#### SEAGATE TECHNOLOGY PLC

#### NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

### 1. Basis of Presentation and Summary of Significant Accounting Policies

Organization

Seagate Technology plc (the Company ) is a leading provider of data storage technology and solutions. Its principal products are hard disk drives, commonly referred to as disk drives, hard drives or HDDs. In addition to HDDs, the Company produces a broad range of data storage products including solid state drives (SSDs) and storage subsystems.

Hard disk drives are devices that store digitally encoded data on rapidly rotating disks with magnetic surfaces. Disk drives continue to be the primary medium of mass data storage due to their performance attributes, high quality and cost effectiveness. Complementing existing data center storage architecture, solid-state storage devices use integrated circuit assemblies as memory to store data, and most SSDs use NAND flash memory.

The Company s HDD products are designed for mission critical and nearline applications in enterprise servers and storage systems; edge compute applications, where its products are designed primarily for desktop and mobile computing; and edge non-compute applications, where its products are designed for a wide variety of end user devices such as portable external storage systems, surveillance systems, digital video recorders ( DVRs ), network-attached storage ( NAS ), and gaming consoles. The Company s SSD products mainly include serial attached SCSI ( SAS ) and Non-Volatile Memory Express ( NVMe ) SSDs.

The Company s enterprise data solutions (formerly referred to as the cloud systems and solutions ) portfolio includes modular original equipment manufacturers (OEM) storage systems and scale-out storage servers.

#### Basis of Presentation and Consolidation

The Company s unaudited condensed consolidated financial statements include the accounts of the Company and all its wholly-owned and majority-owned subsidiaries, after elimination of intercompany transactions and balances.

The preparation of financial statements in accordance with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the Company's condensed consolidated financial statements and accompanying notes. Actual results could differ materially from those estimates. The methods, estimates and judgments the Company uses in applying its most critical accounting policies have a significant impact on the results the Company reports in its condensed consolidated financial statements. The condensed consolidated financial statements reflect, in the opinion of management, all material adjustments necessary to present fairly the condensed consolidated financial position, results of operations, comprehensive income, cash flows and shareholders—equity for the periods presented. Such adjustments are of a normal and recurring nature.

The Company s consolidated financial statements for the fiscal year ended June 29, 2018, are included in its Annual Report on Form 10-K as filed with the United States Securities and Exchange Commission (SEC) on August 3, 2018. The Company believes that the disclosures included in the unaudited condensed consolidated financial statements, when read in conjunction with its consolidated financial statements as of June 29, 2018, and the notes thereto, are

adequate to make the information presented not misleading.

The results of operations for the three months ended September 28, 2018 are not necessarily indicative of the results of operations to be expected for any subsequent interim period or for the Company s fiscal year ending June 28, 2019. The Company operates and reports financial results on a fiscal year of 52 or 53 weeks ending on the Friday closest to June 30. Both the three months ended September 28, 2018 and the three months ended September 29, 2017 consisted of 13 weeks. Fiscal year 2019, which ends on June 28, 2019, and fiscal year 2018, which ended on June 29, 2018, are both comprised of 52 weeks. The fiscal quarters ended September 28, 2018, June 29, 2018, and September 29, 2017, are also referred to herein as the September 2018 quarter , the June 2018 quarter and the September 2017 quarter , respectively.

Summary of Significant Accounting Policies

Except for the change in the Company s revenue recognition policy described below, there have been no material changes to the Company s significant accounting policies disclosed in Note 1 - Basis of Presentation and Summary of Significant Accounting Policies of Financial Statements and Supplementary Data contained in Part II, Item 8 of the Company s Annual Report on Form 10-K for the fiscal year ended June 29, 2018, as filed with the SEC on August 3, 2018.

9

#### Revenue Recognition

Effective June 30, 2018, the Company adopted a new revenue recognition policy in accordance with Accounting Standard Codification (ASC) 606, *Revenue from Contracts with Customers*, using the modified retrospective transition approach as discussed in the section titled *Recently Adopted Accounting Pronouncements* in this Note 1. Prior to fiscal year 2019, the revenue recognition policy was based on ASC 605, *Revenue Recognition*. Under ASC 606, the Company determines revenue recognition through the following steps: (1) identification of the contract with a customer; (2) identification of the performance obligations in the contract; (3) determination of the transaction price; (4) allocation of the transaction price to the performance obligations in the contract; and (5) recognition of revenue when, or as, the Company satisfies a performance obligation.

Revenue from sales of products is generally recognized upon transfer of control to customers in an amount that reflects the consideration the Company expects to receive in exchange for those products, net of sales taxes. This typically occurs upon shipment from the Company. When applicable, the Company includes shipping charges billed to customers in Revenue and includes the related shipping costs in Cost of revenue on the Company s Condensed Consolidated Statements of Operations.

The Company records estimated variable consideration at the time of revenue recognition as a reduction to net revenue. Variable consideration generally consists of sales incentive programs, such as price protection and volume incentives aimed at increasing customer demand. For OEM sales, rebates are typically established by estimating the most likely amount of consideration expected to be received based on an OEM customer s volume of purchases from Seagate or other agreed upon rebate programs. For the distribution and retailing channel, these programs typically involve estimating the most likely amount of rebates related to a customer s level of sales, order size, advertising or point of sale activity as well as the expected value of price protection adjustments based on historical analysis and forecasted pricing environment. Marketing development program costs are accrued and recorded as a reduction to revenue at the same time that the related revenue is recognized.

#### Practical Expedient and Exemptions

The Company elected a practical expedient to expense sales commissions when the commissions are incurred because the amortization period would have been one year or less. These costs are recorded as Marketing and administrative on the Company s Condensed Consolidated Statements of Operations.

#### Recently Issued Accounting Pronouncements

In February 2016 and July 2018, the Financial Accounting Standards Board (FASB) issued Accounting Standard Update (ASU) 2016-02 (ASC Topic 842), *Leases* ASU 2018-10, *Codification Improvements to Topic 842*, and *Leases*, ASU 2018-11, *Leases (ASC Topic 842), Target improvements*, respectively. These ASUs amend a number of aspects of lease accounting, including requiring lessees to recognize operating leases with a term greater than one year on their balance sheet as a right-of-use asset and corresponding lease liability, measured at the present value of the lease payments. The Company plans to adopt this guidance in the first quarter of fiscal year 2020. The Company is in the process of assessing the impact of these ASUs on its condensed consolidated financial statements.

In June 2016, the FASB issued ASU 2016-13 (ASC Topic 326), *Financial Instruments - Credit Losses: Measurement of Credit Losses on Financial Instruments*. This ASU amends the requirement on the measurement and recognition of expected credit losses for financial assets held. The Company is required to adopt this guidance in the first quarter of fiscal year 2021. Early adoption is permitted in the first quarter of fiscal year 2020. The Company is in the process of assessing the impact of this ASU on its condensed consolidated financial statements.

In February 2018, the FASB issued ASU 2018-02 (ASC Topic 220), *Income Statement Reporting Comprehensive Income: Reclassification of Certain Tax Effects from Accumulated Other Comprehensive Income.* This ASU was issued following the enactment of the U.S. Tax Cuts and Jobs Act of 2017 (the Tax Act ) and permits entities to elect a reclassification from accumulated other comprehensive income to retained earnings for stranded tax effects resulting from the Tax Act. The Company is required to adopt this guidance in the first quarter of fiscal year 2020. Early adoption is permitted. The Company is in the process of assessing the impact of this ASU on its condensed consolidated financial statements.

In August 2018, the FASB issued ASU 2018-15 (ASC Subtopic 350-40), *Intangibles - Goodwill and Other - Internal-Use Software - Customer s Accounting for Implementation Costs Incurred in a Cloud Computing Arrangement That is a Service Contract.* This ASU aligns the accounting for capitalizing implementation costs incurred in a hosting arrangement that is a service contract with the accounting for implementation costs incurred to develop or obtain internal-use software. The Company is required to adopt the guidance in the first quarter of fiscal year 2021. Early adoption is permitted. The Company is in the process of assessing the impact of this ASU on its condensed consolidated financial statements.

10

Recently Adopted Accounting Pronouncements

In May 2014, the FASB issued ASU 2014-09 (ASC Topic 606), *Revenue from Contracts with Customers*, and FASB also issued certain interpretive clarifications on this new guidance which outlines a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and supersedes the revenue recognition guidance under ASC 605. It also requires entities to disclose both quantitative and qualitative information that enable financial statements users to understand the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with customers. This ASU became effective and was adopted by the Company in the September 2018 quarter retrospectively with a cumulative adjustment to accumulated deficit at the date of adoption ( modified retrospective transition approach ). The Company has completed the adoption and implemented policies, processes and controls to support the new standard s measurement and disclosure requirements.

The Company applied the ASC 606 using a modified retrospective transition approach to all contracts that were not completed as of June 29, 2018. Results for reporting periods beginning June 30, 2018 are presented under ASC 606, while prior period amounts were not adjusted and continue to be reported under the historical accounting standard. As a result of the adoption, the Company identified a change in revenue recognition timing on its product sales made to certain retail customers and started to recognize revenue when the Company transfers control to the applicable customers rather than deferring recognition until those customers sell the products. In addition, the Company established accruals for the variable consideration related to customer incentives on these arrangements. On the date of initial adoption, the Company removed the related deferred income on the product sales made to these customers and recorded estimates of the accrual for variable consideration through a cumulative adjustment to accumulated deficit. The cumulative effect of the change to the Company s Condensed Consolidated Balance Sheet from the adoption of ASC 606 was as follows:

	Effect of							
	As of June 29, adoption of As of							
(Dollars in millions)	,	2018	AS	C 606		2018		
Accounts receivable, net	\$	1,184	\$	9	\$	1,193		
Inventory	\$	1,053	\$	(9)	\$	1,044		
Accrued expenses	\$	598	\$	(34)	\$	564		
Accumulated deficit	\$	(4,696)	\$	34	\$	(4,662)		

The impact of applying the new accounting standard on the Company s condensed consolidated financial statements for the September 2018 quarter was not material.

