Each incumbent Nominee attended at least 75% of the meetings of the Board held during the last fiscal year, including the meetings of the Board's standing Committees on which such Director was a member.

Leadership Structure

The Board is responsible for the overall management of the Company, including general supervision of the duties performed by the Advisor and other service providers in accordance with the provisions of the 1940 Act, other applicable laws and the Company's Articles of Incorporation and By-Laws. The Board meets in regularly scheduled meetings throughout the year. It is currently composed of nine Directors, including seven Independent Directors. As discussed below, the Board has established three committees to assist the Board in performing its oversight responsibilities.

The Board has appointed an Independent Director to serve as its Chairman. The Chairman's primary role is to set the agenda of the Board and determine what information is provided to the Board with respect to matters to be acted upon by the Board. The Chairman presides at all meetings of the Board and leads the Board through its various tasks. The Chairman also acts as a liaison with management in carrying out the Board's functions. The Chairman also performs such other functions

as may be requested by the Board from time to time. The designation of an Independent Director as Chairman does not impose any duties, obligations or liabilities on him that are greater than the duties, obligations or liabilities imposed on him as a member of the Board.

The Company has determined that the Board's leadership structure is appropriate given the characteristics and circumstances of the Company, including such matters as the number of funds in the Fund Complex, the net assets of the Company and the committee structure of the Company.

Risk Oversight

Through its direct oversight role, and indirectly through its Committees, the Board performs a risk oversight function for the Company consisting, among other things, of the following activities:

General Oversight. The Board regularly meets with the officers of the Company and representatives of key service providers to the Company, including the Advisor, administrator, transfer agent, custodian and independent registered public accounting firm to review and discuss the operational activities of the Company and to provide direction with respect thereto.

Compliance Oversight. The Board reviews and approves the procedures of the Company established to ensure compliance with applicable federal securities laws. The Board keeps informed about how the Company's operations conform to its compliance procedures through regular meetings with, and reports received from the Company's Chief Compliance Officer, and other officers.

Investment Oversight. The Board monitors the Company's investment performance during the year through regular performance reports from management with references to appropriate performance measurement indices. The Board also receives focused performance presentations on a regular basis, including special written reports and oral presentations by portfolio managers. In addition, the Board monitors the Company's investment practices and reviews its investment strategies with management and receives focused presentations.

Valuation Oversight. The Board has approved the valuation methodologies used in establishing the daily values of the Company's assets and monitors the accuracy with which the valuations are carried out. The Board receives regular reports on the use of fair value prices and monitors the effectiveness of the Company's valuation procedures.

Financial Reporting. Through its Audit Committee, the Board meets regularly with the Company's independent registered public accounting firm to discuss financial reporting matters, the adequacy of the Company's internal controls over financial reporting, and risks of accounting and financial reporting matters.

Board Committees

The Board has a standing Audit Committee, Executive Committee and Nominating Committee.

The Audit Committee has adopted a written charter. A copy of the Audit Committee Charter is posted on the Company's website (www.tcw.com). The purposes of the Audit Committee are set forth in the Audit Committee Charter. The Audit Committee makes recommendations to the Board of Directors concerning the selection of the Company's independent auditors and reviews with the auditors the results of the Company's annual audit, including the scope of auditing procedures, the adequacy of internal controls and compliance by the Company with the accounting, recording and financial reporting requirements of the 1940 Act. The Audit Committee also reviews compliance with the Company's Code of Ethics by the executive officers, directors and investment personnel of the Advisor. The Audit Committee's current members are Messrs. Bell, Gavin, Haden, McMillan and Parker and Ms. Kerr. During the fiscal year ended December 31, 2010, the Audit Committee held four meetings.

The Executive Committee has the same powers as the Board of Directors except the power to declare dividends or other stock distributions, elect directors, authorize the issuance of stock except as permitted by statute, recommend to the shareholders any action requiring their approval, amend the By-Laws or approve any merger or share exchange not requiring shareholder approval. The Executive Committee's current members are Messrs. DeVito, Bell and Haden. During the fiscal year ended December 31, 2010, the Executive Committee held no meetings.

