**Item 8.01. Other Events.**

On January 17, 2012, Alnylam Pharmaceuticals, Inc. (the Company) filed a complaint in the U.S. District Court for the District of Massachusetts against Tekmira Pharmaceuticals Corporation (Tekmira) for patent infringement arising from Tekmira's research activities providing lipid nanoparticle (LNP)-formulated small interfering RNA (siRNA) molecules to a pharmaceutical collaborator. As alleged in the complaint, Tekmira's activities are not protected under the exemption from patent infringement for drug development. As described in the complaint, Tekmira has infringed a number of issued patents related to siRNA and LNP technologies, including: U.S. Patent No. 7,695,902; U.S. Patent No. 6,858,225; U.S. Patent No. 6,815,432; U.S. Patent No. 6,534,484; U.S. Patent No. 6,586,410; and U.S. Patent No. 6,858,224. Under the Company's contractual right to enforce U.S. Patent No. 7,695,902 owned by Isis Pharmaceuticals, Inc. (Isis), the Company joined Isis to the suit as a co-plaintiff.

The Company and Isis are seeking judgment that Tekmira has infringed the patents at issue, a permanent injunction enjoining the infringing activities, damages, and costs and expenses, including attorneys' fees.
