OPERATING AND FINANCIAL REVIEW AND PROSPECTS AS OF SEPTEMBER 30, 2013

I

Table of Contents

TELECOM ARGENTINA S.A.

Services revenues amounted to \$17,614 (+21.2% vs. 9M12) and represented 88.8% of consolidated revenues (vs. 90.7% in 9M12). Equipment revenues increased 48.4%, amounting to \$2,213 and represented 11.2% of consolidated revenues (vs. 9.3% in 9M12).

Fixed services

During 9M13, services revenues generated by this segment amounted to \$5,065, +\$709 or 16.3% vs. 9M12, where Internet revenues have grown the most (+\$385 or 26.7% vs. 9M12), followed by data transmission services (+\$158 or 29.9% vs. 9M12) and voice retail services (+\$131 or 7.1% vs. 9M12).

Voice

Voice retail revenues amounted to \$1,969 in 9M13 (+7.1% vs. 9M12). The results of this line of business are still affected by frozen tariffs of regulated services. Revenues from regulated services reached approximately 33% of the segment revenues in 9M13 (vs. 38% in 9M12).

Monthly Charges and Supplementary Services increased \$65 or 8.5% vs. 9M12, to \$833, as a consequence of an increase in supplementary services (not regulated), mainly due to an increase of their prices and, to a lesser extent, to the increase in the subscriber base.

Revenues generated by measured services (Local Measured Service, Domestic Long Distance and International Long Distance services) amounted to \$1,029, (+\$61 or 6.3% vs. 9M12), mainly due to the increase in the commercialization of domestic plans and domestic long distance services. In relative terms, revenues from local measured service and domestic long distance measured service increased the most with 6.5% and 7.8%, respectively, vs. 9M12.

Voice wholesale revenues (including fixed and mobile interconnection revenues and lease of circuits, together with the revenues generated by the subsidiary Telecom USA amounting to \$53) amounted to \$583 in 9M13 (+6.4% vs. 9M12). Interconnection fixed and mobile revenues amounted to \$407. The other wholesale revenues amounted to \$176 in 9M13 (+\$13 or 8.0% vs. 9M12).

Internet

Internet revenues amounted to \$1,827 (+\$385 or 26.7% vs. 9M12) mainly due to the expansion of the Broadband service (+3.5% of customers vs. 9M12) and an increase in average prices resulting in an improvement in the Average Monthly Revenue per User (ARPU), that amounted to \$121.4 pesos per month in 9M13 vs. \$99.2 pesos per month in 9M12. As of September 30, 2013, Telecom Argentina reached approximately 1,669,000 ADSL customers. These connections represent approximately 40.5% of Telecom Argentina's fixed lines in service (vs. 38.9% in 9M12).

Internet revenues represent 9.2% of consolidated revenues (similar to 9M12) and 36.1% of Fixed Services segment revenues (vs. 33.1% in 9M12).

Data

Data transmission revenues amounted to \$686 (+\$158 vs. 9M12), where the focus was to strengthen Telecom Argentina's position as an integrated TICs provider (Datacenter, VPN, among others) for wholesale and government segments. The increase was mainly due to the growth of *Integra* and VPN IP services (private data networks services that replace the point to point services) in the retail segment, to the growth of IP traffic in the wholesale segment and to the growth of Datacenter services' monthly charges and transmission services, especially of *Housing* services and value added services transmission.

Personal Mobile Services

During 9M13, total services revenues amounted to \$11,762, +\$2,189 or 22.9% vs. 9M12, being the principal business segment in revenues terms (59.3% and 59.7% of consolidated revenues in 9M13 and 9M12, respectively). Personal reached 19.9 million subscribers in Argentina (+5.0% vs. 9M12) maintaining the leadership in revenues in the mobile industry. Approximately 68% of the subscriber base is prepaid subscribers and 32% is postpaid subscribers (including Cuentas Claras' plans and Mobile Internet dongles).

Voice

Voice retail revenues amounted to \$3,548 in 9M13 (+9.2% vs. 9M12). The increase was mainly due to the increase in the lines billed, the increase in the monthly charges prices and to an increase in the subscriber base, specially Cuentas Claras' subscribers.

Voice wholesale revenues amounted to \$1,419 in 9M13 (+8.7% vs. 9M12). The increase was mainly due to higher TLRD traffic, to an increase in roaming sales in the national segment and to the increase of mobile leases, mainly due to new agreements and to the renegotiation of the existing ones.

OPERATING AND FINANCIAL REVIEW AND PROSPECTS AS OF SEPTEMBER 30, 2013

Table of Contents**TELECOM ARGENTINA S.A.****Internet**

Mobile Internet revenues amounted to \$1,405 (+\$515 or 57.9% vs. 9M12). This increase is mainly explained by the increase in consumption of Personal s subscribers, which was mainly fueled by the increase in the offer of services, plans and packs (including VAS) launched by Personal. This growth was fueled by new subscribers and the migration of existing ones to higher-value plans, partially offset by the revenues decrease generated by the decrease of Mobile Internet dongles subscribers.

Data

Mobile data services revenues amounted to \$5,390 (+\$1,262 or 30.6% vs. 9M12). This increase was mainly due to the constant SMS sales increase as a result of several campaigns launched by Personal and especially the growth of the offers of SMS with contents, which represented an inter-annual increase of \$1,005. This increase was reflected both in prepaid and postpaid subscribers and is mainly due to the increase in average prices and, to a lesser extent, to the increase in the subscriber base.

As a consequence of the increase in the use of VAS (Internet and data), ARPU increased to \$66.1 pesos per month in 9M13 (vs. \$55.8 pesos per month in 9M12).

VAS revenues (data and Internet) amounted to \$6,795 (+35.4% vs. 9M12) and represented 57.8% of the services revenues of Personal Mobile Services segment (vs. 52.4% in 9M12).

Núcleo Mobile Services

This segment generated services revenues equivalent to \$787 during 9M13 (+\$182 or 30.1% vs. 9M12) mainly due to the increase in the subscriber base (+6.0%), to the appreciation of the Guaraní respect to the Argentine peso (+18% inter-annual) generating a positive effect in revenues conversion and the increase of Mobile Internet revenues (+78.7% vs. 9M12) related to the increase of subscribers traffic that have mobile equipment prepared for that purpose. As of September 30, 2013, Núcleo s subscriber base reached 2.4 million customers. Prepaid and postpaid subscribers (including Plan Control subscribers and mobile Internet subscribers) represented 80% and 20% in 9M13, respectively.

VAS revenues (data and Internet) amounted to \$427 (+41.4% vs. 9M12) and represented 54.3% of Núcleo Mobile Services segment services revenues (vs. 49.9% in 9M12).

