F.N.B. CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Dollars in thousands, except share data

(Unaudited)

March 31, 2012

BUSINESS

F.N.B. Corporation (the Corporation) is a diversified financial services company headquartered in Hermitage, Pennsylvania. Its primary businesses include community banking, consumer finance, wealth management and insurance. The Corporation also conducts commercial leasing and merchant banking activities. The Corporation operates its community banking business through a full service branch network in Pennsylvania, Ohio and West Virginia. The Corporation operates its wealth management and insurance businesses within the existing branch network. It also conducts selected consumer finance business in Pennsylvania, Ohio, Tennessee and Kentucky.

BASIS OF PRESENTATION

The Corporation s accompanying consolidated financial statements and these notes to the financial statements include subsidiaries in which the Corporation has a controlling financial interest. The Corporation owns and operates First National Bank of Pennsylvania (FNBPA), First National Trust Company, First National Investment Services Company, LLC, F.N.B. Investment Advisors, Inc., First National Insurance Agency, LLC, Regency Finance Company (Regency), F.N.B. Capital Corporation, LLC and Bank Capital Services, LLC, and includes results for each of these entities in the accompanying consolidated financial statements.

The accompanying consolidated financial statements include all adjustments that are necessary, in the opinion of management, to fairly reflect the Corporation's financial position and results of operations in accordance with U.S. generally accepted accounting principles (GAAP). All significant intercompany balances and transactions have been eliminated. Certain prior period amounts have been reclassified to conform to the current period presentation. Events occurring subsequent to the date of the balance sheet have been evaluated for potential recognition or disclosure in the consolidated financial statements through the date of the filing of the consolidated financial statements with the Securities and Exchange Commission (SEC).

Certain information and note disclosures normally included in consolidated financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to the rules and regulations of the SEC. The interim operating results are not necessarily indicative of operating results the Corporation expects for the full year. These interim consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto included in the Corporation s Annual Report on Form 10-K filed with the SEC on February 28, 2012.

USE OF ESTIMATES

The accounting and reporting policies of the Corporation conform with GAAP. The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Actual results could materially differ from those estimates. Material estimates that are particularly susceptible to significant changes include the allowance for loan losses, securities valuations, goodwill and other intangible assets and income taxes.

COMMON STOCK

On May 18, 2011, the Corporation completed a public offering of 6,037,500 shares of common stock at a price of \$10.70 per share, including 787,500 shares of common stock purchased by the underwriters pursuant to an over-allotment option, which the underwriters exercised in full. The net proceeds of the offering after deducting underwriting discounts and commissions and offering expenses were \$62,803.

6

MERGERS AND ACQUISITIONS

On January 1, 2012, the Corporation completed its acquisition of Parkvale Financial Corporation (Parkvale), a unitary savings and loan holding company based in Monroeville, Pennsylvania. On the acquisition date, Parkvale had \$1,815,663 in assets, which included \$937,350 in loans, and \$1,505,671 in deposits. The acquisition, net of equity offering costs, was valued at \$136,818 and resulted in the Corporation issuing 12,159,312 shares of its common stock in exchange for 5,582,846 shares of Parkvale common stock. The assets and liabilities of Parkvale were recorded on the Corporation s balance sheet at their preliminary estimated fair values as of January 1, 2012, the acquisition date, and Parkvale s results of operations have been included in the Corporation s consolidated statement of income since that date. Parkvale s banking affiliate, Parkvale Bank, was merged into FNBPA on January 1, 2012. In conjunction with the completion of this acquisition, the Corporation fully repaid the \$31,762 of Parkvale preferred stock previously issued to the U.S. Department of the Treasury (UST) under the Capital Purchase Program (CPP). The warrant issued by Parkvale to the UST has been converted into a warrant to purchase up to 819,640 shares of the Corporation s common stock. The warrant expires December 23, 2018 and has an exercise price of \$5.81. Based on a preliminary purchase price allocation, the Corporation recorded \$101,543 in goodwill and \$14,984 in core deposit intangible as a result of the acquisition. The Corporation has recorded estimates of the fair values of acquired assets and liabilities. The fair values for loans, goodwill and other intangible assets, other assets and other liabilities are provisional amounts based on third party valuations that are currently under review. None of the goodwill is deductible for income tax purposes.