In January 2016, the FASB issued ASU 2016-01 (ASC Subtopic 825-10), Financial Instruments Overall Recognition and Measurement of Financial Assets and Financial Liabilities, as amended by ASU 2018-03, Financial Instruments Overall: Technical Correction and Improvements, issued in February 2018. The amendments in these ASUs require entities to measure all equity investments at fair value with changes recognized through net income. Additionally, the amendments eliminate certain disclosure requirements related to financial instruments measured at amortized cost and add disclosures related to the measurement categories of financial assets and financial liabilities. These ASUs became effective and were adopted by the Company in the September 2018 quarter. For equity investments without readily determinable fair value, the Company elected the measurement alternative for measurement of equity investments, defined as cost, less impairments, if any, plus or minus changes resulting from observable price changes in orderly transactions for an identical or similar investment in the same issuer until the equity investments fair value becomes readily determinable. The adoption of this guidance had no impact on the Company s condensed consolidated financial statements and disclosures.

In January 2017, the FASB issued ASU 2017-01 (ASC Topic 805), *Business Combination: Clarifying the Definition of a Business*. The amendments in this ASU change the definition of a business to assist with evaluating when a set of transferred assets and activities is a business. The Company adopted the guidance in the September 2018 quarter. The adoption of this guidance had no impact on the Company s condensed consolidated financial statements and disclosures.

In May 2017, the FASB issued ASU 2017-09 (ASC Topic 718), *Stock Compensation: Scope of Modification Accounting*. The amendments in this ASU provide guidance about which changes to the terms or conditions of a share-based payment award require an entity to apply modification accounting. The Company adopted the guidance in the September 2018 quarter. The adoption of this guidance had no impact on its condensed consolidated financial statements and disclosures.

11

#### 2. Balance Sheet Information

Available-for-sale Debt Securities

The following table summarizes, by major type, the fair value and amortized cost of the Company s investments as of September 28, 2018:

(Dollars in millions)	ortized Cost	Unrealized Gain/(Loss)	, ,	Fair Value
Available-for-sale debt securities:				
Money market funds	\$ 801	\$	\$	801
Time deposits and certificates of deposit	428			428
Total	\$ 1,229	\$	\$	1,229
Included in Cash and cash equivalents			\$	1,226
Included in Other current assets				3
Total			\$	1,229

As of September 28, 2018, the Company s Other current assets included \$3 million in restricted cash and investments held as collateral at banks for various performance obligations.

As of September 28, 2018, the Company had no material available-for-sale debt securities that had been in a continuous unrealized loss position for a period greater than 12 months. The Company determined no available-for-sale debt securities were other-than-temporarily impaired as of September 28, 2018.

The fair value and amortized cost of the Company s debt securities investments classified as available-for-sale as of September 28, 2018, by remaining contractual maturity were as follows:

(Dollars in millions)	nortized Cost	Fair Value
Due in less than 1 year	\$ 1,229	\$ 1,229
Due in 1 to 5 years		
Due in 6 to 10 years		
Thereafter		
Total	\$ 1,229	\$ 1,229

The following table summarizes, by major type, the fair value and amortized cost of the Company s investments as of June 29, 2018:

Edgar Filing: Seagate Technology plc - Form 10-Q

(Dollars in millions)	ortized Cost	Unrealized Gain/(Loss)	Fair Value
Available-for-sale securities:			
Money market funds	\$ 621	\$	\$ 621

Property, equipment and leasehold improvements  Accumulated depreciation and amortization	\$	9,586 (7,797)	\$	9,525 (7,733)
Property, equipment and leasehold improvements, net	\$	1,789	\$	1,792

Investment in Debt Security

As of September 28, 2018 and June 29, 2018, the Company had approximately \$1.3 billion investment in non-convertible preferred stock of Toshiba Memory Corporation ( TMC , formerly known as K.K. Pangea ). The investment, with a contractual maturity of six years starting from May 31, 2018, is accounted for as

a held-to-maturity debt security, carried at cost and adjusted for amortization of transaction costs into interest income. Additionally, the debt security has a contractual payment-in-kind (PIK) income which will be paid in cash upon redemption of the investment. PIK income computed at the contractual rate is accrued into Interest income in the Company's Condensed Consolidated Statement of Operations and added to the carrying value of the Investment in debt security on its Condensed Consolidated Balance Sheets. For the three months ended September 28, 2018, the PIK income earned was \$16 million. No impairment was identified as of September 28, 2018 and June 29, 2018. Please refer to Note 8 - Fair Value for more details.

## Accrued Expenses

#### 3. Debt

Short-Term Borrowings

The credit agreement entered into by the Company and its subsidiary Seagate HDD Cayman on January 18, 2011 and subsequently amended (the Revolving Credit Facility ) provides the Company with a \$700 million senior secured revolving credit facility. The term of the Revolving Credit Facility is through January 15, 2020. The loans made under the Revolving Credit Facility will bear interest at a rate of LIBOR plus a variable margin that will be determined based on the corporate credit rating of the Company. The Company and certain of its material subsidiaries fully and unconditionally guarantee the Revolving Credit Facility. The Revolving Credit Facility is available for cash borrowings, subject to compliance with certain covenants and other customary conditions to borrowing, and for the issuance of letters of credit up to a sub-limit of \$75 million.

The Revolving Credit Facility, as amended, includes three financial covenants: (1) minimum cash, cash equivalents and marketable securities; (2) a fixed charge coverage ratio; and (3) a net leverage ratio. The Company was in compliance with the modified covenants as of September 28, 2018 and expects to be in compliance for the next 12

months.

As of September 28, 2018, no borrowings had been drawn or letters of credit utilized under the Revolving Credit Facility.

Long-Term Debt

\$800 million Aggregate Principal Amount of 3.75% Senior Notes due November 2018 (the 2018 Notes). The interest on the 2018 Notes is payable semi-annually on May 15 and November 15 of each year. The issuer under the 2018 Notes is Seagate HDD Cayman, and the obligations under the 2018 Notes are fully and unconditionally guaranteed, on a senior unsecured basis, by the Company. During the September 2017 quarter, the Company repurchased \$22 million aggregate principal amount of the 2018 Notes for cash at a premium to their principal amount, plus accrued and unpaid interest. The Company recorded an immaterial loss on the repurchase during the three months ended September 29, 2017, which is included in Other, net on the Company s Condensed Consolidated Statements of Operations. There were no repurchases during the three months ended September 28, 2018. The remainder of the 2018 Notes were classified as Current portion of long-term debt on the Company s Condensed Consolidated Balance Sheets at September 28, 2018 and June 29, 2018.

\$750 million Aggregate Principal Amount of 4.25% Senior Notes due March 2022 (the 2022 Notes). The interest on the 2022 Notes is payable semi-annually on March 1 and September 1 of each year. The issuer under the 2022 Notes is Seagate HDD Cayman, and the obligations under the 2022 Notes are fully and unconditionally guaranteed, on a senior unsecured basis, by the Company.

14

\$1 billion Aggregate Principal Amount of 4.75% Senior Notes due June 2023 (the 2023 Notes). The interest on the 2023 Notes is payable semi-annually on June 1 and December 1 of each year. The issuer under the 2023 Notes is Seagate HDD Cayman, and the obligations under the 2023 Notes are fully and unconditionally guaranteed, on a senior unsecured basis, by the Company.

\$500 million Aggregate Principal Amount of 4.875% Senior Notes due March 2024 (the 2024 Notes). The interest on the 2024 Notes is payable semi-annually on March 1 and September 1 of each year. The issuer under the 2024 Notes is Seagate HDD Cayman, and the obligations under the 2024 Notes are fully and unconditionally guaranteed, on a senior unsecured basis, by the Company.

\$1 billion Aggregate Principal Amount of 4.75% Senior Notes due January 2025 (the 2025 Notes). The interest on the 2025 Notes is payable semi-annually on January 1 and July 1 of each year. The issuer under the 2025 Notes is Seagate HDD Cayman, and the obligations under the 2025 Notes are fully and unconditionally guaranteed, on a senior unsecured basis, by the Company.

\$700 million Aggregate Principal Amount of 4.875% Senior Notes due June 2027 (the 2027 Notes). The interest on the Notes is payable semi-annually on June 1 and December 1 of each year. The issuer under the 2027 Notes is Seagate HDD Cayman, and the obligations under the 2027 Notes are fully and unconditionally guaranteed, on a senior unsecured basis, by the Company.

\$500 million Aggregate Principal Amount of 5.75% Senior Notes due December 2034 (the 2034 Notes). The interest on the 2034 Notes is payable semi-annually on June 1 and December 1 of each year. The issuer under the 2034 Notes is Seagate HDD Cayman, and the obligations under the 2034 Notes are fully and unconditionally guaranteed, on a senior unsecured basis, by the Company.

At September 28, 2018, future principal payments on long-term debt were as follows (in millions):

Fiscal Year	An	nount
Remainder of 2019	\$	499
2020		
2021		
2022		750
2023		951
Thereafter		2,662
Total	\$	4,862

#### 4. Income Taxes

The Company s income tax provision of \$18 million in the three months ended September 28, 2018 included approximately \$1 million of net discrete tax expense.

The Company s income tax provision recorded for the three months ended September 28, 2018 differed from the provision from income taxes that would be derived by applying the Irish statutory rate of 25% to income before income taxes, primarily due to the net effect of (i) tax benefits related to non-U.S. earnings generated in jurisdictions

that are subject to tax incentive programs and are considered indefinitely reinvested outside of Ireland and (ii) a decrease in valuation allowance for certain deferred tax assets.

