Indicate by check mark whether the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.

Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act.

Yes No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Registration S-T during the preceding twelve months (or for such shorter period that the registrant was required to submit and post such files).

Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Edgar Filing: ARVINMERITOR INC - Form 10-K/A

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See definitions of "large accelerated filer", "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one)

Large accelerated filer	<input type="radio"/>	Accelerated filer	<input checked="" type="radio"/>
Non-accelerated filer	<input type="radio"/> (Do not check if a smaller reporting company)	Smaller reporting company	<input type="radio"/>

Edgar Filing: ARVINMERITOR INC - Form 10-K/A

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

The aggregate market value of the registrant's voting and non-voting common equity held by non-affiliates of the registrant on April 1, 2010 (the last business day of the most recently completed second fiscal quarter) was approximately \$1,278,566,692.

94,072,706 shares of the registrant's Common Stock, par value \$1 per share, were outstanding on April 4, 2010.

DOCUMENTS INCORPORATED BY REFERENCE

Certain information contained in the Proxy Statement for the Annual Meeting of Shareowners of the registrant held on January 28, 2010 is incorporated by reference into Part III of the Annual Report on Form 10-K for the fiscal year ended September 27, 2009.

Edgar Filing: ARVINMERITOR INC - Form 10-K/A

EXPLANATORY NOTE - AMENDMENT

ArvinMeritor, Inc. (the “company” or “ArvinMeritor”) is filing this Form 10-K/A to include in its Annual Report on Form 10-K for the fiscal year ended September 27, 2009 (the “Annual Report”), pursuant to Rule 3-09 of Regulation S-X under the Securities Exchange Act of 1934, financial statements and related notes of Master Sistemas Automotivos Ltda. (“MSA”) and Suspensys Sistemas Automotivos Ltda. (“SSA”), unconsolidated joint ventures in which the company owns an interest. ArvinMeritor owns a 49% interest in MSA (directly) and a 50% interest in SSA (through both direct and indirect interests).

Rule 3-09 of Regulation S-X provides that if a 50% or less owned person accounted for by the equity method meets the first or third condition of the significant subsidiary tests set forth in Rule 1-02(w), substituting 20% for 10%, separate financial statements for such 50% or less owned person shall be filed.

MSA met such test for ArvinMeritor’s 2008 fiscal year and the company has included in this Form 10-K/A the required audited financial statements for the fiscal year ended December 31, 2008 (“2008”). MSA did not meet the significance test for ArvinMeritor’s 2009 and 2007 fiscal years. Consequently, ArvinMeritor is only required to file unaudited financial statements for 2009 and 2007 fiscal years. However, since MSA’s audited financial statements for the fiscal year ended December 31, 2007 (“2007”) were filed with the Securities and Exchange Commission (“SEC”) in a prior year filing, the audited financial statements for fiscal year 2007 have been included in this Form 10-K/A for comparative purposes. ArvinMeritor has also included in this Form 10-K/A MSA’s unaudited financial statements for fiscal year ended December 31, 2009 (“2009”).

SSA met the significant subsidiary test for ArvinMeritor’s 2008 fiscal year and the company has included in this Form 10-K/A the required audited financial statements for the year ended December 31, 2008. SSA did not meet the significance test for ArvinMeritor’s 2009 and 2007 fiscal years. Consequently, ArvinMeritor is only required to file unaudited financial statements for 2009 and 2007 fiscal years. However, since SSA’s audited financial statements for the fiscal year ended December 31, 2007 (“2007”) were filed with the SEC in a prior year filing, audited financial statements for fiscal year 2007 have been included in this Form 10-K/A for comparative purposes. ArvinMeritor has also included in this Form 10-K/A, SSA’s unaudited financial statements for fiscal year ended December 31, 2009.

The financial statements of MSA and SSA are prepared in accordance with accounting principles generally accepted in Brazil, a basis of accounting other than U.S. GAAP. Since SSA met a 30% significance test set forth in Rule 3-09 for 2008 (i.e. in one of the years for which financial statements are presented), a quantitative reconciliation of key items presented under accounting principles generally accepted in Brazil with those of U.S. GAAP is required for all years for which financial statements of SSA are presented. Such reconciliations are included for SSA for 2009, 2008 and 2007. Since MSA met the significance test for 2008 at the 20% level and not the 30% level, only a narrative description of differences between these two bases of accounting is required for 2008 for MSA, which is included in MSA’s financial statements.

Item 15 is the only portion of the Annual Report being supplemented or amended by this Form 10-K/A. Additionally, in connection with the filing of this Form 10-K/A and pursuant to SEC rules, ArvinMeritor is including currently dated certifications. This Form 10-K/A does not otherwise update any exhibits as originally filed and does not otherwise reflect events occurring after the original filing date of the Annual Report. Accordingly, this Form 10-K/A should be read in conjunction with ArvinMeritor’s filings with the SEC subsequent to the filing of the Annual Report.

PART IV

Item 15. Exhibits and Financial Statement Schedules.

(a) Financial Statements, Financial Statement Schedules and Exhibits.

(1) Financial Statements.

Edgar Filing: ARVINMERITOR INC - Form 10-K/A

ArvinMeritor

The following financial statements and related notes were filed as part of Amendment No. 1 to the Annual Report filed with the SEC on November 20, 2009 (all financial statements listed below are those of the company and its consolidated subsidiaries):

Consolidated Statement of Operations, years ended September 30, 2009, 2008 and 2007.

Consolidated Balance Sheet, September 30, 2009 and 2008.

Consolidated Statement of Cash Flows, years ended September 30, 2009, 2008 and 2007.

Consolidated Statement of Shareowners' Equity, years ended September 30, 2009, 2008 and 2007.

Notes to Consolidated Financial Statements.

Report of Independent Registered Public Accounting Firm.

Master Sistemas Automotivos Ltda.

The following financial statements and related notes of Master Sistemas Automotivos Ltda. are included in this Amendment No. 2 to Form 10-K/A pursuant to Rule 3-09 of Regulation S-X:

Balance Sheets, December 31, 2009 and 2008

Independent Auditors' Report.

Suspensys Sistemas Automotivos Ltda.

The following financial statements and related notes of Suspensys Sistemas Automotivos Ltda. are included in this Amendment No. 2 to Form 10-K/A pursuant to Rule 3-09 of Regulation S-X:

Balance Sheets, December 31, 2009 and 2008

Statements of Income, Changes in Shareholders' Equity, and Cash Flows, years ended December 31, 2009, 2008 and 2007

Independent Auditors' Report.

Master Sistemas Automotivos Ltda.

Financial Statements as of
December 31, 2009 (Unaudited) and 2008 and For
the Years Ended December 31, 2009 (Unaudited),
2008 and 2007 and the Independent Auditors' Report.

Deloitte Touche Tohmatsu Auditores Independentes

INDEPENDENT AUDITORS REPORT

To the Board of Directors of
Master Sistemas Automotivos Ltda. - Caxias do Sul – RS

We have audited the accompanying balance sheet of Master Sistemas Automotivos Ltda. (the “Company”), a company incorporated in Brazil, as of December 31, 2008 and the related statements of income, changes in shareholders’ equity and cash flows for the years ended December 31, 2008 and 2007 and the statement of value added for the year ended December 31, 2008. These financial statements are the responsibility of the Company’s management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company’s internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Company as of December 31, 2008 and 2007 and the results of its operations for the years ended December 31, 2008 and 2007 in conformity with accounting practices adopted in Brazil.

As mentioned in Note 3.10 to the financial statements, changes in Brazilian accounting practices have been introduced effective January 1, 2008. The statements of income, changes in shareholders’ equity and cash flows for the year ended December 31, 2007 have been prepared in conformity with Brazilian accounting practices in effect until December 31, 2007 and as permitted by Technical Pronouncement 13 – First-time Adoption of Law 11638/07 and Provisional Act 448/09, are not being restated. Consequently, the statements of income, changes in shareholders’ equity and cash flows for the year ended December 31, 2008 may not be comparable with the statements of income, changes in shareholders’ equity and cash flows for the year ended December 31, 2007.

NOTES TO THE FINANCIAL STATEMENTS

AS OF DECEMBER 31, 2009 (UNAUDITED) AND 2008 AND FOR THE YEARS ENDED DECEMBER 31, 2009 (UNAUDITED), 2008 AND 2007

(Amounts in Brazilian thousand reais – R\$, except when stated otherwise)

1. OPERATIONS

Master Sistemas Automotivos Ltda. (“Company”) was established on April 24, 1986 and began operations in April, 1987. The company is engaged in the development, manufacturing, sale, assembly, distribution, importation and exportation of motion control systems for buses, trailers, trucks, and their related parts and components.

2. FINANCIAL STATEMENTS PRESENTATION

The financial statements have been prepared in conformity with the accounting practices adopted in Brazil, which comprise the Brazilian Corporate Law, the pronouncements, guidelines and interpretations issued by the Accounting Pronouncements Committee (CPC) and standards issued by Brazilian Securities and Exchange Commission (CVM).

In preparing the financial statements for 2008, the Company adopted for the first time the new accounting practices introduced by Law 11638/07, approved on December 28, 2007, as amended by Provisional Act 449 of December 3, 2008.

Law 11638/07 and the Provisional Act 449/08 altered Law 6404/76 in aspects related to the preparation and disclosure of financial statements.

Adjustments related to the first-time adoption of Law 11638/07 and Provisional Act 449/08 are set forth in note 3.10.

3. SIGNIFICANT ACCOUNTING PRACTICES

3.1 Income recognition

Income and expenses are recognized on the accrual basis.

