Security that may be resold to qualified institutional buyers under Rule 144A or securities offered pursuant to Section 4(2) of the Securities Act of 1933, as amended.

- (i) Illiquid security
- ¥ A payment-in-kind (PIK) security is a security in which the issuer may make interest or dividend payments in cash or additional securities. These additional securities generally have the same terms as the original holdings.
- All or a portion of the position represents an unfunded loan commitment.
- ^ Security is currently in default with regards to scheduled interest and/or principal payments.
- ## All or a portion of this security has been segregated for when-issued, delayed delivery securities and/or unfunded loans.
- (l) Investment in an affiliate.
- (u) Rate shown is the 7-day annualized yield at period end. Non-income earning security.
- * Cost for federal income tax purposes is \$124,230,342 and net unrealized appreciation (depreciation) consists of:

Gross unrealized appreciation	\$ 16,115,977
Gross unrealized depreciation	(4,919,740)
Net unrealized appreciation (depreciation)	\$ 11,196,237

WELLS FARGO ADVANTAGE UTILITIES AND HIGH INCOME FUND

WELLS FARGO ADVANTAGE UTILITIES AND HIGH INCOME FUND

NOTES TO PORTFOLIO OF INVESTMENTS May 31, 2011 (unaudited)

The following notes are to be read in conjunction with the Portfolio of Investments for Wells Fargo Advantage Utilities and High Income Fund (the Fund).

Securities valuation

Investments in securities are valued each business day as of the close of regular trading on the New York Stock Exchange, which is usually 4:00 p.m. (Eastern Time). Securities which are traded on a national or foreign securities exchange are valued at the last reported sales price, except that securities listed on The Nasdaq Stock Market, Inc. (Nasdaq) are valued at the Nasdaq Official Closing Price (NOCP), and if no NOCP is available, then at the last reported sales price. If no sales price is shown on the Nasdaq, the bid price will be used. In the absence of any sale of securities listed on the Nasdaq, and in the case of other securities, including U.S. Government obligations, but excluding debt securities maturing in 60 days or less, the price will be deemed stale and the valuations will be determined in accordance with the Fund s Fair Value Procedures.

Securities denominated in foreign currencies are translated into U.S. dollars using the closing rates of exchange in effect on the day of valuation.

Many securities markets and exchanges outside the U.S. close prior to the close of the New York Stock Exchange and therefore may not fully reflect trading or events that occur after the close of the principal exchange in which the foreign investments are traded but before the close of the New York Stock Exchange. If such trading or events are expected to materially affect the value of the investments, then those investments are fair valued following procedures approved by the Board of Trustees. These procedures take into account multiple factors including movements in U.S. securities markets after foreign exchanges close. Depending on market activity, such fair valuations may be frequent. Such fair value pricing may result in NAVs that are higher or lower than NAVs based on the closing price or latest quoted bid price.

Certain fixed income securities with maturities exceeding 60 days are valued based on available market quotations received from an independent pricing service approved by the Board of Trustees which may utilize both transaction data and market information such as yield, prices of securities of comparable quality, coupon rate, maturity, type of issue, trading characteristics and other market data. If valuations are not available from the pricing service or values received are deemed not representative of market value, values will be obtained from a third party broker-dealer or determined based on the Fund s Fair Value Procedures.

Investments in open-end mutual funds and non-registered investment companies are generally valued at net asset value.

Certain investments which are not valued using any of the methods discussed above, are valued at their fair value, as determined by procedures established in good faith and approved by the Board of Trustees.

The valuation techniques used by the Fund to measure fair value are consistent with the market approach, income approach and/or cost approach, where applicable, for each security type.

When-issued transactions

The Fund may purchase securities on a forward commitment or when-issued basis. The Fund records a when-issued transaction on the trade date and will segregate assets to cover its obligation by confirming the availability of qualifying assets having a value sufficient to make payment for the securities purchased. Securities purchased on a when-issued basis are marked-to-market daily and the Fund begins earning interest on the settlement date. Losses may arise due to changes in the market value of the underlying securities or if the counterparty does not perform under the contract.

Term loans

The Fund may invest in term loans. The loans are marked-to-market daily and the Fund begins earning interest when the loans are funded. The loans pay interest at rates which are periodically reset by reference to a base lending rate plus a spread. The Fund assumes the credit risk of the borrower and there could be potential loss to the Fund in the event of default by the borrower.

As of May 31, 2011, the Fund had unfunded loan commitments of \$206,188.

Fair valuation measurements

Fair value measurements of investments are determined within a framework that has established a fair value hierarchy based upon the various data inputs utilized in determining the value of the Fund s investments. The three-level hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The Fund s investments are classified within the fair value hierarchy based on the lowest level of input that is significant to the fair value measurement. The inputs are summarized into three broad levels as follows:

- Level 1 quoted prices in active markets for identical securities
- Level 2 other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)

Level 3 significant unobservable inputs (including the Fund s own assumptions in determining the fair value of investments)

The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

As of May 31, 2011, the inputs used in valuing the Fund s assets, which are carried at fair value, were as follows:

	Quoted Prices	Significant Other Observable Inputs	Significant Unobservable Inputs	
Investments in Securities	(Level 1)	(Level 2)	(Level 3)	Total
Equity securities				
Common stocks	\$ 78,723,089	\$ 0	\$ 0	\$ 78,723,089
Preferred stocks	11,418,006	0	0	11,418,006
Warrants	0	1,970	0	1,970
Investment companies	14,134	0	0	14,134
Corporate bonds and notes	0	33,275,866	620,831	33,896,697
Term loans	0	3,666,078	0	3,666,078
Yankee corporate bonds and notes	0	1,046,073	0	1,046,073
Short-term investments				
Investment companies	6,660,532	0	0	6,660,532
	\$ 96,815,761	\$ 37,989,987	\$ 620,831	\$ 135,426,579

Transfers in and transfers out are recognized at the end of the reporting period. For the nine months ended May 31, 2011, the Fund did not have any significant transfers into/out of Level 1 and Level 2.

The following is a reconciliation of investments in which significant unobservable inputs (Level 3) were used in determining value:

	Corporate bonds and notes	
Balance as of August 31, 2010	\$	0
Realized gains (losses)		0
Change in unrealized gains (losses)		0
Purchases		0
Sales		0
Transfers into Level 3	620),831
Transfers out of Level 3		0
Balance as of May 31, 2011	\$ 620),831
Change in unrealized gains (losses) included in earnings relating to securities still held at May 31, 2011	\$	0