During the three months ended September 28, 2018, the Company sunrecognized tax benefits excluding interest and penalties increased by approximately \$2 million to \$62 million. The unrecognized tax benefits that, if recognized, would impact the effective tax rate were \$62 million at September 28, 2018, subject to certain future valuation allowance reversals. During the twelve months beginning September 29, 2018, the Company expects that its unrecognized tax benefits could be reduced by approximately \$19 million, primarily as a result of the expiration of certain statutes of limitation.

The Company s income tax provision of \$7 million in the three months ended September 29, 2017 included approximately \$1 million of net discrete tax expense.

The Company s income tax provision recorded for the three months ended September 29, 2017 differed from the provision from income taxes that would be derived by applying the Irish statutory rate of 25% to income before income taxes, primarily due to the net effect of (i) tax benefits related to non-U.S. earnings generated in jurisdictions that are subject to tax holidays or tax incentive programs and are considered indefinitely reinvested outside of Ireland and (ii) a decrease in valuation allowance for certain deferred tax assets.

On December 22, 2017, the Tax Act was enacted into law in the United States. The Tax Act significantly revises U.S. corporate income tax law by, among other things, lowering U.S. corporate income tax rates from 35% to 21%, implementing a territorial tax system, and imposing a one-time transition tax on deemed repatriated earnings of non-U.S. subsidiaries.

15

The U.S. tax law changes, including limitations on various business deductions such as executive compensation under Internal Revenue Code §162(m), will not impact the Company s tax expense in the short-term due to the Company s large net operating loss and tax credit carryovers and associated valuation allowance. The Tax Act s new international rules, including Global Intangible Low-Taxed Income (GILTI), Foreign Derived Intangible Income (FDII), and Base Erosion Anti-Avoidance Tax (BEAT) are effective beginning in fiscal year 2019. For fiscal year 2019, the Company has included these effects of the Tax Act in its financial statements and concluded the impact will not be material.

Pursuant to SEC Staff Accounting Bulletin (SAB) 118 (regarding the application of ASC 740, *Income Taxes* (ASC 740) associated with the enactment of the Tax Act), the Company believes its accounting under ASC 740 for the provisions of the Tax Act is now complete.

## 5. Goodwill and Other Intangible Assets

Goodwill

The changes in the carrying amount of goodwill for the three months ended September 28, 2018, are as follows:

(Dollars in millions)	Aı	mount
Balance at June 29, 2018	\$	1,237
Goodwill acquired		
Goodwill disposed		
Foreign currency translation effect		
Balance at September 28, 2018	\$	1,237

Other Intangible Assets

Other intangible assets consist primarily of existing technology, customer relationships and trade names acquired in business combinations. Intangibles are amortized on a straight-line basis over the respective estimated useful lives of the assets. Amortization is charged to Operating expenses in the Company s Condensed Consolidated Statements of Operations.

The carrying value of other intangible assets subject to amortization, excluding fully amortized intangible assets, as of September 28, 2018, is set forth in the following table:

	Gross (	Gross CarryingcumulatedNet CarryingVeighted-Average							
(Dollars in millions)	Am	ount Amo	ortization	Amoun Rema	aining Useful Life				
Existing technology	\$	256 \$	(158)	\$ 98	2.3 years				
Customer relationships		89	(46)	43	3.8 years				
Trade name		17	(14)	3	1.1 years				
Other intangible assets		45	(20)	25	3.0 years				
Total amortizable other intangible assets	\$	407 \$	(238)	\$ 169	2.8 years				

The carrying value of other intangible assets subject to amortization, excluding fully amortized intangible assets, as of June 29, 2018, is set forth in the following table:

	Gross CarryingcumulatedNet CarryingVeighted-Avera						
(Dollars in millions)	Am	ount Am	ortization	Amoun Ren	naining Useful Life		
Existing technology	\$	256 \$	(145)	\$ 111	2.5 years		
Customer relationships		89	(42)	47	4.0 years		
Trade name		17	(13)	4	1.3 years		
Other intangible assets		45	(19)	26	3.0 years		
Total amortizable other intangible assets	\$	407 \$	(219)	\$ 188	2.9 years		

For the three months ended September 28, 2018 and September 29, 2017, the amortization expense of other intangible assets were \$19 million and \$36 million, respectively. As of September 28, 2018, expected amortization expense for other intangible assets for each of the next five fiscal years and thereafter is as follows:

(Dollars in millions)	Am	ount
Remainder of 2019	\$	58
2020		57
2021		29
2022		20
2023		5
Thereafter		
Total	\$	169

### 6. Restructuring and Exit Costs

For the three months ended September 28, 2018 and September 29, 2017, the Company recorded restructuring charges of approximately \$23 million and \$51 million, respectively, comprised primarily of charges related to workforce reduction costs and facilities and other exit costs associated with the restructuring of its workforce. The Company s significant restructuring plans are described below. All restructuring charges are reported in Restructuring and other, net on the Company s Condensed Consolidated Statements of Operations.

December 2017 Plan On December 8, 2017, the Company committed to a restructuring plan (the December 2017 Plan ) to reduce its cost structure. The December 2017 Plan included reducing the Company s global headcount by approximately 500 employees. The December 2017 Plan was substantially completed by the end of fiscal year 2018.

July 2017 Plan On July 25, 2017, the Company committed to a restructuring plan (the July 2017 Plan ) to reduce its cost structure. The July 2017 Plan included reducing the Company s global headcount by approximately 600 employees. The July 2017 Plan was substantially completed during fiscal year 2018.

*March* 2017 *Plan* On March 9, 2017, the Company committed to a restructuring plan (the March 2017 Plan ) in connection with the continued consolidation of its global footprint. The Company closed its design center in Korea, resulting in the reduction of the Company s headcount by approximately 300 employees. The March 2017 Plan was substantially completed by the end of fiscal year 2017.

July 2016 Plan On July 11, 2016, the Company committed to a restructuring plan (the July 2016 Plan ) for continued consolidation of its global footprint across Asia, EMEA and the Americas. The July 2016 Plan included reducing worldwide headcount by approximately 6,500 employees. The July 2016 Plan was substantially completed during fiscal year 2018.

The following table summarizes the Company s restructuring activities under all of the Company s active restructuring plans for the three months ended September 28, 2018:

			mbe Pla		July Pl	201 an	7			rch Plai		Jul I	y 20 Plan		(	Other	Pla	ıns

#### 7. Derivative Financial Instruments

The Company is exposed to foreign currency exchange rate, interest rate, and to a lesser extent, equity market risks relating to its ongoing business operations. From time to time, the Company enters into cash flow hedges in the form of foreign currency forward exchange contracts in order to manage the foreign currency exchange rate risk on forecasted expenses and investments denominated in foreign currencies. The Company s accounting policies for these instruments are based on whether the instruments are classified as designated or non-designated hedging instruments. The Company records all derivatives in its Condensed Consolidated Balance Sheets at fair value. The changes in the fair value of highly effective designated cash flow hedges are recorded in Accumulated other comprehensive loss until the hedged item is recognized in earnings.

Derivatives that are not designated as hedging instruments or are not assessed to be highly effective are adjusted to fair value through earnings. The amount of net unrealized gain on cash flow hedges was \$2 million as of September 28, 2018 and less than \$1 million as of June 29, 2018.

The Company de-designates its cash flow hedges when the forecasted hedged transactions affect earnings or it is probable the forecasted hedged transactions will not occur in the initially identified time period. At such time, the associated gains and losses deferred in Accumulated other comprehensive loss on the Company s Condensed Consolidated Balance Sheets are reclassified immediately into earnings and any subsequent changes in the fair value of such derivative instruments are immediately reflected in earnings. The Company recognized a net gain of \$1 million in Other expense, net related to the loss of hedge designation on discontinued cash flow hedges during the three months ended September 28, 2018. The Company did not recognize any net gains or losses related to the loss of hedge designation on discontinued cash flow hedges during the three months ended September 29, 2017.

Other derivatives not designated as hedging instruments consist of foreign currency forward exchange contracts that the Company uses to hedge the foreign currency exposure on the investment in debt security and forecasted expenditures denominated in currency other than the U.S. dollar. The Company recognizes gains and losses on these contracts, as well as the related costs in Other, net on its Condensed Consolidated Statement of Operations along with foreign currency gains and losses on investment in debt security, and deferred gains of derivatives in Other current assets on the Condensed Consolidated Balance Sheets.

The following tables show the total notional value of the Company s outstanding foreign currency forward exchange contracts as of September 28, 2018 and June 29, 2018. All these foreign currency forward exchange contracts mature within 12 months.

		As of September 28, 2018

(Dollars in millions)	Hedges	Hedges
Japanese Yen	\$ 66 \$	1,310

The Company is subject to equity market risks due to changes in the fair value of the notional investments selected by its employees as part of its Non-qualified Deferred Compensation Plan the Seagate Deferred Compensation Plan (the

SDCP ). In fiscal year 2014, the Company entered into a Total Return Swap ( TRS ) in order to manage the equity market risks associated with the SDCP liabilities. The Company pays a floating rate, based on LIBOR plus an interest rate spread, on the notional amount of the TRS. The TRS is designed to substantially offset changes in the SDCP liability due to changes in the value of the investment options made by employees. As of September 28, 2018, the notional investments underlying the TRS amounted to \$120 million. The contract term of the TRS is through January 2019 and is settled on a monthly basis, therefore limiting counterparty performance risk. The Company did not designate the TRS as a hedge. Rather, the Company records all changes in the fair value of the TRS to earnings to offset the market value changes of the SDCP liabilities.

18

The following tables show the Company s derivative instruments measured at gross fair value as reflected in its Condensed Consolidated Balance Sheet as of September 28, 2018 and June 29, 2018:

	As of September 28, 2018

#### 8. Fair Value

Measurement of Fair Value

Fair value is defined as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When determining the fair value measurements for assets and liabilities required to be recorded at fair value, the Company considers the principal or most advantageous market in which it would transact and it considers assumptions that market participants would use when pricing the asset or liability.

