**Report of Independent Registered Public Accounting Firm**

To the Participants and Administrative Committee of

the Baxter Healthcare of Puerto Rico Savings and Investment Plan

Deerfield, Illinois

We have audited the accompanying statements of net assets available for benefits of the Baxter Healthcare of Puerto Rico Savings and Investment Plan ( the Plan ) as of December 31, 2014 and 2013, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2014 and 2013, and the changes in net assets available for benefits for the years then ended in conformity with U.S. generally accepted accounting principles.

The supplemental Schedule H, Line 4i Schedule of Assets (Held at End of Year) as of December 31, 2014 has been subjected to audit procedures performed in conjunction with the audit of the Baxter Healthcare of Puerto Rico Savings and Investment Plan's financial statements. The supplemental schedule is the responsibility of the Plan's management. Our audit procedures included determining whether the information presented in the supplemental schedule reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental schedule. In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. In our opinion, the supplemental schedule is fairly stated in all material respects in relation to the financial statements as a whole.

**Baxter Healthcare of Puerto Rico**

**Savings and Investment Plan**

**Notes to Financial Statements**

**December 31, 2014 and 2013**

**1. General Description of the Plan**

The following description of the Baxter Healthcare of Puerto Rico Savings and Investment Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document and summary plan description for more complete information. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan is a defined contribution plan which became effective on January 1, 1998. The Plan was created for the purpose of providing retirement benefits to Puerto Rico employees of Baxter Healthcare S.A., the Sponsor or the Company, a subsidiary of Baxter International Inc. (Baxter) and to encourage and assist employees in adopting a regular savings program by means of payroll deductions through a plan that qualifies under the applicable laws of both the Puerto Rico and the United States Internal Revenue Codes. Plan participants may authorize the Company to make payroll deductions under the Plan ranging from 1% to 50% of their pre-tax monthly compensation, limited to a maximum of \$15,000 a year in both 2014 and 2013. Participants who have attained the age of 50 by the end of the year may contribute up to an additional \$1,500 per year in catch-up contributions. Newly hired employees are deemed to have elected to contribute 3% of compensation unless they make a contrary election. The Company matches a participant's savings contributions at the rate of 50 cents for each dollar of a participant's pre-tax contribution, up to a maximum of 6% of a participant's compensation. The Company also contributes an additional non-matching 3% of compensation for employees that are not eligible to participate in the Company's Puerto Rico defined benefit pension plan, which includes all new employees hired on or after January 1, 2008. Participants are immediately vested in their elective contributions plus actual earnings thereon. Vesting in the Company's matching and non-matching contributions plus actual earnings thereon is based on years of service. The matching contributions vest in accordance with the following vesting schedule:

<b>Years of Service</b>	<b>Vesting %</b>
1	20%
2	40%
3	60%
4	80%
5 or more	100%

The additional non-matching contributions become fully vested after three years of service. Employees are fully vested in the Company's matching contributions and non-matching account, regardless of years of service with the Company, upon attaining age 65, upon becoming disabled in accordance with the provisions of the Plan or upon dying while employed by the Company. Forfeitures of nonvested accounts are used to reduce future Company contributions.

Participants may borrow from their vested accounts a minimum of \$500 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at the prime rate at the last day of the month prior to loan request, plus one percent.

Participants or their beneficiaries may elect lump-sum benefit payments, or benefits may be paid in installments. Shares of Baxter common stock may also be distributed in kind at the participant's election. Subject to certain provisions specified in the Plan agreement, employed participants may withdraw their pre-tax contributions (but not the earnings on the contributions) in cases of financial hardship. In the case of a participant termination by reason of death or disability, the entire vested amount is paid to the person or persons legally entitled thereto.

Each participant's account is credited with the participant's contributions and an allocation of the Company's contributions and Plan earnings, and is charged with his or her withdrawals and an allocation of Plan-related

**Baxter Healthcare of Puerto Rico**

**Savings and Investment Plan**

**Notes to Financial Statements**

**December 31, 2014 and 2013**

expenses. Allocations are based on participant earnings or account balances, as defined in the Plan document. The net income of the Plan is posted to the participant's accounts on a daily basis. Each participant directs the investment of his or her account to any of the investment options available under the Plan.

