(Attach extra Sheets if Needed)

Willbros Group, Inc. (the Company) has determined that it is unable to file its Form 10-K for the year ended December 31, 2014 within the prescribed time period without unreasonable effort or expense for the following reasons.

The Company does not expect to be in compliance with its Maximum Leverage Ratio and Minimum Interest Coverage Ratio for the period from March 31, 2015 through March 31, 2016. As a result, the Company is in discussions with its lenders regarding amendments and waivers to its credit agreements. Without a definitive waiver or amendment, all indebtedness under its credit agreements would become due in the next twelve months. If the debt under the Company's credit agreements becomes accelerated and the lenders demand repayment, it is expected that the Company will not have sufficient forecasted liquidity to retire its existing debt obligations, which raises substantial doubt on the Company's ability to continue as a going concern. The Company is engaged in discussions with its lenders with regard to any necessary waivers and amendments but gives no assurance that any such waivers and amendments will be finalized. As a result, the Company is unable to accurately evaluate and disclose the impact of significant risks and uncertainties associated with the Company, including its potential non-compliance with certain financial covenants. The Company has determined that a material weakness existed at December 31, 2014, over the assessment of significant risks and uncertainties associated with its ability to comply with financial covenants contained in its credit agreements, and over the assessment of its ability to meet its liquidity and capital resource needs

for a reasonable period of time primarily as a result of not reflecting certain business conditions timely and adequately in its forecast process.

As a result of the previously reported material weakness over the completeness and accuracy of estimated total revenues, costs and profits at completion for construction contracts accounted for under the percentage-of-completion method of accounting within its Oil & Gas segment, the Company undertook additional testing and review around the contract estimate process and is still finalizing its estimates related to certain long-term construction contracts.

The Company expects to file its Form 10-K for the year ended December 31, 2014 within the time period prescribed in Rule 12b-25 under the Securities Exchange Act of 1934.
