General

We are the fifth largest facilities-based wireless telecommunications provider in the United States measured by the number of subscribers served. We offer wireless broadband mobile services under the MetroPCS® brand in selected major metropolitan areas in the United States over our own licensed networks or networks of entities in which we hold a substantial non-controlling ownership interest. We provide a variety of wireless communications services to our subscribers on a no long-term contract, paid-in-advance, flat-rate, unlimited usage basis, inclusive of applicable taxes and regulatory fees. As of June 30, 2010, we had over 7.6 million subscribers.

We currently provide our wireless broadband mobile services primarily in selected major metropolitan areas in the United States, including the Atlanta, Boston, Dallas/Ft. Worth, Detroit, Las Vegas, Los Angeles, Miami, New York, Orlando/Jacksonville, Philadelphia, Sacramento, San Francisco, and Tampa/Sarasota metropolitan areas. As of June 30, 2010, we hold, or have access to, wireless spectrum covering a total population of approximately 146 million people in many of the largest metropolitan areas in the United States. In addition, we have roaming agreements with other wireless carriers, which allows us to offer our customers service in certain areas when they are outside our service area. These roaming agreements, together with our service area, provide coverage to over 220 million in total population. In 2009, we launched several new metropolitan areas, including the New York and Boston metropolitan areas, and also expanded coverage in other existing metropolitan areas. We provide our services using code division multiple access, or CDMA, networks using 1xRTT technology. We have publicly announced that we are in the process of upgrading our networks in certain metropolitan areas to long term evolution, or LTE.

We provide service in Los Angeles, California and certain portions of Northern Florida, including Orlando, through a wholesale arrangement with Royal Street Communications, LLC, or Royal Street Communications, a company in which we hold an 85% non-controlling interest. Under that certain Amended and Restated Limited Liability Company Agreement of Royal Street Communications, LLC, or the Royal Street LLC Agreement, C9 Wireless, or C9, the controlling member of Royal Street Communications, has the right to put its member interest in Royal Street Communications to us for a return of capital plus a fixed return, or the put. On April 26, 2010, we received a written notice from C9 that it was exercising its put pursuant to the Royal Street LLC Agreement with the closing to occur on or after December 22, 2010. The put is subject to customary closing conditions, including consent of the Federal Communications Commission, or FCC.

Table of Contents

Competitive strengths

We believe our business model has the following competitive strengths that distinguish us from our principal wireless competitors:

Our fixed price unlimited service plans

We currently offer our services on a no long-term contract, paid-in-advance, flat-rate, unlimited usage basis. Starting in January 2010, we began offering our services on a flat-rate basis that includes all applicable taxes and regulatory fees. We believe we offer a compelling value proposition to our customers through our service offerings that provide unlimited usage from within our service area for a low fixed price. Our average per minute cost to our customers for our service plans is significantly lower than the average per minute cost of other traditional wireless broadband mobile carriers. We believe our low average cost per minute has positioned, and will continue to position, us very well for the growing trend of wireline displacement.

Our densely populated markets

The aggregate population density of the metropolitan areas we currently serve is substantially higher than the national average. We believe the high relative population density of the metropolitan areas we serve results in increased efficiencies in network deployment, operations and product distribution.

Our cost leadership position

We believe we have one of the lowest costs of any of the providers of wireless broadband mobile services in the United States, which allows us to offer our services on a flat-rate unlimited basis at affordable prices while maintaining cash profits per subscriber as a percentage of revenue per subscriber that we believe are among the highest in the wireless broadband mobile services industry. We currently are the fifth largest facilities-based mobile wireless broadband mobile services provider in the United States measured by number of subscribers served, and we have, and we believe we will continue to enjoy, economies of scale as we grow the number of our subscribers.

Our spectrum portfolio

As of June 30, 2010, we hold or have access to wireless spectrum covering a population of approximately 146 million people in many of the largest metropolitan areas in the United States.

Our advanced network

We utilize a CDMA network that is designed to provide the capacity necessary to satisfy the usage requirements of our customers and are in the process of upgrading our network in certain metropolitan areas to LTE. We believe CDMA technology provides, and LTE will provide, us with substantially more voice and data capacity per MHz of spectrum than other commonly deployed wireless broadband mobile technologies.

Table of Contents

Business strategy

We believe the following components of our business strategy provide a foundation for our continued growth:

Target underserved customer segments in our markets

We target a mass market that we believe has historically been largely underserved by traditional wireless broadband mobile carriers. Our recent customer surveys indicate that over 60% of our customers use our service as their primary phone service and that over 64% of our customers no longer have traditional landline phone service, which we believe is evidence that our services are gaining acceptance as a substitute for landline service.

Offer predictable, affordable and flexible service plans

We plan to continue to focus on increasing the value provided to our subscribers by offering predictable, affordable and flexible service plans. In January 2010, we introduced a new family of service plans that include all applicable taxes and regulatory fees for a flat rate. We plan to continue to focus on increasing the value provided to our subscribers.

Remain one of the lowest cost wireless service providers in the United States

We plan to continue to focus on controlling our costs to allow us to remain one of the lowest cost providers of wireless broadband mobile services in the United States.

Expand our markets

We plan to continue to focus on expanding the metropolitan areas we currently serve, which may require us to acquire or gain access to additional spectrum or enter into new roaming arrangements with other wireless carriers. We also may in the future pursue means, other than purchasing spectrum, to expand into new metropolitan areas.

Continue to invest in our network

We continue to make significant capital improvements to our network to be able to offer our subscribers competitive and technologically advanced services, including enhanced data services, location based services and digital technology as they become increasingly available. We have announced that we plan to initially launch LTE in certain of our metropolitan areas in the second half of 2010, which will allow us to offer additional advanced broadband services.

Offer nationwide voice, text and web services

Beginning in January 2010, all of the service plans we offer to new subscribers offer nationwide voice, text and web services for a flat rate inclusive of applicable taxes and regulatory fees on an unlimited usage basis. In order to do so, we have entered, and plan to enter in the future, into roaming agreements with other wireless broadband mobile service providers to allow our subscribers to receive services when they are outside the areas we serve with our own network.

Table of Contents

Existing 9¹/₄% senior notes due 2014

On November 3, 2006, we consummated the sale of \$1.0 billion principal amount of our 9¹/₄% senior notes due 2014, or 9¹/₄% senior notes. On June 6, 2007, we consummated the sale of an additional \$400.0 million principal amount of additional 9¹/₄% senior notes due 2014, or additional 9¹/₄% senior notes, under the indenture governing our 9¹/₄% senior notes. On January 20, 2009, we completed the sale of an additional \$550.0 million principal amount of 9¹/₄% senior notes due 2014, or new 9¹/₄% senior notes, under a new indenture substantially similar to the indenture governing our 9¹/₄% senior notes and additional 9¹/₄% senior notes. We collectively refer to the 9¹/₄% senior notes and additional 9¹/₄% senior notes as our initial 9¹/₄% senior notes and, together with our new 9¹/₄% senior notes, the existing 9¹/₄% senior notes.

Recent developments

Amendment to credit facility

On July 16, 2010, we entered into an Amendment and Restatement and Resignation and Appointment Agreement, or the Amendment, which amends and restates our senior secured credit facility. The Amendment amends the senior secured credit facility to, among other things, extend the maturity of \$1.0 billion of existing term loans under the senior secured credit facility to November 2016 as well as increase the interest rate to LIBOR plus 3.50% on the extended portion only. The remaining \$540.0 million of term loans will mature in 2013 and the interest rate continues to be LIBOR plus 2.25%. See Description of existing indebtedness our senior secured credit facility for additional information.

Concurrent tender offer

Concurrently with this offering, we are conducting a cash tender offer for up to \$1.0 billion of the \$1.4 billion outstanding principal amount of our initial 9¹/₄% senior notes, or the tender offer. The tender offer is scheduled to expire on October 5, 2010, subject to our right to extend the offer. The tender offer is being made pursuant to a separate Offer to Purchase, and this prospectus supplement and the accompanying prospectus are not an offer to purchase the initial 9¹/₄% senior notes. We intend to finance the purchase of the initial 9¹/₄% senior notes in the tender offer with the net proceeds from this offering, together with cash on hand. This offering is not conditioned upon the closing of the tender offer. The closing of the tender offer is conditioned on, among other things, the closing of this offering, as well as other customary closing conditions.

The redemption

In the event that we purchase less than \$1.0 billion aggregate principal amount of the initial 9¹/₄% senior notes in the tender offer, we currently intend to use a portion of the net proceeds from this offering to redeem an aggregate principal amount of initial 9¹/₄% senior notes equal to the difference between \$1.0 billion and the aggregate principal amount of initial 9¹/₄% senior notes purchased in the tender offer at a price of 104.625% of the principal amount thereof, plus any accrued and unpaid interest to, but not including, the redemption date, or the redemption. The redemption would be made in accordance with the indenture governing the initial 9¹/₄% senior notes.

structurally subordinate to any existing and future indebtedness and other liabilities (other than indebtedness and liabilities owed to us) of our non-guarantor subsidiaries.

Assuming we had completed the offering of the notes on June 30, 2010, we would have had approximately \$4.7 billion of senior indebtedness outstanding, \$1.7 billion of which would have been secured. The notes will be effectively subordinated to this secured debt.

Note guarantees

Our obligations under the notes will be jointly and severally and fully guaranteed by MetroPCS Communications and all of our current and future direct and indirect domestic restricted subsidiaries. Royal Street Communications and its subsidiaries, or Royal Street, currently are not domestic restricted subsidiaries under the indenture governing the notes. See Description of notes The note guarantees. Each guarantee of the notes will be a general unsecured obligation of that guarantor and will rank:

create liens or other encumbrances;

enter into transactions with affiliates;

enter into agreements that restrict dividends or distributions from subsidiaries; and

merge, consolidate or sell, or otherwise dispose of, substantially all of our assets.

These covenants are subject to a number of important limitations and exceptions that are described later in this prospectus supplement under the caption "Description of notes - Certain covenants."

Asset sale proceeds

If we or our restricted subsidiaries engage in certain types of asset sales, we generally must use the net cash proceeds from such sale to either make investments in our business (through capital expenditures, acquisitions or otherwise) or permanently repay senior debt within a certain period of time after such sale, otherwise we must make an offer to purchase a principal amount of the notes equal to the excess net cash proceeds. The purchase price of the notes will be 100% of their principal amount, plus accrued and unpaid interest, to, but not including, the date of the purchase.

Change of control offer

If we experience specific kinds of changes of control and any such change of control results in a ratings downgrade during a specified period of time after the change of control, we must offer to repurchase the notes at a price in cash equal to 101% of their principal amount, plus accrued and unpaid interest, if any, to, but not including, the date of purchase.

Use of proceeds

We estimate that our net proceeds from this offering will be approximately \$974.9 million. We intend to use the net proceeds from this offering, together with cash on hand, to fund the purchase of up to \$1.0 billion of the \$1.4 billion outstanding principal amount of the initial 9 1/4% senior notes in the tender offer and, if applicable, the

redemption and to pay fees and expenses related to this offering. This offering is not contingent on the closing of the tender offer. See Summary Recent developments Concurrent tender offer, Summary Recent developments The redemption and Use of proceeds.

Form

The notes will be represented by registered global securities registered in the name of Cede & Co., the nominee of the depository, The Depository Trust Company, or DTC. Beneficial interests in the notes will be shown on, and transfers will be effected through, records maintained by DTC and its participants.

(1) See Note 16 to the consolidated financial statements included in MetroPCS Communications' Annual Report on Form 10-K for the year ended December 31, 2009 and Note 10 to the condensed consolidated financial statements included in MetroPCS Communications' Quarterly Report on Form 10-Q for the quarter ended June 30, 2010, both such Notes are incorporated by reference into this prospectus supplement, for an explanation of the calculation of basic and diluted net income per common share.

(2) For purposes of calculating the ratio of earnings to fixed charges, earnings represents income before provision for income taxes plus fixed charges and amortization of capitalized interest (excluding capitalized interest). Fixed charges include interest expense (including capitalized interest); amortized premiums and discounts related to indebtedness; amortization of deferred debt issuance costs; the portion of operating rental expense that management believes is representative of the appropriate interest component of rental expense; and net preferred stock dividends. The portion of total rental expense that represents the interest factor is estimated to be 33%. Net preferred stock dividends are our preferred dividend expense net of income tax benefit.

For the year ended December 31, 2007 our ratio of earnings to fixed charges would have been 1.54x on an adjusted basis giving effect to (a) the consummation of MetroPCS Communications' initial public offering of 57,500,000 shares of common stock, par value \$0.0001 per share, at a price per share of \$23.00 (less underwriting discounts and fees) completed on April 19, 2007, consisting of 37,500,000 shares of common stock sold by MetroPCS Communications and 20,000,000 shares of common stock sold by selling stockholders, including 7,500,000 shares sold by selling stockholders pursuant to the underwriters' exercise of their over-allotment option, (b) the completion of the offering of \$400.0 million principal amount of additional 9 1/4% senior notes and our receipt of the proceeds from the sale of such additional 9 1/4% senior notes on June 6, 2007 and (c) the completion of the offering of \$550.0 million principal amount of new 9 1/4%

senior notes and our receipt of the proceeds from the sale of such new 9 1/4% senior notes on January 20, 2009, as if they all had occurred on the first date of such period. Upon consummation of the initial public offering, all of the shares of MetroPCS Communications Series D and Series E preferred stock were converted into shares of common stock.

For the year ended December 31, 2008, our ratio of earnings to fixed charges would have been 1.60x on an adjusted basis giving effect to the completion of the offering of the new 9 1/4% senior notes and our receipt of the proceeds from the sale of such new 9 1/4% senior notes, as if it had occurred on the first date of such period.

- (3) Licensed POPs represent the aggregate number of persons that reside within the areas covered by our or Royal Street Communications licenses. Covered POPs represent the estimated number of POPs in our metropolitan areas that reside within the areas covered by our network.
- (4) Our senior secured credit facility defines consolidated Adjusted EBITDA as: consolidated net income *plus* depreciation and amortization; gain (loss) on disposal of assets; non-cash expenses; gain (loss) on extinguishment of debt; provision for income taxes; interest expense; and certain expenses of MetroPCS Communications *minus* interest and other income and non-cash items increasing consolidated net income.

We consider Adjusted EBITDA, as defined above, to be an important indicator to investors because it provides information related to our ability to provide cash flows to meet future debt service, capital expenditures and working capital requirements and fund future growth. We present consolidated Adjusted EBITDA because covenants in our senior secured credit facility contain ratios based on this measure. Other wireless carriers may calculate consolidated Adjusted EBITDA differently. If our consolidated Adjusted EBITDA were to decline below certain levels, covenants in our senior secured credit facility that are based on consolidated Adjusted EBITDA, including our maximum senior secured leverage ratio covenant, may be violated and could cause, among other things, an inability to incur further indebtedness and in certain circumstances a default or mandatory prepayment under our senior secured credit facility. Our maximum senior secured leverage ratio is required to be less than 4.5 to 1.0 based on consolidated Adjusted EBITDA plus the impact of certain new markets. The lenders under our senior secured credit facility use the senior secured leverage ratio to measure our ability to meet our obligations on our senior secured debt by comparing the total amount of such debt to our consolidated Adjusted EBITDA, which our lenders use to estimate our cash flow from operations. The senior secured leverage ratio is calculated as the ratio of senior secured indebtedness to consolidated Adjusted EBITDA, as defined by our senior secured credit facility. For the twelve months ended December 31, 2009, our senior secured leverage ratio was 1.67 to 1.0, which means for every \$1.00 of Adjusted EBITDA we had \$1.67 of senior secured indebtedness. For the twelve months ended June 30, 2010, our senior secured leverage ratio was 1.56 to 1.0, which means for every \$1.00 of Adjusted EBITDA we had \$1.56 of senior secured indebtedness. In addition, consolidated Adjusted EBITDA is also utilized, among other measures, to determine management's compensation under their annual cash performance awards. Consolidated Adjusted EBITDA is not a measure calculated in accordance with accounting principles generally accepted in the United States, or GAAP, and should not be considered a substitute for, operating income, net income, or any other measure of financial performance reported in accordance with GAAP. In addition, consolidated Adjusted EBITDA should not be construed as an alternative to, or more meaningful than cash flows from operating activities, as determined in accordance with GAAP. See Management's Discussion and Analysis of Financial Condition and Results of Operations Liquidity and Capital Resources in MetroPCS Communications Annual Report on Form 10-K for the year ended December 31, 2009, which is incorporated by reference into this prospectus supplement.

The following table shows the calculation of consolidated Adjusted EBITDA, as defined in our senior secured credit facility, for the periods indicated.

- (5) Adjusted EBITDA as a percentage of service revenues is calculated by dividing consolidated Adjusted EBITDA by total service revenues.
- (6) Average monthly churn represents (a) the number of customers who have been disconnected from our system during the measurement period less the number of customers who have reactivated service, divided by (b) the sum of the average monthly number of customers during such period. We classify delinquent customers as churn after they have been delinquent for 30 days. In addition, when an existing customer establishes a new account in connection with the purchase of an upgraded or replacement phone and does not identify themselves as an existing customer, we count the phone leaving service as a churn and the new phone entering service as a gross customer addition (false churn). See Management's Discussion and Analysis of Financial Condition and Results of Operations Performance Measures in MetroPCS Communications Annual Report on Form 10-K for the year ended December 31, 2009, which is incorporated by reference into this prospectus supplement.
- (7) Average revenue per user, or ARPU, cost per gross addition, or CPGA, and cost per user, or CPU, are non-GAAP financial measures utilized by our management to judge our ability to meet our liquidity requirements and to evaluate our operating performance. We believe these measures are important in understanding the performance of our operations from period to period, and although every company in the wireless industry does not define each of these measures in precisely the same way, we believe that these measures (which are common in the wireless industry) facilitate key liquidity and operating performance comparisons with other companies in the wireless industry.
- (8) ARPU represents (a) service revenues plus impact to service revenues of promotional activity less pass through charges for the measurement period, divided by (b) the sum of the average monthly number of customers during such period. We utilize ARPU to evaluate our per-customer service revenue realization and to assist in forecasting our future service revenues. ARPU is calculated exclusive of pass through charges that we collect from our customers and remit to the appropriate government agencies.

