Report of independent accountants on special review

(A translation of the original report in Portuguese as filed with the Brazilian Securities Commission (CVM) containing quarterly financial information prepared in accordance with accounting practices adopted in Brazil and the regulations issued by the Brazilian Securities Commission (CVM))

The Shareholders and Board of Directors
Brasil Telecom Participações S.A.
Brasília - DF

We have reviewed the quarterly financial information of Brasil Telecom Participações S.A. for the quarter ended June 30, 2004, comprising the balance sheet and the consolidated balance sheet of the Company and its subsidiaries, the statement of income and the consolidated statement of income, the management report and other relevant information, prepared in accordance with accounting practices adopted in Brazil.

Our review was performed in accordance with auditing standards established by the IBRACON - Brazilian Institute of Independent Auditors and the Federal Council of Accountancy, which comprised mainly: (a) inquiries and discussion with management responsible for the accounting, financial and operational areas of the Company regarding the criteria adopted in the preparation of the quarterly information; and (b) review of post-balance sheet information and events, which may have a material effect on the financial and operational position of the Company and its subsidiaries.

Based on our special review, we are not aware of any material changes that should be made to the aforementioned quarterly information for it to be in accordance with accounting practices adopted in Brazil and the regulations issued by the Brazilian Securities Commission (CVM), specifically applicable to the mandatory quarterly financial information.

Our review was performed for the purpose of issuing a special review report on the mandatory quarterly financial information. The statement of cash flow represents supplementary information to those statements and is presented to provide additional analysis. This supplementary information was submitted to the same review procedures applied to the quarterly financial information, and, based on our special review, is adequately presented in all material respects, in relation to the quarterly financial information taken as a whole.

1. OPERATIONS

Brasil Telecom Participações S.A. (Company) was established in accordance with Article 189 of Law 9472/97 - General Telecommunications Law, as part of the TELEBRÁS spin-off process. The spin-off protocol and justification was approved in the Shareholders Meeting of May 22, 1998. The Company is a subsidiary of SOLPART Participações S.A., which holds 53.55% of the Company s voting capital and 20.33% of total capital.

The Company is registered with the Brazilian Securities Commission (CVM) and the Securities and Exchange Commission (SEC) in the USA, and its shares are traded on the main stock exchanges in Brazil and its ADR on the New York Stock Exchange (NYSE).

The Company is a holding company, indirectly carrying out operations through your parent company, Brasil Telecom S.A., a telecommunications operator holding a concession to operate the Switched Fixed Telephone Service (STFC), in Region II of the General Concessions Plan, covering the Brazilian states of Acre, Rondônia, Mato Grosso, Mato Grosso do Sul, Tocantins, Goiás, Paraná, Santa Catarina and Rio Grande do Sul and the Federal District. In this area is of 2,859,375 square kilometers, corresponding to 34% of the Brazilian territory, the Company renders from July of 1998 STFC in the modalities local and local intra-region long distance concessions.

With the recognition of the prior fulfillment in advance of the obligations for universalization stated in the General Plan of Universalization Goals (PGMU), forecast for December 31, 2003, in accordance with the acts published in the Diário Oficial da União (Official Daily Government Newspaper (DOU)) on January 19, 2004, the restriction of providing other telecommunications services ceased to exist, permitting the Brasil Telecom S.A, its parent companies, its subsidiaries and associated companies to obtain new authorizations. On the same date the National Telecommunications Agency ANATEL, issued authorizations for the Brasil Telecom S.A to exploit STFC in the following service modalities: (i) Local and Domestic Long Distance calls in Regions I and III and Sectors 20, 22 and 25 of Region II of the General Concession Plan (PGO); and (ii) International Long Distance calls in Regions I, II of III of PGO. As a result of these authorizations the Company began to exploitprovide the Domestic and International Long Distance services in the new regions, starting on January 22, 2004. In the case of the Local Service, to be provided in regions I and III, as established in the regulations, the Company has a period of 12 months to begin operations as from the date of the aforementioned authorization.

The information referring to the quality and universalization targets of the Switched Fixed Telecommunications Services adopted by its operator are available for interested parties on the web site of ANATEL, at the following address: www.anatel.gov.br.

The subsidiary Brasil Telecom S.A. controls wholly-owned subsidiaries: (i) BrT Serviços de Internet S.A. (BrTI), a wholly-owned subsidiary incorporated in October 2001, engaged in the provision of Internet services and related activities, becoming operational in the beginning of 2002; and (ii) Brasil Telecom Celular S.A. (BrT Celular), incorporated in December 2002, to operate the Mobile Personal Service (SMP), holding a license to serve the same coverage area where the Company operates STFC. At the balance sheet date BrT Celular was initiating its structuring process - pre-operating phase and the beginning of its activities is forecasted for the second semester of 2004; (iii) MHT Ventures do Brasil Ltda (MTH) on May 13, 2004, the Company acquired 80.1% of the voting capital of MTH, in turn, held 100% of the capital of MetroRED Telecomunicações Ltda. (MetroRED) that is a service provider of a private telecommunications network through optical fiber digital networks in São Paulo, Rio de Janeiro and Belo Horizonte and long distance network connecting these major metropolitan commercial centers. It also has an Internet Solutions center in São Paulo, which offers co-location, hosting and other value added services; and (iv) VANT Telecomunicações S.A. (VANT) that acquisition of 80.1% of the rest capital was in May 13, 2004 is a service provider for corporate network services. Founded in

Edgar Filing: BRASIL TELECOM HOLDING CO - Form 6-K

October 1999, initially focused on a TCP/IP network, VANT operates in all of Brazil, and is present in the main Brazilian state capitals, offering a portfolio of voice and data products.

The Company also controls Nova Tarrafa Participações Ltda. (NTP) and Nova Tarrafa Inc (NTI). The latter, which that was previously a minority investment, passed through a spin-off of its assets in the first quarter of 2003, becoming a subsidiary. NTP and NTI are engaged in holding interests in Internet Group (Cayman) Limited, which provides access to the Internet, which the sum of these investments represents a minority interest.

Completing the information on the companies where the Company exercises control indirectly, during the second quarter of 2003 Brasil Telecom Serviços de Internet S.A. invested, as a shareholder or quotaholder, and started to have the control of the following companies:

(i) BrT Cabos Submarinos Group (ex-GlobeNet)

This group of companies operates through a system of submarine handles of fiber optics, with points of connection in the United States, Bermuda Islands, Venezuela and Brazil, allowing the traffic of data through packages of integrated services, offered to local and international corporate customers. The following companies comprised it:

- Brasil Telecom Cabos Submarinos do Brasil (Holding) Ltda. (BrT CSH): a company acquired by BrTI on June 11, 2003, as part of the program to purchase the GlobeNet Group, an acquisition previously disclosed on November 19, 2002, through the relevant fact.

The notes to the financial statements are presented in thousands of reais, unless demonstrated otherwise in each note. According to each situation, the notes to the financial statements present information related with the Company and the consolidated financial statements, identified as PARENT COMPANY and CONSOLIDATED , respectively. When the information is common to both situations, it is indicated as PARENT COMPANY AND CONSOLIDATED .

Edgar Filing: BRASIL TELECOM HOLDING CO - Form 6-K

The accounting estimates were based on objective and subjective factors, based on the judgment of the management for determining the appropriate amount to be recorded in the financial statements. Significant elements subject to these estimates and assumptions include the residual amount of the fixed assets, provision for doubtful accounts, inventories and deferred income tax assets, provision for contingencies, valuation of derivative instruments, and assets and liabilities related to benefits for employees. The settlement of transactions involving these estimates may result in significant different amounts due to the inherent imprecision to the process of their determination. The Company reviews the estimates and assumptions at least quarterly.

Consolidated Financial Statements

The consolidation was made in accordance with CVM Instruction 247/96 and includes the Company and its subsidiaries mentioned in Note 1.

Some of the main consolidation procedures are:

- Elimination of intercompany balances, as well as revenue and expenses of transactions among them;
- Elimination of the investor's shareholdings, reserves and accumulated results in the investees; and
- Segregation of the portions of shareholders' equity and result of minority shareholders, indicated in the specific items.

The reconciliation between the net income and Shareholders' Equity of the Parent Company and the consolidated is presented as follows:

	NET INCOME		SHAREHOLDERS' EQUITY	
	06/30/04	03/31/04	06/30/04	03/31/04
PARENT COMPANY	132,251	73,475	6,211,802	6,146,862
Records made in the Subsidiaries Shareholders Equity:

CONSOLIDATED	125,415	74,348	6,202,488	6,136,675

In addition, the Company presents the statement of cash flows, prepared under the indirect method, in accordance with Accounting Rules and Procedures - NPC Nr. 20 of Brazilian Institute of Accountants (IBRACON).

