DOCUMENTS INCORPORATED BY REFERENCE

Part I, Item 1, and Part II, Items 5 through 9A incorporate by reference portions of the Registrant's Annual Report to Shareholders for the year ended December 31, 2011.

Part III, Items 10 through 14 incorporate by reference portions of the Registrant's Definitive Proxy Statement for the Registrant's Annual Meeting of Shareholders to be held April 25, 2012.

FORWARD-LOOKING STATEMENTS

This report and the documents incorporated into this report contain forward-looking statements that are based on management's beliefs, assumptions, current expectations, estimates and projections about the financial services industry, the economy, and the Registrant itself. Words such as anticipates, believes, expects, forecasts, intends, is likely, plans, predicts, projects, may, could, estimates, variations, and similar expressions are intended to identify such forward-looking statements. Management's determination of the provision and allowance for loan losses, the carrying value of goodwill and loan servicing rights, and the fair value of investment securities (including whether any impairment on any investment security is temporary or other than temporary) and management's assumptions concerning pension and other postretirement benefit plans involve judgments that are inherently forward-looking. All of the information concerning interest rate sensitivity is forward-looking. These statements are not guarantees of future performance and involve certain risks, uncertainties and assumptions (risk factors) that are difficult to predict with regard to timing, extent, likelihood, and degree of occurrence. Therefore, actual results and outcomes may materially differ from what may be expressed, implied or forecasted in such forward-looking statements. Furthermore, the Registrant undertakes no obligation to update, amend, or clarify forward-looking statements, whether as a result of new information, future events, or otherwise.

Risk factors include, but are not limited to, the risk factors disclosed in Item 1A of this report, changes in interest rates and interest rate relationships; demand for products and services; the degree of competition by traditional and non-traditional competitors; changes in banking laws and regulations; changes in tax laws; changes in prices, levies, and assessments; the impact of technological advances; governmental and regulatory policy changes; the outcomes of pending and future litigation and contingencies; trends in customer behavior as well as their abilities to repay loans; changes in the local and national economies; changes in market conditions; the level and timing of asset growth; local and global uncertainties such as acts of terrorism and military actions; and current uncertainties and fluctuations in the financial markets and stocks of financial services providers due to concerns about credit availability and concerns about the Michigan economy in particular. These are representative of the risk factors that could cause a difference between an ultimate actual outcome and a preceding forward-looking statement.

PART I

Item 1. Business
General

ChoiceOne Financial Services, Inc. (the Registrant) is a one-bank holding company registered under the Bank Holding Company Act of 1956, as amended. The Registrant was incorporated on February 24, 1986, as a Michigan corporation. The Registrant was formed to create a bank holding company for the purpose of acquiring all of the capital stock of ChoiceOne Bank (formerly Sparta State Bank), which became a wholly owned subsidiary of the Registrant on April 6, 1987. The Registrant's only subsidiary and significant asset as of December 31, 2011, was ChoiceOne Bank (the Bank). Effective January 1, 1996, the Bank acquired all of the outstanding common stock of ChoiceOne Insurance Agencies, Inc. (formerly Bradford Insurance Centre, Ltd.), an independent insurance agency headquartered in Sparta, Michigan (the Insurance Agency). Effective January 1, 2002, the Bank formed ChoiceOne Mortgage Company of Michigan (the Mortgage Company). In December 2008, the operations of the Mortgage Company were consolidated into the Bank and the Mortgage Company subsidiary was eliminated. The Bank also owns a 25% interest in a non-banking corporation, West Shore Computer Services, Inc., a data processing firm located in Scottville, Michigan. Effective November 1, 2006, the Registrant merged with Valley Ridge Financial Corp. (VRFC), a single-bank holding company for Valley Ridge Bank (VRB). In the merger, the Registrant issued shares of its common stock in exchange for all outstanding shares of VRFC. In December 2006, VRB was consolidated into the Bank.