Average number of customers for any measurement period is determined by dividing (a) the sum of the average monthly number of customers for the measurement period by (b) the number of months in such period. Average monthly number of customers for any month represents the sum of the number of customers on the first day of the month and the last day of the month divided by two. The following table shows the calculation of ARPU for the periods indicated:

(9) CPGA is determined by dividing (a) selling expenses plus the total cost of equipment associated with transactions with new customers less equipment revenues associated with transactions with new customers during the measurement period adjusted for impact to service revenues of promotional activity by (b) gross customer additions during such period. Retail customer service expenses and equipment margin on handsets sold to existing customers when they are identified, including handset upgrade transactions, are excluded, as these costs are incurred specifically for existing customers. We utilize CPGA to assess the efficiency of our distribution strategy, validate the initial capital invested in our customers and determine the number of months to recover our customer acquisition costs. This measure also allows us to compare our average acquisition costs per new customer to those of other wireless broadband mobile providers. Equipment revenues related to new customers, adjusted for the impact to service revenues of promotional activity, are deducted from selling expenses in this calculation as they represent amounts paid by customers at the time their service is activated that reduce our acquisition cost of those customers. Additionally, equipment costs associated with existing customers, net of related revenues, are excluded as this measure is intended to reflect only the acquisition costs related to new customers. The following table reconciles total costs used in the calculation of CPGA to selling expenses, which we consider to be the most directly comparable GAAP financial measure to CPGA:

- (10) CPU is determined by dividing (a) cost of service and general and administrative costs (excluding applicable stock-based compensation expense included in cost of service and general and administrative expense) plus net loss on handset equipment transactions unrelated to initial customer acquisition, divided by (b) the sum of the average monthly number of customers during such period. We utilize CPU as a tool to evaluate the non-selling cash expenses associated with ongoing business operations on a per customer basis, to track changes in these non-selling cash costs over time, and to help evaluate how changes in our business operations affect non-selling cash costs per customer. In addition, CPU provides management with a useful measure to compare our non-selling cash costs per customer with those of other wireless providers. We believe investors use CPU primarily as a tool to track changes in our non-selling cash costs over time and to compare our non-selling cash costs to those of other wireless providers, although other wireless carriers may calculate this measure differently. The following table reconciles total costs used in the calculation of CPU to cost of service, which we consider to be the most directly comparable GAAP financial measure to CPU:

Risk factors

An investment in the notes involves a high degree of risk. Prior to making a decision about investing in the notes, you should carefully consider the specific risk factors set forth below, as well as the risk factors discussed under the heading "Risk Factors" in MetroPCS Communications Annual Report on Form 10-K for the year ended December 31, 2009, and in MetroPCS Communications Quarterly Reports on Form 10-Q for the quarterly periods ended March 31, 2010 and June 30, 2010, which are incorporated by reference in this prospectus supplement. The risks and uncertainties we have described are not the only ones we face. Additional risks and uncertainties not presently known to us or that we currently deem immaterial also may affect our business, financial condition and operating results. If any of these risks actually occurs, our business, financial condition and operating results could suffer, and you could lose all or part of your investment.

Risks related to the notes

The notes and the guarantees will be unsecured and effectively subordinated to our and the guarantors' existing and future secured indebtedness and structurally subordinated to any future indebtedness and other liabilities of our non-guarantor subsidiaries.

The notes and the guarantees will be general unsecured senior obligations ranking effectively junior in right of payment to all existing and future secured debt of ours and that of each guarantor, including obligations under our senior secured credit facility to the extent of the value of the collateral securing the debt and will be subordinate in right of payment to any existing or future indebtedness and other liabilities of our non-guarantor subsidiaries. Substantially all of our assets and the assets of the subsidiary guarantors are subject to liens under our senior secured credit facility.

If we or a subsidiary guarantor is declared bankrupt, becomes insolvent or is liquidated or reorganized, any secured debt of ours, including under our senior secured credit facility, or that subsidiary guarantor will be entitled to be paid in full from our assets or the assets of the guarantor, as applicable, securing that debt before any payment may be made with respect to the notes or the affected guarantees. Holders of the notes will participate ratably in any remaining assets with all holders of our unsecured indebtedness that does not rank junior to the notes, including all of our other general creditors, based upon the respective amounts owed to each holder or creditor. In any of the foregoing events, there may not be sufficient assets to pay the indebtedness and other obligations that rank senior to the notes and the amounts due on the notes. As a result, holders of the notes would likely receive less, ratably, than holders of secured indebtedness. It is possible that there will be no assets from which claims of holders of the notes can be satisfied.

In addition, creditors of current and future subsidiaries that do not guarantee the notes will have claims, with respect to the assets of those subsidiaries, that rank structurally senior to the notes. In the event of any distribution or payment of assets of such subsidiaries in any dissolution, winding up, liquidation, reorganization, or other bankruptcy proceeding, the claims of those creditors must be satisfied prior to making any such distribution or payment to us in respect of its direct or indirect equity interests in such subsidiaries.

Table of Contents

Our substantial indebtedness could adversely affect our business, financial condition and operating results and our senior creditors would have a secured claim to any collateral securing the debt owed to them.

We have now, and will continue to have, a significant amount of debt. As of June 30, 2010, we had approximately \$1.5 billion of outstanding indebtedness under the senior secured credit facility, \$1.9 billion of outstanding indebtedness under our existing 9 1/4% senior notes, and \$189.8 million of capital leases. Assuming we had completed the offering of the notes and applied the proceeds to the purchase of the initial 9 1/4% senior notes in the tender offer, we would have had approximately \$3.7 billion of total debt (including secured indebtedness and capital leases) as of June 30, 2010.

Our ability to make payments on our debt and to fund operations and significant planned capital expenditures will depend on our ability to generate cash in the future. Our ability to produce cash from operations is subject to a number of risks, including:

introduction of new products and services by us or our competitors or changes in service plans or pricing by us or our competitors;

our ability to maintain our current cost structure; and

our ability to continue to grow our customer base and maintain our projected levels of churn.

Our substantial debt service obligations could have important material consequences to you, including the following:

limiting our ability to borrow money or sell stock to fund working capital, capital expenditures, debt service requirements, acquisitions, technological initiatives and other general corporate purposes;

making it more difficult for us to make payments on our indebtedness and satisfy our obligations under the notes;

increasing our vulnerability to general economic downturns and industry conditions and limiting our ability to withstand competitive pressure;

limiting our flexibility in planning for, or reacting to, changes in our business or the telecommunications industry;

limiting our ability to increase our capital expenditures to roll out new services or to upgrade our networks to new technologies, such as LTE;

limiting our ability to purchase additional spectrum or develop new metropolitan areas in the future;

reducing the amount of cash available for working capital needs, capital expenditures for existing and new markets and other corporate purposes by requiring us to dedicate a substantial portion of our cash flow from operations to the payment of principal of, and interest on, our indebtedness; and

placing us at a competitive disadvantage to our competitors who are less leveraged than we are.

Any of these risks could impair our ability to fund our operations or limit our ability to expand our business as planned, which could have a material adverse effect on our business, financial

Table of Contents

condition, and operating results. In addition, a substantial portion of our debt, including borrowings under our senior secured credit facility, bears interest at variable rates. If market interest rates increase, variable-rate debt will create higher debt service requirements, which could adversely affect our cash flow. While we have and may enter into agreements limiting our exposure to higher interest rates in the future, any such agreements may not offer complete protection from this risk, and any portion not subject to such agreements would have full exposure to higher interest rates.

Even with our current levels of indebtedness, we may incur additional indebtedness. This could further exacerbate the risks associated with our leverage.

Although we have substantial indebtedness, we may still be able to incur significantly more debt under our senior secured credit facility and our indentures governing our existing 9 1/4% senior notes and the notes offered hereby as market conditions permit, which could further reduce the cash we have available to invest in our operations, as a result of our increased debt service obligations. The terms of the agreements governing our long-term indebtedness, subject to specified limitations, allow for the incurrence of additional indebtedness by us and our subsidiaries. The more leveraged we become, the more we, and in turn the holders of our securities, become exposed to the risks described below in the risk factor entitled Our substantial indebtedness could adversely affect our business, financial condition and operating results and our senior creditors would have a secured claim to any collateral securing the debt owed to them.

In order to provide additional flexibility, especially in the current economic climate, we have filed a universal shelf registration statement with the SEC, to register debt, equity and other securities, including common stock, preferred stock, debt securities and guarantees of debt securities. The securities registered under this universal shelf registration statement could be offered from time to time, separately or together, directly by us or through underwriters, at amounts, prices, interest rates and other terms and conditions to be determined at the time of any offering. There can be no assurance that sufficient funds will be available to us under our existing indebtedness or otherwise. Further, should we need to raise additional capital, the foreign ownership restrictions mandated by the FCC, and applicable to us, could limit our ability to attract additional equity financing outside the United States. If we were able to obtain funds, it may not be on terms and conditions acceptable to us, which could limit or preclude our ability to pursue new opportunities, expand our service, upgrade our networks, engage in acquisitions, or purchase additional spectrum, thus limiting our ability to expand our business which could have a material adverse effect on our business, financial condition and operating results.

MetroPCS Communications may be permitted to form new subsidiaries who are not guarantors of the notes, and the assets of any non-guarantor subsidiaries, including Royal Street, may not be available to make payments on the notes.

MetroPCS Communications, MetroPCS, Inc., and all of our current and future direct and indirect domestic restricted subsidiaries are guarantors of the notes. Royal Street Communications and its subsidiaries are not guarantors of the notes. All of our future unrestricted subsidiaries, any of MetroPCS Communications subsidiaries that are not our subsidiaries and that do not guarantee any of our other debt, and any of Royal Street Communications subsidiaries, will not guarantee the notes. Payments on the notes are only required to be made by the issuer and the guarantors. As a result, no payments are required to be made from assets of MetroPCS Communications

Table of Contents

subsidiaries that do not guarantee the notes, or assets of Royal Street, unless those assets are transferred by dividend or otherwise to the issuer or a guarantor.

In the event that any non-guarantor subsidiary of MetroPCS Communications becomes insolvent, liquidates, reorganizes, dissolves or otherwise winds up, holders of its debt and its trade creditors generally will be entitled to payment of their claims from the assets of that subsidiary before any of those assets are made available to the issuer or any guarantors. Consequently, your claims in respect of the notes will be effectively subordinated to all of the obligations and liabilities, including trade payables, of any future subsidiaries of MetroPCS Communications (other than the issuer) and Royal Street Communications that are not guarantors.

To service our debt, we will require a significant amount of cash, which may not be available to us.

Our ability to meet our existing or future debt obligations and to reduce our indebtedness will depend on our future performance and the other cash requirements of our business. Our performance, to a certain extent, is subject to general economic conditions, financial, competitive, business, political, regulatory and other factors that are beyond our control. In addition, our ability to borrow funds in the future to make payment on our debt will depend on the satisfaction of covenants in our senior secured credit facility, the indentures governing our existing 9 1/4% senior notes and the notes offered hereby, other debt agreements and other agreements we may enter into in the future. Specifically, we will need to maintain certain financial ratios and satisfy financial condition tests. We cannot assure you that we will continue to generate sufficient cash flow from operations at or above current levels or that future borrowings will be available to us under our senior secured credit facility or from other sources in an amount sufficient to enable us to repay all of our indebtedness timely. If we are unable to satisfy our financial covenants or generate sufficient cash to timely repay our debt, the lenders could accelerate the maturity of some or all of our outstanding indebtedness. As a result, we believe we may need to refinance all or a portion of our remaining existing indebtedness prior to its maturity. Disruptions in the capital or financial markets or the general amount of debt refinancings occurring at the same time could make it more difficult to obtain debt or equity financing on reasonable terms or at all. We cannot assure you that we will be able to service our debt or refinance any or all of our indebtedness on favorable or commercially reasonable terms, or at all.

We may not have the ability to raise the funds necessary to finance the change of control offer required by the indenture.

Upon the occurrence of certain specific kinds of change of control events, under the terms of the indentures governing our existing 9 1/4% senior notes and the notes offered hereby, we will be required to offer to repurchase all outstanding notes at 101% of the principal amount thereof plus accrued and unpaid interest, if any, to the date of repurchase. However, it is possible that we will not have sufficient funds at the time of the change of control to make the required repurchase of notes or that restrictions in our senior secured credit facility will not allow such repurchases. See Description of notes Repurchase at the option of holders Change of control triggering event.

Our failure to purchase the existing 9 1/4% senior notes and the notes offered hereby as required under the indentures governing the existing 9 1/4% senior notes and the notes offered hereby would result in a default under such indentures and a cross default under our senior secured

Table of Contents

credit facility, each of which could have material adverse consequences for us and the holders of the notes. A change of control (as defined in the indentures governing the existing 9 1/4% senior notes and the notes offered hereby) may also be an event of default under our senior secured credit facility that would permit the lenders to accelerate the debt outstanding under that credit facility.

Our senior secured credit facility, the indenture governing the notes and the indentures governing our existing 9 1/4% senior notes include restrictive covenants that limit our operating flexibility.

The indentures governing the existing 9 1/4% senior notes and the notes offered hereby and our senior secured credit facility impose material operating and financial restrictions on us. These restrictions, subject in certain cases to ordinary course of business and other exceptions, may limit our ability to engage in some transactions, including the following:

incurring additional debt;

paying dividends, redeeming capital stock or making other restricted payments or investments;

selling or buying assets, properties or licenses;

developing assets, properties or licenses which we have or in the future may procure;

creating liens on assets;

participating in future FCC auctions of spectrum or private sales of spectrum;

engaging in mergers, acquisitions, business combinations, or other transactions;

merging, consolidating or disposing of assets;

entering into transactions with affiliates; and

placing restrictions on the ability of subsidiaries (other than Royal Street) to pay dividends or make other payments.

Under the senior secured credit facility, we are also subject to financial maintenance covenants with respect to our senior secured leverage and in certain circumstances total maximum consolidated leverage and certain minimum fixed charge coverage ratios. These restrictions could limit our ability to obtain debt financing, repurchase stock, refinance or pay principal on our outstanding debt, complete acquisitions for cash or debt or react to changes in our operating environment or the economy. Any future debt that we incur may contain similar or more restrictive covenants.

Any failure to comply with the restrictions of the senior secured credit facility or the indentures governing our existing 9 1/4% senior notes and the notes offered hereby, or certain current and any subsequent financing agreements may result in an event of default under these agreements, which in turn may result in defaults or acceleration of obligations under these agreements and other agreements, giving our lenders the right to terminate any commitments they had made to provide us with further funds and to require us to repay all amounts then outstanding.

The guarantees may not be enforceable because of fraudulent conveyance laws.

Edgar Filing: METROPCS INC - Form 424B5

The guarantors' guarantees of the notes may be subject to review under federal bankruptcy law or relevant state fraudulent conveyance laws if we or any guarantor files a petition for

S-20

Table of Contents

bankruptcy or our creditors file an involuntary petition for bankruptcy of us or any guarantor. Under these laws, if a court were to find that, at the time a guarantor incurred debt (including debt represented by the guarantee), such guarantor:

incurred this debt with the intent of hindering, delaying or defrauding current or future creditors;

received less than reasonably equivalent value or fair consideration for incurring this debt, and the guarantor:

was insolvent or was rendered insolvent by reason of the related financing transactions;

was engaged in, or about to engage in, a business or transaction for which its remaining assets constituted unreasonably small capital to carry on its business; or

intended to incur, or believed that it would incur, debts beyond its ability to pay these debts as they mature, as all of the foregoing terms are defined in or interpreted under the relevant fraudulent transfer or conveyance statutes; then the court could void the guarantee or subordinate the amounts owing under the guarantee to the guarantor's presently existing or future debt or take other actions detrimental to you.

The measure of insolvency for purposes of the foregoing considerations will vary depending upon the law of the jurisdiction that is being applied in any such proceeding. Generally, an entity would be considered insolvent if, at the time it incurred the debt or issued the guarantee:

it could not pay its debts or contingent liabilities as they become due;

the sum of its debts, including contingent liabilities, is greater than its assets, at a fair valuation; or

the present fair saleable value of its assets is less than the amount required to pay the probable liability on its total existing debts and liabilities, including contingent liabilities, as they become absolute and mature.

If a guarantee is voided as a fraudulent conveyance or found to be unenforceable for any other reason, you will not have a claim against that obligor and will only be our creditor or that of any guarantor whose obligation was not set aside or found to be unenforceable. In addition, the loss of a guarantee will constitute an event of default under the indentures relating to our existing 9 1/4 % senior notes and the notes offered hereby, which event of default would allow the holders of our existing 9 1/4% senior notes and the holders of the notes offered hereby to accelerate the amounts due and payable thereunder and would also cause an event of default under our secured credit facility which would give our lenders the right to accelerate amounts due thereunder and we may not have the ability to pay any such amounts.

There is no established trading market for the notes and no guarantee that a market will develop or that you will be able to sell your notes.

The notes are a new issue of securities for which there is no established trading market. An active trading market may not develop for the notes. Historically, the market for non-investment grade debt has been subject to disruptions that have caused substantial volatility in the prices of securities similar to the notes. The market, if any, for the notes may not be free from similar disruptions, and any such disruptions may adversely affect the prices at which you may sell your

Table of Contents

notes. In addition, subsequent to their initial issuance, the notes may trade at a discount from their initial offering price, depending upon prevailing interest rates, the market for similar notes, our operating performance and financial condition and other factors. We do not intend to apply for listing or quotation of the notes on any securities exchange or stock market. The notes being offered herein are not additional debt securities under the indentures governing our existing 9 1/4% senior notes. The notes being offered herein will be issued under a new indenture, will not vote together with our existing 9 1/4% senior notes, will not be required to be redeemed on a *pro rata* basis with our existing 9 1/4% senior notes and will not trade with our existing 9 1/4% senior notes.

The trading prices for the notes will be directly affected by many factors, including our credit rating.

Credit rating agencies continually revise their ratings for companies they follow, including us. Any ratings downgrade could adversely affect the trading price of the notes, or the trading market for the notes, to the extent a trading market for the notes develops. The condition of the financial and credit markets and prevailing interest rates have fluctuated in the past and are likely to fluctuate in the future and any fluctuation may impact the trading price of the notes.

Use of proceeds

We estimate that the net proceeds to us from the offering, after deducting underwriting discounts and commissions and estimated offering expenses, are expected to be approximately \$974.9 million.

We intend to use the net proceeds from this offering, together with cash on hand, to fund the purchase of up to \$1.0 billion of the \$1.4 billion outstanding principal amount of the initial 9 1/4% senior notes in the tender offer. This offering is not conditioned upon the closing of the tender offer. The closing of the tender offer is conditioned on, among other things, the closing of this offering, as well as other customary closing conditions.

In the event that we purchase less than \$1.0 billion aggregate principal amount of the initial 9 1/4% senior notes in the tender offer, we currently intend to use a portion of the net proceeds from this offering to redeem an aggregate principal amount of initial 9 1/4% senior notes equal to the difference between \$1.0 billion and the aggregate principal amount of initial 9 1/4% senior notes purchased in the tender offer at a price of 104.625% of the principal amount thereof, plus any accrued and unpaid interest to, but not including, the redemption date. The redemption would be made in accordance with the indenture governing the initial 9 1/4% senior notes.

Description of existing indebtedness

Our senior secured credit facility

On November 3, 2006, we entered into a senior secured credit facility, pursuant to which we could borrow up to \$1.7 billion. The senior secured credit facility consists of a \$1.6 billion term loan facility and a \$100.0 million revolving credit facility. The term loan facility is repayable in quarterly installments in annual aggregate amounts equal to 1% of the initial aggregate principal amount of \$1.6 billion. The term loan facility matures on November 3, 2013 and the revolving credit facility matures on November 3, 2011. On November 3, 2006, we borrowed \$1.6 billion under the senior secured facility concurrently with the closing of the sale of the 9 1/4% senior notes. We used the amount borrowed, together with the net proceeds from the sale of such 9 1/4% senior notes, to repay all amounts owed under our then-existing first and second lien credit agreements and bridge credit facilities entered into by subsidiaries of MetroPCS Communications, and to pay related premiums, fees and expenses.

The senior secured credit facility is guaranteed by MetroPCS Communications, MetroPCS, Inc. and each of our direct and indirect present and future wholly-owned restricted domestic subsidiaries. The senior secured credit facility is not guaranteed by Royal Street, but we have pledged the promissory note that Royal Street has given us in connection with amounts borrowed by Royal Street from us and the member interests we hold in Royal Street Communications. The senior secured credit facility contains customary events of default, including cross defaults. Our obligations under the senior secured credit facility are also secured by our capital stock as well as substantially all of our present and future assets and each of our current and future wholly-owned domestic restricted subsidiaries (except as prohibited by law and certain permitted exceptions).

Under the senior secured credit facility, we are subject to certain limitations, including limitations on our ability to incur additional debt, sell assets, make certain investments or acquisitions, grant liens and pay dividends. We are also subject to certain financial covenants, including maintaining a maximum senior secured consolidated leverage ratio and, under certain circumstances, maximum consolidated leverage and minimum fixed charge coverage ratios. See Management's Discussion and Analysis of Financial Condition and Results of Operation Liquidity and Capital Resources in MetroPCS Communications Annual Report on Form 10-K for the year ended December 31, 2009. There is no prohibition on our ability to make investments in or loan money to Royal Street in accordance with the Royal Street LLC Agreement.