During the first three months of 2012, the Corporation recorded merger and integration charges of \$6,994 associated with the Parkvale acquisition.

The following table shows the calculation of the purchase price and the resulting goodwill relating to the Parkvale acquisition:

Fair value of stock issued, net of offering costs		\$ 136,818
Fair value of:		
Tangible assets acquired	\$ 1,526,097	
Core deposit and other intangible assets acquired	14,984	
Liabilities assumed	(1,709,147)	
Net cash received in the acquisition	203,341	
Fair value of net assets acquired		35,275
Goodwill recognized		\$ 101,543

The following table summarizes the fair value of the net assets that the Corporation acquired from Parkvale:

Assets	
Cash and due from banks	\$ 203,538
Securities	486,233
Loans	922,056
Goodwill and other intangible assets	116,527
Accrued income and other assets	117,611
Total assets	1,845,965
Liabilities	
Deposits	1,525,253
Borrowings	171,606
Accrued expenses and other liabilities	12,288
Total liabilities	1,709,147

Edgar Filing: FNB CORP/FL/ - Form 10-Q

Purchase price \$ 136,818

On January 1, 2011, the Corporation completed its acquisition of Comm Bancorp, Inc. (CBI), a bank holding company based in Clarks Summit, Pennsylvania. On the acquisition date, CBI had \$625,570 in assets, which included \$445,271 in loans, and \$561,775 in deposits. The transaction, valued at \$75,547, resulted in the Corporation paying \$17,203 in cash and issuing 5,941,287 shares of its common stock in exchange for 1,719,978 shares of CBI common stock. The assets and liabilities of CBI were recorded on the Corporation s balance sheet at their fair values as of January 1, 2011,

the acquisition date, and CBI s results of operations have been included in the Corporation s consolidated statement of income since that date. CBI s banking affiliate, Community Bank and Trust Company, was merged into FNBPA on January 1, 2011. Based on the purchase price allocation, the Corporation recorded \$40,256 in goodwill and \$4,785 in core deposit intangible as a result of the acquisition. None of the goodwill is deductible for income tax purposes.

NEW ACCOUNTING STANDARDS

Comprehensive Income

In June 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2011-05, *Comprehensive Income*, with the intention of increasing the prominence of other comprehensive income in the financial statements. The FASB has eliminated the option to present components of other comprehensive income as part of the statement of changes in stockholders—equity. Instead, in annual periods, companies are required to present components of net income and other comprehensive income and a total for comprehensive income in a single continuous statement of comprehensive income or two separate but consecutive statements. In interim periods, companies are required to present a total for comprehensive income in a single continuous statement of comprehensive income or two separate but consecutive statements. These requirements, which were applied retrospectively, were effective January 1, 2012. For interim periods, the Corporation has adopted the single continuous statement of comprehensive income approach. Adoption of this standard did not have a material effect on the financial statements, results of operations or liquidity of the Corporation.

Amendments to Fair Value Measurements

In May 2011, the FASB issued ASU No. 2011-04, *Fair Value Measurements*, to improve the comparability of fair value measurements presented and disclosed in financial statements prepared in accordance with GAAP and International Financial Reporting Standards (IFRSs). The amendments explain how to measure fair value. They do not require additional fair value measurements and are not intended to establish valuation standards or affect valuation practices. The amendments result in common fair value measurement and disclosure requirements in GAAP and IFRS. Some of the amendments clarify the application of existing fair value measurement requirements and others change a particular principle or requirement for measuring fair value or for disclosing information about fair value measurements. Many of the previous fair value requirements are not changed by this standard. The amendments in this standard, which were applied prospectively, were effective January 1, 2012. Adoption of this standard did not have a material effect on the financial statements, results of operations or liquidity of the Corporation.