The Registrant's business is primarily concentrated in a single industry segment—banking. The Bank is a full-service banking institution that offers a variety of deposit, payment, credit and other financial services to all types of customers. These services include time, savings, and demand deposits, safe deposit services, and automated transaction machine services. Loans, both commercial and consumer, are extended primarily on a secured basis to corporations, partnerships and individuals. Commercial lending covers such categories as business, industry, agricultural, construction, inventory and real estate. The Bank's consumer loan department makes direct and indirect loans to consumers and purchasers of residential and real property. The Mortgage Company originated and sold a full line of conventional type mortgage loans for 1-4 family and multi-family residential real estate properties. No material part of the business of the Registrant or the Bank is dependent upon a single customer or very few customers, the loss of which would have a materially adverse effect on the Registrant.

The Bank's primary market area lies within portions of Kent, Muskegon, Newaygo, and Ottawa counties in Michigan in the communities where the Bank's offices are located. Currently the Bank serves these markets through thirteen full-service offices. The Registrant and the Bank have no foreign assets or income.

The principal source of revenue for the Registrant and the Bank is interest and fees on loans. On a consolidated basis, interest and fees on loans accounted for 67%, 69%, and 70% of total revenues in 2011, 2010, and 2009, respectively. Interest on securities accounted for 11%, 10%, and 11% of total revenues in 2011, 2010, and 2009, respectively.

The Consolidated Financial Statements incorporated by reference in Part II, Item 8 contain information concerning the financial position and results of operations of the Registrant.

Competition

The Bank's competition primarily comes from other financial institutions located within Kent, Muskegon, Newaygo, and Ottawa counties in western Michigan. There are a number of larger commercial banks within the Bank's primary market area. The Bank also competes with a large number of other financial institutions, such as savings and loan associations, insurance companies, consumer finance companies, credit unions and commercial finance and leasing companies for deposits, loans and service business. Money market mutual funds, brokerage houses and nonfinancial institutions provide many of the financial services offered by the Bank. Many of these competitors have substantially greater resources than the Bank. The principal methods of competition for financial services are price (the rates of interest charged for loans, the rates of interest paid for deposits and the fees charged for services) and the convenience and quality of services rendered to customers.

Supervision and Regulation

Banks and bank holding companies are extensively regulated. The Registrant is subject to supervision and regulation by the Board of Governors of the Federal Reserve System (the Federal Reserve Board). The Registrant's activities are generally limited to owning or controlling banks and engaging in such other activities as the Federal Reserve Board may determine to be closely related to banking. Prior approval of the Federal Reserve Board, and in some cases various other government agencies, is required for the Registrant to acquire control of any additional bank holding companies, banks or other operating subsidiaries.

The Bank is chartered under state law and is subject to regulation by the Michigan Office of Financial and Insurance Regulation. State banking laws place restrictions on various aspects of banking, including permitted activities, loan interest rates, branching, payment of dividends and capital and surplus requirements. The Bank is a member of the Federal Reserve System and is also subject to regulation by the Federal Reserve Board. The Bank's deposits are insured by the Federal Deposit Insurance Corporation (the FDIC) to the extent provided by law. The Bank became a member of the Federal Home Loan Bank system in March 1993. This provides certain advantages to the Bank, including favorable borrowing rates for certain funds.

The Registrant is a legal entity separate and distinct from the Bank. There are legal limitations on the extent to which the Bank can lend or otherwise supply funds to the Registrant. In addition, payment of dividends to the Registrant by the Bank is subject to various state and federal regulatory limitations.

Under Federal Reserve Board policy, the Registrant is expected to act as a source of financial strength to the Bank and to commit resources to support it. The FDIC formed the Deposit Insurance Fund (DIF) in accordance with the Federal Deposit Insurance Reform Act of 2005 (Reform Act). The FDIC will maintain the insurance reserves of the DIF by assessing depository institutions an insurance premium.