Fair Value Hierarchy

A fair value hierarchy is based on whether the market participant assumptions used in determining fair value are obtained from independent sources (observable inputs) or reflects the Company s own assumptions of market participant valuation (unobservable inputs). A financial instrument s categorization within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement. The three levels of inputs that may be used to measure fair value are:

Level 1 Quoted prices in active markets that are unadjusted and accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2 Quoted prices for identical assets and liabilities in markets that are inactive; quoted prices for similar assets and liabilities in active markets or financial instruments for which significant inputs are observable, either directly or indirectly; or

Level 3 Prices or valuations that require inputs that are both unobservable and significant to the fair value measurement.

The Company considers an active market to be one in which transactions for the asset or liability occur with sufficient frequency and volume to provide pricing information on an ongoing basis, and views an inactive market as one in which there are few transactions for the asset or liability, the prices are not current, or price quotations vary substantially either over time or among market makers. Where appropriate the Company s or the counterparty s non-performance risk is considered in determining the fair values of liabilities and assets, respectively.

Items Measured at Fair Value on a Recurring Basis

The following tables present the Company s assets and liabilities, by financial instrument type and balance sheet line item that are measured at fair value on a recurring basis, excluding accrued interest components, as of September 28, 2018:

\$621 \$

405 \$

\$ 1,026

The Company classifies items in Level 1 if the financial assets consist of securities for which quoted prices are available in an active market.

Total assets

The Company classifies items in Level 2 if the financial asset or liability is valued using observable inputs. The Company uses observable inputs including quoted prices in active markets for similar assets or liabilities. Level 2 assets include: agency bonds, corporate bonds, commercial paper, municipal bonds, U.S. Treasuries, time deposits and certificates of deposit. These debt investments are priced using observable inputs and valuation models which vary by asset class.

The Company uses a pricing service to assist in determining the fair value of all of its cash equivalents and short-term investments. For the cash equivalents and short-term investments in the Company s portfolio, multiple pricing sources are generally available. The pricing service uses inputs from multiple industry standard data providers or other third party sources and various methodologies, such as weighting and models, to determine the appropriate price at the measurement date. The Company corroborates the prices obtained from the pricing service against other independent sources and, as of September 28, 2018, has not found it necessary to make any adjustments to the prices obtained. The Company s derivative financial instruments are also classified within Level 2. The Company s derivative financial instruments consist of foreign currency forward exchange contracts and the TRS. The Company recognizes derivative financial instruments in its condensed consolidated financial statements at fair value. The Company determines the fair value of these instruments by considering the estimated amount it would pay or receive to terminate these agreements at the reporting date.

As of September 28, 2018 and June 29, 2018, the Company had no Level 3 assets or liabilities measured at fair value on a recurring basis.

Items Measured at Fair Value on a Non-Recurring Basis

From time to time, the Company enters into certain strategic investments for the promotion of business and strategic objectives. These strategic investments primarily include cost basis investments representing those where the Company does not have the ability to exercise significant influence as well as equity method investments representing those where the Company does have the ability to exercise significant influence but does not have control. These investments are included in Other assets, net in the Company s Condensed Consolidated Balance Sheets, and are periodically analyzed to determine whether or not there are indicators of impairment.

Prior to fiscal year 2019, the Company s strategic investments in privately-held companies without readily determinable fair values were accounted for under the cost method and were recorded at historical cost at the time of investment, with adjustments to the balance only in the event of impairment. Effective June 30, 2018, the Company adopted ASU 2016-01, *Financial Instruments*, which changed the way the Company accounts for equity investments, excluding investments that qualify for the equity method of accounting. The Company s equity investments in privately-held companies without readily determinable fair values are now measured using the measurement alternative, defined by ASC 321, *Investments - Equity Securities*, as cost, less impairments, and adjusted up or down based on observable price changes in orderly transactions for identical or similar investments of the same issuer. Any adjustments resulting from impairments and/or observable price changes are recorded as Other, net in the Company s Condensed Consolidated Statements of Operations.

As of September 28, 2018 and June 29, 2018, the carrying value of the Company s strategic investments were \$107 million and \$118 million, respectively. For the three months ended September 28, 2018 and September 29, 2017, the Company did not have any equity investments accounted for under the cost method that were other-than-temporarily impaired and did not record any impairment charges. There were no upward or downward adjustments on equity investments as a result of adoption of measurement alternative during the September 2018 quarter.

As of September 28, 2018 and June 29, 2018, the Company had \$26 million of held for sale land and building (collectively, the property ) in Asia included in Other current assets on its Condensed Consolidated Balance Sheets. The respective property to be sold met the criteria to be classified as held for sale at the end of fiscal year 2017. During the September 2018 quarter, the Company accepted an offer to sell the property to a third party. The sale is expected to be completed by the end of fiscal year 2019, subject to government approval and customary closing conditions. No impairment was identified for the three months ended September 28, 2018 and September 29, 2017.

## Other Fair Value Disclosures

The Company s investment in a debt security, classified as held-to-maturity, represents shares of non-convertible preferred stock of TMC. This debt security has a maturity date of six years starting from May 31, 2018 and is classified as Investment in debt security on the Company s Condensed Consolidated Balance Sheets. The debt security is recorded at amortized cost and its fair value approximated the carrying value at June 29, 2018. As of September 28, 2018, the fair value of this investment was \$1,289 million with an unrealized gain of \$30 million on the carrying value of \$1,259 million. The fair value was determined utilizing Level 2 inputs such as discount rates and yield terms of similar types of securities issued by comparable companies.

The Company s debt is carried at amortized cost. The estimated fair value of the Company s debt is derived using the closing price of the same debt instruments as of the date of valuation, which takes into account the yield curve, interest rates and other observable inputs. Accordingly, these fair value measurements are categorized as Level 2. The following table presents the fair value and amortized cost of the Company s debt in order of maturity:

	Septen		28,			1040
	20	)18		June 2

### 9. Equity

Share Capital

The Company s authorized share capital is \$13,500 and consists of 1,250,000,000 ordinary shares, par value \$0.00001, of which 286,127,032 shares were outstanding as of September 28, 2018, and 100,000,000 preferred shares, par value \$0.00001, of which none were issued or outstanding as of September 28, 2018.

Ordinary shares Holders of ordinary shares are entitled to receive dividends as and when declared by the Company s board of directors (the Board of Directors). Upon any liquidation, dissolution, or winding up of the Company, after required payments are made to holders of preferred shares, any remaining assets of the Company will be distributed ratably to holders of the preferred and ordinary shares. Holders of shares are entitled to one vote per share on all matters upon which the ordinary shares are entitled to vote, including the election of directors.

*Preferred shares* The Company may issue preferred shares in one or more series, up to the authorized amount, without shareholder approval. The Board of Directors is authorized to establish from time to time the number of shares to be included in each series, and to fix the rights, preferences and privileges of the shares of each wholly unissued series and any of its qualifications, limitations or restrictions. The Board of Directors can also increase or decrease the number of shares of a series, but not below the number of shares of that series then outstanding, without any further vote or action by the shareholders.

The Board of Directors may authorize the issuance of preferred shares with voting or conversion rights that could harm the voting power or other rights of the holders of the ordinary shares. The issuance of preferred shares, while providing flexibility in connection with possible acquisitions and other corporate purposes, could, among other things, have the effect of delaying, deferring or preventing a change in control of the Company and might harm the market price of its ordinary shares and the voting and other rights of the holders of ordinary shares.

#### Repurchases of Equity Securities

All repurchases are effected as redemptions in accordance with the Company s Articles of Association.

As of September 28, 2018, \$0.7 billion remained available for repurchase under the existing repurchase authorization limit.

The following table sets forth information with respect to repurchases of the Company s shares during the three months ended September 28, 2018:

	Number of Shad	Number of Shandollar Value of Shares				
(In millions)	Repurchased	Repurchased				
Repurchases of ordinary shares	3	\$ 150				
Tax withholding related to vesting of equity awards	1	27				
Total	4	\$ 177				

## 10. Revenue

The following table provides information about disaggregated revenue by sales channel and geographical region for the Company s single reportable segment:

	For the Three Months Ended September 28eptember 29		
(Dollars in million)	2018	20¢p	2017
Revenues by Channel			
OEMs	\$ 2,138	\$	1,834
Distributors	534		434
Retailers	319		364
Total	\$ 2,991	\$	2,632
Revenues by Geography <sup>(1)</sup>			
Americas	\$ 1,006	\$	875
EMEA	517		472
Asia Pacific	1,468		1,285
Total	\$ 2,991	\$	2,632

<sup>(1)</sup> Revenue is attributed to countries based on bill from locations.

## 11. Share-based Compensation

The Company recorded approximately \$18 million and \$32 million of share-based compensation expense during the three months ended September 28, 2018 and September 29, 2017, respectively.

#### 12. Guarantees

Indemnifications of Officers and Directors

On May 4, 2009, Seagate Technology, an exempted company incorporated with limited liability under the laws of the Cayman Islands (Seagate-Cayman), then the parent company, entered into a new form of indemnification agreement (the Revised Indemnification Agreement ) with its officers and directors of Seagate-Cayman and its subsidiaries (each, an Indemnitee ). The Revised Indemnification Agreement provides indemnification in addition to any of Indemnitee s indemnification rights under Seagate-Cayman s Articles of Association, applicable law or otherwise, and indemnifies an Indemnitee for certain expenses (including attorneys fees), judgments, fines and settlement amounts actually and reasonably incurred by him or her in any action or proceeding, including any action by or in the right of Seagate-Cayman or any of its subsidiaries, arising out of his or her service as a director, officer, employee or agent of Seagate-Cayman or any of its subsidiaries or of any other entity to which he or she provides services at Seagate-Cayman s request. However, an Indemnitee shall not be indemnified under the Revised Indemnification Agreement for (i) any fraud or dishonesty in the performance of Indemnitee s duty to Seagate-Cayman or the applicable subsidiary of Seagate-Cayman or (ii) Indemnitee s conscious, intentional or willful failure to act honestly, lawfully and in good faith with a view to the best interests of Seagate-Cayman or the applicable subsidiary of Seagate-Cayman. In addition, the Revised Indemnification Agreement provides that Seagate-Cayman will advance expenses incurred by an Indemnitee in connection with enforcement of the Revised Indemnification Agreement or with the investigation, settlement or appeal of any action or proceeding against him or her as to which he or she could be indemnified.