Revenue from the sale of products is recognized in the statement of income when all risks and benefits inherent in the product are transferred to the buyer. Revenue from services provided is recognized in the statement of income when services are rendered.

3.2. Use of estimates

The preparation of financial statements in conformity with the Accounting practices adopted in Brazil requires Management to use its judgment in determining and recording accounting estimates. Significant assets and liabilities subject to these estimates and assumptions include the net book value of property, plant and equipment, allowance for doubtful accounts, inventories and deferred tax assets, reserve for contingencies, and assets and liabilities related to employees’ benefits. The settlement of transactions involving these estimates may result in values different from those we estimated due to lack of precision inherent to the process of their determination.

3.3 Foreign currency

Monetary assets and liabilities denominated in foreign currencies were translated into Brazilian reais at the exchange rate in effect on the balance sheet date, and currency translation differences were recognized in the statement of income.

3.4 Current and noncurrent assets

- Cash and cash equivalents

These include cash balances, bank deposits and temporary cash investments redeemable within 90 days from the investment date. Temporary cash investments are readily convertible into a known amount of cash and are subject to a very low risk of change in their market value.

- Trade accounts receivable

Trade accounts receivable are stated at the billed amount plus related taxes and are recorded at present value on the balance sheet date.

- Inventories

Stated at average acquisition or production cost, which does not exceed market value.

- Other current and noncurrent assets

Stated at their net realizable value.

- Property, plant and equipment and intangible assets

Stated at acquisition or construction cost. Depreciation and amortization are calculated using the straight-line method at rates stated in Notes 10 and 11, based on the estimated useful life of assets.

- Deferred charges

Recorded at incurred cost up to December 31, 2007, and amortized using the straight-line method at a rate of 20% per year, from completion date of respective projects.

3.5 Loans and financing

Loans are initially recognized at fair value at the time the resources are received, net of transaction costs, and are subsequently measured at amortized cost, that is, including charges, interest and monetary and exchange variations, as provided for in the contract, incurred up to the balance sheet date, as shown in Note 13.

3.6 Current and noncurrent liabilities

Stated at known or estimated amounts, plus, if applicable, related charges and monetary and/or exchange variations through to the balance sheet date. The trade accounts payable balances are recorded at their present value on the balance sheet date.

3.7 Financial instruments

(a) Classification and measurement

Financial assets and liabilities kept by the Company are classified under the following categories: (1) financial assets measured at fair value through profit and loss; and (2) financial assets and liabilities held to maturity. The classification depends on the purpose for which the financial assets and liabilities were acquired or contracted. The management of the Company classifies its financial assets and liabilities at the moment they are contracted.

Financial assets and liabilities held to maturity

Financial assets and liabilities held to maturity are mainly comprised of the short-term investments and loans and financing. They are measured at the acquisition cost plus income earned according to the contracted terms and conditions, in the case of short-term investments, and at the amortized cost using the effective interest rate method, in the case of loans and financing, recorded to statement of income on the accrual basis.

(b) Derivatives

Initially, they are measured at the acquisition costs on the date they are contracted and then remeasured at the fair value, with variations recorded through profit and loss.

Evaluation of derivate financial instruments at the fair value is usually made by the Company's treasury department based on information on each contracted operation and respective market data on each balance sheet date. The fair values of derivative financial instruments are shown in Note 18.

3.8 Contingencies

A provision is recognized in the balance sheet when the Company has a legal or constructive obligation as a result of a past event and it is probable that an outflow of resources will be required to settle the obligation. Provisions are recorded based on the best estimates of the involved risk.

3.9 Income and social contribution taxes

The income tax and social contribution, current and deferred, are calculated at the rate of 15% plus a 10% surtax on monthly taxable income in excess of R\$ 20 for income tax, and 9% on monthly taxable income for social contribution. This calculation takes into consideration the offsetting of tax loss carryforwards, limited to 30% of the taxable income.

Edgar Filing: ARVINMERITOR INC - Form 10-K/A

3.10 First-time adoption of Law 11638/07 and Law 11941/09

The Company's management opted to prepare its opening balance sheet with the transition date of January 1, 2008, which is the starting point for accounting in conformity with amendments introduced by Law 11638/07 and Law 11941/09. The changes introduced by said legislation are qualified as a change in accounting policy, however, as permitted by Technical Pronouncement CPC 13 – First-time Adoption of Law 11638/07 and Provisional Act 449/08 (converted in Law 11941/09), approved by CVM Resolution 565 of December 17, 2008, all of the adjustments resulting from the first-time adoption of Law 11638/07 and Law 11941/09 were made directly in retained earnings on the transition date, in conformity with the provisions of Article 186 of Law 6404/76, without retrospective effects on the financial statements. Below are the equity adjustments arising from the first-time adoption of Law 11638/07 and Law 11941/09, a summary of the accounting practices amended by said legislation, effects thereof in the balance sheet on the date of transition.

a) Adjustments arising from the first-time adoption of Law 11638/07 and Law 11941/09 to the balance sheet as of the transition date – January 1, 2008:

	Date of transition - 01/01/2008		
	December 31, 2007		
	Balances	Adjustments	Balances
Capital	32,100	-	32,100
Retained earnings	120,205	(130) {a}	120,075
Shareholders' equity	152,305	(130)	152,175
Summary of adjustments			
{a} Adjustments against retained earnings			
{a1} Adjustment for the present value of trade accounts receivables		(142)	
{a2} Adjustment for the present value of trade accounts payable		12	
Total		(130)	

b) Summary of changes in accounting practices for the first-time adoption of Law 11638/07 and Provisional Act 449/08:

Deferred charges

Deferred charges as of December 31, 2007 will be maintained up to its full realization through amortization or write-off against the net income for the year. Deferred charges were recorded for their recoverable value.

Adjustments to present value

Trade accounts receivable and trade accounts payable were adjusted to present value based on interest rates reflecting the nature of receivables and payables in terms of maturity and payment conditions on the dates of the related transactions.

The effects of adjustments to present value from the first-time adoption of Law 11638/07 and Provisional Act 449/08 were recorded in retained earnings.

Edgar Filing: ARVINMERITOR INC - Form 10-K/A

Statements of cash flows and value added

Replacement of the statement of changes in financial position by the statement of cash flows and inclusion of the statement of value added.

3.11 Changes in Brazilian accounting practices effective from January 1, 2010

With the advent of Law no. 11638/07, which amended the Brazilian corporate law to enable the convergence of accounting practices adopted in Brazil with those contained in International Financial Reporting Standards (IFRS), new standards and technical accounting pronouncements have been issued in line with international standards by Brazilian Accounting Pronouncements Committee (CPC).

As of the date of preparation of these financial statements, 40 new technical accounting pronouncements, guidelines and interpretations had been issued by the CPC and approved by the CVM Deliberations and resolutions of the Federal Accounting Council - CFC, with mandatory implementation in 2010. Pronouncements, guidelines and interpretations of the CPC that are applicable to the Company, given its current operations, are:

Standard	Description
CPC 16	Inventories
CPC 18	Investments in associates
CPC 20	Borrowing costs
CPC 23	Accounting policies, change in accounting estimates and errors
CPC 24	Events after the reporting period
CPC 25	Provisions, contingent liabilities and contingent assets
CPC 26	Presentation of financial statements
CPC 27	Property, plant and equipment
CPC 30	Revenue
CPC 32	Income taxes
CPC 33	Employee benefits
CPC 38	Financial instruments: Recognition and measurement
CPC 39	Financial instruments: Presentation
CPC 40	Financial instruments: Disclosures
CPC 43	First-time adoption of Technical Pronouncements CPC 15 to 40
OCPC 03	Financial instruments: Recognition, measurement and presentation
ICPC 09	Individual financial statements, Separate financial statements, Consolidated financial statements and application of equity method.
ICPC 10	Interpretation on the first-time adoption to Property, Plant and Equipment and Investment Property of Technical Pronouncements CPC 27, 28, 37 and 43

Company's Management is analyzing the impacts of changes introduced by these new pronouncements. In the case of adjustments arising from adoption of new practices from January 1, 2010, the Company will assess the need to remeasure the effects that would be produced in its financial statements for 2009, for comparison, as if these new procedures had been in place since the beginning of the year ended December 31, 2009.

4. CASH AND CASH EQUIVALENTS

Temporary cash investments refer to Bank Deposits Certificates (CDB) and are linked to rate variations of interbank deposit certificate – CDI. Temporary cash investments are remunerated as shown below:

	2009 Unaudited	2008
Cash and bank deposits	467	191
Temporary cash investments:		
CDB - 97.50% to 99.99% CDI	33	19
CDB – 100.00% to 100.99% CDI	10,079	3,612
CDB – 101.00% to 101.99% CDI	1,547	2,034
CDB – 102.00% to 102.99% CDI	521	4,515
CDB – 103.00% to 103.99% CDI	9,475	2,615
CDB – 104.00% to 104.99% CDI	30,540	-
CDB – 105.00% to 105.99% CDI	5,418	-
	57,613	12,795
Total	58,080	12,986

5. SHORT-TERM INVESTMENTS

On December 31, 2008, in addition to temporary cash investments linked to CDI, the Company had financial investments in the value of R\$ 32,222 at pre-fixed rates, with restrictions to early redemption and remunerated at rates between 14.38% and 15.23% a year.