Upon enrollment in the Plan, a participant may direct contributions into any of 19 investment options: Stable Income Fund, Baxter Common Stock Fund, Composite Fund, General Equity Fund, State Street Global Advisors S&P 500 Flagship Fund (SSgA S&P 500 Fund), State Street Global Advisors International EAFE Equity Index Fund (SSgA EAFE Equity Fund), State Street Global Advisors Small Cap Fund (SSgA Small Cap Fund), Northern Trust Domestic Mid Cap Fund, State Street Global Advisors Emerging Markets Fund (SSgA Emerging Markets Fund) and ten different Target Date Retirement Funds. However, non-matching contributions may not be invested in the Baxter Common Stock Fund. In addition, certain participants maintain shares in Edwards Lifesciences Corporation. These shares were placed into the Edwards Lifesciences Common Stock Fund in connection with Baxter's 2000 spin-off of its cardiovascular business. Participants are not able to make contributions or transfer existing account balances to the Edwards Lifesciences Common Stock Fund, but may make transfers out of these funds at any time. Starting in 2013, participants are no longer able to make contributions to the Composite Fund and General Equity Fund, but may make transfers out of these funds at any time.

In March 2014, Baxter announced plans to create two separate, independent global healthcare companies—one focused on lifesaving medical products and the other on developing and marketing innovative biopharmaceuticals. The transition is intended to take the form of a tax-free distribution to Baxter shareholders of more than 80% of the publicly traded stock in the new biopharmaceuticals company (the spin). The transaction is expected to be completed by mid-year 2015, subject to market, regulatory and certain other conditions, including final approval by the Baxter Board of Directors, receipt of a favorable opinion and/or rulings with respect to the tax-free nature of the transaction in the United States, and the effectiveness of the Form 10 registration statement filed with the United States Securities and Exchange Commission.

**2. Summary of Significant Accounting Policies**

**Basis of Accounting**

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting. Accordingly, investment income is recognized when earned and expenses are recognized when incurred.

**Valuation of Investments and Collateral**

The fair value of Plan investments and collateral is determined as follows:

Cash and cash equivalents

These largely consist of a short-term investment fund and a money market fund, the fair value of which is based on the net asset value. The investment objectives for these funds are to provide safety for principal, daily liquidity and a competitive yield by investing in high quality instruments.

Common stock

Value based on closing prices on the valuation date in an active market on national securities exchanges.

## Edgar Filing: BAXTER INTERNATIONAL INC - Form 11-K

U.S. government and government agency issues

Value based on reputable pricing vendors that typically use pricing matrices or models.

Corporate and other obligations

Value based on reputable pricing vendors that typically use pricing matrices or models.

**Baxter Healthcare of Puerto Rico**

**Savings and Investment Plan**

**Notes to Financial Statements**

**December 31, 2014 and 2013**

Commingled funds	Value based on net asset values reported by the fund managers as of the Plan's financial statement dates and recent transaction prices. The investment objectives of certain funds are to track the performances of the S&P 500, Europe, Australasia and the Far East (EAFE), or Russell 2000 indexes. In addition, these funds include target date retirement funds, whose objective is to provide investors, who have a specific date in mind for retirement with a portfolio of investments. The underlying investments for all funds vary, with some holding diversified portfolios of domestic stocks, government agency and corporate bonds, and others holding collective investment funds. Each fund provides for daily redemptions by the Plan at reported net asset values per share, with no advance notice requirement.
Registered investment companies	Value based upon the closing price from a national security exchange on the valuation date.
Synthetic guaranteed investment contracts	Value based on the fair value of the underlying securities in the contract on the valuation date plus the fair value of the wrapper contracts, which is calculated using a replacement cost approach. The underlying securities are valued based upon the methodologies described above. In addition, this investment includes an individual separate account with Metropolitan Life Insurance Company (MetLife). The value of this separate account is based upon the unit value provided by MetLife as of the Plan's financial statement date plus the fair value of the wrapper contracts, which is calculated using a replacement cost approach. The underlying securities primarily of the account, managed by a sub-advisor of the insurance company, consist of fixed income securities. See below for more information.
Collateral held on loaned securities	Value based upon the net asset value per unit of the short-term investment funds where the collateral is invested. Refer to Note 7 for more information on the securities lending program.
Collateral to be paid on loaned securities	Value based on the fair value of the underlying securities loaned on the valuation date, plus an incremental margin.