On July 3, 2010, pursuant to a corporate reorganization, the common shareholders of Seagate-Cayman became ordinary shareholders of the Company and Seagate-Cayman became a wholly owned subsidiary of the Company, as described more fully in the Current Report on Form 8-K filed by the Company on July 6, 2010 (the Redomestication ). On July 27, 2010, in connection with the Redomestication, the Company, as sole shareholder of Seagate-Cayman, approved a form of deed of indemnity (the Deed of Indemnity ), which provides for the indemnification by Seagate-Cayman of any director, officer, employee or agent of the Company, Seagate-Cayman or any subsidiary of the Company (each, a Deed Indemnitee ), in addition to any indemnification rights of a Deed Indemnitee under the Company s Articles of Association, applicable law or otherwise, with a similar scope to the Revised Indemnification Agreement. Seagate-Cayman entered into Deeds of Indemnity with certain Deed Indemnitees effective as of July 3, 2010 and continues to enter into Deeds of Indemnity with additional Deed Indemnitees from time to time.

The nature of these indemnification obligations prevents the Company from making a reasonable estimate of the maximum potential amount it could be required to pay on behalf of its officers and directors. Historically, the Company has not made any significant indemnification payments under such agreements and no amount has been accrued in the Company s consolidated financial statements with respect to these indemnification obligations.

Intellectual Property Indemnification Obligations

The Company has entered into agreements with customers and suppliers that include limited intellectual property indemnification obligations that are customary in the industry. These guarantees generally require the Company to compensate the other party for certain damages and costs incurred as a result of third party intellectual property claims

arising from these transactions. The nature of the intellectual property indemnification obligations prevents the Company from making a reasonable estimate of the maximum potential amount it could be required to pay to its customers and suppliers. Historically, the Company has not made any significant indemnification payments under such agreements and no amount has been accrued in the Company s condensed consolidated financial statements with respect to these indemnification obligations.

### **Product Warranty**

The Company estimates probable product warranty costs at the time revenue is recognized. The Company generally warrants its products for a period of 1 to 5 years. The Company uses estimated repair or replacement costs and uses statistical modeling to estimate product return rates in order to determine its warranty obligation. Changes in the Company s product warranty liability during the three months ended September 28, 2018 and September 29, 2017 were as follows:

	For	the Three
	Mon	ths Ended
	September 2	<b>S</b> eptember 29,
(Dollars in millions)	2018	2017
Balance, beginning of period	\$ 237	\$ 233
Warranties issued	34	35
Repairs and replacements	(25)	(27)
Changes in liability for pre-existing warranties, including expirations	(14)	(11)
Balance, end of period	\$ 232	\$ 230

#### 13. Earnings Per Share

Basic earnings per share is computed by dividing income available to shareholders by the weighted-average number of shares outstanding during the period. Diluted earnings per share is computed by dividing income available to shareholders by the weighted-average number of shares outstanding during the period and the number of additional shares that would have been outstanding if the potentially dilutive securities had been issued. Potentially dilutive securities include outstanding options, unvested restricted stock units and performance-based share units and shares to be purchased under the Employee Stock Purchase Plan ( ESPP ). The dilutive effect of potentially dilutive securities is reflected in diluted earnings per share by application of the treasury stock method. Under the treasury stock method, an increase in fair market value of the Company s share price can result in a greater dilutive effect from potentially dilutive securities. The following table sets forth the computation of basic and diluted net income per share attributable to the shareholders of the Company:

	For the Three		
	<b>Months Ended</b>		
	September 2	Steptember 29,	
(In millions, except per share data)	2018	2017	
Numerator:			
Net income	\$ 450	\$ 181	
Number of shares used in per share calculations:			
Total shares for purposes of calculating basic net income per share	287	290	
Weighted-average effect of dilutive securities:			
Employee equity award plans	5	2	

Total shares for purpose of calculating diluted net income per share	292	292
Net income per share:		
Basic	\$ 1.57 \$	0.62
Diluted	\$ 1.54 \$	0.62

The anti-dilutive shares related to employee equity award plans that were excluded from the computation of diluted net income per share were less than 1 million for the three months ended September 28, 2018, and approximately 2 million for the three months ended September 29, 2017.

## 14. Legal, Environmental and Other Contingencies

The Company assesses the probability of an unfavorable outcome of all its material litigation, claims, or assessments to determine whether a liability had been incurred and whether it is probable that one or more future events will occur confirming the fact of the loss. In the event that an unfavorable outcome is determined to be probable and the amount of the loss can be reasonably estimated, the Company establishes an accrual for the litigation, claim or assessment. In addition, in the event an unfavorable outcome is determined to be less than probable, but reasonably possible, the Company will disclose an estimate of the possible loss or range of such loss; however, when a reasonable estimate cannot be made, the Company will provide disclosure to that effect. Litigation is inherently uncertain and may result in adverse rulings or decisions. Additionally, the Company may enter into settlements or be subject to judgments that may, individually or in the aggregate, have a material adverse effect on its results of operations. Accordingly, actual results could differ materially.

26

### Intellectual Property Litigation

Convolve, Inc. ( Convolve ) and Massachusetts Institute of Technology ( MIT ) v. Seagate Technology LLC, et al. On July 13, 2000, Convolve and MIT filed suit against Compaq Computer Corporation and Seagate Technology LLC in the U.S. District Court for the Southern District of New York, alleging infringement of U.S. Patent No. 4,916,635 (the 635 patent ) and U.S. Patent No. 5,638,267 (the 267 patent ), misappropriation of trade secrets, breach of contract, and other claims. On January 16, 2002, Convolve filed an amended complaint, alleging defendants were infringing U.S. Patent No. 6,314,473 (the 473 patent ). The district court ruled in 2010 that the 267 patent was out of the case.

On August 16, 2011, the district court granted in part and denied in part the Company s motion for summary judgment. On July 1, 2013, the U.S. Court of Appeals for the Federal Circuit: 1) affirmed the district court s summary judgment rulings that Seagate did not misappropriate any of the alleged trade secrets and that the asserted claims of the 635 patent are invalid; 2) reversed and vacated the district court s summary judgment of non-infringement with respect to the 473 patent; and 3) remanded the case for further proceedings on the 473 patent. On July 11, 2014, the district court granted the Company s further summary judgment motion regarding the 473 patent. On February 10, 2016, the U.S. Court of Appeals for the Federal Circuit: 1) affirmed the district court s summary judgment of no direct infringement by Seagate because Seagate s ATA/SCSI disk drives do not meet the user interface limitation of the asserted claims of the 473 patent; 2) affirmed the district court s summary judgment of non-infringement by Compaq s products as to claims 1, 3, and 5 of the 473 patent because Compag s F10 BIOS interface does not meet the commands limitation of those claims; 3) vacated the district court s summary judgment of non-infringement by Compaq s accused products as to claims 7-15 of the 473 patent; 4) reversed the district court s summary judgment of non-infringement based on intervening rights; and 5) remanded the case to the district court for further proceedings on the 473 patent. In view of the rulings made by the district court and the Court of Appeals and the uncertainty regarding the amount of damages, if any, that could be awarded Convolve in this matter, the Company does not believe that it is currently possible to determine a reasonable estimate of the possible range of loss related to this matter.

Lambeth Magnetic Structures LLC v. Seagate Technology (US) Holdings, Inc., et al. On April 29, 2016, Lambeth Magnetic Structures LLC filed a complaint against Seagate Technology (US) Holdings, Inc. and Seagate Technology LLC in the U.S. District Court for the Western District of Pennsylvania, alleging infringement of U.S. Patent No. 7,128,988, Magnetic Material Structures, Devices and Methods. The Company believes the claims asserted in the complaint are without merit and intends to vigorously defend this case. The court issued its claim construction ruling on October 18, 2017. No trial date has been set. While the possible range of loss for this matter remains uncertain, the Company estimates the amount of loss to be immaterial to the financial statements.

#### **Environmental Matters**

The Company s operations are subject to U.S. and foreign laws and regulations relating to the protection of the environment, including those governing discharges of pollutants into the air and water, the management and disposal of hazardous substances and wastes and the cleanup of contaminated sites. Some of the Company s operations require environmental permits and controls to prevent and reduce air and water pollution, and these permits are subject to modification, renewal and revocation by issuing authorities.

The Company has established environmental management systems and continually updates its environmental policies and standard operating procedures for its operations worldwide. The Company believes that its operations are in material compliance with applicable environmental laws, regulations and permits. The Company budgets for operating and capital costs on an ongoing basis to comply with environmental laws. If additional or more stringent requirements are imposed on the Company in the future, it could incur additional operating costs and capital expenditures.

Some environmental laws, such as the Comprehensive Environmental Response Compensation and Liability Act of 1980 (as amended, the Superfund law) and its state equivalents, can impose liability for the cost of cleanup of contaminated sites upon any of the current or former site owners or operators or upon parties who sent waste to these sites, regardless of whether the owner or operator owned the site at the time of the release of hazardous substances or the lawfulness of the original disposal activity. The Company has been identified as a responsible or potentially responsible party at several sites. At each of these sites, the Company has an assigned portion of the financial liability based on the type and amount of hazardous substances disposed of by each party at the site and the number of financially viable parties. The Company has fulfilled its responsibilities at some of these sites and remains involved in only a few at this time.

While the Company s ultimate costs in connection with these sites is difficult to predict with complete accuracy, based on its current estimates of cleanup costs and its expected allocation of these costs, the Company does not expect costs in connection with these sites to be material.

