

ISABELLA BANK CORP
Form 10-Q
November 05, 2015
UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

Quarterly Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934
For the quarterly period ended September 30, 2015

or
 Transition Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934
For the transition period from _____ to _____
Commission File Number: 0-18415

Isabella Bank Corporation
(Exact name of registrant as specified in its charter)

Michigan 38-2830092
(State or other jurisdiction of (I.R.S. Employer
incorporation or organization) Identification No.)

401 N. Main St, Mt. Pleasant, MI 48858
(Address of principal executive offices) (Zip code)
(989) 772-9471

(Registrant's telephone number, including area code)

N/A
(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (Section 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).
 Yes No

The number of common shares outstanding of the registrant's Common Stock (no par value) was 7,795,149 as of November 3, 2015.

Forward Looking Statements

This report contains certain forward looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. We intend such forward looking statements to be covered by the safe harbor provisions for forward looking statements contained in the Private Securities Litigation Reform Act of 1995, and are included in this statement for purposes of these safe harbor provisions. Forward looking statements, which are based on certain assumptions and describe future plans, strategies and expectations, are generally identifiable by use of the words “believe,” “expect,” “intend,” “anticipate,” “estimate,” “project” and similar expressions. Our ability to predict results or the actual effect of future plans or strategies is inherently uncertain. Factors which could have a material adverse effect on the operations and future prospects include, but are not limited to, changes in: interest rates, general economic conditions, monetary and fiscal policy, the quality or composition of the loan or investment portfolios, demand for loan products, fluctuation in the value of collateral securing our loan portfolio, deposit flows, competition, demand for financial services in our market area, and accounting principles, policies and guidelines. These risks and uncertainties should be considered in evaluating forward looking statements and undue reliance should not be placed on such statements. Further information concerning our business, including additional factors that could materially affect our financial results, is included in our filings with the SEC.

Glossary of Acronyms and Abbreviations

The acronyms and abbreviations identified below may be used throughout this Quarterly Report on Form 10-Q, or in our other SEC filings. You may find it helpful to refer back to this page while reading this report.

AFS: Available-for-sale	GAAP: U.S. generally accepted accounting principles
ALLL: Allowance for loan and lease losses	GLB Act: Gramm-Leach-Bliley Act of 1999
AOCI: Accumulated other comprehensive income (loss)	IFRS: International Financial Reporting Standards
ASC: FASB Accounting Standards Codification	IRR: Interest rate risk
ASU: FASB Accounting Standards Update	JOBS Act: Jumpstart our Business Startups Act
ATM: Automated Teller Machine	LIBOR: London Interbank Offered Rate
BHC Act: Bank Holding Company Act of 1956	N/A: Not applicable
CFPB: Consumer Financial Protection Bureau	N/M: Not meaningful
CIK: Central Index Key	NASDAQ: NASDAQ Stock Market Index
CRA: Community Reinvestment Act	NASDAQ Banks: NASDAQ Bank Stock Index
DIF: Deposit Insurance Fund	NAV: Net asset value
DIFS: Department of Insurance and Financial Services	NOW: Negotiable order of withdrawal
Directors Plan: Isabella Bank Corporation and Related Companies Deferred Compensation Plan for Directors	NSF: Non-sufficient funds
Dividend Reinvestment Plan: Isabella Bank Corporation Stockholder Dividend Reinvestment Plan and Employee Stock Purchase Plan	OCI: Other comprehensive income (loss)
Dodd-Frank Act: Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010	OMSR: Originated mortgage servicing rights

NOTES TO INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

(Dollars in thousands except per share amounts)

Note 1 – Basis of Presentation

As used in these notes as well as in Management's Discussion and Analysis of Financial Condition and Results of Operations, references to "Isabella," the "Corporation," "we," "our," "us," and similar terms refer to the consolidated entity consisting of Isabella Bank Corporation and its subsidiaries. Isabella Bank Corporation refers solely to the parent holding company, and Isabella Bank or the "Bank" refer to Isabella Bank Corporation's subsidiary, Isabella Bank. The accompanying unaudited interim condensed consolidated financial statements have been prepared in accordance with GAAP for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. In our opinion, all adjustments considered necessary for a fair presentation have been included. Operating results for the three and nine month periods ended September 30, 2015 are not necessarily indicative of the results that may be expected for the year ending December 31, 2015. For further information, refer to our Annual Report on Form 10-K for the year ended December 31, 2014.

Our accounting policies are materially the same as those discussed in Note 1 to the Consolidated Financial Statements included in our Annual Report on Form 10-K for the year ended December 31, 2014.

Note 2 – Computation of Earnings Per Common Share

Basic earnings per common share represents income available to common shareholders divided by the weighted average number of common shares outstanding during the period. Diluted earnings per common share reflects additional common shares that would have been outstanding if dilutive potential common shares had been issued. Potential common shares that may be issued relate solely to outstanding shares in the Directors Plan.

