Table of Contents**STERICYCLE, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****(Unaudited)**

Unless the context requires otherwise, we, us or our refers to Stericycle, Inc. and its subsidiaries on a consolidated basis.

NOTE 1 BASIS OF PRESENTATION

The accompanying condensed consolidated financial statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in annual consolidated financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted pursuant to such rules and regulations. However, the Company believes the disclosures included in the accompanying condensed consolidated financial statements are adequate to make the information presented not misleading. In our opinion, all adjustments necessary for a fair presentation for the periods presented have been reflected and are of a normal recurring nature. These condensed consolidated financial statements should be read in conjunction with the Stericycle, Inc. and Subsidiaries Consolidated Financial Statements and notes thereto for the year ended December 31, 2010, as filed with our Annual Report on Form 10-K for the year ended December 31, 2010. The results of operations for the nine months ended September 30, 2011 are not necessarily indicative of the results that may be achieved for the entire year ending December 31, 2011.

There were no material changes in the Company's critical accounting policies since the filing of its 2010 Form 10-K. As discussed in the 2010 Form 10-K, the preparation of the consolidated financial statements in conformity with accounting principles generally accepted in the United States requires management to make certain estimates and assumptions that affect the amount of reported assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and revenues and expenses during the periods reported. Actual results may differ from those estimates.

Certain amounts in previously issued financial statements have been reclassified to conform to the current period presentation.

During the quarter ended March 31, 2011, we completed nine acquisitions. Domestically, we acquired selected assets of three regulated waste businesses. Internationally, we acquired 100% of the stock of two regulated waste businesses in the UK and two regulated waste businesses in Romania, selected assets of a regulated waste business in Ireland, and 80% of the stock of a regulated waste business in Chile.

During the quarter ended June 30, 2011, we completed 11 acquisitions. Domestically, we completed our stock acquisition of Healthcare Waste Solutions, Inc., a Delaware corporation (HWS). We also acquired selected assets of five regulated waste businesses and all of the assets of a compliance business. Internationally, we acquired 100% of the stock of regulated waste businesses in Argentina and Canada, 70% of the stock of a regulated waste business in Brazil, and selected assets of a regulated waste business in Romania. We also increased our majority share in a previous acquisition in Brazil from 70% to 82.5%.

During the quarter ended September 30, 2011, we completed 17 acquisitions. Domestically, we acquired selected assets of two regulated waste businesses, three compliance businesses, and one returns management business. Internationally, we acquired 100% of the stock of a regulated waste business in Canada, UK, and Spain. Our Spanish company includes a 51% ownership in a small subsidiary. In Brazil we acquired 82.5% of the stock of three regulated waste businesses. In Romania we acquired 100% of the stock of one regulated waste business and selected assets of another. In Japan we acquired 100% of the stock of one regulated waste business and selected assets of another. In Portugal we acquired selected assets of one regulated waste business. In Mexico we sold our 55% majority ownership of a regulated waste business for approximately \$3.3 million which resulted in a loss of \$0.3 million.

The following table summarizes the aggregate purchase price paid for acquisitions and other adjustments of consideration to be paid on acquisitions during the nine months ended September 30, 2011:

During the nine months ended September 30, 2011, we recognized a net increase to goodwill of \$345.8 million of which \$229.2 million was assigned to our United States reporting segment and \$116.6 million to our Foreign Countries reporting segment. Approximately \$29.7 million of the goodwill recognized during the nine months ended September 30, 2011 will be deductible for income taxes.

Table of Contents

During the nine months ended September 30, 2011, we recognized \$169.4 million in intangible assets of which \$160.7 million represents the estimated fair value of acquired customer relationships with amortizable lives of 15-40 years, and \$6.9 in permits with indefinite lives. The allocation of the acquisition price paid is preliminary pending completion of certain intangible asset valuations and completion accounts.

The following table summarizes the preliminary purchase price allocation for current period acquisitions and other adjustments to purchase price allocations during the nine months ended September 30, 2011:

In thousands	
Fixed assets	\$ 27,548
Intangibles	169,412
Goodwill	345,780
Net other assets/ (liabilities)	22,226
Debt	(1,168)
Net deferred tax liabilities	(53,913)
Noncontrolling interests	(608)

Total purchase price allocation **\$ 509,277**

For financial reporting purposes, our 2011 and 2010 acquisitions were accounted for using the acquisition method of accounting. These acquisitions resulted in recognition of goodwill in our financial statements reflecting the premium paid to acquire businesses that we believe are complementary to our existing operations and fit our strategy. During the nine months ended September 30, 2011 and 2010, the Company incurred \$12.3 million and \$3.2 million, respectively, of acquisition related expenses. These expenses are identified on our Condensed Consolidated Statements of Income as acquisition expenses. The purchase prices in excess of acquired tangible assets for these acquisitions have been primarily allocated to goodwill and other intangibles and are preliminary pending completion of certain intangible asset valuations.