Amounts outstanding under the senior secured credit facility bear interest at a LIBOR rate plus a margin as set forth in the facility. In March 2009, we entered into three separate two-year interest rate protection agreements. These agreements became effective on February 1, 2010 and cover a notional amount of \$1.0 billion and effectively convert this portion of our variable rate debt to fixed rate debt at a weighted average annual rate of 4.381%. The monthly interest settlement periods began February 1, 2010. These agreements expire on February 1, 2012.

On February 20, 2007, we entered into an amendment to the senior secured credit facility reducing the margin used to determine the senior secured credit facility interest rate to 2.25% from 2.50%.

On July 16, 2010, we entered into an Amendment and Restatement and Resignation and Appointment Agreement, or the Amendment, which amends and restates our senior secured

Table of Contents

credit facility. The Amendment amends the senior secured credit facility to, among other things, extend the maturity of \$1.0 billion of existing term loans under the senior secured credit facility to November 2016, increase the interest rate on the extended term loans to LIBOR plus 3.50% and reduce the aggregate amount of revolving commitments under the senior secured credit facility from \$100.0 million to \$67.5 million. The Amendment did not modify the maturity date or interest rate applicable to the non-extended term loans.

Our existing 9¹/₄% senior notes

On November 3, 2006, we consummated the sale of \$1.0 billion principal amount of our 9¹/₄% senior notes. On June 6, 2007, we consummated the sale of an additional \$400.0 million principal amount of our additional 9¹/₄% senior notes, under the indenture governing our 9¹/₄% senior notes. On January 20, 2009, we completed the sale of an additional \$550.0 million principal amount of new 9¹/₄% senior notes under a new indenture substantially similar to the indenture governing our initial 9¹/₄% senior notes. The existing 9¹/₄% senior notes are unsecured obligations and are guaranteed by MetroPCS Communications, MetroPCS, Inc., and all of our direct and indirect wholly-owned domestic restricted subsidiaries, but are not guaranteed by Royal Street. Interest is payable on our existing 9¹/₄% senior notes on May 1 and November 1 of each year. We may, at our option, redeem some or all of our existing 9¹/₄% senior notes at any time on or after November 1, 2010 for the redemption prices set forth in the indentures governing our existing 9¹/₄% senior notes. In addition, we may also redeem up to 35% of the aggregate principal amount of our existing 9¹/₄% senior notes with the net cash proceeds of certain sales of equity securities, including the sale of common stock. The notes being offered herein are not additional debt securities under the indentures governing our existing 9¹/₄% senior notes. The notes being offered herein will be issued under a new indenture, will not vote together with our existing 9¹/₄% senior notes, will not be required to be redeemed on a *pro rata* basis with our existing 9¹/₄% senior notes and will not trade with our existing 9¹/₄% senior notes.

Concurrently with this offering, we are conducting the tender offer for up to \$1.0 billion of the \$1.4 billion outstanding principal amount of our initial 9¹/₄% senior notes. The tender offer is scheduled to expire on October 5, 2010, subject to our right to extend the offer. The tender offer is being made pursuant to a separate Offer to Purchase, and this prospectus supplement and the accompanying prospectus are not an offer to purchase the initial 9¹/₄% senior notes. We intend to finance the purchase of the initial 9¹/₄% senior notes in the tender offer with the net proceeds from this offering, together with cash on hand. This offering is not conditioned upon the closing of the tender offer. The closing of the tender offer is conditioned on, among other things, the closing of this offering, as well as other customary closing conditions.

In the event that we purchase less than \$1.0 billion aggregate principal amount of the initial 9¹/₄% senior notes in the tender offer, we currently intend to use a portion of the net proceeds from this offering to redeem an aggregate principal amount of initial 9¹/₄% senior notes equal to the difference between \$1.0 billion and the aggregate principal amount of initial 9¹/₄% senior notes purchased in the tender offer at a price of 104.625% of the principal amount thereof, plus any accrued and unpaid interest to, but not including, the redemption date. The redemption would be made in accordance with the indenture governing the initial 9¹/₄% senior notes.

Description of notes

You can find the definitions of certain terms used in this description of notes under the subheading *Certain definitions* below. In this description of notes, *Issuer* refers only to MetroPCS Wireless, Inc. and not to any of its Subsidiaries, *HoldCo* refers only to MetroPCS, Inc. and not to any of its Subsidiaries and *Parent* refers only to MetroPCS Communications, Inc. and not to any of its Subsidiaries.

Issuer will issue the notes as a series of debt securities under a base indenture among itself, HoldCo, Parent, the Subsidiary Guarantors and Wells Fargo Bank, N.A., as trustee, as supplemented by a supplemental indenture (the *supplemental indenture*) among the Issuer, Holdco, Parent and the Subsidiary Guarantors and the trustee. In this description of notes, the term *indenture* refers to the base indenture as supplemented by the supplemental indenture. The terms of the notes will include those stated in the indenture and those made part of the indenture by reference to the Trust Indenture Act of 1939, as amended.

The obligations and covenants of Issuer described hereunder are only of Issuer and not of Parent, its indirect parent company, or HoldCo, its direct parent company. Although Parent and HoldCo will be guarantors of the notes, they and their Subsidiaries, except Issuer and its Restricted Subsidiaries, are generally not subject to any of the obligations and covenants described hereunder. Royal Street Communications, LLC and its Subsidiaries (which are not Subsidiaries of Issuer as of the date of the supplemental indenture) are not Guarantors and are not subject to any of the obligations and covenants described hereunder.

The following description is a summary of the material provisions of the indenture. It does not restate the indenture in its entirety. We urge you to read the indenture in its entirety because it, and not this description of notes, defines your rights as a holder of the notes. We have filed a copy of the base indenture with the SEC, which has been incorporated by reference as an exhibit to the registration statement of which this prospectus supplement is part. For more information on how you can obtain a copy of the base indenture and the supplemental indenture, see *Incorporation of documents by reference*. Certain defined terms used in this description of notes but not defined below under *Certain definitions* have the meanings assigned to them in the indenture.

The registered holder of a note will be treated as the owner of it for all purposes. Only registered holders will have rights under the indenture.

Brief description of the notes and the note guarantees

The notes

The notes:

will be general unsecured obligations of Issuer;

will be *pari passu* in right of payment with all existing and future unsecured senior Indebtedness and other liabilities of Issuer, including, without limitation, Issuer's existing 9/4% senior notes due 2014;

will be senior in right of payment to any future subordinated Indebtedness of Issuer to the extent that such future Indebtedness provides by its terms that it is subordinated to the notes; and

will be unconditionally guaranteed on a senior unsecured basis by the Guarantors.

Table of Contents

However, the notes will be effectively subordinated to all borrowings under the Credit Agreement, which are secured by substantially all of the assets of HoldCo, Issuer and the Subsidiary Guarantors (except for certain permitted exceptions or as prohibited by law), and all other existing and future secured Indebtedness of Issuer or any Guarantor to the extent of the assets securing such Indebtedness and to all liabilities of any of Issuer's Subsidiaries that do not guarantee the notes to the extent of the assets of those Subsidiaries. See Risk Factors Risks related to the notes The notes and the guarantees will be unsecured and effectively subordinated to our and the guarantors' existing and future secured indebtedness and structurally subordinated to any future indebtedness and other liabilities of our non-guarantor subsidiaries.

As of June 30, 2010, after giving effect to the issuance and sale of the notes offered hereby and the anticipated use of proceeds therefrom, Issuer would have had outstanding approximately \$1.7 billion in aggregate principal amount of secured Indebtedness and approximately \$1.9 billion in aggregate principal amount of unsecured Indebtedness. Also as of June 30, 2010, Parent's Subsidiaries that do not guarantee the notes and Royal Street and its Subsidiaries (which are not Subsidiaries of Issuer as of the date of the supplemental indenture) collectively had outstanding approximately \$46.2 million in aggregate principal amount of Indebtedness (excluding Indebtedness owed to Issuer and its Subsidiaries).

The note guarantees

The notes will be guaranteed by Parent, HoldCo and all of Issuer's Domestic Restricted Subsidiaries.

Each guarantee of the notes by a Guarantor:

will be a general unsecured obligation of that Guarantor;

will be *pari passu* in right of payment with all existing and future unsecured senior Indebtedness and other liabilities of that Guarantor, including, without limitation, its guarantee of Issuer's existing 9.4% senior notes due 2014; and

will be senior in right of payment to any future subordinated Indebtedness of that Guarantor to the extent that such future Indebtedness provides by its terms that it is subordinated to its guarantee of the notes.

However, the guarantees will be effectively subordinated to all existing and future secured Indebtedness of the Guarantors to the extent of the assets securing such Indebtedness. See Risk Factors Risks related to the notes The notes and the guarantees will be unsecured and effectively subordinated to our and the guarantors' existing and future secured indebtedness and structurally subordinated to any future indebtedness and other liabilities of our non-guarantor subsidiaries.

Initially, all of Issuer's existing Subsidiaries will guarantee the notes. Under the circumstances described below under the subheading Certain covenants Additional note guarantees, in the future one or more of Issuer's newly created or acquired Subsidiaries may not guarantee the notes. In the event of a bankruptcy, liquidation or reorganization of any of these non-guarantor Subsidiaries, the non-guarantor Subsidiaries will pay their trade creditors and holders of their debt and other obligations before they will be able to distribute any of their assets to Issuer.

Table of Contents

As of the date of the supplemental indenture, all of Issuer's Subsidiaries will be Restricted Subsidiaries. However, under the circumstances described below under the caption Certain covenants Designation of restricted and unrestricted subsidiaries, Issuer will be permitted to designate certain of its Subsidiaries as Unrestricted Subsidiaries. Issuer's Unrestricted Subsidiaries will not be subject to many of the restrictive covenants in the indenture. Issuer's Unrestricted Subsidiaries will not guarantee the notes.

Principal, maturity and interest

Issuer will issue \$1.0 billion in aggregate principal amount of notes in this offering. Issuer may issue additional notes from time to time after this offering, and such additional notes may be issued either under the base indenture as supplemented by the supplemental indenture for the notes or one or more additional supplemental indentures. Any issuance of additional notes is subject to all of the covenants in the indenture, including the covenant described below under the caption Certain covenants Incurrence of indebtedness and issuance of preferred stock. The notes and any additional notes subsequently issued under the same supplemental indenture will be treated as a single series for all purposes under the indenture, including, without limitation, waivers, amendments, redemptions and offers to purchase. Issuer will issue notes in minimum denominations of \$2,000 and integral multiples of \$1,000. The notes will mature on September 1, 2018.

Interest on the notes will accrue at the rate of 7.875% per annum and will be payable semiannually in arrears on March 1 and September 1, commencing on March 1, 2011. Issuer will make each interest payment to the holders of record on the immediately preceding February 15 and August 15.

Interest on the notes will accrue from the date of original issuance or, if interest has already been paid, from the date it was most recently paid. Interest will be computed on the basis of a 360-day year comprised of twelve 30-day months. If an interest payment date or the maturity date falls on a day that is not a business day, the related payment of principal or interest will be made on the next succeeding business day as if made on the date the payment was due, and no interest shall accrue for the intervening period.

Payments of principal of and interest on the notes issued in book-entry form or definitive form, if any, will be made as described below under the caption Same day settlement and payment.

The notes will initially be evidenced by one or more global notes deposited with a custodian for, and registered in the name of Cede & Co., as nominee of The Depository Trust Company (DTC). Except as described below, beneficial interests in the global notes will be shown on, and transfers thereof will be effected only through, records maintained by DTC and its direct and indirect participants. We do not intend to apply for the notes to be listed on any securities exchange or to arrange for the notes to be quoted on any quotation system.

Methods of receiving payments on the notes

If a holder of a definitive note has given wire transfer instructions to Issuer and Issuer is the paying agent, Issuer will pay all principal, interest and premium, if any, on that holder's notes in accordance with those instructions. All other payments on the notes will be made at the office or agency of the paying agent and registrar within the City and State of New York unless Issuer elects to make interest payments by check mailed to the noteholders at their address set forth in the books and records of the registrar.

Table of Contents

Paying agent and registrar for the notes

The trustee will initially act as paying agent and registrar. Issuer may change the paying agent or registrar without prior notice to the holders of the notes, and Issuer or any of its Subsidiaries may act as paying agent or registrar.

Transfer and exchange

Except as set forth below, the global notes may be transferred, in whole and not in part, only to another nominee of DTC or to a successor of DTC or its nominee, as described below under the caption Book-entry, delivery and form.

A holder of a definitive note may transfer or exchange notes in accordance with the provisions of the indenture. The registrar and the trustee may require a holder, among other things, to furnish appropriate endorsements and transfer documents in connection with a transfer of notes. Holders will be required to pay all taxes relating to, arising out of, or in connection with such transfer. Issuer will not be required to transfer or exchange any note selected for redemption. Also, Issuer will not be required to transfer or exchange any note for a period of 15 days before a selection of notes to be redeemed.

Note guarantees

The notes will be guaranteed by Parent, HoldCo and all of Issuer's Domestic Restricted Subsidiaries. These Note Guarantees will be joint and several obligations of the Guarantors. The obligations of each Guarantor under its Note Guarantee will be limited as necessary to prevent that Note Guarantee from constituting a fraudulent conveyance under applicable law. See Risk factors Risks related to the notes The guarantees may not be enforceable because of fraudulent conveyance laws.

A Guarantor (other than Parent) may not sell or otherwise dispose of all or substantially all of its assets to, or consolidate with or merge with or into (whether or not such Guarantor is the surviving Person) another Person, other than Issuer or another Guarantor, unless:

- (1) immediately after giving effect to that transaction, no Default or Event of Default exists; and
- (2) either:
 - (a) if it is not already a Guarantor, the Person acquiring the property in any such sale or disposition or the Person formed by or surviving any such consolidation or merger assumes all the obligations of that Guarantor under the indenture and its Note Guarantee pursuant to a supplemental indenture satisfactory to the trustee; or
 - (b) the Net Proceeds of such sale or other disposition are applied in accordance with the applicable provisions of the indenture.

The Note Guarantee of a Guarantor will be released:

- (1) in connection with any sale or other disposition of all or substantially all of the assets of that Guarantor (including by way of merger or consolidation) to a Person that is not (either before or after giving effect to such transaction) Issuer or a Restricted Subsidiary of Issuer, if the sale or other disposition is not prohibited by the Asset Sale provisions of the indenture;

Table of Contents

- (2) in connection with any sale or other disposition of Capital Stock of that Guarantor to a Person that is not (either before or after giving effect to such transaction) Issuer or a Restricted Subsidiary of Issuer, if the sale or other disposition does not violate the Asset Sale or Restricted Investment provisions of the indenture, and the Guarantor ceases to be a Restricted Subsidiary of Issuer as a result of such sale or other disposition;
 - (3) if Issuer designates any Restricted Subsidiary that is a Guarantor to be an Unrestricted Subsidiary in accordance with the applicable provisions of the indenture;
 - (4) upon legal defeasance or satisfaction and discharge of the indenture as provided below under the captions Legal defeasance and covenant defeasance and Satisfaction and discharge;
 - (5) upon the liquidation or dissolution of such Guarantor provided no Default or Event of Default has occurred that is continuing; or
 - (6) solely in the case of a Note Guarantee created pursuant to clause (b) of the covenant described below under the caption Additional note guarantees, upon the release or discharge of the Guarantee that resulted in the creation of such Note Guarantee pursuant to the covenant described below under the caption Additional note guarantees, except a discharge or release by or as a result of payment under such Guarantee.
- See Repurchase at the option of holders Asset sales.

Optional redemption

At any time prior to September 1, 2013, Issuer may on any one or more occasions redeem up to 35% of the aggregate principal amount of notes issued under the indenture at a redemption price of 107.875% of the principal amount, plus accrued and unpaid interest to the redemption date, with the net cash proceeds of one or more sales of Equity Interests (other than Disqualified Stock) of Issuer or contributions to Issuer's common equity capital made with the net cash proceeds of one or more sales of Equity Interests (other than Disqualified Stock) of Parent; *provided* that:

- (1) at least 65% of the aggregate principal amount of notes issued under the indenture (excluding notes held by Issuer and its Subsidiaries) remains outstanding immediately after the occurrence of such redemption; and
 - (2) the redemption occurs within 180 days of the date of the closing of such sale of Equity Interests by Issuer or the date of contribution to Issuer's common equity capital made with net cash proceeds of one or more sales of Equity Interests of Parent.
- On or after September 1, 2014, Issuer may redeem all or a part of the notes upon not less than 30 (or such shorter period as may be permitted by the eligibility rules of DTC) nor more than 60 days' notice, at the redemption prices (expressed as percentages of principal amount) set forth below plus accrued and unpaid interest on the notes redeemed, to the applicable redemption date, if redeemed during the twelve month period beginning on September 1 of the years indicated below, subject to the rights of holders of notes on the relevant record date to receive interest on the relevant interest payment date for periods prior to such redemption date:

| Year | Percentage |
|---------------------|------------|
| 2014 | 103.938% |
| 2015 | 101.969% |
| 2016 and thereafter | 100.000% |

Table of Contents

Unless Issuer defaults in the payment of the redemption price, interest will cease to accrue on the notes or portions thereof called for redemption on the applicable redemption date.

At any time prior to September 1, 2014, Issuer may also redeem all or a part of the notes, upon not less than 30 (or such shorter period as may be permitted by the eligibility rules of DTC) nor more than 60 days' prior notice sent electronically or mailed by first-class mail to each holder's registered address, at a redemption price equal to 100% of the principal amount of notes redeemed plus the Applicable Premium as of, and accrued and unpaid interest to, the date of redemption, subject to the rights of holders of notes on the relevant record date to receive interest due on the relevant interest payment date for periods prior to such date of redemption.

Mandatory redemption

Issuer is not required to make mandatory redemption or sinking fund payments with respect to the notes.

Repurchase at the option of holders

Change of control triggering event

If a Change of Control Triggering Event occurs, each holder of notes will have the right to require Issuer to repurchase all or any part (equal to \$2,000 or an integral multiple of \$1,000) of that holder's notes pursuant to a Change of Control Offer on the terms set forth in the indenture. In the Change of Control Offer, Issuer will offer a Change of Control Payment in cash equal to 101% of the aggregate principal amount of notes repurchased plus accrued and unpaid interest on the notes repurchased to the date of purchase, subject to the rights of holders of notes on the relevant record date to receive interest due on the relevant interest payment date for periods prior to such repurchase date (the *Change of Control Payment*). Within 30 days following any Change of Control Triggering Event, Issuer will send a notice (the *Change of Control Offer*) to each holder and the trustee describing the transaction or transactions and identify the ratings decline that together constitute the Change of Control Triggering Event and offering to repurchase notes on the Change of Control Payment Date specified in the notice, which date will be no earlier than 30 days (or such shorter period as may be permitted by the eligibility rules of DTC) and no later than 60 days from the date such notice is sent (the *Change of Control Payment Date*), pursuant to the procedures required by the indenture and described in such notice. Issuer will comply with the requirements of Rule 14e-1 under the Exchange Act and any other securities laws and regulations thereunder to the extent those laws and regulations are applicable in connection with the repurchase of the notes as a result of a Change of Control Triggering Event. To the extent that the provisions of any securities laws or regulations conflict with the Change of Control Triggering Event provisions of the indenture, or compliance with the Change of Control Triggering Event provisions of the indenture would constitute a violation of any such laws or regulations, Issuer will comply with the applicable securities laws and regulations and will not be deemed to have breached its obligations under the Change of Control Triggering Event provisions of the indenture by virtue of such compliance. In connection with the tender of any notes with respect to a Change of Control Triggering Event, the tendering holder shall provide good title to the notes, free and clear of all liens and encumbrances, and shall represent and warrant that such holder is presenting good title, free and clear of all liens and encumbrances, and such other representations and warranties as are customary.

