Fourth Quarter and Full Year 2016 Results Presentation to Investors and Analysts Revised – March 24, 2017 As announced on March 24, 2017, we updated our previously reported unaudited financial results for 4Q16 and 2016 to reflect additional after tax charges of CHF 272 million. These charges reflect an increase in the existing litigation provision by CHF 300 million for a settlement in principle to resolve the RMBS matter with the National Credit Union Administration Board. In addition, in our APAC division the previously reported amounts as of the end of 2016 for AuM and 2016 NNA have been reduced by CHF 1.4 billion and CHF 1 billion, respectively. This revised presentation updates those financial results and related information to reflect these charges and changes in AuM and NNA and does not update or modify any other information contained in the presentation originally published on February 14, 2017 that does not relate to these charges or changes to AuM and NNA. Specifically, terms such as “to date”, “current” or similar language used herein refers to the time at which these statements were originally made on February 14, 2017.

Disclaimer (1/2) The data presented in this presentation relating to the Swiss Universal Bank refers to the division of Credit Suisse Group as the same is currently managed within Credit Suisse Group. The scope, revenues and expenses of the Swiss Universal Bank vary from the planned scope of Credit Suisse (Schweiz) AG and its subsidiaries, for which a partial initial public offering (IPO) is planned, market conditions permitting. Any such IPO would involve the sale of a minority stake and would be subject to, among other things, all necessary approvals. It is therefore not possible to make a like-for-like comparison of the Swiss Universal Bank as a division of Credit Suisse Group on the one hand and Credit Suisse (Schweiz) AG as a potential IPO vehicle on the other hand. Cautionary statement regarding forward-looking statements This presentation contains forward-looking statements that involve inherent risks and uncertainties, and we might not be able to achieve the predictions, forecasts, projections and other outcomes we describe or imply in forward-looking statements. A number of important factors could cause results to differ materially from the plans, objectives, expectations, estimates and intentions we express in these forward-looking statements, including those we identify in "Risk Factors" in our Annual Report on Form 20-F for the fiscal year ended December 31, 2015 and in "Cautionary statement regarding forward-looking information" in our fourth quarter earnings release 2016 filed with the US Securities and Exchange Commission, and in other public filings and press releases. We do not intend to update these forward-looking statements except as may be required by applicable law. In particular, the terms "Illustrative", "Ambition", "Outlook" and "Goal" are not intended to be viewed as targets or projections, nor are they considered to be Key Performance Indicators. All such illustrations, ambitions and goals are subject to a large number of inherent risks, assumptions and uncertainties, many of which are completely outside of our control. Accordingly, this information should not be relied on for any purpose. We do not intend to update these illustrations, ambitions or goals. We may not achieve the benefits of our strategic initiatives. We may not achieve all of the expected benefits of our strategic initiatives. Factors beyond our control, including but not limited to the market and economic conditions, changes in laws, rules or regulations and other challenges discussed in our public filings, could limit our ability to achieve some or all of the expected benefits of these initiatives. Estimates and assumptions In preparing this presentation, management has made estimates and assumptions that affect the numbers presented. Actual results may differ. Figures throughout presentation may also be subject to rounding adjustments. In particular, pro forma figures from Wealth Management and connected activities within APAC are based on preliminary estimates. Cautionary Statements Relating to Interim Financial Information This presentation contains certain unaudited interim financial information for the year-to-date 2017, the date of our last published quarterly financial statements. This information has been derived from management accounts, is preliminary in nature, does not reflect the complete results of the first quarter of 2017 and is subject to change, including as a result of any normal quarterly adjustments in relation to the financial statements for the first quarter of 2017. This information has not been subject to any review by our independent registered public accounting firm. There can be no assurance that the final results for these periods will not differ from these preliminary results, and any such differences could be material. Quarterly financial results for the first quarter of 2017 will be included in our 1Q17 Financial Report. These interim results of operations are not necessarily indicative of the results to be achieved for the remainder of 1Q17 or the full first quarter of 2017.

Disclaimer (2/2) Statement regarding non-GAAP financial measures This presentation also contains non-GAAP financial measures, including adjusted results. Information needed to reconcile such non-GAAP financial measures to the most directly comparable measures under US GAAP can be found in this presentation in the Appendix, which is available on our website at credit-suisse.com. Statement regarding capital, liquidity and leverage As of January 1, 2013, Basel III was implemented in Switzerland along with the Swiss “Too Big to Fail” legislation and regulations thereunder (in each case, subject to certain phase-in periods). As of January 1, 2015, the Bank for International Settlements (BIS) leverage ratio framework, as issued by the Basel Committee on Banking Supervision (BCBS), was implemented in Switzerland by FINMA. Our related disclosures are in accordance with our interpretation of such requirements, including relevant assumptions. Changes in the interpretation of these requirements in Switzerland or in any of our assumptions or estimates could result in different numbers from those shown in this presentation. Capital and ratio numbers for periods prior to 2013 are based on estimates, which are calculated as if the Basel III framework had been in place in Switzerland during such periods. Unless otherwise noted, leverage exposure is based on the BIS leverage ratio framework and consists of period-end balance sheet assets and prescribed regulatory adjustments. Beginning in 2015, the Swiss leverage ratio is calculated as Swiss total capital, divided by period-end leverage exposure. The look-through BIS tier 1 leverage ratio and CET1 leverage ratio are calculated as look-through BIS tier 1 capital and CET1 capital, respectively, divided by end-period leverage exposure. Selling restrictions This document, and the information contained herein, is not an offer to sell or a solicitation of offers to purchase or subscribe for securities of Credit Suisse Group AG or Credit Suisse (Schweiz) AG in Switzerland, the United States or any other jurisdiction. This document is not a prospectus within the meaning of article 652a of the Swiss Code of Obligations, nor is it a listing prospectus as defined in the listing rules of the SIX Swiss Exchange AG or any other exchange or regulated trading facility in Switzerland or a prospectus or offering document under any other applicable laws. Copies of this document may not be sent to jurisdictions, or distributed in or sent from jurisdictions, in which such documents are barred or prohibited by law. A decision to invest in securities of Credit Suisse Group AG or Credit Suisse (Schweiz) AG should be based exclusively on a written agreement with Credit Suisse Group AG or an offering and listing prospectus to be published by Credit Suisse Group AG or Credit Suisse (Schweiz) AG for such purpose. Any offer and sale of securities of Credit Suisse (Schweiz) AG will not be registered under the U.S. Securities Act of 1933, as amended, and may not be offered in the United States of America absent such registration or an exemption from registration. There will be no public offering of such securities in the United States of America.

Key metrics in USD bn Continued progress in reducing RWA and leverage exposure in 4Q16 by USD 11 bn and USD 16 bn, respectively. RWA for derivatives, loans and financing portfolios down 38% vs. 3Q16: Broad range of transactions executed in the quarter, including the sale of loan portfolios, and a large number of unwinds and compressions across macro and credit derivative products Reductions include the sale of a loan portfolio in connection with which GM entered into a co-investment agreement; and the transfer of certain derivative positions from SRU to GM which received regulatory approval to apply updated capital models. Combined impact on RWA and Leverage for GM of USD 3 bn and USD 8 bn, respectively Adjusted pre-tax income improved by USD 11 mn vs. 3Q16: Reduction to adjusted operating expenses vs. prior quarter, partially offset by lower fee based revenues from legacy investment banking businesses due to accelerated unwinds; exit cost at ~0.5% of RWA; revised lifetime guidance to < 3% On a year-on-year basis, RWA and leverage exposure reduced by USD 29 bn (39%) and USD 67 bn (39%), respectively. Bilateral derivatives trade count of 142k, down 191k vs. 4Q15, or 57% Full year 2016 adjusted operating expenses lower by USD 1.1 bn, or 41%, driven by the exit from US Private Banking onshore business and reduced footprint in legacy Investment Banking businesses 4Q16 includes a USD 2 bn expense provision in connection with the settlement with the US Department of Justice related to our legacy residential mortgage-backed securities business Execution Profitable growth Legacy Detailed Financials Capital

(2/2) Adjusted results are non-GAAP financial measures that exclude goodwill impairment and certain other revenues and expenses included in our reported results. Management believes that adjusted results provide a useful presentation of our operating results for purposes of assessing our Group and divisional performance consistently over time, on a basis that excludes items that management does not consider representative of our underlying performance. Provided below is a reconciliation of our adjusted results to the most directly comparable US GAAP measures.																					

Swisscard deconsolidation impact Impact of the deconsolidation on the Swiss Universal Bank Note: Adjusted results are non-GAAP financial measures. A reconciliation to reported results for other adjustments not relating to Swisscard is included in the Notes of this presentation † See Appendix This is an illustrative pro-forma presentation of the impact of the deconsolidation of the card issuing business on the historical results of SUB as if it had occurred on December 31, 2013. Given that as of July 1, 2015 the business has been deconsolidated and transferred to the equity method investment, Swisscard AECS GmbH and the transaction does not qualify for discontinued operations, the historical results are not restated in this respect. The reduction in pre-tax income in the Private Banking business of Swiss Universal Bank is offset by the reduction in minority interest from the deconsolidation at the Group level, therefore there is no material impact on the Group's net income attributable to shareholders. These illustrative figures cannot be seen as being indicative of future trends or results 1 Pro-forma impact of the card issuing business
