CEDAR FAIR, L.P.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIODS ENDED SEPTEMBER 27, 2015 AND SEPTEMBER 28, 2014

The accompanying unaudited condensed consolidated financial statements have been prepared from the financial records of Cedar Fair, L.P. (the Partnership) without audit and reflect all adjustments (consisting of normal recurring adjustments) which are, in the opinion of management, necessary to fairly present the results of the interim periods covered in this report. Due to the seasonal nature of the Partnership's amusement and water park operations, the results for any interim period may not be indicative of the results expected for the full fiscal year.

(1) Significant Accounting and Reporting Policies:

The Partnership's unaudited condensed consolidated financial statements for the periods ended September 27, 2015 and September 28, 2014 included in this Form 10-Q report have been prepared in accordance with the accounting policies described in the Notes to Consolidated Financial Statements for the year ended December 31, 2014, which were included in the Form 10-K filed on February 26, 2015. Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted pursuant to the rules and regulations of the Securities and Exchange Commission (the Commission). These financial statements should be read in conjunction with the financial statements and the notes thereto included in the Form 10-K referred to above.

New Accounting Pronouncements

In May 2014, the FASB issued Accounting Standards Update No. 2014-09, Revenue from Contracts with Customers ("ASU 2014-09"). The amendments in ASU 2014-09 provide for a single, principles-based model for revenue recognition that replaces the existing revenue recognition guidance. ASU 2014-09 is effective for annual and interim periods beginning on or after December 15, 2017 and will replace most existing revenue recognition guidance under U.S. GAAP when it becomes effective. It permits the use of either a retrospective or cumulative effect transition method and early adoption is not permitted. The Partnership has not yet selected a transition method and is in the process of evaluating the effect this standard will have on the consolidated financial statements and related disclosures.

In April 2015, the FASB issued Accounting Standards Update No. 2015-03, Simplifying the Presentation of Debt Issuance Costs ("ASU 2015-03"). The amendments in ASU 2015-03 require that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct reduction from the carrying value of the corresponding debt liability, consistent with debt discounts. This ASU requires retrospective adoption and will be effective for annual and interim periods beginning on or after December 15, 2015 with early adoption permitted. We do not expect adoption of ASU 2015-03 to have an impact on our unaudited condensed consolidated statements of operations or unaudited condensed consolidated statements of cash flows. The impact of the adoption of this guidance will result in the reclassification of the unamortized debt issuance costs on the unaudited condensed consolidated balance sheets, which were \$20.9 million, \$24.6 million, and \$25.9 million at September 27, 2015, December 31, 2014, and September 28, 2014, respectively.

(2) Interim Reporting:

The Partnership owns and operates eleven amusement parks, three separately gated outdoor water parks, one indoor water park and five hotels. Virtually all of the Partnership's revenues from its seasonal amusement parks, as well as its outdoor water parks and other seasonal resort facilities, are realized during a 130- to 140-day operating period beginning in early May, with the major portion concentrated in the third quarter during the peak vacation months of July and August. Knott's Berry Farm is open daily on a year-round basis. Castaway Bay is generally open daily from Memorial Day to Labor Day, plus a limited daily schedule for the balance of the year.

To assure that these highly seasonal operations will not result in misleading comparisons of current and subsequent interim periods, the Partnership has adopted the following accounting and reporting procedures for its seasonal parks: (a) revenues on multi-use tickets are recognized over the estimated number of visits expected for each type of ticket and are adjusted periodically during the operating season prior to the ticket expiration, which occurs no later than the close of the operating season or December 31 each year, (b) depreciation, advertising and certain seasonal operating costs are expensed during each park's operating season, including certain costs incurred prior to the season which are amortized over the season, and (c) all other costs are expensed as incurred or ratably over the entire year.

Table of Contents

(3) Long-Lived Assets:

Long-lived assets are reviewed for impairment upon the occurrence of events or changes in circumstances that would indicate that the carrying value of the assets may not be recoverable. In order to determine if an asset has been impaired, assets are grouped and tested at the lowest level for which identifiable, independent cash flows are available. A significant amount of judgment is involved in determining if an indicator of impairment has occurred. Such indicators may include, among others: a significant decline in expected future cash flows; a sustained, significant decline in equity price and market capitalization; a significant adverse change in legal factors or in the business climate; unanticipated competition; and slower growth rates. Any adverse change in these factors could have a significant impact on the recoverability of these assets and could have a material impact on our consolidated financial statements.

The long-lived operating asset impairment test involves a two-step process. The first step is a comparison of each asset group's carrying value to its estimated undiscounted future cash flows expected to result from the use of the assets, including disposition. Projected future cash flows reflect management's best estimates of economic and market conditions over the projected period, including growth rates in revenues and costs, estimates of future expected changes in operating margins and cash expenditures. Other significant estimates and assumptions include terminal value growth rates and future estimates of capital expenditures. If the carrying value of the asset group is higher than its undiscounted future cash flows, there is an indication that impairment exists and the second step must be performed to measure the amount of impairment loss. The amount of impairment is determined by comparing the implied fair value of the asset group to its carrying value in a manner consistent with the highest and best use of those assets.

The Partnership estimates fair value of operating assets using an income, market, and/or cost approach. The income approach uses an asset group's projection of estimated operating results and cash flows that is discounted using a weighted-average cost of capital reflective of current market conditions. The market approach uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities. The cost approach is based on the amount currently required to replace the service capacity of an asset adjusted for obsolescence. If the implied fair value of the assets is less than their carrying value, an impairment charge is recorded for the difference.

Non-operating assets are evaluated for impairment based on changes in market conditions. When changes in market conditions are observed, impairment is estimated using a market-based approach. If the estimated fair value of the non-operating assets is less than their carrying value, an impairment charge is recorded for the difference.

(4) Goodwill and Other Intangible Assets:

In accordance with the applicable accounting rules, goodwill is not amortized, but, along with indefinite-lived trade-names, is evaluated for impairment on an annual basis or more frequently if indicators of impairment exist. As of September 27, 2015, there were no indicators of impairment. The Partnership tested goodwill and other indefinite-lived intangibles for impairment on December 31, 2014 and no impairment was indicated.

A summary of changes in the Partnership's carrying value of goodwill for the nine months ended September 27, 2015 and September 28, 2014 is as follows:

(In thousands)	Goodwill (gross)	Accumulated Impairment Losses	Goodwill (net)

License / franchise agreements	899	413	486
Total other intangible assets	\$39,179	\$413	\$38,766

Amortization expense of other intangible assets is expected to be immaterial going forward.