The FDIC adopted final regulations that implemented the Reform Act to create a stronger and more stable insurance system. The final regulations enable the FDIC to tie each depository institution s DIF insurance premiums both to the balance of insured deposits, as well as to the degree of risk the institution poses to the DIF. In addition, the FDIC has new flexibility to manage the DIF s reserve ratio within a range, which in turn may help prevent sharp swings in assessment rates that were possible under the design of the former system. Under the new risk-based assessment system, the FDIC will evaluate each depository institution s risk based on three primary sources of information: supervisory ratings for all insured institutions, financial ratios for most institutions, and long-term debt issuer ratings for large institutions that have them. Neither the Registrant nor the Bank has a long-term debt issuer rating. The ability to differentiate on the basis of risk will improve incentives for effective risk management and will reduce the extent to which safer banks subsidize riskier ones.

The 2008 DIF rates for nearly all depository institutions varied between five and seven cents for every \$100 of deposits. The 2009 rates were approximately double those of the prior year as depository institutions classified in the FDIC s Risk Category I were assessed between 12 and 14 cents for every \$100 of deposits. The rates could increase up to 50 cents for every \$100 of deposits for riskier institutions. In addition, the FDIC imposed a special assessment of 5 basis points on each insured institution s assets minus its Tier 1 capital on September 30, 2009. The FDIC passed a regulation in November 2010 that changed the deposit insurance assessment base from total domestic deposits to average total assets less average tangible equity.

The Deposit Insurance Funds Act of 1996 authorized the Financing Corporation (FICO) to impose periodic assessments on all depository institutions. The purpose of these periodic assessments is to spread the cost of the interest payments on the outstanding FICO bonds issued to recapitalize the Savings Association Insurance Fund (SAIF) over a larger number of institutions. Until the change in the law, only SAIF member institutions bore the cost of funding these interest payments.

Banks are subject to a number of federal and state laws and regulations, which have a material impact on their business. These include, among others, minimum capital requirements, state usury laws, state laws relating to fiduciaries, the Truth in Lending Act, the Truth in Savings Act, the Equal Credit Opportunity Act, the Fair Credit Reporting Act, the Expedited Funds Availability Act, the Community Reinvestment Act, the Real Estate Settlement Procedures Act, the USA PATRIOT Act, the Bank Secrecy Act, the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010, electronic funds transfer laws, redlining laws, predatory lending laws, antitrust laws, environmental laws, money laundering laws and privacy laws. The instruments of monetary policy of authorities, such as the Federal Reserve Board, may influence the growth and distribution of bank loans, investments and deposits, and may also affect interest rates on loans and deposits. These policies may have a significant effect on the operating results of banks.

Bank holding companies may acquire banks and other bank holding companies located in any state in the United States without regard to geographic restrictions or reciprocity requirements imposed by state banking law. Banks may also establish interstate branch networks through acquisitions of and mergers with other banks. The establishment of *de novo* interstate branches or the acquisition of individual branches of a bank in another state (rather than the acquisition of an out-of-state bank in its entirety) is allowed only if specifically authorized by state law.

Michigan banking laws do not significantly restrict interstate banking. The Michigan Banking Code permits, in appropriate circumstances and with the approval of the Office of Financial and Insurance Regulation, (1) acquisition of Michigan banks by FDIC-insured banks, savings banks or savings and loan associations located in other states, (2) sale by a Michigan bank of branches to an FDIC-insured bank, savings bank or savings and loan association located in a state in which a Michigan bank could purchase branches of the purchasing entity, (3) consolidation of Michigan banks and FDIC-insured banks, savings banks or savings and loan associations located in other states having laws permitting such consolidation, (4) establishment of branches in Michigan by FDIC-insured banks located in other states, the District of Columbia or U.S. territories or protectorates having laws permitting a Michigan bank to establish a branch in such jurisdiction, and (5) establishment by foreign banks of branches located in Michigan.