3. SUMMARY OF SIGNIFICANT ACCOUNTING PRACTICES

The criteria mentioned in this note refer to the practices adopted by the Company and its subsidiaries which are reflected in the consolidated balance sheet.

a. Cash and Cash Equivalents: Cash equivalents are short-term, high-liquidity investments, which immediately mature. They are recorded at cost, plus income earned to the balance sheet date, not exceeding market value.

b. Trade Accounts Receivable: Receivables from users of telecommunications services are recorded at the amount of the tariff in effect on the date the service is rendered. Unbilled services provided to customers at the balance sheet date are also included in trade accounts receivable. The criterion adopted for making the provision for doubtful accounts takes into account the calculation of the actual percentage losses incurred on each range of accounts receivable. The historic percentages are applied to the current ranges of accounts receivable, also including accounts coming due and the portion yet to be billed, thus composing the amount that could become a future loss, which is recorded as a provision.

c. Inventories: Stated at average acquisition cost, not exceeding replacement cost. Inventories are segregated into inventories for plant expansion and those for maintenance. The inventories to be used in expansion are classified in property, plant and equipment (construction in progress), and inventories to be used in maintenance are classified as current and noncurrent assets. Obsolete items are recorded as Allowance for losses.

d. Investments: Investments in subsidiaries are valued using the equity method. The goodwill was calculated based on the expectation of future results and its amortization is related to the volume and of timing forecasted over a period of not more than ten years. Other investments are recorded at cost less allowance for probable losses, when applicable. The investments resulting from income tax incentives are recognized at the date of investment, and result in shares of companies with tax incentives or investment fund quotas. In the period between the investment date and receipt of shares or quotas, they remain recognized in noncurrent assets. The Company adopts the criterion of using the maximum

Edgar Filing: BRASIL TELECOM HOLDING CO - Form 6-K

percentage of tax allocation. These investments are periodically valued at cost or market prices, when the latter is lower, and allowances for losses are recorded if required.

e. Property, Plant and Equipment: Stated at cost of acquisition and/or construction, less accumulated depreciation. Financial charges for financing assets and construction in progress are capitalized.

The costs incurred, when they represent improvements (increase in installed capacity or useful life) are capitalized. Maintenance and repair, while other costs are charged to, the profit and loss accounts income, on an accrual basis.

Depreciation is calculated under the straight-line method. Depreciation rates used are based on expected useful lives of the assets and in accordance with the standards of the Public Telecommunications Service. The main rates used are set forth in Note 24.

f. Deferred Charges: Segregated between deferred charges on amortization and formation. Their breakdown is shown in Note 25. Amortization is calculated using the straight-line method, for the period of five years, in accordance with the legislation in force. When the asset no longer generates benefits, it is written off against non-operating income.

g. Income and Social Contribution Taxes: Income and social contribution taxes are accounted for on an accrual basis. These taxes levied on temporary differences, tax losses and the negative social contribution base are recorded under assets or liabilities, as the case may be, according to the assumption of realization or future demand, within the parameters established in the CVM Instruction 371/02.

h. Loans and Financing: Updated to the balance sheet date for monetary or exchange variations and interest incurred to the balance sheet date. Equal restatement is applied to the guarantee contracts to hedge the debt.

i. Provision for Contingencies: Recognized based on its risk assessment evaluation and quantified on economic grounds and based on legal counselors' opinions on the lawsuits and other contingency factors known as of the balance sheet date. The basis and nature of the provisions are described in Note 7.

j. Recognition of Revenues: Revenues from services rendered are accounted for on the accrual basis. Local and long distance calls are charged based on time measurement according to the legislation in force. Revenues from sales of payphone cards are recorded upon sale.

k. Recognition of Expenses: Expenses are recognized on the accrual basis, considering their relation with revenue realization. Expenses related to other periods are deferred.

l. Financial Income (Expense), Net: Financial income comprises interest earned on accounts receivable settled after maturity, gains on financial investments, exchange variation and hedges, when earned. Financial expenses comprises interest incurred and other charges on loans, financing and other financial transactions.

Credited Interest on Shareholders' Equity is included in the financial expenses balance; for financial statement presentation purposes, the amounts are reversed to profit and loss accounts and reclassified as a deduction of retained earnings, in the shareholders' equity.

m. Research and Development: Costs for research and development are recorded as expenses when incurred, except for expenses with projects linked to the generation of future revenue, which are recorded under deferred assets and amortized over a five-year period after the operations commence.

n. Benefits to Employees: Private pension plans and other retirement benefits sponsored by the Company and its subsidiaries for their employees are managed by SISTEL and BrTPREV. Contributions are determined on an actuarial basis, when applicable, and accounted for on an accrual basis. As of December 31, 2001, to comply with CVM Deliberation 371/00, the subsidiary Brasil Telecom S.A. recorded its actuarial deficit on the balance sheet date against shareholders' equity, net of its tax effects. As from 2002, as new actuarial revaluation show the necessity for adjustments to the provision, they are recognized in the profit and loss accounts in accordance with the CVM deliberation above. Complementary information on private pension plans is described in Note 6.

o. Employees and Directors Profit Sharing: The provisions for employee profit sharing are recognized according to the accrual basis. The calculation of the amount, which is paid in the year after the provision recognition, is in accordance with the target program established with the labor union, in accordance with Law 10,101/00 and the Company's bylaws.

p. Earnings per thousand shares: Calculated based on the number of shares outstanding at the balance sheet date, which comprises the total number of shares issued net of treasury stock.

4. RELATED-PARTY TRANSACTIONS

Edgar Filing: BRASIL TELECOM HOLDING CO - Form 6-K

Related party transactions refer to existing operations carried out by the Company with its subsidiaries Brasil Telecom S.A, Nova Tarrafa Participações Ltda. and Nova Tarrafa Participações INC.

Operations between the Company and the related parties are carried out under normal prices and market conditions. The principal transactions are:

Brasil Telecom S.A.

Dividends/Interest on Shareholders Equity: in the quarter, the subsidiary credited to the Company Interest on Shareholders Equity in the amount of R\$157,283 (R\$162,425 in the same period last year). The balance of this asset as of June 30, 2004, net from the withholding tax is R\$133,690 (R\$271,785 as of March 31, 2004).

Loans with Subsidiary: Asset balance as of June 30, 2004 arises from the spin-off of Telebrás and is indexed to exchange variation, plus interest of 1.75% per year, amounting to R\$91,835 (R\$85,584 on March 31, 2004). The financial revenue recognized as profit and loss account in the quarter was R\$7,275 (R\$20,505 as financial loss in the same period in the previous year, due to the drop in the quotation of the US dollar).

Debentures: On January 27, 2001, the subsidiary issued 1,300 private debentures non-convertible or exchangeable for any type of share, at the unit price of R\$1,000, totaling R\$1,300,000, for the purpose of financing part of its investment program. All these debentures were acquired by the Company. The nominal value of these debentures will be paid in three installments equivalent to 30%, 30% and 40% with maturities on July 27, 2004, 2005, and 2006, respectively. The debenture remuneration is equivalent to 100% of CDI, received semiannually. The balance of this asset is R\$1,383,439 (R\$1,334,489 on March 31, 2004), and the yield recognized in the income for the quarter represents R\$98,659 (R\$152,726 in 2003).

Revenues, Expenses and Accounts Receivable and Payable: arising from transactions related to the use of installations and logistic support. The balance receivable is R\$2,617 (R\$41 payable as of March 31, 2004) and the amounts recorded in the income for the quarter are comprising of Operating Expenses of R\$1,407 (R\$1,101 in 2003).

5. MARKET VALUE OF FINANCIAL ASSETS AND LIABILITIES (FINANCIAL INSTRUMENTS) AND RISK ANALYSIS.

The Company and its subsidiary assessed the book value of its assets and liabilities as compared to market or realizable values (fair value), based on information available and valuation methodologies applicable to each case. The interpretation of market data regarding the choice of methodologies requires considerable judgment and determination of estimates to achieve an amount considered adequate for each case. Accordingly, the estimates presented may not necessarily indicate the amounts, which can be obtained in the current market. The use of different assumptions for calculation of market value or fair value may have material effect on the obtained amounts. The selection of assets and liabilities presented in this Note was made based on their materiality. Those instruments the value of which approximates the fair value and, whose risk assessment is not significant, are not mentioned.