Table of Contents

On the Change of Control Payment Date, Issuer will, to the extent lawful:

- (1) accept for payment all notes or portions of notes properly tendered pursuant to the Change of Control Offer;
- (2) deposit with the paying agent an amount equal to the Change of Control Payment in respect of all notes or portions of notes properly tendered; and
- (3) deliver or cause to be delivered to the trustee the notes properly accepted together with an officers certificate stating the aggregate principal amount of notes or portions of notes being purchased by Issuer.

The paying agent will promptly make payment to each holder of notes properly tendered the Change of Control Payment for such notes, and the trustee will promptly authenticate and mail (or cause to be transferred by book entry) to each holder, a new note equal in principal amount to any unpurchased portion of the notes surrendered, if any; *provided* that each new note will be in a principal amount of \$2,000 or an integral multiple of \$1,000 in excess thereof. Issuer will publicly announce the results of the Change of Control Offer on or as soon as practicable after the Change of Control Payment Date.

The provisions described above that require Issuer to make a Change of Control Offer following a Change of Control Triggering Event will be applicable whether or not any other provisions of the indenture are applicable. Except as described above with respect to a Change of Control Triggering Event, the indenture does not contain provisions that permit the holders of the notes to require, or otherwise provide, that Issuer repurchase or redeem the notes in the event of a takeover, recapitalization or similar transaction.

Issuer will not be required to make a Change of Control Offer upon a Change of Control Triggering Event if (1) a third party makes the Change of Control Offer in the manner, at the times and otherwise in compliance with the requirements set forth in the indenture applicable to a Change of Control Offer made by Issuer and purchases all notes properly tendered and not withdrawn under the Change of Control Offer, or (2) notice of redemption has been given pursuant to the indenture as described above under the caption Optional redemption, unless and until there is a default in payment of the applicable redemption price.

A Change of Control Offer may be made in advance of a Change of Control Triggering Event, and conditioned upon such Change of Control Triggering Event, if a definitive agreement is in place for the Change of Control at the time of making of the Change of Control Offer.

In the event that holders of not less than 90% of the aggregate principal amount of the outstanding notes accept a Change of Control Offer and Issuer purchases all of the notes held by such holders, Issuer will have the right, upon not less than 30 nor more than 60 days prior notice, given not more than 30 days following the purchase pursuant to the Change of Control Offer described above, to redeem all of the notes that remain outstanding following such purchase at a redemption price equal to the Change of Control Payment plus, to the extent not included in the Change of Control Payment, accrued and unpaid interest on the notes that remain outstanding, to the date of redemption (subject to the right of holders of record on the relevant record date to receive interest due on an interest payment date that is on or prior to the redemption date).

The definition of Change of Control includes a phrase relating to the direct or indirect sale, lease, transfer, conveyance or other disposition of all or substantially all of the properties or assets of

Table of Contents

Issuer and its Restricted Subsidiaries taken as a whole. Although there is a limited body of case law interpreting the phrase substantially all, there is no precise established definition of the phrase under applicable law. Accordingly, the ability of a holder of notes to require Issuer to repurchase its notes as a result of a sale, lease, transfer, conveyance or other disposition of less than all of the assets of Issuer and its Restricted Subsidiaries taken as a whole to another Person or group may be uncertain.

Asset sales

Issuer will not, and will not permit any of its Restricted Subsidiaries to, consummate an Asset Sale unless:

- (1) Issuer (or the Restricted Subsidiary, as the case may be) receives consideration at the time of the Asset Sale at least equal to the Fair Market Value of the assets or Equity Interests issued or sold or otherwise disposed of;
- (2) at least 75% of the consideration received in the Asset Sale by Issuer or such Restricted Subsidiary in the Asset Sale and all other Asset Sales since the date of the supplemental indenture is in the form of cash, Cash Equivalents or Replacement Assets or a combination thereof. For purposes of this provision, each of the following will be deemed to be cash:
 - (a) any liabilities, as shown on Issuer's most recent consolidated balance sheet (or as would be shown on Issuer's consolidated balance sheet as of the date of such Asset Sale), of Issuer or any Restricted Subsidiary (other than contingent liabilities and liabilities that are by their terms subordinated to the notes or any Note Guarantee) that are assumed by the transferee of any such assets pursuant to a novation agreement that releases Issuer or such Restricted Subsidiary from further liability; and
 - (b) any securities, notes or other obligations received by Issuer, or any such Restricted Subsidiary, from such transferee that are converted by Issuer or such Restricted Subsidiary into cash, Cash Equivalents or Replacement Assets within 90 days after such Asset Sale, to the extent of the cash, Cash Equivalents or Replacement Assets received in that conversion.

Notwithstanding the foregoing, the 75% limitation referred to above shall be deemed satisfied with respect to any Asset Sale in which the cash, Cash Equivalents or Replacement Assets portion of the consideration received therefrom, determined in accordance with the foregoing provision on an after-tax basis, is equal to or greater than what the after-tax proceeds would have been had such Asset Sale complied with the aforementioned 75% limitation.

Within 365 days after the receipt of any Net Proceeds from an Asset Sale, Issuer or a Restricted Subsidiary may apply an amount equal to such Net Proceeds:

- (1) to purchase Replacement Assets; or
- (2) to prepay, repay, defease, redeem, purchase or otherwise retire Indebtedness and other Obligations under a Credit Facility or Indebtedness secured by property that is subject to such Asset Sale and, if the Indebtedness repaid is revolving credit Indebtedness, to correspondingly reduce commitments with respect thereto.

Notwithstanding the foregoing, if within 365 days after the receipt of any Net Proceeds from an Asset Sale, Issuer or a Restricted Subsidiary enters into a binding written agreement irrevocably

Table of Contents

committing Issuer or such Restricted Subsidiary to an application of funds of the kind described in clause (1) above, and as to which the only condition to closing not satisfied within 365 days of the receipt of such Net Proceeds is the receipt of required governmental approvals, Issuer or such Restricted Subsidiary shall be deemed not to be in violation of the preceding paragraph so long as such application of funds is consummated within 545 days of the receipt of such Net Proceeds.

Pending the final application of any Net Proceeds of an Asset Sale, Issuer may temporarily reduce revolving credit borrowings or otherwise use the Net Proceeds in any manner that is not prohibited by the indenture.

An amount equal to any Net Proceeds from Asset Sales that are not applied or invested as provided in the third paragraph of this covenant will constitute *Excess Proceeds*. When the aggregate amount of Excess Proceeds exceeds \$20.0 million, within 20 days thereof, Issuer will make an Asset Sale Offer to all holders of notes and all holders of other Indebtedness that is *pari passu* with the notes containing provisions similar to those set forth in the indenture with respect to purchase or redeem with the proceeds of sales of assets to purchase the maximum principal amount of notes and such other *pari passu* Indebtedness that may be purchased out of the Excess Proceeds. The offer price in any Asset Sale Offer will be equal to 100% of the principal amount of the notes and such other *pari passu* Indebtedness that may be purchased with Excess Proceeds, plus accrued and unpaid interest to the date of purchase, and will be payable in cash. If any Excess Proceeds remain after consummation of an Asset Sale Offer, Issuer and its Restricted Subsidiaries may use those Excess Proceeds for any purpose not otherwise prohibited by the indenture. If the aggregate principal amount of notes and other *pari passu* Indebtedness tendered into such Asset Sale Offer exceeds the amount of Excess Proceeds, the trustee will select the notes and Issuer will select such other *pari passu* Indebtedness to be purchased on a *pro rata* basis. Upon completion of each Asset Sale Offer, the amount of Excess Proceeds will be reset at zero.

Issuer will comply with the requirements of Rule 14e-1 under the Exchange Act and any other securities laws and regulations thereunder to the extent those laws and regulations are applicable in connection with each repurchase of notes pursuant to an Asset Sale Offer. To the extent that the provisions of any securities laws or regulations conflict with the Asset Sale provisions of the indenture, or compliance with the Asset Sale provisions of the indenture would constitute a violation of any such laws or regulations, Issuer will comply with the applicable securities laws and regulations and will not be deemed to have breached its obligations under the Asset Sale provisions of the indenture by virtue of such compliance.

The agreements governing Issuer's other Indebtedness contain, and future agreements may contain, prohibitions of certain events, including events that would constitute a Change of Control or an Asset Sale and may prohibit repurchases of or other prepayments in respect of the notes. The exercise by the holders of the notes of their right to require Issuer to repurchase the notes upon a Change of Control Triggering Event or an Asset Sale could cause a default under these other agreements, even if the Change of Control Triggering Event or Asset Sale itself does not, due to the financial effect of such repurchases or other prepayments on Issuer. In the event a Change of Control Triggering Event or Asset Sale occurs at a time when Issuer is prohibited from purchasing notes, Issuer could seek the consent of the holders of such Indebtedness to the purchase of notes or could attempt to refinance the borrowings that contain such prohibition. If Issuer does not obtain a consent or repay those borrowings, Issuer will remain prohibited from purchasing notes. In that case, Issuer's failure to purchase tendered notes would constitute an Event of Default under the indenture that could, in turn, constitute a default under the other

Table of Contents

Indebtedness. Finally, Issuer's ability to pay cash to the holders of notes upon a repurchase may be limited by Issuer's then existing financial resources. See Risk Factors Risks related to the notes Our senior secured credit facility, the indenture governing the notes and the indentures governing our existing 9¼% senior notes include restrictive covenants that limit our operating flexibility.

Selection and notice

If less than all of the notes are to be redeemed at any time, the trustee will select notes for redemption on a pro rata basis unless otherwise required by law or applicable stock exchange or depository requirements.

No notes of \$2,000 or less can be redeemed in part. Notices of redemption will be sent electronically or mailed by first class mail at least 30 (or such shorter period as may be permitted by the eligibility rules of DTC) but not more than 60 days before the redemption date to each holder of notes to be redeemed at its registered address, except that redemption notices may be sent more than 60 days prior to a redemption date if the notice is issued in connection with a defeasance of the notes or a satisfaction and discharge of the indenture. Except as otherwise set forth in the provisions described under the captions Repurchase at the option of holders Change of control triggering event, notices of redemption may not be conditional.

If any note is to be redeemed in part only, the notice of redemption that relates to that note will state the portion of the principal amount of that note that is to be redeemed. If in definitive form a new note in principal amount equal to the unredeemed portion of the original note will be issued in the name of the holder of notes upon cancellation of the original note. Except to the extent that a notice of redemption is conditional as permitted in the provisions described under the captions Repurchase at the option of holders Change of control triggering event, notes called for redemption become due on the date fixed for redemption. On and after the redemption date, interest ceases to accrue on notes or portions of notes called for redemption.

Certain covenants

Changes in covenants when notes rated investment grade

If on any date following the date of the supplemental indenture:

- (1) the notes are rated Investment Grade by two out of the three Rating Agencies; and
- (2) no Default or Event of Default shall have occurred and be continuing (other than with respect to the covenants specifically listed under the following captions),
then, beginning on that day and subject to the provisions of the following paragraph, the covenants specifically listed under the following captions in this prospectus supplement will be suspended:

- (1) Repurchase at the option of holders Asset sales;
- (2) Restricted payments;
- (3) Incurrence of indebtedness and issuance of preferred stock;
- (4) Dividend and other payment restrictions affecting subsidiaries;

(5) Transactions with affiliates;

(6) Designation of restricted and unrestricted subsidiaries; and

(7) clauses (3) (to the extent that a Default or Event of Default exists by reason of one or more of the covenants specifically listed in this paragraph) and (4) of the covenant described below under the caption Merger, consolidation or sale of assets.

During any period that the foregoing covenants have been suspended, Issuer's Board of Directors may not designate any of its Subsidiaries as Unrestricted Subsidiaries pursuant to the covenant described below under the caption Designation of restricted and unrestricted subsidiaries or the definition of Unrestricted Subsidiary.

Notwithstanding the foregoing, if the rating assigned by two out of the three Rating Agencies should subsequently decline to below Investment Grade, the foregoing covenants will be reinstated as of and from the date of such rating decline and any actions taken, or omitted to be taken, before such rating decline that would have been prohibited had the foregoing covenants been in effect shall not form the basis for a Default or an Event of Default.

Calculations under the reinstated Restricted Payments covenant will be made as if the Restricted Payments covenant had been in effect since the date of the supplemental indenture except that no Default or Event of Default will be deemed to have occurred solely by reason of a Restricted Payment made while that covenant was suspended. There can be no assurance that the notes will ever achieve an Investment Grade rating or that any such rating will be maintained.

Restricted payments

Issuer will not, and will not permit any of its Restricted Subsidiaries to, directly or indirectly:

(2) purchase, redeem or otherwise acquire or retire for value (including, without limitation, in connection with any merger or consolidation involving Issuer) any Equity Interests of Issuer or any direct or indirect parent of Issuer;

(3) make any payment on or with respect to, or purchase, redeem, defease or otherwise acquire or retire for value any Indebtedness of Issuer or any Guarantor that is contractually subordinated to the notes or to any Note Guarantee (excluding any intercompany Indebtedness between or among Issuer and any of its Restricted Subsidiaries), except a payment of interest or principal at the Stated Maturity thereof; or

(4) make any Restricted Investment

(all such payments and other actions set forth in clauses (1) through (4) above being collectively referred to as *Restricted Payments*),

Issuer will not, and will not permit any of its Restricted Subsidiaries to, directly or indirectly, create, incur, issue, assume, guarantee or otherwise become directly or indirectly liable, contingently or otherwise, with respect to (collectively, *incur*) any Indebtedness (including Acquired Debt), and Issuer will not issue any Disqualified Stock and will not permit any of its Restricted Subsidiaries to issue any shares of Preferred Stock; *provided, however*, that Issuer may incur Indebtedness (including Acquired Debt) or issue Disqualified Stock and the Subsidiary Guarantors may incur Indebtedness (including Acquired Debt) or issue Preferred Stock, if the Debt to Cash Flow Ratio for Issuer's most recently ended four full fiscal quarters for which internal financial statements are available immediately preceding the date on which such additional Indebtedness is incurred or such Disqualified Stock or such Preferred Stock is issued, as the case may be, would have been no greater than 6.0 to 1, determined on a pro forma basis (including a pro forma application of the net proceeds therefrom), as if the additional Indebtedness had been incurred or the Disqualified Stock or the Preferred Stock had been issued, as the case may be, at the beginning of such four-quarter period.

The first paragraph of this covenant will not prohibit the incurrence of any of the following items of Indebtedness (collectively, *Permitted Debt*), nor will it prohibit Issuer's Restricted

former employees or directors of Parent, Issuer or any Subsidiary (or their respective spouses or estates) in lieu of cash payments for Capital Stock being repurchased from such Persons, not to exceed, in any twelve-month period, an amount equal to the amount of Restricted Payments that could be made during such twelve-month period pursuant to clause (5) of the third paragraph under the covenant described above under the caption Restricted payments, less the amount of Restricted Payments that have been made during such twelve-month period pursuant to such clause;

(23) the incurrence by Issuer or any Restricted Subsidiary of Indebtedness consisting of take-or-pay obligations contained in supply agreements entered into in the ordinary course of business; and

(24) to the extent that deposits with, or payments owed to, the FCC in connection with the auction or licensing of Governmental Authorizations are deemed to be Indebtedness, the incurrence by Issuer or any Restricted Subsidiary of such Indebtedness.

Issuer will not incur, and will not permit any Subsidiary Guarantor to incur, any Indebtedness (including Permitted Debt, but excluding Indebtedness permitted by clause (6) above) that is contractually subordinated in right of payment to any other Indebtedness of Issuer or such Subsidiary Guarantor unless such Indebtedness is also contractually subordinated in right of payment to the notes and the applicable Note Guarantee on substantially identical terms; *provided, however*, that no Indebtedness will be deemed to be contractually subordinated in right of payment to any other Indebtedness of Issuer solely by virtue of such Indebtedness being unsecured or by virtue of such Indebtedness being secured on a first or junior Lien basis.

For purposes of determining compliance with this Incurrence of indebtedness and issuance of preferred stock covenant, in the event that an item of proposed Indebtedness meets the criteria of more than one of the categories of Permitted Debt described in clauses (1) through (24) above, or is entitled to be incurred pursuant to the first paragraph of this covenant, Issuer will be permitted to classify all or a portion of such item of Indebtedness on the date of its incurrence, or later reclassify all or a portion of such item of Indebtedness, in any manner that complies with this covenant. Indebtedness under the Credit Agreement outstanding on the date on which the notes are first issued and authenticated under the indenture will initially be deemed to have been incurred on such date in reliance on the exception provided by clause (1) of the definition of Permitted Debt, and the notes will initially be deemed to have been incurred on the date of the supplemental indenture in reliance on the exception provided by clause (3) of the definition of Permitted Debt. The accrual of interest, the accretion or amortization of original issue discount, the payment of interest on any Indebtedness in the form of additional Indebtedness with the same terms, the reclassification of Preferred Stock as Indebtedness due to a change in accounting principles, and the payment of dividends on Disqualified Stock in the form of additional shares of the same class of Disqualified Stock will not be deemed to be an incurrence of Indebtedness or an issuance of Disqualified Stock for purposes of this covenant; *provided*, in each such case, that the amount of any such accrual, accretion, amortization or payment is included in Consolidated Interest Expense of Issuer as accrued. Notwithstanding any other provision of this covenant, the maximum amount of Indebtedness that Issuer or any Restricted Subsidiary may incur pursuant to this covenant shall not be deemed to be exceeded solely as a result of fluctuations in exchange rates or currency values, and in no event shall the reclassification of any lease or other liability as indebtedness due to a change in accounting principles after the date of the supplemental indenture be deemed to be an incurrence of Indebtedness. In determining the amount of Indebtedness outstanding under one of the clauses

Table of Contents

above, the outstanding principal amount of any particular Indebtedness of any Person shall be counted only once and any obligation of such Person or any other Person arising under any guarantee, Lien, letter of credit or similar instrument supporting such Indebtedness shall be disregarded so long as it is permitted to be incurred by the Person or Persons incurring such obligation.

The amount of any Indebtedness outstanding as of any date will be:

- (1) the accreted value of the Indebtedness, in the case of any Indebtedness issued with original issue discount;
- (2) in the case of Hedging Obligations, the termination value of the agreement or arrangement giving rise to such obligations that would be payable by such Person at such time;
- (3) the principal amount of the Indebtedness, in the case of any other Indebtedness; and
- (4) in respect of Indebtedness of another Person secured by a Lien on the assets of the specified Person, the lesser of:
 - (a) the Fair Market Value of such assets at the date of determination; and
 - (b) the amount of the Indebtedness of the other Person.

Liens

Issuer will not, and will not permit any of its Restricted Subsidiaries to, directly or indirectly, create, incur, assume or suffer to exist any Lien securing Indebtedness upon any asset now owned or hereafter acquired, except Permitted Liens, unless the notes are equally and ratably secured (except that Liens securing Indebtedness that is contractually subordinated to the notes shall be expressly subordinate to any Lien securing the notes to at least the same extent that such Indebtedness is subordinate to the notes).

Dividend and other payment restrictions affecting subsidiaries

Issuer will not, and will not permit any of its Restricted Subsidiaries to, directly or indirectly, create or permit to exist or become effective any consensual encumbrance or restriction on the ability of any Restricted Subsidiary to:

- (1) pay dividends or make any other distributions on its Capital Stock to Issuer or any of its Restricted Subsidiaries, or pay any Indebtedness owed to Issuer or any of its Restricted Subsidiaries;
- (2) make loans or advances to Issuer or any of its Restricted Subsidiaries; or
- (3) sell, lease or transfer any of its properties or assets to Issuer or any of its Restricted Subsidiaries.