6. TRADE ACCOUNTS RECEIVABLE

The balance of trade accounts receivable on December 31 are presented as follows:

	2009 Unaudited	2008
Trade accounts receivable from third parties – domestic market	19,437	15,776
Trade accounts receivable from third parties – foreign market	748	2,648
Trade accounts receivable from related parties – domestic market	3,994	3,718
Trade accounts receivable from related parties – foreign market	6,641	12,220
Total	30,820	34,362

7. RECOVERABLE TAXES

The balances of recoverable taxes as of December 31 are presented as follows:

	2009 Unaudited	2008
IPI (federal VAT)	66	49
ICMS (state VAT)	1,442	2,356
ICMS on fixed asset acquisitions	2,747	3,597
PIS	21	70
PIS on fixed asset acquisitions	343	426
COFINS	112	351
COFINS on fixed assets acquisitions	1,579	1,964
CS (Social contribution)	-	1,182
Others	-	88
Total	6,310	10,083
Current	3,254	5,759
Noncurrent	3,056	4,324

The balance of recoverable taxes recorded in noncurrent assets comprises ICMS, PIS and COFINS on acquisitions on fixed assets, which are recoverable in 48 months, according to current legislation. Of the ICMS recoverable balance, R\$ 699 (Unaudited) (R\$ 1,211 on December 31, 2008) refer to the purchase of Randon's credits and will be offset according to schedule prepared by Secretaria da Fazenda do Estado do Rio Grande do Sul.

8. INVENTORIES

Inventories as of December 31 are presented as follows:

	2009 Unaudited	2008
Finished products	1,413	1,827
Work in process	6,372	9,363
Raw materials and others	13,677	18,033
Stock in transit	1,176	490
Advances to suppliers	245	392
Imports in transit	1,247	1,999
Provision for inventory losses	-	(2,389)
Total	24,130	29,715

9. INVESTMENTS IN NONCONSOLIDATED SUBSIDIARY

The following summarizes financial information pertaining to the company's unconsolidated subsidiary, Suspensys Sistemas Automotivos Ltda. as of December 31:

	2009 Unaudited	2008
Capital	71,291	71,291
Shareholders' equity	170,928	145,607
Tax incentives reserve – Fundopem (*)	(24,591)	(11,578)
Non-proportional allocated dividends	17,730	7,893
Shareholders' equity – adjusted	164,067	141,922
Interest on capital payable	(8,635)	(6,183)
Dividends paid	(2,289)	(4,319)
Dividends payable	(75,046)	(16,914)
Net income	65,343	80,940
Ownership interest (%)	53.18%	53.18%
Number of shares	53,177	53,177
Opening balance	75,468	53,530
Interest on capital receivable	(4,592)	(3,288)
Reversal of dividends	1,217	-
Dividends receivable	-	(8,994)
Dividends received	(12,674)	(2,297)
Equity in subsidiary earnings	27,827	36,517
Ending balance	87,246	75,468

(*) As established in the “joint venture” agreement and ratified by the shareholders in the meeting minutes for approval of profit allocation, Randon S.A. - Implementos e Participações, a shareholder of Suspensys, is entitled to receiving non-proportional dividends.

10. PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment as of December 31 are presented as follows:

	Annual depreciation rate (%) Unaudited	2009 Cost Unaudited	Accumulated depreciation Unaudited	Net Unaudited	2008 Net
Land	-	2,745	-	2,745	2,745
Buildings	1.69	19,502	(3,371)	16,131	8,356
Machinery and equipment	10.47	82,577	(45,871)	36,706	35,664
Molds and dies	13.16	16,680	(11,920)	4,760	5,495
Installations	0.79	2,353	(1,007)	1,346	1,336
Furniture and fixtures	9.53	3,374	(1,818)	1,556	1,540
Vehicles	16.23	2,234	(1,297)	937	1,033
Computer equipment	19.75	1,198	(925)	273	268
Advances to suppliers		137	-	137	614
Work in progress		968	-	968	5,277
Property, plant and equipment in progress		-	-	-	2,185
Total		131,768	(66,209)	65,559	64,513

Machinery and equipment with a residual value of R\$ 628 (Unaudited) and R\$ 784 (Unaudited) were provided as collateral in loans from BNDES – (National Bank for Economic and Social Development), by the company and its subsidiary Suspensys Sistemas Automotivos Ltda., respectively.

The Company revised the useful life of its fixed assets, which have depreciated by new rates, as shown in the table above. The effects of this change were recognized prospectively as of January 1, 2009. This change in the useful lives reduced depreciation expense by R\$ 1,250 (Unaudited).

11. INTANGIBLE ASSETS

Intangible assets as of December 31 are presented as follows:

	Annual amortization rate (%) Unaudited	2009 Cost Unaudited	Accrued amortization Unaudited	Net Unaudited	2008 Net
Software	20	1,293	(949)	344	471

12. DEFERRED CHARGES

Deferred charges as of December 31 are presented as follows:

	Annual amortization rate (%) Unaudited	2009 Cost Unaudited	Accrued amortization Unaudited	Net Unaudited	2008 Net
Costs studies and projects	20	1,619	(686)	933	1,264

13. LOANS AND FINANCING

Loans and financing were obtained to finance the modernization of the industrial facilities, development of quality processes, finance exports and machinery imports. The loans and financing were obtained from several financial institutions through funds obtained by such institutions from the BNDES (Brazilian National Bank for Social and Economic Development).

The balance of loans and financing on December 31 is presented as follows:

Type:	Annual Financial Charges	2009 Unaudited	2008
Working capital / exports			
Bank credit - Exin	U.S. Dollar exchange variation + interest of 4.50%	32,595	-
Bank credit - Exin	TJLP (long-term interest rate) + interest of 2.70%	-	12,543
ACC – Advance on Foreign Exchange Contracts	U.S. Dollar exchange variation + int. 5.25% to 5.80%	-	5,018
Financing			
Financing with BNDES	TJLP + interest of 2.5% to 5%	18,377	24,717
FINEP – Financiamento de estudos e projetos	Interest of 4% + 6% in excess of TJLP	4,413	6,899
FINAME – Financiamento de máquinas e equipamentos	UMBNDDES (foreign currencies) plus interest of 4%	144	427
FINAME – Financiamento de máquinas e equipamentos	Interest of 4% to 5.5% + the excess of 6% of TJLP	495	1,374
FININP – Financiamento de maquinas e equipamentos	U.S. Dollar exchange variation + LIBOR + 1% to 4.4%	2,881	4,583
Financing with BNDES	U.S. Dollar exchange variation + interest of 2.5%	1,508	2,629
FUNDOPEM – ICMS	IPCA + 3%	1,688	-
Total		62,101	58,190
Current		10,793	28,803
Noncurrent		51,308	29,387

Maturities of noncurrent portions of loans and financing are presented as follows:

Maturity	2009 Unaudited	2008
2010	-	11,110
2011	8,479	8,913
2012	38,910	6,910
2013	2,400	1,958
2014	225	73
2015 and following	1,294	423
Total	51,308	29,387

The loans and financing from BNDES and FINAME are collateralized by machinery and equipment of the Company and its shareholders.

14. INTEREST ON CAPITAL PAYABLE

On December 31, 2009, the Company recorded interest on capital payable in the amount of R\$ 10,358 (Unaudited) (R\$ 8,829 in 2008), by applying the TJLP (Long-term interest rate) for the period January and December, 2009 on shareholders' equity balances of December 31, 2008, observing the greater limit of 50% of the pre-tax income or 50% of the retained earnings.

In accordance with tax legislation, the amount recorded as interest on capital was entirely deducted when calculating income tax and social contribution, resulting in a tax benefit of R\$ 3,522 (Unaudited) (R\$ 3,002 in 2008). For the purpose of these financial statements, such interest on capital was considered as dividends and was recorded as a reduction of retained earnings in shareholders' equity.

Additionally, the Company recorded financial income regarding interest on capital receivable from the subsidiary Suspensys Sistemas Automotivos Ltda., in the total amount of R\$ 4,592 (Unaudited), (R\$ 3,288 in 2008), which for purposes of disclosure and adjustment to accounting practices, the aforementioned amount was reversed in the statement of income and credited in investments in subsidiary balance.

15. RELATED-PARTY TRANSACTIONS

Transactions and balances with related parties as of December 31 are presented as follows:

	Randon Companies (*)		ArvinMeritor Companies (**)			Total

Edgar Filing: ARVINMERITOR INC - Form 10-K/A

Loan balances with officers and managers are recorded in the group of other accounts payable, in the amount of R\$ 362 (current - Unaudited) R\$ 390 (noncurrent - Unaudited) in 2009, and R\$ 501 (current) and R\$ 313 (noncurrent) in 2008. The balances are adjusted at the rates used by the financial market (DI-extra, issued by Ambima).

The remuneration and profit sharing of management was R\$ 834 (Unaudited) in 2009 (R\$ 750 in 2008 and 715 in 2007).

Debits and credits with the parent company Randon S.A. Implementos e Participações are subject to financial market rates (DI-extra, issued by Ambima).

The payables to related companies refer to accounts payable to ArvinMeritor Inc., resulting for the import of machinery by the Company.

Commercial Transactions

The commercial transactions with related parties follow the prices and terms established by the agreement signed between the parties. The agreement takes into account the term, volume and specifications of the products purchased by the related parties, which are not comparable to sales to unrelated parties.

16. PENSION PLAN

The Company co-sponsors RANDONPREV, a defined contribution pension plan under a capitalization regime whose main objective is to provide benefits that supplement those provided by the Government plans. The expenses included in the statement of income for the years ended December 31, 2009, 2008 and 2007 totaled R\$ 187 (Unaudited), R\$ 183 and R\$ 176 respectively.

17. CONTINGENT LIABILITIES

There are contingencies of a general nature with respect to taxes, since it is not possible to secure definite and final approval of income tax returns, and tax laws in general are indefinite and dependent upon administrative interpretations, which are subject to changes.

The contingent liabilities as of December 31, 2009 are as follows:

Contingency	Likelihood of losses	
	Probable	Possible
	Unaudited	Unaudited
Social security	-	516
Labor	-	236
Tax	-	1,399
Total	-	2,151

The Company has administrative proceedings in progress for which, based on the opinion of its attorneys and in accordance with Brazilian accounting practices, no reserves for contingencies have been recorded since the proceedings have been assessed as possible or remote likelihood of loss. The main proceedings with a possible likelihood of loss are presented as follows:

Tax

a) IPI Tax Rebate – The company was assessed by the Revenue Service in the total amount of R\$ 1,399 (Unaudited). Fiscal authorities have turned down the application filed by the Company for loss reimbursement of tax rebate and have demanded the payment of the corresponding tax. The amount includes the principal amount, penalties and interest.

Social Security

a) Refers to INSS (social security contribution) tax assessment in the total amount of R\$ 516 (Unaudited), resulting from the non-collection of payroll charges on employee profit sharing.

18. FINANCIAL INSTRUMENTS

The estimated fair value of financial instruments has been determined using available market information and appropriate valuation methodologies. However, considerable judgment was required in the interpretation of market data to develop the most appropriate fair value estimates. Consequently, the estimates presented herein are not necessarily indicative of the amounts the Company could realize in a current exchange market. The use of different market valuation methodologies may have a material effect on the fair value estimates.

The management of these instruments is done through operating strategies, aimed at liquidity, profitability and security. The Company's financial instruments management policy consists of ongoing monitoring of contracted rates compared to market rates. The Company does not have transactions involving derivative financial instruments or any other risk assets for speculative purposes.

Balances breakdown

In compliance with Brazilian Securities and Exchange Commission (CVM) Instruction 235/95, the carrying amounts and fair value of the financial instruments included in the balance sheets are as follows:

Description	2009		2008	
	Carrying amount Unaudited	Fair value Unaudited	Carrying amount	Fair value
Temporary cash investments	57,613	57,613	12,795	12,795
Short-term investments	-	-	32,222	32,222
Trade accounts receivable	30,820	30,820	34,362	34,362
Receivables from parent company	354	354	597	597
Other accounts receivable	559	559	1,365	1,365
Trade accounts payable	8,780	8,780	7,240	7,240
Loans and financing:				
In national currency	57,568	57,568	45,533	45,533
In foreign currency	4,533	4,533	12,657	12,657
Payables to related companies	1,043	1,043	5,043	5,043
Other accounts payable	1,134	1,134	1,138	1,138
Derivative transactions (non-deliverable forward)	-	-	4,385	4,385

Criteria, assumptions and limitations used in the calculation of the market value

- Temporary cash investments

The balances of temporary cash investments have their market values close to book balances.

- Short-term investments

The balances of short-term investments have their market values close to their book balances.

- Trade accounts receivable

The balances of accounts receivable have their market values close to their book balances.

- Receivables from parent company and other receivables

The balance of accounts receivables from parent company and other accounts receivable have their market values close to their book values.

- Trade accounts payable

The balances of trade accounts payable have their market values close to their book values.

- Payables to related companies and other accounts payable

The balances of accounts payable to related companies and other accounts payable have their market values close to their book values.

- Loans and financing

Loans and financing are recorded at the contractual interest of each transaction, as shown in Note no. 13.

- Derivatives

The Company's policy is to eliminate market risks by avoiding taking positions exposed to fluctuations in market values and by operating only with instruments allowing the control of such risks. Derivative contracts are made up of non-deliverable forward (NDF) operations.

- Limitations

The market values were estimated at the balance sheet date, based on relevant market information. The changes in the assumptions may significantly affect the estimates presented.

- Management of financial risks

The Company is exposed to the following risks associated with its operating activities and financing, including the utilization of its financial instruments:

- i. Credit risk
- ii. Market risk

The Company, through its Parent Company, has Hedge Transaction Policy prepared by the Planning and Finance Committee and endorsed by the Executive Board. The objective of such policy is to standardize the procedures of the Company while defining responsibilities and limitations involving hedge operations. These procedures are aimed to reduce the effects of fluctuation if exchange rates of foreign currency amounts estimated in the cash flow with no speculative purposes.

The monthly-estimated cash flow in foreign currency is taken as a basis for the twelve following months, either based on the Strategic Plan projections or on the updated expectations of each company. The instruments used are conservative and are previously approved by the same committee. For the transactions contracted, instruments used are Non deliverable forwards (NDF).

- a. Credit risk

The sales policies of the Company are governed by credit policies determined by its management and are intended to minimize customer default risks. This objective is achieved by management through a careful selection of the customer portfolio, which considers the customers ability to pay (credit analysis).

- b. Market risk

Represented by the risk that changes in the market, such as changes in the exchange rates, interest rates and in prices will affect the income of the Company or the value of its financial instruments. The objective in managing market risks is to control the exposure to market risks within acceptable parameters, optimizing their return.

Foreign exchange rate risk

The results of the Company are susceptible to significant variations due to the effects of the volatility of the foreign exchange rates on assets and liabilities indexed to foreign currencies, mainly the U.S. dollar, which closed 2009 with a negative variation of 25.49% (positive variation of 32% in 2008).

The Company is exposed to currency risk (exchange rate risk) on sales, purchases and loans denominated in a currency different from that usually used by the Company.

The Company contracts derivative transactions to hedge part of its foreign exchange rate exposure, with maturities normally below one year from the balance sheet date.

Non Deliverable Forward – (NDF)

For these transactions, the Company has obligations based on a previously contracted quotation at the time of their maturity. Changes in the market value of these transactions are recorded in the statement of income for the period. On December 31, 2009 (Unaudited), the company does not have any NDF operation.

The Company's net exposure to the risk of exchange rate on December 31 is as below:

	2009 Unaudited	2008
A. Financing	(4,533)	(12,657)
B. Suppliers / Commissions	(1,148)	(6,788)
C. Customers	7,389	14,868
D. Non Deliverable Forward	-	(4,385)
E. Net exposure (A+B+C+D)	1,708	(8,962)

Interest rate risk

The results of the Company are susceptible to significant variations arising from loans and financing contracted at floating interest rates.

The Company does not have derivative financial instruments to protect variations in interest rates.

In accordance with its financial policies, the Company has not conducted operations involving financial instruments on a speculative basis.

Price risk

Price risk relates to the possibility of fluctuations in market prices of the products sold or manufactured by the Company and other inputs used in the manufacturing process. These price oscillations may cause substantial alterations in the income and costs of the Company. To mitigate these risks, the Company continuously monitors the local and international markets, seeking to anticipate price movements.

Edgar Filing: ARVINMERITOR INC - Form 10-K/A

Estimated fair values

Fair values were estimated at the balance sheet date, based on "relevant market information". Changes in assumptions and in financial market transactions may significantly affect those estimates. Methods and assumptions adopted by the Company to estimate the disclosure of its derivatives' fair values at the balance sheet date are described below:

Fair value is typically based on market price quotations for assets or liabilities with similar characteristics. If these market prices are not available, fair values are based on market operator quotations, pricing models, discounted cash flows or similar techniques, for which the determination of fair value may require significant judgment or estimates by management. Market price quotations are used to determine the fair value of these derivative instruments.

The table below shows the carrying amounts and the estimated fair values of the Company's derivatives on December 31. The nominal outstanding values, exposed to U.S. dollar variation, as well as their respective fair values, are as follows:

Description	Notional	Notional amount -R\$	Carrying	Fair value -	2008 - R\$	
	amount - US\$		amount - R\$	R\$ - (credit) / debit	(credit) /debit Amount received	Amount paid
NDF	8,400	14,455	(4,385)	(4,385)	109	(1,084)

Description	Notional	Notional amount -R\$ Unaudited	Carrying	Fair value -	2009 - R\$	
	amount - US\$ Unaudited		amount - R\$ Unaudited	R\$ - (credit) / debit Unaudited	(credit) / debit Amount received Unaudited	Amount paid Unaudited
NDF	-	-	-	-	1,446	579

The maturities of these operations are summarized below, with reference notional values in thousands of dollars:

Description	2008 – thousand of U.S. dollar			
	Up to 30 days	From 31 to 180 days	From 181 to 365 days	Total
NDF	700	3,500	4,200	8,400

Edgar Filing: ARVINMERITOR INC - Form 10-K/A

19. CAPITAL

Subscribed capital is represented by 105,000 shares (Unaudited) in the nominal value of R\$ 1.00 each, and their composition, per shareholder, is:

Shareholder	R\$	%
	Unaudited	Unaudited
Randon S.A. Implementos e Participações	53,550	51
Arvinmeritor do Brasil Sistemas Automotivos Ltda.	51,450	49
Total	105,000	100

20. INCOME TAX AND SOCIAL CONTRIBUTION

Adjustment to present value of trade accounts payable	(476)	(1,069)	-
	(9,508)	(25,615)	(9,764)
Financial income (expenses), net	6,067	(3,947)	1,306

22. SUMMARY OF THE SIGNIFICANT DIFFERENCES BETWEEN ACCOUNTING PRACTICES ADOPTED IN BRAZIL (BR GAAP) AND ACCOUNTING PRINCIPLES GENERALLY ACCEPTED IN THE UNITED STATES OF AMERICA (U.S. GAAP)

The financial statements of the Company are prepared in accordance with BR GAAP. Note 3 to the consolidated financial statements summarizes the accounting policies adopted by the Company. BR GAAP differs from U.S. GAAP in certain significant respects, which are summarized below:

(a) Deferred charges

BR GAAP allowed until December 31, 2007 the deferral of pre-operating expenses and certain expenses related to research and development. Under BR GAAP, these items are amortized over a period of five to ten years. Under U.S. GAAP, these are recorded as expenses when incurred.