	Three Months Ended		Nine Months Ended	
	September 30		September 30	
	2015	2014	2015	2014
Average number of common shares outstanding for basic calculation	7,768,230	7,733,362	7,773,655	7,725,706
Average potential effect of common shares in the Directors Plan (1)	178,882	170,897	177,531	170,955
Average number of common shares outstanding used to calculate diluted earnings per common share	7,947,112	7,904,259	7,951,186	7,896,661
Net income	\$4,063	\$3,405	\$11,834	\$10,279
Earnings per common share				
Basic	\$0.52	\$0.44	\$1.52	\$1.33
Diluted	\$0.51	\$0.43	\$1.49	\$1.30

(1) Exclusive of shares held in the Rabbi Trust

Note 3 – Accounting Standards Updates

Recently Adopted Accounting Standards Updates

ASU No. 2014-04: "Reclassification of Residential Real Estate Collateralized Consumer Mortgage Loans upon Foreclosure (a consensus of the FASB Emerging Issues Task Force)"

In January 2014, ASU No. 2014-04 amended ASC Topic 310, "Receivables" to provide clarification as to when an in substance repossession or foreclosure occurs, that is, when a creditor should be considered to have received physical possession of residential real estate property collateralizing a consumer mortgage loan. Specifically, the update defined physical possession to appropriately derecognize the loan and recognize the real estate as OREO. The adoption of this ASU did not have a significant impact on our operations or financial statement disclosures.

ASU No. 2014-11: "Repurchase-to-Maturity Transactions, Repurchase Financings, and Disclosures"

In June 2014, ASU No. 2014-11 amended ASC Topic 860, "Transfers and Servicing" to address concerns that current accounting guidance distinguishes between repurchase agreements that settle at the same time as the maturity of the transferred financial asset and those that settle any time before maturity. The update changed the accounting for repurchase-to-maturity

Table of Contents

transactions to secured borrowing accounting and, for repurchase financing arrangements, separate accounting for a transfer of a financial asset executed contemporaneously with a repurchase agreement with the same counterparty, which resulted in secured borrowing accounting for the repurchase agreement. The adoption of this ASU did not have a significant impact on our operations or financial statement disclosures.

Pending Accounting Standards Updates

ASU No. 2015-01: “Income Statement - Extraordinary and Unusual Items (Subtopic 225-20): Simplifying Income Statement Presentation by Eliminating the Concept of Extraordinary Items”

In January 2015, ASU No. 2015-01 amended ASC Topic 225, “Income Statement” to eliminate the concept of extraordinary items. The presentation and disclosure guidance for items that are unusual in nature or occur infrequently will be retained and will be expanded to include items that are both unusual in nature and infrequently occurring. The new authoritative guidance is effective for interim and annual periods beginning after December 15, 2015 and is not expected to have a significant impact on our operations or financial statement disclosures.

ASU No. 2015-02: “Consolidation (Topic 810): Amendments to the Consolidation Analysis”

In February 2015, ASU No. 2015-02 amended ASC Topic 810, “Consolidation” to provide consolidation guidance on legal entities when the reporting entity’s contractual rights do not give it the ability to act primarily on its own behalf, the reporting entity does not hold a majority of the legal entity’s voting rights, or the reporting entity is not exposed to a majority of the legal entity’s economic benefits or obligations. The amendments in this update affect reporting entities that are required to evaluate whether they should consolidate certain legal entities. All legal entities are subject to reevaluation under the revised consolidation model. Specifically, the amendments:

1. Modify the evaluation of whether limited partnerships and similar legal entities are variable interest entities (VIEs) or voting interest entities.
2. Eliminate the presumption that a general partner should consolidate a limited partnership.
3. Affect the consolidation analysis of reporting entities that are involved with VIEs, particularly those that have fee arrangements and related party relationships.

Provide a scope exception from consolidation guidance for reporting entities with interests in legal entities that are

4. required to comply with or operate in accordance with requirements that are similar to those in Rule 2a-7 of the Investment Company Act of 1940 for registered money market funds.

The amendments of this update affect limited partnerships and similar legal entities including fees paid and fee arrangements on the primary beneficiary. The following three main provisions affect limited partnerships and similar legal entities:

There is an additional requirement that limited partnerships and similar legal entities must meet to qualify as voting

1. interest entities. A limited partnership must provide partners with either substantive kick-out rights or substantive participating rights over the general partner to meet this requirement.

The specialized consolidation model and guidance for limited partnerships and similar legal entities have been

2. eliminated. There is no longer a presumption that a general partner should consolidate a limited partnership.

For limited partnerships and similar legal entities that qualify as voting interest entities, a limited partner with a

3. controlling financial interest should consolidate a limited partnership. A controlling financial interest may be achieved through holding a limited partner interest that provides substantive kick-out rights.

The new authoritative guidance is effective for interim and annual periods beginning after December 15, 2015 and is not expected to have a significant impact on our operations or financial statement disclosures.