27

The Company may be subject to various state, federal and international laws and regulations governing the environment, including those restricting the presence of certain substances in electronic products. For example, the European Union ( EU ) enacted the Restriction of the Use of Certain Hazardous Substances in Electrical and Electronic Equipment, which prohibits the use of certain substances, including lead, in certain products, including disk drives and server storage products, put on the market after July 1, 2006. Similar legislation has been or may be enacted in other jurisdictions, including in the United States, Canada, Mexico, Taiwan, China, Japan and others. The European Union REACH Directive (Registration, Evaluation, Authorization, and Restriction of Chemicals, EC 1907/2006) also restricts substances of very high concern ( SVHCs ) in products. If the Company or its suppliers fails to comply with the substance restrictions, recycle requirements or other environmental requirements as they are enacted worldwide, it could have a materially adverse effect on the Company s business.

#### Other Matters

The Company is involved in a number of other judicial, regulatory or administrative proceedings and investigations incidental to its business, and the Company may be involved in such proceedings and investigations arising in the normal course of its business in the future. Although occasional adverse decisions or settlements may occur, the Company believes that the final disposition of such matters will not have a material adverse effect on its financial position or results of operations.

### 15. Subsequent Events

Dividend Declared

On November 2, 2018, the Company s Board of Directors declared a quarterly cash dividend of \$0.63 per share, which will be payable on January 2, 2019 to shareholders of record as of the close of business on December 19, 2018.

Share Repurchases

On October 29, 2018, the Company s Board of Directors authorized the repurchase of \$2.3 billion of its outstanding ordinary shares.

28

# ITEM 2. MANAGEMENT S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following is a discussion of the financial condition, changes in financial condition, and results of operations for our fiscal quarters ended September 28, 2018, June 29, 2018 and September 29, 2017, referred to herein as the September 2018 quarter, the June 2018 quarter, and the September 2017 quarter, respectively. We operate and report financial results on a fiscal year of 52 or 53 weeks ending on the Friday closest to June 30. The September 2018, June 2018 and September 2017 quarters were all 13 weeks.

You should read this discussion in conjunction with financial information and related notes included elsewhere in this report. Unless the context indicates otherwise, as used herein, the terms we, us, Seagate, the Company and our research Technology plc, an Irish public limited company, and its subsidiaries. References to \$ are to United States dollars.

Some of the statements and assumptions included in this Quarterly Report on Form 10-Q are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 or Section 21E of the Securities Exchange Act of 1934, each as amended, including, in particular, statements about our plans, strategies and prospects, demand for our products, shifts in technology, estimates of industry growth, our ability to effectively manage our debt obligations and our cash liquidity position, our restructuring efforts, the sufficiency of our sources of cash to meet our cash needs for the next 12 months, our expectations regarding capital expenditures, the potential impact of trade barriers such as import/export duties and restrictions, tariffs and quotas, and potential corresponding actions by the other countries in which the Company conducts its business, changes in the regulatory regime governing the flow of data across international borders, and the impact of the 2017 U.S. Tax Cuts and Jobs Act (the Tax Act ) on our financial statements and the projected costs savings for the fiscal year ending June 28, 2019. These statements identify prospective information and may include words such as expects, intends, plans, anticipates, believes. estimates will, or negative of these words, variations of these words and comparable terminology. Th predicts, projects, may, forward-looking statements are based on information available to the Company as of the date of this Quarterly Report on Form 10-Q and are based on management s current views and assumptions. These forward-looking statements are conditioned upon and also involve a number of known and unknown risks, uncertainties and other factors that could cause actual results, performance or events to differ materially from those anticipated by these forward-looking statements. Such risks, uncertainties and other factors may be beyond our control and may pose a risk to our operating and financial condition. Such risks and uncertainties include, but are not limited to:

the uncertainty in global economic and political conditions;

the development and introduction of products based on new technologies and expansion into new data storage markets;

the impact of competitive product announcements and unexpected advances in competing technologies or changes in market trends;

the impact of variable demand and an adverse pricing environment for storage products;

any regulatory, legal, logistical or other impediments to the Company s ability to execute on its restructuring efforts;

the Company s ability to achieve projected cost savings in connection with its restructuring plans and consolidation of its manufacturing activities;

the Company s ability to effectively manage its debt obligations and comply with certain covenants in its credit facilities with respect to financial ratios and financial condition tests and maintain a favorable cash liquidity position;

the Company s ability to successfully qualify, manufacture and sell its storage products, particularly the new disk drive products with lower cost structures, in increasing volumes on a cost-effective basis and with acceptable quality;

possible excess industry supply both with respect to particular disk drive products and competing alternative storage technology solutions;

disruptions to the Company s supply chain or production capabilities;

consolidation trends in the data storage industry;

fluctuations in interest rates;

currency fluctuations that may impact the Company s margins, international sales and results of operations;

fluctuations in the value of the Company s investments and the associated investment income;

the impact of trade barriers imposed by the U.S. government, such as import/export duties and restrictions, tariffs and quotas, and potential corresponding actions by other countries in which the Company conducts its business:

the evolving legal, regulatory and administrative climate in the international markets where the Company operates including changes in regulations relating to privacy and protection of data and environmental matters; and

cyber-attacks or other data breaches that disrupt the Company s operations or result in the dissemination of proprietary or confidential information and cause reputational harm, and the cybersecurity threats and vulnerabilities associated with the Company s infrastructure updates to its information technology systems.

29

Information concerning risks, uncertainties and other factors that could cause results to differ materially from those projected in such forward-looking statements is also set forth in Item 1A. Risk Factors of the Annual Report on Form 10-K for the fiscal year ended June 29, 2018, which we encourage you to carefully read. These forward-looking statements should not be relied upon as representing our views as of any date subsequent to the date on which they were made and we undertake no obligation to update forward-looking statements to reflect new information or future events or circumstances after the date they were made.

Our Management s Discussion and Analysis of Financial Condition and Results of Operations (MD&A) is provided in addition to the accompanying condensed consolidated financial statements and notes to assist readers in understanding our results of operations, financial condition, and cash flows. MD&A is organized as follows:

Our Company. Overview of our business.

Overview of the September 2018 quarter. Highlights of events in the September 2018 quarter that impacted our financial position.

*Results of Operations*. An analysis of our financial results comparing the September 2018 quarter to the June 2018 quarter and the September 2017 quarter.

Liquidity and Capital Resources. An analysis of changes in our balance sheet and cash flows, and discussion of our financial condition including the credit quality of our investment portfolio and potential sources of liquidity.

*Critical Accounting Policies*. Accounting policies and estimates that we believe are important to understanding the assumptions and judgments incorporated in our reported financial results.

## **Our Company**

We are a leading provider of data storage technology and solutions. Our principal products are hard disk drives, commonly referred to as disk drives, hard drives or HDDs. In addition to HDDs, we produce a broad range of data storage products including solid state drives (SSD) and storage subsystems.

Hard disk drives are devices that store digitally encoded data on rapidly rotating disks with magnetic surfaces. Disk drives continue to be the primary medium of mass data storage due to their performance attributes, high quality and cost effectiveness. Complementing existing data center storage architecture, solid-state storage devices use integrated circuit assemblies as memory to store data, and most SSDs use NAND flash memory.

Our HDD products are designed for mission critical and nearline applications in enterprise servers and storage systems; edge compute applications, where our products are designed primarily for desktop and mobile computing; and edge non-compute applications, where our products are designed for a wide variety of end user devices such as portable external storage systems, surveillance systems, digital video recorders ( DVRs ), network-attached storage ( NAS ) and gaming consoles. Our SSD products mainly include serial attached SCSI ( SAS ) and Non-Volatile Memory Express ( NVMe ) SSDs.

Our enterprise data solutions (formerly referred to as the cloud systems and solutions ) portfolio includes modular original equipment manufacturer ( OEM ) storage systems and scale-out storage servers.

## **Overview of the September 2018 Quarter**

During the September 2018 quarter, we shipped 99 exabytes of HDD storage capacity. We generated revenue of approximately \$3.0 billion, gross margin of 31% and our operating cash flow was \$587 million. We paid \$181 million in dividends and repurchased 3 million of our ordinary shares for \$150 million.

30

## **Results of Operations**

We list in the tables below summarized information from our Condensed Consolidated Statements of Operations by dollars and as a percentage of revenue:

	For the Three Months Ended				Ended
	September 2	28,	June 29,	Sep	tember 29,
(Dollars in millions)	2018		2018		2017
Revenue	\$ 2,991	\$	2,835	\$	2,632
Cost of revenue	2,078		1,931		1,896
Gross margin	913		904		736
Product development	266		259		263
Marketing and administrative	115		140		145
Amortization of intangibles	6		6		22
Restructuring and other, net	23		(6)		51
Income from operations	503		505		255
Other expense, net	(35)		(39)		(67)
Income before income taxes	468		466		188
Provision for income taxes	18		5		7
Net income	\$ 450	\$	461	\$	181

	For the Three Months Ended			
	September 28, June 29,		September 29,

#### Revenue

The following table summarizes information regarding consolidated revenues by channel and geography, HDD average drive selling prices ( ASPs ) and HDD exabytes shipped:

	For the	For the Three Months Ended				
	September 28, 2018	June 29, 2018	September 29, 2017			
Revenues by Channel (%)						
OEMs	71%	73%	70%			
Distributors	18%	17%	16%			
Retailers	11%	10%	14%			
Revenues by Geography (%)						
Americas	34%	36%	33%			
EMEA	17%	15%	18%			
Asia Pacific	49%	49%	49%			
HDD ASPs (per unit)	\$ 70 \$	\$ 72	\$ 64			
HDD Exabytes Shipped	99	93	70			

Revenue in the September 2018 quarter increased by \$156 million from the June 2018 quarter as a result of an increase in exabytes shipped driven primarily by higher seasonal demand for our client and consumer markets, partially offset by price erosion.