SECURITIES

The amortized cost and fair value of securities are as follows:

The Corporation classifies securities as trading securities when management intends to sell such securities in the near term. Such securities are carried at fair value, with unrealized gains (losses) reflected through the consolidated statement of income. The Corporation classified certain securities acquired in conjunction with the Parkvale and CBI acquisitions as trading securities. The Corporation both acquired and sold these trading securities during the quarters in which each of these acquisitions occurred. As of March 31, 2012 and December 31, 2011, the Corporation did not hold any trading securities.

Edgar Filing: FNB CORP/FL/ - Form 10-Q

9

Gross gains and gross losses were realized on securities as follows:

		Ionths Ended arch 31,
	2012	2011
Gross gains	\$ 349	\$ 250
Gross losses	(241)	(196)
	\$ 108	\$ 54

As of March 31, 2012, the amortized cost and fair value of securities, by contractual maturities, were as follows:

	Available	e for Sale	Held to	Maturity
	Amortized Cost	Fair Value	Amortized Cost	Fair Value
Due in one year or less	\$ 27,164	\$ 27,213	\$ 7,731	\$ 7,826
Due from one to five years	346,262	346,200	12,313	12,873
Due from five to ten years	21,405	22,401	43,678	45,470
Due after ten years	64,617	50,753	91,596	95,445
	459,448	446,567	155,318	161,614
Residential mortgage-backed securities:				
Agency mortgage-backed securities	337,045	342,654	888,484	917,019
Agency collateralized mortgage obligations	299,109	302,330	115,104	115,747
Non-agency collateralized mortgage obligations	3,866	3,842	19,652	18,446
Equity securities	2,055	2,408		
	\$ 1,101,523	\$ 1,097,801	\$ 1,178,558	\$ 1,212,826

Maturities may differ from contractual terms because borrowers may have the right to call or prepay obligations with or without penalties. Periodic payments are received on mortgage-backed securities based on the payment patterns of the underlying collateral.

At March 31, 2012 and December 31, 2011, securities with a carrying value of \$587,865 and \$547,727, respectively, were pledged to secure public deposits, trust deposits and for other purposes as required by law. Securities with a carrying value of \$747,289 and \$680,212 at March 31, 2012 and December 31, 2011, respectively, were pledged as collateral for short-term borrowings.

As of March 31, 2012, securities with unrealized losses for less than 12 months include 10 investments in U.S. Treasury and other U.S. government agencies and corporations, 15 investments in residential mortgage-backed securities (10 investments in agency mortgage-backed securities, 1 investment in an agency collateralized mortgage obligation (CMO) and 4 investments in non-agency CMOs), 3 investments in states of the U.S. and political subdivisions, 8 investments in collateralized debt obligations (CDOs) and 2 investments in equity securities. Securities with unrealized losses of greater than 12 months include 1 investment in a residential mortgage-backed security (non-agency CMO), 13 investments in CDOs, and 5 investments in other debt securities as of March 31, 2012. The Corporation does not intend to sell the debt securities and it is not more likely than not the Corporation will be required to sell the securities before recovery of their amortized cost basis.

The Corporation s unrealized losses on CDOs relate to investments in trust preferred securities (TPS). The Corporation s portfolio of TPS consists of single-issuer and pooled securities. The single-issuer securities are primarily from money-center and large regional banks. The pooled securities consist of securities issued primarily by banks and thrifts, with some of the pools including a limited number of insurance companies. Investments in pooled securities are all in mezzanine tranches except for one investment in a senior tranche, and are secured by over-collateralization or default protection provided by subordinated tranches. The non-credit portion of unrealized losses on investments in TPS is attributable to temporary illiquidity and the uncertainty affecting these markets, as well as changes in interest rates.

Edgar Filing: FNB CORP/FL/ - Form 10-Q

11

Other-Than-Temporary Impairment

The Corporation evaluates its investment securities portfolio for other-than-temporary impairment (OTTI) on a quarterly basis. Impairment is assessed at the individual security level. The Corporation considers an investment security impaired if the fair value of the security is less than its cost or amortized cost basis.

