and Independent Auditors' Report Review

Report on review of interim financial information

To Shareholders, Members of the Board and Management

Braskem S.A.

Camaçari - Bahia

Introduction

We have reviewed the accompanying individual and consolidated interim financial information of Braskem S.A. (the “Company”) included in the Quarterly Financial Information for the quarter ended March 31, 2017, which comprises the balance sheet as of March 31, 2017, the statements of profit or loss and comprehensive income for the three-month period then ended, changes in equity and cash flows for the three-month period then ended, and notes to the interim financial information.

Management is responsible for the preparation and presentation of this individual interim financial information in accordance with CPC 21(R1) Technical Pronouncement - Interim Financial Reporting and the consolidated interim financial information in accordance with CPC 21(R1) and international standard IAS 34 - *Interim Financial Reporting*, issued by the *International Accounting Standards Board* - IASB, as well as for the presentation of this quarterly information in accordance with the standards issued by CVM - Brazilian Securities and Exchange Commission, applicable to the preparation of interim financial information. Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of review

We conducted our review in accordance with Brazilian and international review standards applicable to interim financial information (NBC TR 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity and ISRE 2410 - *Review of Interim Financial Information Performed by the Independent Auditor of the Entity*, respectively). A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion on the individual interim financial information

Based on our review, nothing has come to our attention that causes us to believe that the accompanying individual interim financial information referred to above is not prepared, in all material respects, in accordance with CPC 21(R1) applicable to the preparation of interim financial information and presented in accordance with the standards issued by CVM - Brazilian Securities and Exchange Commission.

Conclusion on the consolidated interim financial information

Based on our review, nothing has come to our attention that causes us to believe that the accompanying consolidated interim financial information referred to above is not prepared, in all material respects, in accordance with CPC 21(R1) and IAS 34, issued by the IASB, applicable to the preparation of interim financial information and presented in accordance with the standards issued by CVM - Brazilian Securities and Exchange Commission.

Emphasis of a matter

We call your attention to note 19.3, which says about the ratification of the Leniency Agreement (the “Agreement”) with the Federal Prosecution Office, the Department of Justice (DoJ) and the Securities and Exchange Commission (SEC) of the United States of America, and with the General Prosecution Office of Switzerland, in the approximate amount of R\$3.1 billion, and discloses information on progress of class action brought in the United States of America. Except for the value of the Agreement, as well as other non-monetary penalties enforced, the Company is not able, for the moment, to reliably foresee or measure the extent of financial and non-financial impacts on the Company and, accordingly, is not able to record possible additional losses that confirmation of accusations, possible lawsuits filed by other authorities and/or third-parties, and parallel investigations could cause to the Company, as well as resources required to remedy such occurrences, including possible effects deriving from the outcome of above-mentioned class action. Our opinion is not qualified in relation to this matter.

Other matters

Statements of value added

We also reviewed the individual and consolidated statements of value added for the three-month period ended March 31, 2017, prepared under the responsibility of the Company's management, whose presentation on the interim financial information is required under the standards issued by CVM - Brazilian Securities and Exchange Commission applicable to the preparation of Interim Financial Information and considered as additional information by IFRS, which do not require the presentation of the statement of value added. These statements have been submitted to the same review procedures described above and, based on our review, nothing has come to our attention that causes us to believe that the accompanying statements of value added are not prepared, in all material respects, in accordance with the individual and consolidated interim financial information taken as a whole.

Restatement of the corresponding values

According to mentioned in the note 2.5, as a result of the change in accounting policy in the presentation of interest paid in the Cash Flow and in the classification of the bonus provision, the interim financial information related to the statements of profit or loss and cash flows for the period of three-month ended March 31, 2016, presented for comparison purposes, were adjusted and has been restated, as required in the CPC 23 - Accounting Policies, Changes in Accounting Estimates and Errors and CPC 26 (R1) - Presentation of Financial Statements. Our conclusion is not qualified in respect of this matter.

2.4. Restatement

The statements of operations and of cash flows for the first quarter of 2016 and the starting balance of equity in December 2015 were restated due to the inflation adjustment of taxes recognized from prior periods and other prior-year adjustments. The information related to this restatement was reported in the 2016 annual financial statements of the Company, in Note 2.4. The effect on the first quarter result corresponding to the update by the SELIC, recorded under "Financial expenses", was R\$5,805.

Additionally, the statement of cash flows for the period ended March 31, 2016 was restated due to the reclassification of Brazilian government bonds from "cash and cash equivalents" to "financial investments" (Note 5).