The Nominating Committee has adopted a Nominating Committee Charter, a copy of which is attached to this Proxy Statement. The Nominating Committee makes recommendations to the Board of Directors regarding nominations for membership on the Board of Directors. It evaluates candidates' qualifications for Board membership and, with respect to nominees for positions as independent directors, their independence from the Advisor and the Company's other principal service providers. The Nominating Committee does not have any formal policy regarding diversity in identifying nominees for a directorship, but considers it among the various factors relevant to any particular nominee. The Nominating Committee periodically reviews director compensation and recommends any appropriate changes to the Board. This Committee also reviews and may make recommendations to the Board of Directors relating to those issues that pertain to the effectiveness of the Board in carrying out its responsibilities in governing the Company and overseeing the management of the Company. The current members of the Company's Nominating Committee are Messrs. Bell, Gavin, Haden, McMillan and Parker and Ms. Kerr. During the fiscal year ended December 31, 2010, the Nominating Committee held four meetings.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE FOR ALL NOMINEES

PROPOSAL 2 AMENDMENT OF THE COMPANY S:

INVESTMENT RESTRICTION REGARDING FUTURES CONTRACTS

AND OPTIONS ON FUTURES CONTRACTS

TO PERMIT THE COMPANY TO PURCHASE AND

SELL INTEREST RATE FUTURES CONTRACTS

AND OPTIONS ON INTEREST RATE FUTURES CONTRACTS

THE BOARD OF DIRECTORS RECOMMENDS A VOTE FOR PROPOSAL 2

Upon the recommendation of management of the Company, the Board reviewed the Company s current fundamental investment restrictions. The Company currently has a fundamental investment restriction that prohibits the Company from purchasing or selling interest rate futures contracts or options thereon. The Board proposes that this prohibition be eliminated so that the Company is permitted to purchase and sell interest rate futures contracts and purchase and sell options on interest rate futures contracts. This change will provide the Advisor with greater investment flexibility in managing the Company.

The current fundamental investment restriction, which cannot be changed without approval by a majority vote (as defined in the 1940 Act) of the Company s shareholders, provides that:

The Company will not

Purchase or sell commodities or commodity contracts, including futures contracts or options on futures contracts in a contract market or other futures market, except that the Company may purchase stock index futures contracts as described under Investment Objective and Policies Stock Index Futures.

It is proposed that the Company s investment restriction with respect to interest rates futures contracts and options thereon be amended to provide as follows:

The Company will not:

Purchase or sell commodity contracts except that the Company may purchase stock index futures contracts and purchase and sell interest rate futures contracts and options on interest rate futures contracts.

If this proposal is approved subject to certain limitations, the Company could enter into interest rate futures contracts or options on such contracts to attempt to protect against possible changes in the market value of securities held in or to be purchased by the Company resulting from interest rate or market fluctuations, to protect the Company's unrealized gains in the value of its portfolio securities, to facilitate the sale of such securities for investment purposes, to manage its effective maturity or duration, or to establish a position in the derivatives markets as a temporary substitute for purchasing or selling particular securities.

Pursuant to current regulatory exemptions, the Company and the Advisor are not deemed to be a commodity pool or commodity pool operator, respectively, under the Commodity Exchange Act and are not subject to regulation as such under the Commodity Exchange Act. Approval of this proposal will not change their exempt status.

An interest rate futures contract is an agreement to buy and sell a debt obligation at a certain date at a certain price. The value of an interest rate futures contract varies according to changes in interest rates. For example, if interest rates rise, the value of the futures contract declines because a potential buyer will be able to buy another interest rate futures contract with a better interest rate. These contracts are traded on exchanges, so that, in most cases, either party can close out its position on the exchange for cash, without delivering the security. An option on a futures contract gives the holder of the option the right to buy or sell a position in a futures contract to the writer of the option, at a specified price and on or before a specified expiration date.