However, the preceding restrictions will not apply to encumbrances or restrictions existing under or by reason of:

- (1)

- (4) applicable law, rule, regulation or order;
- (5) agreements or instruments with respect to a Person acquired by Issuer or any of its Restricted Subsidiaries as in effect at the time of such acquisition (except to the extent such Indebtedness or Capital Stock was incurred in connection with or in contemplation of such acquisition) or as may be amended, restated, modified, renewed, extended, supplemented, refunded, replaced or refinanced from time to time (so long as the encumbrances and restrictions in any such amendment, restatement, modification, renewal, extension, supplement, refunding, replacement or refinancing are, in the good faith judgment of the Board of Directors of Issuer, not materially more restrictive, taken as a whole, than those in effect on the date of the acquisition), which encumbrance or restriction is not applicable to any Person, or the properties or assets of any Person, other than the Person, or the property or assets of the Person, so acquired; *provided* that, in the case of agreements or instruments governing Indebtedness, such Indebtedness was permitted by the terms of the indenture to be incurred;
- (6) customary non-assignment provisions in contracts and licenses entered into in the ordinary course of business;
- (7) any instrument governing any secured Indebtedness or Capital Lease Obligation that imposes restrictions on the assets securing such Indebtedness or the subject of such lease of the nature described in clause (3) of the preceding paragraph;
- (8) any agreement for the sale or other disposition of a Restricted Subsidiary that imposes restrictions of the nature described in clauses (1) and/or (3) of the preceding paragraph on the Restricted Subsidiary pending the sale or other disposition;
- (9) Permitted Refinancing Indebtedness; *provided* that the restrictions contained in the agreements governing such Permitted Refinancing Indebtedness are not materially more restrictive, taken as a whole, than those contained in the agreements governing the Indebtedness being refinanced;
- (10) Liens permitted to be incurred under the provisions of the covenant described above under the caption Liens that limit the right of the debtor to dispose of the assets subject to such Liens;

- (12) restrictions on cash or other deposits or net worth imposed by customers, suppliers or landlords or required by insurance, surety or bonding companies, in each case, under contracts entered into in the ordinary course of business;
- (13) restrictions in other Indebtedness incurred in compliance with the covenant described under the caption "Incurrence of indebtedness and issuance of preferred stock"; *provided* that such restrictions, taken as a whole, are, in the good faith judgment of the Board of Directors of Parent, no more materially restrictive than those contained in the existing agreements referenced in clauses (1) and (3) above;
- (14) the issuance of Preferred Stock by a Restricted Subsidiary of Issuer or the payment of dividends thereon in accordance with the terms thereof; *provided* that issuance of such Preferred Stock is permitted pursuant to the covenant described above under the caption "Incurrence of indebtedness and issuance of preferred stock" and the terms of such Preferred Stock do not expressly restrict the ability of such Restricted Subsidiary to pay dividends or make any other distributions on its Capital Stock (other than requirements to pay dividends or liquidation preferences on such Preferred Stock prior to paying any dividends or making any other distributions on such other Capital Stock); and
- (15) any agreement or instrument with respect to Indebtedness incurred, or Preferred Stock issued, by any Restricted Subsidiary, *provided* that the restrictions contained in the agreements or instruments governing such Indebtedness or Preferred Stock (a) either (i) apply only in the event of a payment default or a default with respect to a financial covenant in such agreement or instrument or (ii) will not materially affect Issuer's ability to pay all principal, interest and premium, if any, on the notes, as determined in good faith by the Board of Directors of Issuer, whose determination shall be conclusive; and (b) are not materially more disadvantageous to the holders of the notes than is customary in comparable financings.

Merger, consolidation or sale of assets

Issuer will not: (1) consolidate or merge with or into another Person (whether or not Issuer is the surviving corporation); or (2) directly or indirectly sell, assign, lease, transfer, convey or otherwise dispose of all or substantially all of the properties or assets of Issuer and its Restricted Subsidiaries taken as a whole, in one or more related transactions, to another Person, unless:

- (1) either: (a) Issuer is the surviving corporation; or (b) the Person formed by or surviving any such consolidation or merger (if other than Issuer) or to which such sale, assignment, lease, transfer, conveyance or other disposition has been made is a corporation, limited liability company or partnership organized or existing under the laws of the United States, any state of the United States or the District of Columbia; *provided* that if such Person is not a corporation, such Person immediately causes a Subsidiary that is a corporation organized or existing under the laws of the United States, any state of the United States or the District of Columbia to be added as a co-issuer of the notes under the indenture;
- (2) the Person formed by or surviving any such consolidation or merger (if other than Issuer) or the Person to which such sale, assignment, lease, transfer, conveyance or other disposition

has been made shall expressly assume, by a supplemental indenture, executed and delivered to the trustee, in form reasonably satisfactory to the trustee, the payment of the principal of and any premium and interest on the notes and the performance or observance of every covenant of the indenture on the part of Issuer to be performed or observed;

- (3) immediately after such transaction, no Default or Event of Default exists; and
- (4) Issuer or the Person formed by or surviving any such consolidation or merger (if other than Issuer), or to which such sale, assignment, lease, transfer, conveyance or other disposition has been made would, on the date of such transaction after giving pro forma effect thereto and any related financing transactions as if the same had occurred at the beginning of the applicable four-quarter period, either (a) be permitted to incur at least \$1.00 of additional Indebtedness pursuant to the Debt to Cash Flow Ratio test set forth in the first paragraph of the covenant described above under the caption Incurrence of indebtedness and issuance of preferred stock or (b) have a Debt to Cash Flow Ratio no greater than the Debt to Cash Flow Ratio of Issuer immediately prior to such transaction.

Upon any merger or consolidation, or any sale, transfer, assignment, lease, conveyance or other disposition of all or substantially all of the properties or assets of Issuer and its Restricted Subsidiaries, taken as a whole, in accordance with the first paragraph of this covenant, the successor Person formed by the consolidation or into which Issuer is merged or to which the sale, transfer, assignment, lease, conveyance or other disposition is made, will succeed to and be substituted for Issuer, and may exercise every right and power of Issuer under the indenture with the same effect as if the successor had been named as Issuer therein. When the successor assumes all of Issuer's obligations under the indenture, Issuer will be discharged from those obligations.

This Merger, consolidation or sale of assets covenant will not apply to:

- (1) a merger of Issuer with a direct or indirect Subsidiary of Parent solely for the purpose of reincorporating Issuer in another jurisdiction; or
- (2) any consolidation or merger, or any sale, assignment, transfer, conveyance, lease or other disposition of assets between or among Issuer and its Restricted Subsidiaries.

Transactions with affiliates

Issuer will not, and will not permit any of its Restricted Subsidiaries to, make any payment to, or sell, lease, transfer or otherwise dispose of any of its properties or assets to, or purchase any property or assets from, or enter into or make or amend any transaction, contract, agreement, understanding, loan, advance or guarantee with, or for the benefit of, any Affiliate of Issuer (each, an *Affiliate Transaction*), unless:

- (1) the Affiliate Transaction is on terms that, taken as a whole, are no less favorable to Issuer or the relevant Restricted Subsidiary than those that would have been obtained in a comparable transaction by Issuer or such Restricted Subsidiary with an unrelated Person; and
- (2) Issuer delivers to the trustee:
 - (a) with respect to any Affiliate Transaction or series of related Affiliate Transactions involving aggregate consideration in excess of \$10.0 million, an officers' certificate certifying that such Affiliate Transaction complies with this covenant; and
 - (b) with respect to any Affiliate Transaction or series of related Affiliate Transactions involving aggregate consideration in excess of \$25.0 million, a resolution of the Board of

Table of Contents

Directors of Parent set forth in an officers' certificate certifying that such Affiliate Transaction complies with this covenant and that such Affiliate Transaction has been approved by a majority of the disinterested members of the Board of Directors of Parent. The following items will not be deemed to be Affiliate Transactions and, therefore, will not be subject to the provisions of the prior paragraph:

- (1) any employment agreement, employee benefit plan, agreement or plan relating to employee, officer or director compensation or severance, officer or director indemnification agreement or any similar arrangement entered into by Issuer, any of its Restricted Subsidiaries or a direct or indirect parent of Issuer existing on the date of the supplemental indenture, or entered into thereafter in the ordinary course of business, and any indemnitees or other transactions permitted or required by bylaw, statutory provisions or any of the foregoing agreements, plans or arrangements and payments pursuant thereto;
- (2) transactions between or among Parent, HoldCo, Issuer and/or its Restricted Subsidiaries and/or any Guarantor;
- (3) transactions with a Person (other than an Unrestricted Subsidiary of Issuer) that is an Affiliate of Issuer solely because Issuer owns, directly or through a Restricted Subsidiary, an Equity Interest in, or controls, such Person;
- (4) payment of reasonable directors' fees and loans or advances to directors and employees in the ordinary course of business in an amount not to exceed \$20 million at any time;
- (5) any issuance of Equity Interests (other than Disqualified Stock) of Issuer to, or receipt of any capital contribution from, any Affiliate of Issuer;
- (6) transactions with Royal Street in accordance with the applicable Royal Street Agreements and transactions in connection with any Permitted Joint Venture Investment;
- (7) any Permitted Investments or Restricted Payments that do not violate the provisions of the indenture described above under the caption Restricted payments;
- (8) any contracts, agreements or understandings existing as of the date of the supplemental indenture and disclosed in the notes to the consolidated financial statements of Issuer for the year ended December 31, 2009 and the quarter ended June 30, 2010, and any amendments to, replacements of, or orders pursuant to such contracts, agreements or understandings so long as any such amendments, replacements, or orders, taken as a whole, are not more disadvantageous to Issuer or to the holders of the notes in any material respect than the original contracts, agreements or understandings as in effect on the date of the supplemental indenture;
- (9) transactions with customers, clients, suppliers, or purchasers or sellers of goods or services, in each case in the ordinary course of business and otherwise in compliance with the terms of the indenture, *provided* that in the good faith determination of the Board of Directors or the senior management of Issuer, such transactions are on terms, taken as a whole, not materially less favorable to Issuer or the applicable Restricted Subsidiary than those that could reasonably be expected to be obtained in a comparable transaction at such time on an arm's length basis from a Person that is not an Affiliate of Issuer;
- (10) issuances, purchases or repurchases of notes or other Indebtedness of Issuer or its Restricted Subsidiaries or solicitations of amendments, waivers or consents in respect of notes or such

other Indebtedness, if such issuance, purchase, repurchase or solicitation is approved by a majority of the disinterested members of the Board of Directors of Parent;

- (11) reasonable payments made for any financial advisory, financing, underwriting, placement or syndication services approved by the Board of Directors of Issuer in good faith;
- (12) amendments, extensions, replacements and other modifications of transactions with Affiliates otherwise permitted by the indenture, *provided* that such amendments, extensions, replacements or other modifications, taken as a whole, are no less favorable in any material respect to Issuer or the applicable Restricted Subsidiary than the transaction or transactions being amended, extended, replaced or modified; and
- (13) any transaction, contract, agreement, understanding, loan, advance or guarantee with, or for the benefit of, any Affiliate of Issuer, or any series of such transactions, contracts, agreements, understandings, loans, advances or guarantees, involving aggregate consideration less than \$500,000 in any twelve-month period.

Business activities

Issuer will not, and will not permit any of its Restricted Subsidiaries to, engage in any business other than Permitted Businesses, except to such extent as would not be material to Issuer and its Restricted Subsidiaries taken as a whole.

Additional note guarantees

If (a) Issuer or any of Issuer's Domestic Restricted Subsidiaries acquires or creates another Domestic Restricted Subsidiary after the date of the supplemental indenture or (b) any Subsidiary of Parent (other than Issuer) guarantees any Credit Facility of Issuer after the date of the supplemental indenture, then that newly acquired or created Domestic Restricted Subsidiary or Subsidiary of Parent will become a Guarantor and execute a supplemental indenture and deliver an opinion of counsel reasonably satisfactory to the trustee within 10 business days after the date on which it was acquired or created or guarantees such Credit Facility, as applicable.

Designation of restricted and unrestricted subsidiaries

The Board of Directors of Issuer may designate any Restricted Subsidiary to be an Unrestricted Subsidiary if that designation would not cause a Default. If a Restricted Subsidiary is designated as an Unrestricted Subsidiary, (i) the aggregate Fair Market Value of all outstanding Investments owned by Issuer and its Restricted Subsidiaries in the Subsidiary designated as an Unrestricted Subsidiary will be deemed to be an Investment made as of the time of the designation and will reduce the amount available for Restricted Payments under the covenant described above under the caption Restricted payments or under one or more clauses of the definition of Permitted Investments, as determined by Issuer and (ii) any Guarantee by Issuer or any Restricted Subsidiary thereof of any Indebtedness of the Restricted Subsidiary being so designated will be deemed to be an incurrence of Indebtedness by Issuer or such Restricted Subsidiary (or both, if applicable) at the time of such designation. That designation will only be permitted if the Investment and/or incurrence of Indebtedness would be permitted at that time and if the Restricted Subsidiary otherwise meets the definition of an Unrestricted Subsidiary. The Board of Directors of Issuer may redesignate any Unrestricted Subsidiary to be a Restricted Subsidiary if that redesignation would not cause a Default.

Table of Contents

Any designation of a Subsidiary of Issuer as an Unrestricted Subsidiary will be evidenced to the trustee by filing with the trustee a certified copy of a resolution of the Board of Directors giving effect to such designation and an officers' certificate certifying that such designation complied with the preceding conditions and was permitted by the covenant described above under the caption Restricted payments. If, at any time, any Unrestricted Subsidiary would fail to meet the preceding requirements as an Unrestricted Subsidiary, it will thereafter cease to be an Unrestricted Subsidiary for purposes of the indenture, any Investments made in such Subsidiary will be deemed to be an Investment made in a Restricted Subsidiary of Issuer as of such date (and increase the amount available for Restricted Payments under the covenant described above under the caption Restricted payments or under one or more clauses of the definition of Permitted Investments, as determined by Issuer), and any Indebtedness of such Subsidiary will be deemed to be incurred by a Restricted Subsidiary of Issuer as of such date and, if such Indebtedness is not permitted to be incurred as of such date under the covenant described under the caption Incurrence of indebtedness and issuance of preferred stock, Issuer will be in default of such covenant. The Board of Directors of Issuer may at any time designate any Unrestricted Subsidiary to be a Restricted Subsidiary of Issuer; *provided* that such designation will be deemed to be an incurrence of Indebtedness by a Restricted Subsidiary of Issuer of any outstanding Indebtedness of such Unrestricted Subsidiary, and such designation will only be permitted if (1) such Indebtedness is permitted under the covenant described under the caption Incurrence of indebtedness and issuance of preferred stock, calculated on a pro forma basis as if such designation had occurred at the beginning of the four-quarter reference period; and (2) no Default or Event of Default would be in existence following such designation.

Payments for consent

Issuer will not, and will not permit any of its Restricted Subsidiaries to, directly or indirectly, pay or cause to be paid any consideration to or for the benefit of any holder of notes for or as an inducement to any consent, waiver or amendment of any of the terms or provisions of the indenture or the notes unless such consideration is offered to be paid and is paid to all holders of the notes that consent, waive or agree to amend in the time frame set forth in the solicitation documents relating to such consent, waiver or agreement.

Reports

Whether or not required by the rules and regulations of the SEC, so long as any notes are outstanding, Parent will file a copy of each of the reports referred to in clauses (1) and (2) below with the SEC for public availability within the time periods (including all applicable extension periods) specified in the SEC rules and regulations applicable to such reports (unless the SEC will not accept such a filing):

- (1) all quarterly and annual financial reports that would be required to be contained in a filing with the SEC on Forms 10-Q and 10-K if Parent were required to file such reports, including a Management's Discussion and Analysis of Financial Condition and Results of Operations and, with respect to the annual information only, a report on the annual financial statements by its certified independent accountants; and
- (2) all current reports that would be required to be filed with the SEC on Form 8-K if Parent or Issuer were required to file such reports; *provided* that the availability of the foregoing reports on the SEC's EDGAR service (or successor thereto) shall be deemed to satisfy Issuer's delivery obligations to the trustee and any holder of notes.

Table of Contents

All such reports will be prepared in all material respects in accordance with all of the rules and regulations applicable to such reports; *provided* that, if neither Parent nor Issuer is required under the rules and regulations of the SEC to file such reports with the SEC for public availability, such reports need not be prepared in accordance with all of the rules and regulations applicable to such reports and shall include only the information or disclosure that would be required by such form to the extent that, and in the same general style of presentation as, the same or substantially similar information or disclosure is also included in this prospectus supplement. Each annual report on Form 10-K will include a report on Parent's consolidated financial statements by Parent's certified independent accountants. The Issuer will at all times comply with TIA §314(a).

If the SEC will not accept Parent's or Issuer's filings for any reason, Parent or Issuer will post the reports referred to in the preceding paragraphs on its website or on intralinks.com within the time periods that would apply if Parent were required to file those reports with the SEC (including all applicable extension periods).

If (i) Issuer has designated any of its Subsidiaries as Unrestricted Subsidiaries or (ii) the combined operations of Parent and its Subsidiaries, excluding the operations of Issuer and its Restricted Subsidiaries and excluding cash and Cash Equivalents, would, if held by a single Unrestricted Subsidiary of Issuer, constitute a Significant Subsidiary of Issuer, then the quarterly and annual financial information required by the preceding paragraphs will include a reasonably detailed presentation, either on the face of the financial statements or in the footnotes thereto, and in Management's Discussion and Analysis of Financial Condition and Results of Operations, of (A) in the case of (i) above, the financial condition and results of operations of Parent, HoldCo, Issuer and its Restricted Subsidiaries separate from the financial condition and results of operations of the Unrestricted Subsidiaries of Issuer and (B) in the case of (ii) above, the financial condition and results of operations of Issuer and its Restricted Subsidiaries separate from the financial condition and results of operations of Parent and its other Subsidiaries; *provided however*, that the requirements of this paragraph shall not apply if Parent or Issuer files with the SEC the reports referred to in clauses (1) and (2) of the first paragraph of this covenant, and any such report contains the information required in this paragraph.

In addition, Issuer and the Guarantors agree that, for so long as any notes remain outstanding, if at any time they are not required to file with the SEC the reports required by the preceding paragraphs, they will furnish to the holders of notes and to securities analysts and prospective investors, upon their request, the information required to be delivered pursuant to Rule 144A(d)(4) under the Securities Act.