When impairment of an equity security is considered to be other-than-temporary, the security is written down to its fair value and an impairment loss is recorded as a loss within non-interest income in the consolidated statement of income. When impairment of a debt security is considered to be other-than-temporary, the amount of the OTTI recorded as a loss within non-interest income and thereby recognized in earnings depends on whether the Corporation intends to sell the security or whether it is more likely than not that the Corporation will be required to sell the security before recovery of its amortized cost basis.

If the Corporation intends to sell the debt security or more likely than not will be required to sell the security before recovery of its amortized cost basis, OTTI shall be recognized in earnings equal to the entire difference between the investment s amortized cost basis and its fair value.

If the Corporation does not intend to sell the debt security and it is not more likely than not the Corporation will be required to sell the security before recovery of its amortized cost basis, OTTI shall be separated into the amount representing credit loss and the amount related to all other market factors. The amount related to credit loss shall be recognized in earnings. The amount related to other market factors shall be recognized in other comprehensive income, net of applicable taxes.

The Corporation performs its OTTI evaluation process in a consistent and systematic manner and includes an evaluation of all available evidence. Documentation of the process is as extensive as necessary to support a conclusion as to whether a decline in fair value below cost or amortized cost is temporary or other-than-temporary and includes documentation supporting both observable and unobservable inputs and a rationale for conclusions reached. In making these determinations for pooled TPS, the Corporation consults with third-party advisory firms to provide additional valuation assistance.

This process considers factors such as the severity, length of time and anticipated recovery period of the impairment, recoveries or additional declines in fair value subsequent to the balance sheet date, recent events specific to the issuer, including investment downgrades by rating agencies and economic conditions in its industry, and the issuer s financial condition, repayment capacity, capital strength and near-term prospects.

For debt securities, the Corporation also considers the payment structure of the debt security, the likelihood of the issuer being able to make future payments, failure of the issuer of the security to make scheduled interest and principal payments, whether the Corporation has made a decision to sell the security and whether the Corporation s cash or working capital requirements or contractual or regulatory obligations indicate that the debt security will be required to be sold before a forecasted recovery occurs. For equity securities, the Corporation also considers its intent and ability to retain the security for a period of time sufficient to allow for a recovery in fair value. Among the factors that the Corporation considers in determining its intent and ability to retain the security is a review of its capital adequacy, interest rate risk position and liquidity. The assessment of a security s ability to recover any decline in fair value, the ability of the issuer to meet contractual obligations, the Corporation s intent and ability to retain the security, and whether it is more likely than not the Corporation will be required to sell the security before recovery of its amortized cost basis require considerable judgment.

Debt securities with credit ratings below AA at the time of purchase that are repayment-sensitive securities are evaluated using the guidance of ASC 325, *Investments - Other*. All other securities are required to be evaluated under ASC 320, *Investments - Debt Securities*.

The Corporation invested in TPS issued by special purpose vehicles (SPVs) which hold pools of collateral consisting of trust preferred and subordinated debt securities issued by banks, bank holding companies, thrifts and insurance companies. The securities issued by the SPVs are generally segregated into several classes known as tranches. Typically, the structure includes senior, mezzanine and equity tranches. The equity tranche represents the first loss position. The Corporation generally holds interests in mezzanine tranches. Interest and principal collected from the collateral held by the SPVs are distributed with a priority that provides the highest level of protection to the senior-most tranches. In order to provide a high level of protection to the senior tranches, cash flows are diverted to higher-level tranches if the principal and interest coverage tests are not met.