(b) VAT tax incentive - Fundopem

Under BR GAAP, prior to January 1, 2008, tax incentives related to certain state taxes on revenues were recorded directly in shareholders' equity. Under U.S. GAAP, these tax incentives are recorded in the statement of income. Beginning January 1, 2008, the tax incentive is recorded in the statement of income under BR GAAP.

(c) Capitalization of interest in relation to construction in progress

Under accounting practices adopted in Brazil, prior to January 1, 1996 the Company was not required to capitalize the interest cost of borrowed funds as part of the cost of the related asset. Under U.S. GAAP, capitalization of borrowed funds during construction of major facilities is recognized as part of the cost of the related assets.

Under Brazilian GAAP exchange losses on foreign currency denominated assets and liabilities are capitalized. Under U.S. GAAP, capitalization of exchange losses is not permitted.

(d) Pension Plan Surplus

Under Brazilian GAAP, the excess of the fair value of the pension plan assets over the projected benefit obligation is not recognized as an asset on the balance sheet. Under U.S. GAAP, the asset is recognized on the balance sheet as prepaid pension cost.

(e) Dividends

Under BR GAAP, proposed dividends are accounted for in the financial statements in anticipation of their approval by the shareholders' meeting. Distributions characterized as interest on shareholders' equity as well as minimum compulsory dividends are accrued for under both BR GAAP and U.S. GAAP. Any excess of proposed dividends over either the minimum compulsory dividend or distributions characterized as interest on shareholders' equity would not be accounted for under U.S. GAAP, if such proposed dividends are subject to approval at the annual shareholders' meeting.

(f) New Accounting Pronouncements

In June 2009, the Financial Accounting Standards Board (FASB) issued Financial Accounting Standard (FAS) No. 167, "Amendments to FASB Interpretation No. 46(R)" (FAS 167). FAS 167 is a revision to FASB Interpretation No. 46(R), "Consolidation of Variable Interest Entities," and amends the consolidation guidance for variable interest entities. Additionally, FAS 167 will require additional disclosures about involvement with variable interest entities and any significant changes in risk exposure due to that involvement. FAS 167 is effective January 1, 2010 for companies reporting on a calendar-year basis. We currently do not expect the adoption of the revised standard to have an effect on our consolidated results of operations and financial position, when adopted.

In June 2009, the FASB issued FAS No. 166, "Accounting for Transfers of Financial Assets" (FAS 166). FAS 166 is a revision to FAS No. 140, "Accounting for Transfers and Servicing of Financial Assets and Extinguishment of Liabilities," and will require more information about transfer of financial assets, including securitization transactions, and enhanced disclosures when companies have continuing exposure to the risks related to transferred financial assets. Additionally, FAS 166 eliminates the concept of a qualifying special-purpose entity. FAS 166 is effective January 1, 2010 for companies reporting on a calendar-year basis. We currently do not expect the adoption of the revised standard to have an effect on our consolidated results of operations and financial position, when adopted.

(g) Other Comprehensive Income

Under U.S. GAAP, guidance on the reporting of comprehensive income requires the disclosure of comprehensive income. Comprehensive income is comprised of net income and "other comprehensive income", which include charges or credits directly to equity that are not the result of transactions with shareholders. The Company has not recorded other comprehensive income for all periods presented.

(h) Cash and Cash Equivalents

Under U.S. GAAP, cash equivalents are defined as short-term, highly liquid investments, which are both readily convertible to known amounts of cash and have original maturities of 90 days or less. The Company holds certain highly liquid, low risk financial investments, comprised principally of high quality government debt, which are classified as cash equivalents under BR GAAP. Under U.S. GAAP, since these investments have original maturities of over 90 days, such investments do not qualify as cash equivalents.

(i) Effects of U.S. GAAP adjustments on equity investee

Suspensys Sistemas Automotivos Ltda. ("Suspensys") is accounted for using the equity method of accounting under BR GAAP. The principal U.S. GAAP adjustments that affect the Company's accounting for the results of Suspensys are as follows:

- Deferred charges
- Capitalization of interest
- Pension plan surplus
- Deferred income tax on the above adjustments

The effect of these adjustments is included as "U.S. GAAP adjustments on equity in earnings of Suspensys", a line item in the reconciliation of net income (loss) and shareholders' equity.

Suspensys Sistemas Automotivos Ltda.

Financial Statements

As of December 31, 2009 (unaudited) and 2008 and

Deloitte Touche Tohmatsu Auditores Independentes

INDEPENDENT AUDITORS REPORT

To the Board of Directors of
Suspensys Sistemas Automotivos Ltda. - Caxias do Sul – RS

1. We have audited the accompanying balance sheet of Suspensys Sistemas Automotivos Ltda. (the “Company”), a company incorporated in Brazil, as of December 31, 2008 and the related statements of income, changes in shareholders’ equity and cash flows for the years ended December 31, 2008 and 2007, and the statement of value added for the year ended December 31, 2008. These financial statements are the responsibility of the Company’s management. Our responsibility is to express an opinion on these financial statements based on our audits.
2. We conducted our audits in accordance with the auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.
3. In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Company as of December 31, 2008, the results of its operations, changes in shareholders’ equity and cash flows for the years ended December 31, 2008 and 2007 in conformity with accounting practices adopted in Brazil.
4. As mentioned in Note 3.10 to the financial statements, changes in Brazilian accounting practices have been introduced effective January 1, 2008. The statements of income, changes in shareholders’ equity and cash flows for the year ended December 31, 2007 have been prepared in conformity with Brazilian accounting practices in effect until December 31, 2007 and as permitted by Technical Pronouncement 13 – First-time Adoption of Law 11638/07 and Provisional Act 448/09, are not being restated. Consequently, the statements of income, changes in shareholders’ equity and cash flows for the year ended December 31, 2008 may not be comparable with the statements of income, changes in shareholders’ equity and cash flows for the year ended December 31, 2007.
5. Accounting practices adopted in Brazil vary in certain significant respects from accounting principles generally accepted in the United States of America. Information relating to the nature and effect of such differences is presented in Note 19 to the financial statements.

SUSPENSYS SISTEMAS AUTOMOTIVOS LTDA.

NOTES TO THE FINANCIAL STATEMENTS

AS OF DECEMBER 31, 2009 (UNAUDITED) AND 2008 AND FOR THE YEARS ENDED DECEMBER 31, 2009 (UNAUDITED), 2008 AND 2007

(Amounts in thousands of Brazilian reais – R\$, except when stated otherwise)

1. OPERATIONS

Suspensys Sistemas Automotivos Ltda. (the “Company”) was established on October 1, 2002, and is engaged in the manufacturing and sale of air and mechanical suspensions for trucks, buses and trailers, trailer axles, third axles and hubs and drums for trucks, buses and trailers, in addition to providing technical assistance for its products.

2. FINANCIAL STATEMENTS PRESENTATION

The financial statements have been prepared in conformity with the accounting practices adopted in Brazil, which comprise the Brazilian Corporate Law, the pronouncements, guidelines and interpretations issued by the Accounting Pronouncements Committee (CPC) and standards issued by Brazilian Securities and Exchange Commission (CVM).

In preparing the financial statements for 2008, the Company adopted for the first time the new accounting practices introduced by Law 11638/07, approved on December 28, 2007, as amended by Provisional Act 449 of December 3, 2008.

Law 11638/07 and the Provisional Act 449/08 altered Law 6404/76 in aspects related to the preparation and disclosure of financial statements.

Adjustments related to the first-time adoption of Law 11638/07 and Provisional Act 449/08 are set forth in note 3.10.

The financial statements have been prepared in conformity with the accounting practices adopted in Brazil described in Note 3 and differ in certain respects from accounting principles generally accepted in the United States of America (“U.S.GAAP”). See note 19 for a discussion of these differences and a reconciliation of shareholders’ equity and net income presented under accounting practices adopted in Brazil to U.S. GAAP.

3. SIGNIFICANT ACCOUNTING PRACTICES

3.1 Income recognition

Income and expenses are recognized on the accrual basis.

Revenue from the sale of products is recognized in the statement of income when all risks and benefits inherent in the product are transferred to the buyer. Revenue from services provided is recognized in the statement of income when services are rendered.

3.2 Use of estimates

The preparation of financial statements in conformity with the accounting practices adopted in Brazil requires management to use its judgment in determining and recording accounting estimates. Significant assets and liabilities subject to these estimates and assumptions include the net book value of property, plant and equipment, allowance for doubtful accounts, inventories and deferred tax assets, reserve for contingencies, and assets and liabilities related to employees' benefits. The settlement of transactions involving these estimates may result in values different from those we estimated due to lack of precision inherent to the process of their determination.

3.3 Foreign currency

Monetary assets and liabilities denominated in foreign currencies were translated into Brazilian reais at the exchange rate in effect on the balance sheet date, respectively, and currency translation differences were recognized in the statement of income.