Events of default and remedies

Each of the following is an *Event of Default* :

- (1) default for 30 days in the payment when due of interest on the notes;
- (2) default in the payment when due (at maturity, upon redemption or otherwise) of the principal of, or premium, if any, on, the notes;
- (3) failure by Issuer for 120 days after notice to Issuer by the trustee or the holders of at least 25% in aggregate principal amount of the notes then outstanding voting as a single class to comply with the provisions described under the caption Reports;

Table of Contents

- (4) failure by Issuer or any of its Restricted Subsidiaries for 30 days after notice to Issuer by the trustee or the holders of at least 25% in aggregate principal amount of the notes then outstanding voting as a single class to comply with the provisions described under the captions Repurchase at the option of holders Change of control triggering event or Repurchase at the option of holders Asset sales (in each case other than a failure to purchase notes that will constitute an Event of Default under clause (2) above), or Certain covenants Merger, consolidation or sale of assets;
- (5) failure by Issuer or any of its Restricted Subsidiaries for 90 days after notice to Issuer by the trustee or the holders of at least 25% in aggregate principal amount of the notes then outstanding voting as a single class to comply with any of the other agreements in the indenture;
- (6) default under any mortgage, indenture or instrument under which there may be issued or by which there may be secured or evidenced any Indebtedness for money borrowed by Issuer or any of its Restricted Subsidiaries that is a Significant Subsidiary (or any Restricted Subsidiaries that together would constitute a Significant Subsidiary) (or the payment of which is guaranteed by Issuer or any of its Restricted Subsidiaries that would constitute a Significant Subsidiary), whether such Indebtedness or Guarantee now exists, or is created after the date of the supplemental indenture, if that default:
- (a) is caused by a failure to pay principal of, or interest or premium, if any, on, such Indebtedness prior to the expiration of the grace period provided in such Indebtedness on the date of such default (a *Payment Default*); or
- (b) results in the acceleration of such Indebtedness prior to its express maturity, and, in each case, the principal amount of any such Indebtedness, together with the principal amount of any other such Indebtedness under which there has been a Payment Default or the maturity of which has been so accelerated, aggregates \$50.0 million or more;
- (7) failure by Issuer or any of its Restricted Subsidiaries that is a Significant Subsidiary (or any Restricted Subsidiaries that together would constitute a Significant Subsidiary) to pay or discharge final judgments entered by a court or courts of competent jurisdiction aggregating in excess of \$50.0 million, which judgments are not paid, discharged or stayed (to the extent not covered by insurance) for a period of 60 consecutive days following entry of such final judgment or decree during which a stay of enforcement of such final judgment or decree, by reason of pending appeal or otherwise, is not in effect;
- (8) except as permitted by the indenture, any Note Guarantee is held in any judicial proceeding to be unenforceable or invalid or ceases for any reason to be in full force and effect, or any Guarantor, or any Person acting on behalf of any Guarantor, denies or disaffirms its obligations under its Note Guarantee; and
- (9) certain events of bankruptcy or insolvency described in the indenture with respect to Issuer or any of its Restricted Subsidiaries that is a Significant Subsidiary or any group of Restricted Subsidiaries that, taken together, would constitute a Significant Subsidiary. In the case of an Event of Default arising from certain events of bankruptcy or insolvency, with respect to Issuer, any Restricted Subsidiary of Issuer that is a Significant Subsidiary or any group of Restricted Subsidiaries of Issuer that, taken together, would constitute a Significant Subsidiary, all outstanding notes will become due and payable immediately without further action or notice.

Table of Contents

However, the effect of such provision may be limited by applicable laws. If any other Event of Default occurs and is continuing, the trustee or the holders of at least 25% in aggregate principal amount of the then outstanding notes may declare all the notes to be due and payable immediately.

Subject to certain limitations, holders of a majority in aggregate principal amount of the then outstanding notes may direct the trustee in its exercise of any trust or power. The trustee may withhold from holders of the notes notice of any continuing Default or Event of Default if it determines that withholding notice is in their interest, except a Default or Event of Default relating to the payment of principal, interest or premium, if any.

Subject to the provisions of the indenture relating to the duties of the trustee, in case an Event of Default occurs and is continuing, the trustee will be under no obligation to exercise any of the rights or powers under the indenture at the request or direction of any holders of notes unless such holders have offered to the trustee indemnity or security satisfactory to it against any loss, liability or expense. Except to enforce the right to receive payment of principal, premium, if any, or interest when due, no holder of a note may pursue any remedy with respect to the indenture or the notes unless:

- (1) such holder has previously given the trustee notice that an Event of Default is continuing;
- (2) holders of at least 25% in aggregate principal amount of the then outstanding notes have requested the trustee to pursue the remedy;
- (3) such holders have offered the trustee security or indemnity satisfactory to it against any loss, liability or expense;
- (4) the trustee has not complied with such request within 60 days after the receipt of the request and the offer of security or indemnity; and
- (5) holders of a majority in aggregate principal amount of the then outstanding notes have not given the trustee a direction inconsistent with such request within such 60-day period.

The holders of a majority in aggregate principal amount of the then outstanding notes by written notice to the trustee may, on behalf of the holders of all of the notes, rescind an acceleration or waive any existing Default or Event of Default and its consequences under the indenture except a continuing Default or Event of Default in the payment of interest or premium, if any, on, or the principal of, the notes.

In the case of any Event of Default occurring by reason of any willful action (or inaction) taken (or not taken) by or on behalf of Issuer with the intention of avoiding payment of the premium that Issuer would have had to pay if Issuer then had elected to redeem the notes pursuant to the optional redemption provisions of the indenture, an equivalent premium will also become and be immediately due and payable to the extent permitted by law upon the acceleration of the notes.

Issuer is required to deliver to the trustee annually a statement regarding compliance with the indenture. Upon becoming aware of any Default or Event of Default, Issuer is required to deliver to the trustee a statement specifying such Default or Event of Default.

Table of Contents

No personal liability of directors, officers, employees and stockholders

No director, officer, member, manager, partner, employee, incorporator or stockholder of Issuer or any Guarantor, as such, will have any liability for any obligations of Issuer or the Guarantors under the notes, the indenture, the Note Guarantees, or for any claim based on, in respect of, or by reason of, such obligations or their creation. Each holder of notes by accepting a note waives and releases all such liability. The waiver and release are part of the consideration for issuance of the notes. The waiver may not be effective to waive liabilities under the federal securities laws.

Legal defeasance and covenant defeasance

Issuer may at any time, at the option of its Board of Directors evidenced by a resolution set forth in an officers' certificate, elect to have all of its obligations discharged with respect to the outstanding notes and all obligations of the Guarantors discharged with respect to their Note Guarantees (*Legal Defeasance*) except for:

- (1) the rights of holders of outstanding notes to receive payments in respect of the principal of, or interest or premium, if any, on, such notes when such payments are due from the trust referred to below;
- (2) Issuer's obligations with respect to the notes concerning issuing temporary notes, registration of notes, mutilated, destroyed, lost or stolen notes and the maintenance of an office or agency for payment and money for security payments held in trust;
- (3) the rights, powers, trusts, duties and immunities of the trustee, and Issuer's and the Guarantors' obligations in connection therewith; and
- (4) the Legal Defeasance and Covenant Defeasance provisions of the indenture.

In addition, Issuer may, at its option and at any time, elect to have the obligations of Issuer and the Guarantors released with respect to the provisions of the indenture described above under Repurchase at the option of holders and under the caption Certain covenants (other than the covenant described under the caption Certain covenants Merger, consolidation or sale of assets, except to the extent described below) and the limitation imposed by clause (4) under the caption Certain covenants Merger, consolidation or sale of assets (such release and termination being referred to as *Covenant Defeasance*), and thereafter any omission to comply with such obligations or provisions will not constitute a Default or Event of Default. In the event Covenant Defeasance occurs in accordance with the indenture, the Events of Default described under clauses (3) through (7) under the caption Events of default and remedies and the Event of Default described under clause (9) under the caption Events of default and remedies (but only with respect to Subsidiaries of Issuer), in each case, will no longer constitute an Event of Default.

In order to exercise either Legal Defeasance or Covenant Defeasance:

- (1) Issuer must irrevocably deposit with the trustee, in trust, for the benefit of the holders of the notes, cash in U.S. dollars, non-callable Government Securities, or a combination of cash in U.S. dollars and non-callable Government Securities, in amounts as will be sufficient, in the opinion of a nationally recognized investment bank, appraisal firm or firm of independent public accountants, to pay the principal of, or interest or premium, if any, on, the outstanding notes on the stated date for payment thereof or on the applicable redemption date, as the case may be, and Issuer must specify whether the notes are being defeased to such stated date for payment or to a particular redemption date;

Table of Contents

- (2) in the case of Legal Defeasance, Issuer must deliver to the trustee an opinion of counsel reasonably acceptable to the trustee confirming that (a) Issuer has received from, or there has been published by, the Internal Revenue Service a ruling or (b) since the date of the supplemental indenture, there has been a change in the applicable U.S. federal income tax law, in either case to the effect that, and based thereon such opinion of counsel will confirm that, the holders of the outstanding notes will not recognize income, gain or loss for U.S. federal income tax purposes as a result of such Legal Defeasance and will be subject to U.S. federal income tax on the same amounts, in the same manner and at the same times as would have been the case if such Legal Defeasance had not occurred;
- (3) in the case of Covenant Defeasance, Issuer must deliver to the trustee an opinion of counsel reasonably acceptable to the trustee confirming that the holders of the outstanding notes will not recognize income, gain or loss for U.S. federal income tax purposes as a result of such Covenant Defeasance and will be subject to U.S. federal income tax on the same amounts, in the same manner and at the same times as would have been the case if such Covenant Defeasance had not occurred;
- (4) no Default or Event of Default has occurred and is continuing on the date of such deposit (other than a Default or Event of Default resulting from the borrowing of funds, or the imposition of Liens in connection therewith, to be applied to such deposit, or a Default or Event of Default that will be cured by such Covenant Defeasance or Legal Defeasance) and the deposit will not result in a breach or violation of, or constitute a default under, any material instrument to which Issuer or any Guarantor is a party or by which Issuer or any Guarantor is bound;
- (5) such Legal Defeasance or Covenant Defeasance will not result in a breach or violation of, or constitute a default under, any material agreement or instrument (other than the indenture) to which Issuer or any of its Subsidiaries is a party or by which Issuer or any of its Subsidiaries is bound;
- (6) Issuer must deliver to the trustee an officers' certificate stating that the deposit was not made by Issuer with the intent of preferring the holders of notes over the other creditors of Issuer with the intent of defeating, hindering, delaying or defrauding any creditors of Issuer or others;
- (7) Issuer must deliver to the trustee an officers' certificate, stating that all conditions precedent relating to the Legal Defeasance or the Covenant Defeasance have been complied with; and
- (8) Issuer must deliver to the trustee an opinion of counsel (which opinion of counsel may be subject to customary assumptions, qualifications and exclusions), stating that all conditions precedent set forth in clauses (2), (3) and (5) of this paragraph, as applicable, have been complied with; *provided* that the opinion of counsel with respect to clause (5) of this paragraph may be to the knowledge of such counsel.

Amendment, supplement and waiver

Except as provided in the next two succeeding paragraphs, the indenture or the notes or the Note Guarantees may be amended or supplemented with the consent of the holders of at least a majority in aggregate principal amount of the notes then outstanding (including, without limitation, consents obtained in connection with a purchase of, or tender offer or exchange offer for, notes), and any existing Default or Event of Default or compliance with any provision of the

indenture or the notes or the Note Guarantees may be waived with the consent of the holders of a majority in aggregate principal amount of the then outstanding notes (including, without limitation, consents obtained in connection with a purchase of, or tender offer or exchange offer for, notes).

Without the consent of each holder of notes affected, an amendment, supplement or waiver may not (with respect to any notes held by a non-consenting holder):

- (1) reduce the principal amount of notes whose holders must consent to an amendment, supplement or waiver;
- (2) reduce the principal of or change the fixed maturity of any note or alter the provisions with respect to the redemption of the notes (other than provisions relating to the covenants described above under the caption "Repurchase at the option of holders");
- (3) reduce the rate of or change the time for payment of interest on any note;
- (4) waive a Default or Event of Default in the payment of principal of, or interest or premium, if any, on, the notes (except a rescission of acceleration of the notes by the holders of at least a majority in aggregate principal amount of the then outstanding notes and a waiver of the payment default that resulted from such acceleration);
- (5) make any note payable in money other than that stated in the notes;
- (6) make any change in the provisions of the indenture relating to waivers of past Defaults or the rights of holders of notes to receive payments of principal of, or interest or premium, if any, on, the notes;
- (7) waive a redemption payment with respect to any note (other than a payment required by one of the covenants described above under the caption "Repurchase at the option of holders");
- (8) release any Guarantor from any of its obligations under its Note Guarantee or the indenture, except in accordance with the terms of the indenture; or
- (9) make any change in the preceding amendment and waiver provisions.

Notwithstanding the preceding, without the consent of any holder of notes, Issuer, the Guarantors and the trustee may amend or supplement the indenture, the notes or the Note Guarantees:

- (1) to cure any ambiguity, defect or inconsistency;
- (2) to provide for uncertificated notes in addition to or in place of certificated notes;
- (3)

- (4) to effect the release of a Guarantor from its Note Guarantee and the termination of such Note Guarantee, all in accordance with the provisions of the indenture governing such release and termination;
- (5) to add any Subsidiary Guarantee or to secure the notes or any Subsidiary Guarantee;

- (6) to make any change that would provide any additional rights or benefits to the holders of notes or that does not adversely affect the legal rights under the indenture of any such holder;
 - (7) to comply with requirements of the SEC in order to effect or maintain the qualification of the indenture under the Trust Indenture Act;
 - (8) to conform the text of the indenture, the Note Guarantees, or the notes to any provision of this description of notes to the extent that such provision in this description of notes was intended to be a verbatim recitation of a provision of the indenture, the Note Guarantees, or the notes, in each case, as evidenced by an officers certificate;
 - (9) to provide for the issuance of additional notes in accordance with the limitations set forth in the indenture as of the date of the supplemental indenture; or
 - (10) to allow any Guarantor to execute a supplemental indenture and/or a Note Guarantee with respect to the notes.
- The consent of the holders of the notes is not necessary under the indenture to approve the particular form of any proposed amendment or waiver. It is sufficient if such consent approves the substance of the proposed amendment or waiver.

Satisfaction and discharge

The indenture will be discharged and will cease to be of further effect as to all notes issued thereunder, when:

- (1) either:

In addition, Issuer must deliver to the trustee (a) an officers' certificate, stating that all conditions precedent set forth in clauses (1) through (5) above have been satisfied, and (b) an opinion of counsel (which opinion of counsel may be subject to customary assumptions and qualifications), stating that all conditions precedent set forth in clauses (3) and (5) above have been satisfied; *provided* that the opinion of counsel with respect to clause (3) above may be to the knowledge of such counsel.

Governing law

The indenture, the notes and the Note Guarantees will be governed by the laws of the State of New York.

Concerning the trustee

We maintain ordinary banking relationships with Wells Fargo Bank, N.A. and its affiliates. Wells Fargo Bank, N.A. serves as syndication agent and Wells Fargo Securities, LLC, an affiliate of Wells Fargo Bank, N.A., serves as joint lead arranger and joint book-running manager under our senior secured credit facility. In addition, Wells Fargo Securities, LLC serves as co-manager for this offering.

If the trustee becomes a creditor of Issuer or any Guarantor, the indenture limits the right of the trustee to obtain payment of claims in certain cases, or to realize on certain property received in respect of any such claim as security or otherwise. The trustee will be permitted to engage in other transactions; however, if it acquires any conflicting interest when a Default is continuing it must eliminate such conflict within 90 days of the date such conflict arises, apply to the SEC for permission to continue as trustee (if the indenture has been qualified under the Trust Indenture Act) or resign.

The holders of a majority in aggregate principal amount of the then outstanding notes will have the right to direct the time, method and place of conducting any proceeding for exercising any remedy available to the trustee, subject to certain exceptions. The indenture provides that in case an Event of Default occurs and is continuing, the trustee will be required, in the exercise of its power, to use the degree of care of a prudent man in the conduct of his own affairs.

Subject to such provisions, the trustee will be under no obligation to exercise any of its rights or powers under the indenture at the request of any holder of notes, unless such holder has offered to the trustee security and indemnity satisfactory to it against any loss, liability or expense.

Book-entry, delivery and form

Except as set forth below, the notes will be issued in registered, global form (*Global Notes*). The Global Notes will be deposited upon issuance with the trustee as custodian for DTC and registered in the name of DTC or its nominee, in each case, for credit to an account of a direct or indirect participant in DTC as described below.

Except as set forth below, the Global Notes may be transferred, in whole and not in part, only to another nominee of DTC or to a successor of DTC or its nominee. Beneficial interests in the Global Notes may not be exchanged for definitive notes in registered certificated form (*Certificated*)

Notes) except in the limited circumstances described below. See Exchange of global notes for certificated notes. Except in the limited circumstances described below, owners of beneficial interests in the Global Notes will not be entitled to receive physical delivery of such notes in certificated form.

Transfers of beneficial interests in the Global Notes will be subject to the applicable rules and procedures of DTC and its direct or indirect participants (including, if applicable, those of Euroclear System (*Euroclear*) and Clearstream Banking, S.A. (*Clearstream*)), which may change from time to time.

Depository procedures

The following description of the operations and procedures of DTC, Euroclear and Clearstream are provided solely as a matter of convenience. These operations and procedures are solely within the control of the respective settlement systems and are subject to changes by them. Issuer takes no responsibility for these operations and procedures and urges investors to contact the system or their participants directly to discuss these matters.

DTC has advised Issuer that DTC is a limited-purpose trust company created to hold securities for its participating organizations (collectively, the *Participants*) and to facilitate the clearance and settlement of transactions in those securities between the Participants through electronic book-entry changes in accounts of its Participants. The Participants include securities brokers and dealers (including the underwriters), banks, trust companies, clearing corporations and certain other organizations. Access to DTC's system is also available to other entities such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a Participant, either directly or indirectly (collectively, the *Indirect Participants*). Persons who are not Participants may beneficially own securities held by or on behalf of DTC only through the Participants or the Indirect Participants. The ownership interests in, and transfers of ownership interests in, each security held by or on behalf of DTC are recorded on the records of the Participants and Indirect Participants.

DTC has also advised Issuer that, pursuant to procedures established by it:

- (1) upon deposit of the Global Notes, DTC will credit the accounts of the Participants designated by the underwriters with portions of the principal amount of the Global Notes; and
- (2) ownership of these interests in the Global Notes will be shown on, and the transfer of ownership of these interests will be effected only through, records maintained by DTC (with respect to the Participants) or by the Participants and the Indirect Participants (with respect to other owners of beneficial interest in the Global Notes).

Investors in the Global Notes who are Participants may hold their interests therein directly through DTC. Investors in the Global Notes who are not Participants may hold their interests therein indirectly through organizations (including Euroclear and Clearstream) which are Participants. Euroclear and Clearstream will hold interests in the Global Notes on behalf of their participants through customers' securities accounts in their respective names on the books of their respective depositories, which are Euroclear Bank S.A./N.V., as operator of Euroclear, and Citibank, N.A., as operator of Clearstream. All interests in a Global Note, including those held through Euroclear or Clearstream, may be subject to the procedures and requirements of DTC. Those interests held through Euroclear or Clearstream may also be subject to the procedures and

Table of Contents

requirements of such systems. The laws of some states require that certain Persons take physical delivery in definitive form of securities that they own. Consequently, the ability to transfer beneficial interests in a Global Note to such Persons will be limited to that extent. Because DTC can act only on behalf of the Participants, which in turn act on behalf of the Indirect Participants, the ability of a Person having beneficial interests in a Global Note to pledge such interests to Persons that do not participate in the DTC system, or otherwise take actions in respect of such interests, may be affected by the lack of a physical certificate evidencing such interests.

Except as described below, owners of interests in the Global Notes will not have notes registered in their names, will not receive physical delivery of notes in certificated form and will not be considered the registered owners or holders thereof under the indenture for any purpose.

Payments in respect of the principal of, and interest and premium, if any, on a Global Note registered in the name of DTC or its nominee will be payable to DTC in its capacity as the registered holder under the indenture. Under the terms of the indenture, Issuer and the trustee will treat the Persons in whose names the notes, including the Global Notes, are registered as the owners of the notes for the purpose of receiving payments and for all other purposes. Consequently, neither Issuer, the trustee nor any agent of Issuer or the trustee has or will have any responsibility or liability for:

(1) any aspect of DTC's records or any Participant's or Indirect Participant's records relating to or payments made on account of beneficial ownership interest in the Global Notes or for maintaining, supervising or reviewing any of DTC's records or any Participant's or Indirect Participant's records relating to the beneficial ownership interests in the Global Notes; or

(2) any other matter relating to the actions and practices of DTC or any of its Participants or Indirect Participants.

