The Board of Directors (the Board) of ManTech International Corporation (the Company) is soliciting proxies to be voted at the 2013 Annual Meeting of Stockholders (Annual Meeting) to be held on Thursday, May 9, 2013, at 11 am (EDT), at The Hyatt Fair Lakes, 12777 Fair Lakes Circle, Fairfax, VA 22033, and at any adjournments or postponements thereof.

The mailing address of our principal executive offices is 12015 Lee Jackson Highway, Fairfax, VA 22033-3300. This proxy statement, the accompanying Notice of Annual Meeting of Stockholders, and the enclosed proxy card are first being mailed to our stockholders on or about April 1, 2013 (Mailing Date).

GENERAL INFORMATION

The Board is soliciting proxies to be voted at the Annual Meeting. When we ask you for your proxy, we must provide you with a proxy statement that contains certain information specified by law.

At the Annual Meeting, we will ask you to consider and vote on the following matters:

1. To elect nine (9) persons as directors of the Company, each to serve until the 2014 Annual Meeting of Stockholders, or until their respective successors shall have been duly elected and qualified; and
2. To ratify the appointment of Deloitte & Touche LLP to serve as the Company's independent registered public accounting firm for the fiscal year ending December 31, 2013.

We do not expect any other items of business because the deadline for stockholder proposals and nominations has already passed. Nonetheless, in case there is an unforeseen need, the accompanying proxy gives discretionary authority to the persons named on the proxy, George J. Pedersen and Jeffrey S. Brown, with respect to any other matters that might be brought before the meeting. Those persons intend to vote that proxy in accordance with their discretion and best judgment.

Voting Requirements and Other Matters

Quorum

The holders of a majority in voting power of the common stock entitled to vote at the Annual Meeting must be present, either in person or by proxy, to constitute a quorum for the Annual Meeting. Abstentions and broker non-votes are considered present at the meeting for purposes of determining whether a quorum is present.

How to Vote

You can only vote your shares at the Annual Meeting if you are present either in person or by proxy. We encourage you to vote by submitting a proxy card even if you plan to attend the Annual Meeting.

If you vote by mail, you must sign and date each proxy card that you receive, and return it in the prepaid envelope. Sign your name exactly as it appears on the proxy card. If you return a proxy card that is not signed, then your vote cannot be counted. If you return a proxy card that is signed and dated, but you do not specify voting instructions, we will vote on your behalf as follows:

FOR the ratification of the appointment of Deloitte & Touche, LLP as the Company's independent registered public accounting firm (Proposal 2 Ratification of Auditors).

If the Annual Meeting is adjourned or postponed, your proxy will still be effective and will still be voted at the Annual Meeting when reconvened. You will still be able to change or revoke your proxy until it is voted.

Voting ESOP Shares

Stockholders who are current or former employees participating in our Employee Stock Ownership Plan (ESOP) and have shares of our stock allocated to their account as of the Record Date have the right to direct the plan trustee on how to vote their shares. If you do not send instructions to the plan trustee in a proper manner, or if the instructions are not timely received, the trustee will not vote the shares allocable to your account.

Broker Non-Votes

If your shares are held by a broker, the broker will ask you how you want your shares to be voted. If you give the broker instructions, your shares will be voted as you direct. For Proposal 1, or for any other non-routine matter to come before the Annual Meeting, if you do not give instructions, the broker may not vote your shares at all (a broker non-vote). If you do not give instructions for Proposal 2, which is considered a routine matter, the broker may vote your shares in its discretion.

Broker non-votes will be counted for purposes of calculating whether a quorum is present at the Annual Meeting, but will not be counted for purposes of determining the number of votes present in person or represented by proxy and entitled to vote.

Revoking Your Proxy

If you execute a proxy pursuant to this solicitation, you may revoke it at any time prior to its exercise by (i) delivering written notice to our Corporate Secretary at our principal executive offices before the Annual Meeting; (ii) executing and delivering a proxy bearing a later date to our Corporate Secretary at our principal executive offices; or (iii) voting in person at the Annual Meeting.

Votes Required

Approval of each of the proposals submitted to a vote at the Annual Meeting is subject to the affirmative vote requirement shown in the table below.

Proposal	Vote Required	Broker Discretionary Voting Allowed
Proposal 1 Election of Directors	Plurality	No
Proposal 2 Ratification of Auditors	Majority	Yes

Plurality will be determined with respect to votes cast on a particular proposal. Majority will be determined with respect to votes present in person or represented by proxy and entitled to vote. If you vote ABSTAIN on any proposal requiring a Majority, your vote will have the same effect as a vote AGAINST that proposal.

Tabulation of Votes

Mr. Michael R. Putnam, our Senior Vice President, Corporate and Regulatory Affairs, has been appointed inspector of elections for the Annual Meeting. Mr. Putnam will separately tabulate the affirmative votes, withheld or negative votes (as applicable), abstentions, and broker non-votes with respect to each of the proposals.

Voting Results

We will announce preliminary voting results at the Annual Meeting. We will disclose the final results on a Form 8-K that we file with the Securities and Exchange Commission (SEC) within four business days following the Annual Meeting.

Ownership by Insiders

As of March 12, 2013, our directors and executive officers beneficially owned an aggregate of 736,485 shares of Class A common stock (such number includes shares of common stock that may be issued upon exercise of outstanding options that are currently exercisable or that become exercisable prior to May 11, 2013) and 13,192,845 shares of Class B common stock, which together constitute approximately 36.9% of our outstanding common stock and 84.8% of the voting control of common stock entitled to vote at the Annual Meeting.

Solicitation

The Board is making this solicitation of proxies on our behalf. In addition to the solicitation of proxies by use of the mail, our officers and employees may solicit the return of proxies by personal interview, telephone, email or facsimile. We will not pay additional compensation to our officers and employees for their solicitation efforts, but we will reimburse them for any out-of-pocket expenses they incur in their solicitation efforts.

We will request that brokerage houses and other custodians, nominees, and fiduciaries forward our solicitation materials to beneficial owners of our common stock. We will bear all costs associated with preparing, assembling, printing, and mailing this proxy statement and the accompanying materials, the cost of forwarding our solicitation materials to the beneficial owners of our common stock, and all other costs of solicitation.

CORPORATE GOVERNANCE

Corporate Governance Guidelines

The Board has established and adopted guidelines that it follows in matters of corporate governance (Corporate Governance Guidelines). These Corporate Governance Guidelines assist the Board in the exercise of its responsibilities and provide a framework for the efficient operation of our Company, consistent with the best interests of our stockholders and applicable legal and regulatory requirements. The Nominating and Corporate Governance Committee reviews and reassesses the adequacy of the Corporate Governance Guidelines on an annual basis. We have posted a current copy of our Corporate Governance Guidelines, which was last amended in January 2013, on the Corporate Governance page in the Investor Relations section of our website at www.mantech.com (our Website).

Director Independence

The Board comprises a majority of directors who are independent from management. Each of our Audit Committee, Compensation Committee, and Nominating and Corporate Governance Committee consists entirely of independent directors.

The Board has conducted an evaluation of director independence, based on the independence standards applicable to Nasdaq-listed companies and applicable SEC rules and regulations. In the course of the Board's evaluation of the independence of each non-management director, the Board considered any transactions, relationships, and arrangements between each such director (or any member of his or her immediate family) and the Company, its subsidiaries, and its affiliates. The purpose of this evaluation was to determine whether any relationships or transactions exist that could be inconsistent with a determination by the Board that the director has no relationship that would interfere with his or her exercise of independent judgment in carrying out the responsibilities of a director.

As a result of this evaluation, the Board has affirmatively determined that the following directors nominated for election at the Annual Meeting are independent of the Company and its management under the above referenced standards and regulations:

Ø Mary K. Bush	Ø Richard J. Kerr
Ø Barry G. Campbell	Ø Kenneth A. Minihan
Ø Walter R. Fatzinger, Jr.	Ø Stephen W. Porter
Ø David E. Jeremiah	

The Board determined that Mr. Pedersen, our Chairman of the Board and Chief Executive Officer, is not independent because he is employed by the Company.