Revenue in the September 2018 quarter increased by \$359 million from the September 2017 quarter as a result of an increase in exabytes shipped driven primarily by higher demand for our enterprise and client markets, partially offset by price erosion.

We maintain various sales programs such as channel rebates and price masking. Sales programs were approximately 11%, 12% and 11% of gross drive revenue for the September 2018 quarter, June 2018 quarter and September 2017 quarter, respectively. Adjustments to revenues due to under or over accruals for sales programs related to revenues reported in prior quarterly periods were less than 1% of quarterly gross revenue in all periods presented.

Cost of Revenue and Gross Margin

	For the Three Months Ended							
	September 28, June 29,				September 29,			
(Dollars in millions)		2018		2018		2017		
Cost of revenue	\$	2,078	\$	1,931	\$	1,896		
Gross margin		913		904		736		
Gross margin percentage		31%		32%		28%		

Gross margin as a percentage of revenue for the September 2018 quarter decreased by approximately 100 basis points from the June 2018 quarter primarily due to a decline in prices for NAND flash memory and general price erosion. Compared to the September 2017 quarter, gross margin as a percentage of revenue increased by 300 basis points primarily driven by favorable product mix and improved factory utilization as a result of higher demand for our

enterprise and client markets, partially offset by a decline in prices for NAND flash memory and general price erosion.

In the September 2018 quarter, total warranty cost was 0.7% of revenue and included a favorable change in estimates of prior warranty accruals of 0.5% of revenue due to improvements in return rates on newer generation products. Warranty cost related to new shipments was 1.2%, 1.3% and 1.3% of revenue for the September 2018, June 2018 and September 2017 quarters, respectively.

Operating Expenses

	For t	For the Three Months Ended					
	September 2	September 28,June 29,					
(Dollars in millions)	2018	2018		2017			
Product development	\$ 266	\$ 259	\$	263			
Marketing and administrative	115	140		145			
Amortization of intangibles	6	6		22			
Restructuring and other, net	23	(6)	)	51			
Operating expenses	\$410	\$ 399	\$	481			

*Product development expense.* Product development expense for the September 2018 quarter remained relatively flat compared to the June 2018 quarter and the September 2017 quarter.

Marketing and administrative expense. Marketing and administrative expense for the September 2018 quarter decreased by \$25 million from the June 2018 quarter primarily due to a \$13 million decrease in variable compensation and share-based compensation expenses, a \$5 million decrease in salaries and employee benefits as a result of the restructuring of our workforce in prior periods and a \$7 million decrease in other general expenses due to related operational efficiencies.

Compared to the September 2017 quarter, Marketing and administrative expense decreased by \$30 million primarily due to a \$13 million decrease in salaries and employee benefits as a result of the restructuring of our workforce in prior periods, a \$9 million decrease in other general expenses due to related operational efficiencies and an \$8 million decrease in variable compensation and share-based compensation expenses.

Amortization of intangibles. Amortization of intangibles for the September 2018 quarter remained flat compared to the June 2018 quarter. Amortization of intangibles for the September 2018 quarter decreased by \$16 million from the September 2017 quarter due to certain intangible assets reaching the end of their useful life.

*Restructuring and other, net.* Restructuring and other, net for the September 2018 quarter was comprised of charges primarily related to a voluntary early exit program.

Restructuring and other, net for the June 2018 quarter included a gain of \$24 million from the sale of certain properties previously classified as held for sale, offset by restructuring charges announced in prior periods.

Restructuring and other, net for the September 2017 quarter was comprised of restructuring charges to reduce our global workforce by 600 employees.

Other Expense, Net

For the Three Months Ended September 28, June 29, September 29, 2018 2018 2017

(Dollars in millions)

Other expense, net \$ (35) \$ (39) \$ (67)

Other expense, net decreased by \$4 million from the June 2018 quarter primarily due to an \$11 million increase in interest income on investment in a debt security, offset by a \$5 million net increase in losses due to unfavorable changes in foreign currency exchange rates.

Compared to the September 2017 quarter, Other expense, net decreased by \$32 million primarily due to a \$16 million net increase in gains due to favorable changes in foreign currency exchange rates and a \$16 million increase in interest income on investment in a debt security.

Income Taxes

	For t	For the Three Months Ended						
	September :	28June 29,	Septem	ıber 29,				
(Dollars in millions)	2018	2018	20	17				
Provision for income taxes	\$ 18	\$ 5	5 \$	7				

Our income tax provision of \$18 million for the September 2018 quarter included approximately \$1 million of net discrete tax expense.

Our income tax provision recorded for the September 2018 quarter differed from the provision from income taxes that would be derived by applying the Irish statutory rate of 25% to income before income taxes, primarily due to the net effect of (i) tax benefits related to non-U.S. earnings generated in jurisdictions that are subject to tax holidays or tax incentive programs and are considered indefinitely reinvested outside of Ireland and (ii) a decrease in valuation allowance for certain deferred tax assets.

During the three months ended September 28, 2018 our unrecognized tax benefits excluding interest and penalties increased by approximately \$2 million to \$62 million. The unrecognized tax benefits that, if recognized, would impact the effective tax rate were \$62 million at September 28, 2018, subject to certain future valuation allowance reversals. During the 12 months beginning September 29, 2018, we expect that our unrecognized tax benefits could be reduced by approximately \$19 million, primarily as a result of the expiration of certain statutes of limitation.

Our income tax provision of \$7 million recorded for the September 2017 quarter included approximately \$1 million of net discrete tax expense.

Our income tax provision recorded for the September 2017 quarter differed from the provision from income taxes that would be derived by applying the Irish statutory rate of 25% to income before income taxes, primarily due to the net effect of (i) tax benefits related to non-U.S. earnings generated in jurisdictions that are subject to tax holidays or tax incentive programs and are considered indefinitely reinvested outside of Ireland and (ii) a decrease in valuation allowance for certain deferred tax assets.

On December 22, 2017, the Tax Act was enacted into law in the United States. The Tax Act significantly revises U.S. corporate income tax law by, among other things, lowering U.S. corporate income tax rates from 35% to 21%, implementing a territorial tax system, and imposing a one-time transition tax on deemed repatriated earnings of non-U.S. subsidiaries.

The U.S. tax law changes, including limitations on various business deductions such as executive compensation under Internal Revenue Code §162(m), will not impact our tax expense in the short-term due to our large net operating loss and tax credit carryovers and associated valuation allowance. The Tax Act s new international rules, including Global Intangible Low-Taxed Income (GILTI), Foreign Derived Intangible Income (FDII), and Base Erosion Anti-Avoidance Tax (BEAT) are effective beginning in fiscal year 2019. For fiscal year 2019, we have included these effects of the Tax Act in our financial statements and have concluded the impact will not be material.

Pursuant to SEC Staff Accounting Bulletin (SAB) 118 (regarding the application of ASC 740 associated with the enactment of the Tax Act), we believe our accounting under ASC 740 for the provisions of the Tax Act is now complete.

## **Liquidity and Capital Resources**

The following sections discuss our principal liquidity requirements, as well as our sources and uses of cash and our liquidity and capital resources. Our cash and cash equivalents are maintained in investments with remaining maturities of 90 days or less at the time of purchase. Our short-term investments consist primarily of money market funds, time deposits and certificates of deposit. The principal objectives of our investment policy are the preservation of principal and maintenance of liquidity. We believe our cash equivalents and short-term investments are liquid and accessible. We operate in some countries that have restrictive regulations over the movement of cash and/or foreign exchange across their borders. However, we believe our sources of cash have been and will continue to be sufficient to meet our cash needs for the next 12 months. We are not aware of any downgrades, losses or other significant deterioration in the fair value of our cash equivalents or short-term investments and we do not believe the fair value of our short-term

investments has significantly changed from the values reported as of September 28, 2018.

Cash and Cash Equivalents

	September 28,	<b>June 29</b> ,	
(Dollars in millions)	2018	2018	Change
Cash and cash equivalents	\$ 1.942	\$ 1.853	\$ 89

Our cash and cash equivalents increased from June 29, 2018 as a result of an increase in the net cash provided by operating activities, partially offset by net cash outflows for dividends paid to our shareholders of \$181 million, capital expenditures of \$177 million and repurchases of our ordinary shares of \$150 million.

Cash Provided by Operating Activities

Cash provided by operating activities for the three months ended September 28, 2018 was \$587 million and includes the effects of net income adjusted for non-cash items including depreciation, amortization, share-based compensation and:

an increase of \$119 million in accounts payable, primarily due to higher material purchases;

34

partially offset by a decrease of \$79 million in accrued employee compensation primarily due to cash paid to our employees as part of our variable compensation plans; and

an increase of \$66 million in inventory, primarily due to an increase in units built. *Cash Used in Investing Activities* 

Cash used in investing activities for the three months ended September 28, 2018 was \$176 million, which was primarily attributable to the payments for the purchase of property, equipment and leasehold improvements of \$177 million.

Cash Used in Financing Activities

Cash used in financing activities of \$326 million for the three months ended September 28, 2018 was primarily attributable to the following activities:

\$181 million in dividend payments;

\$150 million paid to repurchase ordinary shares; and

\$27 million paid for taxes related to net share settlement of equity awards;

partially offset by \$32 million in proceeds from the issuance of ordinary shares under employee stock plans. *Liquidity Sources, Cash Requirements and Commitments* 

Our primary sources of liquidity as of September 28, 2018 consisted of: (1) approximately \$1.9 billion in cash and cash equivalents, (2) cash we expect to generate from operations and (3) a \$700 million senior revolving credit facility.

As of September 28, 2018, no borrowings had been drawn under the revolving credit facility or had been utilized for letters of credit issued under this credit facility. The line of credit is available for borrowings, subject to compliance with financial covenants and other customary conditions to borrowing.