Equipment

Revenues from equipment amounted to \$2,213, +\$722 or 48.4% vs. 9M12. This increase is mainly related to the Personal Mobile Services segment with an increase of \$701 vs. 9M12. The increase was mainly due to an increase in the handset s average prices (+73.1% vs. 9M12), partially offset by lower handsets sold (-14.3% vs. 9M12). This situation was mainly generated by a subsidy reduction policy, the increase in average prices related to higher-value handsets demand, the business strategy to attract high-value subscribers, a decrease in discounts as a result of the finalization of commercial promotions and lower retail revenues. In the Núcleo Mobile Services segment the increase

was mainly due to a higher number of handsets sold as a result of higher-value handsets and the launch of targeted promotions to capture new subscribers and retaining existing ones, associated to the effect of the appreciation of the Guaraní respect to the Argentine peso.

Operating costs

Consolidated operating costs including depreciation, amortization and gain on disposal of PP&E and impairment of PP&E amounted to \$16,590 in 9M13, which represented an increase of \$3,352 or +25.3% vs. 9M12. The increase in costs is mainly a consequence of a higher revenues, higher expenses related to competition in mobile and Internet businesses, higher direct and indirect labor costs on the cost structure of the Group in Argentina, the increase in taxes, especially by the increase in the average rates of the turnover tax, the increase in provisions related to regulatory matters, the increase in provisions related to claims and other regulatory contingencies, the increase of VAS costs and the effect of the appreciation of the Guaraní (+18% inter-annual) respect to the Argentine peso, affecting the operations in Paraguay.

The costs breakdown is as follows:

Employee benefit expenses and severance payments

Employee benefit expenses and severance payments amounted to \$2,996 (+\$628 or 26.5% vs. 9M12). The increase was mainly due to increases in salaries agreed by Telecom Argentina with several trade unions for the unionized employees and also to non-unionized employees, together with related social security charges. With a total headcount of 16,660 by the end of 9M13, slightly lower than 9M12 between employees and eventual employees, lines in service per employee reached 373 in the Fixed Services segment (slightly higher than 9M12), subscribers per employee reached 3,839 in the Personal Mobile Services segment (+4.3% vs. 9M12) and subscribers per employee reached 5,547 (+6.4% vs. 9M12) in the Núcleo Mobile Services segment.

Interconnection costs and other telecommunication charges

Interconnection costs and other telecommunication charges (including charges for TLRD, Roaming, Interconnection costs, cost of international outbound calls and lease of circuits) amounted to \$1,386 (+\$172 or 14.2% vs. 9M12)

mainly due to higher traffic volume in the domestic market.

Fees for services, maintenance, materials and supplies

Fees for services, maintenance, materials and supplies amounted to \$1,877 +\$314 or 20.1% vs. 9M12. The increase was mainly due to higher maintenance costs of radio bases, systems and buildings in the mobile services segments as a result of an increase in technical assistance cost of radio bases, higher system licenses maintenance costs and higher costs of building maintenance. There were also increases in other maintenance costs and fees for services, mainly due to higher costs recognized to suppliers in all segments.

Taxes and fees with the Regulatory Authority

Taxes and fees with the Regulatory Authority (including turnover tax, IDC, municipal and other taxes) amounted to \$1,954 (+34.4% vs. 9M12), influenced mainly by the increase in revenues of fixed and mobile services, higher equipment sales and higher average rates of the turnover tax in Autonomous City of Buenos Aires, Córdoba, Chaco, Jujuy and Mendoza.

Commissions

Commissions (including Agent, distribution of prepaid cards and other commissions) amounted to \$1,974 (+\$334 or 20.4% vs. 9M12), mainly due to the increase in commercial agents commissions (associated to higher revenues) as a result of higher customer acquisition and retention, higher cards sales and prepaid recharges and the increase in collections.

In the other hand, agent commissions capitalized as SAC amounted to \$367, +\$149 or 68.3% vs. 9M12 and is directly related to the increase in the postpaid subscribers base in the Personal Mobile Services segment and the increase in the commissions prices.

Cost of equipment and handsets

Cost of equipments and handsets amounted to \$2,392 (+\$497 or 26.2% vs. 9M12) mainly due to an increase in the average unit cost of sales related to higher-value handsets (+44.8% vs. 9M12) and to a decrease in the handsets sold (-14.3% vs. 9M12) in the Personal Mobile Services segment.

OPERATING AND FINANCIAL REVIEW AND PROSPECTS AS OF SEPTEMBER 30, 2013

Table of Contents

TELECOM ARGENTINA S.A.

On the other hand, SAC deferred costs from handsets sold to postpaid and Cuentas Claras subscribers amounted to \$223, -\$151 or -40.4% vs. 9M12. The lower capitalized amount was mainly due to the significant reduction of subsidies provided to customers in the Personal Mobile Services segment (7% in 9M13 vs. 24% in 9M12).

Advertising

Advertising amounted to \$452 (-\$23 or -4.8% vs. 9M12), mainly due to a reduction in the commercial campaigns of Personal and Arnet as compared to 9M12.

Cost of VAS

Cost of VAS amounted to \$503 (+\$292 vs. 9M12), mainly due to the increase of VAS sales in the Personal Mobile Services segment (mainly the SMS service) as a consequence of several campaigns launched by Personal and especially a higher offer oriented to the consumption of SMS with contents.

Provisions

Provisions amounted to \$225, +\$113 or 100.9% vs. 9M12. The increase was mainly due to higher regulatory and municipal claims (\$82 vs. 9M12) and higher civil and commercial claims (\$41 vs. 9M12), partially offset by lower labor claims (-\$10 vs. 9M12).

Bad debt expenses

Bad debt expenses amounted to \$221 (+\$3 vs. 9M12), representing approximately 1.1% and 1.4% of consolidated revenues in 9M13 and 9M12, respectively. The increase was mainly observed in Núcleo Mobile Services segment as a consequence of higher aging of the accounts receivables.

Recovery of restructuring costs

Recovery of restructuring costs amounted to \$8 in 9M13 and is related to the finalization of the Restructuring Plan initiated by the Telecom Group in the last quarter of 2012.

Other operating costs

Other operating costs amounted to \$917 (+\$160 or 21.1% vs. 9M12). The increase was mainly due to higher prices on related services, especially in transportation, freight and travel expenses, among others, in the operations in Argentina; and the increase of rent prices, as a result of new agreements and the renegotiation of some of the existing ones.

Operating income before depreciation and amortization

Operating income before depreciation and amortization amounted to \$5,554 in 9M13 (+\$828 or 17.5% vs. 9M12), representing 28.0% of consolidated revenues in 9M13 (vs. 29.5% in 9M12). This growth was mainly fueled by the Personal Mobile Services segment (+\$723 or +22.2% vs. 9M12).

Depreciation and amortization

Depreciation and amortization amounted to \$2,130 (+\$203 or 10.5% vs. 9M12). The increase in PP&E depreciation amounted to \$122, the increase in amortization of SAC and service connection costs amounted to \$79 and the increase in amortization of other intangible assets of amounted to \$2. The increase in depreciation and amortization corresponds 29% to the Fixed Services segment and 71% to the mobile services segments.

Gain on disposal of PP&E and impairment of PP&E

Gain on disposal of PP&E amounted to \$11, +\$7 vs. 9M12, and is mainly related to the Fixed Services segment. Impairment of PP&E amounted to \$172 in 9M13 and is mainly related to the discontinuation of a commercial system of Personal (amounting to \$50) and to the impairment of certain PP&E items related to some projects undertaken by Telecom Argentina with the public sector and the private sector that present uncertainty regarding their development and future associated cash flows (amounting to \$122).

Operating income

Operating income amounted to \$3,263 in 9M13 (+\$460 or +16.4% vs. 9M12). The margin over consolidated revenues represented 16.5% in 9M13 (vs. 17.5% in 9M12). Personal Mobile Services segment shows the higher increase (+\$571 vs. 9M12).

OPERATING AND FINANCIAL REVIEW AND PROSPECTS AS OF SEPTEMBER 30, 2013

Table of Contents**TELECOM ARGENTINA S.A.****Financial results, net**

Financial results, net resulted in a net gain of \$377, representing an improvement of \$218 vs. 9M12. This was mainly due to higher financial interest on time deposits (including interests on related parties) and other investments (+\$255 vs. 9M12), higher gains on mutual funds (+\$32 vs. 9M12) and higher interests on receivables (+\$23 vs. 9M12), partially offset by a higher foreign currency exchange loss of \$102.

Net income

Telecom Argentina reached a net income of \$2,361 in 9M13, +\$438 or +22.8% when compared to 9M12. Net income attributable to Telecom Argentina amounted to \$2,324 in 9M13, +\$433 or +22.9% as compared to 9M12.

Net financial assets

As of September 30, 2013, Net financial assets (Cash and Cash Equivalents plus financial investments minus Financial debt) amounted to \$5,684, showing an increase of \$2,987 as compared to September 30, 2012 (amounting to \$2,697), mainly due to an increase in the generation of cash from operating activities of the Telecom Group. The Fixed Services segment shows a financial asset of \$1,093, the Personal Mobile Services segment shows a financial asset of \$4,745 and the Núcleo Mobile Services segment shows a net financial debt of \$154.

Capital expenditures (CAPEX)

CAPEX composition for 9M13 and 9M12 is as follows:

	In millions of \$		% of participation		Variation	
	9M13	9M12	9M13	9M12	\$	%
Fixed Services	1,256	924	43%	42%	332	35.9
Personal Mobile Services	1,409	1,139	49%	52%	270	23.7
Núcleo Mobile Services	231	124	8%	6%	107	86.3
Total CAPEX	2,896	2,187	100%	100%	709	32.4

PP&E CAPEX amounted to \$2,249 and intangible assets CAPEX amounted to \$647 in 9M13, while in 9M12 amounted to \$1,545 and \$642, respectively.

In relative terms, CAPEX represented 15% of consolidated revenues in 9M13 (14% in 9M12), and were intended mainly for the External wiring and network access equipment, Transmission and Switching equipment, Computer equipment and SAC.

PP&E and intangible assets additions (CAPEX plus materials additions) for 9M13 and 9M12 are as follows:

	In millions of \$		% of participation		Variation	
	9M13	9M12	9M13	9M12	\$	%
Fixed Services	1,440	1,035	47%	45%	405	39.1
Personal Mobile Services	1,413	1,139	46%	50%	274	24.1
Núcleo Mobile Services	236	120	7%	5%	116	96.7
Total additions	3,089	2,294	100%	100%	795	34.6

Main PP&E CAPEX projects are related to the expansion of fixed broadband services in order to improve transmission and speed available to customers; deployment of 3G services to support the growth of mobile Internet together with the launch of innovative VAS services and the expansion of transmission and transport networks to meet the growing demand of services of our fixed and mobile customers.

8. Outlook

In this fiscal year the growth prospects for fixed line services are expected to continue in line with the evolution experienced in recent years as a result of the market maturity. Arnet Broadband business got well-positioned to continue to capture market opportunities.

The mobile business is expected to continue expanding its subscriber base, although at more moderate rates than those of recent years. Mobile Internet is expected to continue to gain further presence among our customer base, especially as a result of the leadership of Personal in the smartphone's commercialization. Value Added Services are expected to continue to be one of the key sources of revenues growth. Personal is expected to continue expanding customers enjoying the mobile Internet experience, although the access restriction to additional spectrum faced by the mobile operators in the national market. Coverage expansion and speed access improvement to 3G and HSDPA+ networks, and an important and complete portfolio of advanced mobile devices will be the drivers to success in our operation in the Argentine market.

The strategy implemented by the Company's Management sets and our investments plans forth the basic standards that will enable the Telecom Group to reach its objectives of improving quality of service, strengthening its market position and increasing operating efficiency to meet the growing demands of the dynamic telecommunication market. The Telecom Group's innovation and investment plans are based on this future vision and on its commitment to its country and people.

NOTE 1 BASIS OF PREPARATION OF THE UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS AND SIGNIFICANT ACCOUNTING POLICIES

a) Basis of preparation and significant accounting policies

These consolidated financial statements have been prepared in accordance with RT 26 (which adopted IFRS as issued by the IASB) as adopted by the CPCECABA, and as required by the CNV.

For the preparation of these consolidated financial statements, the Company has elected to make use of the option provided by IAS 34, so, these consolidated financial statements do not include all the information required in an annual financial statement, and must be read jointly with the 2012 annual consolidated financial statements which can be consulted at the Company's website (www.telecom.com.ar/inversores).

For the preparation of these consolidated financial statements, the Company followed the same accounting policies applied in its most recent annual consolidated financial statements issued according to IFRS with the exception of:

1) The valuation of Pension benefits included in Other non-current liabilities

In connection with these pension benefits granted to Telecom Argentina's unionized employees, the Company has applied IAS 19 revised (Employee Benefits), issued by the IASB in June 2011, which introduced modifications related to the recognition of actuarial gains and losses, the presentation of changes in assets and liabilities arising from defined benefit plans (which should be presented within OCI), as well as greater disclosure requirements for defined benefit plans. IAS 19 revised is mandatory for periods beginning on or after 1 January 2013. The adoption of this standard would generate a reduction of \$0.2 in Retained Earnings at the beginning of year 2013 with charge to OCI. Based on materiality grounds for the Telecom Group, the opening balance of Retained Earnings has not been changed and the provisions of the new standard have been applied in the determination of fiscal year 2013 results of operations.