In connection with the purchase or sale of interest rate futures contracts, the Company will be required to either (i) segregate sufficient cash or other liquid assets to cover the outstanding position or (ii) cover the futures contract by either owning the instruments underlying the futures contracts or by holding a separate offsetting option permitting it to purchase or sell the same futures contract. With respect to futures contracts that are not contractually required to cash-settle, the Company must cover its open positions by segregating or earmarking liquid assets equal to the contracts' full, notional value. With respect to futures that are contractually required to cash-settle, the Company is permitted to segregate or earmark liquid assets in an amount equal to the Company's daily marked-to-market (net) obligation (i.e., the Company's daily net liability, if any) rather than the notional value. By setting aside assets equal to only its net obligation under cash-settled futures, the Company will have the ability to employ leverage to a greater extent than if the Company were required to segregate or earmark assets equal to the full notional value of such contracts.

The Company may purchase or sell interest rate futures for the purpose of hedging some or all of the value of its portfolio securities against changes in prevailing interest rates or to attempt to manage its duration or effective maturity. If the Advisor anticipates that interest rates may rise and, concomitantly, the price of certain of its portfolio securities may fall, the Company may sell futures contracts. If declining interest rates are anticipated, the Company may purchase futures contracts to protect against a potential increase in the price of securities the Company intends to purchase. Subsequently, appropriate securities may be purchased by the Company in an orderly fashion; as securities are purchased, corresponding futures positions would be terminated by offsetting sales of contracts.

Initial margin in futures transactions is different from margin in securities transactions in that initial margin does not involve the borrowing of funds by a broker's client but is, rather, a good faith deposit on the futures contract which will be returned to the Company upon the proper termination of the futures contract. The margin deposits are marked to market daily and the Company may be required to make subsequent deposits of cash or U.S. Government Securities (called variation margin), with the Company's futures contract clearing broker, which reflect price fluctuations in the futures contract. Initial margin requirements are established by the exchanges on which futures contracts trade and may, from time to time, change. In addition, brokers may establish margin deposit requirements in excess of those required by the exchanges.

At any time prior to expiration of a futures contract, the Company may elect to close the position by taking an opposite position which will operate to terminate the Company's position in the futures contract. A final determination of any variation margin is then made, additional cash is required to be paid by or released to the Company and the Company realizes a loss or gain.

If this proposal is approved, the Company could also purchase and write call and put options on futures contracts which are traded on an exchange and enter into closing transactions with respect to such options to terminate an existing position. An option on a futures contract gives the purchaser the right (in return for the premium paid) to assume a position in a futures contract (a long position if the option is a call and a short position if the option is a put) at a specified exercise price at any time during the term of the option.

The Company will purchase and write options on futures contracts for identical purposes to those set forth above for the purchase of a futures contract (purchase of a call option or sale of a put option) and the sale of a futures contract (purchase of a put option or sale of a call option), or to close out a long or short position in futures contracts. Any premiums received in the writing of options on futures contracts may, of course, provide a further hedge against losses resulting from price declines in portions of a Company's portfolio.

There are certain risks inherent in the use of futures contracts and options on futures contracts. Successful use of futures contracts by the Company is subject to the ability of the Advisor to correctly predict movements in the direction of interest rates or changes in market conditions.

Interest rates futures expose the Company to price fluctuations resulting from interest rate changes. If interest rates rise when the Company has purchased an interest rate future, the Company could suffer a loss in its futures position. If interest rates fall when the Company has sold an interest rate future, the Company could similarly suffer a loss. The market value of interest rate futures may not move in concert with the value of the securities the Company wishes to hedge or intends to purchase. Further, a lack of market liquidity could make it difficult to close out futures positions. While utilization of futures contracts may be advantageous to the Company, if the Company is not successful in employing such instruments in managing its investments, its performance will be worse than if it did not make such investments.

In the event of the bankruptcy of a broker through which the Company engages in transactions in futures or options therein, the Company could experience delays and/or losses in liquidating open positions purchased or sold through the broker and/or incur a loss of all or part of its margin deposits with the broker. Similarly, in the event of the bankruptcy of the writer of an OTC option purchased by the Company, the Company could experience a loss of all or part of the value of the option. Transactions are entered into by the Company only with brokers or financial institutions deemed creditworthy by the Advisor.

Suitable interest rate futures and options transactions may not be available in all circumstances and there can be no assurance that the Company will engage in these transactions even if they are available.

