First Financial Bancorp Reports Third Quarter 2014
Financial Results and Announces Dividend Increase

Cincinnati, Ohio - October 30, 2014 - First Financial Bancorp (Nasdaq: FFBC) (“First Financial” or the “Company”) announced today financial and operational results for the third quarter 2014.

Third quarter net income was \$15.3 million and earnings per diluted common share were \$0.26. This compares with second quarter net income of \$16.0 million and earnings per diluted common share of \$0.28 and third quarter 2013 net income of \$14.9 million and earnings per diluted common share of \$0.26.

Continued solid quarterly performance

- Quarterly results included several acquisition-related items and other items not expected to recur which reduced pre-tax income by \$5.1 million or approximately \$0.05 per diluted share after taxes
- Return on average assets of 0.88%; 1.07% as adjusted for acquisition-related and other items
- Return on average tangible common equity of 10.15%; 12.39% as adjusted for acquisition-related and other items

Board of directors announces 6.7% increase in the quarterly dividend to \$0.16 per share

• Earnings consistency provides capacity to support higher payout

• Robust capital levels still allow ability to take advantage of strategic opportunities

• Begins with next regularly scheduled dividend, payable on January 2, 2015 to shareholders of record as of November 28, 2014

Entered the attractive Columbus, Ohio market

• Completed acquisitions of The First Bexley Bank, Insight Bank and The Guernsey Bank

• 5 acquired banking centers

• Total acquired loans of \$606.3 million, net of estimated fair value marks

• Total acquired deposits of \$568.6 million, net of estimated fair value marks

Annualized total loan growth, excluding loans acquired during the quarter, of 14.6% on a period-end basis

• Strong performance in specialty finance, traditional C&I / owner occupied CRE and franchise lending

Quarterly net interest margin of 3.66%, a decline of 4 bps compared to the linked quarter

• Negative impact of covered loan balance decline partially offset by the positive impact from acquired loans, improved loan yields and fee income

Claude Davis, President and Chief Executive Officer, commented, “It was an exciting quarter for First Financial as we expanded into the attractive Columbus, Ohio market through the completion of The First

Bexley Bank, Insight Bank and The Guernsey Bank acquisitions, adding \$606.3 million of loans and \$568.6 million of deposits to our balance sheet. We were pleased to welcome our new associates and new clients from those institutions during the quarter and we continue to be extremely excited about the opportunity to introduce the First Financial brand of community banking to Central Ohio.

"Our financial results for the third quarter reflect continued solid organic loan growth during the period as well as the benefits of our expansion into the Columbus market. While reported earnings were impacted by acquisition-related expenses as well as costs associated with our ongoing efficiency plans and other items not expected to recur, we continued to execute on our community bank business model and leverage our diversified credit suite to generate consistent earning asset growth.

"We were very pleased with our asset generation this quarter as period-end loans, excluding loans acquired during the period, increased \$147.7 million, or 14.6% on an annualized basis, compared to the linked quarter. Almost all lending areas of the Company contributed to the quarterly growth, led by strong performance in our specialty finance and traditional C&I / owner occupied CRE portfolios.

"And finally, the close of the third quarter brought about the expiration of the five-year loss sharing coverage period on commercial assets acquired in our 2009 FDIC-assisted transactions. While loss sharing coverage has certainly provided us with an added layer of loss protection over the past five years, we remain pleased with our covered asset resolution efforts and feel we are well-positioned to manage the risk associated with the remaining commercial assets post loss sharing protection."

NET INTEREST INCOME AND NET INTEREST MARGIN

Net interest income for the third quarter was \$58.4 million as compared to \$54.3 million for the second quarter 2014 and \$55.8 million for the third quarter 2013. Compared to the linked quarter, total interest income increased \$4.7 million, or 7.9%, while total interest expense increased \$0.6 million, or 13.7%. Net interest margin was 3.66% for the third quarter, compared to 3.70% for the second quarter 2014 and 3.91% for the third quarter 2013.

Interest income earned on loans increased \$4.8 million, or 9.9%, compared to the prior quarter. The increase in interest income earned on loans was driven by a \$408.3 million, or 11.3%, increase in average uncovered loan balances as a result of the Columbus acquisitions as well as strong, organic loan growth during the period. Additionally, the yield on the uncovered portfolio during the quarter was approximately 4.35%, a 9 bp increase compared to the linked quarter. The impact on net interest income from the growth in average uncovered loans, as well as modestly higher loan fees, was partially offset by a \$36.7 million, or 9.5%, decline in average covered loan balances during the quarter.