2) Acquisition of treasury shares

In connection with the Treasury Shares Acquisition Process described in Note 7 to the consolidated financial statements, the Company has applied the guidance set forth in IAS 32, which provides, consistently with the CNV Regulations, that any instruments of its own equity acquired by the Company must be recorded at the acquisition cost and must be deducted from Equity under the caption Treasury shares acquisition cost. No profit or loss resulting from holding such instruments of own Equity shall be recognized in the income statement. If the treasury shares are sold, the account Treasury shares acquisition cost shall be recorded within Equity under the Treasury shares negotiation premium caption. If such difference is negative, the resulting amount shall be recorded within Equity under the Treasury shares negotiation discount caption.

3) *Government bonds issued in foreign currency*

During June and July 2013, Personal acquired bonds issued by the National Government. Although such bonds are carried at amortized cost, as explained in Note 3 Significant Accounting Policies of the most recent annual consolidated financial statements, they are denominated in US Dollars and they bear interest in such foreign currency. The internal rate of return used to apply the amortized cost method has been estimated on the basis of the US Dollar cash flows that will be generated by these securities at maturity and their fair value at acquisition. The acquisition cost in US Dollars was adjusted by applying the above mentioned rate and the resulting value was translated into Argentine pesos using the exchange rate as of the date of measurement. The currency exchange difference generated by such Government bonds was recorded in item Foreign currency exchange losses .

The preparation of these consolidated financial statements in conformity with IFRS requires the Company s Management to use certain critical accounting estimates. Actual results could differ from those estimates.

Table of Contents

TELECOM ARGENTINA S.A.

These consolidated financial statements (except for cash flow information) are prepared on an accrual basis of accounting. Under this basis, the effects of transactions and other events are recognized when they occur. Therefore income and expenses are recognized at fair value on an accrual basis regardless of when they are perceived or paid. When significant, the difference between the fair value and the nominal amount of income and expenses is recognized as finance income or expense using the effective interest method over the relevant period.

These consolidated financial statements have also been prepared on a going concern basis, as there is a reasonable expectation that Telecom Argentina and its subsidiaries will continue its operational activities in the foreseeable future (and in any event with a time horizon of more than twelve months).

Publication of these consolidated financial statements for the period ended September 30, 2013 was approved by resolution of the Board of Directors meeting held on October 30, 2013.

b) Financial statement formats

The financial statement formats adopted are consistent with IAS 1, In particular:

the consolidated statements of financial position have been prepared by classifying assets and liabilities according to current and non-current criterion. Current assets and liabilities are those that are expected to be realized/settled within twelve months after the period-end;

the consolidated income statements have been prepared by classifying operating expenses by nature of expense as this form of presentation is considered more appropriate and representative of the specific business of the Group as evaluated by the Management, and are in line with the industrial sector of telecommunications;

the consolidated statements of comprehensive income include the profit or (loss) for the period as shown in the consolidated income statement and all components of other comprehensive income;

the consolidated statements of changes in equity have been prepared showing separately (i) profit (loss) for the period, (ii) other comprehensive income (loss) for the period, and (iii) transactions with owners in their capacity as owners (controlling and non-controlling);

the consolidated statements of cash flows have been prepared by presenting cash flows from operating activities according to the indirect method, as permitted by IAS 7.

These consolidated financial statements contain all material disclosures required under IAS 34. Some additional disclosures required by the LSC and/or by the CNV have been also included, among them, complementary information required in the last paragraph of Article 1 Chapter III Title IV of the CNV General Resolution No. 622/13. Such information is disclosed in Notes 2 and 6 to these consolidated financial statements, as admitted by IFRS.

c) Segment reporting

An operating segment is defined as a component of an entity that engages in business activities from which it may earn revenues and incur expenses, and whose financial information is available, held separately, and evaluated regularly by the Chief Executive Officer (CEO).

Operating segments are reported in a consistent manner with the internal reporting provided to the CEO, who is responsible for allocating resources and assessing performance of the operating segments at the net income (loss) level and under the accounting principles effective (IFRS) at each time for reporting to the Regulatory Bodies. The accounting policies applied for segment information are the same for all operating segments.

Information regarding segment reporting is included in Note 4.

d) Net income per share

The Company computes net income per common share by dividing net income for the period attributable to Telecom Argentina (Controlling Company) by the weighted average number of common shares outstanding during the period. Diluted net income per share is computed by dividing the net income for the period by the weighted average number of common and dilutive potential common shares then outstanding during the period. Since the Company has no dilutive potential common stock outstanding, there are no dilutive earnings per share amounts.

Table of Contents**TELECOM ARGENTINA S.A.**

For the three-month and nine-month periods ended September 30, 2012, the weighted average number of shares outstanding totaled 984,380,978 shares. For the three-month and nine-month periods ended September 30, 2013 the weighted average number of shares outstanding totaled 977,392,863 and 981,858,007 shares, respectively. The weighted average number of shares takes into account the weighted average effect of the changes caused by the Treasury Shares Acquisition Process that began in May 2013. For further information, see Note 7 to the consolidated financial statements.

Moreau de Justo 50 11th Floor Autonomous City of Buenos Aires, holds 54.74% of the Company's capital stock, which allows it to control the Company pursuant to Section 33 of Law No. 19,550. Such percentage is made up of 100% of the Class A shares (51% of the Company's aggregate shares) and 7.64% of the Class B shares (3.74% of the Company's aggregate shares).

As a result of the Company's Treasury Shares Acquisition Process described in Note 7.b) Acquisition of Treasury Shares, as of September 30, 2013, Nortel's equity interest in Telecom Argentina amounts to 55.35% of the outstanding shares. Pursuant to Section 221 of the LSC, the rights of treasury shares shall be suspended until such shares are sold, and shall not be taken into account to determine the quorum or the majority of votes at the Shareholders' Meetings.

All of the common shares of Nortel belong to Sofora. As of September 30, 2013 these shares represented 78.38% of the capital stock of Nortel.

b) Related parties

Related parties (as described in IAS 24) are those legal entities or individuals which are related to the indirect shareholders of the Company.

