change in Control

The employment agreements also provide that named executive officers are entitled to certain severance benefits following a change in control of the Company. If, for up to two years following a change in control, the named executive officer is terminated for any reason, other than by reason of disability or for Cause (as defined above), or if such executive officer terminates his or her employment for Good Reason (as defined above), then the named executive officer would receive the following:

Payment equal to the sum of (i) three times the named executive officer's base salary and (ii) the higher of (a) three times the last full-year's annual short-term incentive payment or (b) three times the target annual short-term incentive payment for the year in which termination occurs;

A multiple of three times the benefits related to life and long-term disability insurance and contributions under the Employee Savings Plan and Supplemental Benefit (Savings) Plan outlined above;

18 months of continued coverage for medical, dental and other group health benefits and plans in effect at the date of termination; and

A lump sum amount equal to the cost of 18 months of additional benefit coverage under the medical, dental and vision plans in which the executive participates on the date of termination (Mr. Legro will receive a lump sum amount equal to the cost of 6 months of additional benefit coverage under the medical, dental and vision plans in which he participates on the date of termination).

The severance generally would be paid in the form of a lump sum cash payment. In addition, in accordance with the terms of the award agreements for each of the named executive officers, unvested stock options and unvested restricted stock units accelerate, vest, and become exercisable if they are not replaced upon the change in control.

Edgar Filing: MIRANT CORP - Form DEF 14A

Under the employment agreements, a change in control would include any of the following events:

any person, as defined in the Securities Exchange Act of 1934, acquires 50 percent or more of our voting securities;

a majority of our Board of Directors is replaced by a two-thirds vote;

consummation of a reorganization, merger, consolidation, sale or other disposition with more than a 50% beneficial ownership change; or

stockholders approve certain mergers, or a liquidation or sale of our assets.

In the event that any payments made in connection with a change in control would be subjected to the excise tax imposed by Section 4999 of the Internal Revenue Code, we will gross up, on an after-tax basis, the named executive officer's compensation for all federal, state and local income and excise taxes and any penalties and interest, but the gross up is capped at \$7 million for the Chief Executive Officer and at \$2 million for all other named executive officers.

Table of Contents*Potential Payments Upon Termination Table*

The table below sets forth potential benefits that each named executive officer would be entitled to receive upon termination of employment in the situations outlined above. These amounts are estimates only and do not necessarily reflect the actual amounts that would be paid to the named executive officers, which would only be known at the time that they become eligible for payment. The amounts shown in the table are the amounts that could be payable under existing plans and arrangements if the named executive officer's employment had terminated at December 31, 2008, including a gross-up for certain taxes in the event that any payments made in connection with a change in control were subject to the excise tax imposed by Section 4999 of the Internal Revenue Code. Values for the accelerating vesting of stock option and restricted stock unit grants are based on our closing price of \$18.87 on December 31, 2008. The table below does not include amounts to which the named executive officers would be entitled that are already described in the compensation tables appearing earlier in this Proxy Statement, including the value of equity awards that have already vested and amounts previously deferred under the Deferred Compensation Plan.

Table of Contents**2008 DIRECTOR COMPENSATION TABLE**

In May 2006, the Compensation Committee adopted the 2006 Non-Employee Directors Compensation Plan that sets forth the annual and supplemental retainers, meeting fees and equity compensation payable to the non-employee directors. Pursuant to this plan, our non-management directors each receive an annual retainer of \$60,000 and are paid \$1,500 for each Board and committee meeting that they attend. The following annual supplemental retainers also are paid as applicable: \$20,000 for the Audit Committee Chair; \$10,000 for each of the Compensation and Nominating and Governance Committee Chairs, and \$20,000 for the lead independent director. The directors also received an annual stock award grant, which in 2008 consisted of restricted stock units. The total targeted economic value of those grants was \$75,000 for each director. Prior to 2008, the directors received an annual stock award of restricted stock units and stock options. The Company reimburses directors for their travel and related expenses in connection with attending Board meetings and Board-related activities, as well as for continuing education programs related to their directorships. Our non-management directors may elect to defer all or part of their annual retainer, annual supplemental retainer, or meeting fees, pursuant to the Deferred Compensation Plan.

For 2009, our non-management directors will no longer receive meeting fees and will receive an annual retainer of \$82,500 and an annual stock award grant, consisting of restricted stock units, with a total targeted economic value of \$82,500. The annual supplemental retainers described above will remain unchanged.

The following table provides 2008 compensation information for each non-management member of our Board of Directors.

The restricted stock units vest 100% on May 12, 2009, and delivery of the shares for the restricted stock units is deferred until their directorship terminates. Pursuant to SEC rules, these values are not reduced by an estimate for the probability of forfeiture. The grant date fair value, calculated in accordance with FAS 123R, for each restricted stock unit granted on May 12, 2008 was \$38.88, for a total grant date fair value of \$75,000. Each non-management director held 1,929 unvested restricted stock units as of December 31, 2008.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934 requires Mirant directors and executive officers to file reports with the SEC showing their holdings of and transactions in Mirant securities. It is generally the practice of the Company to file the forms on behalf of these directors and executive officers. All such forms were timely filed for 2008, except that a late Form 4 showing John T. Miller's acquisition and subsequent disposition of 47 shares of Mirant common stock was filed on January 29, 2008. Mr. Miller received the shares in connection with the final settlement between the Company and Potomac Electric Power Company, which resulted in an additional distribution of reserved Mirant shares to former debt holders.