3.4 Current and noncurrent assets

- Cash and cash equivalents

These include cash balances, bank deposits and temporary cash investments redeemable within 90 days from the investment date. Temporary cash investments are readily convertible into a known amount of cash and are subject to a very low risk of change in their market value.

- Trade accounts receivable

Trade accounts receivable are stated at the billed amount plus related taxes and are recorded at present value on the balance sheet date.

- Inventories

Stated at average acquisition or production cost, which does not exceed market value.

- Other current and noncurrent assets

Stated at their net realizable value.

- Property, plant and equipment and intangible assets

Stated at acquisition or construction cost. Depreciation and amortization are calculated using the straight-line method at rates stated in Note 8, based on the estimated useful life of assets.

- Deferred charges

Recorded at incurred cost up to December 31, 2007, and amortized using the straight-line method at a rate of 20% per year, from completion date of respective projects.

3.5 Loans and financing

Loans are initially recognized at fair value at the time the resources are received, net of transaction costs, and are subsequently measured at amortized cost, that is, including

charges, interest and monetary and exchange variations, as provided for in the contract, incurred up to the balance sheet date, as shown in Note 10.

3.6 Current and noncurrent liabilities

Stated at the known or estimated amounts, plus, if applicable, related charges and monetary and/or exchange variations through to the balance sheet date. The trade accounts payable balances are recorded at their present value on the balance sheet date.

3.7 Financial instruments

Classification and measurement

Financial assets and liabilities kept by the Company are classified under the following categories: (1) financial assets measured at fair value through profit and loss; and (2) financial assets and liabilities held to maturity. The classification depends on the purpose for which the financial assets and liabilities were acquired or contracted. The management of the Company classifies its financial assets and liabilities at the moment they are contracted.

Financial assets and liabilities held to maturity

Financial assets held to maturity are mainly comprised of temporary cash investments and loans and financing. They are measured at the acquisition cost plus income earned according to the contracted terms and conditions, in the case of temporary cash investments, and at the amortized cost using the effective interest rate method, in the case of loans and financing, recorded to statement of income on the accrual basis.

3.8. Reserve for contingencies

A provision is recognized in the balance sheet when the Company has a legal or constructive obligation as a result of a past event and it is probable that an outflow of resources will be required to settle the obligation. Provisions are recorded based on the best estimates of the involved risk.

3.9. Income Tax and Social Contribution

The income tax and social contribution, current and deferred, are calculated at the rate of 15% plus a 10% surtax on monthly taxable income in excess of R\$ 20 for income tax, and 9% on monthly taxable income for social contribution. This calculation takes into consideration the offsetting of tax loss carryforwards, limited to 30% of the taxable income.

3.10. First-time adoption of Law 11638/07 and Law 11941/09

The Company's management opted to prepare its opening balance sheet with the transition date of January 1, 2008, which is the starting point for accounting in conformity with amendments introduced by Law 11638/07 and Law 11941/09. The changes introduced by said legislation are qualified as a change in accounting policy, however, as permitted by Technical Pronouncement CPC 13 – First-time Adoption of Law 11638/07 and Provisional Act 449/08 (converted in Law 11941/09), approved by CVM Resolution 565 of December 17, 2008, all of the adjustments resulting from the first-time adoption of Law 11638/07 and Law 11941/09 were made directly in retained earnings on the transition date, in conformity with the provisions of Article 186 of Law 6404/76, without retrospective effects on the financial statements.

Edgar Filing: ARVINMERITOR INC - Form 10-K/A

Below are the equity adjustments arising from the first-time adoption of Law 11638/07 and Law 11941/09, a summary of the accounting practices amended by said legislation, effects thereof in the balance sheet on the date of transition.

a) Adjustments arising from the first-time adoption of Law 11638/07 and Law 11941/09 to the balance sheet as of the transition date – January 1, 2008:

	Date of transition			
	December 31, 2007	January 1, 2008		
	Balances	Adjustments		Balances
Capital	34,233	-		34,233
Tax incentive reserve	37,058	-		37,058
Retained earnings	29,372	(690)	{ a }	28,682
Shareholders' equity	100,663	(690)		99,973

Summary of adjustments

{ a } Adjustments against retained earnings			
{ a1 } Adjustment of trade accounts receivable to present value		(799)	
{ a2 } Adjustment of trade accounts payable to present value		109	
Total		(690)	

b) Summary of changes in accounting practices for the first-time adoption of Law 11638/07 and Provisional Act 449/08:

Deferred charges

Deferred charges as of December 31, 2007 will be maintained up to its full realization through amortization or write-off against the net income for the year. Deferred charges were recorded for their recoverable value.

Adjustments to present value

Trade accounts receivable and trade accounts payable were adjusted to present value based on interest rates reflecting the nature of receivables and payables in terms of maturity and payment conditions on the dates of the related transactions.

The effects of adjustments to present value from the first-time adoption of Law 11638/07 and Provisional Act 449/08 were recorded in retained earnings.

Donations and investment grants

Tax incentives received by the Company prior to the first-time adoption of Law 11638/07 and Provisional Act 449/08 were recorded as capital reserve in shareholders' equity, which were merged to the capital.

Beginning 2008, tax incentives have been recognized in income, as received.

Statements of cash flows and value added

Replacement of the statement of changes in financial position by the statement of cash flows and inclusion of the statement of value added.

3.11 Changes in Accounting practices adopted in Brazil effective from January 1, 2010

With the advent of Law no. 11638/07, which amended the Brazilian corporate law to enable the convergence of accounting practices adopted in Brazil with those contained in International Financial Reporting Standards (IFRS), new standards and technical accounting pronouncements have been issued in line with international standards by Brazilian Accounting Pronouncements Committee (CPC).

As of the date of preparation of these financial statements, 40 new technical accounting pronouncements, guidelines and interpretations had been issued by the CPC and approved by the CVM Deliberations and resolutions of the Federal Accounting Council - CFC, with mandatory implementation in 2010. Pronouncements, guidelines and interpretations of the CPC that are applicable to the Company, given its current operations, are:

Standard	Description
CPC 16	Inventories
CPC 20	Borrowing costs
CPC 23	Accounting policies, change in accounting estimates and errors
CPC 24	Events after the reporting period
CPC 25	Provisions, contingent liabilities and contingent assets
CPC 26	Presentation of financial statements
CPC 27	Property, plant and equipment
CPC 30	Revenue
CPC 32	Income taxes
CPC 33	Employee benefits
CPC 38	Financial instruments: Recognition and measurement
CPC 39	Financial instruments: Presentation
CPC 40	Financial instruments: Disclosures
CPC 43	First-time adoption of Technical Pronouncements CPC 15 to 40
OCPC 03	Financial instruments: Recognition, measurement and presentation
ICPC 10	Interpretation on the first-time adoption to Property, Plant and Equipment and Investment Property of Technical Pronouncements CPC 27, 28, 37 and 43

Company's Management is analyzing the impacts of changes introduced by these new pronouncements. In the case of adjustments arising from adoption of new practices from January 1, 2010, the Company will assess the need to remeasure the effects that would be produced in its financial statements for 2009, for comparison, as if these new procedures had been in place since the beginning of the year ended December 31, 2009.

4. CASH AND CASH EQUIVALENTS

Temporary cash investments refer to Bank Deposits Certificates (CDB) and are linked to rate variations of interbank deposit certificate – CDI. Temporary cash investments are remunerated as shown below:

	2009	2008
	Unaudited	
Cash and bank deposits	14,205	1,578
Temporary cash investments		
CDB – 99.50% CDI	8,528	-
CDB – 100.00% CDI	51,151	12,957
CDB – 100.50% CDI	10,448	-
CDB – 100.40% CDI	27,755	-
CDB – 100.50% CDI	-	12,109
CDB – 100.80% CDI	-	6,717
	97,882	31,783
Total	112,087	33,361

5. TRADE ACCOUNTS RECEIVABLE

The balances of trade accounts receivable on December 31 are presented as follows:

	2009	2008
	Unaudited	
Trade accounts receivable from third parties – domestic market	64,465	60,470
Trade accounts receivable from third parties – foreign market	651	2,772
Trade accounts receivable from related parties – domestic market	3,226	915
Trade accounts receivable from related parties – foreign market	3,434	2,816
Total	71,776	66,973

6. RECOVERABLE TAXES

The balances of taxes recoverable as of December 31 are presented as follows:

	2009	2008
	Unaudited	
IPI (Federal VAT)	1,526	2,126
ICMS (State VAT)	7,003	10,255
IRPJ (Income tax) and CS (Social contribution)	188	767
ICMS on fixed assets acquisitions	2,905	3,252
PIS on fixed assets acquisitions	340	398
COFINS on fixed assets acquisitions	1,592	1,836
Total	13,554	18,634
Current	11,252	12,820
Noncurrent	2,302	5,814

Edgar Filing: ARVINMERITOR INC - Form 10-K/A

The balance of recoverable taxes recorded in noncurrent assets comprises ICMS, PIS and COFINS on acquisitions on fixed assets, which are recoverable in 48 months, according to current legislation. Of the ICMS recoverable balance, R\$ 5,423 (Unaudited) (R\$ 8,456 on December 31, 2008) refer to the purchase of Randon's credits and will be offset according to schedule prepared by Secretaria da Fazenda do Estado do Rio Grande do Sul.