The credit agreement that governs our revolving credit facility, as amended, includes three financial covenants: (1) minimum cash, cash equivalents and marketable securities; (2) a fixed charge coverage ratio; and (3) a net leverage ratio. The term of the revolving credit facility is through January 15, 2020. We were in compliance with the modified covenants as of September 28, 2018 and expect to be in compliance for the next 12 months.

Our liquidity requirements are primarily to meet our working capital, product development and capital expenditure needs, to fund scheduled payments of principal and interest on our indebtedness, and to fund our quarterly dividend and any future strategic investments. Our ability to fund these requirements will depend on our future cash flows, which are determined by future operating performance, and therefore, subject to prevailing global macroeconomic conditions and financial, business and other factors, some of which are beyond our control.

For fiscal year 2019, we expect capital expenditures to remain below our long-term targeted range of 6% to 8% of revenue.

From time to time we may repurchase any of our outstanding notes in open market or privately negotiated purchases or otherwise, or we may repurchase outstanding notes pursuant to the terms of the applicable indenture.

Dividends declared in the September 2018 quarter of \$180 million were subsequently paid on October 3, 2018. The Company s Board of Directors declared a quarterly cash dividend of \$0.63 per share on November 2, 2018, which is payable on January 2, 2019 to shareholders of record at the close of business on December 19, 2018.

From time to time we may repurchase any of our outstanding ordinary shares through private, open market, tender offers broker-assisted purchases or other means. As of September 28, 2018, \$0.7 billion remained available for repurchase under our existing repurchase authorization limit. All repurchases are effected as redemptions in accordance with the Company s Articles of Association. On October 29, 2018, the Board of Directors authorized the repurchase of an additional \$2.3 billion of our outstanding ordinary shares.

35

## **Critical Accounting Policies**

Our discussion and analysis of financial condition and results of operations are based upon our condensed consolidated financial statements, which have been prepared in accordance with U.S. generally accepted accounting principles. The preparation of such statements requires us to make estimates and assumptions that affect the reported amounts of revenues and expenses during the reporting period and the reported amounts of assets and liabilities as of the date of the financial statements. Our estimates are based on historical experience and other assumptions that we consider to be appropriate in the circumstances. However, actual future results may vary from our estimates.

Other than as described in Note 1. Basis of Presentation and Summary of Significant Accounting Policies in the notes to the condensed consolidated financial statements, there have been no other material changes in our critical accounting policies and estimates. Refer to Management s Discussion and Analysis of Financial Condition and Results of Operations contained in Part II, Item 7 of our Annual Report on Form 10-K for the fiscal year ended June 29, 2018, as filed with the SEC on August 3, 2018, for a discussion of our critical accounting policies and estimates.

## **Recent Accounting Pronouncements**

See Part I, Item 1. Financial Statements Note 1. Basis of Presentation and Summary of Significant Accounting Policies for information regarding the effect of new accounting pronouncements on our financial statements.

36

## ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We have exposure to market risks due to the volatility of interest rates, foreign currency exchange rates, credit rating changes, equity and bond markets. A portion of these risks may be hedged, but fluctuations could impact our results of operations, financial position and cash flows.

Interest Rate Risk. Our exposure to market risk for changes in interest rates relates primarily to our cash investment portfolio including investment in debt security in Toshiba Memory Corporation ( TMC , formerly known as K.K. Pangea ). As of September 28, 2018, we had no impairment for our investment in debt security and we had no available-for-sale debt securities that had been in a continuous unrealized loss position for a period greater than 12 months. We determined no available-for-sale debt securities were other-than-temporarily impaired as of September 28, 2018.

We have fixed rate debt obligations. We enter into debt obligations for general corporate purposes including capital expenditures and working capital needs.

The table below presents principal amounts and related weighted-average interest rates by year of maturity for our investment portfolio and debt obligations as of September 28, 2018.

#### **Fiscal Years Ended**

	2010	•••	2024			-			V epte	rair alue a ember

verage interest rate	2.46%							2.46%		
nvestment in debt security including										
ccrued PIK income:										
fixed rate	\$	\$	\$	\$	\$	\$	1,255	\$ 1,255	\$	1,289
fixed interest rate							5.00%	5.00%		
<b>Debt</b>										
ixed rate	\$ 499	\$	\$	\$ 750	\$ 951	\$	2,662	\$ 4,862	\$	4,723
verage interest rate	3.75%			4.25%	4.75%		4.99%	4.70%		

Foreign Currency Exchange Risk. From time to time, we may enter into foreign currency forward exchange contracts to manage exposure related to certain foreign currency commitments and anticipated foreign currency denominated expenditures. Our policy prohibits us from entering into derivative financial instruments for speculative or trading purposes. At this time, we have not identified any material exposure associated with the potential changes related to the British vote to exit the European Union.

We hedge portions of our foreign currency denominated balance sheet positions with foreign currency forward exchange contracts to reduce the risk that our earnings will be adversely affected by changes in currency exchange rates. Our foreign currency forward exchange contracts include an aggregate notional amount of 139.5 billion Japanese Yen (\$1.3 billion at September 28, 2018 and June 29, 2018), to hedge foreign exchange fluctuations of our investment principal in non-convertible preferred stock debt security of TMC. We did not designate these contracts as

hedges under ASC 815, Derivatives and Hedging and, therefore, the change in fair value of these contracts is recognized in earnings in the same period as the gains and losses from the remeasurement of the assets and liabilities. All foreign currency forward exchange contracts discussed above mature within 12 months.

We evaluate hedging effectiveness prospectively and retrospectively. Our foreign currency forward exchange contracts include a notional amount of approximately 7 billion Japanese Yen (\$66 million at June 29, 2018), to hedge the PIK income related to TMC investment, which is designated as a cash flow hedge. As of September 29, 2018, \$22 million was de-designated and included in contracts not designated as hedges.

We did not have any material net gains or losses recognized in Other expense, net for cash flow hedges due to hedge ineffectiveness or discontinued cash flow hedges during the three months ended September 28, 2018.

The table below provides information as of September 28, 2018 about our foreign currency forward exchange contracts. The table is provided in U.S. dollar equivalent amounts and presents the notional amounts (at the contract exchange rates) and the weighted-average contractual foreign currency exchange rates.

	Weighted-				
		Average	Estimated		
	Notional	Contract	Fair

British Pound Sterling	43	0.77	1		
Japanese Yen	1,376	106.50	52		
Total	\$ 1,580		\$ 53		

## (1) Equivalent to the unrealized net gain (loss) on existing contracts.

Other Market Risks. We have exposure to counterparty credit downgrades in the form of credit risk related to our foreign currency forward exchange contracts and our fixed income portfolio. We monitor and limit our credit exposure for our foreign currency forward exchange contracts by performing ongoing credit evaluations. We also manage the notional amount of contracts entered into with any one counterparty, and we maintain limits on maximum tenor of contracts based on the credit rating of the financial institution. Additionally, the investment portfolio is diversified and structured to minimize credit risk.

Changes in our corporate issuer credit ratings have minimal impact on our near term financial results, but downgrades may negatively impact our future ability to raise capital, increase the cost of such capital and our ability to execute transactions with various counterparties.

We have an investment in debt security of \$1.3 billion carried at amortized cost. We review our debt security for impairment when events and circumstances indicate a decline in fair value of such asset below carrying value is other-than-temporary.

We are subject to equity market risks due to changes in the fair value of the notional investments selected by our employees as part of our Seagate Deferred Compensation Plan (the SDCP). In fiscal year 2014, we entered into a Total Return Swap (TRS) in order to manage the equity market risks associated with the SDCP liabilities. We pay a floating rate, based on LIBOR plus an interest rate spread, on the notional amount of the TRS. The TRS is designed to substantially offset changes in the SDCP liability due to changes in the value of the investment options made by employees. See Part I, Item 1. Financial Statements Note 7. Derivative Financial Instruments of this Quarterly Report on Form 10-Q.

#### ITEM 4. CONTROLS AND PROCEDURES

As required by the Exchange Act Rule 13a-15, as of September 28, 2018 we carried out an evaluation under the supervision and with the participation of our management, including our chief executive officer and chief financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the period covered by this Quarterly Report. Based on the evaluation, our management, including our chief executive officer and chief financial officer, concluded that our disclosure controls and procedures are effective as of September 28, 2018.

In connection with our adoption of the new revenue recognition standard in the September 2018 quarter, we implemented internal controls to ensure that the necessary revenue contracts, policies and process flows were reviewed to identify the impact of adoption. There were no significant changes to our internal control over financial reporting due to the adoption of the new revenue recognition standard. During the quarter ended September 28, 2018, there were no other changes in our internal control over financial reporting that materially affected, or were reasonably likely to materially affect, our internal control over financial reporting.

38

#### **PART II**

#### OTHER INFORMATION

### ITEM 1. LEGAL PROCEEDINGS

For a discussion of legal proceedings, see Part I, Item 1. Financial Statements Note 14. Legal, Environmental and Other Contingencies of this Quarterly Report on Form 10-Q.

#### ITEM 1A.RISK FACTORS

There have been no material changes to the description of the risk factors associated with our business previously disclosed in Part I, Item 1A, Risk Factors in our Annual Report on Form 10-K for the fiscal year ended June 29, 2018. In addition to the other information set forth in this report, you should carefully consider the risk factors discussed in our Annual Report on Form 10-K as they could materially affect our business, financial condition and future results.

The Risk Factors are not the only risks facing us. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially and adversely affect our business, financial condition or operating results.

# ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS Repurchase of Equity Securities

All repurchases are effected as redemptions in accordance with the Company s Articles of Association.

As of September 28, 2018, \$0.7 billion remained available for repurchase under the existing repurchase authorization limit. There is no expiration date on this authorization. On October 29, 2018, the Board of Directors authorized the repurchase of an additional \$2.3 billion of our outstanding ordinary shares.

The following table sets forth information with respect to all repurchases of our shares made during the fiscal quarter ended September 28, 2018, including statutory tax withholdings related to vesting of employee equity awards:
