PART I

INTRODUCTION

Unless otherwise indicated, all references herein to Ericsson, the Company, the Group, we, us, or our or our subsidiaries are references to Telefonaktiebolaget LM Ericsson and its consolidated subsidiaries.

This document is our Annual Report on Form 20-F for the year ended December 31, 2015 (the 2015 Form 20-F). Reference is made to the English version of our Swedish Annual Report for 2015, with certain adjustments made to comply with U.S. requirements, which is attached hereto as Exhibit 15.1 (the 2015 Swedish Annual Report). Only (i) the information included in this 2015 Form 20-F, (ii) the information in the 2015 Swedish Annual Report that is incorporated by reference in this 2015 Form 20-F, and (iii) the exhibits to the 2015 Form 20-F that are required to be filed pursuant to the Form 20-F shall be deemed to be filed with the Securities and Exchange Commission for any purpose, including incorporation by reference into the Registration Statement on Form F-3 filed on May 8, 2015 (File No. 333-203977) and any other document filed by us pursuant to the Securities Act of 1933, as amended, which incorporates by reference the 2015 Form 20-F. Any information in the 2015 Swedish Annual Report that is not referenced in the 2015 Form 20-F or filed as an exhibit thereto shall not be deemed to be so incorporated by reference.

Certain industry, technical and financial terms used in this 2015 Form 20-F are defined in the subsections entitled Glossary and Financial Terminology of the 2015 Swedish Annual Report, which are incorporate herein by reference.

Market data and certain industry forecasts used herein were obtained from internal surveys, market research, publicly available information and industry publications. While we believe that market research, publicly available information and industry publications we use are reliable, we have not independently verified market and industry data from third-party sources. Moreover, while we believe our internal surveys are reliable, they have not been verified by any independent source.

The information included on www.ericsson.com and other websites that appear in this 2015 Form 20-F is not incorporated by reference herein. From time to time, we may use our website as a channel of distribution of material company information. Financial and other material information regarding our company is routinely posted on and accessible at www.ericsson.com.

Forward-Looking Statements

This 2015 Form 20-F includes forward-looking statements, including statements reflecting management s current views relating to the growth of the market, future market conditions, future events and expected operational and financial performance. The words believe, expect, foresee, anticipate, assume, intend, may, could, plan, forecast, will, should, predict, aim, ambition, target, might, or, in each case, their negative, and similar words are intended to help identify forward-looking statements.

Forward-looking statements may be found throughout this document, and include statements regarding:

our goals, strategies and operational or financial performance expectations;

development of corporate governance standards, stock market regulations and related legislation;

the future characteristics of the markets in which we operate;

projections and other characterizations of future events;

our liquidity, capital resources, capital expenditures, our credit ratings and the development in the capital markets, affecting our industry or us;

Table of Contents

the expected demand for our existing as well as new products and services;

the expected operational or financial performance of joint ventures and other strategic cooperation activities;

the time until acquired entities will be accretive to income;

technology and industry trends including regulatory and standardization environment, competition and our customer structure; and

our plans for new products and services including research and development expenditures.

Although we believe that the expectations reflected in these and other forward-looking statements are reasonable, we cannot assure you that these expectations will materialize. Because forward-looking statements are based on assumptions, judgments and estimates, and are subject to risks and uncertainties, actual results could differ materially from those described or implied herein.

Important factors that could affect whether and to what extent any of our forward-looking statements materialize include, but are not limited to:

Challenging global economic conditions and political unrest may adversely impact the demand and pricing for our products and services as well as limit our ability to grow.

We may not be successful in implementing our strategy or in achieving improvements in our earnings.

The telecommunications industry fluctuates and is affected by many factors, including the economic environment, and decisions made by operators and other customers regarding their deployment of technology and their timing of purchases.

Sales volumes and gross margin levels are affected by the mix and order time of our products and services.

We may not be able to properly respond to market trends in the industries in which we operate, including the ongoing convergence of the telecom, data and media industries, which may harm our market position relative to our competitors.

Our business depends upon the continued growth of mobile communications and the acceptance of new services. If growth slows or new services do not succeed, operators' investment in networks may

slow or stop, harming our business and operating results.

We face intense competition from our existing competitors as well as new entrants, including IT companies entering the telecommunications market, and this could materially adversely affect our results.

Vendor consolidation may lead to stronger competitors who are able to benefit from integration, scale and greater resources.

A significant portion of our revenue is currently generated from a limited number of key customers, and operator consolidation may increase our dependence on key customers. We also are significantly dependent on the sales of certain of our products and services both in core business and targeted areas.

Table of Contents

Certain long-term agreements with customers still include commitments to future price reductions, requiring us to constantly manage and control our cost base.

Growth of our managed services business is difficult to predict, and requires taking significant contractual risks.

We depend upon the development of new products and enhancements to our existing products, and the success of our substantial research and development investments is uncertain.

We engage in acquisitions and divestments which may be disruptive and require us to incur significant expenses.

We are in, and may enter into new, JV arrangements and have, and may have new, partnerships, which may not be successful and expose us to future costs.

We rely on a limited number of suppliers of components, production capacity and R&D and IT services, which exposes us to supply disruptions and cost increases.

Product or service quality issues could lead to reduced revenue and gross margins and declining sales to existing and new customers.

Due to having a significant portion of our costs in SEK and revenues in other currencies, our business is exposed to foreign exchange fluctuations that could negatively impact our revenues and operating results.

Our ability to benefit from intellectual property rights (IPR), which are critical to our business, may be limited by changes in regulation relating to patents, inability to prevent infringement, the loss of licenses to or from third parties, infringement claims brought against us by competitors and others and changes in the area of open standards, especially in light of recent attention on licensing of open standard essential patents.

We are involved in lawsuits and investigations which, if determined against us, could require us to pay substantial damages, fines and/or penalties.

Our operations are complex and several critical operations are centralized in a single location. Any disruption of our operations, whether due to natural or man-made events, may be highly damaging to the operation of our business.

Cyber security incidents may have a material adverse effect on our business, financial condition, reputation and brand.

We must continue to attract and retain highly qualified employees to remain competitive.

If our customers' financial conditions decline, we will be exposed to increased credit and commercial risks.

We rely on various sources for short-term and long-term capital for the funding of our business. Should such capital become unavailable or available in insufficient amounts or unreasonable terms, our business, financial condition and cash flow may materially suffer.

Table of Contents

Impairment of goodwill or other intangible assets may negatively impact financial condition and results of operations.

Ericsson may fail or be unable to comply with laws or regulations and could experience penalties and adverse rulings in enforcement or other proceedings. Compliance with changed laws or regulations may subject Ericsson to increased costs or reduced products and services demand. Compliance failure as well as required operational changes could have a material adverse impact on our business, financial condition and brand.

Our substantial international operations are subject to uncertainties which could affect our operating results.

We may fail to comply with our corporate governance standards which could negatively affect our business, operating results, financial condition, reputation and brand.

Failure to comply with environmental, health and safety regulations in many jurisdictions may expose us to significant penalties and other sanctions.

Potential health risks related to radiofrequency electromagnetic fields may subject us to various product liability claims and result in regulatory changes.

Regulations related to conflict minerals may cause us to incur additional expenses, and may make our supply chain more complex.

Our share price has been and may continue to be volatile, especially as technology companies, securities and markets as a whole remain volatile.

Currency fluctuations may adversely affect our share price or value of dividends.

Certain of these risks and uncertainties are described further in Item 3.D.Risk factors. We undertake no obligation to publicly update or revise any forward-looking statements included in this 2015 Form 20-F, whether as a result of new information, future events or otherwise, except as required by applicable law or stock exchange regulation.

ITEM 1. IDENTITY OF DIRECTORS, SENIOR MANAGEMENT AND ADVISERS

ITEM 2. OFFER STATISTICS AND EXPECTED TIMETABLE

Not applicable.