The Corporation prices its holdings of TPS using Level 3 inputs in accordance with ASC 820, *Fair Value Measurements and Disclosures*, and guidance issued by the SEC. In this regard, the Corporation evaluates current available information in estimating the future cash flows of these securities and determines whether there have been favorable or adverse changes in estimated cash flows from the cash flows previously projected. The Corporation considers the structure and term of the pool and the financial condition of the underlying issuers. Specifically, the evaluation incorporates factors such as over-collateralization and interest coverage tests, interest rates and appropriate risk premiums, the timing and amount of interest and principal payments and the allocation of payments to the various tranches. Current estimates of cash flows are based on the most recent trustee reports, announcements of deferrals or defaults, and assumptions regarding expected future default rates, prepayment and recovery rates and other relevant information. In constructing these assumptions, the Corporation considers the following:

that current defaults would have no recovery;

that some individually analyzed deferrals will cure at rates varying from 10% to 90% after the deferral period ends;

recent historical performance metrics, including profitability, capital ratios, loan charge-offs and loan reserve ratios, for the underlying institutions that would indicate a higher probability of default by the institution;

that institutions identified as possessing a higher probability of default would recover at a rate of 10% for banks and 15% for insurance companies;

that financial performance of the financial sector continues to be affected by the economic environment resulting in an expectation of additional deferrals and defaults in the future;

whether the security is currently deferring interest; and

the external rating of the security and recent changes to its external rating.

The primary evidence utilized by the Corporation is the level of current deferrals and defaults, the level of excess subordination that allows for receipt of full principal and interest, the credit rating for each security and the likelihood that future deferrals and defaults will occur at a level that will fully erode the excess subordination based on an assessment of the underlying collateral. The Corporation combines the results of these factors considered in estimating the future cash flows of these securities to determine whether there has been an adverse change in estimated cash flows from the cash flows previously projected.

The Corporation s portfolio of trust preferred CDOs consists of 29 pooled issues and six single issue securities. Two of the pooled issues are senior tranches; the remaining 27 are mezzanine tranches. At March 31, 2012, the 29 pooled TPS had an estimated fair value of \$24,192 while the single-issuer TPS had an estimated fair value of \$7,786. The Corporation has concluded from the analysis performed at March 31, 2012 that it is probable that the Corporation will collect all contractual principal and interest payments on all of its single-issuer and pooled TPS sufficient to recover the amortized cost basis of the securities.

The Corporation did not recognize any impairment losses on securities for the three months ended March 31, 2012 and 2011.

At March 31, 2012, nine of the 12 pooled TPS on which OTTI has been previously recognized were classified as non-performing investments. The other three of the 12 investments on which OTTI was taken in prior years have returned to performing status due to improvements in expected cash flows with income of \$133 accreted beginning in the first quarter of 2012.

The following table presents a summary of the cumulative credit-related OTTI charges recognized as components of earnings for securities for which a portion of an OTTI is recognized in other comprehensive income:

	March 31, 2012	Dec	cember 31, 2011
Beginning balance of the amount related to credit loss for which a	ф. (10.200 <u>)</u>	Ф	(10.222)
portion of OTTI was recognized in other comprehensive income	\$ (18,398)	\$	(18,332)
Additions related to credit loss for securities with previously recognized OTTI			(37)
Additions related to credit loss for securities with initial OTTI			(29)
Ending balance of the amount related to credit loss for which a portion			
of OTTI was recognized in other comprehensive income	\$ (18,398)	\$	(18,398)

TPS continue to experience price volatility as the secondary market for such securities remains limited. Write-downs, when required, are based on an individual security scredit performance and its ability to make its contractual principal and interest payments. Should credit quality deteriorate to a greater extent than projected, it is possible that additional write-downs may be required. The Corporation monitors actual deferrals and defaults as well as expected future deferrals and defaults to determine if there is a high probability for expected losses and contractual shortfalls of interest or principal, which could warrant further impairment. The Corporation evaluates its entire TPS portfolio each quarter to determine if additional write-downs are warranted.

⁽¹⁾ Some current deferrals will cure at rates varying from 10% to 90% after five years.

⁽²⁾ Expected future defaults as a percent of remaining performing collateral.

⁽³⁾ Excess subordination represents the additional defaults in excess of both current and projected defaults that the CDO can absorb before the bond experiences any credit impairment.

States of the U.S. and Political Subdivisions

The Corporation s municipal bond portfolio of \$182,881 as of March 31, 2012 is highly rated with an average rating of AA and 99.8% of the portfolio rated A or better. General obligation bonds comprise 99.5% of the portfolio. Geographically, the municipal bonds support the Corporation s footprint as 76.8% of the securities are from municipalities located throughout Pennsylvania. The average holding size of the securities in the municipal bond portfolio is \$1,010. This portfolio is also supported by underlying insurance as 77.4% of the securities have credit support.