(5) Long-Term Debt:

In June of 2014, the Partnership issued \$450 million of 5.375% senior unsecured notes ("June 2014 notes"), maturing in 2024, in a private placement. The net proceeds from the offering of the June 2014 notes were used to redeem in full all of the Partnership's \$405 million of 9.125% July 2010 senior unsecured notes that were scheduled to mature in 2018 (and which included \$5.6 million of Original Issue Discount ("OID") to yield 9.375%), to satisfy and discharge the indenture governing the notes that were redeemed and for general corporate purposes.

The Partnership's June 2014 notes pay interest semi-annually in June and December, with the principal due in full on June 1, 2024. The notes may be redeemed, in whole or in part, at any time prior to June 1, 2019 at a price equal to 100% of the principal amount of the notes redeemed plus a "make-whole" premium together with accrued and unpaid interest, if any, to the redemption date. Thereafter, the notes may be redeemed, in whole or in part, at various prices depending on the date redeemed. Prior to June 1, 2017, up to 35% of the notes may be redeemed with the net cash proceeds of certain equity offerings at a price equal to 105.375% together with accrued and unpaid interest.

In March 2013, the Partnership issued \$500 million of 5.25% senior unsecured notes ("March 2013 notes"), maturing in 2021, in a private placement. Concurrently with this offering, the Partnership entered into a new \$885 million credit agreement (the "2013 Credit Agreement"), which included a \$630 million senior secured term loan facility and a \$255 million senior secured revolving credit facility. The terms of the senior secured term loan facility include a maturity date of March 6, 2020 and bear interest at a rate of LIBOR ("London InterBank Offering Rate") plus 250 bps with a LIBOR floor of 75 bps. The term loan amortizes at \$6.3 million annually and allows interest to be paid on a 30-, 60-, or 90-day basis. The Partnership is currently paying interest on a 30-day basis. The net proceeds from the notes and borrowings under the 2013 Credit Agreement were used to repay in full all amounts outstanding under the previous credit facilities. The facilities provided under the 2013 Credit Agreement are collateralized by substantially all of the assets of the Partnership.

Terms of the 2013 Credit Agreement include a revolving credit facility of a combined \$255 million. Under the 2013 Credit Agreement, the Canadian portion of the revolving credit facility has a sub-limit of \$15 million. U.S. denominated and Canadian denominated loans made under the revolving credit facility bear interest at a rate of LIBOR plus 225 bps (with no LIBOR floor). The revolving credit facility is scheduled to mature in March 2018 and also provides for the issuance of documentary and standby

Table of Contents

letters of credit. The 2013 Credit Agreement requires the Partnership to pay a commitment fee of 38 bps per annum on the unused portion of the credit facilities.

The 2013 Credit Agreement requires the Partnership to maintain specified financial ratios, which if breached for any reason, including a decline in operating results, could result in an event of default under the agreement. The most restrictive of these ratios is the Consolidated Leverage Ratio. At the end of the third quarter of 2015, this ratio was set at 5.75x consolidated total debt (excluding the revolving debt)-to-consolidated EBITDA. The ratio decreased by 0.25x at the beginning of the second quarter and will decrease each second quarter until it reaches 5.25x. As of September 27, 2015, we were in compliance with this ratio and all other covenants under the 2013 Credit Agreement.

The Partnership is allowed to make Restricted Payments, as defined in the 2013 Credit Agreement, of up to \$60 million annually, so long as no default or event of default has occurred and is continuing and so long as the Partnership would be in compliance with certain financial ratios after giving effect to the payments. Additional Restricted Payments are allowed to be made based on an Excess-Cash-Flow formula, should the Partnership's pro-forma Consolidated Leverage Ratio be less than or equal to 5.00x. Pursuant to the terms of the indentures governing the Partnership's June 2014 and March 2013 notes, the Partnership can make Restricted Payments of \$60 million annually so long as no default or event of default has occurred and is continuing, and our ability to make additional Restricted Payments in 2015 and beyond is permitted should the Partnership's pro forma Total-Indebtedness-to-Consolidated-Cash-Flow Ratio be less than or equal to 5.00x.

The Partnership's March 2013 notes pay interest semi-annually in March and September, with the principal due in full on March 15, 2021. The notes may be redeemed, in whole or in part, at any time prior to March 15, 2016 at a price equal to 100% of the principal amount of the notes redeemed plus a "make-whole" premium together with accrued and unpaid interest, if any, to the redemption date. Thereafter, the notes may be redeemed, in whole or in part, at various prices depending on the date redeemed. Prior to March 15, 2016, up to 35% of the notes may be redeemed with the net cash proceeds of certain equity offerings at a price equal to 105.25% together with accrued and unpaid interest.

As market conditions warrant, the Partnership may from time to time repurchase debt securities issued by the Partnership, in privately negotiated or open market transactions, by tender offer, exchange offer or otherwise.

(6) Derivative Financial Instruments:

Derivative financial instruments are used within the Partnership's overall risk management program to manage certain interest rate and foreign currency risks. By utilizing a derivative instrument to hedge our exposure to LIBOR rate changes, the Partnership is exposed to credit risk. Credit risk is the failure of the counterparty to perform under the terms of the derivative contract. To mitigate this risk, hedging instruments are placed with a counterparty that the Partnership believes poses minimal credit risk.

The Partnership does not use derivative financial instruments for trading purposes.

We have entered into several interest rate swaps that fix all of our variable rate term-debt payments. As of September 27, 2015, we have \$800 million of variable-rate debt to fixed rates swaps that mature in December 2015 and fix LIBOR at a weighted average rate of 2.38%. These swaps have been de-designated as cash flow hedges. During the third quarter and fourth quarter of 2013, we entered into four forward-starting interest rate swap agreements that will effectively convert \$500 million of variable-rate debt to fixed rates beginning in December of 2015. These swaps, which were designated as cash flow hedges, mature on December 31, 2018 and fix LIBOR at a weighted average rate of 2.94%.