In accordance with their natures, the financial instruments may involve known or unknown risks; the potential of such risks is important for the best judgment. Thus, there may be risks with or without guarantees, depending on circumstantial or legal aspects. Among the principal market risk factors which can affect the Company's and subsidiaries' business are the following:

a. Credit Risk

The majority of the services provided by the subsidiary Brasil Telecom S.A. are related to the Concession Agreement, and a significant portion of these services is subject to the determination of tariffs by the regulatory agency. The credit policy, in case of telecommunications public services, is subject to legal standards established by the concession authority. The risk exists since the subsidiary may incur losses arising from

Edgar Filing: BRASIL TELECOM HOLDING CO - Form 6-K

the difficulty in receiving amounts billed to its customers. In the quarter, the Company's default was 3.06% of the gross revenue (2.51% in the same period last year). By means of internal controls, the level of accounts receivable is constantly monitored, thus limiting the risk of past due accounts by cutting the access to the service (out phone traffic) if the bill is overdue for over 30 days. Exceptions are made for telephone services, which should be maintained for national security or defense.

b. Exchange Rate Risk

Assets

The Company has loan agreements in foreign currency, and, therefore, subject to exchange rate fluctuation. The amounts of assets exposed to this type of risk are the following:

	PARENT COMPANY		CONSOLIDATED	
	BOOK AND MARKET VALUE		BOOK AND MARKET VALUE	
	06/30/04	03/31/04	06/30/04	03/31/04

NonCurrent Assets	218,472	212,221	126,637	126,637

The loans receivable in dollars were transferred to the Company at the time of the split off of Telebrás. Due to their original characteristics, no financing is available on the market under similar conditions, which led to the presentation of the book value only.

Liabilities

The Company and the subsidiary Brasil Telecom S.A. has loans and financing contracted in foreign currency. The risk related to these liabilities arises from possible exchange rate fluctuations, which may increase these liabilities balances. Loans subject to this risk represent approximately 33% of the total liabilities. To minimize this type of risk, the subsidiary enters into swap agreements with financial institutions to hedge foreign exchange exposures. 26% of the debt portion in foreign currency is covered by hedge agreements. Unrealized positive or negative effects of these operations are recorded in the profit and loss accounts as gain or loss. To the quarter, consolidated net gains totaled R\$28,142 (net loss of R\$74,546 in the same period in 2003).

Net exposure as per book and market values, at the exchange rate prevailing on the balance sheet date, is as follows:

LONG-TERM	1,365,572	1,345,158	685,164	677,665

The method used for calculation of market value (fair value) of loans and financing in foreign currency and hedge instruments was the discounted cash flow, at the market rates prevailing of the balance sheet date.

c. Interest Rate Risk

Assets

The private debentures issued by subsidiary Brasil Telecom S.A were fully subscribed by the Company.

	PARENT COMPANY		CONSOLIDATED

NONCURRENT ASSETS	1,383,439	1,334,489	7,929	7,705

The book values are equal to market values since the current conditions for contracting this type of financial instrument are similar to the original conditions.

The sum of the Company's debentures, loans and financing concentrated in the subsidiary represents 92% (91.8% on March 31, 2004) of this type of assets.

Liabilities

In 2000, the Company issued private debentures convertible into preferred shares. This liability was contracted at the interest rate linked to TJLP. The risk linked to this liability arises from possible increase in this rate.

The subsidiary Brasil Telecom S.A. has loans and financing contracted in local currency subject to interest rates linked to indexing units (TJLP, UMBNDES, CDI etc.). The risk inherent in these liabilities arises from possible variations in these rates. The Parent Company has contracted derivative contracts to hedge 78% (R\$78 in 2003) of the liabilities subject to the UMBNDES rate, using exchange rate swap contracts, considering the influence of the dollar on the interest rate (basket of currencies) of these liabilities. However, the other market rates are continually monitored to evaluate the need to contract derivatives to protect against the risk of volatility of these rates. The Company also issued non-convertible private and public debentures. These liabilities were contracted at interest rates tied to the CDI, and the risk linked with this liability is the result of the possible increase in the rate.

The aforementioned liabilities at the balance sheet date are as follows:

	PARENT COMPANY

LONG-TERM	1,767,618	1,841,701	1,874,572	1,855,224

Book and market values are equivalent because the current contractual conditions for these types of financial instruments are similar to those in which they were originated.

d. Risk of Not Linking Monetary Restatement Indexes to Accounts Receivable

Loan and financing rates contracted by subsidiary Brasil Telecom S.A. are not linked to amounts of accounts receivable. Telephony tariff adjustments do not necessarily follow increases in local interest rates which affect the subsidiary's debts. Consequently, a risk arises from this lack of linking.

e. Contingency Risks

Contingency risks are assessed according to loss hypotheses, as probable, possible or remote. Contingencies considered as probable risk are recorded in liabilities. Details on this risk are presented in Note 7.

f. Risks Related to Investments

The Company has investments, which are valued using the equity method and stated at acquisition cost. Brasil Telecom S.A., a Nova Tarrafa Participações Ltda. e a Nova Tarrafa Inc. are subsidiaries, the investments of which are carried under the equity method.

Investments valued at cost are immaterial in relation to total assets. The risks related to them would not cause significant impacts to the Company's if losses were to occur on these investments.

In the balance sheet date the investments were represented as follows:

	06/30/04		03/31/04	
	Book Value	Market Value	Book Value	Market Value
INVESTMENTS	4,414,033	4,070,783	4,389,240	4,456,742

Other investments	11,296	11,296	11,771	11,771

The investment quoted on the stock exchange refers to the interest in Brasil Telecom S.A., and its market value valued based on the market quotations in trading between minority shareholders.

g. Temporary Cash Investment Risks

The Company has several temporary cash investments in exclusive financial investment funds (FIFs), whose assets are constituted by post-fixed, federal securities, pre-fixed and exchange rates indexed to CDI, through future contracts indexed to the exchange rate of the Futures and Commodities Exchange - BM&F and investment fund in foreign currency, with no credit risks in such operations. The Company has financial investments in the amount of R\$535,453 (R\$576,560 as of March 31, 2004). Income earned to the quarter date is recorded in financial income and amounts to R\$39,671 (R\$29,670 in 2003). In the consolidated financial statements the amounts is as follows: temporary cash investments in the amount of R\$2,433,796 (R\$2,610,493 as of March 31, 2004) and income earned in the amount of R\$145,393 (R\$103,988 in 2003).

6. BENEFITS TO EMPLOYEES

The benefits described in this note are offered to the employees of the Company, its subsidiary Brasil Telecom S.A. and its wholly-owned subsidiary. These companies are better described together, and can be referred to as Brasil Telecom (group) and for the purpose of the pension scheme cited in this note, are also denominated Sponsor.

(a) Private Pension Plan

Edgar Filing: BRASIL TELECOM HOLDING CO - Form 6-K

Brasil Telecom (group) sponsors private pension schemes related with retirement for its employees and assisted members, and in the case of the latter, medical assistance in some cases. These plans are managed by two foundations, which are Fundação SISTEL de Seguridade Social (SISTEL), which originated from certain companies of the former Telebrás System and Fundação BrTPREV (FBrTPREV) former Fundação dos Empregados da Companhia Riograndense de Telecomunicações - FCRT, which managed the benefit plans of CRT, a company managed by the subsidiary Brasil Telecom S.A. on December 28, 2000.

The bylaws stipulate approval of the supplementary pension policy and the joint liability attributed to the defined benefit plans is linked to the acts signed with the foundations, with the agreement of the Supplementary Pensions Department - SPC, where applicable to the specific plans.

The sponsored plans are valued by independent actuaries on the balance sheet date and, in the case of the defined benefit plans described in this explanatory note, immediate recognition of the actuarial gains and losses is adopted. The full liabilities are provided for plans showing deficits. This measure has been applied since the 2001 financial year, when the regulations of CVM Ruling 371/00 were adopted. In cases that show positive actuarial situations, no assets are recorded due to the legal impossibility of reimbursing the surpluses.

Below the characteristics of the supplementary pension plans sponsored are described.

FUNDAÇÃO SISTEL DE SEGURIDADE SOCIAL (SISTEL)

Plans

TCSPREV (Defined Contribution, Settled Benefit, Defined Benefit)

This defined contribution and settled benefit plan was introduced on February 28, 2000, with the adherence of around 80% of the employees at that time. On December 31, 2001, all the pension plans sponsored by SISTEL were merged, being exceptionally and provisionally approved by the Supplementary Pensions Department - SPC, due to the need for adjustments to the regulations. They were subsequently transformed into defined contribution groups with settled and defined benefits. The plans that were merged into the TCSPREV were the PBS-TCS, PBT-BrT, Convênio de Administração BrT, and the Termo de Relação Contratual Atípica, the conditions established in the original plans being maintained. On March 2003, this plan was suspended to the employees who want to be included in the supplementary pension plans sponsored by the Company. TCSPREV currently attends to around 61.0% of the staff.

PBS-A (Defined Benefit)

Maintained jointly with other sponsors linked to the provision of telecommunications services and destined for participants that had the status of beneficiaries on January 31, 2000.

PAMA - Health Care Plan for Retired Employees (Defined Contribution)

Maintained jointly with other sponsors linked to the provision of telecommunications services and destined for participants that had the status of beneficiaries on January 31, 2000, and also for the beneficiaries of the PBS-TCS Group, incorporated into the TCSPREV on December 31, 2001 and beneficiaries of the plans of definite benefits PBS s of other sponsors of the SISTEL. According to a legal/actuarial appraisal, the sponsor s liability is exclusively limited to future contributions.

PAMEC-BrT (Health-care Plan for Supplementary Pension Beneficiaries)

Medical assistance for retirees and pensioners linked with the PBT-BrT, which was incorporated into the TCSPREV on December 31, 2001.

Contributions Established for the Plans

TCSPREV

Contributions to this plan were maintained on the same basis as the original plans incorporated in 2001 for each group of participants, and were established based on actuarial studies prepared by independent actuaries according to regulations in force in Brazil, using the capitalization system to determine the costs. Currently contributions are made by the participants and the sponsor only for the internal groups PBS-TCS (defined benefit) and TCSPREV. In the TCSPREV group, the contributions are credited in individual accounts of each participant, equally by the employee and the sponsor, and the basic contribution percentages vary between 3% and 8% of the participant s salary, according to age. Participants have the option to contribute voluntarily or sporadically to the plan above the basic contribution, but without equal payments from the sponsor. In the case of the PBS-TCS group, the sponsor s contribution in the quarter was 12% of the payroll of the participants, whilst the employees contribution varies according to the age, service time and salary. An entry fee may also be payable depending on the age of entering the plan. The sponsors are responsible for the cost of all administrative expenses and risk benefits. In the quarter contributions by the sponsor to the TCSPREV group represented on average 6.71% of the payroll of the plan participants. TCSPREV currently attends to around 6.05% of the staff.

PBS-A

Contributions may occur in case of accumulated deficit. As of December 31, 2003, the plan recorded a surplus.

Edgar Filing: BRASIL TELECOM HOLDING CO - Form 6-K

PAMA

This plan is sponsored with contributions of 1.5% on payroll of active participants linked to PBS plans, segregated and sponsored by several SISTEL sponsors. In the case of Brasil Telecom (group), the PBS-TCS was incorporated into the TCSPREV plan on December 31, 2001, and became an internal group of the plan.

The company's contributions for this plan, that are exclusively the responsibility of the sponsors, were R\$57 in the quarter (R\$61 in 2003).

PAMEC-BrT

Contributions for this plan were fully paid in July 1998 through a single payment. New contributions will be limited to the future necessity to cover expenses, if that occurs.

FUNDAÇÃO BrTPREV

The main purpose of the Company sponsoring BrTPREV is to maintain the supplementary retirement, pension and other provisions in addition to those provided by the official social security system to participants. The actuarial system for determining the plan's cost and contributions is collective capitalization, valued annually by an independent actuary.

Plans

BrTPREV

Defined contribution and settled benefits in October 2002 plan to provide supplementary social security benefits in addition to those of the official social security. On March 2003, this plan was provided to the employees from all branches of the Company and to the employees of the subsidiaries, who wanted to be benefited by the supplementary pension plans sponsored. Nowadays, this plan attended to around 27.4% of the staff.

Fundador - Brasil Telecom and Alternative - Brasil Telecom

Defined contribution and settled benefits plan to provide supplementary social security benefits in addition to those of the official social security, now closed to the entry of new participants. Nowadays, there were 1.6% of the staff.

Contributions Established for the Plans

BrTPREV

The contributions to this plan are established based on actuarial studies prepared by independent actuaries according to the regulations in force in Brazil, using the capitalization system to determine the costs. Contributions are credited in individual accounts of each participant, the employee's and Company's contributions being equal, the basic percentage contribution varying between 3% and 8% of the participation salary, according to age. Participants have the option to contribute voluntarily or sporadically to the plan above the basic contribution, but without equal payments from the Company. The sponsor is responsible for the cost of administrative expenses on the basic contributions from employees and normal contributions of the Company and risk benefits. In the quarter contributions by the sponsor represented on average 6.24% of the payroll of the plan participants, whilst the average employee contribution was 5.45%.

In the quarter the Company's contributions were R\$2,525 (R\$1,190 in 2003).

FUNDADOR - BRASIL TELECOM AND ALTERNATIVE - Brasil Telecom

The regular contribution by the sponsor in the quarter was an average of 2.19% on the payroll of plan participants, who contributed at variable rates according to age, service time and salary; the average rate was 2.13%. With the Alternative-Brasil Telecom, the participants also pay an entry fee depending on the age of entering the plan.

The usual contributions of the Company in the quarter were R\$9 (R\$131 in 2003).

The technical reserve corresponding to the current value of the Company's supplementary contribution must be amortized, due to the actuarial deficit of the plans, within the maximum established period of 20 years as from January 2002, according to Circular 66/SPC/GAB/COA from the Supplementary Pensions Department dated January 25, 2002. Of the maximum period established, 17 years and six months still remain for complete settlement. The amortizing contributions in the quarter were R\$49,238 (R\$28,054 in 2003).

(b) Stock Option Plan for Officers and Employees

Edgar Filing: BRASIL TELECOM HOLDING CO - Form 6-K

The Extraordinary Shareholders Meeting from the subsidiary Brasil Telecom S.A. held on April 28, 2000, approved the general plan to grant stock purchase options to officers and employees of the Company and its subsidiaries. The plan authorizes a maximum limit of 10% of the shares of each kind of Company stock. Shares derived from exercising options guarantee the beneficiaries the same rights granted to other Company shareholders. The administration of this plan was entrusted to a management committee appointed by the Board of Directors, which decided only to grant preferred stock options. The plan is divided into two separate programs:

Program A:

This program is granted as an extension of the performance objectives established by the Board of Directors for a five-year period. Up to June 30, 2004, no stock had been granted.

Program B:

The price of exercising is established by the management committee based on the market price of 1000 shares at the date of the grant of option and will be monetarily restated by the IGP-M between the date of signing the contracts and the payment date.

The right to exercise the option is given in the following way and within the following periods:

	First Grant		Second Grant	
	From	End of period	From	End of period
33%	01/01/04	12/31/08	12/19/05	12/31/10
33%	01/01/05	12/31/08	12/19/06	12/31/10
34%	01/01/06	12/31/08	12/19/07	12/31/10

The acquisition periods can be anticipated as a result of the occurrence of events or special conditions established in the option contract.

The information related with the general plan to grant stock options is summarized below:

	Preferred stock options (thousand)	Average exercise price (R\$)
Balance as of 03/31/2004	907,469	11.73
Balance as of 06/30/2004	907,469	11.73

There has been no grant of options for purchase of stocks exercised in the quarter and the representativeness of the balance of the options before the total outstanding stocks for the Company Brasil Telecom S.A. is 0.17% (0.17% in 03/31/04).

Considering the hypothesis that the options will be fully exercised, the opportunity cost of the premiums of the respective options, calculated by the Black&Scholes method, for the Company would be R\$622 (R\$408 in 2003).

(c) Other Benefits to Employees

Other benefits are granted to employees, such as: health care/dental care, meal allowance, group life insurance, occupational accident allowance, sickness allowance, transportation allowance, and other.

7. PROVISIONS FOR CONTINGENCIES

Brasil Telecom (group) periodically performs an assessment of its contingency risks, and also reviews its lawsuits taking into consideration the legal, economic and accounting aspects. The assessment of these risks aims to classifying them according to the chances of unfavorable outcome among the alternatives of probable, possible or remote, taking into account, as applicable, the opinion of the legal counselors.

For those contingencies, which the risks are classified as probable, provisions are recognized. Contingencies classified as possible or remote are discussed in this note. In certain situations, due to legal requirements or precautionary measures, judicial deposits are made to guarantee the continuity of the cases in litigation. These lawsuits are in progress in various courts, including administrative, lower, and higher courts.

Labor Claims

The provision for labor claims includes an estimate by the Company's management, supported by the opinion of its legal counselors, of the probable losses related to lawsuits filed by former employees of the Company, and of service providers.

Tax Suits

The provision for tax contingencies refers principally to matters related to tax collections due to differences in interpretation of the tax legislation by Brasil Telecom (group) counselors and the tax authorities.

Civil Suits

The provision for civil contingencies refers to cases related to contractual adjustments arising from Federal Government economic plans, and other cases.

Classification by Degree of Risk

Contingencies with a Probable Risk

Contingencies classified as having a probable risk of loss, for which provisions are recorded under liabilities, have the following balances:

NATURE	PARENT COMPANY		CONSOLIDATED	
	06/30/04	03/31/04	06/30/04	03/31/04
LABOR	-	-	376,123	417,993
TAX	-	-	98,619	65,209
CIVIL	583	568	159,534	212,299

CURRENT	-	-	317,452	330,188
NONCURRENT	583	568	316,824	365,313

Labor

In the current fiscal year a decrease in the provision for labor contingencies in the amount of R\$47,974 was verified in the quarter. This variance is caused by recognition of monetary restatements and effects of the reassessment of contingent risks that determine the additional recognition for the provision in the amount of R\$107,668 and by payments that amounted to R\$155,859. The consolidated provision was increased by the amount of R\$217 due to labor contingencies of VANT, that is a subsidiary of Brasil Telecom S.A.

The main objects that affect the provisions for labor claims are the following:

- (i) Additional Remuneration - related to the claim for payment of additional remuneration for hazardous activities, based on Law nr. 7,369/85, regulated by Decree nr. 93,412/86, due to the supposed risk of contact by the employee with the electric power system;
- (ii) Salary Differences and Consequences - related, mainly, to requests for salary increases due to supposedly unfulfilled union negotiations. They are related to the repercussion of the salary increase supposedly due on the others sums calculated based on the employees' salaries;
- (iii) Career Plan - related to the request for application of the career and salaries plan for employees of the Brasil Telecom S.A. Santa Catarina Branch (formerly Telesc), with promotions for seniority and merit, supposedly not granted; and
- (iv) Joint Responsibility - related to the request to ascribe responsibility to the subsidiary, made by outsourced personnel, due to supposed nonobservance of their labor rights by their real employers.

Tax

In the end of quarter, there was an increase of R\$32,649, represented by R\$37,581 due to the opening balance of MetroRED and VANT, companies whose controlling interests were acquired in May of the current year, and a net decrease of R\$4,169, related to the effect of revaluation of the cases risks and by payments amounted in R\$763.

The main lawsuits provided for are as follows:

- (i) Social Security - Related to the non-collection of social security education allowance;
- (ii) Federal Revenue Department - Incorrect compensation of tax losses;
- (iii) State Revenue Department - Non-collection of differential in rate of ICMS; and

Edgar Filing: BRASIL TELECOM HOLDING CO - Form 6-K

(iv) CPMF - Non-collection of the contribution on financial activities.

Civel

The consolidated decrease in the current fiscal year up the end of quarter in the amount of R\$49,727, is represented by reassessments of the contingency risks, which were reduced by recognition of monetary restatement, which resulted in a net decrease of R\$39,831 and by payments totaling R\$9,896. From the complement to the provision, R\$350 belongs to the Company.

The lawsuits provided are the following:

- (i) Review of contractual conditions - Lawsuit where a company which, supplies equipment filed legal action against the subsidiary Brasil Telecom S.A., asking for a review of contractual conditions due to economic stabilization plans;
- (ii) Contracts of Financial Participation - It has been signed with TJ/RS the position related to the incorrect procedure previously adopted by the former CRT in processes related to the application of a rule enacted by the Ministry of the Communications. Such cases are in various phases: First instance, Court of Appeals and Higher Court of Appeals; and
- (iii) Other lawsuits - related to various ongoing lawsuits such as indemnification for pain and suffering and material damages to consumers, indemnification for contractual rescission, indemnification for accidents, as well as lawsuits that are in Special Civil Courts whose claims, separately, do not exceed forty minimum salaries.

Contingencies with a Possible Risk

The position of contingencies with degrees of risk considered to be possible, and therefore not recorded in the accounts, is the following:

NATURE	PARENT COMPANY		CONSOLIDATED	
	06/30/04	03/31/04	06/30/04	03/31/04
LABOR	-	-	629,405	664,897

CIVIL	176	171	821,490	783,740
TOTAL	176	171	2,509,996	2,339,852

Labor

The main objects that comprise the possible losses of a labor nature are related to additional remuneration for hazardous activities, promotions and joint responsibility, the evaluation of which processes by the legal assessors resulted in a level of risk of loss evaluated only as possible. In addition to the subjects cited, the request for remunerative consideration for hours of work supposedly exceeding the normal agreed workload of hours also contributed to the amount mentioned.

Tax

The main lawsuits considered as possible loss are presented as follows:

- (i) ICMS - On international calls;
- (ii) ICMS - Differential of rate in interstate acquisitions;
- (iii) ICMS - Exploitation of credits related to the acquisition of fixed assets for use and consumption;

Civel

Edgar Filing: BRASIL TELECOM HOLDING CO - Form 6-K

The main lawsuits are presented as follows:

- (i) Repayments resulting from PCT - the plaintiffs intend to pay the compensations related to the contracts resulting from the Community Telephony Program. Such proceedings are encountered in various phases: First instance, Court of Appeals and Higher Court of Appeals;
- (ii) Lawsuits of a consumerist nature;
- (iii) Contractual - Lawsuits related to the claim for a percentage resulting from the Real Plan, to be applied in a contract for rendering services, review of conversion of installments in URV and later in real, related to the supply of equipment and rendering of services; and
- (iv) Attendance for customers points - Public civil lawsuits arising from the closing of customer attendance points.

Contingencies with a Remote Risk

In addition to the claims mentioned, there are also contingencies considered to be of a remote risk to the amount of R\$29,698 (R\$28,864 on March 31, 2004) for Company and R\$1,341,190 (R\$1,378,480 on March 31, 2004) for Consolidated.

Letters of Guarantee

The Subsidiary Brasil Telecom S.A. has contracts for letters of guarantees signed with financial institutions, as a complementary guarantee for lawsuits in provisory execution, in the amount of R\$192,260 (R\$120.561 in March 31, 2004). Most of these contracts, representing 52%, have a stated period for termination during the next twelve months and the remainder is for an indeterminate period of time. The remuneration for these contracts varies between 0.75% p.a. and 4.00% p.a., representing an average weighted rate of 0.87% a.a.

The judicial deposits related with contingencies and contested taxes (suspended demand) are described in Note 21.

8. SHAREHOLDERS EQUITY

a. Capital

The Company is authorized to increase its capital by means of a resolution of the Board of Directors to a total limit of 700,000,000,000 (seven hundred billion) common or preferred shares, observing the legal limit of 2/3 (two thirds) for the issue of preferred shares without voting rights.

By means of a resolution of the General Shareholders Meeting or the Board of Directors, the Company's capital can be increased by the capitalization of retained earnings or prior reserves allocated by the General Shareholders Meeting. Under these conditions, the capitalization can be effected without modifying the number of shares.

The capital is represented by common and preferred stock, with no par value, and it is not mandatory to maintain the proportion between the shares in the case of capital increases.

By means of a resolution of the General Shareholders Meeting or the Board of Directors, preference rights can be excluded for the issue of shares, subscription bonuses or debentures convertible into shares in the cases stipulated in article 172 of Corporation Law.

The preferred shares do not have voting rights, except in the cases specified in the sole paragraphs of articles 11 and 14 of the bylaws, but are assured priority in receiving the minimum non-cumulative dividend of 6% per annum, calculated on the amount resulting from dividing the capital by the total number of Company shares, or, 3% per annum calculated on the amount resulting from dividing the net book shareholders equity by the total number of Company shares, whichever is greater.

c. Capital Reserves

Capital reserves are recognized in accordance with the following practices:

Edgar Filing: BRASIL TELECOM HOLDING CO - Form 6-K

Reserve for Premium on Subscription of Shares: results from the difference between the amount paid on subscription, and the portion allocated to capital.

Special Goodwill Reserve arising on merger: represents the net value of the contra entry of the goodwill recorded in deferred charges as provided by CVM Instructions 319/99 and 320/99. When the corresponding tax credits are used, the reserve is capitalized, annually, in the name of the controlling shareholder, observing the preferred rights of the other shareholders.

Other Capital Reserves: formed by the contra entry of the funds invested in income tax incentives.

d. Profit Reserves

The profit reserves are recognized in accordance with the following practices:

Legal Reserve: allocation of five percent of the annual net income, up to twenty percent of paid-up capital or thirty percent of capital plus capital reserves. The Legal Reserve is only used to increase capital, or to offset losses.

Unrealized profit reserve: recognized in the year in which the amount of the mandatory dividend, calculated in accordance with the statutory provisions or with article 202 of Law 6,404/76, exceeds the realized portion of net income. The reserve can offset losses in subsequent years or, when realized, comprise the calculation of net income adjusted for dividend payments. According to the restatement required by Law 10,303/1, the income recorded under the unrealized profit reserve as from 2002 financial year should be considered at the value of the dividend postponed. However the unrealized profit reserve formed under the previous regulations, when realized, will continue to form part of the calculation base for the dividends, this case of unrealized profit reserves existed in the Company.