**Income Recognition**

Plan investment return includes dividend and interest income, gains and losses on sales of investments and unrealized depreciation or appreciation of investments. Purchases and sales of investments are recorded on a trade date basis. Dividends are recorded on the ex-dividend date. Interest is earned on an accrual basis.

The financial statements reflect the net depreciation or appreciation in the fair value of the Plan's investments. This net depreciation or appreciation consists of realized gains and losses calculated as the difference between proceeds from a sales transaction and cost determined on a moving average basis, and unrealized gains and losses calculated as the change in the fair value between beginning of the year (or purchase date if later) and the end of the year.

**Baxter Healthcare of Puerto Rico**

**Savings and Investment Plan**

**Notes to Financial Statements**

**December 31, 2014 and 2013**

Synthetic Guaranteed Investment Contracts

The Plan holds synthetic guaranteed investment contracts (GICs) as part of the Stable Income Fund. The synthetic GICs provide for a fixed return on principal over a specified time through fully benefit-responsive contracts issued by Transamerica, Prudential and MetLife. During 2014, the GIC with Bank of America was terminated and the Plan entered into a new GIC with Prudential. During 2013, certain assets underlying the synthetic GICs were transferred to an individual separate account with MetLife. The portfolio of assets underlying the synthetic GICs primarily includes cash and cash equivalents, U.S. government and government agency issues, and corporate and other obligations.

The fair value of the synthetic GICs equals the total of the fair value of the underlying assets plus the fair value of the wrapper contracts. The fair value of the wrapper contracts is computed using a replacement cost approach that incorporates a comparison of the current fee rate on similar wrapper contracts to the fee being paid by the Plan. Using this approach, the fair value of the wrapper contracts were a loss of \$13 thousand and a loss of \$4 thousand at December 31, 2014 and 2013, respectively.

While Plan investments are presented at fair value in the Statement of Net Assets Available for Benefits, any material difference between the fair value of the Plan's direct and indirect interests in fully benefit-responsive investment contracts and their contract value is presented as an adjustment line in the Statements of Net Assets Available for Benefits, because contract value is the relevant measurement attribute for that portion of the Plan's net assets available for benefits. Contract value represents contributions, plus earnings, less participant withdrawals and administrative expenses. The wrapper contracts used by the Plan are fully benefit-responsive because the wrapper contract issuers are contractually obligated to make up any shortfall in the event that the underlying asset portfolio has been liquidated and is inadequate to cover participant withdrawals and transfers at contract value. There are currently no reserves against contract values for credit risk of the contract issuers or any other risk. The contract value for the synthetic GICs was \$20.5 million and \$19.3 million at December 31, 2014 and 2013, respectively.

The crediting interest rate, which is reset quarterly, can never fall below zero. The crediting rate formula smoothes the impact of interest rate changes on participant returns by amortizing any difference between market value and book value over a period of years equal to the duration of the portfolio benchmark. The average yield on the synthetic GICs was approximately 1.9% and 2.0% at December 31, 2014 and 2013, respectively. The average interest rate credited to participants on the synthetic GICs was approximately 2.8% and 2.7% for the years ended December 31, 2014 and 2013. The credit ratings for Transamerica were AA- at both December 31, 2014 and 2013, the credit rating for Prudential was AA- at December 31, 2014, the credit ratings for MetLife were AA- at both December 31, 2014 and 2013, and the credit rating for Bank of America was A at December 31, 2013.

Events that lead to market value withdrawals that exceed 15 percent of the GICs of Prudential and Transamerica or 10 percent of the contract value of the GIC of MetLife would limit the ability of the Plan to transact at contract value with participants. These events include restructurings, early retirement plans, divestitures, bankruptcies, or legal, tax or regulatory changes. The Plan sponsor believes that the occurrence of any such event is remote. The spin does not constitute an event under the GICs.

The wrapper providers can only terminate at a value different than contract value under an event of default (that was not remedied) such as failure to follow the terms of the contract. If a wrapper provider would like to exit the contract for another reason, the Plan can maintain the contract through an extended termination process designed to ensure continued benefit-responsive treatment for withdrawals.

**Baxter Healthcare of Puerto Rico**

**Savings and Investment Plan**

**Notes to Financial Statements**

**December 31, 2014 and 2013**

Notes Receivables from Participants

Participant loans are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participant's account balances.