ITEM 3. KEY INFORMATION

A. Selected Financial Data

We present below certain selected financial data derived from our consolidated financial statements as of and for the years ended December 31, 2015, 2014, 2013, 2012 and 2011, included herein, prepared in accordance with the International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB). IFRS differs in certain significant respects from the accounting principles generally accepted in the United States, or U.S. GAAP.

Table of Contents

The summary financial data should be read in conjunction with our consolidated financial statements and the notes thereto contained in this 2015 Form 20-F, as well as the information set forth under the heading Item 5. Operating and Financial Review and Prospects.

- 1) These financial measures as defined by us may constitute non-IFRS measures. See below for a reconciliation to the most directly comparable IFRS measures.
- 2) For 2015, as proposed by the Board of Directors.

Table of Contents**Reconciliation to IFRS**

This subsection includes a reconciliation of certain non-IFRS financial measures to the most directly comparable IFRS financial measures. The presentation of non-IFRS financial measures has limitations as analytical tools and should not be considered in isolation or as a substitute for our related financial measures prepared in accordance with IFRS.

We present non-IFRS financial measures to enhance an investor's evaluation of our ongoing operating performance or how well we manage our assets and to facilitate meaningful comparison of certain of our financial measures between periods. Our management uses these non-IFRS financial measures to, among other things, evaluate our ongoing operations in relation to historical performance, for internal planning and forecasting purposes and in the calculation of certain performance-based compensation.

The non-IFRS financial measures presented in this 2015 20-F may differ from similarly-titled measures used by other companies.

EBITA margin

General facts on the company

Legal and commercial name of the Parent Company: Telefonaktiebolaget LM Ericsson (publ).

Table of Contents

Organization number: 556016-0680

Legal form of the Parent Company: A Swedish limited liability company, organized under the Swedish Companies Act.

Country of incorporation: Sweden.

Date of incorporation: The Parent Company was incorporated on August 18, 1918, as a result of a merger between AB LM Ericsson & Co. and Stockholms Allmänna Telefon AB.

Domicile: Our registered office is Telefonaktiebolaget LM Ericsson, SE 164 83 Stockholm, Sweden. Our headquarters are located at Torshamnsgatan 21, Kista, Sweden.

Telephone number: +46 10 719 0000

Website: www.ericsson.com. The information included on our website is not incorporated herein by reference.

Agent in the US: Ericsson Inc., Vice President Legal Affairs, 6300 Legacy Drive, Plano, Texas 75024. Telephone number: +1 972 583 0000.

Shares: Ericsson's Class A and Class B shares are traded on Nasdaq Stockholm. In the US, our American Depository Shares (ADS), each representing one underlying Class B share, are traded on NASDAQ New York.

Parent company operations: The business of the parent company, Telefonaktiebolaget LM Ericsson, consists mainly of corporate management, holding company functions and internal banking activities. Our parent company operations also include customer credit management activities performed by Ericsson Credit AB on a commission basis.

Subsidiaries and associated companies: For a listing of our significant subsidiaries, please see Item 4C. Investments . In addition to our joint venture ST-Ericsson (up until August 2, 2013), we are engaged in a number of minor joint ventures and cooperative arrangements. For more information regarding risks associated with joint ventures, strategic alliances and third-party agreements, please see Item 3D. Results Risk Factors - Market, Technology and Business Risks .

Company history and development

Innovating to empower people, business and society

Our origins date back to 1876 when Alexander Graham Bell filed a patent application in the United States for the telephone. The same year, Lars Magnus Ericsson opened a small workshop in Stockholm to repair telegraph instruments and sell his own telephone equipment.

Today, Ericsson is a leading provider of communications equipment, telecom services and support solutions. Our customers, in over 180 countries, are mainly operators of communications networks worldwide. We manage networks, or parts of networks, for one billion subscribers.

Disclosure pursuant to Section 219 of the Iran Threat Reduction and Syria Human Rights Act of 2012 (ITRA)

Ericsson has conducted business in Iran/Persia since the late nineteenth century, opened an office in Iran in 1973 and later established a local subsidiary in the country. Ericsson strongly believes in enabling communication for all and believes that access to communications can enable the right to health, education and freedom of expression. Ericsson's business activities in Iran principally involve the sale of telecommunications infrastructure related products and services, including support, installation and maintenance services. Ericsson's exports from the European Union (the EU) to Iran are performed under export licenses from the Swedish Agency for Non-Proliferation and Export Controls. The EU sanctions towards Iran grant an exemption for the supply of certain telecommunications equipment and software based on which these export licenses are granted.

Due to its operations in Iran, and having staff permanently in the country, Ericsson has contacts with its local customers and retains certain local suppliers, including banks, and service providers. In addition, Ericsson has other dealings incidental to its local activities, such as making payments for taxes, salaries, rents, utilities and office and

Table of Contents

similar supplies and customs related services. As a result, Ericsson has contact with companies that may be owned or controlled by the government of Iran. While Ericsson seeks to obtain information regarding the actual business names and ownership of customers and other counterparties in Iran, it is sometimes difficult to determine ownership and control with certainty, particularly with respect to determining whether an entity engaged in commercial activities is owned or controlled by the government.

During 2015, Ericsson sold telecommunications infrastructure related products and services in Iran to telecommunications companies operating in the country; MTN Irancell, Mobile Communication Company of Iran (MCCI) and Dadeh Gostare Asre Novin (Hiweb), and contracted with Sherkate Khadamate Ertebati Rightel (Rightel) for such sales. During 2015, Ericsson's gross revenue (reported as net sales) related to sales to Hiweb, MTN Irancell and MCCI in Iran was approximately SEK 2,600 million. Ericsson does not normally allocate net profit (reported as net income) on a country-by-country or activity-by-activity basis, other than as set forth in Ericsson's consolidated financial statements prepared in accordance with IFRS as issued by the IASB. However, Ericsson has estimated that its operating income (income before taxes and financial net) from such sales, after internal cost allocation was less than SEK 639 million during 2015. Ericsson intends to continue to engage with existing customers and explore opportunities with new customers in Iran while continuously monitoring international developments as they relate to Iran and its government.

In some instances, Ericsson has had to arrange performance bonds or similar financial guarantees to secure Ericsson's performance of obligations under the commercial agreements Ericsson has entered into relating to the business in Iran. In such instances, Ericsson usually engages its banks outside Iran, who in turn engage local banks in the country. These local banks include Tejarat Bank, Melli Bank and Saderat Bank. Although some bonds and guarantees are still in place, no new performance bonds or similar guarantees involving these three banks with respect to Ericsson's business activities in Iran were issued during 2015, nor were payments made to beneficiaries under any such existing bond or guarantee.

Some payments made to Ericsson's local subsidiary and payments required to be made by the local subsidiary to suppliers involve banks controlled by the government of Iran, such as Bank Mellat, Tejarat Bank, Bank Melli, Saderat Bank, Keshavarzi Bank, Eghtesad Novin Bank, Refah Bank and Bank Sepah. Ericsson also received payments from customers to Ericsson's accounts outside Iran.

C. Organizational Structure

The following list shows certain shareholdings owned directly and indirectly by our parent company as of December 31, 2015.

A complete list of shareholdings, prepared in accordance with the Swedish Annual Accounts Act and filed with the Swedish Companies Registration Office (Bolagsverket), may be obtained upon request to: Telefonaktiebolaget LM Ericsson, External Reporting, SE-164 83 Stockholm, Sweden.

Risk Factors

Operating results for the years ended December 31, 2013 and 2014

The figures in this section are IFRS figures. However, commentary is based on non-IFRS figures, unless stated otherwise. The reconciliation to IFRS figures is provided below.