2.5. Change in accounting policy

- (a) Braskem's Management decided to change, in the statement of cash flows, the presentation of interest paid that were presented in the group called "net cash used in investing activities". These amounts are now presented as "interest paid". This change provides (i) the direct identification of the total amount paid as interest and (ii) greater

accuracy in determining the net cash generated by operating activities. The reclassified amounts for the first quarter of 2016 were R\$188,725 and R\$16,974 in the consolidated and the Parent Company cash flows, respectively.

- (b) In 2017, the Company changed the classification of the bonus provision in order to standardize the classification for all companies, whether productive or not, and to understand that the current classification is more appropriate due to the characteristic of this provision of not present recurring elements or, when they recur, do not repeat their amount year by year. In the first quarter of 2016, the consolidated amounts related to this item were reclassified from "costs of products sold" (R\$38,494), "selling and distribution expenses" (R\$1,504) and "general and administrative expenses" (R\$43,439) to the group called "other net income (expenses)" (Note 23).

The sale agreement, in the amount of R\$550 million, was signed on the following day, and in January the operation was approved by Brazil's antitrust agency CADE (Conselho Administrativo de Defesa Econômica).

At the reporting date for the quarterly information as of March 31, 2017, these clauses were not being complied with part of this restrictive contractual clauses. In this sense, the entire balance of non-current liabilities, in the amount of R\$9,014,823, was reclassified to current liabilities, in accordance with CPC 26 and its corresponding accounting standard IAS 1 (Presentation of Financial Statements).

According to the standards mentioned above, such reclassification is required when a contractual breach entitles creditors to request the immediate repayment of the obligations in the short-term. In this context, note that none of the its creditors has requested said immediate repayment of obligations and Braskem Idesa has been settling this obligation in accordance with its original maturity schedule.

Additionally, Braskem Idesa has already entered into agreements with its creditors to obtain approvals for said contractual breach in order to return the entire amount reclassified from current liabilities to non-current liabilities.

(a) Operations designated for hedge accounting

(a.i) U.S. dollar put option

In September 2016, Braskem launched a recurring currency hedge program to mitigate the exposure of its cash flows to liabilities denominated in Brazilian real and not pegged to the U.S. dollar (electricity, payroll, etc.).

As of March 31, 2017, Braskem held a total notional value of put options of R\$602,000 (US\$190,001), with a maximum term of 9 months and average strike price of 3.05 R\$/US\$.

Such operations were designed for the hedge accounting of cash flows as from January 1, 2017, and seek to hedge future dollar-denominated revenues with maturities in months coinciding with the maturity of the derivatives.

15.5. Sensitivity analysis

Financial instruments, including derivatives, may be subject to changes in their fair value as a result of the variation in commodity prices, foreign exchange rates, interest rates, shares and share indexes, price indexes and other variables. The sensitivity of the derivative and non-derivative financial instruments to these variables are presented below:

Braskem S.A.

Notes to the financial statements

at March 31, 2017

All amounts in thousands of reais, unless otherwise stated

(a) Selection of risks

On March 31, 2017, the main risks that can affect the value of Braskem's financial instruments are:

- Brazilian real/U.S. dollar exchange rate;
- Brazilian real/Mexican peso exchange rate;
- Libor floating interest rate;
- Selic interest rate;
- CDI interest rate; and
- TJLP interest rate.

For the purposes of the risk sensitivity analysis, Braskem presents the exposures to currencies as if they were independent, that is, not reflecting in the exposure to a foreign exchange rate the risks of the variation in other foreign exchange rates that could be directly influenced by it.

(b) Value at risk

The value at risk of the derivatives held by Braskem which is defined as the loss that could result in one month as from March 31, 2017, with a probability of 5%, and under normal market conditions, was estimated by the Company at US\$26,570 for the NCE exchange rate swap (Note 15.2.1(a.ii)) and at US\$616.9 for the swap of Libor related to Braskem Idesa's project.

(c) Selection of scenarios

(c.1) Probable scenario

The *Market Readout* published by the Central Bank of Brazil was used to create the probable scenario for the U.S. dollar/Brazilian real exchange rate, Selic basic interest rate and the CDI interest rate, using the reference date of March 31, 2017. According to the Market Readout, at the end of 2017, the U.S. dollar will appreciate by 4.1% against the Brazilian real, compared to the closing PTAX rate at March 31, 2017, while the Selic rate will be 8.5% p.a. The Selic rate is used as a reference for analyses of sensitivity to the CDI.