DTC has advised Issuer that its current practice, upon receipt of any payment in respect of securities such as the notes (including principal and interest), is to credit the accounts of the relevant Participants with the payment on the payment date unless DTC has reason to believe that it will not receive payment on such payment date. Each relevant Participant is credited with an amount proportionate to its beneficial ownership of an interest in the principal amount of the relevant security as shown on the records of DTC. Payments by the Participants and the Indirect Participants to the beneficial owners of notes will be governed by standing instructions and customary practices and will be the responsibility of the Participants or the Indirect Participants and will not be the responsibility of DTC, the trustee or Issuer. Neither Issuer nor the trustee will be liable for any delay by DTC or any of the Participants or the Indirect Participants in identifying the beneficial owners of the notes, and Issuer and the trustee may conclusively rely on and will be protected in relying on instructions from DTC or its nominee for all purposes.

Transfers between the Participants will be effected in accordance with DTC's procedures, and will be settled in same-day funds, and transfers between participants in Euroclear and Clearstream will be effected in accordance with their respective rules and operating procedures.

Subject to compliance with the transfer restrictions applicable to the notes described herein, cross-market transfers between the Participants, on the one hand, and Euroclear or Clearstream participants, on the other hand, will be effected through DTC in accordance with DTC's rules on behalf of Euroclear or Clearstream, as the case may be, by their respective depositaries; however, such cross-market transactions will require delivery of instructions to Euroclear or Clearstream, as

Table of Contents

the case may be, by the counterparty in such system in accordance with the rules and procedures and within the established deadlines (Brussels time) of such system. Euroclear or Clearstream, as the case may be, will, if the transaction meets its settlement requirements, deliver instructions to its respective depository to take action to effect final settlement on its behalf by delivering or receiving interests in the relevant Global Note in DTC, and making or receiving payment in accordance with normal procedures for same-day funds settlement applicable to DTC. Euroclear participants and Clearstream participants may not deliver instructions directly to the depositories for Euroclear or Clearstream.

DTC has advised Issuer that it will take any action permitted to be taken by a holder of notes only at the direction of one or more Participants to whose account DTC has credited the interests in the Global Notes and only in respect of such portion of the aggregate principal amount of the notes as to which such Participant or Participants has or have given such direction. However, if there is an Event of Default under the notes, DTC reserves the right to exchange the Global Notes in certificated form, and to distribute such notes to its Participants.

Although DTC, Euroclear and Clearstream have agreed to the foregoing procedures to facilitate transfers of interests in the Global Notes and the Global Notes among participants in DTC, Euroclear and Clearstream, they are under no obligation to perform or to continue to perform such procedures, and may discontinue such procedures at any time. None of Issuer, the trustee and any of their respective agents will have any responsibility for the performance by DTC, Euroclear or Clearstream or their respective participants or indirect participants of their respective obligations under the rules and procedures governing their operations.

Exchange of global notes for certificated notes

A Global Note is exchangeable for Certificated Notes if:

- (1) DTC (a) notifies Issuer that it is unwilling or unable to continue as depository for the Global Notes or (b) has ceased to be a clearing agency registered under the Exchange Act and, in either case, Issuer fails to appoint a successor depository within 120 days after the date of such notice; or
- (2) Issuer, at its option, notifies the trustee in writing that it elects to cause the issuance of the Certificated Notes; or
- (3) there has occurred and is continuing a Default or Event of Default with respect to the notes and DTC has notified Issuer and the trustee of its desire to exchange the Global Notes for Certificated Notes.

In addition, beneficial interests in a Global Note may be exchanged for Certificated Notes upon 30 days prior written notice given to the trustee by or on behalf of DTC in accordance with the indenture. In all cases, Certificated Notes delivered in exchange for any Global Note or beneficial interests in Global Notes will be registered in the names, and issued in any approved denominations, requested by or on behalf of the depository (in accordance with its customary procedures).

Exchange of certificated notes for global notes

Certificated Notes may not be exchanged for beneficial interests in any Global Note unless the transferor first delivers to the trustee a written certificate (in the form provided in the indenture)

Table of Contents

to the effect that such transfer will comply with the appropriate transfer restrictions applicable to such notes.

Same day settlement and payment

Issuer will make payments in respect of the notes represented by the Global Notes (including principal, premium, if any, and interest) by wire transfer of immediately available funds to the accounts specified by DTC or its nominee. Issuer will make all payments of principal, interest and premium, if any, with respect to Certificated Notes by wire transfer of immediately available funds to the accounts specified by the holders of the Certificated Notes or, if no such account is specified, by mailing a check to each such holder's registered address. The notes represented by the Global Notes are expected to be eligible to trade in DTC's Same-Day Funds Settlement System, and any permitted secondary market trading activity in such notes will, therefore, be required by DTC to be settled in immediately available funds. Issuer expects that secondary trading in any Certificated Notes will also be settled in immediately available funds.

Because of time zone differences, the securities account of a Euroclear or Clearstream participant purchasing an interest in a Global Note from a Participant will be credited, and any such crediting will be reported to the relevant Euroclear or Clearstream participant, during the securities settlement processing day (which must be a business day for Euroclear and Clearstream) immediately following the settlement date of DTC. DTC has advised Issuer that cash received in Euroclear or Clearstream as a result of sales of interests in a Global Note by or through a Euroclear or Clearstream participant to a Participant will be received with value on the settlement date of DTC but will be available in the relevant Euroclear or Clearstream cash account only as of the business day for Euroclear or Clearstream following DTC's settlement date.

- (2) if the Indebtedness being Refinanced was issued with any original issue discount, the accreted value of such Indebtedness (as determined in accordance with GAAP) at the time of such Refinancing.

Notwithstanding the preceding, no Indebtedness, Disqualified Stock or Preferred Stock will be deemed to be Permitted Refinancing Indebtedness, unless:

- (1) such Indebtedness, Disqualified Stock or Preferred Stock has a final maturity date or redemption date, as applicable, later than the final maturity date or redemption date, as applicable, of, and has a Weighted Average Life to Maturity equal to or greater than the Weighted Average Life to Maturity of, the Indebtedness, Disqualified Stock or Preferred Stock being Refinanced;

United States federal income and estate tax considerations

The following discussion summarizes certain U.S. federal income tax considerations and, in the case of a non-U.S. holder (as defined below), certain U.S. federal estate tax considerations, that may be relevant to the acquisition, ownership and disposition of the notes. This discussion is based upon the provisions of the Internal Revenue Code of 1986, as amended (the Code), applicable Treasury Regulations promulgated thereunder, judicial authority and administrative interpretations, each as in effect as of the date of this document, and all of which are subject to change, possibly with retroactive effect, or are subject to different interpretations. We cannot assure you that the Internal Revenue Service, or IRS, will not challenge one or more of the tax consequences described in this discussion, and we have not obtained, nor do we intend to obtain, a ruling from the IRS or an opinion of counsel with respect to the U.S. federal tax consequences of acquiring, holding or disposing of the notes.

In this discussion, we do not purport to address all tax considerations that may be important to a particular holder in light of the holder's circumstances, or to certain categories of investors that may be subject to special rules, such as financial institutions, insurance companies, regulated investment companies, tax-exempt organizations, real estate investment trusts, traders in securities or commodities that elect mark to market treatment, governmental bodies or agencies or instrumentalities thereof, certain former citizens and residents of the United States, dealers in securities or currencies, U.S. holders whose functional currency is not the U.S. dollar, or persons who hold the notes as part of a hedge, conversion transaction, straddle or other risk reduction transaction. This discussion is limited to holders who purchase the notes in this offering at their issue price (the first price at which a substantial amount of the notes is sold for cash other than to bond houses, brokers, or similar persons or organizations acting in the capacity of underwriters, placement agents or wholesalers) and who hold the notes as capital assets (generally, property held for investment). This discussion also does not address any aspect of foreign, state, or local taxation.

Investors considering the purchase of notes are urged to consult their own tax advisors regarding the application of the U.S. federal income tax laws to their particular situations and the applicability and effect of state, local or foreign tax laws and tax treaties.

Tax consequences to U.S. holders

You are a U.S. holder for purposes of this discussion if you are a beneficial owner of a note and you are for U.S. federal income tax purposes:

an individual who is a U.S. citizen or U.S. resident alien;

a corporation, or other entity taxable as a corporation for U.S. federal income tax purposes, that was created or organized in or under the laws of the United States, any state thereof or the District of Columbia;

an estate whose income is subject to U.S. federal income taxation regardless of its source; or

a trust if a court within the United States is able to exercise primary supervision over the administration of the trust and one or more United States persons have the authority to control all substantial decisions of the trust, or that has a valid election in effect under applicable U.S. Treasury Regulations to be treated as a United States person.

Table of Contents

If a partnership or other entity treated as a partnership for U.S. federal income tax purposes holds notes, the tax treatment of a partner of the partnership generally will depend upon the status of the partner and the activities of the partnership. If you are a partner of a partnership acquiring the notes, you are urged to consult your own tax advisor about the U.S. federal income tax consequences of acquiring, holding and disposing of the notes.

Stated interest on the notes

You will generally be required to recognize as ordinary income any stated interest paid or accrued on the notes, in accordance with your regular method of accounting for federal income tax purposes. Thus, if you are on the accrual method of accounting for U.S. federal income tax purposes, stated interest on a note will be taxable to you as ordinary income at the time it accrues. If you are on the cash method of accounting for U.S. federal income tax purposes, stated interest on a note will be taxable to you as ordinary income at the time it is received.

In certain circumstances (see Description of notes Optional redemption and Repurchase at the option of holders Change of control triggering event), we may pay amounts on the notes that are in excess of the stated interest or principal of the notes. We intend to take the position that the possibility that any such payment will be made is remote so that such possibility will not affect the timing or amount of interest income that you recognize unless and until any such payment is made. Our determination that these contingencies are remote is binding on you unless you disclose your contrary position to the IRS in the manner that is required by applicable Treasury regulations. Our determination is not, however, binding on the IRS. It is possible that the IRS might take a different position from that described above, in which case the timing, character and amount of taxable income in respect of the notes may be different from that described herein.

Disposition of the notes

You will generally recognize capital gain or loss on the sale, redemption, exchange, retirement or other taxable disposition of a note. This gain or loss will equal the difference between your adjusted tax basis in the note and the proceeds you receive, excluding any proceeds attributable to accrued interest, which will be recognized as ordinary interest income to the extent you have not previously included the accrued interest in income. The proceeds you receive will include the amount of any cash and the fair market value of any other property received for the note. Your adjusted tax basis in the note will generally equal the amount you paid for the note. The gain or loss will generally be long-term capital gain or loss if you held the note for more than one year. Long-term capital gains of individuals, estates and trusts are subject to tax at a reduced rate. The deductibility of capital losses is subject to limitation.

Information reporting and backup withholding

Information reporting will apply to payments of interest on, or the proceeds of the sale or other disposition of, notes held by you, and backup withholding may apply unless you provide the appropriate intermediary with a taxpayer identification number, certified under penalties of perjury, as well as certain other information, or otherwise establish an exemption from backup withholding. Backup withholding is not an additional tax. Any amount withheld under the backup withholding rules is allowable as a credit against your actual U.S. federal income tax liability, if any, and a refund may be obtained if the amounts withheld exceed your actual U.S.

Table of Contents

federal income tax liability, provided that you timely file required information with the IRS. You should consult your tax advisor as to your qualification for exemption from backup withholding and the procedure for obtaining and establishing such exemption.

New legislation relating to net investment income

For taxable years beginning after December 31, 2012, newly-enacted legislation is scheduled to impose a 3.8% tax on the net investment income of certain United States individuals and on the undistributed net investment income of certain estates and trusts. Among other items, net investment income generally includes interest and certain net gain from the disposition of property, less certain deductions.

Prospective holders should consult their tax advisors with respect to the tax consequences of the new legislation described above.

Tax consequences to non-U.S. holders

Except as otherwise modified for U.S. federal estate tax purposes, you are a non-U.S. holder for purposes of this discussion if you are a beneficial owner of notes that is an individual, corporation, estate or trust and is not a U.S. holder.

Stated interest on the notes

Payments of stated interest on the notes generally will be exempt from U.S. federal income or withholding tax under the portfolio interest exemption if you properly certify as to your foreign status as described below, and:

you do not own, directly or indirectly, actually or constructively, 10% or more of the combined voting power of all of our classes of stock entitled to vote;

you are not a bank whose receipt of interest on the notes is in connection with an extension of credit made pursuant to a loan agreement entered into in the ordinary course of business;

you are not a controlled foreign corporation that is related (directly or indirectly) to us through equity ownership; and

interest on the notes is not effectively connected with your conduct of a U.S. trade or business.

In addition, if an applicable income tax treaty so provides, interest on the notes that is effectively connected with your conduct of a U.S. trade or business will not be subject to U.S. federal income or withholding tax if such interest is not attributable to a permanent establishment maintained by you in the United States.

The portfolio interest exemption and several of the special rules for non-U.S. holders described below generally apply only if you appropriately certify as to your foreign status. You can generally meet this certification requirement by providing a properly executed IRS Form W-8BEN or appropriate substitute form to us or our paying agent. If you hold the notes through a financial institution or other agent acting on your behalf, you may be required to provide appropriate certifications to the agent. Your agent will then generally be required to provide appropriate certifications to us or our paying agent, either directly or through other intermediaries. Special rules apply to foreign partnerships, estates and trusts, and in certain circumstances certifications as to foreign status of partners, trust owners or beneficiaries may have to be provided to us or our paying agent. In addition, special rules apply to qualified intermediaries that enter into withholding agreements with the IRS.

Table of Contents

If you cannot satisfy the requirements described above, payments of interest made to you will be subject to U.S. federal withholding tax at a 30% rate, unless you provide certain documentation evidencing your entitlement to an exemption from (or a reduction of) withholding under an applicable income tax treaty, or the payments of interest are effectively connected with your conduct of a trade or business in the United States and you meet the certification requirements described below. See **Income or gain effectively connected with a U.S. trade or business.**

Disposition of notes

You generally will not be subject to U.S. federal income tax on any gain realized on the sale, redemption, exchange, retirement or other taxable disposition of a note unless:

the gain is effectively connected with the conduct by you of a U.S. trade or business (and, if an applicable income tax treaty so provides, is attributable to a permanent establishment maintained by you in the United States); or

you are an individual who has been present in the United States for 183 days or more in the taxable year of disposition and certain other requirements are met.

If the first bullet point above describes you, you generally will be subject to U.S. federal income tax in the manner described under **Income or gain effectively connected with a U.S. trade or business.** If the second bullet point above describes you, you will be subject to a flat 30% U.S. federal income tax on the gain derived from the sale or other disposition, which may be offset by U.S. source capital losses.

Income or gain effectively connected with a U.S. trade or business

The preceding discussion of the tax consequences of the purchase, ownership and disposition of notes by non-U.S. holders generally assumes that income and gain from the notes is not effectively connected with a trade or business conducted by you in the United States. If any interest on the notes or gain from the sale, exchange or other taxable disposition of the notes is effectively connected with a trade or business conducted by you in the United States (and, if an applicable income tax treaty so provides, is attributable to a permanent establishment maintained by you in the United States) then the income or gain generally will be subject to U.S. federal income tax at regular graduated income tax rates applicable to U.S. holders, but will not be subject to withholding tax if certain certification requirements are satisfied. You can generally meet the certification requirements by providing a properly executed IRS Form W-8ECI or appropriate substitute form to us, or our paying agent.

If you are a corporation, that portion of your earnings and profits that is effectively connected with your U.S. trade or business (and, if an applicable income tax treaty so provides, is attributable to your permanent establishment in the United States) also may be subject to a branch profits tax at a 30% rate, unless an applicable income tax treaty provides for a lower rate.

U.S. federal estate tax

Unless otherwise provided in an estate tax treaty, if you are an individual and are not a resident of the United States (as specially defined for U.S. federal estate tax purposes) at the time of your death, the notes will not be included in your estate for U.S. federal estate tax purposes, provided

Table of Contents

that, at the time of your death, interest on the notes qualifies for the portfolio interest exemption under the rules described above in Stated interest on the notes (without regard to the certification requirement).

Information reporting and backup withholding

Payments to you of interest on a note, and amounts withheld from such payments, if any, generally will be required to be reported to the IRS and to you. U.S. backup withholding tax generally will not apply to payments of interest on a note to you if you certify as to your non-U.S. status by providing a properly executed IRS Form W-8BEN, W-8ECI, W-8EXP, W-8IMY (or acceptable substitute form), provided that we do not have actual knowledge or reason to know that you are a United States person.

Payment of the proceeds of a disposition of a note effected by the U.S. office of a U.S. or foreign broker will be subject to information reporting requirements and backup withholding, unless you properly certify under penalties of perjury as to your foreign status (by providing a properly executed IRS Form W-8BEN, W-8ECI, W-8EXP or W-8IMY or acceptable substitute form) and certain other conditions are met, or you otherwise establish an exemption. Information reporting requirements and backup withholding generally will not apply to any payment of the proceeds of the disposition of a note effected outside of the United States by a foreign office of a broker. However, unless such a broker has documentary evidence in its records that you are a non-U.S. holder and certain other conditions are met, or you otherwise establish an exemption, information reporting will apply to a payment of the proceeds of the disposition of a note effected outside the U.S. by such a broker if the broker is a U.S. person or has certain specified connections with the United States.

Backup withholding is not an additional tax. Any amount withheld under the backup withholding rules may be credited against your actual U.S. federal income tax liability and any excess may be refundable, provided that the proper information is timely filed with the IRS.

The preceding discussion of material U.S. federal income and estate tax considerations is for general information only and is not tax advice. We urge each prospective investor to consult its own tax advisor regarding the particular federal, state, local and foreign tax consequences of purchasing, holding, and disposing of our notes, including the consequences of any proposed change in applicable laws.

Underwriting

Under the terms and subject to the conditions contained in an underwriting agreement among us, the guarantors and the underwriters, we have agreed to sell to the underwriters named below, for whom J.P. Morgan Securities LLC is acting as representative, and they have severally agreed to purchase, the following respective principal amounts of the notes:

| Underwriters | Principal Amount |
|-------------------------------|----------------------|
| J.P. Morgan Securities LLC | \$ 600,000,000 |
| Barclays Capital Inc. | 170,000,000 |
| Deutsche Bank Securities Inc. | 170,000,000 |
| Wells Fargo Securities, LLC | 60,000,000 |
| Total | \$ 1,000,000,000 |

The underwriting agreement provides that the obligations of the underwriters to purchase the notes included in this offering are subject to approval of legal matters by counsel and to other conditions. The underwriters have agreed to purchase all of the notes if any of them are purchased.

The underwriters initially propose to offer the notes to the public at the public offering price that appears on the cover page of this prospectus supplement. The underwriters may offer the notes to selected dealers at the public offering price minus a concession of up to 0.375% of the principal amount. In addition, the underwriters may allow, and those selected dealers may reallow, a concession of up to 0.25% of the principal amount to certain other dealers. After the initial offering, the underwriters may change the public offering price and any other selling terms. The underwriters may offer and sell notes through certain of their affiliates.

The following table shows the underwriting discounts and commissions to be paid to the underwriters in connection with this offering (expressed as a percentage of the principal amount of the notes).

| | Paid by us |
|----------|------------|
| Per note | 97.652% |

In the underwriting agreement, we have agreed that:

We will not offer or sell any of our debt securities (other than the notes) for a period of 90 days after the date of this prospectus supplement without the prior consent of J.P. Morgan Securities LLC.

We will indemnify the underwriters against certain liabilities, including liabilities under the Securities Act, or contribute to payments that the underwriters may be required to make in respect of those liabilities.