Table of Contents

Fair Value of Derivative Instruments and the Classification in Condensed Consolidated Balance Sheet:

(In thousands)	Condensed Consolidated Balance Sheet Location	Fair Value as of September 27, 2015	Fair Value as of December 31, 2014	Fair Value as of September 28, 2014

Net derivative liability		\$(27,812)	\$(26,440)	\$(25,802)

Derivatives Designated as Hedging Instruments

Changes in fair value of highly effective hedges are recorded as a component of accumulated other comprehensive loss in the unaudited condensed consolidated balance sheets. Any ineffectiveness is recognized immediately in income. Amounts recorded as a component of accumulated other comprehensive loss are reclassified into earnings in the same period the forecasted transactions affect earnings. As of September 27, 2015 we have no amounts that are forecasted to be reclassified into earnings in the next twelve months.

Derivatives Not Designated as Hedging Instruments

Certain interest rate swap contracts were deemed ineffective in prior years and no longer qualified for hedge accounting. As a result of discontinued hedge accounting, the instruments are prospectively adjusted to fair value each reporting period through "Net effect of swaps" on the unaudited condensed consolidated statements of operations and comprehensive income. The amounts that were previously recorded as a component of accumulated other comprehensive loss prior to the de-designation are reclassified to earnings and a corresponding realized gain or loss will be recognized when the forecasted cash flow occurs. As of September 27, 2015, approximately \$0.2 million of gains remain in accumulated comprehensive loss related to the effective cash flow hedge contracts prior to de-designation and all of which will be reclassified to earnings within the next twelve months.

The following table presents our derivative portfolio along with their notional amounts and their fixed interest rates as of September 27, 2015.

Interest Rate Swaps

Table of Contents

Effects of Derivative Instruments on Income (Loss) and Other Comprehensive Income (Loss) for the three-month periods ended September 27, 2015 and September 28, 2014:

(In thousands)	Amount of Gain (Loss) Recognized in Accumulated OCI on Derivatives (Effective Portion)	
	Three months ended 9/27/2015	Three months ended 9/28/2014
Derivatives designated as Cash Flow Hedging Relationships		
Interest rate swaps	\$(5,237) \$1,235

(In thousands)	Amount and Location of Gain (Loss) Recognized in Income on Derivative	
	Three months ended 9/27/2015	Three months ended 9/28/2014
Derivatives not designated as Cash Flow Hedging Relationships		
Interest rate swaps	Net effect of swaps \$3,125	\$3,073

During the quarter ended September 27, 2015, the Partnership recognized \$3.1 million in income for the gain on the derivatives not designated as cash flow hedges and \$1.7 million of expense representing the regular amortization of amounts in AOCI. The effect of these amounts resulted in a benefit to earnings of \$1.4 million recorded in "Net effect of swaps."

During the quarter ended September 28, 2014, the Partnership recognized \$3.1 million in income for the gain on the derivatives not designated as cash flow hedges and \$2.0 million of expense representing the amortization of amounts in AOCI. The effect of these amounts resulted in a benefit to earnings of \$1.1 million recorded in "Net effect of swaps."

Effects of Derivative Instruments on Income (Loss) and Other Comprehensive Income (Loss) for the nine-month periods ended September 27, 2015 and September 28, 2014:

(In thousands)	Amount of Gain (Loss) Recognized in Accumulated OCI on Derivatives (Effective Portion)	
	Nine months ended 9/27/2015	Nine months ended 9/28/2014
Derivatives designated as Cash Flow Hedging Relationships		
Interest rate swaps	\$(9,393) \$(6,129)

(In thousands)	Amount and Location of Gain (Loss) Recognized in Income on Derivative	
	Nine months ended	Nine months ended
Derivatives not designated as Cash Flow Hedging Relationships		

	9/27/2015	9/28/2014
Interest rate swaps	Net effect of swaps \$8,021	\$6,991

During the nine-month period ended September 27, 2015, the Partnership recognized \$8.0 million in income for the gain on the derivatives not designated as cash flow hedges and \$5.1 million of expense representing the regular amortization of amounts in AOCI. The effect of these amounts resulted in a benefit to earnings of \$3.0 million recorded in “Net effect of swaps.”

During the nine-month period ended September 28, 2014, the Partnership recognized \$7.0 million in income for the gain on the derivatives not designated as cash flow hedges and \$6.0 million of expense representing the amortization of amounts in AOCI. The effect of these amounts resulted in a benefit to earnings of \$1.0 million recorded in “Net effect of swaps.”

Table of Contents

(7) Fair Value Measurements:

The FASB Accounting Standards Codification (ASC) relating to fair value measurements emphasizes that fair value is a market-based measurement that should be determined based on assumptions (inputs) that market participants would use in pricing an asset or liability. Inputs may be observable or unobservable, and valuation techniques used to measure fair value should maximize the use of relevant observable inputs and minimize the use of unobservable inputs. Accordingly, the FASB's ASC establishes a hierarchical disclosure framework that ranks the quality and reliability of information used to determine fair values. The hierarchy is associated with the level of pricing observability utilized in measuring fair value and defines three levels of inputs to the fair value measurement process. Quoted prices are the most reliable valuation inputs, whereas model values that include inputs based on unobservable data are the least reliable. Each fair value measurement must be assigned to a level corresponding to the lowest level input that is significant to the fair value measurement in its entirety.

The three broad levels of inputs defined by the fair value hierarchy are as follows:

Level 1 – inputs to the valuation methodology are quoted prices (unadjusted) for identical assets or liabilities in active markets.

Level 2 – inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3 – inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. The table below presents the balances of assets and liabilities measured at fair value as of September 27, 2015, December 31, 2014, and September 28, 2014 on a recurring basis as well as the fair values of other financial instruments:

(In thousands)	Condensed Consolidated Balance Sheet Location	Fair Value Hierarchy Level	September 27, 2015		December 31, 2014		September 28, 2014	
			Carrying Value	Fair Value	Carrying Value	Fair Value	Carrying Value	Fair Value
Financial assets (liabilities) measured on a recurring basis:								
Interest rate swap agreements not designated as cash flow hedges	Current derivative liability	Level 2	(3,770)	(3,770)	(11,791)	(11,791)	—	—
Interest rate swap agreements not designated as cash flow hedges	Derivative Liability	Level 2	—	—	—	—	(15,758)	(15,758)
Interest rate swap agreements designated as cash flow hedges	Derivative Liability	Level 2	(24,042)	(24,042)	(14,649)	(14,649)	(10,044)	(10,044)
Other financial assets (liabilities):								
Term debt	Long-Term Debt	Level 2	(608,850)	(609,611)	(608,850)	(605,806)	(614,250)	(609,609)
March 2013 notes	Long-Term Debt	Level 1	(500,000)	(507,500)	(500,000)	(501,250)	(500,000)	(487,500)
June 2014 notes	Long-Term Debt	(1)	(450,000)	(454,500)	(450,000)	(451,125)	(450,000)	(432,000)

(1) The June 2014 notes were based on Level 1 inputs as of September 27, 2015 and Level 2 inputs as of both December 31, 2014 and September 28, 2014.