The Board determined that Mr. Armitage is not independent because his brother-in-law is a partner with the Company's independent registered public accounting firm, Deloitte & Touche LLP.

Board Leadership Structure

The Board believes that no single leadership model is right for all companies at all times. Depending on the circumstances, different leadership models might be appropriate. Our Corporate Governance Guidelines do not require that the roles of Chief Executive Officer and Chairman of the Board be separate or combined. The Board's policy as to whether the roles of the Chief Executive Officer and

Chairman of the Board should be separate or combined is to adopt the practice that best serves the Company at any given point in time. Currently our Chief Executive Officer also serves as Chairman of the Board. The Board believes this structure provides an effective and efficient leadership model for the Company at this time, and that combining the Chairman and CEO roles fosters clear accountability, effective decision-making, and alignment on corporate strategy.

Pursuant to our Corporate Governance Guidelines, because we have combined the Chairman and CEO roles, our independent directors have designated Mr. Campbell to serve as the Presiding Director. Mr. Campbell's duties in this capacity include:

- Ø Coordinating the activities of the independent directors (or non-management directors, in certain circumstances);

- Ø Calling for meetings or sessions of the independent directors (or non-management directors, in certain circumstances) and coordinating the agenda and serving as the chair for such sessions; and

- Ø Facilitating communications and functioning as principal liaison between the independent directors and the Chairman of the Board.

Board and Committee Executive Sessions and Independent Directors Meetings

The independent directors (or non-management directors, in certain circumstances) of the Board regularly meet in executive session, without the presence of management, following the adjournment of Board meetings. The Board holds no fewer than two such meetings annually. Certain of the principal standing committees of the Board (including the Audit and Compensation Committees) also regularly meet in executive session. As Presiding Director, Mr. Campbell chairs meetings of our independent directors (or non-management directors, in certain circumstances), and the committee chairmen preside over executive sessions of their respective committees.

Board's Role in Risk Oversight

The Board oversees the management of risks inherent in the operation of the Company's business. The Board oversees the management of risk principally through the Audit Committee. Among other activities, the Audit Committee oversees the Company's enterprise risk management program. Additionally, the Board oversees certain of the Company's business activities (particularly those designated as classified by the U.S. government) through the Special Programs Oversight Committee. Finally, the Board fulfills its responsibility for overseeing the assessment of risks associated with the Company's compensation policies and programs through the Compensation Committee. Each of these committees receives and discusses reports regularly with members of management who are responsible for applicable day-to-day risk management functions of the Company. The Board's role in risk oversight has not had any effect on the Board's leadership structure.

Board and Committee Self-Evaluations

Each of the Board and the Audit, Compensation, and Nominating and Corporate Governance Committees conducts an annual self-evaluation. These evaluations are designed to foster candid discussion regarding the adequacy and effectiveness of the Board and its principal committees. The Nominating and Corporate Governance Committee is responsible for overseeing the evaluation process, and considers the results of the evaluation process in making recommendations to the Board regarding the nomination of incumbent directors for re-election to the Board and the committee assignments for each Board term.

Director Nominations

The Board generally identifies and attracts candidates through its own efforts, and it believes that this method has been effective. However, if in the future the Board determines that it is in the Company's best interest to use the services of a consultant or a search firm to assist with the identification and selection process, it will do so.

The Nominating and Corporate Governance Committee is responsible for reviewing the qualifications of potential director nominees, and then recommending director candidates for nomination by the Board.

We do not have a formal policy regarding the consideration of diversity in identifying potential director nominees. However, the Nominating and Corporate Governance Committee considers diversity in its broadest sense when evaluating candidates. Our Corporate Governance Guidelines direct that the evaluation of nominees should include (but not be limited to) an assessment of whether a nominee would provide the Board with a diversity of viewpoints, backgrounds, experiences, and other demographics.

The Nominating and Corporate Governance Committee has a policy regarding the consideration of director candidates recommended by our stockholders (Nominations Policy). The Nominations Policy describes the circumstances pursuant to which the Nominating and Corporate Governance Committee will consider Board candidates recommended by our stockholders. The Nominations Policy also describes the procedures to be followed by stockholders in submitting such recommendations. We have made the Nominations Policy available on the Corporate Governance page of our Website.

Generally, the Nominating and Corporate Governance Committee will consider candidates recommended by stockholders who beneficially own at least 1% of our outstanding stock at the time of recommendation (Qualifying Stockholder). Qualifying Stockholders wishing to recommend candidates to the Nominating and Corporate Governance Committee may do so by submitting a completed Stockholder Recommendation of Candidate for Director Form (Recommendation Form), which is embedded in the Nominations Policy posted on our Website.

Qualifying Stockholders wishing to recommend a nominee for election as director at the next annual meeting of stockholders must submit their completed Recommendation Form at least 120 days in advance of the one-year anniversary of the date of the mailing of this proxy statement. The Nominating and Corporate Governance Committee will only evaluate a candidate if he or she has indicated a willingness to serve as a director and cooperate with the evaluation process, and if the required information about the candidate has been submitted. Candidates recommended by Qualifying Stockholders will generally be evaluated by the Nominating and Corporate Governance Committee pursuant to the same process used for evaluation of all other director candidates.

Code of Ethics

This year, we revised our *Standards of Ethics and Business Conduct*, which sets forth the policies composing our code of conduct. The policies in our *Standards of Ethics and Business Conduct* satisfy the SEC's requirements for a code of ethics applicable to our principal executive officer, principal financial officer, principal accounting officer, controller, and persons performing similar functions, as well as Nasdaq's requirements for a code of conduct applicable to all directors, officers, and employees. Among other principles, our *Standards of Ethics and Business Conduct* includes guidelines

relating to the ethical handling of actual or potential conflicts of interest, compliance with laws, accurate financial reporting, and procedures for promoting compliance with (and reporting violations of) such standards. A copy of our *Standards of Ethics and Business Conduct* is available on the Corporate Governance page of our Website. We are required to disclose any amendment to, or waiver of, a provision of our code of ethics applicable to our principal executive officer, principal financial officer, principal accounting officer, controller or persons performing similar functions. We intend to use our Website as a method of disseminating this disclosure, as permitted by applicable SEC rules.

Communication with Directors

We believe that it is important for our stockholders to be able to communicate their concerns to our Board. Stockholders may correspond with any director, committee, or the Board generally, by writing to the following address: ManTech International Corporation Board of Directors, 12015 Lee Jackson Highway, Fairfax, VA 22033-3300, Attention: Corporate Secretary. Please specify to whom your correspondence should be directed. Our Corporate Secretary has been instructed to promptly forward all correspondences to the relevant director, committee, or the full Board, as indicated in your correspondence.

Director Attendance at Annual Meeting of Stockholders

We invite all of our directors to attend our annual meeting of stockholders, and we strongly encourage all of them to do so. In furtherance of this policy, we have scheduled one of our regular Board meetings on the same day as the Annual Meeting. In 2012, all of our directors attended our annual meeting of stockholders.

We have made available on the Corporate Governance page of our Website a number of important documents related to our governance practices, including:

- Ø Stock Option Grant Policy.

We will also make these materials available in print format to any requesting stockholder. Copies of these documents may be requested by writing to the following address: ManTech International Corporation, 12015 Lee Jackson Highway, Fairfax, VA 22033-3300, Attention: Corporate Secretary.

BOARD OF DIRECTORS

AND COMMITTEES OF THE BOARD OF DIRECTORS

Our Board currently consists of nine members, each of whom was elected at the 2012 Annual Meeting of Stockholders for a term that expires at the Annual Meeting. Additional information about each of our directors can be found below under Proposal 1 Election of Directors. Set forth below are details regarding director attendance at board and committee meetings, the function and operation of each of the Board's standing committees, and the compensation of our non-employee directors.

Attendance at Board and Committee Meetings

Our full Board met seven times in 2012. During 2012, each of our incumbent directors attended or participated in at least 75% of the aggregate of (i) the total number of meetings of the Board, and (ii) the total number of meetings held by all committees of the Board on which such director served. The number of meetings held in 2012 by each of the Board's standing committees is set forth in the information below.