The notes are a new issue of securities for which there is no established trading market. We do not intend to apply for the notes to be listed on any securities exchange or to arrange for the notes to be quoted on any quotation system. The underwriters have advised us that they intend to make a market in the notes. However, they are not obligated to do so and they may discontinue any market making at any time in their sole discretion. Therefore, we cannot assure you that a liquid trading market will develop for the notes, that you will be able to sell your notes at a particular time or that the prices that you receive when you sell will be favorable.

In relation to each Member State of the European Economic Area which has implemented the Prospectus Directive (each, a Relevant Member State), with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the Relevant Implementation Date), each underwriter has not made and will not make an offer of notes to the public in that Relevant Member State prior to the publication of a prospectus in relation to the notes which has been approved by the competent authority in that Relevant Member State or, where appropriate, approved in another Relevant Member State and notified to the competent authority in that Relevant Member State, all in accordance with the Prospectus Directive, except that it may, with effect from and including the Relevant Implementation Date, make an offer of notes to the public in that Relevant Member State at any time:

to legal entities which are authorized or regulated to operate in the financial markets or, if not so authorized or regulated, whose corporate purpose is solely to invest in securities;

to any legal entity which has two or more of (1) an average of at least 250 employees during the last financial year; (2) a total balance sheet of more than 43,000,000 and (3) an annual net turnover of more than 50,000,000, as shown in its last annual or consolidated accounts; or

in any other circumstances which do not require the publication by us of a prospectus pursuant to Article 3 of the Prospectus Directive. For the purposes of this provision, the expression an offer of notes to the public in relation to any notes in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the notes to be offered so as to enable an investor to decide to purchase or subscribe the notes, as the same may be varied in that Member State by any measure implementing the Prospectus Directive in that Member State and the expression Prospectus Directive means Directive 2003/71/EC and includes any relevant implementing measure in each Relevant Member State.

Each underwriter has represented and agreed that:

it has only communicated or caused to be communicated and will only communicate or cause to be communicated an invitation or inducement to engage in investment activity (within the meaning of Section 21 of the Financial Services and Markets Act 2000) received by it in connection with the issue or sale of the notes in circumstances in which Section 21(1) of the Financial Services and Markets Act 2000 does not apply to us; and

it has complied and will comply with all applicable provisions of the Financial Services and Markets Act 2000 with respect to anything done by it in relation to the notes in, from or otherwise involving the United Kingdom.

In connection with this offering of the notes, the underwriters may engage in overallotment, stabilizing transactions and syndicate covering transactions in accordance with Regulation M under the Exchange Act. Overallotment involves sales in excess of the offering size, which creates a short position for the underwriters. Stabilizing transactions involve bids to purchase the notes in the open market for the purpose of pegging, fixing or maintaining the price of the notes, as applicable. Syndicate covering transactions involve purchases of the notes in the open market after the distribution has been completed in order to cover short positions. Stabilizing transactions and syndicate covering transactions may cause the price of the notes to be higher than it would otherwise be in the absence of those transactions. If any underwriter engages in stabilizing or syndicate covering transactions, it may discontinue them at any time.

From time to time, the underwriters and their respective affiliates have directly and indirectly provided investment banking, commercial banking and financial advisory services to us for which they have received customary compensation and expense reimbursement. The underwriters and their affiliates may in the future provide similar services. J.P. Morgan Securities LLC is acting as dealer manager for the tender offer. JPMorgan Chase Bank, N.A., an affiliate of J.P. Morgan Securities LLC, is the administrative agent under our senior secured credit facility. Affiliates of each of the underwriters are also lenders under our senior secured credit facility. Additionally, J.P. Morgan Securities LLC served as a joint-book running manager of our January 2009 offering of our new 9 1/4% senior notes. Wells Fargo Bank, N.A., an affiliate of Wells Fargo Securities, LLC, also serves as trustee under the indenture governing the notes offered hereby. At any given time, the underwriters and their respective affiliates may hold or trade the existing 9 1/4% senior notes or other of our securities for their own account or for the accounts of customers, and accordingly, may hold a long or short position in the existing 9 1/4% senior notes or any such other securities, or, if they or their affiliates hold any initial 9 1/4% senior notes, may tender the initial 9 1/4% senior notes pursuant to the tender offer.

We expect that delivery of the notes will be made to investors in book-entry form only through DTC on or about September 21, 2010. Under Rule 15c6-1 of the Exchange Act, trades in the secondary market generally are required to settle in three business days, unless the parties to any such trade expressly agree otherwise. Accordingly, purchasers who wish to trade notes prior to September 21, 2010 will be required, by virtue of the fact that the notes initially will settle on September 21, 2010, to specify an alternate settlement cycle at the time of any such trade to prevent a failed settlement. Purchasers of notes who wish to trade notes prior to September 21, 2010 should consult their own advisors.

DESCRIPTION OF CAPITAL STOCK OF METROPCS COMMUNICATIONS

The following describes the common stock, preferred stock, certificate of incorporation and bylaws of MetroPCS Communications that are presently in effect and the rights agreement we have entered into with American Stock Transfer & Trust Company, as rights agent. This description is a summary only. We encourage you to read the complete text of the certificate of incorporation and bylaws, which are incorporated by reference as exhibits to the registration statement. In addition, you should read the complete text of the rights agreement, which we have filed as an exhibit to the registration statement.

The authorized capital stock of MetroPCS Communications consists of 1,000,000,000 shares of common stock, par value \$0.0001 per share, and 100,000,000 shares of preferred stock, par value \$0.0001 per share. MetroPCS Communications Common Stock currently trades on The New York Stock Exchange under the symbol PCS.

Common Stock

Holders of MetroPCS Communications Common Stock have the right to vote on every matter submitted to a vote of our stockholders other than any matter on which only the holders of preferred stock are entitled to vote separately as a class. There are no cumulative voting rights. Accordingly, holders of a majority of shares entitled to vote in an election of directors are able to elect all of the directors standing for election.

Subject to preferences that may be applicable to any outstanding preferred stock, the holders of common stock will share equally on a per share basis any dividends when, as and if declared by our board of directors out of funds legally available for that purpose. If we are liquidated, dissolved or wound up, the holders of our common stock will be entitled to a ratable share of any distribution to stockholders, after satisfaction of all of our liabilities and of the prior rights of any outstanding class of preferred stock. MetroPCS Communications Common Stock carries no preemptive or other subscription rights to purchase shares of MetroPCS Communications Common Stock and is not convertible, assessable or entitled to the benefits of any sinking fund.

Redemption

If a holder of MetroPCS Communications Common Stock acquires additional shares of MetroPCS Communications Common Stock or otherwise is attributed with ownership of such shares that would cause us to violate FCC rules, we may, at the option of the board of directors of MetroPCS Communications, redeem shares of MetroPCS Communications Common Stock sufficient to eliminate the violation (or to allow us to comply with the alternative structure). In the event of a violation of the FCC's foreign ownership restrictions, we must first redeem the stock of the foreign stockholder that most recently purchased its first shares of MetroPCS Communications Common Stock.

The redemption price will be a price mutually determined by us and our stockholders, but if no agreement can be reached, the redemption price will be either:

75% of the fair market value of the MetroPCS Communications Common Stock being redeemed, if the holder caused the FCC violation; or

100% of the fair market value of the MetroPCS Communications Common Stock being redeemed, if the FCC violation was not caused by the holder.

Preferred Stock

Subject to the provisions of the certificate of incorporation of MetroPCS Communications and limitations prescribed by law, the MetroPCS Communications certificate of incorporation authorizes the board of directors of MetroPCS Communications to issue up to 100,000,000 shares of preferred stock in one or more series and to

fix the rights, preferences, privileges and restrictions of the preferred stock, including dividend rights, dividend rates, conversion rates, voting rights, terms of redemption, redemption prices, liquidation preferences and the number of shares constituting any series or the designation of the series, which may be superior to those of MetroPCS Communications Common Stock, without further vote or action by the stockholders. MetroPCS Communications currently has no shares of preferred stock outstanding.

One of the effects of undesignated preferred stock may be to enable the board of directors of MetroPCS Communications to render more difficult or to discourage an attempt to obtain control of us by means of a tender offer, proxy contest, merger or otherwise, and as a result, protect the continuity of our management. The issuance of shares of the preferred stock under the board of directors' authority described above may adversely affect the rights of the holders of MetroPCS Communications Common Stock. For example, preferred stock issued by MetroPCS Communications may rank prior to the MetroPCS Communications Common Stock as to dividend rights, liquidation preference or both, may have full or limited voting rights and may be convertible into shares of MetroPCS Communications Common Stock. Accordingly, the issuance of shares of preferred stock may discourage bids for the MetroPCS Communications Common Stock or may otherwise adversely affect the market price of the MetroPCS Communications Common Stock.

For purposes of the rights plan described below, the board of directors of MetroPCS Communications has designated 1,000,000 shares of preferred stock, par value \$0.0001 per share, to constitute the series A junior participating preferred stock, par value \$0.0001 per share, or Series A Preferred Stock. For a summary description of the Rights Plan, please read "Rights Plan" below.

Registration Rights Agreement

All of MetroPCS Communications' stockholders immediately prior to our initial public offering are parties to a registration rights agreement that became effective upon the consummation of the initial public offering in April 2007, or Registration Rights Agreement. These stockholders are entitled to certain rights with respect to the registration of the sale of such shares under the Securities Act. Under the terms of the Registration Rights Agreement, if we propose to register any securities of MetroPCS Communications under the Securities Act, either for our own account or for the account of other security holders exercising registration rights, such holders are entitled to notice of such registration and are entitled to include shares in the registration. Stockholders benefiting from these rights may also require us to file a registration statement under the Securities Act at our expense with respect to their shares of MetroPCS Communications Common Stock, and we are required to use our best efforts to effect such registration. Further, these stockholders may require us to file additional registration statements on Form S-3 at our expense. These rights are subject to certain conditions and limitations, among them the rights of underwriters to limit the number of shares included in such registration and limit such stockholders' right to sell securities during the 180 days following the date the registration statement is declared effective by the SEC.

Rights Plan

In connection with the MetroPCS Communications initial public offering, we adopted a Rights Plan. Under the Rights Plan, each share of MetroPCS Communications Common Stock includes one right to purchase one one-thousandth of a share of Series A Preferred Stock. The rights will separate from the MetroPCS Communications Common Stock and become exercisable (1) ten calendar days after public announcement that a person or group of affiliated or associated persons has acquired, or obtained the right to acquire, beneficial ownership of 15% of our outstanding common stock or (2) ten business days following the start of a tender offer or exchange offer that would result in a person's acquiring beneficial ownership of 15% of our outstanding common stock. A 15% beneficial owner is referred to as an "acquiring person" under the Rights Plan.

The board of directors of MetroPCS Communications can elect to delay the separation of the rights from the MetroPCS Communications Common Stock beyond the ten-day periods referred to above. The Rights Plan also

confers on the board of directors of MetroPCS Communications the discretion to increase or decrease the level of ownership that causes a person to become an acquiring person. Until the rights are separately distributed, the rights will not be evidenced by separate certificates and will be transferred with and only with the MetroPCS Communications Common Stock certificates.

After the rights are separately distributed, each right will entitle the holder to purchase from us one one-thousandth of a share of Series A Preferred Stock for a purchase price of \$66.67. The rights will expire at the close of business on the tenth anniversary of the effective date of the agreement, unless we redeem or exchange them earlier as described below.

If a person becomes an acquiring person, the rights will become rights to purchase shares of MetroPCS Communications Common Stock for one-half the current market price, as defined in the rights agreement, of the MetroPCS Communications Common Stock. This occurrence is referred to as a flip-in event under the plan. After any flip-in event, all rights that are beneficially owned by an acquiring person, or by certain related parties, will be null and void. The board of directors of MetroPCS Communications will have the power to decide that a particular tender or exchange offer for all outstanding shares of MetroPCS Communications Common Stock is fair to and otherwise in the best interests of the MetroPCS Communications stockholders. If the board of directors of MetroPCS Communications makes this determination, the purchase of shares under the offer will not be a flip-in event.

If, after there is an acquiring person, MetroPCS Communications is acquired in a merger or other business combination transaction or 50% or more of its assets, earning power or cash flow are sold or transferred, each holder of a right will have the right to purchase shares of the common stock of the acquiring company at a price of one-half the current market price of that stock. This occurrence is referred to as a flip-over event under the plan. An acquiring person will not be entitled to exercise its rights, which will have become void.

Until ten days after the announcement that a person has become an acquiring person, the board of directors of MetroPCS Communications may decide to redeem the rights at a price of \$0.001 per right, payable in cash, shares of MetroPCS Communications Common Stock or other consideration. The rights will not be exercisable after a flip-in event until the rights are no longer redeemable.

At any time after a flip-in event and prior to either a person's becoming the beneficial owner of 50% or more of the shares of MetroPCS Communications Common Stock or a flip-over event, the board of directors of MetroPCS Communications may decide to exchange the rights for shares of MetroPCS Communications Common Stock on a one-for-one basis. Rights owned by an acquiring person that will have become void, will not be exchanged.

Other than provisions relating to the redemption price of the rights, the rights agreement may be amended by the board of directors of MetroPCS Communications at any time that the rights are redeemable. Thereafter, the provisions of the rights agreement other than the redemption price may be amended by the board of directors of MetroPCS Communications to cure any ambiguity, defect or inconsistency, to make changes that do not materially adversely affect the interests of holders of rights (excluding the interests of any acquiring person), or to shorten or lengthen any time period under the rights agreement. No amendment to lengthen the time period for redemption may be made if the rights are not redeemable at that time.

The rights have certain anti-takeover effects. The rights will cause substantial dilution to any person or group that attempts to acquire MetroPCS Communications without the approval of the board of directors of MetroPCS Communications. As a result, the overall effect of the rights may be to render more difficult or discourage any attempt to acquire us even if the acquisition may be favorable to the interests of our stockholders. Because the board of directors of MetroPCS Communications can redeem the rights or approve a tender or exchange offer, the rights should not interfere with a merger or other business combination approved by the board of directors of MetroPCS Communications.

Rule 10b5-1 Trading Plans

Certain of MetroPCS Communications' directors and executive officers have and may in the future adopt written plans, known as Rule 10b5-1 plans, in which they will contract with a broker to buy or sell shares of MetroPCS Communications Common Stock on a periodic basis. Under a Rule 10b5-1 plan, a broker executes trades pursuant to parameters established by the director or executive officer when entering into the plan, without further direction from such director or executive officer. Any director or executive officer party to such plan may amend or terminate it in some circumstances. MetroPCS Communications' directors and executive officers may also buy or sell additional shares outside of a Rule 10b5-1 plan in accordance with our insider trading plan.

Anti-takeover Effects of Delaware Law and MetroPCS Communications Restated Certificate of Incorporation and Restated Bylaws

Delaware Anti-Takeover Statute

We are a Delaware corporation and are subject to Delaware law, which generally prohibits a publicly held Delaware corporation from engaging in a business combination with an interested stockholder for a period of three years after the time that the person became an interested stockholder, unless:

before such time the board of directors of the corporation approved either the business combination or the transaction in which the person became an interested stockholder;

upon consummation of the transaction that resulted in the stockholder becoming an interested stockholder, the interested person owns at least 85% of the voting stock of the corporation outstanding at the time the transaction commenced, excluding shares owned by persons who are directors and also officers of the corporation and by certain employee stock plans; or

at or after such time the business combination is approved by the board of directors of the corporation and authorized at an annual or special meeting of stockholders, and not by written consent, by the affirmative vote of at least 66 2/3% of the outstanding voting stock of the corporation that is not owned by the interested stockholder.

A business combination generally includes mergers, asset sales and similar transactions between the corporation and the interested stockholder, and other transactions resulting in a financial benefit to the stockholder. An interested stockholder is a person:

who, together with affiliates and associates, owns 15% or more of the corporation's outstanding voting stock; or

who is an affiliate or associate of the corporation and, together with his or her affiliates and associates, has owned 15% or more of the corporation's outstanding voting stock within three years.

The provisions of Delaware law described above along with the MetroPCS Communications certificate of incorporation would make more difficult or discourage a proxy contest or acquisition of control by a holder of a substantial block of MetroPCS Communications Common Stock or the removal of the incumbent board of directors of MetroPCS Communications. Such provisions could also have the effect of discouraging an outsider from making a tender offer or otherwise attempting to obtain control of our Company, even though such an attempt might be beneficial to us and our stockholders.

Limitations on Liability and Indemnification of Officers and Directors

MetroPCS Communications' certificate of incorporation and bylaws:

Edgar Filing: METROPCS INC - Form 424B5

eliminate the personal liability of directors for monetary damages resulting from breaches of fiduciary duty to the extent permitted by Delaware law, except (i) for any breach of a director's duty of loyalty to the Company or its stockholders, (ii) for acts or omissions not in good faith or which involved intentional misconduct or a knowing violation of law, or (iii) for any transaction from which the director derived an improper personal benefit; and

Table of Contents

indemnify directors and officers to the fullest extent permitted by Delaware law, including in circumstances in which indemnification is otherwise discretionary.

We believe that these provisions are necessary to attract and retain qualified directors and officers.

We have also entered into separate indemnification agreements with each of our directors and officers under which we have agreed to indemnify, and to advance expenses to, each director and officer to the fullest extent permitted by applicable law with respect to liabilities they may incur in their capacities as directors and officers.

Classified Board of Directors

MetroPCS Communications' certificate of incorporation and bylaws provide for a board of directors consisting of three classes of directors, each serving staggered three-year terms. At each annual meeting of stockholders, directors will be elected to succeed the class of directors whose terms have expired. The terms of the first, second and third classes will expire in 2011, 2012 and 2013, respectively. The first class consists of two directors, the second class consists of two directors, and the third class consists of three directors. The classification of the board of directors could have the effect of delaying or preventing a change in control or otherwise discouraging a potential acquirer from attempting to obtain control of us. However, we believe that this feature of our certificate of incorporation will help to assure the continuity and stability of our business strategies and policies as determined by the board of directors.

Advanced Notice Requirements

MetroPCS Communications' bylaws also require that any stockholder proposals to be considered at an annual meeting of stockholders must be delivered to us not less than 20 nor more than 60 days prior to the meeting. In addition, in the notice of any such proposal, the proposing stockholder must state the proposals, the reasons for the proposal, the stockholder's name and address, the class and number of shares held by such stockholder and any material interest of the stockholder in the proposals. There are additional informational requirements in connection with a proposal concerning a nominee for the board of directors of MetroPCS Communications.

Amendments to Organizational Documents

Delaware law provides generally that the affirmative vote of a majority of shares entitled to vote on any matter is required to amend a corporation's certificate of incorporation or bylaws, unless either a corporation's certificate of incorporation or bylaws requires a greater percentage. MetroPCS Communications' certificate of incorporation provides that the affirmative vote of at least 75% of our capital stock issued and outstanding and entitled to vote (in accordance with our certificate of incorporation) will be required to amend or repeal certain provisions of our certificate of incorporation that are designed to protect against takeovers unless such amendments are approved by 75% of the board of directors of MetroPCS Communications. In addition, our certificate of incorporation provides that an amendment to our bylaws by stockholder action will require the affirmative vote of at least 66 2/3% of our capital stock issued and outstanding and entitled to vote.

Corporate Opportunities

MetroPCS Communications' certificate of incorporation provides, as permitted by the Delaware General Corporation Act, that our non-employee directors have no obligation to offer us a corporate opportunity to participate in business opportunities presented to them or their respective affiliates even if the opportunity is one that we might reasonably have pursued, unless such corporate opportunity is offered to such director in his or her capacity as a director of our MetroPCS Communications. Stockholders will be deemed to have notice of and consented to this provision of MetroPCS Communications' certificate of incorporation.