Non-Agency CMOs

The Corporation purchased \$161,151 of non-agency CMOs from 2003 through 2005. At the time of purchase, these securities were all rated AAA, with an original average loan-to-value (LTV) ratio of 66.1% and original credit score of 724. At origination, the credit support, or the amount of loss the collateral pool could absorb before the AAA securities would incur a credit loss, ranged from 2.0% to 7.0%. Since the time of these original purchases, all of which are classified as held to maturity, two holdings have been sold and one holding has paid off. The Corporation acquired an additional \$42,870 of non-agency CMOs from acquisitions, retaining \$4,298 and selling \$38,572. These acquired securities are classified as available for sale. Non-agency CMOs have a book value of \$23,518 at March 31, 2012. Paydowns during the first three months of 2012 amounted to \$2,704, an annualized paydown rate of 37.7%. The credit support range at March 31, 2012 was 4.0% to 20.5%, due to paydowns, continued good credit performance and the sale of one non-agency CMO having a book value of \$2,848 during the first quarter of 2012. National delinquencies, an early warning sign of potential default, have been increasing for the past five years. The slight upward trend of the rate of delinquencies throughout 2011 has continued through the first quarter of 2012. All non-agency CMO holdings are current with regards to principal and interest.

The rating agencies monitor the underlying collateral performance of these non-agency CMOs for delinquencies, foreclosures and defaults. They also factor in trends in bankruptcies and housing values to ultimately arrive at an expected loss for a given piece of defaulted collateral. Based on deteriorating performance of the collateral, many of these types of securities have been downgraded by the rating agencies. For the Corporation s portfolio, six of the eleven non-agency CMOs have been downgraded since the original purchase date.

The Corporation determines its credit-related losses by running scenario analysis on the underlying collateral. This analysis applies default assumptions to delinquencies already in the pipeline, projects future defaults based in part on the historical trends for the collateral, applies a rate of severity and estimates prepayment rates. Because of the limited historical trends for the collateral, multiple default scenarios were analyzed including scenarios that significantly elevate defaults over the next 12–18 months. Based on the results of the analysis, the Corporation s management has concluded that there are currently no credit-related losses in its non-agency CMO portfolio. The one non-agency CMO that incurred a credit-related loss in 2011 was sold in March 2012 as a result of further credit deterioration and resulted in a net loss on sale of \$226, which was recognized in first quarter 2012 earnings.

17

⁽¹⁾ One acquired available for sale non-agency CMO with a March 31, 2012 book value of \$28 is not included in the above table. The bond rating at acquisition was AAA and is now Baa2. This non-agency CMO is current with regards to principal and interest.

FEDERAL HOME LOAN BANK STOCK

The Corporation is a member of the Federal Home Loan Bank (FHLB) of Pittsburgh. The FHLB requires members to purchase and hold a specified minimum level of FHLB stock based upon their level of borrowings, collateral balances and participation in other programs offered by the FHLB. Stock in the FHLB is non-marketable and is redeemable at the discretion of the FHLB. Both cash and stock dividends on FHLB stock are reported as income.

Members do not purchase stock in the FHLB for the same reasons that traditional equity investors acquire stock in an investor-owned enterprise. Rather, members purchase stock to obtain access to the low-cost products and services offered by the FHLB. Unlike equity securities of traditional for-profit enterprises, the stock of FHLB does not provide its holders with an opportunity for capital appreciation because, by regulation, FHLB stock can only be purchased, redeemed and transferred at par value.

At March 31, 2012 and December 31, 2011, the Corporation s FHLB stock totaled \$32,894 and \$23,516, respectively, and is included in other assets on the balance sheet. The increase is a result of the Parkvale acquisition. The Corporation accounts for the stock in accordance with ASC 325, which requires the investment to be carried at cost and evaluated for impairment based on the ultimate recoverability of the par value.