Committees of the Board of Directors

The Board currently has six standing committees. The name and membership of each committee are set forth in the table below.

The Board may establish other committees from time to time. A more detailed discussion of each committee's composition, purpose, objectives, authority, and responsibilities can be found in its charter, which we make available on the Corporate Governance page of our Website.

Audit Committee

The primary functions of the Audit Committee are to oversee (i) the integrity of our financial statements, (ii) our accounting and financial reporting processes, and (iii) audits of our financial

statements. Our Audit Committee operates under a written charter that it reviews and reassesses the adequacy of on an annual basis. The charter was most recently revised and amended in March 2010.

The Board annually reviews the suitability of our Audit Committee in light of the Nasdaq listing standards requirements for audit committee composition and applicable SEC rules and regulations. The Board has determined that each member of our Audit Committee meets the independence and other requirements for audit committee members under applicable Nasdaq listing standards and SEC rules and regulations.

The Board has also determined that the Company has at least one audit committee financial expert serving on the Audit Committee. The Board has determined that each of Messrs. Campbell and Fatzinger, and Ms. Bush (i) qualifies as an audit committee financial expert under applicable SEC rules and regulations, and (ii) satisfies the financial sophistication requirements of the Nasdaq listing standards. All of our Audit Committee members have a working familiarity with basic finance and accounting practices.

During 2012, the Audit Committee held five meetings. The Audit Committee meets regularly in executive session, including with our independent registered public accounting firm, without management present. Mr. Campbell serves as Chairman of the Audit Committee.

Compensation Committee

The primary functions of the Compensation Committee are to (i) oversee the determination, implementation, and administration of the remuneration (including salary, incentive compensation payments, bonuses, equity compensation, and perquisites) of all non-employee directors and executive officers of the Company, (ii) review and approve or ratify all equity grants, and (iii) administer the Company's stock-based compensation plans. The Compensation Committee operates under a written charter that it reviews and reassesses the adequacy of on an annual basis. The charter was most recently revised and amended in March 2013.

The Board annually reviews the suitability of our Compensation Committee in light of the Nasdaq listing standards requirements for compensation committee composition and applicable SEC rules and regulations. The Board has determined that each member of our Compensation Committee meets the independence and other requirements for compensation committee members under applicable Nasdaq listing standards and SEC rules and regulations. In making such determination with respect to each member, the Board considered whether the director has any affiliation with the Company, a subsidiary of the Company or an affiliate of a subsidiary of the Company that would impair the director's judgment as a member of the Compensation Committee. All Compensation Committee members also qualify as non-employee directors under Section 16 of the Exchange Act and as outside directors under Section 162(m) of the Internal Revenue Code.

During 2012, the Compensation Committee held six meetings. At the direction of the Compensation Committee, certain members of management attend each meeting. The Compensation Committee also meets regularly in executive session without management present. Mr. Fatzinger serves as chairman of the Compensation Committee.

Ø Compensation Advisers

The Compensation Committee has the authority, in its sole discretion, to retain or obtain the advice of compensation consultants, legal counsel or other advisers, and is directly responsible for the

appointment, compensation and oversight of the work of any such adviser. The Compensation Committee conducts an independence assessment of any compensation adviser, to include considering the factors required by applicable Nasdaq listing standards and SEC rules and regulations.

For 2012, the Compensation Committee retained Ernst & Young LLP (E&Y) as the Compensation Committee's independent compensation consultant to assist with its executive compensation-related responsibilities. The services provided by E&Y in its capacity as the Compensation Committee's independent compensation consultant included supporting the design of our executive compensation program, providing market consensus data for each of our executive officers, and assisting the Compensation Committee in evaluating the compensation of our non-employee directors.

From time to time, with the consent of the Compensation Committee, the Company's management has retained personnel at E&Y to perform services that are not related to work performed as the Compensation Committee's independent compensation consultant (Additional Services), such as conducting financial due diligence in connection with certain merger and acquisition transactions. E&Y receives a fee for the Additional Services. During 2012, the Company's management engaged E&Y to perform due diligence support on acquisitions, as well as to provide acquisition valuation services. The Compensation Committee has approved the Company's future use of E&Y for these and other projects, including consulting and advisory services with respect to the Company's internal systems and, as directed by the chairman of the Compensation Committee, consulting and advisory services related to compensation of the Company's non-executive officers.

During 2012, the Company paid E&Y the following fees for its services:

Ø Compensation Consulting Services	\$ 50,736
Ø Additional Services	\$ 146,840

Based on its review of these relationships, and independence and other factors that the Compensation Committee determines to be relevant, as well as policies and procedures implemented by the Compensation Committee and E&Y, the Compensation Committee has concluded that the compensation consulting advice it receives from E&Y is objective, and that no conflicts of interest exist that would require disclosure by the Company under applicable SEC rules.

The Company's processes and procedures for the consideration and determination of director and executive compensation (including the roles of the Compensation Committee, management, and the Compensation Committee's independent compensation consultant) are discussed below in the sections "Setting Compensation of Non-Employee Directors" and "Compensation Discussion and Analysis," respectively.

Nominating and Corporate Governance Committee

The primary functions of the Nominating and Corporate Governance Committee are to (i) identify individuals qualified to become members of the Board, and recommend persons for the Board to select as nominees for election to the Board, and (ii) oversee the Company's corporate governance policies and procedures, including annual review of the Company's Corporate Governance Guidelines. All members of the Nominating and Corporate Governance Committee are independent directors, within the meaning of applicable Nasdaq listing standards and SEC rules and regulations. During 2012, the Nominating and Corporate Governance Committee held two meetings. Mr. Porter serves as chairman of the Nominating and Corporate Governance Committee.

Retirement Plan Committee

The primary function of the Retirement Plan Committee is to oversee the administration of the Company's tax-qualified and non-qualified retirement plans. In 2012, the Retirement Plan Committee held four meetings. Mr. Fatzinger serves as chairman of the Retirement Plan Committee.

Special Programs Oversight Committee

The primary function of the Special Programs Oversight Committee is to provide oversight of certain of the Company's business activities (particularly those designated as classified by the United States government). In 2012, the Special Programs Oversight Committee held three meetings. Mr. Kerr serves as chairman of the Special Programs Oversight Committee.

Executive Committee

The primary function of the Executive Committee is to assist the Board in fulfilling its oversight responsibilities. The Executive Committee is authorized to exercise the powers of the Board in managing the affairs of the Company during intervals between Board meetings, when Board action is necessary or desirable but convening a special Board meeting is not warranted or practical. In 2012, the Executive Committee did not hold any meetings. Mr. Pedersen serves as chairman of the Executive Committee.

Setting Compensation of Non-Employee Directors

Our Compensation Committee sets compensation for the Company's non-employee directors. The Compensation Committee generally reviews non-employee director compensation on an annual basis. In conducting this review, the Compensation Committee receives input on market trends for non-employee director compensation from its independent compensation consultant, including with respect to the Company's compensation peer group (as set forth in the Compensation Discussion & Analysis section of this proxy statement); however, the Committee does not target non-employee director compensation at any particular percentile or percentile range of the market data. A substantial portion of the non-employee directors' compensation is payable in the form of stock-based compensation, in order to align the interests of the directors with those of the Company's stockholders.

We do not compensate Mr. Pedersen for his service on the Board or any committee of the Board. In certain circumstances, members of the Board may receive reimbursement for certain expenses incurred in connection with attending Board or committee meetings. For the current Board term (which began in May 2012), the Compensation Committee decided not to make any changes to non-employee director compensation levels (both with respect to cash and equity) from those levels approved for the prior Board term. The compensation paid in 2012 to the non-employee directors for their services is reflected in the table that follows.

NON-EMPLOYEE DIRECTOR COMPENSATION TABLE

COMPENSATION DISCUSSION AND ANALYSIS

The following discussion and analysis contains statements regarding individual and Company performance targets and goals. These targets and goals are disclosed in the limited context of our compensation program. These targets and goals are not statements of our expectations or estimates of results or other guidance. Investors should not apply the targets and goals to any other context.