Shareholder Approval

The approval of Proposal 2 requires the affirmative vote of a majority of the outstanding voting securities of the Company, which means the affirmative vote of the lesser of: (1) more than 50% of the Company's Common Stock, or (2) 67% or more of the shares of the Company present at the Annual meeting (in person or represented by proxy), if the holders of more than 50% of the Company's Common Stock are present at the Annual Meeting.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE FOR PROPOSAL 2

OTHER MATTERS

The proxy holders have no present intention of bringing before the Annual Meeting for action any matters other than those specifically referred to above, nor has the management of the Company any such intention. Neither the proxy holders nor the

management of the Company is aware of any matters which may be presented by others. If any other business properly comes before the Annual Meeting, the proxy holders intend to vote thereon in accordance with their best judgment.

VOTING AND OTHER INFORMATION

Voting Requirements

For purposes of this Annual Meeting, a quorum is present to transact business if the holders of a majority of the outstanding shares of the Company entitled to vote at the Annual Meeting are present in person or by proxy. For purposes of determining the presence of a quorum at the Annual Meeting, abstentions and broker non-votes (that is, proxies from brokers or nominees indicating that such persons have not received instructions from the beneficial owner or other persons entitled to vote shares on a particular proposal with respect to which the brokers or nominees do not have discretionary power) will be treated as shares that are present. Assuming a quorum is present, a plurality of the votes cast at the Annual Meeting is required to elect each of the Directors. Assuming a quorum is present, approval of Proposal 2 requires the affirmative vote of a majority of the outstanding voting securities (as defined above) of the Company. Accordingly, broker non-votes and abstentions effectively will be votes AGAINST Proposal 2 because such proposal requires the affirmative vote of a majority of the outstanding voting securities of the Company. Abstentions and broker non-votes will have no effect on Proposal 1.

The Company's Common Stock is the only class of outstanding voting securities of the Company. At July 29, 2011, 47,609,979 shares of Common Stock were outstanding and entitled to vote. The Company's Common Stock does not have cumulative voting rights.

Adjournment

If a quorum is not present in person or by proxy at the time the Annual Meeting is called to order, the chairman of the Annual Meeting or the shareholders may adjourn the Annual Meeting. The vote required to adjourn the Annual Meeting is the affirmative vote of a majority of the shares present at the Annual Meeting in person or by proxy. In such a case, the proxy holders will vote all proxies in favor of the adjournment. If a quorum is present but there are not sufficient votes to approve a proposal, the chairman of the Annual Meeting may, with respect to that proposal, adjourn the Annual Meeting or the proxy holders may propose one or more adjournments of the Annual Meeting to permit further solicitation of proxies. In such a case, the proxy holders will vote those proxies which they are entitled to vote in favor of the proposal FOR the adjournment, and will vote those proxies required to be voted against the proposal AGAINST the adjournment as to that proposal, and abstentions will not be voted either for or against the adjournment. Broker non-votes will be excluded from any vote to adjourn the Annual Meeting and, accordingly, will not affect the outcome of the vote.

Cost and Method of Proxy Solicitation

Proxy solicitation will be principally by mail but may also be by telephone or personal interview conducted by officers and regular employees of the Advisor. In addition, proxy solicitation may be conducted by the Altman Group, Inc., which will be paid approximately \$10,000 and will be reimbursed for its related expenses. The cost of solicitation of proxies will be borne by the Company, including reimbursement of banks, brokerage firms, nominees, fiduciaries and other custodians for reasonable expenses incurred by them in sending the proxy materials to shareholders of the Company.

Shareholders may sign and mail the proxy card(s) received with the Proxy Statement or may give voting instructions via touchtone telephone by following the instructions enclosed with the proxy card.

Household Mailings

The Company reduces the number of duplicate annual and semi-annual reports and Proxy Statements a household receives by sending only one copy of those documents to those addresses shared by two or more accounts (unless the Company receives contrary instructions). Write the Company at 865 South Figueroa Street, Los Angeles, California 90017 or telephone it at 1-877-829-4768 to request individual copies of reports and proxy statements, or to request a single copy of reports and proxy statements if receiving duplicate copies. The Company will begin sending a household single or multiple copies, as requested, as soon as practicable after receiving the request.

