SAFE HARBOR STATEMENT UNDER THE PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995:

Forward-looking statements in this Quarterly Report on Form 10-Q including, without limitation, statements relating to our future revenue and cash flows, plans, strategies, objectives, expectations and intentions, are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Investors are cautioned that such forward-looking statements are inherently subject to risks and uncertainties, many of which cannot be predicted with accuracy, and some of which might not be anticipated, including, without limitation, the following: (i) our plans, strategies, objectives, expectations and intentions are subject to change at any time at our discretion; (ii) the levels of sales of our apparel, footwear and related products, both to our wholesale customers and in our retail stores, and the levels of sales of our licensees at wholesale and retail, and the extent of discounts and promotional pricing in which we and our licensees and other licensing partners are required to engage, all of which can be affected by weather conditions, changes in the economy, fuel prices, reductions in travel, fashion trends, consolidations, repositionings and bankruptcies in the retail industries, repositioning of brands by our licensors and other factors; (iii) our plans and results of operations will be affected by our ability to manage our growth and inventory, including our ability to continue to develop and grow our Calvin Klein businesses in terms of revenue and profitability; (iv) our operations and results could be affected by quota restrictions and the imposition of safeguard controls (which, among other things, could limit our ability to produce products in cost-effective countries that have the labor and technical expertise needed), the availability and cost of raw materials (particularly petroleum-based synthetic fabrics, which are currently in high demand), our ability to adjust timely to changes in trade regulations and the migration and development of manufacturers (which can affect where our products can best be produced), and civil conflict, war or terrorist acts, the threat of any of the foregoing, or political and labor instability in the United States or any of the countries where our products are or are planned to be produced; (v) disease epidemics and health related concerns, which could result in closed factories, reduced workforces, scarcity of raw materials and scrutiny or embargoing of goods produced in infected areas; (vi) acquisitions and issues arising with acquisitions and proposed transactions, including without limitation, the ability to integrate an acquired entity into us with no substantial adverse affect on the acquired entity's or our existing operations, employee relationships, vendor relationships, customer relationships or financial performance; (vii) the failure of our licensees to market successfully licensed products or to preserve the value of our brands, or their misuse of our brands; and (viii) other risks and uncertainties indicated from time to time in our filings with the Securities and Exchange Commission.

We do not undertake any obligation to update publicly any forward-looking statement, including, without limitation, any estimate regarding revenue or cash flows, whether as a result of the receipt of new information, future events or otherwise.

PART I - FINANCIAL INFORMATION

ITEM 1 - FINANCIAL STATEMENTS

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Stockholders of

Phillips-Van Heusen Corporation

We have reviewed the consolidated balance sheets of Phillips-Van Heusen Corporation as of August 2, 2009 and August 3, 2008 and the related consolidated income statements for the thirteen and twenty-six week periods ended August 2, 2009 and August 3, 2008 and the related consolidated statements of cash flows for the twenty-six week periods ended August 2, 2009 and August 3, 2008. These financial statements are the responsibility of the Company's management.

We conducted our reviews in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures to financial data, and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our reviews, we are not aware of any material modifications that should be made to the consolidated interim financial statements referred to above for them to be in conformity with U.S. generally accepted accounting principles.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet of Phillips-Van Heusen Corporation as of February 1, 2009, and the related consolidated income statement, statement of changes in stockholders' equity, and statement of cash flows for the year then ended (not presented herein) and in our report dated March 25, 2009, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying consolidated balance sheet as of February 1, 2009, is fairly stated, in all material respects, in relation to the consolidated balance sheet from which it has been derived.

PHILLIPS-VAN HEUSEN CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Dollar and share amounts in thousands, except per share data)

1. GENERAL

The Company's fiscal years are based on the 52-53 week period ending on the Sunday closest to February 1 and are designated by the calendar year in which the fiscal year commences. References to a year are to the Company's fiscal year, unless the context requires otherwise.

The accompanying unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information. Accordingly, they do not contain all disclosures required by accounting principles generally accepted in the United States for complete financial statements. Reference should be made to the audited consolidated financial statements, including the notes thereto, included in the Company's Annual Report on Form 10-K for the year ended February 1, 2009.

The preparation of interim financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ materially from the estimates.

The results of operations for the thirteen and twenty-six weeks ended August 2, 2009 and August 3, 2008 are not necessarily indicative of those for a full fiscal year due, in part, to seasonal factors. The data contained in these financial statements are unaudited and are subject to year-end adjustments. However, in the opinion of management, all known adjustments (which consist only of normal recurring accruals) have been made to present fairly the consolidated operating results for the unaudited periods.

Certain reclassifications have been made to the consolidated financial statements and the notes thereto for the prior year periods to present that information on a basis consistent with the current year.

2. INVENTORIES

Inventories related to the Company's wholesale operations, comprised principally of finished goods, are stated at the lower of cost or market. Inventories related to the Company's retail operations, comprised entirely of finished goods, are stated at the lower of average cost or market using the retail inventory method. Under the retail inventory method, the valuation of inventories at cost is calculated by applying a cost-to-retail ratio to the retail value of inventories. Permanent and point of sale markdowns, when recorded, reduce both the retail and cost components of inventory on hand so as to maintain the already established cost-to-retail relationship. Cost for certain apparel and accessory inventories is determined using the last-in, first-out method (LIFO). Cost for principally all other inventories is determined using the first-in, first-out method (FIFO). At August 2, 2009, February 1, 2009 and August 3, 2008, no LIFO reserves were recorded because LIFO cost approximated FIFO cost.

3. ACQUISITION OF BLOCK ASSETS

The Company acquired in February 2009 from Block Corporation (Block), a former licensee of *Van Heusen* and *IZOD* big and tall sportswear in the United States, inventories and inventory purchase commitments related to the licensed business. As part of this transaction, the license agreements between the Company and Block were terminated. The Company paid \$5,699 during the first quarter of 2009 in connection with the transaction. The Company accounted for this transaction as a business combination under Financial Accounting Standards Board (FASB) Statement No. 141R, Business Combinations. As such, the Company recorded an amortizable intangible asset (reacquired license rights) of \$1,401 and goodwill of \$2,420 in connection with the transaction.

4. ACQUISITION OF CMI

The Company acquired 100% of the issued and outstanding shares of Confezioni Moda Italia, S.r.L. (CMI) from a subsidiary of The Warnaco Group, Inc. on January 30, 2008. (The Warnaco Group, Inc. and its subsidiaries, separately and together, are referred to as Warnaco.) CMI is the licensee of the *Calvin Klein Collection* apparel and accessories businesses under agreements with the Company's Calvin Klein, Inc. subsidiary. Warnaco acquired the shares of CMI in January 2008 and was obligated to operate the Calvin Klein Collection businesses through 2013. In return for the Company's assuming ownership of CMI, Warnaco made a payment of \$38,500 to the Company in the first quarter of 2008. Under the terms of the acquisition agreement, the amount paid to the Company is subject to certain refund provisions if the Company were to cease operating the Calvin Klein Collection businesses prior to 2012. The Company will amortize into income each year that it continues to operate such businesses the amount set forth in the acquisition agreement that would have been refunded to Warnaco for such year if the Company had ceased operating such businesses. Each amount so amortized is recorded in equal quarterly installments. As part of this transaction, the Company paid to Warnaco \$17,146 in the first quarter of 2008 based on a percentage of Warnaco's estimate of the net working capital of CMI as of the closing date. This amount is subject to adjustment. The Company subsequently adjusted during 2008 the preliminary allocation of the purchase price based on the Company's calculation of the working capital of CMI as of the closing date. Pursuant to the process set forth in the amended acquisition agreement, the Company has submitted its calculation of the closing date working capital to Warnaco and Warnaco has disputed the calculation. Warnaco and the Company are in discussion to resolve the disputed calculation. The Company's 2009 results of operations could be impacted depending on the outcome of these discussions.

5. ACQUISITION OF MULBERRY ASSETS

The Company acquired in April 2008 certain assets (including certain trademark licenses, inventories and receivables) of Mulberry Thai Silks, Inc. (Mulberry), a manufacturer and distributor of neckwear in the United States. The Company acquired rights to produce and market neckwear under the *Kenneth Cole New York*, *Kenneth Cole Reaction*, *J. Garcia*, *Claiborne*, *Sean John*, *BCBG Max Azria*, *BCBG Attitude*, *U.S. POLO ASSN.* and *Axcess* brands in connection with this transaction. The Company paid \$11,377 during the twenty-six weeks ended August 3, 2008 in connection with the acquisition.

6. SKIPPER CONTINGENT PURCHASE PRICE PAYMENTS

The Company acquired substantially all of the assets of Superba, Inc. (now known as Skipper, Inc., Skipper) in 2006. The Company is obligated to make contingent purchase price payments to Skipper if the earnings of the acquired business exceed certain targets in 2007, 2008 and 2009. Any such contingent purchase price payments would be payable 90 days after the applicable year end and are recorded as additions to goodwill. The Company paid Skipper \$14,517 in the first quarter of 2008 based on the actual calculation of 2007 earnings, as defined in the underlying asset purchase agreement, achieved by the acquired business. The acquired business did not achieve the minimum earnings in 2008 required for a payout in 2009. The maximum payout that Skipper can receive with respect to earnings in 2009 is \$30,000. The Company currently anticipates that no payment will be made in 2010 with respect to 2009 earnings.

7. GOODWILL

The changes in the carrying amount of goodwill for the period ended August 2, 2009, by segment, were as follows:

	Wholesale Dress <u>Furnishings</u>	Wholesale Sportswear and Related <u>Products</u>	Calvin Klein <u>Licensing</u>	<u>Total</u>
Balance as of February 1, 2009	\$74,377	\$82,133	\$220,517	\$377,027
Contingent purchase price payments to Mr. Calvin Klein	-	-	15,776	15,776
Goodwill from acquisition of Block assets	-	2,420	-	2,420
Currency translation	<u>624</u>	<u>-</u>	<u>337</u>	<u>961</u>
Balance as of August 2, 2009	<u>\$75,001</u>	<u>\$84,553</u>	<u>\$236,630</u>	<u>\$396,184</u>

The Company is required to make contingent purchase price payments to Mr. Calvin Klein in connection with the Company's acquisition in 2003 of all of the issued and outstanding stock of Calvin Klein, Inc. and certain affiliated companies (collectively, Calvin Klein). Such payments are based on 1.15% of total worldwide net sales, as defined in the agreement governing the Calvin Klein acquisition, of products bearing any of the *Calvin Klein* brands and are required to be made with respect to sales made during the first 15 years following the closing of the acquisition. A significant portion of the sales on which the payments to Mr. Klein are made are wholesale sales by the Company and its licensees and other licensing partners to retailers.

8. RETIREMENT AND BENEFIT PLANS

The Company has five noncontributory defined benefit pension plans covering substantially all employees resident in the United States who meet certain age and service requirements. For those vested (after five years of service), the plans provide monthly benefits upon retirement based on career compensation and years of credited service.

The Company also has for certain of such employees an unfunded non-qualified supplemental defined benefit pension plan, which provides benefits for compensation in excess of Internal Revenue Service earnings limits and requires payments to vested employees upon employment termination or retirement, or shortly thereafter.

In addition to the defined benefit pension plans described above, the Company has a capital accumulation program (CAP Plan), which is an unfunded non-qualified supplemental defined benefit plan covering six current and 14 retired executives. Under the individual participants' CAP Plan agreements, the participants will receive a predetermined amount during the 10 years following the attainment of age 65, provided that prior to the termination of employment with the Company, the participant has been in the CAP Plan for at least 10 years and has attained age 55.

The Company also provides certain postretirement health care and life insurance benefits to certain retirees resident in the United States. Retirees contribute to the cost of this plan, which is unfunded. During 2002, the postretirement plan was amended to eliminate benefits for active participants who, as of January 1, 2003, had not attained age 55 and 10 years of service.

Net benefit cost related to the Company's pension plans was recognized as follows:

10. FAIR VALUE MEASUREMENTS

The Company adopted prospectively FASB Statement No. 157, Fair Value Measurements, as of the beginning of 2008 for all financial assets and liabilities and for non-financial assets and liabilities measured at fair value on a recurring basis (at least annually). The Company adopted prospectively FASB Statement No. 157 for all other non-financial assets and liabilities as of the beginning of 2009. FASB Statement No. 157 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in the principal or most advantageous market in an orderly transaction between market participants at the measurement date. It also establishes a three level hierarchy that prioritizes the inputs used to measure fair value. The three levels of the hierarchy are defined as follows:

Level 1 Inputs are unadjusted quoted prices in active markets for identical assets or liabilities that the Company has the ability to access at the measurement date.

Level 2 Observable inputs other than quoted prices included in Level 1, including quoted prices for similar assets or liabilities in active markets, quoted prices for identical assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability and inputs derived principally from or corroborated by observable market data.

Level 3 Unobservable inputs reflecting the Company's own assumptions about the inputs that market participants would use in pricing the asset or liability based on the best information available.

In accordance with the fair value hierarchy described above, the following table shows the fair value of the Company's non-financial assets and liabilities that were required to be remeasured at fair value on a nonrecurring basis during the twenty-six weeks ended August 2, 2009, and the total losses recorded as a result of the remeasurement process.

<u>Description</u>	Net Carrying Value at <u>8/2/09</u>	Fair Value Measurement Using			Total Losses for Twenty-Six Weeks Ended <u>8/2/09</u>
		<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	
Property and equipment	\$1,425	N/A	\$1,425	\$ -	\$1,494

In accordance with FASB Statement No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets, long-lived assets held and used with a carrying amount of \$136 were written down to a fair value of zero during the first quarter of 2009. Such assets were deemed to have no future use or economic benefit and therefore no expected future cash flows. Additionally, long-lived assets held for sale with a fair value of \$2,783 were written down to a fair value of \$1,425 during the second quarter of 2009 based on the quoted contractual selling price of such assets, less the related selling costs.

The carrying amounts and the fair values of the Company's financial instruments for the period ended August 2, 2009 were as follows:

	Carrying <u>Amount</u>	Fair <u>Value</u>
Cash and cash equivalents	\$369,596	\$369,596
Long-term debt	399,576	378,375

Cash and Cash Equivalents - The fair values of cash and cash equivalents approximate their carrying values due to the short-term nature of these instruments.

Long-Term Debt - The Company estimates the fair value of its long-term debt using quoted market prices as of the last business day of the applicable quarter.

11. STOCK-BASED COMPENSATION

The Company's 2006 Stock Incentive Plan (the "2006 Plan") was approved at the Company's Annual Meeting of Stockholders held in June 2006. The 2006 Plan replaced the Company's existing 1997, 2000 and 2003 Stock Option Plans. The 1997, 2000 and 2003 Stock Option Plans terminated on the date of such approval, other than with respect to outstanding options under those plans, which continue to be governed by the respective plan under which they were granted. Shares issued as a result of stock-based compensation transactions have generally been funded with the issuance of new shares of the Company's common stock.

The Company may grant the following types of incentive awards under the 2006 Plan: (i) non-qualified stock options ("NQs"); (ii) incentive stock options ("ISOs"); (iii) stock appreciation rights; (iv) restricted stock; (v) restricted stock units ("RSUs"); (vi) performance shares; and (vii) other stock-based awards. Each award granted under the 2006 Plan is subject to an award agreement that incorporates, as applicable, the exercise price, the term of the award, the periods of

restriction, the number of shares to which the award pertains, applicable performance period(s) and performance measure(s), and such other terms and conditions as the plan committee determines.

Through August 2, 2009, the Company has granted under the 2006 Plan: (i) service-based NQs and RSUs; (ii) contingently issuable performance shares; and (iii) RSUs that satisfy the performance-based condition for deductibility under Section 162(m) of the Internal Revenue Code. According to the terms of the 2006 Plan, for purposes of determining the number of shares available for grant, each share underlying a stock option award reduces the number available by one share and each share underlying an RSU or performance share award reduces the number available by three shares for awards made before April 29, 2009 and by two shares for awards made on or after April 29, 2009. The per share exercise price of options granted under the 2006 Plan cannot be less than the closing price of the common stock on the date of grant (the business day prior to the date of grant for awards granted prior to September 21, 2006).

The Company currently has service-based NQs and ISOs outstanding under its 1997, 2000 and 2003 Stock Option Plans. Options were granted with an exercise price equal to the closing price of the common stock on the business day immediately preceding the date of grant.

Net income for the twenty-six weeks ended August 2, 2009 and August 3, 2008 included \$5,622 and \$5,410, respectively, of pre-tax expense related to stock-based compensation.

Options currently outstanding are generally cumulatively exercisable in four equal installments commencing one year after the date of grant. The vesting of options outstanding is also accelerated upon retirement (as defined in the applicable plan). Options are generally granted with a 10-year term.

The Company estimates the fair value of stock options granted at the date of grant using the Black-Scholes-Merton model. The estimated fair value of the options, net of estimated forfeitures, is expensed on a straight-line basis over the options' vesting period.

The following summarizes the assumptions used to estimate the fair value of service-based stock options granted during the twenty-six weeks ended August 2, 2009 and August 3, 2008, respectively:

	<u>Twenty-Six Weeks Ended</u>	
	<u>8/2/09</u>	<u>8/3/08</u>
Weighted average risk-free interest rate	2.58%	2.79%
Weighted average expected option term	6.6 Years	6.3 Years
Weighted average expected volatility	38.9%	29.5%
Expected annual dividends per share	\$ 0.15	\$ 0.15
Weighted average estimated fair value per share of options granted	\$11.16	\$12.16

The Securities and Exchange Commission issued Staff Accounting Bulletin (SAB) No. 110 in December 2007. SAB No. 110 allows for the continued use, under certain circumstances, of the simplified method discussed in SAB No. 107 for estimating the expected term of plain vanilla stock options. The Company has continued to utilize the simplified method to estimate the expected term for its stock options granted and will continue to evaluate the appropriateness of utilizing such method.

Service-based stock option activity for the twenty-six weeks ended August 2, 2009 was as follows:

	<u>Options</u>	<u>Weighted Average Price Per Option</u>
Outstanding at February 1, 2009	3,422	\$29.91

Granted	663	27.18
Exercised	114	15.96
Cancelled	<u>70</u>	<u>35.17</u>
Outstanding at August 2, 2009	<u>3,901</u>	<u>\$29.76</u>
Exercisable at August 2, 2009	<u>2,644</u>	<u>\$27.87</u>

Service-based RSUs granted to employees generally vest in three installments commencing two years after the date of grant. Service-based RSUs granted to non-employee directors vest in four equal installments commencing one year after the date of grant. The underlying RSU award agreements generally provide for accelerated vesting upon the award recipient's retirement (as defined in the 2006 Plan). The fair value of service-based RSUs is equal to the closing price of the Company's common stock on the date of grant and is expensed, net of estimated forfeitures, on a straight-line basis over the RSUs' vesting period.

In the second quarter of 2009, the Company granted to Emanuel Chirico, the Company's Chief Executive Officer, his 2009 RSU award, as well as upfront grants of his 2010 and 2011 RSU awards. The awards are considered to be upfront because they are intended to be in lieu of awards that would otherwise be expected to be made to Mr. Chirico in 2010 and 2011 and the portions of the awards allocable to 2010 and 2011 will vest in accordance with the Company's standard vesting schedule described above but as if they had been awarded in those years. In addition to the service-based criteria for vesting, the awards made to Mr. Chirico in the second quarter of 2009 have performance-based conditions which satisfy the conditions for the deductibility of the awards under Section 162(m) of the Internal Revenue Code and need to be satisfied in order to vest. More specifically, such awards require the Company to achieve a specified level of adjusted net income, as defined in the agreement governing these awards, for any one of the performance periods in order to vest. If the specified adjusted net income level is not attained in any year of vesting, the portion of the award that would have vested will be deferred until and only if the applicable specified adjusted net income level is attained in a subsequent year. The fair value of such awards, which is equal to the closing price of the Company's common stock on the date of grant, is recorded ratably based on the Company's current expectation of the probable number of awards that will vest.

RSU activity for the twenty-six weeks ended August 2, 2009 was as follows:

		Weighted Average Grant Date
	<u>Shares</u>	<u>Fair Value</u>
Non-vested at February 1, 2009	406	\$45.30
Granted	398	28.46
Vested	36	54.60
Cancelled	<u>13</u>	<u>46.19</u>
Non-vested at August 2, 2009	<u>755</u>	<u>\$35.96</u>

The Company granted contingently issuable performance share awards to all of the Company's executive officers during the first quarters of 2008 and 2007, subject to performance periods of three years. The final number of shares that will be earned, if any, is contingent upon the Company's achievement of goals for each of the performance periods based on both earnings per share growth and return on equity during the applicable performance cycle. Depending on the level of objectives achieved, up to a total number of 89 and 69 shares could be issued for all non-vested performance share awards granted in 2008 and 2007, respectively. The Company records expense for the contingently issuable performance shares ratably over each applicable vesting period based on fair value and the Company's current expectations of the probable number of shares that will ultimately be issued. The fair value of the contingently issuable performance shares is equal to the closing price of the Company's common stock on the date of grant, reduced for the present value of any dividends expected to be paid on the Company's common stock during the performance cycle, as these contingently issuable performance shares do not accrue dividends prior to being earned.

Performance share activity for the twenty-six weeks ended August 2, 2009 was as follows:

		Weighted Average Grant Date
	<u>Shares</u>	<u>Fair Value</u>
Non-vested at February 1, 2009	158	\$46.89

Granted	-	-
Vested	-	-
Cancelled	<u>-</u>	<u>-</u>
Non-vested at August 2, 2009	<u>158</u>	<u>\$46.89</u>

The Company receives a tax deduction for certain transactions associated with its stock plan awards. The actual income tax benefits realized from these transactions for the twenty-six weeks ended August 2, 2009 and August 3, 2008 were \$815 and \$1,362, respectively. Of those amounts, \$259 and \$1,038, respectively, were reported as excess tax benefits. Excess tax benefits arise when the actual tax benefit resulting from a stock plan award transaction exceeds the tax benefit associated with the grant date fair value of the related stock award.

12. ACTIVITY EXIT COSTS AND ASSET IMPAIRMENTS

Restructuring Costs

The Company announced in the fourth quarter of 2008 that it initiated a series of actions to respond to the difficult economic conditions by restructuring certain of its operations and implementing a number of other cost reduction efforts. The restructuring initiatives included the shutdown of domestic production of machine-made neckwear, a realignment of the Company's global sourcing organization, reductions in warehousing capacity, including the closure of two of the Company's warehouses, and other initiatives to reduce corporate and administrative expenses. In connection with these actions, the Company's salaried positions were reduced by over 10%, the Company's machine-made neckwear manufacturing positions were eliminated and certain of the Company's warehousing positions were eliminated. The salaried position reductions were principally at corporate headquarter locations in New York, New York and corporate administrative offices in Bridgewater, New Jersey and Hong Kong. The manufacturing position reductions were in Los Angeles, California and the warehousing position reductions were principally in Schuylkill Haven, Pennsylvania.

Costs associated with the exit activities were as follows:

	Total Expected to be Incurred ^{(1),(2)}	Incurred During the Thirteen Weeks Ended 8/2/09	Incurred During the Twenty-Six Weeks Ended 8/2/09	Cumulative Incurred Through 8/2/09 ⁽¹⁾
Severance, termination benefits and other costs	\$27,209	\$4,898	\$ 9,467	\$26,209
Long-lived asset impairments	5,253	1,358	1,494	5,253
Lease termination costs	<u>6,092</u>	<u>-</u>	<u>15</u>	<u>1,092</u>
Total	<u>\$38,554</u>	<u>\$6,256</u>	<u>\$10,976</u>	<u>\$32,554</u>

(1)

Amounts include \$21,578 of costs incurred in the fourth quarter of 2008 associated with these exit activities, and exclude impairment charges of \$60,082 recorded in the fourth quarter of 2008 associated with approximately 200 of the Company's retail stores.

(2)

The remaining \$6,000 of costs expected to be incurred relate principally to early lease termination fees pursuant to recent agreements for certain of the Company's *Calvin Klein* specialty retail stores. Although lease termination costs were included in the Company's previously announced initiatives, these costs relate to new agreements that the Company did not originally expect to be able to conclude. Such costs are expected to be incurred in the third quarter of 2009.

Liabilities recorded in connection with the restructuring were as follows:

Liability	Costs Incurred During the Twenty-Six Weeks	Costs Paid During the Twenty-Six Weeks	Liability
-----------	---	---	-----------

Edgar Filing: PHILLIPS VAN HEUSEN CORP /DE/ - Form 10-Q

	<u>at 2/1/09</u>	<u>Ended 8/2/09</u>	<u>Ended 8/2/09</u>	<u>at 8/2/09</u>

Total	<u>\$16,159</u>	<u>\$9,482</u>	<u>\$15,622</u>	<u>\$10,019</u>

The costs incurred associated with the restructuring were included principally in selling, general and administrative expenses of the Company's segments as follows:

	Costs Incurred

Asset Impairments

During the second quarter of 2008, the Company determined that it would not renew its license agreements to operate *Geoffrey Beene* outlet retail stores and executed a plan to close its Geoffrey Beene outlet retail division. This decision was based on the division not materially or consistently contributing to the Company's overall profitability. This resulted in the Company recording a long-lived asset impairment of \$5,977 in the second quarter of 2008 in selling, general and administrative expenses of the Retail Apparel and Related Products segment.

Comparable store sales declines and the overall level of profitability in the Company's continuing heritage brand outlet retail businesses (Bass, Van Heusen and Izod) was an impairment indicator in the second quarter of 2008, which caused the Company to evaluate whether the net book value of the long-lived assets in the Company's heritage brand outlet retail stores was recoverable. Based on this evaluation, the Company determined that the long-lived assets in certain stores were not recoverable and recorded an impairment charge in selling, general and administrative expenses of \$796 in the second quarter of 2008, of which \$340 was included in the Retail Apparel and Related Products segment and \$456 was included in the Retail Footwear and Related Products segment.

13. SALE OF INVESTMENTS

Warnaco acquired 100% of the shares of the companies that operate the licenses and related wholesale and retail businesses of *Calvin Klein* jeans and accessories in Europe and Asia and the *ck Calvin Klein* bridge line of sportswear and accessories in Europe on January 31, 2006. The Company's Calvin Klein, Inc. subsidiary is the licensor of the businesses sold and had minority interests in certain of the entities sold. The Company received a distribution of \$1,864 during the first quarter of 2008, representing its share of the amount that remained in escrow in connection with this sale. The Company recorded this amount as a gain in the first quarter of 2008.

14. NET INCOME PER SHARE

The Company computed its basic and diluted net income per share as follows:

	<u>Thirteen Weeks Ended</u>		<u>Twenty-Six Weeks Ended</u>	
	<u>8/2/09</u>	<u>8/3/08</u>	<u>8/2/09</u>	<u>8/3/08</u>
Net income	<u>\$26,557</u>	<u>\$29,206</u>	<u>\$51,268</u>	<u>\$76,007</u>

Weighted average common shares outstanding for				
basic net income per share	51,605	51,428	51,558	51,383
Weighted average impact of dilutive securities	573	936	472	898
Weighted average impact of dilutive warrant	<u>16</u>	<u>97</u>	<u>8</u>	<u>89</u>
Total shares for diluted net income per share	<u>52,194</u>	<u>52,461</u>	<u>52,038</u>	<u>52,370</u>
Basic net income per share	<u>\$ 0.51</u>	<u>\$ 0.57</u>	<u>\$ 0.99</u>	<u>\$ 1.48</u>
Diluted net income per share	<u>\$ 0.51</u>	<u>\$ 0.56</u>	<u>\$ 0.99</u>	<u>\$ 1.45</u>

Potentially dilutive securities excluded from the calculation of diluted net income per share were as follows:

	<u>Thirteen Weeks Ended</u>		<u>Twenty-Six Weeks Ended</u>	
	<u>8/2/09</u>	<u>8/3/08</u>	<u>8/2/09</u>	<u>8/3/08</u>
Weighted average antidilutive securities	<u>2,302</u>	<u>871</u>	<u>2,564</u>	<u>831</u>

According to FASB Statement No. 128, Earnings per Share, contingently issuable shares that have not met the necessary conditions as of the end of a reporting period should not be included in the calculation of diluted net income per share for that period. The Company had contingently issuable awards outstanding that did not meet the performance conditions as of August 2, 2009 and August 3, 2008 and, therefore, were excluded from the calculation of diluted net income per share for the thirteen and twenty-six weeks ended August 2, 2009 and August 3, 2008. The maximum number of potentially dilutive shares that could be issued upon vesting for such awards was 280 and 171 as of August 2, 2009 and August 3, 2008, respectively. These amounts were also excluded from the computation of weighted average antidilutive securities.

15. NONCASH INVESTING TRANSACTIONS

During the twenty-six weeks ended August 2, 2009 and August 3, 2008, the Company recorded increases to goodwill of \$15,776 and \$17,883, respectively, related to liabilities incurred for contingent purchase price payments to Mr. Calvin Klein. Such amounts are not due or paid in cash until 45 days subsequent to the Company's applicable quarter end. As such, during the twenty-six weeks ended August 2, 2009 and August 3, 2008, the Company paid \$18,591 and \$21,079, respectively, in cash related to contingent purchase price payments to Mr. Calvin Klein that were recorded as additions to goodwill during the periods the liabilities were incurred.

16. SEGMENT DATA

The Company manages its operations through its operating divisions, which are aggregated into five reportable segments: (i) Wholesale Dress Furnishings; (ii) Wholesale Sportswear and Related Products; (iii) Retail Apparel and Related Products; (iv) Retail Footwear and Related Products; and (v) Calvin Klein Licensing.

Wholesale Dress Furnishings Segment - This segment consists of the Company's wholesale dress furnishings division. This segment derives revenue primarily from marketing: (i) dress shirts under the brand names *Van Heusen*, *IZOD*, *Eagle*, *Geoffrey Beene*, *ARROW*, *Kenneth Cole New York*, *Kenneth Cole Reaction*, *Calvin Klein Collection*, *ck Calvin Klein*, *Calvin Klein*, *BCBG Max Azria*, *BCBG Attitude*, *CHAPS*, *Sean John*, *Donald J. Trump Signature Collection*, *JOE Joseph Abboud*, *MICHAEL Michael Kors*, *DKNY* and, beginning in the second quarter of 2009, *Tommy Hilfiger*; and (ii) neckwear under the brand names *ARROW*, *IZOD*, *Calvin Klein*, *DKNY*, *Tommy Hilfiger*, *Nautica*, *Ike Behar*, *Jones New York*, *MICHAEL Michael Kors*, *Michael Kors Collection* and, beginning late in the first quarter of 2008, in connection with the acquisition of certain assets of *Mulberry*, *Kenneth Cole New York*, *Kenneth Cole Reaction*, *J. Garcia*, *Claiborne*, *Sean John*, *BCBG Max Azria*, *BCBG Attitude*, *U.S. POLO ASSN.* and *Axcess*. The Company markets its dress shirt and neckwear brands, as well as various private label brands, primarily to department, mid-tier department and specialty stores.

Wholesale Sportswear and Related Products Segment - The Company aggregates the results of its wholesale sportswear divisions into the Wholesale Sportswear and Related Products segment. This segment derives revenue primarily from marketing men's sportswear under the brand names *Van Heusen*, *IZOD*, *Geoffrey Beene*, *ARROW*, *Calvin Klein* and, beginning in the second quarter of 2008, *Timberland*, and women's sportswear under the brand name *IZOD* to department, mid-tier department and specialty stores.

Retail Apparel and Related Products Segment - The Company aggregates the results of its *Van Heusen*, *Izod* and *Calvin Klein* retail divisions into the Retail Apparel and Related Products segment. This segment derives revenue principally from operating retail stores, primarily in outlet centers, which sell apparel and accessories under the brand names *Van Heusen*, *IZOD* and *Calvin Klein*. In addition, this segment includes the operations of the Company's *Geoffrey Beene* outlet retail division, which the Company closed at the end of 2008. This segment also derives revenue from selling *Calvin Klein Collection* branded high-end collection apparel and accessories through the

Company's own full price *Calvin Klein Collection* retail store located in New York City.