Fair values of the interest rate swap agreements are determined using significant inputs, including the LIBOR forward curves, which are considered Level 2 observable market inputs. In addition, the Partnership considered the effect of its credit and non-performance risk on the fair values provided, and recognized an adjustment decreasing the net derivative liability by approximately \$0.8 million as of September 27, 2015, \$0.8 million as of December 31, 2014, and \$0.6 million as of September 28, 2014.

The carrying value of cash and cash equivalents, revolver, accounts receivable, current portion of term debt, accounts payable, and accrued liabilities approximates fair value because of the short maturity of these instruments. There were no assets measured at fair value on a non-recurring basis at September 27, 2015, December 31, 2014, or September 28, 2014.

Table of Contents

(8) Earnings per Unit:

Net income per limited partner unit is calculated based on the following unit amounts:

	Three months ended		Nine months ended	
	9/27/2015	9/28/2014	9/27/2015	9/28/2014
	(In thousands except per unit amounts)			
Basic weighted average units outstanding	55,770	55,439	55,721	55,448
Effect of dilutive units:				
Deferred units	21	—	15	—
Performance Units	—	—	9	—
Restricted units	365	123	271	186
Unit options	126	213	102	131
Phantom units	—	80	23	90
Diluted weighted average units outstanding	56,282	55,855	56,141	55,855
Net income per unit - basic	\$2.94	\$2.92	\$2.47	\$2.21
Net income per unit - diluted	\$2.92	\$2.90	\$2.46	\$2.19

The effect of out-of-the-money and/or antidilutive unit options on the three and nine months ended September 27, 2015 and September 28, 2014, respectively, had they not been out of the money or antidilutive, would have been immaterial in all periods presented.

(9) Income and Partnership Taxes:

Under the applicable accounting rules, income taxes are recognized for the amount of taxes payable by the Partnership's corporate subsidiaries for the current year and for the impact of deferred tax assets and liabilities, which represent future tax consequences of events that have been recognized differently in the financial statements than for tax purposes. The income tax provision (benefit) for interim periods is determined by applying an estimated annual effective tax rate to the quarterly income (loss) of the Partnership's corporate subsidiaries. In addition to income taxes on its corporate subsidiaries, the Partnership is subject to a publicly traded partnership tax (PTP tax) on partnership-level gross income (net revenues less cost of food, merchandise and games). As such, the Partnership's total provision (benefit) for taxes includes amounts for both the PTP tax and for income taxes on its corporate subsidiaries.

As of the third quarter of 2015, the Partnership has recorded \$1.1 million of unrecognized tax benefits including interest and/or penalties related to state and local tax filing positions. The Partnership recognizes interest and/or penalties related to unrecognized tax benefits in the income tax provision. The Partnership does not anticipate that the balance of the unrecognized tax benefit will change significantly over the next 12 months.

(10) Contingencies:

The Partnership is a party to a number of lawsuits arising in the normal course of business. In the opinion of management, none of these matters, beyond what has been disclosed within this document, are expected to have a material effect in the aggregate on the Partnership's financial statements.

(12) Consolidating Financial Information of Guarantors and Issuers:

Cedar Fair, L.P., Canada's Wonderland Company ("Cedar Canada"), and Magnum Management Corporation ("Magnum") are the co-issuers of the Partnership's June 2014 and March 2013 notes (see Note 5). The notes have been fully and unconditionally guaranteed, on a joint and several basis, by each 100% owned subsidiary of Cedar Fair (other than Cedar Canada and Magnum) that guarantees the Partnership's senior secured credit facilities. There are no non-guarantor subsidiaries.

The following consolidating schedules present condensed financial information for Cedar Fair, L.P., Cedar Canada, and Magnum, the co-issuers, and each 100% owned subsidiary of Cedar Fair (other than Cedar Canada and Magnum), the guarantors (on a combined basis), as of September 27, 2015, December 31, 2014, and September 28, 2014 and for the three- and nine-month periods ended September 27, 2015 and September 28, 2014. In lieu of providing separate unaudited financial statements for the guarantor subsidiaries, the Partnership has included the accompanying condensed consolidating financial statements.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Business Overview:

We generate our revenues primarily from sales of (1) admission to our parks, (2) food, merchandise and games inside our parks, and (3) hotel rooms, food and other attractions both inside and outside our parks. Our principal costs and expenses, which include salaries and wages, advertising, maintenance, operating supplies, utilities and insurance, are relatively fixed and do not vary significantly with attendance.

Each of our properties is overseen by a park general manager and operates autonomously. Management reviews operating results, evaluates performance and makes operating decisions, including allocating resources on a property-by-property basis.

Along with attendance and guest per capita statistics, discrete financial information and operating results are prepared at the individual park level for use by the CEO, who is the Chief Operating Decision Maker (CODM), as well as by the Chief Financial Officer, the Chief Operating Officer, the Executive Vice President - Operations, and the park general managers.

Critical Accounting Policies:

Management's discussion and analysis of financial condition and results of operations is based upon our unaudited condensed consolidated financial statements, which were prepared in accordance with accounting principles generally accepted in the United States of America. These principles require us to make judgments, estimates and assumptions during the normal course of business that affect the amounts reported in the unaudited condensed consolidated financial statements. Actual results could differ significantly from those estimates under different assumptions and conditions.

Management believes that judgment and estimates related to the following critical accounting policies could materially affect our consolidated financial statements:

- Impairment of Long-Lived Assets
- Goodwill and Other Intangible Assets
- Self-Insurance Reserves
- Derivative Financial Instruments
- Revenue Recognition

Income Taxes

In the third quarter of 2015, there were no changes in the above critical accounting policies previously disclosed in our Annual Report on Form 10-K for the year ended December 31, 2014.

Table of Contents

Adjusted EBITDA:

We believe that Adjusted EBITDA (earnings before interest, taxes, depreciation, amortization, other non-cash items, and adjustments as defined in the 2013 Credit Agreement) is a meaningful measure of park-level operating profitability because we use it for measuring returns on capital investments, evaluating potential acquisitions, determining awards under incentive compensation plans, and calculating compliance with certain loan covenants. Adjusted EBITDA is provided in the discussion of results of operations that follows as a supplemental measure of our operating results and is not intended to be a substitute for operating income, net income or cash flows from operating activities as defined under generally accepted accounting principles. In addition, Adjusted EBITDA may not be comparable to similarly titled measures of other companies.