This section describes the compensation for our Chief Executive Officer and Chief Financial Officer in 2012, as well as each of our three most highly compensated executive officers employed at the end of 2012, all of whom we refer to as our named executive officers. Our named executive officers for 2012 are: George J. Pedersen, Chairman of the Board and Chief Executive Officer; Kevin M. Phillips, Executive Vice President and Chief Financial Officer; and Louis M. Addeo, L. William Varner, III, and Terrence M. Ryan, our three business group presidents as of December 31, 2012, each of whom also served as the chief operating officer for his respective group. In January 2013, Mr. Ryan resigned from his position with the Company, and in February 2013 Mr. Addeo was promoted to Executive Vice President of Corporate Development and Strategic Acquisitions.

Executive Summary

Our executive compensation program is based upon a strong foundation of seeking to provide compensation that is based on performance, as exemplified by our compensation philosophy (as described below). We continually evaluate the individual elements of our executive compensation program in light of market conditions and governance requirements, and we make changes where appropriate for our business. Our core compensation program elements have remained substantially unchanged over the last several years, as we believe our executive compensation structure has continued to properly incentivize our executive officers' contribution to the Company's solid financial performance. Specifically, we believe that the design of the non-discretionary component of our annual incentive compensation program ties the interests of our executives to the Company's financial results by providing significant incentive payments only under circumstances that may be objectively shown to evidence truly exemplary and outstanding performance. For 2012, as in prior years, we used performance measures for the non-discretionary component that relate to overall Company performance for our CEO and CFO, and a combination of overall Company performance and applicable business group performance for our business group presidents. The discretionary component of our annual incentive compensation program provides us with flexibility to consider qualitative

factors so that, where appropriate, we can capture and reward the individual performance and contributions of our named executive officers to the Company's business and operations that the non-discretionary component does not capture.

In 2012, the Company's named executive officers directly contributed to the achievement of solid financial results in a difficult environment. As federal spending has come under pressure from continued budget deficits and mounting levels of debt, the operations and financial results of government contractors are being impacted by customer uncertainty about funding levels and the adoption of policies adverse to our industry. We expect our federal government customers will continue to make decisions that put pressure on the financial performance of companies in our sector; however, due in significant part to the efforts of our named executive officers during 2012, we believe that the Company is well situated for strong performance. Our 2012 financial results are illustrated by revenue of \$2.58 billion, record bookings of \$4.8 billion, and cash flow from operations of \$126 million. For a more detailed description of our fiscal year 2012 financial results, see our consolidated financial statements and Management's Discussion and Analysis of Financial Condition and Results of Operations in our 2012 Annual Report on Form 10-K.

In addition, our named executive officers led the Company through a number of important efforts to strengthen the Company's overall long-term prospects and position the Company to deliver significant value to its stockholders in a difficult market for government services providers. Consistent with our long-term strategy, their actions focused on enhancing our existing customer relationships, aggressively pursuing new opportunities in our core business, and building a presence in new markets. The most significant efforts led by our named executive officers included:

- Ø Completion of strategic acquisitions that provide the Company with access to new opportunities in the cyber and healthcare markets;
- Ø Receipt of significant contract awards supporting long-term priority programs for key customers and contract awards providing the Company with expansion opportunities in new markets, resulting in record backlog of \$6.5 billion as of December 31, 2012;
- Ø Augmenting the Company's pipeline with near term opportunities, including in adjacent and high-growth markets, resulting in a qualified pipeline of \$28.8 billion at year end;
- Ø Achievement of a 90% contract re-compete win rate;
- Ø Increasing the percentage of our revenue obtained from prime contracts; and
- Ø Maintenance of a robust and flexible balance sheet that can support the Company's strategic investment objectives while also returning value to shareholders via our regular dividend program.

During 2012 our named executive officers also planned and oversaw a reorganization of the Company's business groups that was designed to better align our customers and capabilities and sharpen our focus on growing markets. In connection with the reorganization, we created an Emerging Markets Group (EMG), led by Mr. Ryan, to identify new markets and build new business. The Company's Systems Engineering and Advanced Technology Group, which had been led by Mr. Ryan prior to the reorganization, was dissolved and that group's existing work was reallocated among EMG, the Technical Services Group (TSG), led by Mr. Addeo, and the Mission Cyber and Intelligence Solutions Group (MCIS), led by Mr. Varner. The reorganization also resulted in some reallocation of existing work between TSG and MCIS.

Objectives of Our Executive Compensation Program

Our executive compensation program is designed to support our key business objectives of creating value for, and promoting the interests of, our stockholders. In order to align the interests of our executives with those of our stockholders, we believe that our executive compensation program must provide our executive officers with competitive compensation opportunities that are based upon their contributions to the financial and operational success of the Company, as well as their personal performances.

Specifically, per our compensation philosophy, we believe that our executive compensation program should:

- Ø Be tied in substantial part to financial performance, so that our executives are held accountable through their compensation for the performance of the Company and (if applicable) the business groups for which they are responsible;
- Ø Appropriately balance short- and long-term incentives, with short-term incentive compensation target amounts based on role or level of contribution and a meaningful portion of the total target compensation amounts for the senior executive team focused on long-term performance;
- Ø Align the interests of management with shareholders through stock-based compensation (primarily grants of stock options);
- Ø Consider qualitative factors beyond the quantitative financial metrics that serve as the basis for the non-discretionary portion of our annual incentive compensation program in the determination of whether discretionary bonus payments to individual executives are appropriate; and
- Ø Reflect the competitive marketplace, so we are able to attract, retain, and motivate talented executives.

Executive Compensation Setting Process

The Compensation Committee is responsible for setting the compensation of our executive officers. In making executive compensation decisions, the Compensation Committee consults with our CEO and other members of our management team, and relies upon the assistance of E&Y, which serves as the Compensation Committee's independent compensation consultant. For additional information about E&Y, see the Compensation Committee section of this proxy statement.

The Compensation Committee believes that the input of management is an important part of the executive compensation setting process. As a result, the Compensation Committee requested that management provide initial recommendations with respect to the 2012 compensation packages for each named executive officer. These recommendations included types and amounts of compensation for each executive, as well as appropriate goals for each of the 2012 performance metrics, which were determined by the Compensation Committee. In setting each executive's compensation opportunities for 2012, the Compensation Committee considered management's recommendation in light of, and in addition to, other factors, including the executive's individual experience, role and responsibilities, performance, and prior compensation levels, as well as retention and other specific management needs of the Company.

In evaluating the reasonableness of its compensation decisions and the Company's compensation programs generally, the Compensation Committee takes into account the compensation practices of, and the competitive market for executives at, companies with which we compete. To this end, the Compensation Committee asked E&Y to perform an analysis of the Company's executive compensation program, including a review of the overall competitiveness of proposed compensation levels to prevailing market standards for executive officers. The market information included in this analysis was based on published compensation surveys for similarly-sized companies within the business software and services industry (as sorted and refined by E&Y on a position-by-position basis), as well as proxy analysis of the Company's compensation peer group, and was used to generate market consensus figures for each of our executive officer's total cash compensation (base salary and annual incentive) and, where available, total direct compensation (total cash compensation plus long-term incentives). Market consensus figures were presented at both the 50th and 75th percentiles of the market data to provide general information on a market competitive range of compensation for each position.