Under IAS 24, Telefónica, S.A. (of Spain) and its controlled companies, including Telefónica de Argentina S.A. and Telefónica Móviles de Argentina S.A. are not considered related parties. As of the date of these consolidated financial statements, such situation has been confirmed by the commitments assumed before the Argentine Antitrust Commission (or the CNDC) to ensure the separation and independence between the Telecom Italia Group and the Telecom Group, on one hand, and Telefónica S.A. (of Spain) and its controlled companies, on the other, with respect to their activities in the Argentine telecommunications market, such as it has been corroborated by the applicable authorities.

The Telecom Group has transactions in the normal course of business with certain related parties. For the periods presented, the Group has not conducted any transactions with executive officers and/or persons related to them.

The Board of Directors approved transactions representing more than 1% of the total shareholders' equity of the Company, after being approved by the Audit Committee in compliance with Decree No. 677/01 and Law No. 26,831.

e) Key Managers

Compensation for the Key Managers, including social security contribution, amounted to \$45 and \$38 for the nine-month periods ended September 30, 2013 and 2012, respectively, and was recorded as expenses under the item line "Employee benefits expenses and severance payments". The total expense remuneration is comprised as follows:

	Three-month periods ended		Nine-month periods ended	
	September 30,		September 30,	
	2013	2012	2013	2012
Salaries (*)	6	5	20	15

(*) Gross compensation. Social security and income tax retentions are in charge of the employee. As of September 30, 2013 and 2012, an amount of \$17 and \$19 remained unpaid, respectively.

As of September 30, 2013 and 2012, the Telecom Group has recorded a \$12 and \$5 provision, respectively, for the fees of the Company's and Telecom Argentina's Board of Directors members. The members and alternate members of the Board of Directors do not hold executive positions in the Company or Company's subsidiaries.

NOTE 6 COMMITMENTS AND CONTINGENCIES OF THE TELECOM GROUP**a) Purchase commitments**

The Company has entered into various purchase orders amounting in the aggregate to approximately \$5,264 as of September 30, 2013 (of which \$2,299 corresponds to PP&E commitments), primarily related to the supply of switching equipment, external wiring, infrastructure agreements, inventory and other service agreements.

b) Contingencies

The Telecom Group is a party to several civil, tax, commercial, labor and regulatory proceedings and claims that have arisen in the ordinary course of business. In order to determine the proper level of provisions, Management of the Company, based on the opinion of its internal and external legal counsel, assesses the likelihood of any adverse judgments or outcomes related to these matters as well as the range of probable losses that may result from the potential outcomes. A determination of the amount of provisions required, if any, is determined after an analysis of each individual case.

The determination of the required provisions may change in the future due to new developments or unknown facts at the time of the evaluation of the claims or changes as a matter of law or legal interpretation. Consequently, as of September 30, 2013, the Telecom Group has recorded provisions in an aggregate amount of \$1,339 to cover potential losses under these claims (\$85 for regulatory contingencies deducted from assets and \$1,254 included under provisions) and certain amounts deposited in the Company's bank accounts have been restricted as to their use due to some judicial proceedings. As of September 30, 2013, these restricted funds totaled \$46 (included under Other receivables item line in the consolidated statement of financial position).

Table of Contents

TELECOM ARGENTINA S.A.

Telecom Argentina's capital stock amounts to \$984,380,978, and is represented by an equal number of ordinary shares, \$1 Argentine peso of nominal value and entitled to one vote per share. As of September 30, 2013 all the shares are fully paid.

The Company's shares are authorized by the CNV, the Buenos Aires Stock Exchange (the BCBA) and the New York Stock Exchange (the NYSE) for public trading. Only Class B shares are traded since Nortel owns all of the outstanding Class A shares and Class C shares are dedicated to the employee stock ownership program.

Each ADS represents 5 Class B shares and are traded on the NYSE under the ticker symbol TEO.

(b) Acquisition of Treasury Shares

The Company's Ordinary Shareholders' Meeting held on April 23, 2013, which was adjourned until May 21, 2013, approved at its second session of deliberations, the creation of a Voluntary Reserve for Capital Investments of \$1,200, granting powers to the Company's Board of Directors to decide its total or partial use, and to approve the methodology, terms and conditions of such investments.

In connection with the above mentioned, on May 22, 2013, the Board of Directors has approved the following terms and conditions of the Company's Treasury Shares Acquisition Process in the market in Argentine pesos so as to avoid any possible damages to the Company and its shareholders derived from fluctuations and unbalances between the shares' price and the Company's solvency:

Maximum amount to be invested: \$1,200 million.

Maximum amount of shares subject to the acquisition: the amount of Class B ordinary shares of the Company, \$1 Argentine peso of nominal value and with one vote each, that may be acquired with the maximum amount to be invested, which amount may never exceed a limit of 10% of the capital stock.

Price to be paid by share: between a minimum of \$1 Argentine peso and a maximum of \$32.50 Argentine pesos by share. The maximum price to be paid by share may be modified by the Company's Board of Directors.

Deadline for the acquisitions: until April 30, 2014.

The Company's Board of Directors, on its meeting held on August 29, 2013, modified the terms and conditions only regards the price to be paid by share, which resulted to be between a minimum of \$1 Argentine peso and a maximum of \$40 Argentine pesos per share.

Pursuant to Section 67 of Law No. 26,831, the Company must sell its treasury shares within three years of the date of acquisition. Pursuant to Section 221 of the LSC, the rights of treasury shares shall be suspended until such shares are sold, and shall not be taken into account to determine the quorum or the majority of votes at the Shareholders Meetings. No restrictions apply to Retained Earnings as a result of the creation of a specific reserve for such purposes named Voluntary Reserve for Capital Investments .

As of September 30, 2013 the following treasury shares were acquired:

Transaction date	Treasury shares acquired (a)	Total cost (in millions)	Average cost per share
May 2013	105,800	3	\$ 26.49
June 2013	3,167,382	80	\$ 25.29
July 2013	3,013,883	75	\$ 24.99
August 2013	1,361,547	40	\$ 29.24
September 2013	3,135,542	112	\$ 35.56
Total	10,784,154	310	\$ 28.70

(a) Every share acquired was an ordinary Class B share, \$1 Argentine peso of nominal value. The accounting treatment of the above described transactions is disclosed in Note 1 a.2) to these consolidated financial statements.

NOTE 8 RESTRICTIONS ON DISTRIBUTION OF PROFITS

The Company is subject to certain restrictions on the distribution of profits. Under the LSC, the by-laws of the Company and rules and regulations of the CNV, a minimum of 5% of net income for the year in accordance with the statutory books, plus/less previous years adjustments and accumulated losses, if any, must be appropriated by resolution of the shareholders to a legal reserve until such reserve reaches 20% of the outstanding capital (common stock plus inflation adjustment of common stock).