The table below sets forth a reconciliation of Adjusted EBITDA to net income for the three- and nine-month periods ended September 27, 2015 and September 28, 2014.

	Three months ended		Nine months ended	
	9/27/2015 (13 weeks)	9/28/2014 (13 weeks)	9/27/2015 (39 weeks)	9/28/2014 (39 weeks)
	(In thousands)			
Net income	\$164,151	\$161,902	\$137,901	\$122,264
Interest expense	22,159	21,462	64,164	74,101
Interest income	(4) (16) (49) (95
Provision for taxes	58,934	49,403	37,834	26,340
Depreciation and amortization	59,059	58,244	110,175	109,525
EBITDA	304,299	290,995	350,025	332,135
Loss on early extinguishment of debt	—	(246) —	29,027
Net effect of swaps	(1,439) (1,087) (2,962) (1,031
Unrealized foreign currency loss	33,889	21,503	64,143	22,523
Non-cash equity expense	1,934	1,592	7,195	8,369
Loss on impairment / retirement of fixed assets, net	5,753	1,475	9,436	2,687
Gain on sale of other assets	—	—	—	(921
Class action settlement costs	—	—	177	—
Other non-recurring items (as defined) ⁽¹⁾	1,205	1,377	1,404	1,935
Adjusted EBITDA	\$345,641	\$315,609	\$429,418	\$394,724

(1) The Company's 2013 Credit Agreement references certain costs as non-recurring or unusual. These items are excluded in the calculation of Adjusted EBITDA and have included certain litigation expenses, costs associated with certain ride abandonment or relocation expenses, contract termination costs, and severance expenses.

Table of Contents

Results of Operations:

Nine months ended September 27, 2015

The fiscal nine-month period ended September 27, 2015, consisted of a 39-week period and included a total of 1,876 operating days compared with 39 weeks and 1,812 operating days for the fiscal nine-month period ended September 28, 2014. The increase in operating days was primarily due to the Labor Day holiday falling one week later this year which allowed many of our parks to extend their summer operations.

The following table presents key financial information for the nine months ended September 27, 2015 and September 28, 2014:

	Nine months ended 9/27/2015 (39 weeks)	Nine months ended 9/28/2014 (39 weeks)	Increase (Decrease)		
			\$	%	
(Amounts in thousands)					
Net revenues	\$1,068,862	\$998,798	\$70,064	7.0	%
Operating costs and expenses	648,165	614,304	33,861	5.5	%
Depreciation and amortization	110,175	109,525	650	0.6	%
Loss on impairment / retirement of fixed assets, net	9,436	2,687	6,749	N/M	
Gain on sale of other assets	—	(921)	921	N/M	
Operating income	\$301,086	\$273,203	\$27,883	10.2	%
N/M - Not meaningful					
Other Data:					
Adjusted EBITDA	\$429,418	\$394,724	34,694	8.8	%
Adjusted EBITDA margin ⁽¹⁾	40.2	% 39.5	% —	0.7	%
Attendance	21,189	20,272	917	4.5	%
Per capita spending	\$46.30	\$45.41	\$0.89	2.0	%
Out-of-park revenues	\$115,124	\$103,820	\$11,304	10.9	%

(1) Adjusted EBITDA margin (Adjusted EBITDA divided by net revenues) is not a measurement computed in accordance with generally accepted accounting principles ("GAAP") or a substitute for measures computed in accordance with GAAP and may not be comparable to similarly titled measures of other companies. The Partnership provides Adjusted EBITDA margin because it believes the measure provides a meaningful metric of operating profitability.

For the nine months ended September 27, 2015, net revenues increased by \$70.1 million, to \$1,068.9 million, from \$998.8 million for the same period in 2014. This reflects an increase in attendance and average in-park guest per capita spending and an increase in out-of park revenues compared to the same period in the prior year. Attendance for the first nine months of the year was positively impacted by strong season pass and advance sale visitation which driven by our strong capital program. The 2.0%, or \$0.89, increase in per capita spending was mainly attributable to the continued growth in admissions pricing and our food and beverage programs. The 10.9%, or \$11.3 million, increase in out-of-park revenues was due primarily to improved results at our resort properties, in particular at Hotel Breakers at Cedar Point. The increase in net revenues is net of the unfavorable impact of foreign currency exchange rates of \$18.5 million compared to the same period for 2014.

Operating costs and expenses for the first nine months increased 5.5%, or \$33.9 million, to \$648.2 million from \$614.3 million for the first nine months of 2014. The increase is the result of a \$8.0 million increase in cost of goods sold, a \$17.8 million increase in operating expenses, and a \$8.1 million increase in selling, general, and administrative expenses ("SG&A"). The \$8.0 million increase in cost of goods sold was largely related to increases in attendance

levels. Cost of goods sold as a percentage of revenues was comparable for both periods. The \$17.8 million increase in operating expenses was due to several items. First, the nine-month period ended September 27, 2015 included an increase in labor costs due to normal merit increases, market / minimum-wage rate increases, and additional operating hours. Second, maintenance expense increased primarily due to increases in ride maintenance and infrastructure improvements, in particular at Cedar Point. Third, operating supplies increased primarily due to increased operating hours year-over-year. Lastly, self insurance costs increased due to increases in estimated reserves based on increased attendance volume and wage levels. The \$8.1 million increase in SG&A was primarily due to two items. First, the nine-month period ended September 27, 2015 included an increase in labor costs due to normal merit increases and incentive compensation. Second, operating supplies increased due primarily to costs associated with special event promotional activities, continued expenditures related to the support of our improved technology and security initiatives, and merchant fees. The increase

Table of Contents

in operating costs and expenses is net of the favorable impact of foreign currency exchange rates of \$8.7 million compared to the same period for 2014.

Depreciation and amortization expense for the first nine months of 2015 decreased \$0.7 million compared to the prior period. For the first nine months of 2015, the loss on impairment / retirement of fixed assets was \$9.4 million, reflecting the retirement of assets during the period at several of our properties, as compared to \$2.7 million in the first nine months of 2014. After depreciation, amortization, loss on impairment/retirement of fixed assets, and all other non-cash costs, operating income increased \$27.9 million to \$301.1 million for the first nine months of 2015 from operating income of \$273.2 million for the first nine months of 2014.

