Item 5. Other Events

SBC Communications Inc. ("SBC") today sold 69,436,344 million shares of Danish telecommunications approximately 12.96 billion Danish Kroners (approximately U.S.\$2.1 billion at a recent exchange rate) were sold to certain institutional investors located in Europe, the U.S. and elsewhere. TDC also sold 20,563,656 shares. As a result of this transaction, SBC now owns 20,563,656 shares of TDC. SBC has agreed to repurchase 180 days subject to exceptions for sales pursuant to: a public tender offer; TDC's share repurchase program; or to SBC's written consent of the investment banks conducting the sale to institutional investors; or to SBC's written consent.

SBC expects to report in its second-quarter 2004 financial results a net after-tax loss of approximately \$10 million.

As a result of this transaction, SBC will change from the equity method of accounting to the cost of sales method of accounting for the remaining interest in TDC. Accordingly, SBC will no longer record proportionate results from TDC's operations. In the first quarter of 2004, SBC recorded \$280 million in equity income from TDC. This income was primarily due to TDC's disposition of Belgacom, S.A ( Belgacom ), \$16 million related to Belgacom results reported in the first quarter of 2004, and \$51 million for TDC's restructuring charges and impairment of our goodwill associated with a TDC acquisition. If SBC had continued to use the equity method, equity income from TDC would have been \$64 million.

Information set forth in this report contains financial estimates and other forward-looking statements. Actual results may differ from these estimates due to various uncertainties and actual results might differ materially. A discussion of factors that may affect SBC's filings with the Securities and Exchange Commission. SBC disclaims any obligation to update this report based on new information or otherwise.