Interest income earned from investment securities was essentially unchanged compared to the prior quarter as an increase in average balances of \$54.1 million, or 3.0%, was offset by a 10 bp decline in the yield earned on the portfolio to 2.37%.

The increase in total interest expense was due to a \$209.0 million, or 5.5%, increase in average interest-bearing deposits as well as a 3 bp increase in the related cost of funds on interest-bearing deposits to 41 bps as a result of funding strategies and the Columbus acquisitions during the quarter. Average borrowed funds increased \$150.3 million, or 20.2%, compared to the linked quarter and the related cost of funds was 36 bps.

NONINTEREST INCOME

The following table presents noninterest income for the three months ended September 30, 2014 and for the trailing four quarters, adjusted to exclude the impact of covered loan activity and other select items on the Company's reported balance.

¹ Net of the related valuation adjustment on the FDIC indemnification asset

Excluding the items highlighted in Table I, noninterest income earned in the third quarter was \$15.8 million compared to \$14.6 million in the second quarter 2014 and \$15.0 million in the third quarter 2013. The \$1.2 million increase compared to the linked quarter was driven by a \$0.9 million, or 125.2%, increase in net gains on sales of loans as well as a \$0.2 million increase in other noninterest income during the period. The increase in net gains on sales of loans during the third quarter was driven by a 119.4% increase in the amount of residential mortgage loans sold as compared to the linked quarter, reflecting strong mortgage origination activity as well as the impact of Columbus loan origination and sale

activity during the period. The increase in other noninterest income during the third quarter was driven primarily by an increase in fee income related to the Company's client derivative program.

NONINTEREST EXPENSE

The following table presents noninterest expense for the three months ended September 30, 2014 and for the trailing four quarters, adjusted to exclude the impact of covered asset activity and other select items on the Company's reported balance.

¹ Represents direct expenses associated with credit management and loan administration related to covered assets as well as compliance with FDIC loss sharing agreements; included in total noninterest expense excluding the items noted above and comprised of several noninterest expense line items

Excluding the items highlighted in Table II, noninterest expense was \$46.6 million in the third quarter of 2014, \$44.8 million in the second quarter of 2014 and \$44.4 million in the third quarter 2013. The \$1.8 million increase compared to the linked quarter was primarily due to the addition of the Columbus, Ohio operations during the quarter. Higher compensation and employee benefit costs, as well as OREO-related expenses, were partially offset by lower occupancy costs during the third quarter. OREO-related costs primarily resulted from valuation adjustments during the period. Lower occupancy costs are a result of the Company's ongoing efficiency efforts.

Acquisition-related expenses during the period included \$1.8 million of personnel costs, \$1.6 million of data processing related expenses, \$0.5 million of professional services expenses, \$0.2 million of equipment and other miscellaneous expenses. Other items not expected to recur from the third quarter 2014 consist of \$0.4 million of office relocation expenses as well as a \$0.4 million wealth management settlement.

INCOME TAXES

For the third quarter, income tax expense was \$7.2 million, resulting in an effective tax rate of 32.0%, compared with income tax expense of \$8.0 million and an effective tax rate of 33.3% during the second quarter 2014 and income tax expense of \$7.6 million and an effective tax rate of 33.9% during the third quarter 2013. While the effective tax rate may fluctuate from quarter to quarter due to tax jurisdiction changes and the level of tax-enhanced assets, the overall effective tax rate for the full year is expected to be in the range of approximately 32.0% - 34.0%.

¹ Includes nonaccrual troubled debt restructurings

Net Charge-offs

For the third quarter, net charge-offs totaled \$0.7 million, a decline of \$0.4 million, or 35.0%, compared to the linked quarter.

Nonperforming Assets

Nonaccrual loans, including nonaccrual troubled debt restructurings, increased \$9.2 million, or 28.5%, to \$41.6 million as of September 30, 2014 from \$32.4 million as of June 30, 2014. Contributing to the increase was a single commercial real estate relationship totaling \$6.6 million as well as \$4.3 million of nonperforming loans, net of estimated fair value marks, from the Columbus acquisitions during the period.

Accruing troubled debt restructurings increased \$0.8 million, or 6.0%, to \$13.4 million as of September 30, 2014 from \$12.6 million as of June 30, 2014. The increase in accruing troubled debt restructurings during the third quarter was primarily related to the addition of five commercial credits totaling \$0.8 million.

OREO declined \$2.1 million, or 15.4%, to \$11.3 million during the third quarter as \$2.3 million of sales and \$0.8 million of valuation adjustments were partially offset by \$1.1 million of additions during the period, including \$0.5 million of additions from the Columbus acquisitions.