The Corporation periodically evaluates its FHLB investment for possible impairment based on, among other things, the capital adequacy of the FHLB and its overall financial condition. The Federal Housing Finance Agency, the regulator of the FHLB, requires it to maintain a total capital-to-assets ratio of at least 4.0%. At December 31, 2011, the FHLB is capital ratio of 7.4% exceeded the regulatory requirement. Failure by the FHLB to meet this regulatory capital requirement would require an in-depth analysis of other factors including:

the member s ability to access liquidity from the FHLB;

the member s funding cost advantage with the FHLB compared to alternative sources of funds;

a decline in the market value of FHLB's net assets relative to book value which may or may not affect future financial performance or cash flow;

the FHLB s ability to obtain credit and source liquidity, for which one indicator is the credit rating of the FHLB;

the FHLB s commitment to make payments taking into account its ability to meet statutory and regulatory payment obligations and the level of such payments in relation to the FHLB s operating performance; and

the prospects of amendments to laws that affect the rights and obligations of the FHLB.

At March 31, 2012, the Corporation believes its holdings in the stock are ultimately recoverable at par value and, therefore, determined that FHLB stock was not other-than-temporarily impaired. In addition, the Corporation has ample liquidity and does not require redemption of its FHLB stock in the foreseeable future.

LOANS AND ALLOWANCE FOR LOAN LOSSES

Following is a summary of loans, net of unearned income:

March 31, December 31, 2012 2011

Edgar Filing: FNB CORP/FL/ - Form 10-Q

Commercial real estate	\$ 2,521,571	\$ 2,341,646
Commercial real estate FL	135,547	154,081
Commercial and industrial	1,451,144	1,363,692
Commercial leases	118,050	110,795
Total commercial loans and leases	4,226,312	3,970,214
Direct installment	1,082,964	1,029,187
Residential mortgages	1,187,448	670,936
Indirect installment	563,929	540,789
Consumer lines of credit	704,773	607,280
Other	37,366	38,261
	\$ 7,802,792	\$ 6,856,667

Commercial loans include both owner occupied and non-owner occupied loans secured by commercial properties, as well as commercial and industrial loans. Commercial leases consist of loans for new or used equipment. Direct installment is comprised of fixed-rate, closed-end consumer loans for personal, family or household use, such as home equity loans and automobile loans. Residential mortgages consist of conventional and jumbo mortgage loans for non-commercial properties. Indirect installment is comprised of loans written by third parties, primarily automobile loans. Consumer lines of credit include home equity lines of credit (HELOC) and consumer lines of credit that are either unsecured or secured by collateral other than home equity. Other is comprised primarily of mezzanine loans and student loans.

The loan portfolio consists principally of loans to individuals and small- and medium-sized businesses within the Corporation s primary market area of Pennsylvania and northeastern Ohio. The portfolio also includes commercial real estate loans in Florida, of which 32% were land-related and 68% were non land-related as of March 31, 2012. Additionally, the portfolio contains consumer finance loans to individuals in Pennsylvania, Ohio, Tennessee and Kentucky, which totaled \$157,885 or 2.0% of total loans as of March 31, 2012, compared to \$163,856 or 2.4% of total loans as of December 31, 2011. Due to the relative insignificance of these consumer finance loans and the lower risk profile relative to the Florida loans, they are not segregated from other consumer loans.

As of March 31, 2012, approximately 54% of the commercial real estate loans, including those in Florida, were owner-occupied, while the remaining 46% were non-owner-occupied. As of March 31, 2012 and December 31, 2011, the Corporation had commercial construction loans of \$189,233 and \$210,098, respectively, representing 2.4% and 3.1% of total loans, respectively.

For each reporting period, total cash flows (both principal and interest) expected to be collected over the remaining life of the loan incorporate assumptions regarding default rates, loss severities, the amounts and timing of prepayments, the value of underlying collateral based on independent appraisals that the Corporation reviews for acceptability and considering the time and costs of foreclosure and disposition of the collateral and other factors that reflect then-current market conditions. The Corporation modifies, updates and refines assumptions as circumstances change. Contractual cash flows at each reporting period are determined utilizing the amortized cost method of loan accounting after recognition of contractual interest.

