ITEM 2.02 Results of Operations and Financial Condition

On January 28, 2014, Pentair Ltd. (the "Company") issued a press release announcing its earnings for the fourth quarter of 2013 and a conference call in connection therewith. A copy of the release is attached hereto as Exhibit 99.1 and incorporated herein by reference.

This press release refers to certain non-GAAP financial measures (adjusted operating income, adjusted operating margins, adjusted earnings per share, free cash flow and pro forma financial information) and a reconciliation of those non-GAAP financial measures to the corresponding financial measures contained in the Company's financial statements prepared in accordance with generally accepted accounting principles.

The 2013 adjusted operating income, adjusted operating margins and adjusted earnings per share eliminate certain expenses incurred related to the merger with the Flow Control business of Tyco International Ltd. ("Tyco"), certain targeted restructuring activities, "mark-to-market" gain for pension and other post-retirement plans, impairments, certain expenses related to the proposed redomicile of the Company, gain on the sale of businesses, certain tax items and interest expense. The 2012 adjusted operating income, adjusted operating margins and adjusted earnings per share eliminate specific tax gains, certain expenses incurred related to the merger with the Flow Control business of Tyco ("Flow Control"), certain targeted restructuring activities, certain expenses incurred related to the adoption of "mark-to-market" accounting for pension and other post-retirement plans, impairments and debt extinguishment expense. Management utilizes these adjusted financial measures to assess the run-rate of its continuing operations against those of prior periods without the distortion of these factors. The Company believes that these non-GAAP financial measures will be useful to investors as well to assess the continuing strength of the Company's underlying operations.

The Company uses free cash flow to assess its cash flow performance. The Company believes free cash flow is an important measure of operating performance because it provides the Company and its investors a measurement of cash generated from operations that is available to pay dividends and repay debt. In addition, free cash flow is used as criterion to measure and pay compensation-based incentives. The Company's measure of free cash flow may not be comparable to similarly titled measures reported by other companies.

The 2012 pro forma financial information adjusts Pentair, Inc.'s historical financial information for the merger with Flow Control, additional depreciation and amortization expense related to the merger with Flow Control, and certain other items as defined in the notes to the pro forma information. Management utilizes the pro forma financial information to assess the run-rate of its continuing operations against those of prior periods without the distortion of these factors. The Company believes that these non-GAAP financial measures will be useful to investors as well to assess the continuing strength of the Company's underlying operations.

ITEM 9.01 Financial Statements and Exhibits

(a) Financial Statements of Businesses Acquired

Not applicable.