Payment of Benefits and Fees

Benefits are recorded when paid. Loan origination fees associated with notes receivable from participants and the Plan's record keeping and trustee fees are paid by the Plan and are reflected in the financial statements as Plan expenses. Investment management fees are charged to the Plan as a reduction of investment return and included in the investment income (loss) reported by the Plan. All other expenses of the Plan are paid by the Company.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and related notes to the financial statements. Changes in such estimates may affect amounts reported in future periods.

Other

Due from brokers for securities sold represent the net cash value of security trades initiated but not yet settled at each respective year-end.

Risks and Uncertainties

The Plan provides for various investment options which invest in any combination of registered investment companies, U.S. government and government agency issues, corporate and other obligations, common stock, commingled funds, synthetic guaranteed investment contracts and short-term investments. Investment securities are exposed to various risks, such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits and the Statements of Changes in Net Assets Available for Benefits. Individual participants' accounts bear the risk of loss resulting from fluctuations in investment values.

Investments underlying the Plan's synthetic GICs include securities with contractual cash flows, such as asset-backed securities, collateralized mortgage obligations and commercial mortgage-backed securities, including securities backed by subprime mortgage loans (corporate and other obligations). The value, liquidity and related income of these securities are sensitive to changes in economic conditions, including real estate values, delinquencies and/or defaults, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates.

**3. Eligibility Requirements**

Employees become eligible to participate in the Plan as of the first day of the month following the completion of thirty days of employment. Eligible employees are those who meet the following requirements:

Edgar Filing: BAXTER INTERNATIONAL INC - Form 11-K

- A. Puerto Rico employees of the Puerto Rico Branch, or the Company, both subsidiaries of Baxter;
- B. Puerto Rico employees not covered by a collective bargaining agreement unless the agreement provides for coverage under the Plan;  
and
- C. Puerto Rico employees who are not leased employees.

**Baxter Healthcare of Puerto Rico**

**Savings and Investment Plan**

**Notes to Financial Statements**

**December 31, 2014 and 2013**

**4. Administration of the Plan**

Banco Popular de Puerto Rico (the Trustee) and State Street Bank and Trust Company (the Custodian) serve as trustee and custodian, respectively, for the Plan. Voya Institutional Plan Services, LLC, formerly ING Institutional Plan Services, LLC, serves as recordkeeper for the Plan.

The Administrative Committee administers the Plan. The Investment Committee has authority, responsibility and control over the management of the assets of the Plan. Members of both committees are appointed by the Board of Directors of Baxter and are employees of Baxter.

Substantially all investment manager, trustee and administrative fees incurred in the administration of the Plan were paid from the assets of the Plan.

**5. Fair Value of Measurements**

The fair value hierarchy under the accounting standard for fair value measurements consists of the following three levels:

Level 1 - Quoted prices in active markets that the Plan has the ability to access for identical assets or liabilities;

Level 2 - Quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuations in which all significant inputs are observable in the market; and

Level 3 - Valuations using significant inputs that are unobservable in the market and include the use of judgment by the Plan's management about the assumptions market participants would use in pricing the asset or liability.

## Liability

Collateral to be paid on loaned securities	\$	188	\$	26	\$	162	\$
--	----	-----	----	----	----	-----	----

Transfers between hierarchy measurement levels are recognized by the Plan as of the beginning of the reporting period. The fair value of commingled funds is valued based upon the net asset value of the underlying securities and is classified as Level 2. The Plan did not have any transfers between Levels 1 and 2 during 2014. In 2013, due to a change in the structure of the investment, the target date retirement funds are classified as commingled funds and classified as Level 2.

**Baxter Healthcare of Puerto Rico****Savings and Investment Plan****Notes to Financial Statements****December 31, 2014 and 2013**

The following table sets forth a summary of changes in the fair values of the Plan's level 3 financial instruments.