Interest expense for the first nine months of 2015 decreased by \$9.9 million to \$64.2 million, from \$74.1 million for the first nine months of 2014. The decrease was due to the lower interest rate on the June 2014 notes compared to the July 2010 notes which were outstanding for most of the same period in the prior year, a decrease in non-cash amortization of deferred financing fees related to the June 2014 notes, and a decrease in revolver interest due to lower average outstanding borrowings during the first nine months of the year.

The net effect of our swaps resulted in a non-cash benefit to earnings of \$3.0 million for the first nine months of 2015 compared with a \$1.0 million non-cash benefit to earnings for the first nine months of 2014. The difference reflects the change in fair market value movements in our de-designated swap portfolio offset by the amortization of amounts in OCI for these swaps. During the first nine months of the year, we also recognized a \$64.2 million charge to earnings for unrealized/realized foreign currency losses compared with a \$22.6 million charge to earnings for the first nine months of 2014. Both amounts primarily represented foreign currency movements on the U.S.-dollar denominated debt held at our Canadian property.

During the first nine months of 2015, a provision for taxes of \$37.8 million was recorded to account for publicly traded partnership ("PTP") taxes and income taxes on our corporate subsidiaries. This compares to a provision for taxes recorded for the same nine-month period in 2014 of \$26.3 million. This increase in tax provision relates largely to improved operating results and an increase in the full year expected annual effective tax rate. Cash taxes to be paid or payable in 2015 are estimated to range from \$20 million to \$25 million, compared to \$11.2 million for 2014. This expected increase in cash taxes relates to continuing strong business performance and the utilization of net operating loss carryforwards during 2015.

After the items above, net income for the first nine months totaled \$137.9 million, or \$2.46 per diluted limited partner unit, compared with net income of \$122.3 million, or \$2.19 per diluted unit, for the same nine-month period a year ago.

We believe Adjusted EBITDA is a meaningful measure of our operating results (for additional information regarding Adjusted EBITDA, including how we define and use Adjusted EBITDA, as well as a reconciliation from net income, see page 28). For the first nine months of 2015, Adjusted EBITDA increased to \$429.4 million from \$394.7 million for the first nine months of 2014. The approximate \$34.7 million increase in Adjusted EBITDA is a direct result of higher attendance, higher average guest per capita spending, and stronger out-of-park revenues during the nine-month period compared with the prior-year period. Partially offsetting these revenue increases were increases in operating costs and expenses associated with our current year initiatives and other planned year-over-year cost increases. Over this same period, our Adjusted EBITDA margin (Adjusted EBITDA divided by net revenues) increased 70 basis points to 40.2% for the period. The margin growth is attributable to revenue growth outpacing expense growth, period-over-period, as previously discussed.

Table of Contents

Three months ended September 27, 2015

The fiscal three-month period ended September 27, 2015, consisted of a 13-week period and included a total of 1,029 operating days compared with 13 weeks and 972 operating days for the fiscal three-month period ended September 28, 2014. The increase in operating days was primarily due to the Labor Day holiday falling one week later this year which allowed many of our parks to extend their summer operations.

The following table presents key financial information for the three months ended September 27, 2015 and September 28, 2014:

	Three months ended 9/27/2015 (13 weeks) (Amounts in thousands)	Three months ended 9/28/2014 (13 weeks)	Increase (Decrease)		
			\$	%	
Net revenues	\$644,637	\$595,318	\$49,319	8.3	%
Operating costs and expenses	302,133	282,666	19,467	6.9	%
Depreciation and amortization	59,059	58,244	815	1.4	%
Loss on impairment / retirement of fixed assets, net	5,753	1,475	4,278	N/M	
Operating income	\$277,692	\$252,933	\$24,759	9.8	%
N/M - Not meaningful					
Other Data:					
Adjusted EBITDA	\$345,641	\$315,609	\$30,032	9.5	%
Attendance	12,546	11,849	697	5.9	%
Per capita spending	\$47.49	\$46.58	\$0.91	2.0	%
Out-of-park revenues	\$64,607	\$58,103	\$6,504	11.2	%

For the quarter ended September 27, 2015, net revenues increased by \$49.3 million, to \$644.6 million, from \$595.3 million in the third quarter of 2014. This reflects an increase in both attendance and average in-park guest per capita spending and an increase in out-of park revenues compared to the same period in the prior year. Attendance for the third quarter was positively impacted by strong season pass and advance sale visitation which driven by our strong capital program. The 2.0%, or \$0.91, increase in per capita spending was mainly attributable to the continued growth in admissions pricing and our food and beverage programs. The 11.2%, or \$6.5 million, increase in out-of-park revenues was due primarily to increased bookings at our resort properties, in particular at Hotel Breakers at Cedar Point. The increase in net revenues is net of the unfavorable impact of foreign currency exchange rates of \$14.8 million for the quarter compared to the third quarter of 2014.

Operating costs and expenses for the quarter increased 6.9%, or \$19.5 million, to \$302.1 million from \$282.7 million in the third quarter of 2014. The increase is the result of a \$5.4 million increase in cost of goods sold, a \$9.9 million increase in operating expenses, and a \$4.2 million increase in SG&A. The \$5.4 million increase in cost of goods sold was largely related to increases in attendance levels. Cost of goods sold as a percentage of revenues was comparable for both periods. The \$9.9 million increase in operating expenses was primarily due to two types of items. First, the three-month period ended September 27, 2015 included an increase in labor costs due to normal merit increases and market / minimum-wage rate increases. Second, volume related increases in labor hours, operating supplies, maintenance expenses, and amusement show expenses driven by our increase in the number of operating hours year-over-year. The \$4.2 million increase in SG&A was due primarily to two items. First, an increase in labor costs due to normal merit increases and incentive compensation. Second, operating supplies increased due primarily to costs associated with special event promotional activities, continued expenditures related to the support of our improved

technology and security initiatives, and merchant fees. The increase in operating costs and expenses is net of the favorable impact of foreign currency exchange rates of \$5.3 million compared to the third quarter of 2014.

Depreciation and amortization expense for the quarter increased \$0.8 million. For the third quarter of 2015, the loss on impairment / retirement of fixed assets was \$5.8 million, reflecting the retirement of assets during the period at several of our properties, as compared to \$1.5 million in the third quarter of 2014. After depreciation, amortization, loss on impairment/retirement of fixed assets, and all other non-cash costs, the operating income increased \$24.8 million to \$277.7 million for the third quarter of 2015 compared to operating income of \$252.9 million for the third quarter of 2014.