Retained Earnings: Comprises the remaining balances of net income, adjusted according to the terms of article 202 of Law nr. 6,404/76, or by the recording of adjustments from prior years, if applicable.

e. Dividends and Interest on Shareholders Equity

The dividends are calculated in accordance with the Company bylaws and the corporate law. Mandatory minimum dividends are calculated in accordance with article 202 of Law 6,404/76, and the preferred or priority dividends are calculated in accordance with the Company bylaws. As a result of a resolution by the Board of Directors, the Company may pay or credit, as dividends, Interest on Shareholders Equity (JSCP), under the terms of article 9, paragraph 7, of Law number 9,249, dated December 26, 1995. The interests paid or credited will be offset against the minimum statutory dividend.

The JSCP credited to the shareholders and that will be allocated to dividends, net of income tax, as part of the proposed allocation of income for the current year that will be closed by the end of 2004, and to be submitted for approval of the general shareholder's meeting, are as follows:

The recoverable amount foreseen after the year 2013 is a result of a provision to cover an actuarial insufficiency of the pension plan, that is being settled by Brasil Telecom S.A. according to the maximum period established by the Supplementary Pensions Department (SPC), which is 17 years and 9 months. Despite the time limit stipulated by the SPC and according to the estimated future taxable income, the subsidiary presents conditions to fully offset the deferred taxes in a period lower than ten years, if it opts to fully anticipate the payment of the debt. Tax credits in the amount of R\$103,358, attributed to the Consolidation were not recorded, due to the history of losses or uncertainties of taxable income in the next ten years in VANT, MetroRED, BrT CSH, BrT CS Ltda. and Freelance S.A., indirect subsidiaries.

Other Tax Carryforwards

It is comprised of Federal withholding taxes and payments made, calculated based on legal estimates, which will be offset against future tax obligations. The ICMS recoverable arises, for the most part, from credits recorded in the acquisition of fixed assets, whose compensation with ICMS payable may occur in up to 48 months, according to Complementary Law Nr. 102/00.

In 2004, considering the current technological stage of the telecommunications equipment, the Subsidiary Brasil Telecom S.A., based on technical report issued by Instituto Nacional de Tecnologia, in January 12, 2004, decided to changed the depreciation rates of some equipment, covering underground systems, and metallic, coaxial and optic cables. This change generated a reduction in income, net of taxes, in the amount of R\$147,154.

According to the STFC concession contracts, the subsidiary's assets (Brasil Telecom S.A.) that are indispensable to providing the service, and qualified as reversible assets at the time of expiry of the concession will automatically revert to ANATEL, the subsidiary being entitled to the right to the compensation stipulated in the legislation and the corresponding contracts.

Rent Expenses

The Company rents properties, posts, access through third-party land areas (roads), equipment and connection means, formalized through several contracts, which mature on different dates. Some of these contracts are intrinsically related to the provision of services and are long-term agreements. Total rent expenses related to such contracts amount to R\$42 (R\$12 in 2003) for the Company and R\$109,649 (R\$90,936 in 2003) for the consolidated.

Leasing

The Company and the subsidiary Brasil Telecom S.A. have lease contracts for information technology equipment. This type of leasing is also used for aircraft to be used by the Company and the subsidiary in consortium with other companies, where the participation is 15.6% for the Company and 54.4% for the subsidiary. Leasing expenses recorded in the quarter amounted to R\$10,048 (R\$21,390 in 2003) for the consolidated.

Edgar Filing: BRASIL TELECOM HOLDING CO - Form 6-K

Insurance - Not revised

An insurance policy program is maintained for covering reversible assets and loss of profits as established in the Concession Contract with the government. Insurance expenses in the quarter were R\$879 (R\$537 in 2003) for the Company and R\$5,947 (R\$5,069 in 2003) for the consolidated.

The assets, responsibilities and interests covered by insurance are the following:

Type	Cover	Amount insured	
		06/30/04	03/31/04
Operating risks	Buildings, machinery and equipment, installations, call centers, towers, infrastructure and information technology equipment	11,548,323	11,526,140
Loss of profit	Fixed expenses and net income	7,370,615	7,370,615
Performance bonds	Compliance with contractual obligations	120,870	120,870

Insurance policies are also in force for third party liability and officers' liability, the amount insured being the equivalent of US\$15,000,000.00 (fifteen million US dollars).

There is no contractual civil liability insurance to cover clients in the case of claims or judicial suits, or optional third party liability for third party claims involving Company vehicles.

In 2003 the subsidiary Brasil Telecom S.A. paid PIS and COFINS taxes in installments, previously settled through offsetting tax credits, the ratification of which was refused by the Federal Revenue department, at the administrative level. The payment in installments was included in the Program for Tax Recovery (REFIS) and Special Payment in Installments (PAES). The amount divided into installments through REFIS totaled R\$8,332 (R\$10,921 in March 31, 2004) with the period for amortization established at 9 monthly payments, and the Company still needs to pay R\$43,182 (R\$43,395 in March 31, 2004) for the remaining 108 months. The balances payable for both programs are charged interest at the long-term interest rate (TJLP).

With respect to the tax credits that were refused, the subsidiary has lodged appeals at the judicial level for restitution or future compensation.

The long-term portion refers to ICMS (State VAT) on the 69/98 Agreement, which is being challenged in court, and is being deposited in escrow. It also includes the ICMS deferral, based on incentives by the government of the State of Paraná.

Self-financing funds Rio Grande do Sul Branch

They correspond to the credits of financial participation, paid by engaged subscribers, for acquisition of the right of use of switched fixed phone service, still under the elapsed self-financing modality. It happened that, as the shareholders of the subsidiary Brasil Telecom S.A. Branch Rio Grande do Sul (former CRT) had fully subscribed the capital increase made to repay in shares the credits for financial participation, on shares remained to be delivered to the engaged subscribers. Part of these engaged subscribers, who did not accept the Public Offer by the Company for devolution of the referred credits in money, as established in article 171, paragraph 2, of Law Nr. 6,404/76, are awaiting resolution of the ongoing lawsuit, filed by the Public Prosecution Service and Others, aiming at reimbursement in shares.

Self-financing Installment Reimbursement - PCT

Refers to the payment, either in cash or as offset installments in invoices for services, to prospective subscribers of the Community Telephony Plan - PCT, to compensate the original obligation of repayment in shares. In these cases settlements were agreed or there are judicial rulings.

36. FUNDS FOR CAPITALIZATION

Self-financing funds

The expansion plans (self-financing) were the means by which the telecommunications companies financed network investments. With the issue of Administrative Rule nr. 261/97 by the Ministry of Communications, this mechanism for raising funds was eliminated, and the existing consolidated amount of R\$7,974 (R\$7,974 in March 31, 2004) is derived from plans sold prior to the issue of the Administrative Rule, the corresponding assets to which are already incorporated in the Company's fixed assets through the Community Telephone Plant - PCT. For reimbursement in shares, it is necessary to await the judicial ruling on the suits brought by the interested parties.

37. EARNING BEFORE INTEREST, TAX, DEPRECIATION AND AMORTIZATION - EBITDA

The consolidated EBITDA, reconciled with the operating income, is as follows:

(1) It does not include the amortization of special goodwill of incorporation registered in account of the deferred asset, in the permanent assets, whose amortization expense composes the nonoperating income.

38. COMMITMENTS**Services Rendered due to Acquisition of Assets**

BrT SCS Bermuda acquired fixed assets from an already existing company. Together with the assets of underwater cables acquired, it assumed the obligation of providing data traffic services, initially contracted with the company that sold the assets, which was a beneficiary of the financial resources of the respective advances. The time remaining for the providing of such assumed services is around twenty years.

39. SUBSEQUENT EVENTS**Contracting of financing**

On July 19, 2004, BNDES approved financing of R\$1.26 billion for the subsidiary Brasil Telecom S.A. which will be used for investments in the fixed telephony plant and operational improvements to comply with the targets set in the General Plan of Universalization Targets - PGMU and in the General Plan of Quality Targets - PGMQ. The financing will be directly with BNDES for a total period of six and a half years, with a grace period of one and a half years. The cost of the financing will be the long-term interest rate (TJLP) plus 5.5% p.a. for 80% of the total financing and a basket of currencies plus 5.5% for the remaining 20%. The entry of the funds is forecast to occur between 2004 and 2006.

Issue of debentures

On July 8, 2004, the subsidiary Brasil Telecom S.A. applied to the Brazilian Securities Commission (CVM) for the registration of the public distribution of the fourth issue of debentures (third public issue). The issue will be for R\$500 million, in a single series, constituted by 50,000 debentures with a nominal unit value of R\$10. The debentures will be nominative, indentured, unsecured, nonconvertible into shares and guaranteed by a surety from the Company. The remuneration of the debentures will be defined in a bookbuilding process to be carried out by the Coordinators, of which Banco ABN AMRO Real S.A. is the lead coordinator. The term of the debentures will be for five years, maturing on July 5, 2009. The issue was approved by the Company's Board of Directors in a meeting held on June 15, 2004.