Business in 2014

In 2014, Ericsson showed stable sales development with a solid operating margin. A sales decline in North America of 8% was compensated by growth in the Middle East, Europe and Asia. Operating margin improved in the core business, driven by a higher share of capacity sales and efficiency enhancements. This was partly offset by currency hedge losses, investments in targeted areas as well as losses related to the modems operations. (Reported operating margin decreased in 2014.)

The more than 100 IPR licensing agreements signed to date show the value of Ericsson's R&D investments and enable industry players to continue to innovate and bring exciting products to the market. In 2014, IPR revenues showed a steady positive development. Ericsson remains committed to licensing its standard-essential patents on fair, reasonable and non-discriminatory (FRAND) terms.

At the Capital Markets Day (CMD) in November, Ericsson outlined the progress on its Networked Society strategy, with focus on market development, growth agenda, transformation and profitability. In line with the strategy, the Company has invested into the targeted areas: IP networks, Cloud, TV & Media, Industry & Society and OSS & BSS. Sales in targeted areas showed a growth of more than 10% in 2014.

Ericsson continues to proactively identify efficiency opportunities in the Company. The cost and efficiency program presented at the CMD, with the ambition to achieve savings of approximately SEK 9 billion, with full effect during 2017, is progressing. Activities for the discontinuation of the modems business are included in the -program and are ahead of plan.

Ericsson improved the cash flow from operating activities, and generated a cash flow of SEK 18.7 (17.4) billion. For the third consecutive year, the Company exceeded its cash conversion -target of more than 70%. This resulted in a solid balance sheet, enabling Ericsson to continue to implement its strategy and to deliver consistent returns to its shareholders.

The Board of Directors proposes a dividend for 2014 of SEK 3.40 (3.00) per share, an increase of 13%.

Financial highlights

Financial results of operations

In this 2015 Form 20-F, unless otherwise indicated, commentary on sales, gross margin, operating income and net income reflects adjustments made on full year 2013 for the initial payment from Samsung following the January 2014 licensing agreement with Samsung. The table below presents the reconciliation between reported IFRS figures and the non-IFRS figures upon which the comments are based.

Reconciliation of Non-IFRS measures to IFRS measures

	IFRS		Adjustment initial Samsung IPR payment ¹⁾		Non-IFRS	
	2014	2013	2014	2013	2014	2013
Net sales	228.0	227.4		2.1	228.0	225.3
Cost of sales	145.6	151.0			145.6	151.0

Table of Contents

Gross income	82.4	76.4	0.0	2.1	82.4	74.3
Operating expenses	63.4	58.5			63.4	58.5
Other operating income and expenses	2.2	0.1			2.2	0.1
Share in earnings of associated companies	0.1	0.1			0.1	0.1
Operating income	16.8	17.8	0.0	2.1	16.8	15.7
Financial items	1.0	0.7			1.0	0.7
Taxes	4.7	4.9		0.5	4.7	4.4
Net income	11.1	12.2	0.0	1.6	11.1	10.6

1) The initial payment from Samsung in Q4 2013 was SEK 4.2 billion of which SEK 2.1 billion relates to 2013. The adjustment impacts segments Networks and Support Solutions.

Reported sales were flat and amounted to SEK 228.0 (227.4) -billion. Strong sales growth in China, the Middle East and India was offset by lower sales in North America and Japan, where several larger mobile broadband coverage projects were completed.

During the year, the SEK has weakened towards a number of currencies, including the USD, which has had a gradual positive impact on sales.

Reported sales for segments Networks and Global Services were flat compared with 2013, while -Support Solutions reported sales grew by 3%.

IPR and licensing revenues amounted to SEK 9.9 (10.6) billion. For 2013, IPR revenues included an initial payment of SEK 4.2 billion from Samsung for patent licensing.

The mix of sales by commodity was: Software 24% (24%), hardware 34% (34%) and -services 42% (42%).

Restructuring charges amounted to SEK 1.5 (4.5) billion and were mainly related to the continued implementation of the service delivery strategy. Implementation started on the cost and efficiency program announced in November 2014. As part of the continuous business transformation, annual restructuring -normally generates charges of approximately SEK 2 billion. In addition, the cost and efficiency program is expected to generate approximately SEK 3 4 billion in restructuring charges in -2015 2017.

Gross margin increased to 36.2%, due to a business mix with a higher share of capacity sales, lower restructuring charges and efficiency enhancements. The Global Services share of Group sales was flat at 43%, where the share of Network Rollout sales declined to 12% (14%) as a result of fewer large coverage projects.

Total operating expenses increased to SEK 63.4 (58.5) billion due to increased organic expenses in targeted areas and acquisitions such as Microsoft Mediaroom as well as inclusion of the modems operations.

In line with the strategy to establish leadership in targeted areas, the Company has increased its R&D activities, primarily in IP and Cloud. In addition, the modems operations were taken over from the ST-Ericsson joint venture. This resulted in total R&D expenses of SEK 36.3 (32.2) billion in 2014.

Other operating income and expenses decreased to SEK 2.2 (0.1) billion of which SEK 2.8 (0.5) billion relates to negative currency hedge effects. They derive from the hedge contract balance in USD, which has further decreased in value. The SEK has weakened towards the USD between December 31, 2013 (SEK/USD rate 6.46) and December 31, 2014 (7.79).

Operating income increased slightly to SEK 16.8 billion, positively impacted by an improved gross margin. (Reported operating income decreased slightly in 2014.) Operating income was negatively impacted by higher operating expenses, and negative effects from hedge -contracts. Operating margin was 7.4%.

Table of Contents

Financial net amounted to SEK 1.0 (0.7) -billion. The difference is mainly attributable to foreign currency revaluation effects.

The tax rate for 2014 was 30% compared with 29% in 2013. Tax costs were SEK 4.7 (4.9) billion.

Net income increased to SEK 11.1 -billion, for the same reasons as for the increase in -operating income. (Reported net income decreased in 2014.)

EPS diluted was SEK 3.54.

Business results Segments

Networks

Sales were flat. Sales declined in North America, where two large LTE coverage projects were completed. In addition, operators in the US increased their focus on cash flow optimization during the second half of the year, with reduced network investments as a consequence. The decline in the North American business was partly offset by increased mobile broadband sales in the Middle East. Large LTE network deployments continued in mainland China.

In 2014, operators increased their focus on improving network performance as a key differentiator. This, in combination with continued data traffic increase, and introduction of new services such as VoLTE, led to increased -cap-acity business in Radio, IMS and IP.

Operating income improved significantly compared with last year due to increased capacity business, earlier actions to improve commercial and operational efficiency and lower -restructuring charges. This was partly offset by a negative effect from currency hedges of SEK 2.1 (0.5) billion and higher operating expenses, mainly in IP and Cloud. Restructuring charges amounted to SEK 0.4 (2.2) billion.

Global Services

Sales for Global Services were flat compared with 2013 despite strong development in Managed Services and in -Network Design and Optimization.

There was continued momentum for Professional Services with double-digit sales growth during the second half of the year. Sales in targeted areas developed positively and in line with plan. Network Rollout sales declined, primarily due to a lower share of coverage projects.

Global Services operating income was flat compared with 2013. The Network Rollout -margin gradually improved during the year due to the declining dilutive effect from the European network modernization projects.

Professional Services operating margin declined to 12% (14%), partly due to negative currency hedge effects and partly due to the high share of managed services contracts in the trans-formation phase.

Restructuring charges declined to SEK 0.8 (2.0) billion. Implementation of the service delivery strategy to move local service delivery resources to global centers continued, but at a slower pace during the first half of the year.

Support Solutions

Reported sales grew by 3%, driven by growth in OSS and in TV & Media through the Mediaroom acquisition. Regions North America and North East Asia showed strong growth while Latin America and Sub Saharan Africa declined, primarily due to lower BSS sales.

Operating income declined slightly, partly due to lower sales in legacy systems and partly due to acquired operating expenses.