7. INVENTORIES

Inventories as of December 31 are presented as follows:

	2009	2008
	Unaudited	
Finished products	4,216	1,998
Work in process	18,612	15,944
Raw materials	30,356	28,913
Advances to suppliers	31	655
Imports in transit	2	4,731
Total	53,217	52,241

8. PROPERTY, PLANT AND EQUIPMENT AND INTANGIBLE ASSETS

Property, plant and equipment and intangible assets as of December 31 are presented as follows:

	Annual Depreciation Rate (%)	Cost	2009 Accumulated depreciation	2008 Net	2008 Net
	Unaudited	Unaudited	Unaudited	Unaudited	
Property, plant and equipment					
Land	-	1,648	-	1,648	1,648
Buildings	1.44	26,920	(2,978)	23,942	11,680
Machinery and equipment	9.90	126,884	(72,565)	54,319	46,140
Molds and dies	14.13	10,238	(4,161)	6,077	5,133
Installations	3.80	4,196	(1,312)	2,884	2,233
Furniture and fixtures	9.03	1,339	(545)	794	776
Vehicles	9.29	569	(387)	182	231
Computer equipment	24.80	1,420	(1,019)	401	542
Advances to suppliers	-	97	-	97	1,909
Property, plant and equipment in progress	-	1,562	-	1,562	15,599
Total		174,873	(82,967)	91,906	85,894
Intangible assets					
Software	15.40	2,445	(1,676)	769	1,000

The Company revised the useful life of its fixed assets, which have depreciated by new rates, as shown in the table above. The effects of this change were recognized prospectively as of January 1, 2009. This change in the useful lives reduced depreciation expense by R\$ 443 (Unaudited).

9. DEFERRED CHARGES

Deferred charges as of December 31 are presented as follows:

	2009	2008
	Unaudited	
Costs of studies and projects	5,554	5,554
Accumulated amortization	(3,353)	(2,260)
Total	2,201	3,294

Edgar Filing: ARVINMERITOR INC - Form 10-K/A

10. LOANS AND FINANCING

Loans and financing were obtained to finance the construction of the industrial facilities, development of quality processes, financing exports and machinery imports. The loans and financing were obtained from several financial institutions through funds obtained by such institutions from the BNDES (Brazilian National Bank for Social and Economic Development).

Type:	Annual financial charges	2009 Unaudited	2008
Import/Export			
ACC – Advance on Foreign Exchange Contracts	Exchange Variation + 5.2%	-	2,416
Financing			
FINAME -Financiamento de Máquinas e Equipamentos (Unibanco)			173

(**) Includes: Meritor Heavy Vehicle Systems LLC. and Meritor do Brasil Ltda.

Management's compensation in the year ended on December 31 is represented by nominal salary of R\$ 910 in 2009 (Unaudited) (R\$ 689 in 2008 and R\$ 626 in 2007) and profit sharing of R\$ 1,164 (Unaudited) (R\$ 850 in 2008 and R\$ 662 in 2007).

Loan agreements with officers and managers are subject to DI-extra rate published by Ambima.

Debits and credits with the parent company Randon S.A. Implementos e Participações are subject to financial market rates ("DI-extra" published by Ambima (National Association of Financial Market Institutions)).

General and administrative expenses refer to the allocation of corporate costs and administrative assistance services incurred by the parent company Randon S.A. Implementos e Participações.

Commercial Transactions

The commercial transactions with related parties follow the prices and terms established by the agreement signed between the parties. The agreement takes into account the term, volume and specifications of the products purchased by the related parties, which are not comparable to sales to unrelated parties.

12. PENSION PLAN

The Company co-sponsors RANDONPREV, a defined contribution pension plan under a capitalization regime whose main objective is to provide benefits that supplement those provided by the government plans. The pension plan expenses included in the statements of income for the years ended December 31, 2009, 2008 and 2007 totaled R\$ 306 (Unaudited), R\$ 297, and R\$ 263 respectively.

13. CONTINGENCIES

The Company, through its attorneys, has challenged at the administrative and judicial level the collection of certain taxes, labor and civil proceedings. Based on the opinion of its attorneys, the Company recorded a reserve for contingencies in the amount of R\$ 141 (Unaudited) (R\$ 136 as of December 31, 2008) to cover probable losses that may result from the final outcome of such proceedings.

The contingent liabilities as of December 31, 2009 are as follows:

Contingency	Likelihood of losses - Unaudited	
	Probable	Possible
Tax	-	2,277
Labor	141	284
Total	141	2,561

The Company has administrative proceedings in progress for which, based on the opinion of its attorneys and in accordance with Accounting practices adopted in Brazil, no reserves for contingencies have been recorded since the proceedings have been assessed as possible or remote likelihood of loss.

Tax

ICMS (State VAT) – The Company was assessed for an alleged irregularity in the calculation of the ICMS reduction benefit through the FUNDOPEM/NOSSO EMPREGO. The total amount, including principal, penalties and interest is R\$ 7,801. On January 24, 2008, as a result of the defense presented by the Company against the above-mentioned infraction note, the ICMS debt was recalculated by the tax authorities. Based on the notice sent by tax authorities to the Company at that date, management estimates that the total amount of the tax assessment will be reduced to approximately R\$ 2,277, including principal, penalties and interest.

14. FINANCIAL INSTRUMENTS

The estimated fair value of financial instruments has been determined using available market information and appropriate valuation methodologies. However, considerable judgment was required in the interpretation of market data to develop the most appropriate fair value estimates. Consequently, the estimates presented herein are not necessarily indicative of the amounts the Company could realize in a current exchange market. The use of different market valuation methodologies may have a material effect on the fair value estimates.

The management of these instruments is done through operating strategies, aimed at liquidity, profitability and security. The Company's financial instruments management policy consists of ongoing monitoring of contracted rates compared to market rates. The Company does not have transactions involving derivative financial instruments or any other risk assets for speculative purposes.

Balances breakdown

In compliance with Brazilian Securities and Exchange Commission (CVM) Instruction 235/95, the carrying amount and fair value of the financial instruments included in the balance sheets are as follows:

Description	2009	Fair	2008	Fair
	Carrying amount Unaudited	value Unaudited	Carrying amount	value
Temporary cash investments	97,882	97,882	31,783	31,783
Trade accounts receivable	71,776	71,776	66,973	66,973
Receivables from parent company	853	853	880	880
Other accounts receivable	826	826	1,886	1,886
Trade accounts payable	48,915	48,915	21,388	21,388
Loans and financing:				
In local currency	93,137	93,137	48,245	48,245
In foreign currency	7,361	7,361	9,156	9,156
Payables to parent company	-	-	2,388	2,388
Other accounts payable	3,423	3,423	5,287	5,287

Criteria, assumptions and limitations used in the calculation of the market value

- Temporary cash investments

The balances of temporary cash investments have their market values close to their book balances.

- Trade accounts receivable

The balances of trade accounts receivable have their market values close to their book balances.

- Receivables from parent company and other receivables

The balance of accounts receivables from parent company and other accounts receivable have their market values close to their book values.

- Trade accounts payable

The balances of trade accounts payable have their market values close to their book values.

- Payables to related companies and other accounts payable

The balances of accounts payable to related companies and other accounts payable have their market values close to their book values.

- Loans and financing

Loans and financing are recorded at the contractual interest of each transaction, as shown in Note no. 10.

- Limitations

The market values were estimated at the balance sheet date, based on relevant market information. The changes in the assumptions may significantly affect the estimates presented.

● Management of financial risks

The Company is exposed to the following risks associated with its operating activities and financing, including the utilization of its financial instruments:

- i. Credit risk
- ii. Market risk

The Company, through its Parent Company, has Hedge Transaction Policy prepared by the Planning and Finance Committee and endorsed by the Executive Board. The objective of such policy is to standardize the procedures of the Company while defining responsibilities and limitations involving hedge operations. These procedures are aimed to reduce the effects of fluctuation if exchange rates of foreign currency amounts estimated in the cash flow with no speculative purposes.

The monthly-estimated cash flow in foreign currency is taken as a basis for the twelve following months, either based on the Strategic Plan projections or on the updated expectations of each company. The instruments used are conservative and are previously approved by the same committee.

a. Credit risk

The sales policies of the Company are governed by credit policies determined by its management and are intended to minimize customer default risks. This objective is achieved by management through a careful selection of the customer portfolio, which considers the customer ability to pay (credit analysis).

b. Market risk

Represented by the risk that changes in the market, such as changes in the exchange rates, interest rates and in prices will affect the income of the Company or the value of its financial instruments. The objective in managing market risks is to control the exposure to market risks within acceptable parameters, optimizing their return.

Foreign exchange rate risk

The results of the Company are susceptible to significant variations due to the effects of the volatility of the foreign exchange rates on assets and liabilities indexed to foreign currencies, mainly the U.S. dollar, which closed 2009 with a negative variation of 25.49% (positive variation of 32% in 2008).

The Company is exposed to currency risk (exchange rate risk) on sales, purchases and loans denominated in a currency different from that usually used by the Company.

The Company's net exposure to the risk of foreign exchange rate on December 31 is as follows:

	2009 Unaudited	2008
A. Financing	(7,361)	(9,156)
B. Suppliers / Commissions	(1,155)	(899)
C. Net assets	5,682	12,234
D. Net exposure (A+B+C)	(2,834)	2,179

Interest rate risk

The results of the Company are susceptible to significant variations arising from loans and financing contracted at floating interest rates.

The Company does not have derivative financial instruments to protect variations in interest rates.

Edgar Filing: ARVINMERITOR INC - Form 10-K/A

In accordance with its financial policies, the Company has not conducted operations involving financial instruments on a speculative basis.