Classified assets increased \$2.1 million, or 2.0%, to \$105.9 million as of September 30, 2014 from \$103.8 million as of June 30, 2014 due to \$7.8 million of additions from the Columbus acquisitions during

the period, net of estimated fair value marks. Classified assets are defined by the Company as nonperforming assets plus performing loans internally rated substandard or worse.

Delinquent Loans

As of September 30, 2014, loans 30-to-89 days past due totaled \$12.1 million, or 0.27% of period-end loans, compared to \$5.7 million, or 0.16%, as of June 30, 2014 and \$10.4 million, or 0.30%, as of September 30, 2013. The \$6.3 million, or 110.2%, increase during the third quarter was driven primarily by a \$5.4 million increase in delinquent commercial and commercial real estate loans during the period, including \$0.7 million from the Columbus acquisitions.

Provision for Loan & Lease Losses

Third quarter provision expense related to uncovered loans and leases was \$1.1 million as compared to \$29 thousand for the linked quarter and \$1.4 million for the third quarter 2013. Provision expense is a result of the Company's modeling efforts to estimate the period-end allowance for loan and lease losses. The allowance for loan and lease losses as a percentage of period-end loans was 0.95% as of September 30, 2014, compared to 1.15% as of June 30, 2014. Excluding loans acquired during the period, as those loans are recorded at their estimated fair value through purchase accounting and have no associated allowance, the allowance for loan and lease losses as a percentage of period-end loans would have been more consistent with the linked quarter.

LOANS

The following table presents the loan portfolio as of September 30, 2014, June 30, 2014 and September 30, 2013.

Total loans	\$4,782,237			\$4,028,262			\$3,949,440		

Total loans were \$4.8 billion as of September 30, 2014, increasing \$754.0 million, or 18.7%, compared to the linked quarter and \$832.8 million, or 21.1%, compared to September 30, 2013. The increase relative to the linked quarter was driven by the addition of \$606.3 million of loan balances, net of estimated fair value marks, from the Columbus acquisitions that closed in August as well as strong loan origination activity during the third quarter. Excluding loans acquired during the quarter, loans balances increased \$147.7 million, or 14.6% on an annualized basis, compared to the linked quarter.

Covered loans totaled \$332.3 million as of September 30, 2014, declining \$33.3 million, or 9.1%, compared to the linked quarter and \$186.3 million, or 35.9%, compared to September 30, 2013. The

5

Company's loss sharing indemnification from the FDIC related to non-single-family loans expired effective October 1, 2014 and, as a result, approximately \$190.3 million, or 57.3%, of the Company's \$332.3 million covered loan portfolio were no longer covered by FDIC loss sharing effective that date. The loss sharing protection related to the remaining single-family portfolio of approximately \$142.0 million will expire in the third quarter 2019.

The investment portfolio increased \$35.2 million, or 1.9%, to \$1.9 billion during the third quarter as \$61.0 million of purchases and \$30.8 million of securities acquired in the Columbus acquisitions were partially offset by amortizations and other portfolio reductions. As of September 30, 2014, the overall duration of the investment portfolio decreased to 3.7 years compared to 3.9 years as of June 30, 2014. The yield earned on the portfolio during the quarter decreased 10 bps to 2.37% from 2.47% for the linked quarter, driven by lower reinvestment rates, higher prepayment speeds on mortgage-related assets and other duration management actions. The net unrealized loss included in accumulated other comprehensive loss related to the investment portfolio was relatively unchanged during the quarter, increasing from \$6.0 million as of June 30, 2014 to \$6.2 million as of September 30, 2014.

DEPOSITS

Total deposits were \$5.5 billion as of September 30, 2014, increasing \$657.9 million, or 13.5%, compared to the linked quarter. Average total deposits were \$5.2 billion as of September 30, 2014, increasing \$277.5 million, or 5.6%,

compared to the linked quarter. The increases in period-end and average deposits were driven by \$568.6 million of deposits, net of estimated fair value marks, from the Columbus acquisitions as well as strong growth in interest-bearing demand deposits during the quarter.

Non-time deposit balances totaled \$4.3 billion as of September 30, 2014, increasing \$383.7 million, or 9.8%, compared to the linked quarter. The average balance of non-time deposits totaled \$4.1 billion as of September 30, 2014, increasing \$114.2 million, or 2.9%, compared to the linked quarter.