Table of Contents

Modems

Ericsson took over the LTE thin-modem operations as part of the breakup of the joint venture with STMicroelectronics in 2013. Since the -integration, the modems market developed in a direction that reduced the addressable market for thin modems. In addition, there is strong competition, price erosion and an accelerating pace of technology innovation. Success in this evolved market requires significant R&D investments. In 2014, Ericsson announced the discontinuation of further development of modems and the shift of approximately 500 R&D resources to Networks to pursue growth opportunities in the radio business.

Operating income was SEK 2.0 billion. The discontinuation of the modems business will lead to a significant reduction in costs. Good progress has been made in 2014, and activities are ahead of plan. End-of-life agreements have been signed with existing customers.

Business results Regions

North America: Sales declined, driven by lower network sales as a result of large mobile network coverage projects coming to an end, and increased operator focus on cash flow in the second half of the year. Sales in Support Solutions and Professional Services continued to grow, driven by OSS and BSS modernization.

Latin America: Sales increased, driven by mobile broadband coverage projects and network quality investments, partly offset by currency restrictions.

Northern Europe and Central Asia: Sales increased, driven primarily by mobile broadband deployments in Russia with sales of SEK 6.7 (5.6) billion. Professional Services sales grew, driven by network design and optimization services. TV & Media business showed positive development.

Western and Central Europe: The European modernization projects came to an end in 2014. Sales growth was increasingly driven by investments in network quality and capacity during the year.

Mediterranean: Sales decreased as the European modernization projects came to an end, while managed services contributed positively to sales.

Middle East: Sales growth was driven by mobile broadband investments related to new licenses and growth in data traffic in both advanced and developing markets.

Sub-Saharan Africa: Sales declined but recovered in the second half of the year, mainly driven by operator focus on network traffic and quality management. This resulted in a continued demand for managed services.

India: Sales growth was driven by mobile broadband infrastructure investments. Increased smartphone penetration drove growth in mobile data usage.

North East Asia: Sales increased in mainland China and Taiwan as a result of delivering on previously awarded 4G / LTE contracts. The increase was partly offset by reduced network investment levels in Korea and Japan.

South East Asia and Oceania: Sales remained flat in 2014. Growth in major roll-out projects in Australia compensated for a decline in Indonesia where major 3G projects peaked in 2013.

Other: Sales declined somewhat due to exit of the telecom and power cable businesses in 2013 and lower IPR revenues. Broadcast services grew, driven by the acquired Red Bee Media business that was fully consolidated in 2014.

Note C25 Statement of cash flows

Table of Contents

Balance sheet and other performance indicators for the years ended December 31, 2013 and 2014

Cash flow

Cash flow from operating activities was positive at SEK 18.7 (17.4) billion.

Total investing activities amounted to SEK 7.5 (11.1) billion. Investments in property, plant and equipment were SEK 5.3 (4.5) billion, representing 2% of sales. Acquisitions and divestments, net, were SEK 4.4 (2.7) billion. The -acquisitions are strategic investments made to strengthen the position in targeted areas.

In 2014, approximately SEK 8 billion of debt -outstanding was repaid:

A SEK 4 billion EIB loan, with original maturity in 2015, was repaid.

A USD 300 million bond, with original maturity in 2016, was repaid.

A EUR 219 million bond matured and was repaid in full.

Working capital

Days sales outstanding (DSO) increased to 105 (97) days mainly due to geographical mix and negative currency effects. Inventory turn-over days increased to 64 (62) days due to a larger share of projects and negative currency effects.

Accounts payable days increased to 56 (53) days.

Provisions amounted to SEK 4.4 (5.4) billion at year end, reflecting implementation of previous years efficiency programs and headcount reductions.

Financial position

The average maturity of long-term borrowings as of December 31, 2014, was 5.7 years, compared with 5.1 years at the end of 2013.

The net cash decreased from SEK 37.8 billion to SEK 27.6 billion as a result of increased post-employment benefits of SEK 10.6 billion due to lower discount rates.

Ericsson has an unutilized Revolving Credit Facility of USD 2.0 billion.

Seasonality

The Company's sales, income and cash flow from operations vary between quarters, and are generally lowest in the first quarter of the year and highest in the fourth quarter. This is mainly a result of the seasonal purchase patterns of network operators.

Most recent five-year average seasonality

	First quarter	Second quarter	Third quarter	Fourth quarter
Sequential change	22%	8%	0	23%
Share of annual sales	22%	24%	24%	30%

Off-balance sheet arrangements

There are currently no material off-balance sheet arrangements that have, or would be reasonably likely to have, a current or anticipated material effect on the Company's financial condition, revenues, expenses, result of operations, liquidity, capital expenditures or capital resources.

Capital expenditures

Table of Contents

For 2014, capital expenditures were SEK 5.3 (4.5) billion, representing 2% of sales. Expenditures are largely related to test sites and equipment for R&D and network operation centers as well as manufacturing and repair operations.

Investments are being made in three new global ICT centers, of which two are in Sweden and one is in Canada. The centers will support R&D and services in developing and verifying solutions more efficiently and bringing innovation faster to the market. The first center, in Linköping, Sweden, was opened in 2014.

Apart from these investments, Ericsson believes that the Company's property, plant and equipment and the facilities the Company occupies are suitable for its present needs in most locations.

Annual capital expenditures are normally around 2% of sales. This corresponds to the needs for keeping and maintaining the current capacity level. The Board of Directors reviews the Company's investment plans and proposals.

As of December 31, 2014, no material land, buildings, machinery or equipment were pledged as collateral for outstanding indebtedness.

The Company believes it has sufficient cash and cash generation capacity to fund expected capital expenditures without external borrowings in 2015.

Capital expenditures 2010 - 2014

SEK billion	2014	2013	2012	2011	2010
Capital -expenditures	5.3	4.5	5.4	5.0	3.7
<i>Of which in Sweden</i>	<i>2.4</i>	<i>1.9</i>	<i>1.3</i>	<i>1.7</i>	<i>1.4</i>
Share of annual sales	2.3%	2.0%	2.4%	2.2%	1.8%

B. Significant Changes.

On January 14, 2016, Ericsson announced that Ericsson and Huawei have agreed to extend their global patent license agreement. The agreement includes a cross license that covers patents relating to both companies' wireless standard-essential patents (including the GSM, UMTS and LTE cellular standards). Pursuant to the amended agreement, Huawei will make on-going royalty payments to Ericsson, from 2016 and onwards, based upon actual sales.

B. Memorandum and Articles of Association

Telefonaktiebolaget LM Ericsson is registered under no. 556016 0680 in the Company Register kept by the Swedish Companies Registration Office. Our Company's objective and purposes are described in §2 of the Articles of Association.

Our Articles of Association do not stipulate anything regarding:

a director's power to vote on a proposal, arrangement, or contract in which the director is materially interested

our directors' power to vote for compensation to themselves

our directors' borrowing powers

retirements rules for our directors or

the number of shares required for a director's qualification.

Applicable provisions are found in the Swedish Companies Act, as referred to in Certain Powers of Directors and the President below.

There are no age limit restrictions for directors and they are not required to own any shares in the Company.

Share Capital, Increases of Share Capital and Preferential Rights of Shareholders

The Articles of Association of Ericsson provide that the share capital of the Company may not be less than SEK 6,000,000,000 nor more than SEK 24,000,000,000, and that the number of shares in the Company shall amount to no less than 3,000,000,000 and no more than 12,000,000,000. The registered share capital is SEK 16,525,258,678 and the Company has in total issued 3,305,051,735 shares.