(in thousands)	Wrapper Contracts
<b>Balance at December 31, 2012</b>	\$ (26)
Additions	1
Unrealized gains (relating to assets held at end of year)	21
<b>Balance at December 31, 2013</b>	(4)
Additions	(3)
Settlements	(2)
Unrealized losses (relating to assets held at end of year)	(4)
<b>Balance at December 31, 2014</b>	\$ (13)

The unrealized losses from the wrapper contracts are excluded from the net appreciation reported for the Plan, but are instead reflected in the change in adjustment from fair value to contract value for fully benefit responsive contracts reported on the statements of net assets available for benefits. In 2014, the additions are due to the new contract with Prudential and the settlements are due to termination of the contract with Bank of America as detailed in Note 2. The additions in 2013 are due to the new contract with MetLife as detailed in Note 2.

See Valuation of Investments and Collateral in Note 2 above for a discussion of the methodologies used to determine the fair values of the Plan's investments and collateral. These methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

**6. Investments**

Investments representing five percent or more of the Plan's net assets available for benefits at December 31, 2014 and 2013 are summarized as follows:

(values in thousands, except per share)	2014	2013
Baxter common stock, 108,705 shares and 107,710 shares at December 31, 2014 and 2013, respectively	\$ 7,967	\$ 7,491
SSgA S&P 500 Fund	7,777	6,405
MetLife Individual Separate Account	5,121	4,783
SSgA Small Cap Fund	2,848	2,632

# Baxter Healthcare of Puerto Rico

## Savings and Investment Plan

### Notes to Financial Statements

#### December 31, 2014 and 2013

Investments as of December 31, 2014 and 2013 are segregated into various investment fund options as follows:

	2014	2013
(in thousands)		
Cash (available for investment)	\$ 171	\$ 135
Stable Income Fund	22,358	20,738
Baxter Common Stock Fund	8,021	7,584
Composite Fund	2,202	2,132
General Equity Fund	2,206	2,263
SSgA S&P 500 Fund	7,777	6,405
SSgA EAFE Equity Fund	2,387	2,298
Edwards Lifesciences Common Stock Fund	114	62
SSgA Small Cap Fund	2,849	2,632
Northern Trust Domestic Mid Cap Fund	323	145
SSgA Emerging Markets Fund	40	21
Target Date Retirement Funds	5,762	4,124
Collateral held on loaned securities	175	188
Total investments at fair value	54,385	48,727
Adjustment from fair value to contract value for Stable Income Fund	(1,279)	(1,023)
Total investments	\$ 53,106	\$ 47,704

Net appreciation (depreciation) in fair value for each significant class of investment, which includes realized and unrealized gains and losses, is as follows:

	2014	2013
(in thousands)		
Baxter common stock	\$ 419	\$ 324
Other common stock	327	949
U.S. government and government agency issues	23	(22)
Corporate and other obligations	7	(23)
Commingled funds	1,377	3,316
	\$ 2,153	\$ 4,544

#### 7. Securities Lending Transactions

The Plan participates in a securities lending program with the Custodian. The program allows the Custodian to loan securities, which are assets of the Plan, to approved brokers (the Borrowers).

## Edgar Filing: BAXTER INTERNATIONAL INC - Form 11-K

The Custodian requires the Borrowers, pursuant to a security loan agreement, to deliver collateral to secure each loan in an amount that is at least equal to the fair value of the securities loaned. The Plan bears the risk of loss with respect to any unfavorable change in fair value of the invested cash collateral. However, the Borrower bears the risk of loss related to the decrease in the fair value of the non-cash collateral and, therefore, would have to deliver additional securities to maintain the required collateral. In the event of default by the Borrower, the Custodian shall indemnify the Plan by purchasing replacement securities equal to the number of unreturned loaned securities, to the extent that such replacement securities are available on the open market and if to the extent that such proceeds are insufficient or the collateral is unavailable, the purchase of replacement securities shall be made at Trustee expense or, if replacement securities are not able to be purchased, the Custodian shall credit the Plan for the market value of the unreturned securities. In each case, the Custodian would apply the proceeds from the collateral for such a loan to make the Plan whole.

**Baxter Healthcare of Puerto Rico**

**Savings and Investment Plan**

**Notes to Financial Statements**

**December 31, 2014 and 2013**

The fair value of the investment of cash collateral received pursuant to securities lending transactions is reflected on the Statements of Net Assets Available for Benefits as an asset and the obligation to return the amount received is reflected as a liability.