Effects of Compliance With Environmental Regulations

The nature of the business of the Bank is such that it holds title, on a temporary or permanent basis, to a number of parcels of real property. These include properties owned for branch offices and other business purposes as well as properties taken in or in lieu of foreclosure to satisfy loans in default. Under current state and federal laws, present and past owners of real property may be exposed to liability for the cost of clean up of environmental contamination on or originating from those properties, even if they are wholly innocent of the actions that caused the contamination. These liabilities can be material and can exceed the value of the contaminated property. Management is not presently aware of any instances where compliance with these provisions will have a material effect on the capital expenditures, earnings or competitive position of the Registrant or the Bank, or where compliance with these provisions will adversely affect a borrower's ability to comply with the terms of loan contracts.

Employees

As of February 29, 2012, the Registrant, the Bank and the Insurance Agency employed 146 employees, of which 114 were full-time employees. The Registrant, Bank, and Insurance Agency believe their relations with their employees are good.

Statistical Information

Additional statistical information describing the business of the Registrant appears on the following pages and in Management's Discussion and Analysis of Financial Condition and Results of Operations incorporated by reference in Item 7 of this report and in the Consolidated Financial Statements and the notes thereto incorporated by reference in Item 8 of this report.

The following statistical information should be read in conjunction with Management's Discussion and Analysis of Financial Condition and Results of Operations and the Consolidated Financial Statements and notes thereto incorporated by reference in this report.

Maturities and Sensitivities of Loans to Changes in Interest Rates

The following schedule presents the maturities of loans (excluding residential real estate and consumer loans) as of December 31, 2011. All loans over one year in maturity (excluding residential real estate and consumer loans) are also presented classified according to the sensitivity to changes in interest rates as of December 31, 2011.

Totals	\$ 57,940	\$ 122,256	\$ 24,837	\$ 205,033

- (1) Loan maturities are classified according to the contractual maturity date or the anticipated amortization period, whichever is appropriate. The anticipated amortization period is used in the case of loans where a balloon payment is due before the end of the loan's normal amortization period. At the time the balloon payment is due, the loan can either be rewritten or payment in full can be requested. The decision regarding whether the loan will be rewritten or a payment in full will be requested will be based upon the loan's payment history, the borrower's current financial condition, and other relevant factors.

Risk Elements

The following loans were classified as nonperforming as of December 31:

(Dollars in thousands)

	2011	2010	2009	2008	2007
Loans accounted for on a non-accrual basis	\$ 4,155	\$ 6,273	\$ 11,881	\$ 8,305	\$ 5,605
Accruing loans which are contractually past due 90 days or more as to principal or interest payments	70	23	202	333	188

Totals	\$ 6,673	\$ 8,437	\$ 14,002	\$ 9,243	\$ 5,793

A loan is placed on nonaccrual status at the point in time at which the collectability of principal or interest is considered doubtful.

The table below illustrates interest forgone and interest recorded on nonperforming loans for the years presented.

Interest on non-performing loans that was actually recorded when received	\$	\$ 2	\$	\$	\$

Potential Problem Loans

At December 31, 2011, there were \$22.4 million of loans not disclosed above where some concern existed as to the borrowers' abilities to comply with original loan terms. Specific loss allocations totaling \$431,000 from the allowance for loan losses had been allocated for all nonperforming and potential problem loans as of December 31, 2011. However, the entire allowance for loan losses is also available for these potential problem loans.

Loan Concentrations

As of December 31, 2011, there was no concentration of loans exceeding 10% of total loans that is not otherwise disclosed as a category of loans in the loan portfolio listing in Note 3 to the Consolidated Financial Statements incorporated by reference in Item 8 of this report.

Other Interest-Bearing Assets

As of December 31, 2011, there were no other interest-bearing assets requiring disclosure.

Summary of Loan Loss Experience

The following schedule presents a summary of activity in the allowance for loan losses for the periods shown and the percentage of net charge-offs during each period to average gross loans outstanding during the period.