The Preliminary prospectus is available at the address of Brasil Telecom S.A., located at SIA SUL - ASP - Lote D - Bloco B - Brasília - DF and on the sites www.brasiltelecom.com.br and www.bancoreal.com.br.

The information included in the Preliminary Prospectus will be analyzed by CVM and will be subject to complementation and correction. The Definitive Prospectus, when concluded, will be placed at the disposal of investors at the address and site indicated in the previous paragraph.

Lines Installed

In the 2Q04, Brasil Telecom installed 10.9 thousand lines, ending the quarter with 10.7 million terminals. In relation to 2Q03, the plant registered an increase of 55.5 thousand lines.

Lines in Service **The plant in service totaled 9.6 million lines in the 2Q04. Brasil Telecom continued the non-paying-lines-detection process, disconnecting lines with no prospects of returning to the active base in the medium term and transferring some of the clients who negotiated their obligations to the hybrid plan (LigMix). As a result, the utilization rate was reduced to 90.1%.**

Additionally, Brasil Telecom encouraged the migration of clients from the pre-paid and economical plans to the hybrid plan. **Client base segmentation seeks to match the product to the usage profile of each client and to increase the average ARPU (net revenue/average LIS/month).**

ADSL **Brasil Telecom practically doubled its ADSL accesses in service in just a year, reaching 382.5 thousand accesses at the end of 2Q04.**

Goals

Quality Goals **In the 2Q4, the Brasil Telecom accomplished all of the quality goals predicted in the General Plan of Quality Targets established by ANATEL in relation to the offering of switched fixed telephony service, in long-distance and local segments.**

Traffic

OPERATING DATA	2T04	1T04	2T04/1T04 (%)
Exceeding Local Pulses (Million)	2,715	2,586	5.0
Domestic Long Distance Minutes (Million)	1,624	1,534	5.9
Fixed-Mobile Minutes (Million)	1,036	1,037	(0.2)
Exceeding Pulses/ Average LIS/Month	93.4	88.1	6.1
DLD Minutes/Average LIS/Month	55.9	52.2	7.0
Fixed-Mobile Minutes/Average LIS/Month	35.6	35.3	0.9

Exceeding Local Pulses **The traffic of exceeding local pulses increased by 5.0% compared to the 1Q04, reaching 2.7 billion.**

DLD Traffic **In the 2Q04, long distance traffic increased by 5.9% in comparison to the previous quarter, due to Brasil Telecom's presence in the new long distance segments (inter-regional and international), which in turn leveraged the intra-regional traffic (+6.5%).**

DLD Market Share **At the end of 2Q04, the first full quarter in which it was possible to use the CSC 14 in all long distance calls, Brasil Telecom reached a 38.0% market share in the inter-regional segment and a 19.6% share in**

international segment.

Leveraged by the success of the campaigns developed for the launch of the CSC 14 use outside of the Region, the **DLD market share of Brasil Telecom increased by 2.4 p.p. in the intra-region segment and 0.9 p.p. in the intra-sector segment.** The market share in the intra-sector and intra-region segments reached 91.0% and 81.1%, respectively.

Fixed-Mobile Traffic

Inter-network traffic remained stable in the 2Q04, due to a reduction of 1.1% in the VC-1 traffic and 5.1% in the VC-2 traffic, partially offset by the increase of 42.3% in the VC-3 traffic.

Of the total inter-network traffic, 83.9% corresponds to VC-1 calls, 11.5% to VC-2 calls and 4.6% to VC-3 calls. **There was a significant increase in the VC-3 traffic as a percentage of total traffic, which represented 3.2% of the inter-network traffic in the 1Q04, explained by the increase in long distance calls using the CSC 14.**

Tariffs

Tariff Adjustments

Brasil Telecom was authorized by ANATEL to adjust the tariffs for the Local and Domestic Long Distance Services Basic Plans. The authorized average adjustments for the local and domestic long distance baskets were of 6.89% and 3.20%, respectively. The TU-RL (Local Network Usage Rate) was adjusted by -10.47% and the TU-RIU (Long Distance Network Usage Rate) was adjusted by 3.20%.

Subsidiaries

Brasil Telecom GSM

14 Brasil Telecom Celular S.A. officially launched its trademark, Brasil Telecom GSM, on May 10, 2004. On May 11, 2004, its brand was presented in the most prominent newspapers of the country, alongside the brands of its main partners.

Brasil Telecom GSM entered into a contract to purchase the infrastructure equipment to build its mobile network throughout the 2Q04. The contract was entered into with two international suppliers, Ericsson and Alcatel. The network is being implanted rapidly so as to obtain wide coverage in the 3Q04, when the full commercial launch is expected.

The investments expected to expand coverage in 2005 were brought forward to 2004. As a result, **Brasil Telecom GSM expects to reach the largest GSM coverage in Region II**, providing its customers with a high quality service, highlighting mobility features.

By bringing forward investments, Brasil Telecom GSM should invest approximately US\$350 million, covering about 544 localities in its operational area.

In the 2Q04, R\$200.7 million were invested in the operation, amounting to R\$364.3 million since the start of the project.

The project **Our Mobile** - where employees, their relatives and friends, residing in all states of Region II, bought mobile phones in special financing conditions - has already exceeded the mark of 18 thousand subscribers. Besides voice services, customers of **Our Mobile** are also offered a new voice mail box and a **Missed Call** service, where an SMS - Short Message Service - is sent whenever a call is made to a Brasil Telecom GSM terminal, which is either turned off or out of coverage area.

The main platforms that will be used in the mobile operations (pre-paid service, voice mail box, SMS, multimedia messages - MMS, other platforms for data services - WAP, OTA, Middleware - and anti-fraud) have already been implemented and are at the final test and improvement stage.

For its launch, Brasil Telecom GSM will have over 1,200 points of sales, including the main retail chains in Region II, authorized exclusive and non-exclusive agents, and Brasil Telecom GSM stores and kiosks.

It is worth noting that the 16 stores and 40 stands of Brasil Telecom GSM, the majority of which are located at the largest and best shopping centers of the Region, will serve not only the mobile operator customers, but also all other customers of Brasil Telecom S.A.'s wide range of products, including fixed line, ADSL, internet provider, among others. This kind of initiative clearly illustrates that Brasil Telecom is adopting a full convergence model, involving commercial aspects, people, infrastructure, equipment, and systems.

The civil constructions are at an advanced stage. Nine out of the 16 stores have already been built and are now

Edgar Filing: BRASIL TELECOM HOLDING CO - Form 6-K

receiving the equipment for assembly. The information systems will also be tested soon. The remaining stores will be ready for the full commercial launch scheduled for the 3Q04.

As of the end of July, 758 employees worked at Brasil Telecom GSM, out of which 303 worked at Brasil Telecom GSM stores. Our business plan anticipates a workforce of about 1,000 employees for the commercial launch. During the quarter, the training programs of all employees in different existing systems, as well as selling and service techniques, was initiated.

Financial performance

Revenues

Local Service

Gross revenue from local service reached R\$1,115.7 million in the 2Q04, 8.1% higher than in the 2Q03 and stable compared to the 1Q04.

Gross revenue from activation fee totaled R\$9.3 million in the 2Q04, 2.3% higher than in the 1Q04. This performance is a result of the 417.8 thousand lines activated in the 2Q04, against 404.8 thousand activated in the 1Q04.

Gross revenue from basic subscription reached R\$732.5 million in the quarter, a reduction of 1.6% compared to R\$744.7 million in the 1Q04. This difference is explained by the increase of promotional plans as a percentage of total plans in the mix of lines in service.

Gross revenue from measured service totaled R\$349.5 million in the 2Q04, an increase of 3.9% compared to the 1Q04, explained by the 5.0% increase in local traffic.

Public Telephony

Gross revenue from public telephony reached R\$119.1 million in the 2Q04, an increase of 10.1% in comparison with the 1Q04, due to selling efforts and the campaign to encourage public telephony usage.

Domestic Long Distance

Gross revenue from long distance calls reached R\$418.3 million in the 2Q04, representing a 9.5% increase in comparison to the 1Q04, mainly due to the usage of the CSC 14 in inter-regional and international long distance calls.

In the 2Q04, revenues from inter-regional DLD reached R\$52.2 million, while revenues from ILD totaled R\$6.5 million.

Gross revenue from inter-network calls reached R\$738.1 million in the 2Q04, a 5.1% increase compared to 1Q04, reflecting the relative increase of VC-3 traffic - when compared to VC-1 and VC-2 - in the inter-network call mix and the tariff adjustment effective since February.

Inter Network

The usage of the CSC 14 in calls originated from mobile phones contributed with revenues of R\$108.0 million in the 2Q04, against R\$78.5 million in the 1Q04.

Interconnection

Gross revenue from interconnection in the 2Q04 decreased by 6.2% compared to the 1Q04, explained by the increase in Brasil Telecom's market share in the long distance segments.