As of December 31, 2014 and 2013, the Plan had securities on loan with a fair market of \$171 thousand and \$184 thousand, respectively, with cash collateral received of \$175 thousand and \$188 thousand, respectively, which was invested in the State Street Quality D Short-Term Investment Fund. Investments underlying this fund primarily consisted of cash and cash equivalents and asset-backed securities as of both December 31, 2014 and 2013, and the net asset value of this fund was approximately \$1.00 per unit. As of December 31, 2014 and 2013 the cash collateral received is reflected at its fair value of \$175 thousand and \$188 thousand in the 2014 and 2013 Statements of Net Assets Available for Benefits, respectively.

Non-cash collateral of \$6 thousand and \$23 thousand received for securities on loan at December 31, 2014 and December 31, 2013, respectively, consisted of U.S. government and government agency issues, equity securities, and corporate and other obligations held by the Custodian on behalf of the Plan. Non-cash collateral is not included with the collateral balance on the 2014 and 2013 Statement of Net Assets Available for Benefits because it may not be sold or repledged. A portion of the income generated upon investment of cash collateral is remitted to the Borrowers, and the remainder is allocated between the Plan and the Custodian in its capacity as a security agent. Securities lending income allocated to the Plan amounted to \$326 and \$422 for 2014 and 2013, respectively. Securities lending income is classified as interest income in the Statements of Changes in Net Assets Available for Benefits.

**8. Plan Termination**

Although it has not expressed any intent to do so, the Plan sponsor has the right under the Plan to reduce, suspend or discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminates, the interest of each participating employee in the Plan shall become fully vested and such termination of the Plan would not reduce the interest of any participating employee or their beneficiaries accrued under the Plan up to the date of such termination.

**9. Tax Status of the Plan**

As of August 13, 2012, the Puerto Rico Treasury Department has determined and informed the Plan sponsor that the Plan and the related trust are designed in accordance with applicable sections entitling exemption from income taxes. The Plan sponsor has also obtained a favorable determination letter dated October 22, 2011, from the Internal Revenue Service (IRS) stating that the Plan is in compliance with IRS regulations.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014 and 2013, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

**10. Parties-in-Interest**

## Edgar Filing: BAXTER INTERNATIONAL INC - Form 11-K

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others.

**Baxter Healthcare of Puerto Rico**

**Savings and Investment Plan**

**Notes to Financial Statements**

**December 31, 2014 and 2013**

At December 31, 2014 and 2013, the Plan held units of participation in certain shares of common stock of State Street Corporation, commingled funds and short-term investment funds of State Street Bank and Trust Company, the Plan's Custodian; shares of common stock, dividend income on those shares and bonds of Baxter, the Plan sponsor's parent; loans with participants; units of registered investment companies managed by Pacific Investment Management Company, an investment manager for the Plan; shares of common stock, bonds, and interest rate wrapper contracts of Prudential for 2014 only, issuer of the Plan's fully benefit-responsive contracts; interest rate wrapper contracts of Transamerica, issuer of the Plan's fully benefit-responsive contracts; and shares of common stock, bonds, an individual separate account and interest rate wrapper contracts of MetLife, issuer of the Plan's fully benefit-responsive contracts; and units of commingled funds managed by Northern Trust Corporation, an investment manager for the Plan. These transactions are allowable party-in-interest transactions under ERISA and the regulations promulgated thereunder.

Fees paid by the Plan for investment management, recordkeeping and consulting services, also qualify as party-in-interest transactions and are included in Plan expenses in the accompanying financial statements. The Company pays certain expenses for the administration of the Plan. These transactions are exempt from the party-in interest transaction prohibitions of ERISA.

**11. Subsequent Event**

In June 2015, Baxter announced that its board of directors had approved the planned separation of its biopharmaceuticals business, which will be known as Baxalta Incorporated(Baxalta), and declared a special dividend distribution of 80.5 percent of the outstanding shares of Baxalta common stock. Baxter will retain a 19.5 percent ownership stake in Baxalta immediately following the distribution. The distribution of Baxalta common stock in form of a special dividend has been structured to qualify as a tax-free distribution to U.S. holders of Baxter's common stock for U.S. federal income tax purposes. The distribution of Baxalta common stock will complete the proposed separation and Baxalta expects to begin trading as an independent company beginning July 1, 2015 on the New York Stock Exchange (NYSE) under the ticker symbol BXLT.

The Plan will continue after separation and all Plan balances will remain with the Plan.
