AstraZeneca is pleased to have received shareholder support for all resolutions proposed at the AGM, but is disappointed with the lower level of support received for its Annual Report on Remuneration for the year ended 31 December 2017.

AstraZeneca engaged with its major shareholders during 2017 and is disappointed that enhancements made to Remuneration Report disclosures and changes to the operation of the annual bonus scheme in response to shareholder feedback have not significantly improved the voting result.

The Remuneration Committee has already engaged with a number of shareholders to understand the reasoning behind their decisions not to support the Remuneration Report and will continue to engage with shareholders during 2018 to determine how best to address their concerns.

Issued capital

As at 16 May 2018, the number of issued shares of the Company was 1,266,635,735 ordinary shares, which was the total number of shares entitling the holders to attend and vote for or against all of the resolutions at the AGM. In accordance with the Company's Articles of Association, on a poll every member present in person or by proxy has one vote for every share held.