Ratio of net charge-offs during the period to average loans outstanding during the period	1.01%	1.12%	1.30%	1.06%	0.61%

- (1) Additions to the allowance for loan losses charged to operations during the periods shown were based on management's judgment after considering factors such as loan loss experience, evaluation of the loan portfolio, and prevailing and anticipated economic conditions. The evaluation of the loan portfolio is based upon various risk factors such as the financial condition of the borrower, the value of collateral and other considerations, which, in the opinion of management, deserve current recognition in estimating loan losses.

Edgar Filing: CHOICEONE FINANCIAL SERVICES INC - Form 10-K

The following schedule presents an allocation of the allowance for loan losses to the various loan categories as of the years ended December 31.

(Dollars in thousands)

	2011	2010	2009	2008	2007
Agricultural	\$ 55	\$ 181	\$ 124	\$ 242	\$ 397
Commercial and industrial	609	641	735	616	873
Consumer	197	243	306	351	489
Real estate commercial	2,299	1,729	1,546	996	886
Real estate construction	34	2	3	5	10
Real estate residential	1,847	1,554	1,590	1,124	881
Unallocated	172	379	18	266	64
Total allowance	\$ 5,213	\$ 4,729	\$ 4,322	\$ 3,600	\$ 3,600

The decrease in the allowance allocation to agricultural loans was due to the limited charge-off activity in this loan category. Although net charge-offs of commercial real estate loans were lower in 2011 than in the prior year, management believed that the continuing risk of loans secured by real estate warranted an increase in the allowance allocation. The allowance allocation to residential real estate loans was increased for the same reason and in recognition of the higher net charge-off level experienced in 2011.

Management periodically reviews the assumptions, loss ratios and delinquency trends in estimating the appropriate level of its allowance for loan losses and believes the unallocated portion of the total allowance is sufficient at December 31, 2011.

The following schedule presents the stratification of the loan portfolio by category, based on the amount of loans outstanding as a percentage of total loans for the respective years ended December 31.

	2011	2010	2009	2008	2007
Agricultural	12%	9%	10%	7%	8%
Commercial and industrial	18	18	17	18	16
Consumer	6	5	5	5	5
Real estate commercial	33	37	37	38	38

Item 1A. Risk Factors

The Registrant is subject to many risks and uncertainties. Although the Registrant seeks ways to manage these risks and develop programs to control risks to the extent that management can control them, the Registrant cannot predict the future. Actual results may differ materially from management's expectations. Some of these significant risks and uncertainties are discussed below. The risks and uncertainties described below are not the only ones that the Registrant faces. Additional risks and uncertainties of which the Registrant is unaware, or that it currently does not consider to be material, also may become important factors that affect the Registrant and its business. If any of these risks were to occur, the Registrant's business, financial condition or results of operations could be materially and adversely affected.

Investments in the Registrant's common stock involve risk.

The market price of the Registrant's common stock may fluctuate significantly in response to a number of factors, including:

Variations in quarterly or annual operating results

Changes in interest rates

New developments in the banking industry

Regulatory actions

Volatility of stock market prices and volumes

Changes in market valuations of similar companies

New litigation or contingencies or changes in existing litigation or contingencies

Changes in accounting policies or procedures as may be required by the Financial Accounting Standards Board or other regulatory agencies

Rumors or erroneous information

Credit and capital availability

Asset quality could be less favorable than expected.

A significant source of risk for the Registrant arises from the possibility that losses will be sustained because borrowers, guarantors and related parties may fail to perform in accordance with the terms of their loan agreements. Most loans originated by the Registrant are secured, but some loans are unsecured depending on the nature of the loan. With respect to secured loans, the collateral securing the repayment of these loans includes a wide variety of real and personal property that may be insufficient to cover the obligations owed under such loans. Collateral values may be adversely affected by changes in prevailing economic, environmental and other conditions, including declines in the value of real estate, changes in interest rates, changes in monetary and fiscal policies of the federal government, terrorist activity, environmental contamination and other external events. In addition, collateral appraisals that are out of date or that do not meet industry recognized standards may create the impression that a loan is adequately collateralized when in fact it is not.