E&Y does not identify to us the individual companies that compose the published survey data for each executive's position. The Compensation Committee, in consultation with E&Y and management, determined the compensation peer group used to produce the proxy analysis. The primary basis for selecting the peer group was to identify public companies with which we compete directly for executive talent, customers, market share, capital, and shareholders. For 2012, our compensation peer group was substantially the same as for 2011, except for the addition of Booz Allen Hamilton Holding Corporation. The 2012 compensation peer group comprised the following 11 companies:

- | | | |
|---|----------------------|---------------------|
| Ø Booz Allen Hamilton Holding Corporation | Ø ICF International | Ø SAIC, Inc. |
| Ø CACI International, Inc. | Ø L-3 Communications | Ø SRA International |

| Ø Harris Corporation | Ø NCI, Inc. | |

The Compensation Committee did not consider the market consensus figures for the purposes of benchmarking or otherwise targeting any component of executive compensation or total executive compensation at a particular percentile of market; rather the Compensation Committee only used market consensus figures as a reference point in its determination of the types and amount of compensation for the executive officers, in light of its own evaluation of the circumstances with respect to each executive officer. Factors that may cause an individual executive's compensation to fall outside of the market consensus figures presented to the Compensation Committee include competitive factors, the Company's financial and operating performance, the individual executive's position or performance, the Company's general view on the appropriate proportion of cash-based compensation for its executives, and other factors that may inform the Committee's determination of the best way to align our executive officers' interests with those of our stockholders.

2012 Named Executive Officer Compensation

Our compensation program utilizes three principal types of compensation: base salary, annual cash incentive payments, and long term incentive compensation. While we do pay some compensation through employee benefits and perquisites, these forms of compensation generally do not represent a significant portion of the total compensation we pay our executives.

Base Salary

We pay our named executive officers base salaries that reflect the requirements of the marketplace. We also take into account the individual executive's experience, base salary in the prior year, personal performance, internal pay equity considerations, and (if applicable) size and other factors related to the business group for which the executive is responsible. The consideration given to each of these factors differs from individual to individual, as deemed appropriate.

Each of our named executive officers received a salary increase, based on the factors listed above, in April 2012 as part of our regular salary setting process. The final 2012 base salaries for our named executive officers are shown in the following chart.

Executive	2012 Base Salary
Mr. Pedersen	\$2,000,000
Mr. Phillips	\$750,000
Mr. Addeo	\$800,000
Mr. Varner	\$700,000
Mr. Ryan	\$700,000

Annual Incentive Compensation Program

Our named executive officers have the potential to earn annual cash incentive payments through our annual incentive compensation program. Our annual incentive compensation program has both non-discretionary and discretionary components. The non-discretionary component of each executive's annual incentive compensation opportunity was established pursuant to, and governed by, the Company's 2012 Executive Incentive Compensation Plan. On an annual basis, the Committee also considers for each executive whether a discretionary bonus payment is appropriate.

We make our incentive payments annually, when earned, and after our financial results for the year have been finally determined, or, for the discretionary component of our incentive program, when the Compensation Committee otherwise determines a payment is appropriate. We have chosen to make annual incentive compensation payments in the form of cash rather than stock, as the stock compensation component of our compensation program is designed to provide a longer-term incentive for our named executive officers.

Ø Non-Discretionary Incentive Compensation Payments

The material elements of the non-discretionary component of our annual incentive program are as follows:

- Ø A uniform and systematic process that uses objective and specific measures to determine the amount of incentive compensation to be paid;
- Ø Company and business group performance goals that support the operating objectives for the Company as a whole;
- Ø Compensation Committee discretion to reduce the amount of the non-discretionary portion of a named executive officer's annual cash incentive payment that would otherwise be payable upon the executive's achievement of the pre-established goals.

Ø Structure of 2012 Non-Discretionary Incentive Opportunities

For 2012, we used the following performance measures at both the Company-level and business group-level for the non-discretionary component of our annual incentive program.

Revenue Revenue is the principal means by which we measure our overall growth, which is an important factor at this point in the life of the Company. Because of profit margin limitations that apply to government contracts, increasing our revenue is the principal method by which we can increase our profits.

EBIT Earnings before interest and taxes (EBIT) is the principal method by which we measure our profitability and monitor our ability to achieve returns for our stockholders.

Bookings Bookings refers to the total value of all contracts, including renewals and customer purchases in excess of prior contracted commitments, awarded during the year. Generally, for Indefinite Delivery/Indefinite Quantity contracts, we only include in our bookings executed task orders and an estimate of revenues for solutions that we believe we will be asked to provide in the future under the terms of those contracts for which we have an established pattern of revenues. Awards of new contracts and the renewal of existing contracts are an important measure of our market positioning and future prospects.

For 2012, the non-discretionary annual incentives for each of Mr. Pedersen (our Chairman and CEO) and Mr. Phillips (our Executive Vice President and CFO) were based solely on Company-level performance measures. By using only Company-level performance measures, the incentives for these executives were balanced for all aspects of the Company's business, and were intended to encourage them to attend to the entire business of the Company and make decisions for the benefit of the entire Company. The percentage achievement of each of the Company-level performance goals is multiplied by a weighting factor, and the resulting products are added to determine an overall Company-level performance score. For 2012, we increased the weighting factor for the bookings performance measure in order to focus our named executive officers on pursuing new business in support of the Company's long-term strategy. The Company-level performance measures, associated weighting factors, and goals for 2012 are shown in the table below.

Company-Level Performance Measures

<i>Performance Measure</i>	<i>Weighting</i>	<i>Goal (dollars in thousands)</i>
Revenue	33%	\$3,300,000
EBIT	33%	\$235,000
Bookings	33%	\$6,200,000

The non-discretionary annual incentives for Messrs. Addeo, Varner, and Ryan were based on a combination of the Company-level performance goals described above and performance goals for the business group for which each executive was responsible. By using both Company-level and business group-level measures, the incentives were intended to encourage these executives to make decisions that benefit both their business groups and the Company as a whole. The overall performance score for the Company-level goals and the overall performance score for the business group-level goals are each multiplied by a weighting factor, and then added together to determine a composite performance score. For 2012, the overall Company-level and business group level performance scores were equally weighted. The business group-level goals and weighting factors for these executives were established

prior to the business group reorganization described in the Executive Summary above, and were not subsequently adjusted. Certain business group-level performance measures, associated weighting factors, and goals are shown in the table below.

Business Group-Level Performance Measures

<i>Performance Measure</i>	<i>Weighting</i>	<i>Mr. Addeo</i>	<i>Mr. Varner</i>	<i>Mr. Ryan</i>
		<i>Goal (dollars in thousands)</i>		
Revenue	33%	\$ 2,000,000	\$ 757,000	\$ 572,000
EBIT ¹	33%			
Bookings	33%	\$ 4,500,000	\$ 1,022,000	\$ 711,000

¹ EBIT goals for the business groups were set in proportion to the Company-level goal for that measure, taking into account the size, customers, contract types, and other attributes of the relevant business group. EBIT goals were designed to be challenging to meet at targeted performance, with the maximum score attainable only under circumstances indicating extraordinary performance.

The performance score for each of our named executive officers is converted by fixed formula to an annual incentive award amount. For 2012, the non-discretionary incentive award opportunity for each of our named executive officers at threshold, target, and maximum performance levels is set forth in the following table.

Non-Discretionary Incentive Award Opportunities

<i>Executive</i>	<i>Threshold Performance Score (87% - 91%)</i>	<i>Target Performance Score (100%)</i>	<i>Maximum Performance Score (109% - 113%)</i>
Mr. Pedersen	\$ 1,300,000	\$ 2,600,000	\$ 4,550,000
Mr. Phillips	\$ 360,000	\$ 713,000	\$ 1,250,000
Mr. Addeo	\$ 380,000	\$ 760,000	\$ 1,330,000
Mr. Varner	\$ 300,000	\$ 595,000	\$ 1,050,000
Mr. Ryan	\$ 300,000	\$ 595,000	\$ 1,050,000

Ø 2012 Non-Discretionary Incentive Compensation Results

Calculation of the Company-level performance score for 2012 is shown in the table below.

Company-Level Performance Score

<i>Performance Measure</i>	<i>Weighting</i>	<i>% Achievement</i>	<i>Score</i>
Revenue	33%	78%	26%
EBIT	33%	73%	24%
Bookings	33%	77%	26%
<i>Company-Level Performance Score</i>			76%

The non-discretionary annual incentive payment opportunities for Messrs. Pedersen and Phillips were based solely on the Company-level performance score. Neither Mr. Pedersen nor Mr. Phillips received a non-discretionary annual incentive payment for 2012 because the Company-level performance score did not meet or exceed the threshold score.