The Company's shares are divided into three series: Class A shares, Class B shares and Class C shares; however, no Class C shares are currently outstanding. Under the Swedish Companies Act (2005:551) (the Swedish Companies Act), shareholders must approve each issue of additional shares either by deciding on the share issue at a shareholders meeting, or by a shareholders' approval of a decision on a share issue by the Board, or by giving an authorization to the Board to decide about a share issue. If we decide to issue new Class A, Class B and Class C shares by means of a cash

issue, or an issue against payment through set-off of claims, Class A, Class B and Class C shareholders (except for Ericsson and its subsidiaries, in the event they hold shares in Ericsson) have a primary preferential right to subscribe for new shares of the same type in relation to the number of shares previously held by them. Shares not subscribed for through a preferential right shall be offered to all shareholders for subscription on a pro rata basis. If we decide to issue new shares of only one series by means of a cash issue or an issue against payment through set-off of claims, all shareholders, regardless of whether their shares are Class A, Class B or Class C, are entitled to a preferential right to subscribe for new shares in proportion to the number of shares previously held by them. Shareholders may vote to waive shareholders' preferential rights at a general meeting.

If we decide to issue warrants or convertibles through a cash issue or an issue against payment through set-off of claims, the shareholders have preferential rights to subscribe to warrants as if the issue were of the shares that may be subscribed to pursuant to the warrant and, respectively, preferential rights to subscribe to convertibles as if the issue were of the shares that the convertibles may be converted to.

Table of Contents

The above does not constitute any restriction to waive the shareholders' preferential rights when deciding on either a cash issue, an issue against payment through set-off of claims, an issue of warrants or an issue of convertibles.

Dividends

Our Class A and Class B shareholders have the same right to dividends, while Class C shareholders have a right to a yearly dividend as described in article 15 of our Articles of Association. No Class C shares are currently outstanding.

Under Swedish law, only a general meeting of shareholders may decide on payment of dividends, which may not exceed the amount proposed by the Board of Directors (except in certain limited circumstances), and may only be paid from funds legally available for that purpose. Under Swedish law, no interim dividends may be paid in respect of any fiscal period for which audited financial statements of the company have not yet been adopted by the annual general meeting of shareholders. The market practice in Sweden is for dividends to be paid annually. Under the Swedish Companies Act, dividends to shareholders and other transfers of value from a company such as purchases of own shares (see below) may only be made in case the company's restricted equity remains fully covered after the transfer of value has been made. The calculation shall be based upon the most recently adopted balance sheet, and any changes in the restricted equity that has occurred after the balance sheet date shall be taken into account. In addition, dividends to shareholders and other transfers of value from the company may only be made if this is justifiable taken into account the type of business activities of the company, their scope and risks related thereto and the company's need for financial resources, its liquidity and financial position. In respect of parent companies, also the business activities of the group, their scope and risks related thereto and the group's need for financial resources, its liquidity and financial position should be taken into account.

The Company's shares are registered in the computerized book-entry share registration system administered by Euroclear Sweden AB (Euroclear). The rights attached to shares eligible for dividends accrue to those persons whose names are recorded in the register of shareholders on the record day. The dividends are then sent to a specified account as directed by the person registered with Euroclear, or to the address of that person. The relevant record day must, in most circumstances, be specified in the resolution declaring a dividend or resolving upon a capital increase or any similar matter in which shareholders have preferential rights, or the Board of Directors must be authorized to determine the relevant record day.

Where the registered holder is a nominee, the nominee receives, for the account of the beneficial owner, dividends and, on issues of shares with preferential rights for the shareholders, shares, as well as rights. Dividends are remitted in a single payment to the nominee who is responsible for the distribution of such dividends to the beneficial owner. A similar procedure is adopted for share issues. Specific authority to act as a nominee must be obtained from Euroclear. At the request of Euroclear, the nominee must provide information about all beneficial holders of shares to Euroclear. Euroclear is required to keep a register with regard to any holding on behalf of a single beneficial owner in excess of 500 shares in any one company. This list is prepared every third month and must reveal the names of the beneficial owner and be open to public inspection.

Voting

In a general meeting of Ericsson, each Class A share shall carry one vote, each Class B share one tenth of one vote and each Class C share one-thousandth of one vote.

We are required to publish notices to attend annual general meetings no earlier than six weeks and no later than four weeks prior to the annual general meeting and the same notice period requirements apply regarding extraordinary general meetings concerning changes in our articles of association. Notices to attend other types of extraordinary

general meetings at Ericsson must be published no earlier than six weeks and no later than three weeks prior to the general meeting.

Directors are elected during the annual general meeting for a period of one year at a time and do not stand for reelection at staggered intervals.

A shareholder may attend and vote at the meeting in person or by proxy. For companies whose shares are registered in a central securities depository register, proxies are valid for up to five years from the date of issuance.

Table of Contents

Any shareholder wishing to attend a general meeting must notify us no later than on the day specified in the notice, preferably before 4:00 p.m. (CET). We are required to accept all notifications of attendance received at least five business days (Saturdays normally included) prior to the meeting. A person designated in the register as a nominee (including the depositary of the ADSs) is not entitled to vote at a general meeting, nor is a beneficial owner whose share is registered in the name of a nominee (including the depositary of the ADSs) unless the beneficial owner first arranges to have such owner's own name entered in the register of shareholders maintained by Euroclear no later than the designated record day.

Under the Swedish Companies Act, resolutions are passed by a simple majority of votes cast at the meeting with the chairman of the meeting having a decisive vote (except in respect of elections), unless otherwise required by law or a company's articles of association. Under the Swedish Companies Act, certain resolutions require special quorums and majorities, including, but not limited to, the following:

- a) a resolution to amend the articles of association requires a majority of two-thirds of the votes cast as well as two-thirds of the shares represented at the meeting, except in those circumstances described in b) d) below;
- b) a resolution to amend the articles of association which reduces any shareholder's rights to profits or assets, restricts the transferability of shares or alters the legal relationship between shares, normally requires the unanimous approval of the shareholders present at the meeting and who hold nine-tenths of all outstanding shares;
- c) a resolution to amend the articles of association for the purpose of limiting the number of shares with which a shareholder may vote at a general meeting or allocating part of the net profit for the fiscal year to a restricted fund or limiting the use of the company's profits or assets in a liquidation or dissolution, normally requires the approval of shareholders representing two-thirds of the votes cast and nine-tenths of the shares represented at the meeting;
- d) a resolution of the kind referred to under B or C above may, however, be taken with a lower supermajority requirement if the amendments referred to therein will only adversely affect specific shares or classes of shares. In such cases, the requirement under a) above will apply together with the following separate supermajority: (a) where only a class of shares is adversely affected, approval of the owners of one-half of all shares of such class and nine-tenths of the shares of such class represented at the meeting, or (b) where the shares adversely affected do not constitute a class of shares, the unanimous approval of all such affected outstanding shares present at the meeting and who hold nine-tenths of all outstanding shares adversely affected;
- e) a resolution to issue, approve or authorize the issuance for cash of new shares, warrants or convertibles with a deviation from the preferential right for existing shareholders requires a two-thirds majority of votes cast at the meeting as well as two-thirds of the shares represented at the meeting;

f)

a resolution to reduce the outstanding share capital requires a two-thirds majority of votes cast at the meeting as well as two-thirds of the shares represented at the meeting. In case there are several classes of shares in a company, the above described majority requirement shall apply also within each share class represented at the meeting and for which the rights of the shares are adversely affected; and

- g) a resolution to approve a merger requires a two-thirds majority of the votes cast at the meeting and two-thirds of the shares represented at the meeting (however, under certain circumstances a higher majority is required).

At a general meeting of shareholders, a shareholder or proxy for one or more shareholders may cast full number of votes represented by the holder's shares.