Purchased Credit-Impaired (PCI) Loans

The Corporation has acquired loans for which there was evidence of deterioration of credit quality since origination and for which it was probable, at acquisition, that all contractually required payments would not be collected.

Following are provisional amounts recognized for PCI loans identified in the Corporation s acquisition of Parkvale:

	Acq	At uisition
Contractually required principal and interest at acquisition	\$	8,989
Contractual cash flows not expected to be collected (non-accretable difference)		2,835
Expected cash flows at acquisition		6,154
Interest component of expected cash flows (accretable difference)		589
Fair value at acquisition	\$	5,565

Following is additional information about PCI loans identified in the Corporation s acquisition of Parkvale:

	At Acquisition	March 31, 2012		
Outstanding balance	\$ 8,989	\$ 9,074		
Carrying amount	5,565	5,492		
Allowance for loan losses	n/a			
Impairment recognized since acquisition	n/a			

Allowance reduction recognized since acquisition

n/a

20

		Non-				
	 ontractual eceivable	Accretable Difference	xpected sh Flows	A	ccretable Yield	Carrying Amount
For the Three Months Ended March 31, 2012						
Balance at beginning of period	\$ 51,693	\$ (33,377)	\$ 18,316	\$	(2,477)	\$ 15,839
Acquisitions	8,989	(2,835)	6,154		(589)	5,565
Accretion					205	205
Payments received	(2,402)		(2,402)			(2,402)
Reclass from non-accretable difference		117	117		(117)	
Disposals/transfers						
Contractual interest	855	(855)				
Balance at end of period	\$ 59,135	\$ (36,950)	\$ 22,185	\$	(2,978)	\$ 19,207
For the Year Ended December 31, 2011						
Balance at beginning of period	\$ 20,356	\$ (15,589)	\$ 4,767	\$	(791)	\$ 3,976
Acquisitions	38,890	(19,401)	19,489		(2,025)	17,464
Accretion					903	194
Payments received	(4,784)		(4,784)			(4,075)
Reclass from non-accretable difference		709	709		(709)	
Disposals/transfers	(6,128)	4,263	(1,865)		145	(1,720)
Contractual interest	3,359	(3,359)				
Balance at end of period	\$ 51,693	\$ (33,377)	\$ 18,316	\$	(2,477)	\$ 15,839

The accretion in the table above includes \$117 in 2012 and \$709 in 2011 that primarily represents payoffs received on certain loans in excess of expected cash flows.

Credit Quality

Management monitors the credit quality of the Corporation s loan portfolio on an ongoing basis. Measurement of delinquency and past due status are based on the contractual terms of each loan.

Non-performing loans include non-accrual loans and non-performing troubled debt restructurings (TDRs). Past due loans are reviewed on a monthly basis to identify loans for non-accrual status. The Corporation places a loan on non-accrual status and discontinues interest accruals generally when principal or interest is due and has remained unpaid for 90 to 180 days depending on the loan type. When a loan is placed on non-accrual status, all unpaid interest recognized in the current year is reversed. Non-accrual loans may not be restored to accrual status until all delinquent principal and interest have been paid and the ultimate collectibility of the remaining principal and interest is reasonably assured. TDRs are loans in which the borrower has been granted a concession on the interest rate or the original repayment terms due to financial distress. Non-performing assets also include debt securities on which OTTI has been taken in the current or prior periods that have not been returned to accrual status.

Following is a summary of non-performing assets:

	March 31, 2012	December 31, 2011
Non-accrual loans	\$ 98,418	\$ 94,335
Troubled debt restructurings	11,416	11,893
Total non-performing loans	109,834	106,228
Other real estate owned (OREO)	36,958	34,719
Total non-performing loans and OREO	146,792	140,947

Edgar Filing: FNB CORP/FL/ - Form 10-Q

Non-performing investments	3,478	8,972
Total non-performing assets	\$ 150,270	\$ 149,919