Time deposit balances increased \$274.2 million, or 28.2%, to \$1.2 billion as of September 30, 2014. Average time deposit balances totaled \$1.1 billion as of September 30, 2014, increasing \$163.2 million, or 17.0%, compared to the linked quarter.

The Company's total cost of deposit funding, inclusive of noninterest-bearing balances, was 32 bps for the quarter, representing an increase of 3 bps compared to the prior quarter and 8 bps compared to the third quarter 2013.

CAPITAL MANAGEMENT

The following table presents First Financial's regulatory and other capital ratios as of September 30, 2014, June 30, 2014 and September 30, 2013.

Table VI

	As of September 30, 2014		June 30, 2014		September 30, 2013	
Leverage Ratio	9.70	%	9.99	%	10.29	%
Tier 1 Capital Ratio	12.74	%	14.34	%	15.26	%
Total Risk-Based Capital Ratio	13.80	%	15.59	%	16.53	%
Ending tangible shareholders' equity to ending tangible assets	8.71	%	9.39	%	9.60	%
Ending tangible common shareholders' equity to ending tangible assets	8.71	%	9.39	%	9.60	%
Tangible book value per share	\$10.23		\$10.49		\$10.24	

Shareholders' equity increased \$68.1 million during the quarter as a result of stock issued in conjunction with the Columbus acquisitions and net income for the quarter, partially offset by declared dividends. The Company's Tier I and total risk-based capital ratios declined during the quarter due primarily to an increase in risk-weighted assets resulting from the acquisitions during the period as well as uncovered loan growth. The Company's tangible common equity ratio declined during the quarter due to the impact from acquisitions as the increase in tangible assets outweighed the increase in tangible common equity from the common shares issued in conjunction with the acquisitions. The Company's leverage ratio decreased primarily as a result of the overall growth in the balance sheet during the quarter. Regulatory capital ratios as of September 30, 2014 are considered preliminary pending the filing of the Company's regulatory reports.

Management’s analysis contains forward-looking statements that are provided to assist in the understanding of anticipated future financial performance. However, such performance involves risks and uncertainties that may cause actual results to differ materially. These factors include, but are not limited to: economic, market, liquidity, credit, interest rate, operational and technological risks associated with the Company’s business; the effect of and changes in policies and laws or regulatory agencies (notably the recently enacted Dodd-Frank Wall Street Reform and Consumer Protection Act); management’s ability to effectively execute its business plan; mergers and acquisitions, including costs or difficulties related to the integration of acquired companies; the Company’s ability to comply with the terms of loss sharing agreements with the FDIC; the effect of changes in accounting policies and practices; and the costs and effects of litigation and of unexpected or adverse outcomes in such litigation. Please refer to the Company’s Annual Report on Form 10-K for the year ended December 31, 2013, as well as its other filings with the SEC, for a more detailed discussion of these risks, uncertainties and other factors that could cause actual results to differ from those discussed in the forward-looking statements. Such forward-looking statements are meaningful only on the date when such statements are made, and the Company undertakes no obligation to update any forward-looking statement to reflect events or circumstances after the date on which such a statement is made to reflect the occurrence of unanticipated events.

(1) The tax equivalent adjustment to net interest income recognizes the income tax savings when comparing taxable and tax-exempt assets and assumes a 35% tax rate. Management believes that it is a standard practice in the banking industry to present net interest margin and net interest income on a fully tax equivalent basis. Therefore, management believes, these measures provide useful information to investors by allowing them to make peer comparisons.

Management also uses these measures to make peer comparisons.

(2) September 30, 2014 regulatory capital ratios are preliminary.

(3) Includes loans held for sale.

(1) The tax equivalent adjustment to net interest income recognizes the income tax savings when comparing taxable and tax-exempt assets and assumes a 35% tax rate. Management believes that it is a standard practice in the banking industry to present net interest income on a fully tax equivalent basis. Therefore, management believes, these measures provided useful information to investors by allowing them to make peer comparisons. Management also uses these measures to make peer comparisons.

SUPPLEMENTAL INFORMATION ON COVERED ASSETS

ACCELERATED DISCOUNT ON LOAN PREPAYMENTS AND DISPOSITIONS

During the third quarter, First Financial recognized approximately \$0.8 million in accelerated discount on covered loans, net of the related adjustment on the FDIC indemnification asset. Accelerated discount is recognized when covered loans, which are recorded on the Company's balance sheet at an amount less than the unpaid principal balance, prepay at an amount greater than their recorded book value. Prepayments can occur through either customer payments before the maturity date or loan sales. The amount of discount recognized is generally offset by a related reduction in the FDIC indemnification asset.