Table of Contents

Interest expense for the third quarter of 2015 increased slightly to \$22.2 million from \$21.5 million in the third quarter of 2014. The net effect of our swaps resulted in a non-cash benefit to earnings of \$1.4 million for the third quarter of 2015 compared with a \$1.1 million non-cash benefit to earnings in the third quarter of 2014. The difference reflects the change in fair market value movements in our de-designated swap portfolio offset by the amortization of amounts in OCI for these swaps. During the current quarter, we also recognized a \$33.9 million net charge to earnings for unrealized/realized foreign currency losses compared with a \$21.5 million net charge to earnings for the third quarter in 2014. Both amounts primarily represented foreign currency movements on the U.S.-dollar denominated debt held at our Canadian property.

During the third quarter, a provision for taxes of \$58.9 million was recorded to account for PTP taxes and income taxes on our corporate subsidiaries. This compares to a provision for taxes recorded in the third quarter of 2014 of \$49.4 million. This increase in tax provision relates largely to improved operating results and an increase in the full year expected annual effective tax rate.

After the items above, net income for the quarter totaled \$164.2 million, or \$2.92 per diluted limited partner unit, compared with a net income of \$161.9 million, or \$2.90 per diluted unit, for the third quarter a year ago.

We believe Adjusted EBITDA is a meaningful measure of our operating results (for additional information regarding Adjusted EBITDA, including how we define and use Adjusted EBITDA, as well as a reconciliation from net income, see page 28). For the current quarter, Adjusted EBITDA increased to \$345.6 million from \$315.6 million for the fiscal third quarter of 2014. The approximate \$30.0 million increase in Adjusted EBITDA is a direct result of higher attendance, higher average guest per capita spending, and stronger out-of-park revenues during the three-month period compared with the prior-year period. Partially offsetting these revenue increases were increases in operating costs and expenses associated with our current year initiatives and other planned year-over-year cost increases.

October 2015

Based on preliminary results, net revenues through November 1, 2015, were approximately \$1.22 billion, up 7%, or \$75 million, compared with \$1.15 billion for the same period last year. The increase was the result of an approximate 5%, or 1.0 million-visit, increase in attendance to a record 23.6 million visits, a 2%, or \$0.70, increase in average in-park guest per capita spending to \$46.28 and a 10%, or \$12 million, increase in out-of-park revenues to \$128 million compared with 2014.

Liquidity and Capital Resources:

With respect to both liquidity and cash flow, we ended the third quarter of 2015 in sound condition. The working capital ratio (current assets divided by current liabilities) of 1.3 at September 27, 2015 is the result of normal seasonal activity. Receivables, inventories, and payables are at normal seasonal levels.

Operating Activities

During the nine-month period ended September 27, 2015, net cash provided by operating activities increased \$32.4 million from the same period a year ago, primarily due to improved operating results, a decrease in cash interest payments, and a decrease in working capital, partially offset by the net change in other non-current assets and liabilities.

Investing Activities

Net cash used in investing activities in the nine-month period ended September 27, 2015 was \$146.5 million, an increase of \$10.8 million compared with the same period ended September 28, 2014, due primarily to an increase in capital expenditures and a \$2.0 million preferred equity investment in a non-public entity.

Financing Activities

Net cash used for financing activities in the first nine months of 2015 was \$128.3 million, an increase of \$24.1 million compared with the same period ended September 28, 2014, due primarily to an increase in unitholder distributions which were somewhat offset by the reduction in fees related to the refinancing that took place during 2014.

Table of Contents

As of September 27, 2015, our debt consisted of the following:

\$450 million of 5.375% senior unsecured notes, maturing in 2024, issued at par. The notes may be redeemed, in whole or in part, at any time prior to June 1, 2019 at a price equal to 100% of the principal amount of the notes redeemed plus a “make-whole” premium together with accrued and unpaid interest, if any, to the redemption date.

Thereafter, the notes may be redeemed, in whole or in part, at various prices depending on the date redeemed. Prior to June 1, 2017, up to 35% of the notes may be redeemed with the net cash proceeds of certain equity offerings at a price equal to 105.375% together with accrued and unpaid interest. The notes pay interest semi-annually in June and December.

\$500 million of 5.25% senior unsecured notes, maturing in 2021, issued at par. The notes may be redeemed, in whole or in part, at any time prior to March 15, 2016 at a price equal to 100% of the principal amount of the notes redeemed plus a “make-whole” premium together with accrued and unpaid interest, if any, to the redemption date. Thereafter, the notes may be redeemed, in whole or in part, at various prices depending on the date redeemed. Prior to March 15, 2016, up to 35% of the notes may be redeemed with the net cash proceeds of certain equity offerings at a price equal to 105.25% together with accrued and unpaid interest. These notes pay interest semi-annually in March and September.

\$608.9 million of senior secured term debt, maturing in March 2020 under our 2013 Credit Agreement. The term debt bears interest at a rate of LIBOR plus 250 bps with a LIBOR floor of 75 bps. The term loan amortizes at \$6.3 million annually. Due to a prepayment made during 2014, we have no current maturities as of September 27, 2015.

No borrowings under the \$255 million senior secured revolving credit facility under our 2013 Credit Agreement. Under the 2013 Credit Agreement, the Canadian portion of the revolving credit facility has a sub-limit of \$15 million. U.S. denominated and Canadian denominated loans made under the revolving credit facility bear interest at a rate of LIBOR plus 225 bps (with no LIBOR floor). The revolving credit facility is scheduled to mature in March 2018 and also provides for the issuance of documentary and standby letters of credit. The 2013 Credit Agreement requires that we pay a commitment fee of 38 bps per annum on the unused portion of the credit facilities. After letters of credit, which totaled \$16.3 million at September 27, 2015, we had \$238.7 million of available borrowings under the revolving credit facility and cash on hand of \$196.3 million.

We have entered into several interest rate swaps that effectively fix all of our variable-rate term debt payments. As of September 27, 2015, we have \$800 million of interest rate swaps in place that effectively convert variable-rate debt to fixed rates. These swaps, which mature in December 2015 and fix LIBOR at a weighted average rate of 2.38%, have been de-designated as cash flow hedges. During 2013, we entered into four forward-starting interest rate swap agreements that will effectively convert \$500 million of variable-rate debt to fixed rates beginning in December of 2015. These swaps, which were designated as cash flow hedges, mature on December 31, 2018 and fix LIBOR at a weighted average rate of 2.94%. Additional detail regarding our current and historical swap arrangements is provided in Note 6 to our Unaudited Condensed Consolidated Financial Statements and in Note 6 to the Audited Consolidated Financial Statements included in our Form 10-K filed on February 26, 2015.