The probable scenario for the TJLP is an increase of 0.50% from the current rate of 7.5%, in line with the size of the government's most recent decisions to increase or decrease the rate. The Market Readout does not publish forecasts for the Libor interest rate. Therefore, to determine the probable scenario, Braskem considered a 5% increase on current market levels.

19.2 Claims with possible losses

The amount of the lawsuits and a description of the main claims with possible losses are presented in the 2016 financial statements, in Note 23.2.

(a) Civil

In January 2017, the Company became defendant in a civil lawsuit filed by former reseller of solvents, claiming alleged breach of a tacit distribution agreement. On March 31, 2017, the damages claimed in the lawsuit amounted to R\$118 million.

Based on the opinion of external legal counsel accompanying the case, the Management believes that the lawsuit has a possible risk of loss within an eight-year period.

No judicial deposit or other form of security was made for these suits.

(b) Tax

In March 2017, the Company received a tax deficiency notice claiming that the methodology used to offset tax losses and tax loss carryforwards at Rio Polímeros failed to observe the limit of 30% of the Taxable Profit and Social Contribution calculation base when offsetting such liabilities with Income Tax and Social Contribution liabilities in its merger into Braskem Qpar S/A, in August 2013. On March 31, 2017, the restated value of the taxes recorded amounted to R\$238 million.

The Company's external legal advisors estimate that the administrative proceedings should be concluded by 2020.

Considering that the requirement to pay the tax liability has been suspended, currently no administrative, escrow or other type of guarantee deposit has been made for this proceeding.

19.3 Reports of irregularities and global settlement with authorities

Complete information on the reports of irregularities and on the global settlement with authorities was presented in Note 23.3 to the Company's annual financial statements for 2016.

(a) Global Settlement with authorities

The Leniency Agreement ("Agreement") with the Federal Prosecution Office ("MPF") and with U.S. and Swiss authorities ("Global Settlement"), in the approximate amount of US\$957 million (approximately R\$3.1 billion), were definitively ratifying in the following manner:

1. In Brazil, the Agreement was ratified by the 5th Coordination and Review Chamber of the MPF on December 15, 2016 and on June 6, 2017 by the Judge of the 13th Federal Court of Curitiba.
2. The U.S. Department of Justice ("DoJ") confirmed the judgment on January 26, 2017.
3. The U.S. Securities and Exchange Commission ("SEC") confirmed the agreement on February 28, 2017.
4. The agreement with Swiss authorities did not require ratification to produce effect.

Braskem S.A.

Notes to the financial statements

at March 31, 2017

All amounts in thousands of reais, unless otherwise stated

Of the total amount of the Global Agreement, the Company has already paid approximately R\$1.3 billion in the following manner:

1. US\$94,894 (R\$296,591) to DoJ on February 8, 2017;
2. US\$65,000 (R\$206,460) to SEC on April 27, 2017;
3. CHF30,240 (R\$104,307) to the Office of the Attorney General of Switzerland on June 27, 2017;
4. R\$736,445 to MPF on July 6, 2017.

The outstanding amount of approximately R\$1.7 billion will be paid in the following manner:

1. CHF64,260 to the Office of the Attorney General of Switzerland in four annual and successive installments of CHF16,065 due on June 30 of each year as from 2018;
2. R\$1.5 billion to MPF in six annual installments adjusted for inflation by the variation in the IPCA inflation index due on January 30 of each year as from 2018. To guarantee payment of the installments coming due, Braskem offered fixed assets in an amount corresponding to one annual installment.

(b) Reimbursement for damages and other considerations

A significant portion of the total amount of R\$2.2 billion to be paid to MPF will be made available for use in reimbursing third parties for any damages caused by the wrongdoings.

Under the Agreement, the MPF undertook to coordinate actions with other authorities or government agencies with which Braskem comes to negotiate for entering into agreements involving the facts uncovered in connection with the Agreement, the public prosecution offices of states and cities in Brazil, state-owned companies and state-controlled companies for entering into similar agreements with such organizations, including for the purpose of preventing

duplicate restitution with regard to the amount paid under the Agreement.

The Agreement does not prevent any third party from filing proceedings to seek reimbursement for any damages caused by Braskem, which could result in payments other than those provided for in the Agreement. Therefore, the Company cannot guarantee that the total amount available for reimbursement will be sufficient to fully reimburse any third parties affected by the wrongdoings, which means that the Company may be subject to the payment of damages or financial penalties other than those provided for in the Global Settlement.