NET INTEREST MARGIN IMPACT

Net interest margin is affected by certain activity related to the covered loan portfolio. The majority of these loans are accounted for under FASB ASC Topic 310-30 and, as such, the Company is required to periodically update its forecast of expected cash flows from these loans. Impairment, as a result of a decrease in expected cash flows, is recognized as provision expense in the period it is measured and has no impact on net interest margin. Improvements in expected cash flows, in excess of any prior impairment, are recognized on a prospective basis through an upward adjustment to the yield earned on the portfolio. Impairment and improvement are both partially offset by the impact of changes in the value of the FDIC indemnification asset. Impairment is partially offset by an increase to the FDIC indemnification asset as a result of FDIC loss sharing income. Improvement, which is reflected as a higher yield, is partially offset by a lower yield earned on the FDIC indemnification asset until the next periodic valuation of the loans and the indemnification asset. The weighted average yield of the acquired loan portfolio may also be subject to change as loans with higher yields pay down more quickly or slowly than loans with lower yields.

The following table shows the estimated yield earned by the Company on its covered and uncovered loan portfolios and the FDIC indemnification asset for the three months ended September 30, 2014.

As of September 30, 2014, 6.9% of the Company's total loans were covered loans. During the third quarter, the total balance of covered loans decreased \$33.3 million, or 9.1%, compared to the prior quarter. Included in the decrease in covered loan balances during the third quarter was a \$16.4 million, or 25.0%, decline in the balance of covered loans classified as likely to exit resulting from the continued successful execution of resolution strategies.

Covered OREO decreased \$8.3 million, or 42.5%, during the third quarter to \$11.2 million as of September 30, 2014, as additions of \$0.1 million were offset by resolutions and valuation adjustments of \$8.4 million. The Company recognized a \$1.4 million net gain on sales of covered OREO during the quarter, which was offset by a corresponding decrease in FDIC loss sharing income of approximately 80% of the net gain recognized.

As required under the loss sharing agreements, First Financial must file quarterly certifications with the FDIC on all covered loans. The payment of claims is subject to the FDIC's review for compliance with the loss sharing agreements and to date, all certifications have been filed in a timely manner and without significant issues.

ALLOWANCE FOR LOAN AND LEASE LOSSES - COVERED

Under the applicable accounting guidance, the allowance for loan losses related to covered loans is a result of impairment identified in ongoing valuation procedures and is generally recognized in the current period as provision expense. However, if improvement is noted in a loan pool that had previously experienced impairment, the amount of improvement is recognized as a reduction to the applicable period's provision expense. Additional improvement beyond previously recorded impairment is reflected as a yield adjustment on a prospective basis. The timing inherent in this accounting treatment may result in earnings volatility in future periods.

The following table presents activity in the allowance for loan losses related to covered loans for the three months ended September 30, 2014 and for the trailing three quarters.

Table IX

(Dollars in thousands)	As of or for the Three Months Ended			
	September 30, 2014	June 30, 2014	March 31, 2014	December 31, 2013
Balance at beginning of period	\$12,425	\$10,573	\$18,901	\$23,259
Provision for loan and lease losses - covered	(200)	(413)	(2,192)	(5,857)
Total gross charge-offs	(3,053)	(3,485)	(7,240)	(3,850)
Total recoveries	2,363	5,750	1,104	5,349
Total net (charge-offs) / recoveries	(690)	2,265	(6,136)	1,499
Ending allowance for loan and lease losses - covered	\$11,535	\$12,425	\$10,573	\$18,901

As a percentage of total covered loans, the allowance for loan losses totaled 3.47% as of September 30, 2014 compared to 3.40% as of June 30, 2014.

Net charge offs on covered loans during the third quarter were \$0.7 million compared to net recoveries of \$2.3 million for the second quarter 2014. During the third quarter, the Company recognized negative provision expense related to covered loans of \$0.2 million compared to negative provision expense of \$0.4 million for the linked quarter. The difference between provision expense and net charge-offs / recoveries primarily relates to the quarterly re-estimation of cash flow expectations required under FASB ASC Topic 310-30.

In addition to negative covered provision expense, the Company also incurred \$1.0 million of loss sharing expense and realized \$1.4 million of net gains on dispositions of covered OREO during the third quarter. Loss sharing expense consists primarily of credit and collection-related expenses. The related offset to covered provision expense, loss sharing expenses and net gains on covered OREO for reimbursements due to the FDIC under loss sharing agreements was recorded as negative FDIC loss sharing income of \$0.2 million for the quarter.