The business group-level performance score for each of our business group presidents was calculated using performance results for the business group for which the executive was responsible at the end of 2012. The results were not adjusted for the effects of the reorganization described above. Calculation of each of the business group-level performance scores for 2012 is shown in the table below.

Business-Group Level Performance Scores

<i>Performance Measure</i>	<i>Weighting</i>	<i>Mr. Addeo</i>		<i>Mr. Varner</i>		<i>Mr. Ryan</i>	
		<i>% Achievement</i>	<i>Score</i>	<i>% Achievement</i>	<i>Score</i>	<i>% Achievement</i>	<i>Score</i>
Revenue	33%	87%	29%	84%	28%	36%	12%
EBIT	33%	94%	31%	70%	23%	26%	9%
Bookings	33%	95%	32%	42%	14%	17%	6%
<i>Business Group-Level Performance Score</i>			92%		65%		27%

Each business-group performance score was multiplied by a weighting factor of 50%, and then added together with the equally weighted Company-level performance score (which was 76%) to yield a composite performance score. Based on composite performance scores that did not meet or exceed the threshold score, none of Messrs. Addeo, Varner or Ryan received a non-discretionary annual incentive payment for 2012.

Ø *Discretionary Incentive Compensation Payments*

As part of our incentive compensation program, the Compensation Committee considers on an annual basis whether a discretionary bonus payment is appropriate for any of our named executive officers. In determining the amount of any discretionary bonus payments, the Compensation Committee may take into account any objective or subjective factors that the Compensation Committee deems appropriate, including individual contributions, retention needs, and other qualitative factors not captured by the non-discretionary component of our annual incentive compensation program.

Generally, discretionary bonus payments for our named executive officers have been made after our financial results for the year have been reported and the amounts of any non-discretionary incentive payments earned for the year have been finally determined. For 2012, the Compensation Committee determined that it was in the best interest of the Company to make discretionary bonus payments to our named executive officers in two installments, with the first installment paid in December 2012 and the second installment paid in March 2013, subject to certain exceptions. The Compensation Committee's decision to bifurcate payment of discretionary bonus awards was made in consultation with management in light of certain tax and cash management considerations, and was consistent with the timing of discretionary bonus payments to other officers and managers of the Company. Because Mr. Ryan resigned from the Company in January 2013, he only received a December 2012 discretionary bonus payment.

For 2012, the Compensation Committee awarded aggregate discretionary bonuses to our named executive officers as follows.

<i>Executive</i>	<i>2012 Discretionary Payment</i>
Mr. Pedersen	\$1,750,000
Mr. Phillips	\$450,000
Mr. Addeo	\$500,000
Mr. Varner	\$400,000
Mr. Ryan	\$300,000

The size of the discretionary awards for each of the named executive officers was determined based on the Compensation Committee's assessment of the individual officer's achievements for the year, particularly in light of circumstances and events that were not anticipated at the time the annual non-discretionary incentive opportunities for 2012 were finalized. The Compensation Committee considered the named executive officers' contribution to the execution of the Company's long-term strategy, in light of a challenging industry environment caused by continued federal government spending uncertainty that impacted the Company's strategic priorities and financial results. In addition to the factors discussed below, in determining whether discretionary bonus payments for our named executive officers were appropriate, the Compensation Committee considered the role of each executive in the planning and oversight of the reorganization of the Company's business groups (as described in the Executive Summary above). The discretionary awards were used, as designed, to capture and reward individual performance that the non-discretionary component of our incentive compensation program did not capture and to address the current retention needs of the Company.

Ø *Corporate Named Executive Officers*

Mr. Pedersen (CEO)

was awarded the discretionary payment referenced above in consideration of his continued strategic leadership of the Company, including his direction and management of the Company-wide focus on strategy, alignment and planning in the current constrained budget environment; the Company's achievement of a 90% contract re-compete win rate; and sustainment of the Company's excellent cash management. Mr. Pedersen also led the completion of strategic acquisitions that provided the Company with access to new opportunities in the cyber and healthcare markets.

Mr. Phillips (CFO)

was awarded the discretionary payment referenced above in consideration of his contribution to the Company's strong operating cash flows; efforts to monitor and control indirect costs; and maintenance of a strong and flexible balance sheet that can support the Company's positioning in a challenging environment. Mr. Phillips also led the restructuring of certain indirect functions to support increased effectiveness and consistency of the Company's support processes.

Ø *Business Group Presidents*

Mr. Addeo (TSG)

was awarded the discretionary payment referenced above in consideration of his continued effective leadership of the Company's largest business group, as evidenced by the successful re-compete of the Company's largest contract; the achievement of key contract awards for additional C4ISR work; the contributions of his business group to the Company's record backlog; and by an increase in his group's prime contract mix. Mr. Addeo also oversaw certain actions aimed at enhancing the Company's strategic long-term positioning in the market, including the entry into strategic partnering arrangements that augment the Company's ability to pursue new work.

Mr. Varner (MCIS)

was awarded the discretionary payment referenced above in consideration of his group's achievement of significant contract awards supporting long-term priority programs for key customers, as well as contract awards that provide the Company with expansion opportunities in new markets, and advancement of the Company's organic growth objectives, as evidenced by an increase in qualified pipeline opportunities for 2013. Mr. Varner also led his business group in the completion of an acquisition that expands the Company's cyber capabilities.

Mr. Ryan (EMG)

was awarded the discretionary payment referenced above in consideration of his group's efforts to establish a platform for the Company's healthcare business, including the completion of strategic acquisitions, the award of key ID/IQ contracts with important customers, and the enhancement of the Company's positioning by increasing qualified near-term pipeline opportunities in adjacent markets and high growth markets. Mr. Ryan also held a valuable leadership role in the Company's efforts to identify and pursue emerging and priority technologies, capabilities and markets in an increasingly uncertain budget environment.

In light of these factors, the Compensation Committee determined that the size of the discretionary awards to each of the named executive officers was appropriate.

Long-Term Incentives

We provide long-term incentives to our named executive officers primarily through annual equity grants in the form of stock options. The grants are designed to align the interests of our named executive officers with those of our stockholders and provide these executives with a significant incentive to manage the Company from the perspective of an owner with an equity stake in the Company. The Compensation Committee makes all equity grants to our named executive officers.

We generally use stock options as long-term incentives because stock options provide value to our executives only if our stock price increases. Standard features of stock option awards granted to our named executive officers generally include the following:

- Ø Vesting in equal annual installments over three years, beginning on first anniversary of grant date

- Ø Accelerated vesting on death or disability

- Ø Granted on one of four quarterly grant dates each year

- Ø Exercise price equal to the closing price of our stock on Nasdaq on the grant date

- Ø Expiration of the award five years from the date of grant

Generally, the amount of an annual option grant to a named executive officer is based on the executive's personal performance and the performance of any business group for which the executive

was responsible in the last fiscal year. The amount of the grant may also depend on the executive's position, responsibilities, and current base salary, as well as on internal pay equity considerations, the need to attract or retain the executive, and whether the executive has been recently promoted or hired. On occasion, the Compensation Committee may also consider the number of options or shares held by the executive with the goal of maintaining an appropriate level of equity incentive for that individual. However, the Compensation Committee does not adhere to any specific guidelines with respect to the level of stock or option holdings of our named executive officers.

Historically, we have granted options to our named executive officers in March of each year, consistent with the timing of our grants to our other employees. Beginning in 2012, in consultation with management and consistent with a decision to bifurcate annual stock option grants to Company employees generally, the Compensation Committee determined that option grants to our named executive officers should be made in two tranches in order to vary the timing of the realization of benefits from long-term incentive awards. Accordingly, a portion of the options was granted on our regular quarterly grant date in March and the remainder was granted on our regular quarterly grant date in November. We expect to continue the practice of bifurcating annual option grant awards for future years.