Purchase of Own Shares

A Swedish public limited liability company whose shares are traded on a regulated market place within the European Economic Area (EEA) or a market place comparable to a regulated market place outside the EEA is entitled to purchase its own shares under certain conditions. A purchase by us of our own shares may take place only if (a) the purchase has been decided upon by a general meeting of shareholders or the Board has been authorized by a general meeting of shareholders, in both cases by a two thirds majority of votes cast at the meeting as well as two-thirds of the shares represented at the meeting, (b) the purchase is effected on a regulated market place within the EEA or a market place comparable to a regulated market place outside the EEA (in the latter case with the approval

Table of Contents

of the Swedish Financial Supervisory Authority the SFSA) or pursuant to an offer to all shareholders or holders of a specific class of shares, (c) the Company's restricted equity will still be fully covered and the purchase is justifiable taken into account the type of business activities of the Company and the group, their scope and risks related thereto and the Company's and the group's need for financial resources, its liquidity and financial position, and (d) we and our subsidiaries do not hold or, as a result of purchase, will not hold in excess of 10% of all our outstanding shares. As of December 31, 2015, the Company held an aggregate of 49,367,641 treasury stock of Class B shares.

Investment Restrictions

There are no limitations imposed by Swedish law or by our Articles of Association in respect of the rights of non-residents or foreign persons to purchase, own or sell securities issued by us.

There are, however, certain flagging and ownership examination rules that apply, irrespective of nationality.

Pursuant to the Swedish Financial Instruments Trading Act any change in a holding of shares, depository receipts with voting rights or financial instruments that entitle the holder to acquire shares in issue in a Swedish limited liability company whose shares are admitted for trading on a regulated market place within the EEA shall be reported by the holder to the company and the SFSA, where the change entails that the holder's portion of all shares or votes in the company reaches, exceeds or falls below any of the limits of 5, 10, 15, 20, 25, 30, 50, 66 2/3 or 90 per cent. Such a change should, as a main rule, be reported not later than the trading day following the day on which the party with a duty to report has entered into an agreement for the acquisition or transfer of shares or any other change to the shareholding has occurred.

In addition, the Act on Reporting Obligations Regarding Certain Holdings of Financial Instruments requires, among other things, certain individuals who own shares representing 10% or more of the share capital or the voting rights in a Swedish public limited liability company whose shares are traded on a regulated market within the EEA to report such ownership to the SFSA, which keeps a public register based on the information contained in such reports, and also to report any changes in such ownership within five business days.

C. Material Contracts

The information set forth under the following headings of the 2015 Swedish Annual Report is incorporated herein by reference:

Results

Board of Directors' report

Material contracts

Notes to the consolidated financial statements

D. Exchange Controls

There is no Swedish legislation affecting the import or export of capital or the remittance of dividends, interest or other payments to non-resident holders of our securities, except that, subject to the provisions in any tax treaty, dividends are subject to withholding tax.

Table of Contents

E. Taxation

General

The taxation discussion set forth below does not purport to be a complete analysis or listing of all potential tax effects relevant to the acquisition, ownership or disposition of Class B shares or ADSs. The statements of United States and Swedish tax laws set forth below are based on the laws in force as of the date of this report and may be subject to any changes in United States or Swedish law, and in any double taxation convention or treaty between the United States and Sweden, occurring after that date, which changes may then have retroactive effect.

Specific tax provisions may apply for certain categories of taxpayers. Your tax treatment if you are a holder of Class B shares or ADSs depends in part on your particular situation. If you are a holder of Class B shares or ADSs, you should therefore consult a tax advisor as to the tax consequences relating to your particular circumstances resulting from the ownership of Class B shares or ADSs.

The tax consequences to holders of ADSs, as discussed below, apply equally to holders of Class B shares.

Certain Swedish Tax Considerations

This section describes the material Swedish income and net wealth tax consequences for a holder of ADSs or Class B shares who is not considered to be a Swedish resident for Swedish tax purposes. This section applies to you only if you are a holder of portfolio investments representing less than 10% of capital and votes and is not applicable if the ADSs or Class B shares pertain to a permanent establishment or fixed place of business in Sweden.

Taxation on Capital Gains

Generally, non-residents of Sweden are not liable for Swedish capital gains taxation with respect to the sale of ADSs or Class B shares. However, under Swedish tax law, capital gains from the sale of shares in Swedish companies and certain other securities by an individual may be taxed in Sweden at a rate of 30% if the seller has been a resident of Sweden or has lived permanently in Sweden at any time during the year of the sale or the 10 calendar years preceding the year of the sale (absent treaty provisions to the contrary). The provision is applicable to ADSs or Class B shares. From January 1, 2008, the rule has been extended so that it also applies to shares in foreign companies, provided that the shares were acquired during the time that the person was liable to tax in Sweden.

This provision may, however, be limited by tax treaties that Sweden has concluded with other countries. Under the tax treaty between Sweden and the United States (the U.S. Tax Treaty), this provision applies for ten years from the date the individual became a non-resident of Sweden.

Taxation on Dividends

A Swedish dividend withholding tax at a rate of 30% is imposed on dividends paid by a Swedish corporation, such as us, to non-residents of Sweden. The same withholding tax applies to certain other payments made by a Swedish corporation, including payments as a result of redemption of shares and repurchase of stock through an offer directed to its shareholders. Exemption from the withholding tax or a lower tax rate may apply by virtue of a tax treaty. Under the U.S. Tax Treaty, the withholding tax on dividends paid on portfolio investments to eligible U.S. holders is reduced to 15%.

Under all Swedish tax treaties, except the tax treaty with Switzerland, withholding tax at the applicable treaty rate should be withheld by the payer of the dividends. With regard to dividends paid from shares in corporations registered

with the Euroclear Sweden (such as our shares), a reduced rate of dividend withholding tax under a tax treaty is generally applied at the source by the Euroclear Sweden or, if the shares are registered with a nominee, the nominee, as long as the person entitled to the dividend is registered as a non-resident and sufficient information regarding the tax residency of the beneficial owner is available to the Euroclear Sweden or the nominee.

In those cases where Swedish withholding tax is withheld at the rate of 30% and the person who received the dividends is entitled to a reduced rate of withholding tax under a tax treaty, a refund may be claimed from the Swedish tax authorities before the end of the fifth calendar year following the year that the distribution was made.

Taxation on Interest

Table of Contents

No Swedish withholding tax is payable on interest paid to non-residents of Sweden.

Net Wealth Taxation

The Swedish net wealth tax has been abolished from January 1, 2007.

Certain United States Federal Income Tax Consequences

The following discussion is a summary of the material United States federal income tax consequences relevant to the ownership and disposition of ADSs or Class B shares. This discussion is based on the tax laws of the United States (including the Internal Revenue Code of 1986, as amended (the Code), its legislative history, existing and proposed regulations thereunder, published rulings and court decisions) as in effect on the date hereof, all of which are subject to change, possibly with retroactive effect. The discussion is not a full discussion of all tax considerations that may be relevant to the ownership and disposition of ADSs or Class B shares, and does not address the Medicare tax on net investment income or the effects of any state, local or foreign tax laws. The discussion applies only if you will hold the ADSs and/or the Class B shares as capital assets and you use the USD as your functional currency. It does not deal with the tax treatment of investors subject to special rules, such as grantor trusts, real estate investment trusts, regulated investment companies, banks, brokers or dealers in securities or currencies, traders in securities that elect to use a mark-to-market method of recording for their securities holdings, financial institutions, insurance companies, tax-exempt entities, investors liable for alternative minimum tax, holders (either actually or constructively) of 10% or more of the voting power of our shares, persons holding ADSs and/or Class B shares as part of a hedging, straddle, conversion or constructive sale transaction and persons who are resident or ordinarily resident in Sweden. In addition, investors holding ADSs and/or Class B shares indirectly through partnerships are subject to special rules not discussed below. You should consult your own tax advisors about the United States federal, state, local and foreign tax consequences to you of the ownership and disposition of the ADSs or Class B shares.