Price risk

Price risk relates to the possibility of fluctuations in market prices of the products sold or manufactured by the Company and other inputs used in the manufacturing process. These price oscillations may cause substantial alterations in the income and costs of the Company. To mitigate these risks, the Company continuously monitors the local and international markets, seeking to anticipate price movements.

15. CAPITAL

Subscribed capital is represented by 100,000 shares totaling R\$ 71,291 (Unaudited) held among the shareholders, as shown in the table below:

Shareholder	Quotas	R\$	%
	Unaudited	Unaudited	Unaudited
Randon S.A. Implementos e Participações	22,881	16,312	22.881
Master Sistemas Automotivos Ltda.	53,177	37,910	53.177
Meritor Heavy Vehicle Systems, LLC.	23,942	17,069	23.942
Total	100,000	71,291	100.000

As established by the joint-venture agreement and ratified by the shareholders in the meeting minutes for approval of profit allocation, Randon is entitled to receive non-proportional dividends in the amount of the tax benefit from Fundopem.

In April 2009, Suspensys paid dividends and interest on capital allocated on December 31, 2008. Of the dividends calculated in 2008, R\$ 2,289 (Unaudited) was allocated to net equity, as established in the shareholders' meeting minutes.

In June 2009, dividends and interest on capital in the amount of R\$ 27,559 (Unaudited) were distributed as dividends paid in advance. The distribution was as follows: R\$ 17,260 (Unaudited) corresponding to the partial net income for the period. Of this total, R\$ 3,725 (Unaudited) was through interest on capital and R\$ 13,535 (Unaudited) as dividends. The balance of R\$ 10,300 (Unaudited) refers to the income reserve distributed.

In August 2009, dividends were distributed to the shareholder Randon S.A. Implementos e Participações, as provided in clause 10 of the Joint-Venture Agreement signed on August 15, 2002, in the amount of R\$ 9,840 (Unaudited). The distribution was as follows: R\$ 7,657 (Unaudited) corresponding to the partial net income for the period and R\$ 2,183 (Unaudited) corresponding to the income reserve.

During 2009, the Company also recorded R\$ 4,910 (Unaudited) (R\$ 4,174 net of tax - Unaudited) as interest on capital, which was not distributed until December 31, 2009.

16. TAX INCENTIVE

It refers to tax incentives obtained in 2009 and 2008, respectively in the amounts of R\$ 13,013 (Unaudited) and R\$ 11,578 from the Fundopem/Nosso Empresa. This ICMS reduction benefit granted to the Company is calculated on a monthly basis and is contingent upon the creation of direct or indirect jobs in the State of Rio Grande do Sul. The tax incentives received are recognized in income in the year of their receipt.

17. INCOME TAX AND SOCIAL CONTRIBUTION

Reconciliation of income tax and social contribution - Charges for income tax and social contribution for the year ended December 31 are reconciled to the statutory rates as follows:

	2009 (Unaudited)		2008		2007	
	IRPJ	CSLL	IRPJ	CSLL	IRPJ	CSLL
Income before income tax and social contribution	83,449	83,449	108,070	108,070	78,636	78,636
Statutory rate	25%	9%	25%	9%	25%	9%
Income tax and social contribution at statutory rates	20,862	7,510	27,018	9,726	19,659	7,077
Effects of taxes on:						
Interest on capital expense	(2,159)	(777)	(1,546)	(556)	(1,191)	(429)

Foreign exchange losses on assets	(3,116)	(6,918)	(3,871)
Adjustment to present value of trade accounts payable	(218)	(4,518)	-
Other financial expenses	(2,507)	(667)	(1,408)
	(11,456)	(17,257)	(9,345)
Financial income (expenses), net	(2,252)	9,723	(2,378)

19. SUMMARY AND RECONCILIATION OF THE DIFFERENCES BETWEEN ACCOUNTING PRACTICES ADOPTED IN BRAZIL (BR GAAP) AND ACCOUNTING PRINCIPLES GENERALLY ACCEPTED IN THE UNITED STATES OF AMERICA (U.S. GAAP)

The financial statements of the Company are prepared in accordance with BR GAAP. Note 3 to the consolidated financial statements summarizes the accounting policies adopted by the Company. BR GAAP differs from U.S. GAAP in certain significant respects, which are summarized below:

(a) Deferred charges

BR GAAP allowed until December 31, 2007 the deferral of pre-operating expenses and certain expenses related to research and development. Under BR GAAP, these items are amortized over a period of five to ten years. Under U.S. GAAP, these are recorded as expenses when incurred.

(b) VAT tax incentive - Fundopem

Under BR GAAP, prior to January 1, 2008, tax incentives related to certain state taxes on revenues were recorded directly in shareholders' equity. Under U.S. GAAP, these tax incentives are recorded in the statement of income. Beginning January 1, 2008, the tax incentive is recorded in the statement of income under BR GAAP.

(c) Capitalization of interest in relation to construction in progress

Under accounting practices adopted in Brazil, prior to January 1, 1996 the Company was not required to capitalize the interest cost of borrowed funds as part of the cost of the related asset. Under U.S. GAAP, capitalization of borrowed funds during construction of major facilities is recognized as part of the cost of the related assets.

Under Brazilian GAAP exchange losses on foreign currency denominated assets and liabilities are capitalized. Under U.S. GAAP, capitalization of exchange losses is not permitted.

(d) Pension Plan Surplus

Under Brazilian GAAP, the excess of the fair value of the pension plan assets over the projected benefit obligation is not recognized as an asset on the balance sheet. Under U.S. GAAP, the asset is recognized on the balance sheet as prepaid pension cost.

(e) Dividends

Under BR GAAP, proposed dividends are accounted for in the financial statements in anticipation of their approval by the shareholders' meeting. Distributions characterized as interest on shareholders' equity as well as minimum compulsory dividends are accrued for under both BR GAAP and U.S. GAAP. Any excess of proposed dividends over either the minimum compulsory dividend or distributions characterized as interest on shareholders' equity would not be accounted for under U.S. GAAP, if such proposed dividends are subject to approval at the annual shareholders' meeting.

(f) New Accounting Pronouncements

In June 2009, the Financial Accounting Standards Board (FASB) issued Financial Accounting Standard (FAS) No. 167, "Amendments to FASB Interpretation No. 46(R)" (FAS 167). FAS 167 is a revision to FASB Interpretation No. 46(R), "Consolidation of Variable Interest Entities," and amends the consolidation guidance for variable interest entities. Additionally, FAS 167 will require additional disclosures about involvement with variable interest entities and any significant changes in risk exposure due to that involvement. FAS 167 is effective January 1, 2010 for companies reporting on a calendar-year basis. We currently do not expect the adoption of the revised standard to have an effect on our consolidated results of operations and financial position, when adopted.

In June 2009, the FASB issued FAS No. 166, "Accounting for Transfers of Financial Assets" (FAS 166). FAS 166 is a revision to FAS No. 140, "Accounting for Transfers and Servicing of Financial Assets and Extinguishment of Liabilities," and will require more information about transfer of financial assets, including securitization transactions, and enhanced disclosures when companies have continuing exposure to the risks related to transferred financial assets. Additionally, FAS 166 eliminates the concept of a qualifying special-purpose entity. FAS 166 is effective January 1, 2010 for companies reporting on a calendar-year basis. We currently do not expect the adoption of the revised standard to have an effect on our consolidated results of operations and financial position, when adopted.

(g) Other Comprehensive Income

Under U.S. GAAP, SFAS No. 130, "Reporting Comprehensive Income", requires the disclosure of comprehensive income. Comprehensive income is comprised of net income and "other comprehensive income", which include charges or credits directly to equity that are not the result of transactions with shareholders. The Company has not recorded other comprehensive income for all periods presented.

Edgar Filing: ARVINMERITOR INC - Form 10-K/A

(h) Cash and Cash Equivalents

Under U.S. GAAP, cash equivalents are defined as short-term, highly liquid investments, which are both readily convertible to known amounts of cash and have original maturities of 90 days or less. The Company holds certain highly liquid, low risk financial investments, comprised principally of high quality government debt, which are classified as cash equivalents under BR GAAP. Under U.S. GAAP, since these investments have original maturities of over 90 days, such investments do not qualify as cash equivalents. The effect of this difference in classification on the Company's balance sheets and statements of cash flows for the periods presented is as follows:

	2009 (Unaudited)	2008	2007
Reconciliation of cash and cash equivalents			
Cash and cash equivalents under BR GAAP	112,087	33,361	40,073
Reclassification of temporary investments	(97,882)	(31,783)	(34,491)
Cash and cash equivalents under U.S. GAAP	14,205	1,578	5,582
Reconciliation of cash flows			
Investing activities under BR GAAP	(16,020)	(51,170)	(12,727)
Cash flows relating to temporary cash investments under U.S. GAAP	(66,099)	2,708	(11,551)
Investing activities under U.S. GAAP	(82,119)	(48,462)	(24,278)
Cash and cash equivalents at beginning of the year under BR GAAP			
	33,361	40,073	31,425
Reclassification of temporary cash investments at beginning of the year	(31,783)	(34,491)	(22,940)
Cash and cash equivalents at beginning of the year under U.S. GAAP	1,578	5,582	8,485
Increase(decrease) in cash and cash equivalents under BR GAAP			
	78,726	(6,712)	8,648
Cash flows relating to temporary cash investments under U.S. GAAP	(66,099)	2,708	(11,551)
Cash and cash equivalents at end of the year under U.S. GAAP	14,205	1,578	5,582

(i) Reconciliation of principal differences between BR GAAP and U.S. GAAP