The March option grants were awarded as follows: Mr. Phillips received 15,000 stock options, Mr. Addeo received 20,000 stock options, and Messrs. Varner and Ryan each received 12,500 stock options. The November option grants were as follows: Mr. Phillips received 30,000 stock options, Mr. Addeo received 40,000 stock options, and Messrs. Varner and Ryan each received 25,000 stock options.

Consistent with past practice, because of the level of Mr. Pedersen's stock ownership as Company founder, the Compensation Committee determined that Mr. Pedersen would not receive any equity grants in 2012.

Employee Benefits and Perquisites

Our named executive officers participate in the same employee benefit programs as other employees. We do not have any supplemental retirement plan paid for by the Company for our named executive officers.

Our executive perquisites generally involve limited expenses, payment of certain insurance premium costs, and payments for car allowances or the use of Company cars. Mr. Pedersen is entitled to receive certain contributions and other benefits under the terms of his retention agreement, as described below. We do not provide any tax gross ups with respect to perquisites provided to our named executive officers.

Agreements with Our Named Executive Officers

CEO Compensation and Retention Agreement

The Compensation Committee determines the compensation of the CEO based on the terms of his retention agreement and the Compensation Committee's evaluation of the same factors applied to the other named executive officers. For 2012, as has been the case historically, our CEO's total annual cash compensation was materially greater than the annual cash compensation for our other named executives because of Mr. Pedersen's responsibilities for the overall strategy of our Company, his active role in the operations of the Company, and in recognition that Mr. Pedersen does not participate

in any equity-based compensation programs due to his substantial stock holdings. Mr. Pedersen does not participate in either our ESOP or 401(k) Plan, and the Company no longer maintains a non-qualified retirement plan on his behalf.

We entered into a retention agreement with our CEO at the time of our initial public offering in 2002 for the purpose of providing stable management following the offering. The retention agreement is for an indefinite term, and provides for an annual base salary of at least \$1,000,000, to be reviewed annually by the Company and established for the upcoming year based substantially on the same factors and general compensation policies applicable to the Company's other named executive officers. The retention agreement provides that Mr. Pedersen is entitled to receive contributions to qualified and non-qualified retirement plans, insurance programs, and perquisites on the same terms they have been provided in previous years, including items such as the lease of an executive type of vehicle for business and personal use, a portion of an employee's time spent on non-corporate matters on behalf of Mr. Pedersen (including attending to chauffeur/valet services and other assistance as required from time to time), and club memberships.

If we terminate Mr. Pedersen's employment without cause, we are required to pay Mr. Pedersen a lump sum amount equal to one year's base salary at the rate in effect immediately prior to his termination (\$2,000,000 for 2012). Mr. Pedersen agrees not to compete with us and not to solicit our customers or employees during the term of his employment and through a severance period.

Other Matters

Say-on-Pay

The Compensation Committee has considered the final results of our most recent shareholder advisory vote on the compensation of our named executive officers (Say on Pay), which occurred at our 2011 Annual Meeting of Stockholders, and determined that no changes to our executive compensation policies or decisions should be made in response to the vote. Our next Say on Pay vote will be held at the Company's 2014 Annual Meeting of Stockholders.

Tax and Accounting Considerations

We have considered the potential impact of Section 162(m) of the Internal Revenue Code of 1986, as amended (Section 162(m)), in structuring our executive compensation program. Generally, the value of the stock options and the non-discretionary payments to our named executives under our annual incentive compensation program are fully deductible under Section 162(m). To the extent we pay a named executive officer annual compensation in the form of salary, discretionary or retention bonuses, and/or grants of non-performance-based restricted stock in excess of \$1 million in the aggregate, such amounts are generally non-deductible (other than payments to our CFO, all of whose compensation is fully deductible under Section 162(m)). Whether or not compensation will be deductible under Section 162(m) is considered by the Compensation Committee in making compensation determinations; however, it is generally not a decisive factor with respect to the Compensation Committee's compensation determinations. The Compensation Committee's policy is to pay our executives in the manner that it believes is in the best interests of the Company. This has in the past, and will likely in the future, result in the payment of compensation to our named executive officers that is not tax deductible.

Recovery of Incentive Payments

We are subject to the requirements of Section 304 of the Sarbanes Oxley Act of 2002, which provides for the recovery of certain incentive compensation payments made to our CEO or CFO in the event of an accounting restatement arising because of material non-compliance with financial reporting requirements due to misconduct. We have never had occasion to recover an incentive compensation payment to our CEO or CFO under this provision, and have not established any other policy regarding the forfeiture or recovery of incentive compensation. We expect to implement a clawback policy in accordance with the requirements of Section 954 of the Dodd-Frank Wall Street Reform and Consumer Protection Act and the implementing regulations and standards adopted by the SEC and national securities exchanges thereunder.

Hedging and Short Term Speculative Transactions

We prohibit any company personnel, including our named executive officers, from engaging in any short-term, speculative securities transactions involving Company securities, including buying or selling put or call options, trading in options (other than those granted by the Company), engaging in hedging or monetization transactions, engaging in short sales, and holding securities in margin accounts or pledging securities as collateral.

- Ø The Bonus column is used to report discretionary bonus amounts paid under our annual incentive program, as well as other bonus payments we made to our named executives.

¹ Bonus payments reported in this column represent discretionary bonus payments made under our annual incentive compensation program. For 2011, the amount shown in this column for each of Messrs. Addeo, Varner and Ryan also includes a one-time \$250,000 retention bonus payment.

² The amounts in this column reflect the aggregate grant date fair value of each stock option award, as computed in accordance with ASC Topic 718, *Compensation - Stock Compensation*. See Note 10 to the Financial Statements in ManTech's 2012 Annual Report on Form 10-K for the valuation method for options granted in 2012. The options granted in 2012 are also reported in the Grants of Plan-Based Awards table on page 36.

³ All Other Compensation for 2012 consists of the following amounts: (a) matching contributions made to the ManTech 401(k) Plan in the amounts of \$7,740, \$8,891, \$12,687, and \$7,693 for Messrs. Phillips, Addeo, Varner, and Ryan, respectively (Mr. Pedersen voluntarily did not participate in the Company's 401(k) Plan in 2012); (b) contributions to the Employee Stock Ownership Plan in the amount of \$1,556 for each of Messrs. Phillips, Addeo, Varner and Ryan (Mr. Pedersen does not participate in the Company's Employee Stock Ownership Plan); (c) payments of life insurance premiums of \$675 for Mr. Pedersen and \$1,350 for each of Messrs. The perquisites for Mr. Pedersen consist of: (i) \$105,536 for the portion of the total cost to the Company of employees' time spent on non-corporate matters on behalf of Mr. Pedersen (primarily as a driver), (ii) \$58,425 for tax preparation fees, (iii) legal fees, (iv) automobile expenses, and (v) a club membership. The perquisites for Mr. Addeo consist of: (i) medical and dental insurance premiums, (ii) automobile expenses, and (iii) a club membership. The perquisites for Mr. Varner consist of: (i) automobile expenses, and (ii) a club membership. The perquisites for Mr. Ryan consist of: (i) medical and dental insurance premiums, and (ii) automobile expenses. For employees' time, the cost is determined by using the employee's salary and overhead costs for the year to calculate an hourly cost and allocating that cost based on the percentage of time spent on these matters compared to the employee's total time. preparation fees, the amount reported is the dollar amount paid by the Company.

COMPENSATION RISK MANAGEMENT

Management reviews the Company's overall compensation structure (taking into account such factors as the overall mix of compensation, the performance metrics that are used under the Company's incentive programs, the length of the performance periods under such programs, and the overall relationship of the Company's compensation programs to the Company's business risk) annually, or whenever the Company considers new compensation policies or programs for its employees. Management periodically reports the results of its evaluation to the Compensation Committee, including any findings of risk related to the Company's compensation structure, as well as any factors that may mitigate the risk posed by the particular compensation policy or program. The Compensation Committee considers management's conclusions in fulfilling its responsibilities with respect to the Company's executive compensation program. Based on management's assessment, the Company has concluded that its compensation policies and procedures do not create risks that are reasonably likely to have a material adverse effect on the Company.

AUDIT COMMITTEE REPORT

The Audit Committee reviews ManTech's financial reporting process on behalf of the Board. Management has the primary responsibility for establishing and maintaining adequate internal financial controls, for preparing the financial statements, and for the public reporting process. Deloitte & Touche LLP (D&T), the Company's independent registered public accounting firm for 2012, is responsible for expressing an opinion on the conformity of the financial statements with generally accepted accounting principles. Additionally, D&T is responsible for expressing an opinion on the effectiveness of the Company's internal control over financial reporting.

In this context, we have reviewed and discussed with both management and the independent registered public accounting firm the Company's audited financial statements, management's assessment of the effectiveness of the Company's internal control over financial reporting, and D&T's evaluation of the Company's internal control over financial reporting, in each case for the year ended December 31, 2012. The Audit Committee has discussed with D&T those matters required to be discussed by statement on Auditing Standards No. 61, *Communication with Audit Committees*, as amended, and as adopted by the Public Company Accounting Oversight Board in Rule 3200T.

D&T has provided us with the written disclosures and the letter from the independent registered public accounting firm pursuant to applicable requirements of the Public Company Accounting Oversight Board regarding the independent public accounting firm's communications with the Audit Committee concerning independence. The Audit Committee has discussed with D&T the auditor's independence from the Company and its management. The Audit Committee has concluded that D&T's provision of audit and non-audit services to the Company is compatible with D&T's independence.

Based upon the considerations, reviews, and discussions referred to above, we recommended to the Board of Directors (and the Board of Directors approved) the inclusion of the audited financial statements for the year ended December 31, 2012 in the Company's Annual Report on Form 10-K for 2012.

PROPOSAL 2

**RATIFICATION OF APPOINTMENT OF
INDEPENDENT AUDITORS**

The Audit Committee of the Board of Directors is responsible for selecting and appointing our independent registered public accounting firm. The Audit Committee has appointed the firm of Deloitte & Touche LLP to serve as our independent registered public accounting firm for the fiscal year ending December 31, 2013, subject to the ratification of such appointment by our stockholders at the Annual Meeting. Although stockholder approval is not required by our bylaws or otherwise, we are submitting the appointment of D&T for ratification in order to obtain the views of our stockholders.

In the event our stockholders fail to ratify the appointment, the Audit Committee will reconsider its appointment. Even if the selection is ratified, the Audit Committee may, in its discretion, appoint a different independent registered public accounting firm at any time during the year if the Audit Committee believes that a change would be in the best interests of the Company and its stockholders.

In appointing D&T as our independent registered public accounting firm for the fiscal year ending December 31, 2013, the Audit Committee considered whether D&T's provision of non-audit services to the Company is compatible with maintaining the auditor's independence.

D&T served as our independent registered public accounting firm in 2012. We expect that representatives of D&T will be present at the Annual Meeting, and will be available to respond to appropriate questions. Those representatives will also have an opportunity to make a statement or comment on the financial statements if they wish to do so.

Policy Regarding Audit Committee Pre-Approval of Audit and Permitted Non-Audit Services

Our Audit Committee charter incorporates the Audit Committee's policies for pre-approval of audit and permitted non-audit services performed by our independent registered public accounting firm. The requirement for pre-approval, in part, allows us to assess whether the provision of such services might impair the independence of our independent registered public accounting firm.

The Audit Committee approves the annual audit services engagement and (if necessary) any material changes in terms, conditions, and fees resulting from changes in audit scope or other matters.

The chairman of the Audit Committee has been authorized by the Audit Committee to pre-approve any services arising during the year that were not pre-approved by the Audit Committee at the time of the annual audit services engagement. Services that are pre-approved by the Audit Committee chairman are then communicated to, and ratified by, the full Audit Committee at the Audit Committee's next regularly scheduled meeting.

For each proposed service, the independent registered public accounting firm is required to provide back-up documentation detailing the service. The Audit Committee regularly reviews summary reports provided to us by our independent auditor. During 2012, all services performed by D&T were approved by the Audit Committee pursuant to the Audit Committee's pre-approval policies.

CERTAIN RELATIONSHIPS AND RELATED PERSON TRANSACTIONS

Review and Approval of Transactions with Related Persons

The Audit Committee has established a policy and associated procedures for the review, approval, and monitoring of all transactions involving the Company and Related Parties (the Policy). Under the Policy, a Related Party is any director, executive officer, director nominee, 5% or greater beneficial owner of the Company's stock, or an immediate family member of any of these people. With certain exceptions that are detailed in the Policy, a Related Party Transaction is any arrangement, transaction or relationship in which the Company (or any of its subsidiaries) is a participant and any Related Party has or will have a direct or indirect interest (other than solely as a result of being a director or less than 10% beneficial owner of another entity).

Under the Policy, the Audit Committee is responsible for reviewing and approving all Related Party Transactions. If a director is involved in the proposed transaction, he or she will not participate in discussions and decisions about the proposed transaction. In determining whether to approve a proposed Related Party Transaction, the Audit Committee will take into account, among other factors:

- Ø the material facts and circumstances of the transaction (such as the nature of the Related Party's interest, the value of the proposed transaction, the benefit of the transaction to the Company, and whether the transaction is on terms comparable to an arms-length transaction);
- Ø any potential impact on a director's independence; and
- Ø public disclosure issues, including any anticipated public perception issues related to the disclosure.

If the Audit Committee approves a Related Party Transaction, and the transaction is anticipated to be continuing, the Audit Committee may establish guidelines for management to follow in those continuing dealings with the Related Party. In such cases, the Audit Committee is responsible for periodically (and at least annually) reviewing and assessing the ongoing relationships to ensure they comply with the Audit Committee's guidelines and that the Related Party Transaction remains appropriate. Additionally, the Audit Committee has adopted certain standing approvals for some common Related Party Transactions involving *de minimis* amounts (including certain types of compensation decisions for employees who are family members of Related Parties and charitable contributions to entities that have relationships with Related Parties) that fall below the minimum threshold for public disclosure.

The Policy requires that transactions in excess of the minimum threshold for disclosure in our proxy statement under the relevant SEC rules shall be disclosed in accordance with the applicable laws, rules, and regulations.

SECTION 16(A) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Exchange Act requires our officers and directors, and persons who own more than 10% of our equity securities, to file reports of ownership and changes in ownership with the SEC, and to furnish us with copies of such Section 16 reports.

Based solely upon our review of copies of such reports furnished to the Company, and written representations from our officers and directors that all reportable transactions were reported, we believe that, except as noted below, our officers, directors, and 10% stockholders complied with their Section 16(a) filing obligations for 2012 and timely filed all reports required to be filed pursuant to Section 16(a) for 2012.

During 2012, Mr. Richard Armitage, a member of our Board of Directors, informed the Company that one report relating to one transaction (which occurred during November 2011) had not been timely filed. Such report was subsequently filed with the SEC on May 14, 2012.

STOCKHOLDER PROPOSALS

In order for a stockholder proposal to be considered for inclusion in our proxy statement for our 2014 Annual Meeting of Stockholders pursuant to Rule 14a-8(e) of the Exchange Act, the proposal must be received by our Corporate Secretary at 12015 Lee Jackson Highway, Fairfax, VA 22033-3300, no later than December 2, 2013. The stockholder proposal, including any accompanying supporting statement, may not exceed 500 words. Notice of any stockholder proposal to be submitted outside of the Rule 14a-8 process mentioned above must be received by our Corporate Secretary between December 2, 2013 and January 31, 2014 in order to be considered timely. As to all such matters for which we do not receive notice on or prior to that date, discretionary authority to vote on such proposal shall be granted to the persons designated in our proxy relating to the 2014 Annual Meeting of Stockholders. However, if we determine to change the date of the 2014 Annual Meeting of Stockholders by more than 30 days from May 9, 2014, we will provide stockholders with a reasonable time before we begin to print and mail our proxy materials for the 2014 Annual Meeting of Stockholders, so that our stockholders have an opportunity to make proposals in accordance with the rules and regulations of the SEC.