NOTE 3 NEW ACCOUNTING STANDARDS**Accounting Standards Recently Adopted****Revenue Recognition**

On January 1, 2011, Stericycle adopted changes issued by the Financial Accounting Standards Board (FASB) to guidance on revenue recognition for arrangements with multiple deliverables. This update allows companies to allocate consideration received for qualified separate deliverables using estimated selling price for both delivered and undelivered items when vendor-specific objective evidence or third-party evidence is unavailable. Additional disclosures discussing the nature of multiple element arrangements, the types of deliverables under the arrangements, the general timing of their delivery, and significant factors and estimates used to determine estimated selling prices are required. This new guidance did not have a material impact to our financial statements.

Table of Contents

Accounting Standards Issued But Not Yet Adopted

Other Comprehensive Income

In June 2011, the FASB issued changes to the presentation of comprehensive income. These changes give an entity the option to present the total of comprehensive income, the components of net income, and the components of other comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements; the option to present components of other comprehensive income as part of the statement of changes in stockholders' equity was eliminated. The items that must be reported in other comprehensive income or when an item of other comprehensive income must be reclassified to net income were not changed. Additionally, no changes were made to the calculation and presentation of earnings per share. These changes become effective for Stericycle on January 1, 2012. Other than the change in presentation, these changes will not have an impact on our financial statements.

Goodwill Impairment Testing

In September 2011, the FASB issued changes to the testing for impairment of goodwill. Previous guidance under Topic 350 required an entity to test goodwill for impairment, on at least an annual basis, by comparing the fair value of a reporting unit with its carrying amount, including goodwill (step one). If the fair value of a reporting unit is less than its carrying amount, then the second step of the test must be performed to measure the amount of the impairment loss, if any. Under the amendments, an entity is not required to calculate the fair value of a reporting unit unless the entity determines, using qualitative assessment, that it is more likely than not (greater than 50%) that its fair value is less than its carrying amount. These changes become effective for Stericycle on January 1, 2012, although early adoption is permitted. As these changes should not affect the outcome of the impairment analysis of a reporting unit, management has determined these changes will not have an impact on our financial statements.

NOTE 4 FAIR VALUE MEASUREMENTS

Fair value is the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value is estimated by applying the following hierarchy, which prioritizes the inputs used to measure fair value into three levels and bases the categorization within the hierarchy upon the lowest level of input that is available and significant to the fair value measurement:

Level 1 Quoted prices in active markets for identical assets or liabilities.

Level 2 Observable inputs other than quoted prices in active markets for identical assets and liabilities, quoted prices for identical or similar assets or liabilities in inactive markets, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 Inputs that are generally unobservable and typically reflect management's estimate of assumptions that market participants would use in pricing the asset or liability.

Level 1: At September 30, 2011, we have \$23.4 million in cash and cash equivalents, and \$0.4 million in money market accounts, that we recorded at fair value using Level 1 inputs. At December 31, 2010, we had \$79.3 million in cash and cash equivalents, \$15.8 million in certificates of deposit, and \$0.4 million in money market accounts. In 2010, we financed a portion of our Japan acquisition through local borrowings of ¥1.2 billion which required us to deposit the equivalent USD amount of \$15.8 million in one year certificates of deposit with an affiliated bank located in the United States that was redeemed in September 2011.

Level 2: We had no assets or liabilities measured at fair value using Level 2 inputs at September 30, 2011 or December 31, 2010.

Level 3: We had contingent consideration liabilities recorded in the amounts of \$7.6 million at September 30, 2011, and \$16.5 million at December 31, 2010. Contingent considerations are amounts to be paid as part of acquisition consideration only if certain future events occur. These events are usually acquisition targets for revenues or earnings. We arrive at the fair value of contingent consideration by applying a weighted probability of potential outcomes to the maximum possible payout. These potential outcomes are dependent on both past financial performance and management assumptions about future performance. Contingent consideration liabilities are reassessed each quarter and are reflected in the balance sheet as part of other short-term or long-term liabilities. Changes to contingent consideration are reflected in the table below:

Fair Value of Debt: At September 30, 2011, the fair value of the Company's debt obligations was estimated at \$1.410 billion compared to a carrying amount of \$1.400 billion. At December 31, 2010, the fair value of the Company's debt obligations was estimated at \$1.108 billion, compared to a carrying amount of \$1.106 billion. The fair values were estimated using market interest rates for comparable instruments. The Company has no current plans to retire a significant amount of its debt prior to maturity.

There were no movements of items between fair value hierarchies.

NOTE 5 DERIVATIVE INSTRUMENTS

At September 30, 2011, we had no derivative instruments.

NOTE 6 INCOME TAXES

We and our subsidiaries file U.S. federal income tax returns and income tax returns in various states and foreign jurisdictions. With a few exceptions, we are no longer subject to U.S. federal, state, local, or non-U.S. income tax examinations by tax authorities for years before 2005.

The Company has recorded accruals to cover uncertain tax positions taken on previously filed tax returns. Such liabilities relate to additional taxes, interest and penalties the Company may be required to pay in various tax jurisdictions. During the course of examinations by various taxing authorities, proposed adjustments may be asserted. The Company evaluates such items on a case-by-case basis and adjusts the accrual for uncertain tax positions.

The total amount of unrecognized tax positions as of September 30, 2011 is \$9.8 million, which includes interest and penalties and is reflected as a liability on the balance sheet. The amount of unrecognized tax positions that, if recognized, would affect the effective tax rate is approximately \$9.8 million. We recognize interest and penalties accrued related to income tax reserves in income tax expense. This method of accounting is consistent with prior years.

The following table summarizes the changes in unrecognized tax positions during the nine months ended September 30, 2011:

NOTE 7 STOCK BASED COMPENSATION

At September 30, 2011 we had stock options outstanding under the following plans:

the 2008 Incentive Stock Plan, which our stockholders approved in May 2008;

the 2005 Incentive Stock Plan, which our stockholders approved in April 2005;

the 2000 Nonstatutory Stock Option Plan, which expired in February 2010;

the 1997 Stock Option Plan, which expired in January 2007;

the Directors Stock Option Plan, which expired in May 2006;

the 1995 Incentive Compensation Plan, which expired in July 2005;

our Employee Stock Purchase Plan (ESPP), which our stockholders approved in May 2001.

The following table presents the total stock-based compensation expense resulting from stock option awards and the ESPP included in the condensed consolidated statements of income:

The Black-Scholes option-pricing model is used in determining the fair value of each option grant using the assumptions noted in the table below. The expected term of options granted is based on historical experience and represents the period of time that awards granted are expected to be outstanding. Expected volatility is based upon historical volatility of the Company's stock. The expected dividend yield is zero. The risk-free interest rate is based upon the U.S. Treasury yield rates of a comparable period.

The assumptions that we used in the Black-Scholes model are as follows:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2011	2010	2011	2010
Expected term (in years)	5.75	5.75	5.75	5.75

NOTE 11 GOODWILL AND OTHER INTANGIBLE ASSETS

Goodwill and identifiable indefinite lived intangible assets are not amortized, but are subject to an annual impairment test. Other intangible assets are amortized over their useful lives. We have determined that our customer relationships have useful lives from 15 to 40 years based upon the type of customer, with a weighted average remaining useful life of 39.1 years. We have covenants not-to-compete intangibles with useful lives from two to ten years, with a weighted average remaining useful life of 5.7 years. We have tradename intangibles with useful lives from 20 to 40 years, with a weighted average remaining useful life of 19.6 years. We have determined that our permits have indefinite lives due to our ability to renew these permits with minimal additional cost, and therefore they are not amortized.

We have two geographical reporting segments, United States and Foreign Countries, both of which have goodwill. The changes in the carrying amount of goodwill since December 31, 2010 were as follows by reporting segment:

The changes to goodwill for 2010 acquisitions are primarily due to the finalization of intangible valuations and allocation of goodwill to the business in Mexico sold during the third quarter.

As of September 30, 2011 and December 31, 2010, the values of the intangible assets were as follows:

During the quarters ended September 30, 2011 and 2010, the aggregate amortization expense was \$4.2 million and \$2.5 million, respectively. For the nine months ended September 30, 2011 and 2010, the aggregate amortization expense was \$11.1 million and \$6.7 million, respectively.

The estimated amortization expense for each of the next five years, assuming no additional amortizable intangible assets, is as follows for the years ended December 31:

Table of Contents

Future amortization expense may fluctuate depending on changes in foreign currency rates, future acquisitions, or changes to the estimated amortizable life of the intangibles. The estimates for amortization expense noted above are based upon foreign exchange rates as of September 30, 2011.

During the quarter ended June 30, 2011, we performed our annual goodwill impairment evaluation for our three reporting units, Domestic Regulated Waste, Domestic Regulated Returns and Recall Management Services, and Foreign Countries. We performed two impairment tests, one using a market approach and the other using an income approach. Both the market and income approaches indicated no impairment to goodwill to any of our three reporting units.

Market Approach: Our market approach begins by calculating the market capitalization of the Company using the average stock price for the prior 30 days and the outstanding share count at June 30, 2011. We then look at the Company's Earnings Before Interest, Tax, Depreciation, and Amortization (EBITDA), adjusted for stock compensation expense and other items, such as a gain on sale of divested assets, for the prior twelve months. The calculated market capitalization is divided by the modified EBITDA to arrive at a valuation multiple. The fair value of each reporting unit is then calculated by taking the product of the valuation multiple and the trailing twelve month modified EBITDA of that reporting unit. The fair value was then compared to the reporting units' book value and determined to be in excess of the book value. We believe that starting with the fair value of the company as a whole is a reasonable measure as that fair value is then allocated to each reporting unit based on that reporting unit's individual earnings. A sustained drop in our stock price would have a negative impact to our fair value calculations. A temporary drop in earnings of a reporting unit would have a negative impact to our fair value calculations.

The results of our goodwill impairment test using the market approach indicated the fair value of our reporting units exceeded book value by a substantial amount, in excess of 100% of book value.

Income Approach: The income approach uses expected future cash flows of each reporting unit and discounts those cash flows to a present values. Expected future cash flows are calculated using management assumptions of internal growth, capital expenditures, and cost efficiencies. Future acquisitions are not included in the expected future cash flows. We use a discount rate based on our Company calculated Weighted Average Cost of Capital which is adjusted for each of our reporting units based on risk size premium and foreign country premium. Significant assumptions used in the income approach include realization of future cash flows and the discount rate used to present value those cash flows.

The results of our goodwill impairment test using the income approach indicated the fair value of our reporting units exceeded book value by a substantial amount; in excess of 100%.

We complete our annual impairment analysis of our indefinite lived intangibles (facility permits) during the quarter ended December 31 of each year.

Our \$1.0 billion senior credit facility maturing in September 2016, our \$100.0 million private placement notes maturing April 2015, our \$175.0 million private placement notes maturing in October 2017, and our \$225.0 million private placement notes maturing in October 2020, all require us to comply with various financial, reporting and other covenants and restrictions, including a restriction on dividend payments. The financial debt covenants are the same for the senior credit facility, the term loan credit agreement and the private placement notes. At September 30, 2011, we were in compliance with all of our financial debt covenants.

During the quarter ended June 30, 2011, we repaid the outstanding principal of \$76.9 million on our term loan debt. This debt had an original maturity date of June 2012 and was repaid early to take advantage of lower interest rates offered through our senior revolving facility. As a result of the early retirement, we incurred \$1.2 million in unamortized term loan fees that was recognized as interest expense in the quarter ended June 30, 2011.

On September 21, 2011, we and certain of our subsidiaries entered into an amended and restated credit agreement (the new credit agreement) with Bank of America, N.A., as administrative agent, swingline lender, a lender and a letter of credit issuer, other lenders party to the new credit agreement, JPMorgan Chase Bank, N.A., as syndication agent, and HSBC Bank USA, National Association, Lloyds Securities, Inc. and Union Bank, N.A., as co-documentation agents. The new credit agreement amended and restated our prior credit agreement dated as of August 24, 2007, as amended. The new credit agreement increases our unsecured revolving credit facility from \$850.0 million to \$1.0 billion and extends the maturity date of our borrowings from August 24, 2012 to September 21, 2016. We paid \$3.7 million in financing fees which will be amortized to interest expense over the life of the loan agreement.

Table of Contents

As of September 30, 2011 and December 31, 2010, we had \$159.3 million and \$184.0 million, respectively, committed to outstanding letters of credit under our senior credit facility. The unused portion of the revolving credit facility as of September 30, 2011 and December 31, 2010 was \$312.9 million and \$490.6 million, respectively.

Guarantees

We have guaranteed a loan to JPMorganChase Bank N.A. on behalf of Shiraishi-Sogyo Co. Ltd (Shiraishi). Shiraishi is a customer in Japan that is expanding its medical waste management business and has a one year loan with a current balance of \$6.4 million with JPMorganChase Bank N.A. that matures on May 2012. We also have extended notes receivable to Shiraishi for approximately \$15.2 million in support of its medical waste business. These amounts are collateralized with the assets of Shiraishi and related companies.

NOTE 13 GEOGRAPHIC INFORMATION

Management has determined that we have two reportable segments, United States (which includes Puerto Rico) and Foreign Countries. Revenues are attributed to countries based on the location of customers. Inter-company revenues recorded by the United States for work performed in Canada, which are immaterial, are eliminated prior to reporting United States revenues. The same accounting principles and critical accounting policies are used in the preparation of the financial statements for both reporting segments.

We operate in a highly regulated industry and must deal with regulatory inquiries or investigations from time to time that may be instituted for a variety of reasons. We are also involved in a variety of civil litigation from time to time.

NOTE 15 RESTRUCTURING CHARGES

In December of 2009, we announced the consolidation of operations within our returns and recall management services (RMS) business which has been completed and resulted in incremental expense of \$0.1 million in 2011.

In December 2010, we reorganized the structure of our international management group in order to leverage strong local management, resulting in employee severance and other charges. During the third quarter of 2011 we expanded this program to include consolidation of administrative facilities in the United Kingdom and reorganization of our international legal structure. We recognized \$0.3 million in expense during the first two quarters of 2011 and an additional \$0.6 million in the third quarter of 2011. We had an accrual balance of \$0.9 million at the end of third quarter of 2011 and expect approximately an additional \$1.2 to \$1.5 million in expense to be recognized primarily in the fourth quarter of 2011 and first quarter of 2012. We expect the accrual balance to be paid primarily during the fourth quarter of 2011 and first quarter 2012.

The following tables below highlight the pre-tax charges and changes in the reserves for the nine months ended September 30, 2011 and for the year ended December 31, 2010. All charges related to these costs are reflected on our Consolidated Statements of Income within Restructuring costs for both costs of revenue and selling, general, and administrative expenses.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

We were incorporated in 1989 and presently serve a diverse customer base of over 517,000 customers throughout the United States, Argentina, Brazil, Canada, Chile, Ireland, Japan, Mexico, Portugal, Romania, Spain, and the United Kingdom. We have fully integrated networks including processing centers, and transfer and collection sites. We use these networks to provide a broad range of services to our customers including regulated waste management services, and regulated return and recall management services. Regulated waste management services include regulated waste removal services, sharps management services, products and services for infection control, and safety and compliance programs. Regulated return and recall management services are physical services provided to companies and individual businesses that assist with the handling of products that are being removed from the supply chain due to recalls and expiration. These services also include advanced notification technology that is used to communicate specific instructions to the users of the product. Our waste treatment technologies include autoclaving, incineration, chemical treatment, and our proprietary electro-thermal-deactivation system. In addition, we have technology licensing agreements with companies located in Japan, Brazil, and South Africa.

There were no material changes in the Company's critical accounting policies since the filing of its 2010 Form 10-K. As discussed in the 2010 Form 10-K, the preparation of the consolidated financial statements in conformity with accounting principles generally accepted in the United States requires management to make certain estimates and assumptions that affect the amount of reported assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and revenues and expenses during the periods reported. Actual results may differ from those estimates.

Highlights of the three months ended September 30, 2011:

revenues grew to \$420.9 million, a 16.0% increase over \$363.0 million for the third quarter 2010;

third quarter gross margins decreased to 45.2% in 2011 from 46.3% in 2010;

operating income was \$104.6 million, a 8.9% increase over \$96.0 million for the third quarter 2010;

we incurred a net \$3.8 million in expenses related to acquisitions and restructuring; and

cash flow from operations was \$95.5 million.

Highlights of the nine months September 30, 2011:

revenues grew to \$1.23 billion, a 17.6% increase over \$1.05 billion for 2010;

gross margins decreased to 45.5% from 46.4% in 2010;

operating income was \$308.9 million, a 11.6% increase over \$276.8 million for 2010;

we incurred a net \$13.3 million in expenses related to acquisitions and restructuring; and

cash flow from operations was \$215.2 million.

Edgar Filing: STERICYCLE INC - Form 10-Q

During the quarter ending September 30, 2011, we completed our annual goodwill impairment test. The results of that test did not indicate any impairment to our goodwill (see Note 11 Goodwill and Other Intangible Assets, in the Notes to the Condensed Consolidated Financial Statements (Item 1 of Part I)).

Revenues: Our revenues increased \$57.9 million, or 16.0%, in the third quarter of 2011 to \$420.9 million from \$363.0 million in the same period in 2010. Domestic revenues increased \$30.2 million, or 11.0%, to \$303.9 million from \$273.6 million in the same period in 2010. Internal revenue growth for domestic small account customers increased by \$11.5 million, or approximately 8%, and internal revenue growth for large quantity customers increased by \$5.0 million, or approximately 6%. Internal revenues for returns and recall management services decreased by \$11.0 million in 2011. Internal revenues excludes acquisitions less than one year old. Total regulated waste and returns management domestic acquisitions less than one year old contributed approximately \$24.7 million to the increase in domestic revenues.

Table of Contents

International revenues increased \$27.7 million, or 31.0%, to \$117.1 million from \$89.4 million in the same period in 2010. Internal growth in the international segment contributed \$4.4 million, or approximately 5% in increased revenues. Internal growth excludes the effect of foreign exchange and acquisitions and divestitures less than one year old. The effect of exchange rate fluctuations favorably impacted international revenues approximately \$4.1 million while acquisitions net of divestitures less than one year old contributed an additional \$19.2 million in international revenues.

Cost of Revenues: Our cost of revenues increased \$36.0 million, or 18.5%, in the third quarter of 2011 to \$230.9 million from \$194.9 million in the same period in 2010. Our domestic cost of revenues increased \$15.9 million, or 11.5%, in the third quarter of 2011 to \$153.7 million from \$137.8 million in the same period in 2010 as a result of costs related to a proportional increase in revenues from acquisitions and internal growth.

Our international cost of revenues increased \$20.1 million, or 35.2%, in the third quarter of 2011 to \$77.2 million from \$57.1 million in the same period in 2010 primarily driven by the impact of exchange rates and impact from integration of acquisitions.

Our Company wide gross margin percentage decreased to 45.2% during the third quarter of 2011 from 46.3% during the same period in 2010 primarily due to lower margin newly acquired revenues offset partially by improvements in the base business margins.

Selling, General and Administrative Expenses: Selling, general and administrative (SG&A) expenses increased approximately \$9.7 million, or 14.0%, in the third quarter of 2011 to \$79.1 million from \$69.4 million in the same period in 2010 primarily as investment spending supported the increase in revenues and acquired SG&A expenses. As a percentage of revenue, these costs decreased by 0.3% for the third quarter 2011 compared to the same period in 2010.

Domestically, third quarter SG&A expenses increased \$4.5 million, or 8.4%, to \$58.1 million from \$53.6 million in the same period in 2010. As percentage of revenues, SG&A was lower at 19.1% in the third quarter of 2011 compared to 19.6% in 2010. As a percentage of revenues, amortization expense of acquired intangible assets increased by 0.2% while other expenses decreased by 0.7%.

Internationally, third quarter SG&A expenses increased \$5.2 million or 32.9% to \$21.0 million from \$15.8 million in the same period in 2010. As a percentage of revenues, SG&A was 17.9% in 2011 compared to 17.7% in 2010. The increase in SG&A was due the increased number of international acquisitions partially offset by restructuring of the international management structure and the continued integration of acquisitions. The percent to revenue was up due to a higher ratio of amortization expense to revenues; factoring out amortization expense, SG&A was lower by approximately 50 basis points to revenue.

Income from Operations: Income from operations increased \$8.5 million, or 8.9%, in the third quarter of 2011 to \$104.6 million from \$96.0 million in same period in 2010. During the quarter ended September 2011, we recognized \$3.2 million in acquisition expenses, \$1.8 million related to the integration of new acquisitions, \$0.6 million of restructuring costs, \$0.5 million in litigation settlement, and \$0.3 million loss on sale of assets related to the Mexico divestiture.

Table of Contents

During the quarter ended September 2010, we recognized \$1.9 million in expenses related to acquisitions, \$0.8 million related to the integration of new acquisitions, and \$0.2 million of restructuring costs of our regulated returns management service business.

Net Interest Expense: Net interest expense increased to \$11.8 million during the third quarter in 2011 from \$8.4 million during the same period in 2010. Our interest expense was higher in 2011 due primarily to increased borrowings and interest expense related to the new private placement completed in the fourth quarter of 2010.

Income Tax Expense: Income tax expense increased to \$32.4 million in the third quarter of 2011 from \$30.6 million in the same period in 2010. In September 2011 and 2010, we recognized \$1.3 million and \$1.2 million, respectively; of tax benefits related to prior years unrecognized tax positions. The effective tax rates for the quarters ended September 30, 2011 and 2010 were 35.2% and 34.8%, respectively.

Table of Contents

Revenues: Our revenues increased \$183.6 million, or 17.6%, for the nine months ended September 31, 2011 to \$1.23 billion from \$1.05 billion in same period in 2010. Domestic revenues increased \$104.2 million, or 13.2%, to \$895.2 million from \$791.0 million in 2010 as internal revenue growth for domestic small account customers increased by \$35.4 million, or approximately 8%, and internal revenue growth for large quantity customers increased by \$14.1 million, or approximately 5%. Internal revenues for returns and recall management services decreased by \$3.0 million resulting from fewer large recalls in the quarter. Internal revenues exclude acquisitions less than one year old. Total domestic regulated waste and returns management acquisitions less than one year old contributed approximately \$57.7 million to the increase in domestic revenues.

International revenues increased \$79.4 million, or 31.1%, to \$334.3 million in 2011 from \$254.9 million in 2010. Internal growth in the international segment contributed \$14.0 million, or approximately 6% in increased revenues. Internal growth excludes the effect of foreign exchange and acquisitions and divestitures less than one year old. The effect of exchange rate fluctuations favorably impacted international revenues approximately \$13.7 million and acquisitions and divestitures less than one year old contributed an additional \$51.7 million in international revenues.

Cost of Revenues: Our cost of revenues increased \$109.3 million, or 19.5%, for the nine months ended September 30, 2011 to \$670.2 million from \$560.9 million during the same period in 2010. Our domestic cost of revenues increased \$53.5 million, or 13.4%, to \$452.5 million from \$399.0 million in the same period in 2010 as a result of costs related to a proportional increase in revenues from acquisitions and internal growth.

Our international cost of revenues increased \$55.8 million, or 34.5% to \$217.7 million from \$161.9 million in same period in 2010 as a result of costs related to a proportional increase in revenues, partially driven by the impact of exchange rates.

Our Company wide gross margin percentage decreased to 45.5% during 2011 from 46.4% during 2010 due to the inclusion of lower margin acquired revenues.

Selling, General and Administrative Expenses: SG&A expenses increased \$29.8 million, or 14.7%, in the nine months ended September 30, 2011 to \$232.4 million from \$202.6 million in the same period in 2010. As a percentage of revenue, these costs decreased by 0.5% for the nine months ended September 30, 2011 compared to the same period in 2010.

Domestically, SG&A increased \$16.8 million in 2011, or 10.7%, to \$173.5 million from \$156.7 million in the same period in 2010. The increase was primarily due to SG&A expenses related to the acquired revenues and higher amortization expense.

Internationally, SG&A increased \$13.0 million in 2011, or 28.3%, to \$58.9 million from \$45.9 million in the same period in 2010. As a percentage of revenues, SG&A was 17.6% in 2011 and 18.0% in 2010. Increased in SG&A was due the increased number of international acquisitions partially offset by restructuring of the international management structure and the continued integration of acquisitions. Higher amortization expense related to recognized intangible assets from acquisitions and investment for our Clinical Services program also contributed to the increase in SG&A.