The discussion below applies to you only if you are a beneficial owner of ADSs and/or Class B shares not resident in Sweden for purposes of the U.S. Tax Treaty and you are, for United States federal income tax purposes, (1) a citizen or resident of the United States, (2) a corporation or any other entity treated as a corporation that is organized in or under the laws of the United States or its political subdivisions, including the District of Columbia, (3) a trust if all of the trust's substantial decisions are subject to the control of one or more United States persons and the primary supervision of the trust is subject to a United States court, or if a valid election is in effect with respect to the trust to be taxed as a United States person, or (4) an estate the income of which is subject to United States federal income taxation regardless of its source.

The discussion below assumes that the representations contained in the deposit agreement governing the ADSs are true and that the obligations in the deposit agreement and any related agreement will be complied with in accordance with the terms. If you hold ADSs, you will be treated as the holder of the underlying Class B shares represented by those ADSs for United States federal income tax purposes.

Dividends

Subject to the passive foreign investment company rules discussed below, the gross amount of dividends paid (before reduction for any Swedish withholding taxes) with respect to the ADSs or Class B shares generally will be included in your gross income as ordinary income from foreign sources to the extent paid out of our current or accumulated earnings and profits (as determined for United States federal income tax purposes). Distributions in excess of earnings and profits will be treated as a non-taxable return of capital to the extent of your adjusted tax basis in the ADSs or Class B shares and thereafter as capital gain. The dividends will not be eligible for the dividends received deduction

available to corporations in respect of dividends received from other U.S. corporations. The amount of any dividend paid in SEK will be the USD value of the dividend payment based on the exchange rate in effect on the date of receipt (or constructive receipt) by you, in the case of Class B shares, or by the depository, in the case of ADSs, whether or not the payment is converted into USD at that time. Your tax basis in the SEK received will equal such USD amount. Gain or loss, if any, recognized on a subsequent sale or conversion of the SEK will be U.S. source ordinary income or loss.

If you are a non-corporate holder of ADSs or Class B shares, dividends you receive on the ADSs or Class B shares may be taxed at the lower applicable long-term capital gains rate provided that (1) we are not a passive

Table of Contents

foreign investment company (as discussed below) for either our taxable year in which the dividend was paid or the preceding taxable year, (2) certain holding period requirements are met, (3) you are not under any obligation to make related payments with respect to substantially similar or related property and (4) either (a) in the case of ADSs our ADSs continue to be listed on the Nasdaq Stock Market (or a national securities exchange that is registered under section 6 of the Securities Exchange Act of 1934, as amended) or (b) we are eligible for the benefits of the U.S. Tax Treaty. You should consult your own tax advisors regarding the availability of the lower rate for dividends paid with respect to ADSs or Class B shares.

Subject to certain limitations, you will generally be entitled to receive credit against your United States federal income tax liability (or a deduction against your United States federal taxable income) with respect to any Swedish tax withheld in accordance with the U.S. Tax Treaty and paid over to Sweden. If a refund of the tax withheld is available to you under the laws of Sweden or under the U.S. Tax Treaty, the amount of tax withheld that is refundable will not be eligible for such credit against your United States federal income tax liability (and will not be eligible for the deduction in computing your United States federal taxable income). For foreign tax credit limitation purposes, dividends will be income from sources without the United States, and will generally be treated as passive category income (or, in the case of certain holders, general category income).

Sale or Exchange of ADSs or Class B shares

Subject to the passive foreign investment company rules discussed below, you will generally recognize capital gain or loss on the sale or other disposition of the ADSs or Class B shares equal to the difference between the USD value of the amount realized and your adjusted tax basis (determined in USD) in the ADSs or Class B shares. Such gain or loss will generally be long-term capital gain or loss if you have held the ADSs or Class B shares for more than one year, and will generally be treated as arising from U.S. sources for foreign tax credit limitation purposes. If you are a non-corporate holder of ADSs or Class B Shares, long-term capital gains are eligible for reduced rates of taxation. The deductibility of capital losses is subject to limitations.

The amount realized on a disposition of ADSs or Class B shares for cash will generally be the amount of cash you receive for the ADSs or Class B shares (which, in the case of payment in a non-U.S. currency, will equal the USD value of the payment received determined on (a) the date of receipt of payment if you are a cash basis taxpayer and (b) the date of disposition if you are an accrual basis taxpayer). If the ADSs or Class B shares are treated as traded on an established securities market, if you are a cash basis taxpayer (or, if you are an accrual basis taxpayer, if you so elect) you will determine the USD value of the amount realized by translating the amount received at the spot rate of exchange on the settlement date of the sale.

You will have a tax basis in any foreign currency received equal to the USD value thereof on the date of receipt. Any gain or loss you realize on a subsequent sale or conversion of foreign currency will be U.S. source ordinary income or loss.

Passive Foreign Investment Company Status

A non-U.S. corporation is a passive foreign investment company (a PFIC) in any taxable year in which, after taking into account the income and assets of certain subsidiaries, either (a) at least 75% of its gross income is passive income or (b) at least 50% of the quarterly average value of its assets is attributable to assets that produce or are held to produce passive income. Based on the market value of our shares, the composition of our assets and income and our operations, we believe we were not a PFIC during the year 2015. However, whether or not we will be considered a PFIC will depend on the nature and source of our income and the composition and value of our assets, as determined from time to time. If we are treated as a PFIC, we will not provide information necessary for the qualified electing

fund election as the term is defined in the relevant provisions of the Code. You should consult your own tax advisors about the consequences of our potential classification as a PFIC.

If we were classified as a PFIC with respect to your ADSs or Class B shares for any taxable year we would generally continue to be a PFIC (unless certain conditions are met) and you would be subject to special rules with respect to:

any gain realized on the sale or other disposition of ADSs or Class B shares; or

any other excess distribution made to you (generally, any distributions to you in respect of ADSs or Class B

Table of Contents

shares during a single taxable year that are, in the aggregate, greater than 125% of the average annual distributions received by you in respect of ADSs or Class B shares during the three preceding taxable years or, if shorter, your holding period for ADSs or Class B shares).

Under these rules:

the gain or any other excess distribution would be allocated ratably over your holding period for ADSs or Class B shares;

the amount allocated to the taxable year in which the gain or excess distribution was realized and any year before we became a PFIC would be taxable as ordinary income and

the amount allocated to each prior year, other than the current year and any taxable year prior to the first taxable year in which we were a PFIC, would be subject to tax at the highest applicable marginal tax rate in effect for each such year; and an interest charge would be imposed.

If we are a PFIC for any taxable year, you will also be deemed to own shares in any of our subsidiaries that are also PFICs in such a year. As an alternative to the special rules described above, holders of marketable stock in a PFIC may elect mark-to-market treatment with respect to their ADSs or Class B shares. ADSs or Class B shares will not be considered marketable stock unless they are regularly traded on a qualified exchange or other market. If the mark-to-market election is available and you elect mark-to-market treatment you will, in general, include as ordinary income each year an amount equal to the increase in value of your ADSs or Class B shares for that year (measured at the close of your taxable year) and will generally be allowed a deduction for any decrease in the value of your ADSs or Class B shares for the year, but only to the extent of previously included mark-to-market income. In addition, any gain you recognize upon the sale or other disposition of the ADSs or Class B shares will be treated as ordinary income and any loss will be treated as ordinary loss, but only to the extent of previously included mark-to-market income. Any loss in excess of previously included mark-to-market income will be treated as a capital loss. However, a mark-to-market election would likely be unavailable with respect to your proportionate share in any of our subsidiaries that are PFICs.

If you own ADSs or Class B shares during any year in which we are a PFIC, you will generally be required to make an annual return on IRS Form 8621.