With the exception of the amount mentioned above, as well as of the other non-monetary obligations imposed on the Company under the Global Settlement, it may have a material adverse effect on our business, reputation, financial condition, financial instruments and operational results, as well as on the liquidity and price of the securities of Braskem. Furthermore, the negative publicity resulting from the Global Settlement, could have a material adverse impact on our businesses, including reducing the demand for our products, our financial instruments and other effects that currently cannot be estimated or measured. In addition, other authorities with jurisdiction over our company may seek to impose additional monetary sanctions or fines or commence new investigations against us. Finally, as a result of the Global Settlement, the Company may be barred from entering into certain agreements with government authorities and may be subject to increased operating costs in connection with its obligations to improve its governance and anti-corruption practices, including the cost of the external monitorship.

It is not possible to predict the impacts on Braskem of others investigations or of any decision or action taken by authorities involving its largest shareholders, namely Odebrecht S.A. and Petróleo Brasileiro S.A. – Petrobras, or any of their subsidiaries.

(c) Control deficiencies and Compliance Program

Based upon the investigative process and the confirmation of illicit acts, the Company identified material deficiencies within its internal controls.

A broad Compliance Program was launched in 2016 to strengthen its governance to significantly reduce the likelihood of other deviations of the same nature occur again.

A series of actions have been implemented and reported periodically.

In the period ended March 31, 2017, several Compliance initiatives were completed, including:

- (i) Increase in the number of Compliance staff members for the Internal Control, Risk Management, Compliance and Internal Audit areas, with emphasis on hiring Compliance Officers for the United States and Mexico;
- (ii) Appointment and hiring of independent monitors with the DoJ and MPF;
- (iii) Approval of the following documentation: Internal Audit Directive, Corporate Credit Card Directive and Research Protocols for Ethics Line;
- (iv) Continuation of the training program, focusing on the Compliance System, applicable laws and awareness;
- (v) Definition of the corporate goal related to Compliance applicable to all company leaders;
- (vi) Approval of the Multi-Year Global Compliance Communication plan;
- (vii) Elaboration of the Procedure for Relations with Public Agents, regulating interactions with politicians and executives of public companies;
- (viii) Formal and effective participation in working groups: UN Anti-Corruption and ETHOS Integrity;
- (ix) Improvement in the processes of supplier's registration and homologation with implementation of risk assessment and third-party integrity.

(d) Class actions

On July 1, 2015, a putative class action lawsuit was filed against the Company and its certain of its current and former officers in the United States District Court for the Southern District of New York. In the operative complaint, the Lead Plaintiff, Boilermaker-Blacksmith National Pension Trust, alleges that the Defendants made misrepresentations or omissions that inflated the price of the Company's stock in violation of U.S. securities laws. The Company has engaged a U.S. law firm to represent it and filed motion to dismiss on July 6, 2016.

On March 31, 2017, the judge rendered a decision on the motion to dismiss granting it in part and denying it in part. With respect to the remaining claims, the class action is now in the discovery stage.

The Company cannot foresee the outcome of this process. The Company may be named as a defendant in other legal actions. Furthermore, the Company may be required, in accordance with any applicable legal and regulatory limits, to indemnify directors, officers and employees that are defendants in the securities class action and any other related actions that may arise in the future. The litigation has required significant time and dedication of the Management of the Company and is expected to continue to require such time and attention in the future.

(b) On June 30, 2017 the Company was in default of contractual obligations borrowings contracted (covenants) from financial institutions and the capital markets related to the presentation of audited financial statements. That restrictive clause requires the presentation of its audited financial statements within the legal deadline (or within 120 days from the end of the fiscal year).

For this reason, in the quarterly information of June 30, the amount of R\$40,481, was reclassified to current liabilities, in compliance with CPC 26 and its corresponding accounting standard IAS 1 (Presentation of Financial Statements).

According to the standards mentioned above, such reclassification is required when a contractual breach entitles creditors to request the immediate repayment of the obligations in the short-term. In this context, note that none of the Company's creditors requested such advance payment of the obligations and that Braskem has been settling these obligations in accordance with their original maturity schedule.

Additionally, noncompliance with said clauses of the Parent company will be automatically complied with once the audited financial statements are presented, as of when said creditors will no longer be entitled to request the immediate repayment of short-term obligations, reversing the amount of R\$40,481 from current liabilities to non-current liabilities.