Table of Contents

Income from Operations: Income from operations increased \$32.2 million, or 11.6%, in the nine months ended September 30, 2011 to \$308.9 million from \$276.8 million in the same period in 2010. During the nine months ended September 30, 2011, we recognized \$12.3 million in acquisition expenses, \$3.9 million related to the integration of new acquisitions, \$1.1 million of restructuring costs, \$0.5 million in litigation settlement, and \$0.3 million loss on sale of assets related to the Mexico divestiture.

During the nine months ended September 30, 2010, we recognized \$3.2 million in acquisition expenses, \$3.3 million related to the integration of new acquisitions, \$2.4 million of restructuring and plant closure expenses, and litigation settlement of \$0.9 million, partially offset by a \$3.0 million gain on sale of assets related to the MedServe divestiture.

Net Interest Expense: Net interest expense increased to \$35.9 million in the nine months ended September 30, 2011 from \$26.1 million during the same period in 2010 due to increased borrowings. An additional interest expense of \$1.2 million in the second quarter of 2011 was due to the acceleration of amortization of finance fees related to our term loan that was repaid prior to scheduled maturity of June 2012.

Income Tax Expense: Income tax expense increased to \$99.1 million for the nine months ended September 30, 2011 from \$89.4 million for the same period in 2010. The increase was due to higher taxable income. In September 2011 and 2010, we recognized \$1.3 million and \$1.2 million, respectively; of tax benefits related to prior years unrecognized tax positions which positively impacted our diluted earnings per share by \$0.01 in both 2011 and 2010. The effective tax rates for the nine months ended September 30, 2011 and 2010 were 36.5% and 35.9%, respectively.

LIQUIDITY AND CAPITAL RESOURCES

Our \$1.0 billion senior credit facility maturing in September 2016, our \$100.0 million private placement notes maturing April 2015, our \$175.0 million private placement notes maturing in October 2017, and our \$225.0 million private placement notes maturing in October 2020, all require us to comply with various financial, reporting and other covenants and restrictions, including a restriction on dividend payments. The financial debt covenants are the same for the senior credit facility, the term loan credit agreement and the private placement notes. At September 30, 2011, we were in compliance with all of our financial debt covenants.

On September 21, 2011, we and certain of our subsidiaries entered into an amended and restated credit agreement (the new credit agreement) with Bank of America, N.A., as administrative agent, swingline lender, a lender and a letter of credit issuer, other lenders party to the new credit agreement, JPMorgan Chase Bank, N.A., as syndication agent, and HSBC Bank USA, National Association, Lloyds Securities, Inc. and Union Bank, N.A., as co-documentation agents. The new credit agreement amended and restated our prior credit agreement dated as of August 24, 2007, as amended. The new credit agreement increases our unsecured revolving credit facility from \$850.0 million to \$1.0 billion and extends the maturity date of our borrowings from August 24, 2012 to September 21, 2016. We paid \$3.7 million in financing fees which will be amortized to interest expense over the life of the loan agreement.

Table of Contents

As of September 30, 2011, we had \$527.8 million of borrowings outstanding under our \$1.0 billion senior unsecured credit facility, which includes foreign currency borrowings of \$63.8 million. We also had \$159.3 million committed to outstanding letters of credit under this facility. The unused portion of the revolving credit facility as of September 30, 2011 was \$312.9 million. At September 30, 2011, our interest rates on borrowings under our revolving credit facility were as follows:

For short-term borrowing (overnight): Federal funds rate plus 0.5% , the Eurocurrency rate plus 1.0% or prime rate plus 0.025%, whichever is higher; and

For borrowing greater than one month: LIBOR plus 1.25%.

The weighted average rate of interest on the unsecured revolving credit facility was 1.8% per annum.

As of September 30, 2011, we repaid the outstanding principal of \$76.9 million on our term loan debt. This debt had an original maturity date of June 2012 and was repaid early to take advantage of lower interest rates offered through our senior revolving facility. There were no prepayment penalties.

As of September 30, 2011, we had outstanding \$100.0 million of seven-year 5.64% unsecured senior notes issued to nine institutional purchasers in a private placement completed in April 2008. Interest is payable in arrears semi-annually on April 15 and October 15 beginning on October 15, 2009, and principal is payable at the maturity of the notes on April 15, 2015.

As of September 30, 2011, we had outstanding \$175.0 million of seven-year 3.89% unsecured senior notes and \$225.0 million of 10-year 4.47% unsecured senior notes issued to 39 institutional purchasers in a private placement completed in October 2010. Interest is payable in arrears on April 15 and October 15 beginning on April 15 2011, and principal is payable at the maturity of the notes, October 15, 2017 in the case of the seven-year notes and October 15, 2020 in the case of the 10-year notes.

As of September 30, 2011, we had \$372.0 million in other debt outstanding, which includes promissory notes issued in connection with acquisitions during 2004 through 2011, other foreign subsidiary bank debt, and capital lease obligations.

Working Capital: At September 30, 2011, our working capital decreased \$5.3 million to \$54.9 million compared to \$60.2 million at December 31, 2010.

