☐ Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

Item 2.02. Results of Operations and Financial Condition.

On May 5, 2014, The Scotts Miracle-Gro Company (the "Company") issued a news release reporting information regarding its results of operations for the three and six-months ended March 29, 2014 and its financial condition as of March 29, 2014. The news release is included as Exhibit 99.1 to this Current Report on Form 8-K.

The news release includes the following non-GAAP financial measures as defined in Regulation G:

Adjusted income from continuing operations and adjusted diluted income per share from continuing operations — These measures exclude charges or credits relating to impairments, restructurings, discontinued operations and other unusual items such as costs or gains related to discrete projects or transactions that are apart from and not indicative of the results of the operations of the business. In compliance with Regulation G, the Company has provided a reconciliation of adjusted income from continuing operations and adjusted income per share from continuing operations to their most directly comparable financial measures calculated and presented in accordance with accounting principles generally accepted in the United States of America ("GAAP"). These non-GAAP financial measures are provided solely for the purpose of complying with Regulation G and are not intended to replace or serve as substitutes for any of the Company's GAAP financial measures.

Adjusted EBITDA — This measure is provided as a convenience to the Company's lenders because adjusted EBITDA is a component of certain debt compliance covenants. This measure is calculated as net income before interest, taxes, depreciation and amortization as well as certain other items such as the impact of the cumulative effect of changes in accounting, costs associated with debt refinancing and other non-recurring, non-cash items affecting net income. This presentation of adjusted EBITDA is intended to be consistent with the calculation of that measure as required by the Company's borrowing arrangements, and used to calculate a leverage ratio (maximum of 4.00 at March 29, 2014) and an interest coverage ratio (minimum of 3.50 for the twelve months ended March 29, 2014). The Company's calculation of adjusted EBITDA does not represent and should not be considered as an alternative to net income or cash flow from operations as determined by GAAP. The Company makes no representation or assertion that adjusted EBITDA is indicative of its cash flows from operations or results of operations. The Company has provided a reconciliation of income from continuing operations to adjusted EBITDA solely for the purpose of complying with Regulation G and not as an indication that adjusted EBITDA is a substitute measure for income from continuing operations.

The Company's management believes that these non-GAAP financial measures are the most indicative of the Company's ongoing earnings capabilities and that disclosure of these non-GAAP financial measures therefore provides useful information to investors or other users of the financial statements, such as lenders. Non-GAAP financial measures should be viewed in addition to, and not as an alternative for, the Company's reported results prepared in accordance with GAAP.

Item 9.01. Financial Statements and Exhibits.

(a) Financial statements of businesses acquired:

Not applicable.

(b) Pro forma financial information:

Not applicable.

(c) Shell company transactions:

Not applicable.