Corporate Governance Listing Standards

In accordance with Section 303A.12(a) of the NYSE Listed Company Manual, the Company's Annual CEO Certification certifying as to compliance with the NYSE's corporate governance listing standards was submitted to the NYSE on October 14, 2010. In addition, on February 18, 2011, the Company filed the required CEO/CFO certifications pursuant to Sections 302 and 906 of the Sarbanes-Oxley Act of 2002 as an exhibit to its Form N-CSR for the year ended December 31, 2010.

Shareholder Proposals

The Company holds annual meetings of shareholders. A shareholder's proposal intended to be presented at the Company's 2012 annual meeting of shareholders must be received by May 18, 2012, in order to be included in the Company's proxy statement and form of proxy relating to the meeting. Timely submission of a proposal does not, however, necessarily mean that the proposal will be included. A shareholder who wishes to make a proposal at the 2012 annual meeting of shareholders without including the proposal in the Company's proxy statement must notify the Secretary of the Company in writing of such proposal between June 16, 2012 and July 16, 2012.

The persons named as proxies for the 2011 annual meeting of shareholders will, with respect to the proxies in effect at such meeting, have discretionary authority to vote on any matter presented by a shareholder for action at that meeting unless the Company receives notice of the matter by July 2, 2012. If the Company receives such timely notice, these persons will not have this authority except as provided in the applicable rules of the SEC.

Independent Registered Public Accounting Firm

Deloitte & Touche LLP (**Deloitte**), 350 South Grand Avenue, Los Angeles, California 90071 has been selected as the registered public accounting firm of the Company for its current fiscal year. Deloitte is responsible for auditing the Company's annual financial statements. Representatives of Deloitte are not expected to be present at the Annual Meeting, but have been given the opportunity to make a statement if they so desire and will be available should any matter arise requiring their presence.

Deloitte, in accordance with Independence Standards Board Standard No. 1 (**ISB No. 1**), has confirmed to the Audit Committee that Deloitte is an independent auditor with respect to the Company. Certain information concerning the fees and services provided by Deloitte to the Company and to the Advisor and its affiliates for the most recent fiscal year of the Company is provided below. For purposes of the following information, the Advisor and any entity controlling, controlled by or under common control with the Advisor that provides ongoing services to the Company, are referred to as **Service Affiliates**.

- (1) Audit Fees. The aggregate fees billed for each of the last two fiscal years to the Company (the **Reporting Periods**) for professional services rendered by Deloitte for the audit and review of the Company's annual financial statements, or services that are normally provided by Deloitte in connection with the statutory and regulatory filings or engagements for the Reporting Periods, were as follows:

Fiscal Year Ended	Audit Fees
12/31/10	\$ 75,000
12/31/09	\$ 75,000

- (2) Audit-Related Fees. The aggregate fees billed in the Reporting Periods for assurance and related services by Deloitte to the Company that are reasonably related to the performance of the audit or review of the Company's financial statements and are not reported under paragraph (1) above were as follows:

Fiscal Year Ended	Audit-Related Fees
12/31/10	0
12/31/09	0

- (3) Tax Fees. The aggregate fees billed to the Company in the Reporting Periods for professional services rendered by Deloitte for tax compliance, tax advice and tax planning (**Tax Services**) were as follows:

12/31/09	\$ 4,500

- (4) All Other Fees. The aggregate fees billed to the Company in the Reporting Periods for products and services provided by Deloitte, other than the services reported in paragraphs (1) through (3) above, were as follows:

Fiscal Year Ended	All Other Fees
12/31/10	\$ 0
12/31/09	\$ 3,500

The aggregate non-audit fees billed by Deloitte for services rendered to the Service Affiliates for the last two fiscal years of the Company were \$0 in 2010 and \$2,629 in 2009, respectively.

The Company's Audit Committee has considered whether the provision of non-audit services that were rendered to the Company's investment adviser and any entity controlling, controlled by, or under common control with the investment adviser that provides ongoing services to the Company that were not pre-approved pursuant to paragraph (c)(7)(ii) of Rule 2-01 of Regulation S-X is compatible with maintaining the principal accountant's independence.