General economic conditions in the state of Michigan could be less favorable than expected.

Edgar Filing: CHOICEONE FINANCIAL SERVICES INC - Form 10-K

The Registrant is affected by general economic conditions in the United States, although most directly within Michigan. A further economic downturn within Michigan could negatively impact household and corporate incomes. This impact may lead to decreased demand for both loan and deposit products and increase the number of customers who fail to pay interest or principal on their loans.

Volatility and disruptions in the functioning of the financial markets and related liquidity issues could continue or worsen and, therefore, may adversely impact the Registrant's business, financial condition and results of operations.

The financial markets have been experiencing volatility and disruption in recent periods. The impact of this situation, together with concerns regarding the financial strength of financial institutions, has led to distress in financial markets and issues relating to liquidity among financial institutions. As a result of concern about the

stability of the financial markets generally, the resulting credit availability issues, lack of confidence in the financial sector, increased volatility in the financial markets and reduced business activity could have a material adverse effect on the Registrant's ability to access capital and manage liquidity. If current levels of financial market volatility and disruption continue or worsen, there can be no assurance that the Registrant's business, financial condition and results of operations will not be materially and adversely impacted. There can be no assurances that recently enacted legislation, such as the Emergency Economic Stabilization Act of 2008, and actions taken by the United States Department of the Treasury and the FDIC for the purpose of stabilizing the financial markets will achieve their intended effects, and the impact of such legislation and regulatory programs on the Registrant cannot reliably be determined at this time.

If the Registrant does not adjust to changes in the financial services industry, its financial performance may suffer.

The Registrant's ability to maintain its financial performance and return on investment to shareholders will depend in part on its ability to maintain and grow its core deposit customer base and expand its financial services to its existing customers. In addition to other banks, competitors include credit unions, securities dealers, brokers, mortgage bankers, investment advisors and finance and insurance companies. The increasingly competitive environment is, in part, a result of changes in the economic environment within the state of Michigan, regulation, changes in technology and product delivery systems and the accelerating pace of consolidation among financial service providers. New competitors may emerge to increase the degree of competition for the Registrant's customers and services. Financial services and products are also constantly changing. The Registrant's financial performance will also depend in part upon customer demand for the Registrant's products and services and the Registrant's ability to develop and offer competitive financial products and services.

Changes in interest rates could reduce the Registrant's income and cash flow.

The Registrant's income and cash flow depends, to a great extent, on the difference between the interest earned on loans and securities, and the interest paid on deposits and other borrowings. Market interest rates are beyond the Registrant's control, and they fluctuate in response to general economic conditions and the policies of various governmental and regulatory agencies including, in particular, the Federal Reserve Board. Changes in monetary policy, including changes in interest rates and interest rate relationships, will influence the origination of loans, the purchase of investments, the generation of deposits and the rate received on loans and securities and paid on deposits and other borrowings.

Additional risks and uncertainties could have a negative effect on financial performance.

Additional factors could have a negative effect on the financial performance of the Registrant and the Registrant's common stock. Some of these factors are financial market conditions, changes in financial accounting and reporting standards, new litigation or changes in existing litigation, regulatory actions and losses.

Item 9A. Controls and Procedures

Edgar Filing: CHOICEONE FINANCIAL SERVICES INC - Form 10-K

An evaluation was performed under the supervision and with the participation of the Registrant's management, including the Chief Executive Officer and principal financial officer, of the effectiveness of the design and operation of the Registrant's disclosure controls and procedures. Based on and as of the time of that evaluation, the Registrant's management, including the Chief Executive Officer and principal financial officer, concluded that the Registrant's disclosure controls and procedures were effective as of the end of the period covered by this report. There was no change in the Registrant's internal control over financial reporting that occurred during the three months ended December 31, 2011 that has materially affected, or that is reasonably likely to materially affect, the Registrant's internal control over financial reporting.