Retail Footwear and Related Products Segment - This segment consists of the Company's Bass retail division. This segment derives revenue principally from operating retail stores, primarily in outlet centers, which sell footwear, apparel, accessories and related products under the brand names *Bass* and *G.H. Bass & Co.*

Calvin Klein Licensing Segment - The Company aggregates the results of its Calvin Klein licensing and advertising divisions into the Calvin Klein Licensing segment. This segment derives revenue from licensing and similar arrangements worldwide relating to the use by third parties of the brand names *Calvin Klein Collection*, *ck Calvin Klein* and *Calvin Klein* for a broad array of products and retail services.

(1)

Includes corporate expenses not allocated to any reportable segments and the results of the Company's Calvin Klein Collection wholesale business, which was acquired in January 2008. Corporate expenses represent overhead operating expenses and include expenses for senior corporate management, corporate finance and information technology related to corporate infrastructure. Additionally, the Company includes all stock-based compensation expenses in corporate expenses. Corporate expenses for the thirteen and twenty-six weeks ended August 2, 2009 include costs associated with the Company's restructuring initiatives. Please see Note 12, Activity Exit Costs and Asset Impairments, for a further discussion.

(2)

Income (loss) before interest and taxes for the thirteen and twenty-six weeks ended August 2, 2009 includes costs associated with the Company's restructuring initiatives. Please see Note 12, Activity Exit Costs and Asset Impairments, for a further discussion.

(3)

Income before interest and taxes for the Retail Apparel and Related Products segment for the thirteen and twenty-six weeks ended August 3, 2008 includes costs of \$8,687 associated with the closing of the Company's Geoffrey Beene outlet retail division.

Intersegment transactions consist of transfers of inventory principally between the Wholesale Dress Furnishings segment and the Retail Apparel and Related Products segment. These transfers are recorded at cost plus a standard markup percentage. Such markup percentage is eliminated in the Retail Apparel and Related Products segment.

17. OTHER COMMENTS

The Company has guaranteed the payment of purchases made by one of the Company's suppliers from a raw material vendor. The maximum amount guaranteed is \$1,200. The guarantee may be terminated at any time upon the Company's request.

The Company has guaranteed the payment of certain purchases made by one of the Company's suppliers from a raw material vendor. The maximum amount guaranteed is \$500. The guarantee expires on January 31, 2010.

The Company has guaranteed to a former landlord the payment of rent and related costs by the tenant currently occupying space previously leased by the Company. The maximum amount guaranteed as of August 2, 2009 is approximately \$3,800, which is subject to exchange rate fluctuation. The Company has the right to seek recourse of

approximately \$2,500 as of August 2, 2009, which is subject to exchange rate fluctuation. The guarantee expires on May 19, 2016.

18. RECENT ACCOUNTING PRONOUNCEMENTS

The FASB issued FASB Staff Position (FSP) No. 107-1, Interim Disclosures about Fair Value of Financial Instruments, in April 2009. FSP No. 107-1 requires disclosures about fair value of financial instruments for interim reporting periods as well as in annual financial statements. The Company adopted FSP No. 107-1 during the second quarter of 2009. This adoption did not have any impact on the Company's consolidated results of operations or financial position. Please see Note 10, Fair Value Measurements, for the required disclosures.

The FASB issued FASB Statement No. 165, Subsequent Events, in May 2009. This statement establishes general standards of accounting for and disclosure of events or transactions that occur following the balance sheet date, but before the financial statements are issued or are available to be issued. The Company adopted FASB Statement No. 165 during the second quarter of 2009. This adoption did not have any impact on the Company's consolidated results of operations or financial position. In accordance with FASB Statement No. 165 the Company evaluated events and transactions that occurred after the balance sheet date through the date at which the Company issued its financial statements, which was September 10, 2009.

Other new pronouncements issued but not effective until after August 2, 2009 are not expected to have a material impact on the Company's consolidated results of operations or financial position.

OVERVIEW

The following discussion and analysis is intended to help you understand us, our operations and our financial performance. It should be read in conjunction with our consolidated financial statements and the accompanying notes, which are included elsewhere in this report.

We are one of the largest apparel companies in the world, with a heritage dating back over 125 years. Our brand portfolio consists of nationally recognized brand names, including *Calvin Klein*, *Van Heusen*, *IZOD*, *ARROW*, *Bass* and *Eagle*, which are owned, and *Geoffrey Beene*, *Kenneth Cole New York*, *Kenneth Cole Reaction*, *BCBG Max Azria*, *BCBG Attitude*, *Sean John*, *JOE Joseph Abboud*, *MICHAEL Michael Kors*, *Michael Kors Collection*, *CHAPS*, *Donald J. Trump Signature Collection*, *DKNY*, *Tommy Hilfiger*, *Nautica*, *Ike Behar*, *J. Garcia*, *Claiborne*, *Jones New York* and *Timberland*, which are licensed.

We faced a very challenging environment during the second half of 2008, which has continued into 2009. The global economic crisis began early in 2008 in the United States, affecting the principal market for our heritage businesses. The crisis deepened and became more widespread, affecting travel and foreign currency exchange rates, as well as consumer confidence and spending. This resulted in further deterioration of our heritage businesses and interrupted the growth trajectory of our Calvin Klein businesses. We announced during the fourth quarter of 2008 a series of actions we are undertaking to respond to these economic conditions, including restructuring certain of our operations and implementing a number of other cost reduction efforts. We began implementing the restructuring initiatives during the fourth quarter of 2008 and we expect to complete substantially all of them by the end of the third quarter of 2009. The restructuring initiatives include the shutdown of domestic production of machine-made neckwear, a realignment of our global sourcing organization and reductions in warehousing capacity, all of which have headcount reductions associated with them, as well as other initiatives to reduce corporate and administrative expenses. In the second quarter of 2008, we announced that we would not renew our license agreements to operate *Geoffrey Beene* outlet retail stores and we executed our plan to close our Geoffrey Beene outlet retail division before the end of 2008. We continue to remain cautious about the pace of the economic recovery. We did, however, see improvement

in business trends both at wholesale and retail during the second quarter of 2009 as compared to the first quarter of 2009 for our moderately-priced national brands, such as *IZOD*, *Van Heusen* and *ARROW*.

Our business strategy is to manage and market a portfolio of nationally recognized brands at multiple price points and across multiple channels of distribution. We believe this strategy reduces our reliance on any one demographic group, merchandise preference or distribution channel. We have enhanced this strategy by expanding our portfolio of brands through acquisitions of well-known brands, such as *Calvin Klein* and *ARROW*, that offer additional distribution channel and price point opportunities in our traditional categories of dress shirts and sportswear. These acquisitions also enhanced our business strategy by providing us with established international licensing businesses which do not require working capital investments. We have successfully pursued growth opportunities in extending these brands through licensing into additional product categories and geographic areas. The Superba and Mulberry acquisitions helped to advance our historical strategy by adding a product category that is complementary to our heritage dress shirt business and leverages our position in dress furnishings. Our business strategy was also extended by our assumption in 2007 of the wholesale *IZOD* women's sportswear collection, which was previously a licensed business. Further, in the second quarter of 2008, we began marketing men's sportswear under the *Timberland* brand in North America under a licensing arrangement with The Timberland Company. *Timberland* is an authentic outdoor traditional brand targeted to the department and specialty store channels of distribution that we believe has a unique positioning that complements our existing portfolio of sportswear brands and enables us to reach a broader spectrum of consumers.

A significant portion of our total income before interest and taxes is derived from international sources, primarily driven by the international component of our Calvin Klein licensing business. We intend to continue to expand our operations globally through direct marketing by us and through partnerships with licensees. We recently expanded our international operations to include sales of certain of our products to department and specialty stores throughout Canada and parts of Europe, including through the BVH acquisition, which provided us with a wholesale distribution component and a limited number of retail stores, principally for *Van Heusen* dress furnishings in the United Kingdom and Ireland. We have also entered into approximately 80 license agreements, covering over 150 countries, with partners outside of the United States for our brands.

OPERATIONS OVERVIEW

We generate net sales from (i) the wholesale distribution of men's dress shirts and neckwear and men's and women's sportswear; and (ii) the sale, through over 650 company-operated retail locations, of apparel, footwear and accessories under the brand names *Van Heusen*, *IZOD*, *Bass* and *Calvin Klein*. In addition, into the fourth quarter of 2008, we operated retail stores under the brand name *Geoffrey Beene*.

Our stores principally operate in outlet centers in the United States. We also operate a full price store located in New York City under the *Calvin Klein Collection* brand, in which we principally sell men's and women's high-end collection apparel and accessories, soft home furnishings and tableware. Additionally, in connection with our acquisition of BVH, we assumed the operation of a limited number of retail stores located in the United Kingdom and Ireland that principally market *Van Heusen* brand dress furnishings.

We announced in the fourth quarter of 2008 a series of actions to respond to the current economic conditions by restructuring certain of our operations and implementing a number of other cost reduction efforts. We recorded pre-tax charges in the fourth quarter of 2008 that totaled approximately \$82 million, of which approximately \$64 million related to non-cash asset impairments, principally associated with our retail stores, and approximately \$18 million related to lease terminations, severance and other costs in connection with these restructuring initiatives. We recorded additional pre-tax charges of \$11.0 million related principally to severance, non-cash asset impairments and other costs during the first half of 2009. We expect to incur additional charges of approximately \$6.0 million related principally to lease terminations pursuant to recent agreements for certain of our *Calvin Klein* specialty retail stores. Although lease termination costs were included in our previously announced initiatives, these costs relate to new agreements that we did not originally expect to be able to conclude. Such costs are expected to be incurred in the third quarter of 2009.

We generate royalty, advertising and other revenue from fees for licensing the use of our trademarks. Calvin Klein royalty, advertising and other revenue, which comprised 92% of total royalty, advertising and other revenue in the first half of 2009, is derived under licenses and other arrangements for a broad array of products, including jeans, underwear, fragrances, eyewear, footwear, dresses, watches and home furnishings.

Gross profit on total revenue is total revenue less cost of goods sold. Included as cost of goods sold are costs associated with the production and procurement of product, including inbound freight costs, purchasing and receiving costs, inspection costs, internal transfer costs and other product procurement related charges. Because there is no cost of goods sold associated with royalty, advertising and other revenue, 100% of such revenue is included in gross profit. As a result, our gross profit may not be comparable to that of other entities.

Selling, general and administrative expenses include all other expenses, excluding interest and income taxes. Salaries and related fringe benefits is the largest component of selling, general and administrative expenses, comprising 49% of such expenses in the first half of 2009. Rent and occupancy for offices, warehouses and retail stores is the next largest expense, comprising 23% of selling, general and administrative expenses in the first half of 2009.

RESULTS OF OPERATIONS

Thirteen Weeks Ended August 2, 2009 Compared With Thirteen Weeks Ended August 3, 2008

Net Sales

Net sales in the second quarter of 2009 decreased 4.8% to \$457.4 million from \$480.3 million in the second quarter of the prior year. The decrease of \$22.9 million was due principally to the net effect of the items described below:

.

The reduction of \$25.9 million of net sales associated with our closing in 2008 of our Geoffrey Beene outlet retail division.

.

The addition of \$1.8 million of net sales attributable to growth in our retail segments associated with our ongoing retail businesses. This was primarily driven by the additional sales attributable to the conversion of a limited number of *Geoffrey Beene* outlet retail stores to the *Calvin Klein* outlet retail format, mostly offset by comparable store sales declines in our retail divisions of 3% on a combined basis.

.

The addition of \$0.9 million of net sales attributable to our Wholesale Dress Furnishings and Sportswear and Related Products segments.

Royalty, Advertising and Other Revenue

Royalty, advertising and other revenue in the second quarter of 2009 decreased 10.9% to \$71.9 million from the prior year's second quarter amount of \$80.7 million. Within the Calvin Klein Licensing segment, global licensee royalty revenue decreased 6% for the second quarter, which includes a \$1.6 million negative impact from a stronger U.S. dollar. On a constant exchange rate basis, Calvin Klein global licensee royalty revenue decreased 3%. The royalty revenue decrease on a constant exchange rate basis was principally due to sales reductions in the fragrance business, which continues to be affected by reductions in travel and discretionary spending resulting from the difficult economic environment, and, to a lesser extent, sales reductions in the jeans business. These reductions were partially offset by strong performance in the footwear, women's apparel and outerwear businesses. Calvin Klein advertising and other revenue decreased \$4.1 million in the second quarter of 2009 compared to the second quarter of 2008 as a result of less discretionary spending in 2009 as compared to 2008 by our licensees. Such advertising and other revenue is generally collected and spent, and is therefore presented as both a revenue and an expense within our income statement, with minimal net impact on earnings.

Gross Profit on Total Revenue

Gross profit on total revenue in the second quarter of 2009 was \$265.8 million, or 50.2% of total revenue, compared with \$288.9 million, or 51.5% of total revenue in the second quarter of the prior year. The 130 basis point decrease was driven by increased promotional selling resulting from the difficult economic environment, combined with a change in revenue mix, as royalty, advertising and other revenue, which does not carry a cost of sales and has a gross profit percentage of 100%, decreased as a percentage of total revenue.

Selling, General and Administrative (SG&A) Expenses

SG&A expenses in the second quarter of 2009 decreased \$20.1 million to \$214.3 million, or 40.5% of total revenue, from \$234.5 million, or 41.8% of total revenue, in the second quarter of the prior year. The 130 basis point decrease includes a decrease of approximately 100 basis points due principally to cost savings resulting from our 2008

restructuring initiatives, combined with reduced advertising expenditures as a result of less discretionary spending by our *Calvin Klein* licensees, partially offset by increases in accruals for incentive compensation costs. The remaining 30 basis point decrease was due to restructuring and exit activities, as fixed asset impairments, severance and other costs incurred in the second quarter of 2008 associated with our closing in 2008 of our Geoffrey Beene outlet retail division exceeded similar costs incurred in the second quarter of 2009 associated with our restructuring initiatives announced in the fourth quarter of 2008.

Interest Expense and Interest Income

The majority of our interest expense relates to our fixed rate long-term debt. As a result, variances in our net interest expense tend to be driven by changes in interest income and, to a lesser extent, costs related to our revolving credit facility.

Interest expense of \$8.4 million in the second quarter of 2009 was flat to the prior year's second quarter amount. Interest income decreased to \$0.4 million in the second quarter of 2009 from \$1.6 million in the second quarter of the prior year due principally to a decrease in average investment rates of return, partially offset by an increase in our average cash position during the second quarter of 2009 as compared to the second quarter of 2008.

Income Taxes

Income taxes for the second quarter of 2009 were provided for at a rate of 38.9% compared with last year's second quarter rate of 38.7%. Our quarterly tax rate tends to vary from our full year rate because discrete items do not occur in all quarters. Income taxes decreased by \$1.5 million to \$16.9 million in the second quarter of 2009 from \$18.5 million in the second quarter of 2008, primarily due to a decrease in pre-tax income during the current year's second quarter compared to the prior year's second quarter.

Twenty-Six Weeks Ended August 2, 2009 Compared With Twenty-Six Weeks Ended August 3, 2008

Net Sales

Net sales in the first half of 2009 decreased 8.8% to \$933.2 million from \$1,023.5 million in the first half of the prior year. The decrease of \$90.3 million was due principally to the net effect of the items described below:

The reduction of \$49.8 million of net sales associated with our closing in 2008 of our Geoffrey Beene outlet retail division.

The reduction of \$35.5 million of net sales attributable to declines in our Wholesale Dress Furnishings and Sportswear and Related Products segments, particularly in the first quarter of 2009, resulting from the economic slowdown and the reduction of department store inventory levels, partially offset by additional sales associated with our new *Timberland* men's sportswear line, which was launched in the second quarter of 2008.

The reduction of \$3.8 million of net sales attributable to declines in our retail segments associated with our ongoing retail businesses. This was primarily driven by comparable store sales declines in our retail divisions of 5% on a combined basis, partially offset by additional sales attributable to the conversion of a limited number of *Geoffrey Beene* outlet retail stores to the *Calvin Klein* outlet retail format.

Given our first half performance and our exit in 2008 from our Geoffrey Beene outlet retail business (which had net sales of \$94.9 million in 2008), we currently estimate our 2009 full year sales to decrease 6% to 7%. We are currently estimating second half sales to decrease approximately 3% to 4%, which includes relatively flat performance compared to the prior year for our continuing businesses, combined with a decrease of approximately \$45 million of sales related to our Geoffrey Beene outlet retail business, which we exited in 2008.

Royalty, Advertising and Other Revenue

Royalty, advertising and other revenue in the first half of 2009 decreased 5.9% to \$153.6 million from the prior year's first half amount of \$163.2 million. Within the Calvin Klein Licensing segment, global licensee royalty revenue decreased 3%, due to a \$5.1 million negative impact of a stronger U.S. dollar, partially offset by growth on a constant exchange rate basis of 2%. The royalty growth on a constant exchange rate basis was principally due to

strong performance in footwear, women's apparel and outerwear, mostly offset by a sales reduction in the fragrance business, which continues to be affected by reductions in travel and discretionary spending resulting from the difficult economic environment. Calvin Klein advertising and other revenue decreased \$3.4 million in the first half of 2009 compared to the first half of 2008 as a result of less discretionary spending in 2009 as compared to 2008 by our licensees.

Given our first half performance, we currently expect that total royalty, advertising and other revenue will decrease 2% to 4% for the full year 2009. This decrease will be driven principally by a reduction in the Calvin Klein licensing segment due to reduced advertising revenue in 2009 as a result of less discretionary spending in 2009 compared to 2008 by our licensees. Within the Calvin Klein Licensing segment, royalty revenue is expected to be flat to down 2%, as anticipated global licensee royalty growth of 1% to 2% on a constant exchange rate basis is expected to be offset by the negative impact of a stronger U.S. dollar which was experienced in the first half of 2009.

Gross Profit on Total Revenue

Gross profit on total revenue in the first half of 2009 was \$537.6 million, or 49.5% of total revenue, compared with \$599.7 million, or 50.5% of total revenue in the first half of the prior year. The 100 basis point decrease was driven by increased promotional selling resulting from the difficult economic environment, partially offset by a change in revenue mix, as royalty, advertising and other revenue, which does not carry a cost of sales and has a gross profit percentage of 100%, increased as a percentage of total revenue.

We currently expect that the gross profit on total revenue percentage will decrease for the full year 2009 compared to 2008, due principally to the increased promotional selling we have experienced in the first half of the year.

Selling, General and Administrative (SG&A) Expenses

SG&A expenses in the first half of 2009 decreased \$27.5 million to \$437.0 million, or 40.2% of total revenue, from \$464.5 million, or 39.1% of total revenue, in the first half of the prior year. The 110 basis point increase includes an increase of approximately 90 basis points due principally to the deleveraging of expenses due to the sales decreases mentioned previously and increases in accruals for incentive compensation costs, partially offset by reduced advertising expenditures as a result of less discretionary spending by our *Calvin Klein* licensees. The remaining decrease of 20 basis points was due to restructuring and exit activities, as fixed asset impairments, severance, lease terminations and other costs incurred in the first half of 2009 associated with our restructuring initiatives announced in the fourth quarter of 2008 exceeded similar costs incurred in the first half of 2008 associated with our closing in 2008 of our Geoffrey Beene outlet retail division.

Our full year 2009 SG&A expenses are currently expected to decrease compared to 2008 principally as a result of a reduction in (i) impairment charges; and (ii) costs associated with our Geoffrey Beene outlet retail division, which we closed during 2008. SG&A expenses for the full year 2009 as a percentage of total revenue is expected to decrease, as the reduction in SG&A expenses is expected to more than offset the impact of the deleveraging of expenses.

Gain on Sale of Investments

We sold, in the first quarter of 2006, minority interests held by one of our subsidiaries in certain entities that operate the licenses and related wholesale and retail businesses of *Calvin Klein* jeans and accessories in Europe and Asia and the *ck Calvin Klein* bridge line of sportswear and accessories in Europe. During the first quarter of 2008, we received a distribution of \$1.9 million representing our share of the amount that remained in escrow in connection with this sale, which we recorded as a gain.

Interest Expense and Interest Income

The majority of our interest expense relates to our fixed rate long-term debt. As a result, variances in our net interest expense tend to be driven by changes in interest income and, to a lesser extent, costs related to our revolving credit facility.

Interest expense of \$16.7 million in the first half of 2009 was relatively flat to the prior year's first half amount of \$16.8 million. Interest income decreased to \$0.9 million in the first half of 2009 from \$3.4 million in the first half of the prior year due principally to a decrease in average investment rates of return, partially offset by an increase in our average cash position during the first half of 2009 as compared to the first half of 2008.

Income Taxes

Income taxes for the first half of 2009 were provided for at a rate of 39.5% compared with last year's first half rate of 38.6%. Our partial year tax rate tends to vary from our full year rate because discrete items do not occur in all quarters. Income taxes decreased by \$14.3 million to \$33.5 million in the first half of 2009 from \$47.7 million in the first half of 2008, primarily due to a decrease in pre-tax income during the current year's first half compared to the prior year's first half.

We currently anticipate that our 2009 tax expense as a percentage of pre-tax income will be between 36.5% and 37.0%, which compares with last year's full year rate of 37.3%. It is possible that our estimated full year rate could change from discrete events arising from specific transactions, audits by tax authorities or the receipt of new information.

LIQUIDITY AND CAPITAL RESOURCES

Generally, our principal source of cash is from operations, and our principal uses of cash are for capital expenditures, contingent purchase price payments and dividends.

Operations

Cash provided by operating activities was \$80.9 million in the first half of 2009, which compares with \$107.4 million in the first half of the prior year. This decrease was primarily due to a decrease of \$24.7 million in net income. The net change in working capital was relatively flat to the prior year amount and consisted of the following:

.

An increase in cash flow resulting from a change in net trade receivables due primarily to the timing and amounts of wholesale sales in the second quarter of 2009 as compared to the second quarter of 2008.

An increase in cash flow resulting from a change in accounts payable, accrued expenses, deferred revenue and other, net due principally to a significant reduction in payments of incentive compensation costs, as the balance of accruals for incentive compensation at the end of 2008 was significantly lower than the balance at the end of 2007. The change in other, net for the first six months of 2009 as compared to the prior year was principally due to the reclassification of certain non-current liabilities to accrued expenses. This had no material impact on cash provided by operating activities for the first half of 2009.

A decrease in cash flow due to the \$38.5 million Warnaco paid us in the first quarter of 2008 in connection with our acquisition of CMI. Please see Note 4, Acquisition of CMI, in the Notes to Consolidated Financial Statements included in Item 1 of this report for a further discussion. We did not receive a corresponding payment in the first half of 2009.

A decrease in cash flow resulting from a change in inventories. Inventory balances are typically higher at the end of the second quarter when compared to year end, resulting in a cash outflow. Although inventory balances decreased 7% from the second quarter of 2008 to the second quarter of 2009, inventory levels at the beginning of 2008 were significantly higher than levels at the beginning of 2009, causing the cash outflow for the first half of 2009 to be more pronounced than that for the first half of 2008.

Capital Expenditures

Our capital expenditures paid in cash in the first half of 2009 were \$12.9 million. We currently expect that capital expenditures for the full year 2009 will be approximately \$40.0 million. This compares to capital expenditures paid in cash for the full year 2008 of \$88.1 million.

Contingent Purchase Price Payments

In connection with our acquisition of Calvin Klein, we are obligated to pay Mr. Calvin Klein contingent purchase price payments based on 1.15% of total worldwide net sales, as defined in the agreement governing the Calvin Klein acquisition, of products bearing any of the *Calvin Klein* brands with respect to sales made during the first 15 years following the closing of the acquisition. A significant portion of the sales on which the payments to Mr. Klein are made are wholesale sales by us and our licensees and other licensing partners to retailers. Such contingent purchase price payments totaled \$18.6 million in the first half of 2009. We currently expect that such payments will decrease slightly for the full year 2009 compared to the prior year amount of \$40.8 million.

In connection with the Superba acquisition, we are obligated to pay Skipper contingent purchase price payments if the earnings of the acquired business exceed certain targets in 2007, 2008 and 2009. Any such contingent purchase price payments would be payable 90 days after the applicable fiscal year end. Such contingent purchase price payments totaled \$14.5 million in the first quarter of 2008 based on the actual calculation of 2007 earnings, as defined in the underlying asset purchase agreement, achieved by the acquired business. The acquired business did not achieve the minimum earnings in 2008 required for a payout in 2009. The maximum payout that Skipper can receive with respect to 2009 earnings is \$30.0 million. We currently anticipate that no payment will be made in 2010 with respect to 2009 earnings.

Acquisition of Block Assets

We acquired in February 2009 from Block Corporation (Block), a former licensee of *Van Heusen* and *IZOD* big and tall sportswear in the United States, inventories and inventory purchase commitments related to the licensed businesses. We paid \$5.7 million during the first quarter of 2009 in connection with the transaction. As part of this transaction, the license agreements between us and Block were terminated. Please see Note 3, Acquisition of Block Assets, in the Notes to Consolidated Financial Statements included in Item 1 of this report for a further discussion.

Acquisition of CMI

We acquired CMI from Warnaco on January 30, 2008. CMI is the licensee of the *Calvin Klein Collection* apparel and accessories businesses under agreements with our Calvin Klein, Inc. subsidiary. Warnaco acquired the shares of CMI in January 2008 and was obligated to operate the Calvin Klein Collection businesses through 2013. In return for us assuming ownership of CMI, Warnaco made a payment of \$38.5 million to us during the first quarter of 2008. As part of this transaction, we paid to Warnaco \$17.1 million during the first quarter of 2008 based on a percentage of Warnaco's estimate of the net working capital of CMI as of the closing date. This amount is subject to adjustment. We adjusted during 2008 the preliminary allocation of the purchase price based on our calculation of the working capital of CMI as of the closing date. Pursuant to the process set forth in the amended acquisition agreement, we submitted our calculation of the closing date working capital to Warnaco and Warnaco has disputed the calculation. We are in discussion with Warnaco to resolve the disputed calculation. Our results for the balance of 2009 could be impacted

depending on the outcome of these discussions. Please see Note 4, Acquisition of CMI, in the Notes to Consolidated Financial Statements included in Item 1 of this report for a further discussion.

Dividends

Our common stock, which as of August 2, 2009 is the only class of stock issued, currently pays annual dividends totaling \$0.15 per share.

We project that cash dividends on our common stock in 2009 will be \$7.8 million to \$7.9 million based on our current dividend rate, the number of shares of our common stock outstanding at August 2, 2009 and our estimates of stock to be issued in 2009 under our stock incentive plans.

Cash Flow Summary

Our net cash flow in the first half of 2009 was \$41.4 million. Cash flow for the full year 2009 will be impacted by various other factors in addition to those noted above in this Liquidity and Capital Resources section. We currently expect to generate approximately \$65.0 million to \$75.0 million of cash flow in 2009 after making cash payments for severance, lease terminations and other costs in connection with our restructuring initiatives. There can be no assurance that this estimate will prove to be accurate. Unforeseen events, including changes in our net income, working capital requirements or other items, including acquisitions and equity transactions, could occur, which could cause our cash flow to vary significantly from this estimate.

Financing Arrangements

Our capital structure as of August 2, 2009 was as follows:

(in millions)

Long-term debt	\$ 399.6
Stockholders' equity	\$1,054.9

We believe our capital structure provides a secure base to support our current operations and our planned growth in the future. There are no maturities of our long-term debt until 2011.

For near-term liquidity, in addition to our cash balance, we have a \$325.0 million secured revolving credit facility with JP Morgan Chase Bank, N.A. as the Administrative Agent and Collateral Agent that expires in July 2012 and provides for revolving credit borrowings, as well as the issuance of letters of credit. We may, at our option, borrow and repay amounts up to a maximum of \$325.0 million for revolving credit borrowings and the issuance of letters of credit with a sublimit of \$50.0 million for standby letters of credit and with no sublimit on trade letters of credit. The total amount of the facility may be increased by us under certain conditions by up to \$100.0 million. Based on our working capital projections, we believe that our borrowing capacity under this facility provides us with adequate liquidity for our peak seasonal needs for the foreseeable future. During the first half of 2009, we had no revolving credit borrowings under the facility, and the maximum amount of letters of credit outstanding was \$132.3 million. As of August 2, 2009, we had \$116.1 million of outstanding letters of credit under this facility. We currently do not expect to have any revolving credit borrowings under the facility during the remainder of 2009.

Current global credit conditions and the overall economic slowdown create greater uncertainty than in the past with regard to financing opportunities and the cost of such financing. Given our capital structure and our projections for future profitability and cash flow, we believe we are well positioned to obtain additional financing, if necessary, for refinancing our long-term debt, or, if opportunities present themselves, future acquisitions. Although we believe we could obtain such financing, due to the current state of credit markets, such financing, if undertaken, would likely be at higher costs and potentially more restrictive terms than our current borrowings. As a result, there can be no assurance that such financing, if needed, could be obtained on terms satisfactory to us or be obtained at such time as a specific need may arise.

SEASONALITY

Our business generally follows a seasonal pattern. Our wholesale businesses tend to generate higher levels of sales and income in the third quarter, due to selling to our customers in advance of the holiday selling season. Royalty, advertising and other revenue tends to be earned somewhat evenly throughout the year, although the third quarter has the highest level of royalty revenue due to higher sales by licensees in advance of the holiday season.

Due to the above factors, our operating results for the thirteen and twenty-six week periods ended August 2, 2009 are not necessarily indicative of those for a full fiscal year.

ITEM 3 - QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Financial instruments held by us include cash equivalents and long-term debt. Interest rates on our long-term debt are fixed. Therefore, a change in rates generally would not have an effect on our interest expense. Note 10, Fair Value Measurements, included in Part I, Item 1 of this report outlines the fair value of our fixed rate long-term debt as of August 2, 2009. Note 9, Long-Term Debt, in the Notes to Consolidated Financial Statements included in Item 8 of our Annual Report on Form 10-K for the year ended February 1, 2009 outlines the principal amounts, interest rates and other terms required to evaluate the expected sensitivity of interest rate changes on the fair value of our fixed rate long-term debt. Cash and cash equivalents held by us are affected by short-term interest rates. Therefore, a change in short-term interest rates would have an impact on our interest income. Given our balance of cash and cash equivalents as of August 2, 2009, the effect of a 25 basis point change in short-term interest rates on our interest income would be approximately \$0.9 million annually.

Principally all of our revenue and expenses are currently denominated in United States dollars. However, certain of our operations and license agreements expose us to fluctuations in foreign currency exchange rates, primarily the rate of exchange of the United States dollar against the Euro, the Pound, the Yen and the Canadian dollar. Our principal exposure to changes in exchange rates for the United States dollar results from our licensing businesses. Many of our

license agreements require the licensee to report sales to us in the licensee's local currency, but to pay us in United States dollars based on the exchange rate as of the last day of the contractual selling period. Thus, while we are not exposed to exchange rate gains and losses between the end of the selling period and the date we collect payment, we are exposed to exchange rate changes during and up to the last day of the selling period. Therefore, during times of a strengthening United States dollar, our foreign royalty revenue will be negatively impacted, and during times of a weakening United States dollar, our foreign royalty revenue will be favorably impacted. Not all foreign license agreements expose us to foreign exchange risk. Many of our foreign license agreements specify that contractual minimums be paid in United States dollars. Thus, for these foreign license agreements where the licensee's sales do not exceed contractual minimums, the licensee assumes the risk of changes in exchange rates and we do not.

A secondary exposure to changes in exchange rates for the United States dollar results from our foreign operations. Our foreign operations include sales of our products to department and specialty stores throughout Canada and parts of Europe. Sales for these foreign operations are both generated and collected in foreign currency, which exposes us to foreign exchange gains and losses between the date of the sale and the date we collect payment. Therefore, as with our licensing businesses, the results of these operations will be negatively impacted during times of a strengthening United States dollar and favorably impacted during times of a weakening United States dollar.

Somewhat mitigating our exposure to changes in the exchange rate for the Euro is our Calvin Klein administrative office in Milan, Italy. Our acquisition of CMI has further mitigated our exposure to changes in the exchange rate for the Euro, as the acquired business has certain operations in Italy. Therefore, during times of a strengthening United States dollar against the Euro, the expenses associated with these business operations will be favorably impacted, and during times of a weakening United States dollar against the Euro, the expenses associated with these business operations will be negatively impacted.

ITEM 4 - CONTROLS AND PROCEDURES

As of the end of the period covered by this report, we carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective as of the end of the period covered by this report. Disclosure controls and procedures are controls and procedures that are designed to ensure that information required to be disclosed in our reports filed or submitted under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

There have been no changes in our internal control over financial reporting during the period to which this report relates that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