Pursuant to the Company's Audit Committee Charter, the Audit Committee has adopted pre-approval policies and procedures to govern the pre-approval of (i) all audit services and permissible non-audit services to be provided to the Company by its independent accountant, and (ii) all permissible non-audit services to be provided by such independent accountant to any Service Affiliates if the engagement directly relates to the Company's operations and financial reporting.

The Audit Committee pre-approves all audit and non-audit services provided by Deloitte or any independent auditor engaged by the Company and any non-audit or audit-related services provided by them to the Company's service affiliates which have

an impact on the Company. The Audit Committee recommends the engagement of the auditor for each fiscal year, and a majority of the Company's Independent Directors approves the engagement. The Audit Committee may pre-approve the provisions of types or categories of non-audit services for the Company and permissible non-audit services for the Company's service affiliates on an annual basis at the time of the auditor's engagement and on a project-by-project basis. At the time of the annual engagement of the Company's independent auditor, the Audit Committee receives a list of expected services with a description and an estimated budget of fees. In its pre-approval, the Audit Committee must determine that the provision of the service is consistent with, and will not impair, the ongoing independence of the auditor and set any limit on fees or other conditions it finds appropriate. Non-audit services may also be approved on a project-by-project basis by the Audit Committee consistent with the same standards for determination and information.

Audit Committee Report

The Audit Committee of the Board of Directors normally meets at least twice during each full fiscal year with the Company's Chief Financial Officer and representatives of the independent auditors in a separate executive session to discuss and review various matters as contemplated by the Audit Committee Charter. In the performance of its oversight function, the Audit Committee has considered and discussed the audited financial statements of the Company for the fiscal year ended December 31, 2010, with management and the independent auditors of the Company. The Audit Committee also has discussed with the independent auditors the matters required to be discussed by Statement on Auditing Standards No. 61, Communication with Audit Committees, as currently in effect. The Audit Committee also has considered whether the provision by the Company's independent auditors of non-audit services to the Company, and of professional services to the Adviser and affiliates of the Adviser that provide services to the Company, is compatible with maintaining the independent auditors' independence. Finally, the Audit Committee has received the written disclosures and the letter from the independent auditors required by Independence Standards Board Standard No. 1, Independence Discussions with Audit Committees, and has discussed with the independent auditors the independent auditors' independence.

The members of the Company's Audit Committee are not professionally engaged in the practice of auditing or accounting. The Board of Directors has determined that Messrs. Samuel P. Bell and Charles A. Parker each qualifies as an audit committee financial expert, as defined under the SEC's Regulation S-K, Item 407(d). The Audit Committee is in compliance with applicable rules of the NYSE listing requirements for closed-end fund audit committees, including the requirement that all members of the audit committee be financially literate and that at least one member of the audit committee have accounting or related financial management expertise, as determined by the Board. The Audit Committee is required to conduct its operations in accordance with applicable requirements of the Sarbanes-Oxley Act of 2002 and the Public

Company Accounting Oversight Board, and the members of the Audit Committee are subject to the fiduciary duty to exercise reasonable care in carrying out their duties. Members of the Company's Audit Committee rely without independent verification on the information provided to them and on the representations made by management and the independent auditors. Accordingly, the Audit Committee's oversight does not provide an independent basis to determine that management has maintained appropriate accounting and financial reporting principles or appropriate internal controls and procedures designed to assure compliance with accounting standards and applicable laws and regulations. Furthermore, the Audit Committee's considerations and discussions referred to above do not assure that the audit of the Company's financial statements has been carried out in accordance with generally accepted auditing standards, that the financial statements are presented in accordance with generally accepted accounting principles or that the Company's auditors are in fact independent.

Based upon the reports and discussions described in this report, and subject to the limitations on the role and responsibilities of the Audit Committee referred to above and in the Audit Committee Charter, the Audit Committee recommended to the Board of Directors that the audited financial statements of the Company be included in the Company's annual report to shareholders for the fiscal year ended December 31, 2010. The members of the Audit Committee, Messrs. Bell, Gavin, Haden, McMillan and Parker and Ms. Kerr, are Independent Directors who are independent within the meaning of the NYSE corporate governance standards for audit committees.