NOTE 10 RECENT DEVELOPMENTS CORRESPONDING TO THE NINE-MONTH PERIOD ENDED SEPTEMBER 30, 2013 FOR THE TELECOM GROUP

1. Administrative sanctions in connection with Telecom Argentina and Personal service cuts

In the normal course of business, telecommunications service providers face the possibility of having incidents in their networks or other assets with different impacts on services provided. The Regulatory Framework that regulates the service provision of Telecom Argentina and Personal provides for the possibility of interruptions in the provision of the service and also contemplates exemptions of responsibility in case of unforeseen circumstances or force majeure. In particular, the List of conditions of the Mobile Telephony Service (approved by Decree No. 1,461/93) and the General Regulation of Individual Communications Service (approved by Resolution SC No. 60/96) provide for a penalty regime taking into account the period of the service interruption and releasing of any sanction for total service provision interruption for no more than 24 hours and for partial service provision interruptions for periods of less than 7 days. The Telecom Group companies seek the necessary actions to prevent such incidents, and, in case of any occurrence, ensure their resolution as soon as possible.

However, the CNC has recently initiated different administrative procedures against Telecom Argentina and Personal related to different network incidents, including some originated by cases of unforeseen circumstances or force majeure, imposing penalties of different amounts for the companies of the Telecom Group.

The more relevant administrative sanctions are as follow:

Date of the incident	Company	Approximate duration of the incident	Sanctions
06/12/2012	Telecom Argentina	2 ½ hours	Fine of approximately \$0.6 million.
Date of the incident	Company	Approximate duration of the incident	Sanctions
06/12/2012	Personal	2 ½ hours	Fine of approximately \$0.6 million and \$10 of reimbursement to each customer affected, with a penalty of \$4,690 for each day of delay in complying with the reimbursement.
03/08/2013	Personal	2 hours	Fine of \$6 million and \$30 of reimbursement to each customer affected, with a penalty of \$140,700 for each day of delay in complying with the reimbursement.
04/02/2013	Personal	Service provision affected by the flooding of La Plata city.	Fine of approximately \$2 million and \$60 of reimbursement to each customer affected, with a penalty of \$140,700 for each day of delay in complying with the reimbursement.
05/10/2013	Personal	10 hours	Fine of approximately \$0.6 million and a daily fine of \$ 1,407 per day of delay in complying with reporting required by the CNC with respect to the incident.

Table of Contents

TELECOM ARGENTINA S.A.

Telecom Argentina and Personal have filed their defenses against such penalty procedures in the administrative stage, exposing their arguments, based on which such procedures should be released. As of the date of these financial statements, these penalty procedures are not final. However, it cannot be assured that a favorable result will be obtained at the administrative stage.

2. *Resolution SC No. 1/13*

On April 8, 2013, Resolution SC No. 1/13 was published in the Official Bulletin, establishing that all mobile operators should guarantee the service provision, even in emergency situation or catastrophe, in which case the normal service provision must be restored in a maximum period of one hour. Mobile operators must, in all cases, prioritize the access to emergency services in the affected areas.

In addition, Resolution SC No. 1/13 established that mobile operators present within 45 days a Contingency Plan for emergency situations, for purposes of guaranteeing the continuity of services in such circumstances.

As of the date of these financial statements, Personal has appealed Resolution SC N° 1/13 exposing the arguments by which the mentioned resolution should be released. However, Personal has met its commitment to present a Contingency Plan for emergency situations.

3. *Profit sharing bonds*

Different legal actions were brought, mainly by former employees of the Company against the National Government and Telecom Argentina, requesting that Decree No. 395/92 which expressly exempted the Company from issuing the profit sharing bonds provided in Law No. 23,696 be struck down as unconstitutional and, therefore, claiming compensation for the damages they had suffered because such bonds had not been issued.

In those suits for which judgment has already been rendered, the trial court judges hearing the matter resolved to dismiss the actions brought and pointing that Decree No. 395/92 was valid and constitutional. However, in August 2008, the Supreme Court of Justice, when resolving a case against Telefónica, found the Decree No. 395/92 unconstitutional.

Since the National Supreme Court of Justice's judgment on this matter, the Divisions of the Courts of Appeal ruled that Decree No. 395/92 was unconstitutional. As a result, in the opinion of the legal counsel of the Company, there is an increased probability that the Company has to face certain contingencies, notwithstanding the right of reimbursement that attends Telecom Argentina against the National State.

Said Court decision found the abovementioned Decree unconstitutional and ordered to send the proceedings back to the court of origin so that said court could decide on which was the subject compelled to pay -licensee and/or National Government- and the parameters that were to be taken into account in order to quantify the remedies requested (percent of profit sharing, expiration criteria of the statute of limitations, distribution method between the program

beneficiaries, etc). It should be mentioned that there is no uniformity of opinion in the Courts in relation to each of those concepts. However, in connection with the claims brought by employees and former employees that were not part of the Share Ownership Plan (or SOP) at the time of ENTel privatization, the jurisprudence has rejected the claims.

As of September 30, 2013, the Company's Management, with the advice of its legal counsel, has recorded provisions for contingencies that it estimates are sufficient to cover the risks associated with these claims, having considered the legal background as of the date of these consolidated financial statements.

Additionally, on June 3, 2013 Telecom Argentina has been notified of a lawsuit filed by four unions claiming the issuance of a profit sharing bond (hereinafter the bond) for future periods and for periods for which the statute of limitations is not expired. In order that this claim will be sustained, the plaintiffs require that Decree No. 395/92 should be declared unconstitutional.

The Company, based on the advice of its legal counsel, believes that there are strong arguments to defend its rights based, among other things, in the expiration of the statute of limitations of the claim for the unconstitutionality of Decree No. 395/92, the lack of active legal standing for collective claim for bond issuance -due to the existence of individual claims-, among other reasons regarding lack of active legal standing.

This collective lawsuit is for an unspecified amount. However, the plaintiffs presented the criteria that should be applied for the determination of the percentage of participation in the Company's profit. On the other hand, the lawsuit requiring the issuance of a profit sharing bond represents an obligation with potential future economic impacts for Telecom Argentina.

In June 2013, the Company filed its arguments and opposed an incompetence petition to the labor courts, issue that has not been resolved as of the date of these financial statements.

Likewise, the Company's Management, based on the advice of its legal counsel, believes that this lawsuit should not proceed. However we cannot assure that it will be solved in our favor.

4. Impairment of PP&E

In June 2013, Personal assessed the recoverability of a group of assets recorded in PP&E related to an appraisal and billing system of postpaid subscribers. Taking into account the low performance of such system, and having not reached the goals expected, Personal's Management has decided to discontinue such system and has recorded an impairment loss in the amount of \$50 million, equivalent to its carrying amount.