Lease of Facilities

In the 2Q04, revenues from lease of facilities were R\$63.5 million, 15.2% greater than the R\$55.1 million reported in the 1Q04.

Data Communication

In the 2Q04, data communications revenues reached R\$255.3 million, an increase of 15.8% compared to the previous quarter, mainly due to the 17.7% growth in ADSL accesses in service and to MetroRED's consolidation.

- In the 2Q03, gross revenue from data communication represented 6.7% of total revenue, while in the 2Q04 this segment represented 8.4% of total gross revenue.

Supplementary and Value-Added Services

Gross revenue from supplementary and value-added services increased by 5.0% in the 2Q04 compared to the previous quarter, totaling R\$104.1 million.

As of June 2004, there were 6.2 million activated intelligent services, against 6.0 million in March 2004.

Edgar Filing: BRASIL TELECOM HOLDING CO - Form 6-K

Other Revenues	Other revenues reached R\$43.9 million in the 2Q04, a growth of 218.8% compared to 2Q03, mainly due to the services offered by iBest, Globenet, VANT and MetroRED.
Gross Revenue Deductions	Gross revenue deductions reached R\$874.8 million in the 2Q04, representing 28.8% of the gross revenue for the quarter, against 28.7% in the 1Q04.
Net Operating Revenue/Average LIS/month <u>Costs and expenses</u>	Net operating revenue/Average LIS/month in the 2Q04 was of R\$74 4, against R\$66.0 in the 2Q03, a 12.7% increase.
Costs and Operating Expenses	Operating costs and expenses totaled R\$1,840.1 million in the 2Q04, against R\$1,781.9 million in the previous quarter. Operating costs and expenses excluding depreciation, amortization, provisions and losses were of R\$1,105.6 million in the 2Q04, against R\$1,072.7 million in the 1Q04, an increase of 3.1% compared to the previous quarter.
Number of Employees	At the end of the 2Q04, Brasil Telecom's fixed telephony operation had 5,391 employees, against 5,211 in the previous quarter. This increase is a result of the 339 admissions (of which 158 relate to the consolidation of MetroRED) and 159 dismissals that occurred in the period. As of June 2004, Brasil Telecom GSM had 758 employees, against 265 in the 1Q04, reflecting the structuring process for the product's launch.
Personnel	Personnel costs and expenses reached R\$101.5 million, an increase of 6.5% compared to the previous quarter, influenced the consolidation of MetroRED and VANT.
Subcontracted services	Costs and expenses with subcontracted services, excluding interconnection and advertising & marketing, totaled R\$358.8 million in the 2Q04, a 1.4% reduction in relation to the previous quarter. The subcontracted services costs and expenses to net revenues ratio has been falling since the 4Q03. The ratio was 17.5% in the 4Q03, 17.4% in the 1Q04 and reached 16.6% in the 2Q04. This reduction results from the cost and expense control policy adopted by Brasil Telecom, focusing on the optimization of its administrative and maintenance cost structure.
Interconnection	Interconnection costs totaled R\$545.3 million in the 2Q04, a 9.9% increase compared to the previous quarter. This increase is associated with the relative increase of VC-3 traffic - when compared to VC-1 and VC-2 - in the inter-network traffic mix, the increase of long distance calls terminating outside Region II, the usage of CSC 14 in calls originated from mobile phones, and the mobile interconnection tariff adjustment effected in February in 2004.
Advertising & Marketing	Expenses with advertising & marketing totaled R\$24.5 million in the 2Q04, an increase of 1.9% from the previous period.
Losses with Accounts Receivable/Gross Revenue ratio	The losses with accounts receivable to gross revenue ratio was of 3.1% in the 2Q04, stable in relation to the 1Q04. Losses with accounts receivable totaled R\$95.3 million in the 2Q04.
Accounts Receivable	In the 2Q04, the gross accounts receivable to gross revenue ratio dropped from 72.2% to 70.7%, meaning that the increase in gross revenues was higher than the increase in accounts receivable in the period. Gross accounts receivable in the 2Q04 increased as a result of the CSC 14 operation in the inter-regional and international segments and by the usage of the CSC 14 in calls originated from mobile phones. Co-billing with other mobile operators results in a bad debt percentage above the average percentage of the other segments in which we operate. Deducting for the provision for doubtful accounts in the amount of R\$185.4 million, Brasil Telecom's net accounts receivable totaled R\$1,960.6 million at the end of the 2Q04.

Provisions for Contingencies
EBITDA

In the 2Q04, provisions for contingencies totaled R\$39.7 million, an increase of 74.0% compared to the previous quarter.

EBITDA of R\$921.9 million

Brasil Telecom's EBITDA was R\$921.9 million in the 2Q04, R\$29.8 million above the 1Q04's EBITDA, or a 3.3% increase quarter-on-quarter.

EBITDA Margin

In the 2Q04, Brasil Telecom's EBITDA margin reached 42.6%. It is important to mention Brasil Telecom's operation in the long distance segments, where the margin is pressured by competition. Provision for labor contingencies also affected the margin in this quarter.

Not accounting for non-recurring items evidenced in the quarter in provisions for contingencies, EBITDA would have reached R\$947.9 million, which represents a margin of 43.8%.

EBITDA/Average LIS/month
Financial Result

In the 2Q04, EBITDA/Average LIS/month reached R\$31.7, 1.9% higher than in the 2Q03.

Financial Result

In the 2Q04, Brasil Telecom reported a negative net financial result of R\$86.7 million, representing a reduction of 9.5% in the net negative result compared to the R\$95.8 million reported in the 1Q04, not accounting for Interest on Shareholders' Equity.

Nonoperating Result

Amortization of Reconstituted Goodwill

In the 2Q04, Brasil Telecom amortized R\$31.0 million in reconstituted goodwill regarding the acquisition of CRT (with no impact on cash flow and dividends distribution), accounted for as non-operating expenses.

Nonoperating Revenues/Expenses
Indebtness

The nonoperating revenues/expenses in the 2Q04 essentially concerns write-offs and provision of losses with investments.

Total Debt

As of June 2004, Brasil Telecom's consolidated total debt was of R\$4.3 billion, 1.4% higher than the amount reported in the 1Q04. **This increase is a result of the strategy adopted by the Company throughout the year to increase the debt maturity while seeking cheaper financing options. Accordingly, in April, Brasil Telecom raised 21.5 billion of yens** (approximately R\$577 million) **from JBIC - Japan Bank for International Cooperation**, which coincided with the payment of the first issuance of public debentures issued in May 2002, in an amount of R\$500 million.

Net Debt

Net debt totaled R\$1,837.3 million, a 34.8% increase from March 2004.

The increase in net debt is explained by the cash reduction in the 2Q04, due to acquisitions, the increase in investments and the dividend payment related to 2003.

Average Cost of Debt

Brasil Telecom's consolidated debt had an **accumulated average cost of 14.9% in the year**.

Financial Leverage

As of June 30, 2004, Brasil Telecom's financial leverage, represented by the ratio of its net debt to shareholders equity, **was equal to 29.6%, against 22.2% in March**.

17.01 - LIMITED REVIEW REPORT

(A translation of the original report in Portuguese as filed with the Brazilian Securities Commission (CVM) containing quarterly financial information prepared in accordance with accounting practices adopted in Brazil and the regulations issued by the Brazilian Securities Commission (CVM))

The Shareholders and Board of Directors
Brasil Telecom Participações S.A.
Brasília - DF

We have reviewed the quarterly financial information of Brasil Telecom Participações S.A. for the quarter ended June 30, 2004, comprising the balance sheet and the consolidated balance sheet of the Company and its subsidiaries, the statement of income and the consolidated statement of income, the management report and other relevant information, prepared in accordance with accounting practices adopted in Brazil .

Our review was performed in accordance with auditing standards established by the IBRACON - Brazilian Institute of Independent Auditors and the Federal Council of Accountancy, which comprised mainly: (a) inquiries and discussion with management responsible for the accounting, financial and operational areas of the Company regarding the criteria adopted in the preparation of the quarterly information; and (b) review of post-balance sheet information and events, which may have a material effect on the financial and operational position of the Company and its subsidiaries.

Based on our special review, we are not aware of any material changes that should be made to the aforementioned quarterly information for it to be in accordance with accounting practices adopted in Brazil and the regulations issued by the Brazilian Securities Commission (CVM), specifically applicable to the mandatory quarterly financial information.

Our review was performed for the purpose of issuing a special review report on the mandatory quarterly financial information. The statement of cash flow represents supplementary information to those statements and is presented to provide additional analysis. This supplementary information was submitted to the same review procedures applied to the quarterly financial information, and, based on our special review, is adequately presented in all material respects, in relation to the quarterly financial information taken as a whole.