APPENDIX A

TCW STRATEGIC INCOME FUND, INC.

DIRECTORS NOMINATING AND QUALIFICATIONS CHARTER

Nominating Committee Membership and Other Qualifications

No member of the Nominating Committee (the **Committee**) shall be an interested person of TCW Strategic Income Fund, Inc. (the **Fund**) as that term is defined in Section 2(a)(19) of the Investment Company Act of 1940 (the **1940 Act**). The President and other officers of the Fund, and interested directors, although not members of the Committee, may recommend candidates and recruit them for the Board of Directors (the **Board**) and for executive offices of the Fund. However, the Committee retains the exclusive authority to nominate independent director candidates.

The members of the Committee shall be elected by the Board annually and shall serve until their successors shall be duly elected and qualified.

Purpose of the Committee

The purpose of the Committee is to (i) assist the Board by identifying individuals qualified to become Board members or executive officers and to recommend to the Board the director and/or executive officer nominees and (ii) recommend to the Board director compensation.

Duties of the Committee

1. The Committee shall make nominations for directors and officers of the Fund and submit such nominations to the full Board. In the event of any vacancies on or additions to the Board, the Committee shall oversee the process for identification, evaluation and nomination of potential candidates to serve on the Board. The Committee shall evaluate candidates' qualifications for such positions and, in the case of candidates for independent director positions, their independence from the Fund's investment adviser and other principal service providers. Persons selected as independent directors must not be interested persons of the Fund as that term is defined in the 1940 Act. The Committee may seek suggestions for independent Board member nominees from any person. The Committee shall also consider the effect of any relationships beyond those delineated in the 1940 Act that might impair independence, *e.g.* business, financial or family relationships with the investment adviser. In determining nominees' qualifications for Board membership, the Committee shall consider the factors set forth in this paragraph 1 and in paragraph 2 below, and, with respect to nominees presented by a shareholder, paragraph 3 below, and may consider such other factors as it may determine to be relevant to fulfilling the role of being a member of the Board. The Committee may consider the candidate's potential contribution in terms of experience and background to the operation of the

Board and its committees; the candidate's other commitments and the impact such commitments may have to his/her service to the Fund; whether the independent Board member could qualify as an audit committee financial expert and any such factors as it may deem relevant. The Committee may also consider the views of the Fund's investment adviser (or affiliates of the investment adviser).

2. To qualify as a nominee for the Board, individuals, at the time of nomination, should have: (a) substantial expertise, work experience or relationships that would contribute to the overall effectiveness of the Board, including in overseeing the Fund and protecting the interests of the Fund's shareholders; and (b) a degree from an accredited university or college in the United States or the equivalent degree from an equivalent institution of higher learning in another country or a certification as a public accountant. Nominees must satisfy all qualifications, if any, provided in the Fund's organizational documents, and shall also have no felony convictions or felony or misdemeanor convictions involving the purchase or sale of a security. No person shall be qualified to be a Board member unless the Committee, in consultation with counsel to the independent Board members, has determined that such person, if elected as a Board member, would not cause the Fund to be in violation of or not in compliance with (a) applicable law, regulation or regulatory interpretation, (b) the Fund's organizational documents, or (c) any general policy adopted by the Board regarding either the retirement age of any Board member or the percentage of the Board that would be comprised of independent Board members.

3. Shareholders may submit for the Committee's consideration recommendations regarding potential independent Board member nominees. Each eligible shareholder or shareholder group may submit no more than one independent Board member nominee each calendar year.

(a) In order for the Committee to consider shareholder submissions, the following requirements must be satisfied regarding the nominee:

(i) The nominee must satisfy all qualifications provided herein and in the Fund's organizational documents, including qualification as a possible independent Board member.

(ii) The nominee may not be the nominating shareholder, a member of the nominating shareholder group or a member of the immediate family of the nominating shareholder or any member of the nominating shareholder group.¹

(iii) Neither the nominee nor any member of the nominee's immediate family may be currently employed or employed within the last year by any nominating shareholder entity or entity in a nominating shareholder group.