In addition, in June 2013, Telecom Argentina has assessed the recoverability of certain PP&E items related to some projects undertaken with the public sector and the private sector. Based on the uncertainty of their performance and related future cash flows, the Company's Management has recorded an impairment loss in the amount of \$122 million. This write-down will be reassessed periodically.

Both impairment losses were recorded in Operating costs in item Impairment of PP&E .

5. Resolution SC N° 5/13

On July 2, 2013, SC Resolution No. 5/13 was published in the Official Bulletin. This Resolution approved a Telecommunication service quality regulation , establishing, among others, new quality parameters required for telecommunication services provided through mobile and fixed public networks, for all the operators in Argentina.

The implementation of this regulation is subject to the elaboration of the auditing and technical verification procedures to be developed by the CNC within 90 business days from the publication of the Resolution.

As of the date of these financial statements, Telecom Argentina and Personal Management is analyzing the effects that this new Resolution could have on its operations and its financial situation, as well as the actions that should be taken.

6. Salary agreements

In July 2013 Telecom Argentina concluded the salary negotiation process with various telecommunications unions for the period July 2013 – June 2014. Pursuant to the agreement reached, the unionized employees will receive in two installments, July 2013 and January 2014, different fixed amounts per category, representing an average annual raise of 25%. The increase corresponding to the first installment is approximately 15.5%, and has affected in approximately \$110 million Telecom Argentina's operating results in the third quarter of 2013. Telecom Argentina's operating results

in the fourth quarter of 2013 is estimated to be affected in approximately \$71 million.

7. Financial transactions to mitigate the currency exchange risk

Considering the fluctuations of the exchange rate between the US Dollar and the Argentine Peso during the nine-month period ended September 30, 2013 (+18%), and due to the existence of commercial commitments denominated in US Dollars, in June, July and August 2013 Personal entered into several NDF contracts to purchase a total amount of U\$S99 million maturing December 2013 and January 2014. The purpose of such NDF is to eliminate the risks associated to the future fluctuations of the exchange rate and to link the payment currency of Personal's commercial commitments (item covered) to its functional currency. Based on the NDF terms, this instrument has been designated as a cash flows hedge for financial reporting purposes, but the effectiveness requirements set forth in IAS 39 are not complied. As of September 30, 2013, changes in fair value of this NDF have generated a gain of approximately \$14, which was recorded in Other current receivables (counter entry in Financial results).

In addition, and with the purpose of mitigating the foreign currency exchange risk, in June and July 2013 Personal acquired Government bonds denominated in US Dollars (Bonar VII and Boden 2015), which bear an annual interest of 7%, also in US Dollars. Results for foreign currency exchange differences generated by such bonds were recorded in item Foreign currency exchange losses .

8. Regulation of Users of Mobile Communication Services

On September 9, 2013, the SC issued Resolution No.12/13, pursuant to the SC which created a citizen participation procedure to express opinions and proposals on the Project of Regulation of Users of Mobile Communication Services (attached to such Resolution as Exhibit I). As of the date of these financial statements such procedure is being carried out by means of various participation forums in various places in Argentina, allowing participants to submit written opinions before the CNC (or its delegations) through a form attached to the Resolution.

As of the date of these financial statements, Personal Management is analyzing the proposed project and its implications for the mobile industry.

9. Amendments to the Income Tax Law

On September 23, 2013, Law No. 26,893 was published in the Official Bulletin, incorporating amendments to the Income Tax in connection with, among others, the taxation of results derived from transfers of stocks and dividend distributions. It is expected that the law's scope will be clarified through regulations, which have not been published as of the date of these financial statements.

Results derived from transfers of stocks

As from the amendment's effective date, results derived from the transfer of shares, quotas and other equity interests, titles, bonds and other securities, are subject to Argentine income tax, regardless of the kind of beneficiary who realizes the gain.

However, results from the transfer of such securities are exempt from such income tax when the latter are listed on stock exchange markets (as in the case of Telecom Argentina's shares) and the gains are realized by individual or undivided estates residents in Argentina.

The results realized by nonresidents from the transfer of shares, quotas and other equity interests, titles, bonds and other securities are also subject to income tax. When both the seller and the buyer are nonresidents, the person liable to pay the tax shall be the buyer of the shares, quotas, equity interests and other securities transferred.

Dividend distributions

Dividends and other profits paid in cash or in kind except for stock dividends or quota dividends, by companies and other entities organized in Argentina referred to in Argentine Income Tax Law Sections 69 (a) (1), (2), (3), (6) and (7), and Section 69 (b), are subject to income tax at a 10% rate, except for dividends received by domestic companies and other domestic entities, which continue to be not subject to income tax (notwithstanding the applicability of the so called Equalization Tax). Dividends distributed to nonresidents shall be subject to a 10% withholding tax, as a unique and definitive payment. Consequently, any dividend distribution made by the Company to its shareholders shall be

subject to this broadened tax, except for those beneficiaries that are domestic corporate taxpayers sujetos empresa (such as, for instance, distributions made from Telecom Argentina to Nortel and those from Personal to Telecom Argentina and Nortel) and regardless of, if applicable, the so called Equalization Tax .

10. Information on changes in the stock participations in Telco S.p.A. (Telco)

As informed by Telecom Italia S.p.A. hereinafter TI in its latest Form 20-F, the Italian company Telco is one of its main shareholders, with a participation of the 22.39% of the voting shares of TI company that indirectly controls Telecom Argentina S.A. .

TELECOM ARGENTINA S.A.

On September 24, 2013, the Company's Management has become aware that Telefónica, S.A. (de España), hereinafter "Telefónica", informed to the market that such Spanish company and the other Telco shareholders reached an agreement with respect to the evolution of their shareholdings in Telco. On the same day, September 24, 2013, the Company issued a Relevant Fact notification pursuant to the CNV Rules, reproducing the information published by Telefónica. The pertinent portion of Telefónica's notification says as follows:

Telefónica and the remaining shareholders of the Italian company Telco, S.p.A. (which holds a capital stake of 22.4 % of the voting share capital of Telecom Italia S.p.A.) have reached an agreement by virtue of which:

As of today, Telefónica has subscribed for and paid out a capital increase in Telco, S.p.A., through the contribution of 323,772,468 euros in cash, receiving in return non-voting shares of Telco, S.p.A. As a result of this capital increase, the interest held by Telefónica in the voting share capital of Telco, S.p.A. remains unchanged (i.e. 46.18 %, as Telefónica currently holds), although its interest in the total share capital of Telco, S.p.A. is increased to 66%. The current governance at Telco, S.p.A.'s level remains unaffected, including the obligation by Telefónica of abstaining from participating or influencing in any decisions which could affect the markets in which both Telefónica and Telecom Italia S.p.A. are present.