Information Reporting and Backup Withholding

In general, information reporting requirements will apply to dividends paid in respect of ADSs or Class B shares and the proceeds received on the sale or exchange of the ADSs or Class B shares within the United States or by a broker with certain United States connections. Backup withholding may apply to payments to you of dividends paid in respect of ADSs or Class B shares or the proceeds of a sale or other disposition of ADSs or Class B shares if you fail to provide an accurate taxpayer identification number (certified on IRS Form W-9) or, upon request, to certify that you are not subject to backup withholding, or otherwise to comply with the applicable requirements of the backup withholding rules. The amount of any backup withholding from a payment to you will be allowed as a credit against your United States federal income tax liability and a refund of any excess amount withheld under the backup withholding rules may be obtained by filing the appropriate claim for refund with the Internal Revenue Service and furnishing any required information.

Additional Reporting Requirements

Certain holders who are individuals may be required to report information relating to an interest in ADSs or Class B shares, subject to certain exceptions (including an exception for ADSs or Class B shares held in accounts maintained by certain financial institutions). Holders should consult their tax advisors regarding the effects, if any, of these requirements on their ownership and disposition of ADSs or Class B shares.

Depositary fees, charges and payments***Fees and charges payable by ADS holders*

	Service	Rate	By whom paid
1)	Receipt of deposits and issuance of receipts	Up to USD 5 per 100 American Depositary Shares of fraction thereof	Party to whom receipts are issued
2)	Delivery of deposited shares against surrender of receipts	Up to USD 5 per 100 American Depositary Shares or fraction thereof	Party surrendering receipts
3)	Distribution of Cash Dividends and Cash Proceeds	Up to USD 2 per 100 American Depositary Shares	All holders of American Depositary Shares
4)	Administration of the ADSs	Up to USD 2 per 100 American Depositary Shares per annum	All holders of American Depositary Shares

Except as otherwise provided in the Deposit Agreement, any and all other expenses of the Depositary, including without limitation, expenses or charges for printing, stationery, postage, insurances, cables, etc, are to be borne by the Depositary, or by the Company in accordance with agreements entered into from time to time with the Company.

Fees payable by the Depositary to the Issuer

Deutsche Bank Trust Company America (Deutsche Bank), the depositary of our ADSs, has agreed to pay Ericsson a minimum of USD 4.2 million per year. In addition, Deutsche Bank has agreed to pay Ericsson a percentage of the revenues collected by Deutsche Bank as a result of charging dividend or administrative fees from our ADS holders. In 2015, such amount received by Ericsson totalled approximately USD 3.8 million.

Deutsche Bank has further agreed to waive the costs associated with the administration of the Program and reporting services. In 2015, the total amount of such expenses was approximately USD 70,000.

Audit committee pre-approval policies and procedures

The Audit Committee reviews and approves the scope of audits to be performed by external and internal auditors and analyzes their results and costs. The Committee keeps the Board of Directors informed about the external and internal auditors performance. It also makes recommendations to the Nomination Committee regarding the external auditor s election and fees. In order to ensure the external auditor s independence, the Audit Committee has established pre-approval policies and procedures for non-audit services to be performed by the external auditor. Pre-approval authority may not be delegated to management. The policies and procedures include a list of prohibited services and services that require pre-approval by the Committee. Such services fall into two broad categories:

General pre-approval certain services regarding taxes, transactions, risk management, business improvement, corporate finance, attestation and the so called general services have received general pre-approval by the Audit Committee, provided that the estimated fee for each project does not exceed SEK 1 million. The external auditor must advise the Audit Committee of services rendered under the general pre-approval policy at least once a year.

Specific pre-approval all other non-audit services and services subject to general pre-approval exceeding SEK 1 million must receive specific pre-approval. The external auditor submits an application to the Parent Company for final approval by the Audit Committee. The Audit Committee Chairman has the delegated authority for specific pre-approval in between Committee meetings, provided that the estimated fee in each case does not exceed SEK 2.5 million. The Chairman reports any pre-approval to the Audit Committee at its next meeting.

All services provided by the independent auditors were pre-approved in 2015.

ITEM 16D.EXEMPTIONS FROM THE LISTING STANDARDS FOR AUDIT COMMITTEES

Table of Contents

All members of the Audit Committee of a NASDAQ New York-listed company must be independent in accordance with NASDAQ New York and SEC rules. SEC Rule 10A-3(b)(1)(iv)(C) under the Exchange Act includes a specific exemption from these independence requirements for Audit Committee members of foreign private issuers who are non-executive employee representatives appointed to the Audit Committee pursuant to local law. The Company relies on this exemption, and does not consider that such reliance materially adversely affects the ability of the Audit Committee to act independently or to satisfy other SEC requirements applicable to Audit Committees.

ITEM 16E. PURCHASES OF EQUITY SECURITIES BY THE ISSUER AND AFFILIATED PURCHASERS

None.

ITEM 16F. CHANGE IN REGISTRANT'S CERTIFYING ACCOUNTANT

None.

ITEM 16G. CORPORATE GOVERNANCE

Ericsson, as a company whose shares are listed on NASDAQ New York, is subject to the listing requirements and certain of the corporate governance requirements of NASDAQ New York and to the rules of the SEC.

All members of the Audit Committee of a NASDAQ New York-listed company must be independent in accordance with NASDAQ New York and SEC rules. SEC rules include a specific exemption from these independence requirements for Audit Committee members of foreign private issuers who are non-executive employee representatives appointed to the Audit Committee pursuant to local law. The Company relies on this exemption, and does not consider that such reliance materially adversely affects the ability of the Audit Committee to act independently or to satisfy other SEC requirements applicable to Audit Committees.

Under NASDAQ New York rules, Ericsson is permitted to follow home country practices in lieu of certain NASDAQ corporate governance requirements that would apply to US companies listed on NASDAQ New York. The rules require disclosures regarding the ways in which Ericsson's corporate governance practices differ from those required of US companies under the rules of NASDAQ New York.

These differences include the following:

Employee representatives are appointed to Ericsson's Board of Directors and serve on Committees (including the Audit and the Remuneration Committees) in accordance with Swedish law.

Employee representatives on the Ericsson Board and Committees may attend all meetings of the Board and committees on which they serve (including those of the Audit and the Remuneration Committees) in accordance with Swedish law.

In accordance with Swedish market practices, the Nomination Committee is not fully comprised of Board members. In addition to the Chairman of the Board, representatives of the four largest shareholders are appointed as members of the Nomination Committee of Ericsson.

The determination regarding independence of Board members is made by the Nomination Committee prior to the Annual General Meeting (AGM) instead of the Board. Before the AGM 2015, the Nomination Committee determined that the following Board members were independent under the NASDAQ New York rules: Roxanne S. Austin, Nora Denzel, Börje Ekholm, Alexander Izosimov, Leif Johansson, Ulf J. Johansson, Anders Nyrén, Sukhinder Singh Cassidy, Kristin Skogen Lund and Jacob

Table of Contents

Wallenberg. When appointing members to the Committees of the Board, the Board of Directors makes determinations regarding Committee member independence.

The Board of Directors does not have regularly scheduled meetings with only independent directors present.

The external auditor is proposed by the Nomination Committee in cooperation with the Audit Committee and is elected by the shareholders.

NASDAQ New York rules applicable to US companies require the consideration of six factors relating to the independence of compensation consultants, legal counsel or other advisers retained by compensation or remuneration committees. Consistent with Swedish practices, the Remuneration Committee's procedures addressing independence of advisers do not expressly require the consideration of those six factors.

Ericsson does not solicit proxies for shareholder meetings, which is in accordance with Swedish practices and rules.

There are no minimum quorum requirements for shareholder meetings under Swedish law, except under certain limited circumstances. Certain resolutions requiring special quorums and majorities are described in our Memorandum and Articles of Association.

Some of the requirements addressed by NASDAQ New York rules are included in the Swedish Corporate Governance Code or the work procedure for the Board of Directors instead of Committee charters. The work procedure establishes the attribution of various responsibilities among the Board, its Committees and the President and CEO. The work procedure for the Board is reviewed, evaluated and amended as required or appropriate, and adopted by the Board at least once a year.