Our current assets increased by \$16.2 million primarily due to acquired assets of \$64.1 million of which \$54.2 million was accounts receivables. Cash and cash equivalents at December 31, 2010 included \$23.0 million, offset by an equivalent amount in accrued liabilities, that was used for recalled product reimbursement during nine months ended September 30, 2011. Cash was also used to pay debt offset by collections.

Table of Contents

Our current liabilities increased by \$21.4 million. We acquired \$44.3 million in current liabilities of which \$26.8 million was accounts payable. Offsetting these acquired liabilities was the decrease in the recalled product reimbursement of \$23.0 million. We repaid the outstanding principal on our term loan debt of which \$20.2 million was current (see Note 12 Debt), and also \$3.2 million of the short-term portion of our acquisition notes. Offsetting short-term debt decreases was an increase in our short-term amounts on our senior credit facility of \$16.4 million due to borrowings for acquisitions. The remaining increase to our current liabilities is primarily an increase to accrued taxes, and an increase to accrued interest related to higher debt.

Net Cash Provided or Used: Net cash provided by operating activities increased \$9.8 million, or 4.7%, to \$215.2 million during the nine months ended September 30, 2011 compared to \$205.4 million for the comparable period in 2010, primarily due to an increase in revenues. Cash provided by operations as a ratio to net income is 125% and 129% for the nine months ended 2011 and 2010, respectively, with days sales outstanding the same at 53 days when excluding acquired receivables and 58 days when including acquired receivables.

Net cash used in investing activities for the nine months ended September 30, 2011 was \$486.1 million compared to \$140.7 million in the comparable period in 2010. The increase is due to acquisitions, of which the largest was our acquisition of HWS which resulted in \$234.4 million cash used. We redeemed \$15.8 million of certificates of deposit the quarter ended September 30, 2011. Capital expenditures for the nine months ended September 30, 2011 decreased, as a percentage of revenue, to 3.0% from 3.4% for the comparable period 2010.

We had net cash provided by financing activities of \$212.0 million during the nine months ended September 30, 2011 compared to \$53.7 million net cash used by financing activities for the comparable period in 2010, a change of \$265.7 million related to increased borrowings to finance certain acquisitions and offset by share repurchases of \$81.2 million compared to \$43.6 million in 2010, an increase of \$37.6 million.

Guarantees: We have guaranteed a loan to JPMorganChase Bank N.A. on behalf of Shiraishi-Sogyo Co. Ltd (Shiraishi). Shiraishi is a customer in Japan that is expanding their medical waste management business and has a one year loan with a current balance of \$6.4 million with JPMorganChase Bank N.A. that expires in May 2012. We also have extended notes receivable to Shiraishi for approximately \$15.2 million in support of their medical waste business. These amounts are collateralized with the assets of Shiraishi and related companies.

Annual Impairment Test: We completed our annual goodwill impairment test during the second quarter of 2011. We used both a market approach and an income approach to determine the fair value of our reporting units. The market approach compares the market capitalization of the company as a whole, which is the fair value, and allocates a portion of that fair value to each reporting unit based on that reporting unit's historic cash flows, as measured by a modified Earnings Before Interest, Taxes, Depreciation, and Amortization. The income approach uses estimates of future cash flows discounted to a present value to arrive at a fair value. Both the market and income approaches indicated no impairment to any of our three reporting units.

ITEM 3. QUALITATIVE AND QUANTITATIVE DISCLOSURES ABOUT MARKET RISK

We are subject to market risks arising from changes in interest rates. Our potential additional interest expense over one year that would result from a hypothetical, instantaneous and unfavorable change of 100 basis points in the interest rate on all of our variable rate obligations would be approximately \$6.2 million on a pre-tax basis.

We have exposure to foreign currency fluctuations. We have subsidiaries in nine foreign countries whose functional currency is the local currency. Changes in foreign currency exchange rates could unfavorably impact our consolidated results of operations.

We have exposure to commodity pricing for gas and diesel fuel for our trucks and for the purchase of containers and boxes. We do not hedge these items to manage the exposure.

ITEM 4. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

Our management, with the participation of our Chairman and Chief Executive Officer and our Chief Financial Officer, conducted an evaluation of the effectiveness of our disclosure controls and procedures as of the end of the fiscal quarter covered by this Report. On the basis of this evaluation, our Chairman and Chief Executive Officer and our Chief Financial Officer each concluded that our disclosure controls and procedures were effective.

The term disclosure controls and procedures is defined in Rule 13a-14(e) of the Securities Exchange Act of 1934 as controls and other procedures designed to ensure that information required to be disclosed by the issuer in the reports, files or submits under the Act is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission's rules and forms. Our disclosure controls and procedures are designed to ensure that material information relating to us and our consolidated subsidiaries is accumulated and communicated to our management, including our Chairman and Chief Executive Officer and our Chief Financial Officer, as appropriate to allow timely decisions regarding our required disclosures.

Internal Control Over Financial Reporting

The term internal control over financial reporting is defined as a process designed by, or under the supervision of, the issuer's principal executive and principal financial officers, and effected by the issuer's Board of Directors, management, and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles (added this). During the quarter ended September 30, 2011, there were no changes in our internal controls over financial reporting that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting.