Management's Report on Internal Control over Financial Reporting on page 18 of the Registrant's Annual Report to Shareholders for the year ended December 31, 2011 is here incorporated by reference.

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters

The information under the caption Ownership of ChoiceOne Common Stock in the Registrant's Definitive Proxy Statement for the Annual Meeting of Shareholders to be held April 25, 2012, is incorporated herein by reference.

The following table presents information regarding the equity compensation plans both approved and not approved by shareholders at December 31, 2011:

	Number of securities to be issued upon exercise of outstanding options, warrants and rights (a)	Weighted-average exercise price of outstanding options, warrants and rights (b)	Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (a)) (c)
Equity compensation plans approved by security holders	46,656	\$ 16.62	149,498
Equity compensation plans not approved by security holders			8,198
Total	46,656	\$ 16.62	157,696

Edgar Filing: CHOICEONE FINANCIAL SERVICES INC - Form 10-K

Equity compensation plans approved by security holders include the Amended and Restated Executive Stock Incentive Plan and the Employee Stock Purchase Plan.

Shareholders at the Registrant's 2002 Annual Meeting approved the Amended and Restated Executive Stock Incentive Plan. Key employees of the Registrant and its subsidiaries, as the Personnel and Benefits Committee of the Board of Directors may select from time to time, are eligible to receive awards under this Plan. Incentive awards may

be stock options, stock appreciation rights or stock awards. The Plan provides for a maximum of 145,491 shares of the Registrant's common stock, subject to adjustments for certain changes in the capital structure of the Registrant. New awards for up to 98,535 shares may be made under this Plan.

The number of shares available for issuance under the Plan is equal to the number determined by the following formula: (a) for the initial plan year, 5% of the total number of shares of common stock outstanding at the time the Plan became effective; plus (b) in each subsequent plan year, an additional number of shares of common stock not to exceed 2% of the number of shares of common stock outstanding as reported in the Registrant's Annual Report on Form 10-K for the fiscal year ending immediately before such plan year such that at the beginning of each plan year after the initial plan year there shall be available, in addition to any amount of shares remaining from the 5% authorization for the initial plan year, a minimum number of shares equal to 2% of the number of shares of common stock outstanding; plus (c) there shall be carried forward and available for additional awards certain shares that are either unused, canceled or surrendered in connection with incentive awards.

Shareholders at the 2002 Annual Meeting approved the Employee Stock Purchase Plan. This Plan allows employees to purchase the Registrant's common stock at up to a 15% discount from the average bid price for the Registrant's common stock. Employees who elect to participate in the plan can purchase shares of the Registrant's common stock on a quarterly basis. The Plan provides for a maximum of 55,126 shares of the Registrant's common stock, subject to adjustments for certain changes in the capital structure of the Registrant. Shareholders at the 2011 Annual Meeting approved an Amended and Restated Employee Stock Purchase Plan. The new plan made an additional 50,000 available for purchase providing a total of 105,126 shares under the plan. As of December 31, 2011, new issuances for up to 50,663 shares may be made under the plan.

Equity compensation plans not approved by security holders consist of the Directors' Stock Purchase Plan. The Plan is designed to provide directors of the Registrant the option of receiving their fees in the Registrant's stock. Directors who elect to participate in the Plan may elect to contribute to the Plan twenty-five, fifty, seventy-five or one hundred percent of their board of director fees and one hundred percent of their director committee fees earned as directors of the Registrant. Contributions to the Plan are made by the Registrant on behalf of each electing participant. Plan participants may terminate their participation in the Plan at any time by written notice of withdrawal to the Registrant. Participants will cease to be eligible to participate in the Plan when they cease to serve as directors of the Registrant. Shares are distributed to participants on a quarterly basis. The Plan provides for a maximum of 72,978 shares of the Registrant's common stock, subject to adjustments for certain changes in the capital structure of the Registrant. New issuances for up to 8,198 shares may be made under this Plan.