Telco, S.p.A. will use the proceeds received from the capital increase to reduce its banking debt.

Subject to receiving any required anti-trust and telecommunications approvals (including in Brazil and Argentina), Telefónica will subscribe for and pay out a second capital increase in Telco, S.p.A., through the contribution of 117,227,532 euros in cash and receiving in return non-voting shares of Telco, S.p.A. As a result of this second capital increase, the interest of Telefónica in the voting share capital of Telco, S.p.A. will remain unchanged (i.e. 46.18 %, as Telefónica currently holds), although its interest in the total share capital will be then increased to 70%.

Telco, S.p.A. will use the proceeds received from the second capital increase to partially repay its notes.

Starting from January 1, 2014, subject to receiving any required relevant antitrust and telecommunications approvals (including in Brazil and Argentina), Telefónica may convert all or a portion of the non-voting shares in Telco, S.p.A. held by Telefónica, reaching a maximum of 64.9 % of the voting share capital of Telco, S.p.A.

The Italian shareholders of Telco, S.p.A. have granted to Telefónica a call option to acquire all of their shares in Telco, S.p.A., whose exercise is subject to receiving any required anti-trust and telecommunications approvals (including in Brazil and Argentina). The call option may be exercised

by Telefonica starting from January 1, 2014 while the Shareholders Agreement remains in effect, except (i) between June 1, 2014 and June 30, 2014 and between January 15, 2015 and February 15, 2015, and (ii) during certain periods, in case the Italian shareholders Telco, S.p.A. request the demerger of Telco, S.p.A.

The purchase price of the shares, payable in cash, will be based on the equity of Telco, S.p.A. at the end of the month prior to the closing. For this purpose, the value of the shares in Telecom Italia S.p.A. held by Telco, S.p.A. will be valued at the higher of: (i) 1.10 euros per share of TI, and (ii) the average closing trading price of the 30 days prior to the call option exercise notice.

As of today, Telefónica will acquire from the remaining Telco, S.p.A. s shareholders 23.8% of the non-convertible notes issued by Telco, S.p.A., in exchange of 39,021,411 Telefónica s treasury shares, which represent 0.9 % of its share capital. In this respect, the remaining Telco, S.p.A. s shareholders have committed: i) to refrain from selling the aforementioned shares during the next 15th business days, and ii) to assume some restrictions that, in case of sale, ensure an orderly sale of such shares.

Telefónica has assumed a standstill obligation under which Telefónica commits not to buy shares in Telecom Italia S.p.A. except if a third party acquires a relevant stake (10% or higher) in the aforementioned company.

Madrid, September 24, 2013.

Further information about Telco Commitment and TI-W Commitment can be consulted at www.telecom.com.ar/compromisos.

11. Increase in the Regulator s Penalty Activities

Telecom Argentina is subject to various penalty procedures, in most cases promoted by the Regulatory Authority, for delays in the reparation and installation of service to fix-line customers. Although generally a penalty considered on an individual basis does not have a material effect on Telecom Argentina s equity, there is a significant disproportion between the amounts of the penalty imposed by the Regulatory Authority and the revenue that the affected customer generates to Telecom Argentina.

During the first nine months of fiscal year 2013, the CNC significantly increased its penalty activities, increasing the amount of accusations and penalties, as well as the individual amount of each of the latter. In several cases the penalties imposed during this period have had twice the economic value of the penalties imposed to Telecom Argentina in previous fiscal years for the same alleged offences.

As a result of the above, and notwithstanding the defense arguments submitted by Telecom Argentina at the administrative level, losses recorded during the nine-month period ended on September 30, 2013 for contingencies of regulatory nature in Telecom Argentina have significantly increased, reaching an amount of \$97 (vs. \$37 in 9M12 or +162%), which is included in item Provisions in the Income Statement.

1. We have reviewed the accompanying condensed interim consolidated financial statements of Telecom Argentina S.A. (Telecom), and its subsidiaries, including the consolidated statement of financial position at September 30, 2013, the consolidated statements of income and comprehensive income for the three and nine-month periods ended September 30, 2013, the consolidated statements of changes in equity and of cash flows for the nine-month period then ended, and the selected explanatory notes. The balances and other information for the year 2012 and for the interim periods are an integral part of these financial statements and, therefore, they should be considered in relation to those statements.
2. The Company's Board of Directors is responsible for the preparation and presentation of these financial statements in accordance with International Financial Reporting Standards, adopted by the Argentine Federation of Professional Councils in Economic Sciences (FACPCE) as professional accounting standards and added by the National Securities Commission (CNV) to its regulations, as approved by the International Accounting Standard Board (IASB). Therefore, they are responsible for the preparation and presentation of the condensed interim consolidated financial statements mentioned in paragraph 1., in accordance with International Accounting Standard No. 34 Interim Financial Reporting (IAS 34). Our responsibility is to express a conclusion based on the review that we have performed with the scope detailed in paragraph 3.
3. Our review was limited to the application of the procedures established by Technical Pronouncement No. 7 of the Argentine Federation of Professional Councils in Economic Sciences for limited reviews of financial statements for interim periods which consist, mainly, of the application of analytical procedures on the amounts disclosed in the condensed interim consolidated financial statements and of inquiries of the Company staff responsible for the preparation of the information included in the condensed interim consolidated financial statements and its subsequent analysis. This review is substantially less in scope than an audit, the objective of which is to express an opinion on the financial statements under examination. Accordingly, we do not express an opinion on the Company's consolidated financial position, consolidated statement of comprehensive income and consolidated cash flows.

Table of Contents

4. Based on our review, nothing has come to our attention that causes us to believe that the condensed interim consolidated financial statements mentioned in paragraph 1. have not been prepared, in all material respects, in accordance with International Accounting Standard No. 34.

5. In accordance with current regulations, in connection with Telecom, we report that:
 - a) the condensed interim consolidated financial statements of Telecom are transcribed into the Inventory and Balance Sheet book and as regards those matters that are within our competence, they are in compliance with the provisions of the Commercial Companies Law and pertinent resolutions of the National Securities Commission;

 - b) the condensed interim separate financial statements of Telecom arises from accounting records kept in all formal respects in conformity with legal regulations;

 - c) we have read the Operating and financial review and prospects, on which, as regards those matters that are within our competence, we have no observations to make;

 - d) at September 30, 2013, the debt corresponding to withholdings and contributions to the Argentine Integrated Social Security System according to the Company's accounting records amounted to \$63,789,671.42, none of which was due at that date.