At September 27, 2015, the fair market value of the current and long-term portions of our derivative portfolio were \$3.8 million and \$24.0 million, respectively. The current and long-term portions were recorded in “Current Derivative Liability” and “Derivative Liability,” respectively.

The 2013 Credit Agreement requires us to maintain specified financial ratios, which if breached for any reason and not cured, could result in an event of default under the agreement. The most restrictive of these ratios is the Consolidated Leverage Ratio. At the end of the third quarter of 2015, this ratio was set at 5.75x consolidated total debt (excluding the revolving debt)-to-consolidated EBITDA. The ratio decreased by 0.25x at the beginning of the second quarter and will decrease each second quarter until it reaches 5.25x. As of September 27, 2015, we were in compliance with this ratio and all other covenants under the 2013 Credit Agreement.

The 2013 Credit Agreement allows restricted payments of up to \$60 million annually so long as no default or event of default has occurred and is continuing and so long as the Partnership would be in compliance with certain financial ratios after giving effect to the payments. Additional restricted payments are allowed to be made based on an

excess-cash-flow formula, should our pro-forma Consolidated Leverage Ratio be less than or equal to 5.0x.

The indentures governing our notes also include annual restricted payment limitations and additional permitted payment formulas. We can make restricted payments of \$60 million annually so long as no default or event of default has occurred and is continuing. Our ability to make additional restricted payments is permitted should our pro forma Total Indebtedness-to-Consolidated-Cash-Flow Ratio be less than or equal to 5.00x.

Table of Contents

In accordance with these debt provisions, on August 4, 2015, we announced the declaration of a distribution of \$0.75 per limited partner unit, which was paid on September 15, 2015. Also, on November 5, 2015, we announced the declaration of a distribution of \$0.825 per limited partner unit, which will be payable on December 15, 2015.

Existing credit facilities and cash flows from operations are expected to be sufficient to meet working capital needs, debt service, partnership distributions and planned capital expenditures for the foreseeable future.

Off Balance Sheet Arrangements:

We had \$16.3 million in letters of credit, which are primarily in place to backstop insurance arrangements, outstanding on our revolving credit facility as of September 27, 2015. We have no other significant off-balance sheet financing arrangements.

Forward Looking Statements

Some of the statements contained in this report (including the “Management’s Discussion and Analysis of Financial Condition and Results of Operations” section) that are not historical in nature are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, including statements as to our expectations, beliefs and strategies regarding the future. These forward-looking statements may involve risks and uncertainties that are difficult to predict, may be beyond our control and could cause actual results to differ materially from those described in such statements. Although we believe that the expectations reflected in such forward-looking statements are reasonable, we can give no assurance that such expectations will prove to be correct. Important factors, including those listed under Item 1A in the Company’s Annual Report on Form 10-K, could adversely affect our future financial performance and cause actual results to differ materially from our expectations.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are exposed to market risks from fluctuations in interest rates, and to a lesser extent on currency exchange rates on our operations in Canada and, from time to time, on imported rides and equipment. The objective of our financial risk management is to reduce the potential negative impact of interest rate and foreign currency exchange rate fluctuations to acceptable levels. We do not acquire market risk sensitive instruments for trading purposes.

We manage interest rate risk through the use of a combination of fixed-rate long-term debt, interest rate swaps that fix a portion of our variable-rate long-term debt, and variable-rate borrowings under our revolving credit facility.

Translation exposures with regard to our Canadian operations are not hedged.

For derivative instruments that are designated and qualify as cash flow hedges, the effective portion of the change in fair value of the derivative instrument is reported as a component of “Other comprehensive income (loss)” and reclassified into earnings in the period during which the hedged transaction affects earnings. Changes in fair value of derivative instruments that do not qualify as effective hedging activities are reported as “Net effect of swaps” in the consolidated statement of operations. Additionally, the “Other comprehensive income (loss)” related to interest rate swaps that become ineffective is amortized over the remaining life of the interest rate swap, and reported as a component of “Net effect of swaps” in the consolidated statement of operations.

As of September 27, 2015, we had \$950.0 million of fixed-rate senior unsecured notes and \$608.9 million of variable-rate term debt. After considering the impact of interest rate swap agreements, virtually all of our outstanding long-term debt represents fixed-rate debt. Assuming an average balance on our revolving credit borrowings of approximately \$17.6 million, a hypothetical 100 bps increase in 30-day LIBOR on our variable-rate debt (not considering the impact of our interest rate swaps) would lead to an increase of approximately \$5.9 million in annual cash interest costs.

Assuming a hypothetical 100 bps increase in 30-day LIBOR, the amount of net cash interest paid on our derivative portfolio would decrease by \$5.2 million over the next year.

A uniform 10% strengthening of the U.S. dollar relative to the Canadian dollar would result in a \$2.5 million decrease in annual operating income.

ITEM 4. CONTROLS AND PROCEDURES

(a)Evaluation of Disclosure Controls and Procedures -

The Partnership maintains a system of controls and procedures designed to ensure that information required to be disclosed by the Partnership in its reports under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified by the Commission and that such information is accumulated and communicated to the Partnership's management, including the Chief Executive Officer and the Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. As of September 27, 2015, the Partnership's management, with the participation of the Partnership's Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the Partnership's disclosure controls and procedures. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the Partnership's disclosure controls and procedures were effective as of September 27, 2015.

(b)Changes in Internal Control Over Financial Reporting -

There were no changes in the Partnership's internal control over financial reporting that occurred during the fiscal quarter ended September 27, 2015 that have materially affected, or are reasonably likely to materially affect, the Partnership's internal control over financial reporting.

PART II - OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

Ortegon, et al vs. Cedar Fair, L.P., Cedar Fair Management Company, et al

The Partnership and Cedar Fair Management, Inc. are defendants in a class action lawsuit filed in the Superior Court of the State of California for Santa Clara County on October 3, 2013 by Frank Ortegon-Ramirez seeking damages and injunctive relief for claims related to certain employment and pay practices at our parks in California, including those related to certain check-out, time reporting, discha