¹ Terms such as immediate family member and control shall be interpreted in accordance with the federal securities laws.

(iv) Neither the nominee nor any immediate family member of the nominee is permitted to have accepted directly or indirectly, during the year of the election for which the nominee's name was submitted, during the immediately preceding calendar year, or during the year when the nominee's name was submitted, any consulting, advisory, or other compensatory fee from the nominating shareholder or any member of a nominating shareholder group.

(v) The nominee may not be an executive officer, director (or person fulfilling similar functions) of the nominating shareholder or any member of the nominating shareholder group, or of an affiliate of the nominating shareholder or any such member of the nominating shareholder group.

(vi) The nominee may not control the nominating shareholder or any member of the nominating shareholder group (or, in the case of a holder or member that is a fund, an interested person of such holder or member as defined by Section 2(a)(19) of the 1940 Act).

(vii) A shareholder or shareholder group may not submit for consideration a nominee which has previously been considered by the Committee.

(b) In order for the Committee to consider shareholder submissions, the following requirements must be satisfied regarding the shareholder or shareholder group submitting the proposed nominee:

(i) Any shareholder or shareholder group submitting a proposed nominee must beneficially own, either individually or in the aggregate, more than 5% of the Fund's securities that are eligible to vote both at the time of submission of the nominee and at the time of the Board member election. Each of the securities used for purposes of calculating this ownership must have been held continuously for at least two years as of the date of the nomination. In addition, such securities must continue to be held through the date of the meeting. The nominating shareholder or shareholder group must also bear the economic risk of the investment and the securities used for purposes of calculating the ownership cannot be held short.

(ii) The nominating shareholder or shareholder group must not qualify as an adverse holder. In other words, if such shareholder were required to report beneficial ownership of its securities, its report would be filed on Securities Exchange Act Schedule 13G instead of Schedule 13D in reliance on Securities Exchange Act Rule 13d-1(b) or (c).

(c) Shareholders or shareholder groups submitting proposed nominees must substantiate compliance with the above requirements at the time of submitting their proposed nominee as part of their written submission to the attention of the Fund's Secretary, which must include:

(i) the shareholder's contact information;

- (ii) the nominee's contact information and the number of Fund shares owned by the proposed nominee;
- (iii) all information regarding the nominee that would be required to be disclosed in solicitations of proxies for elections of directors required by Regulation 14A of the Securities Exchange Act; and
- (iv) a notarized letter executed by the nominee, stating his or her intention to serve as a nominee and be named in the Fund's proxy statement, if so designated by the Committee and the Fund's Board.

It shall be in the Committee's sole discretion whether to seek corrections of a deficient submission or to exclude a nominee from consideration.

- 4. The Committee shall evaluate the participation and contribution of each director coming to the end of his or her term before deciding whether to recommend reelection. The Committee may seek the views of other directors to assist them in this evaluation.
- 5. The Committee shall periodically review as it deems necessary the composition of the Board to determine whether it may be appropriate to add individuals with different backgrounds or skills from those already on the Board.
- 6. The Committee shall periodically review as it deems necessary director compensation and shall recommend any appropriate changes to the Board as a group.
- 7. The Committee shall periodically review as it deems necessary issues related to the succession of officers of the Fund, including the Chairman of the Board.
- 8. The Committee shall make nominations for membership on all committees of the Board and submit such nominations to the full Board, and shall review committee assignments as necessary.
- 9. The Committee shall review as it deems necessary the responsibilities of any committees of the Board, whether there is a continuing need for each committee, whether there is a need for additional committees, and whether committees should be combined or reorganized. The Committee shall consult with, and receive recommendations in connection with the foregoing from the Board and Fund management, and shall make recommendations for any such action to the full Board.

Operations of the Committee

- 1. The Committee shall meet at least annually, and is authorized to hold special meetings as circumstances warrant.

2. The Committee shall ordinarily meet in person; however, members may attend telephonically or by video conference, and the Committee may act by written consent, to the extent permitted by law and by the Fund's by-laws.
3. The Committee shall prepare and retain minutes of its meetings and appropriate documentation of decisions made outside of meetings by delegated authority.
4. The Committee may select one of its members to be the chair.