ASU No. 2015-05: “Intangibles-Goodwill and Other-Internal-Use Software (Subtopic 350-40): Customer’s Accounting for Fees Paid in a Cloud Computing Arrangement”

In April 2015, ASU No. 2015-05 amended ASC Topic 350, “Goodwill and Other” to provide guidance to customers about whether a cloud computing arrangement includes a software license. If a cloud computing arrangement includes a software license, then the customer should account for the software license element of the arrangement consistent with the acquisition of other software licenses. If a cloud computing arrangement does not include a software license, the customer should account for the arrangement as a service contract. The guidance will not change GAAP for a customer’s accounting for service contracts. The new authoritative guidance is effective for interim and annual periods beginning after December 15, 2015 and is not expected to have a significant impact on our operations or financial

statement disclosures.

ASU No. 2015-07: “Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)”

In May 2015, ASU No. 2015-07 amended ASC Topic 820, “Fair Value Measurement” to remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using that practical expedient. The new authoritative guidance is effective for interim and annual periods beginning after December 15, 2015 and is not expected to have a significant impact on our operations or financial statement disclosures.

ASU No. 2015-14: “Revenue from Contracts with Customers (Topic 606): Deferral of the Effective Date”

In August 2015, ASU No. 2015-14 was issued to defer the effective date of ASU No. 2014-09, “Revenue from Contracts with Customers (Topic 606)” by one year. The new authoritative guidance is now effective for interim and annual periods beginning after December 15, 2017. The new authoritative guidance in ASU No. 2014-09 is not expected to have a significant impact on our operations or financial statement disclosures.

Note 4 – AFS Securities

The amortized cost and fair value of AFS securities, with gross unrealized gains and losses, are as follows at:

	September 30, 2015			
	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
Government sponsored enterprises	\$24,441	\$8	\$81	\$24,368
States and political subdivisions	226,045	6,950	621	232,374
Auction rate money market preferred	3,200	—	493	2,707
Preferred stocks	3,800	—	608	3,192
Mortgage-backed securities	232,279	2,599	620	234,258
Collateralized mortgage obligations	130,069	2,071	427	131,713
Total	\$619,834	\$11,628	\$2,850	\$628,612
	December 31, 2014			
	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
Government sponsored enterprises	\$24,597	\$10	\$471	\$24,136
States and political subdivisions	209,153	6,986	794	215,345
Auction rate money market preferred	3,200	—	581	2,619
Preferred stocks	6,800	31	691	6,140
Mortgage-backed securities	165,888	2,042	1,004	166,926
Collateralized mortgage obligations	152,255	1,533	1,420	152,368
Total	\$561,893	\$10,602	\$4,961	\$567,534

Table of Contents

The amortized cost and fair value of AFS securities by contractual maturity at September 30, 2015 are as follows:

	Maturing				Securities with	
	Due in One Year or Less	After One Year But Within Five Years	After Five Years But Within Ten Years	After Ten Years	Variable Monthly Payments or Noncontractual Maturities	Total
Government sponsored enterprises	\$—	\$24,029	\$412	\$—	\$ —	\$24,441
States and political subdivisions	28,965	66,644	93,713	36,723	—	226,045
Auction rate money market preferred	—	—	—	—	3,200	3,200
Preferred stocks	—	—	—	—	3,800	3,800
Mortgage-backed securities	—	—	—	—	232,279	232,279
Collateralized mortgage obligations	—	—	—	—	130,069	130,069
Total amortized cost	\$28,965	\$90,673	\$94,125	\$36,723	\$ 369,348	\$619,834
Fair value	\$29,014	\$93,015	\$97,509	\$37,204	\$ 371,870	\$628,612

Expected maturities for government sponsored enterprises and states and political subdivisions may differ from contractual maturities because issuers may have the right to call or prepay obligations.

As the auction rate money market preferred and preferred stocks have continual call dates, they are not reported by a specific maturity group. Because of their variable monthly payments, mortgage-backed securities and collateralized mortgage obligations are not reported by a specific maturity group.

A summary of the sales activity of AFS securities was as follows for the:

	Three Months Ended September 30 2014	Nine Months Ended September 30 2014
Proceeds from sales of AFS securities	\$13,362	\$13,362
Gross realized gains (losses)	\$97	\$97
Applicable income tax expense (benefit)	\$33	\$33

We had no sales of AFS securities in the three and nine month periods ended September 30, 2015.

The cost basis used to determine the realized gains or losses of AFS securities sold was the amortized cost of the individual investment security as of the trade date.

Information pertaining to AFS securities with gross unrealized losses at September 30, 2015 and December 31, 2014, aggregated by investment category and length of time that individual securities have been in a continuous loss position, follows:

	September 30, 2015				
	Less Than Twelve Months		Twelve Months or More		Total Unrealized Losses
	Gross Unrealized Losses	Fair Value	Gross Unrealized Losses	Fair Value	
Government sponsored enterprises	\$—	\$—	\$81	\$23,915	\$81

Number of securities in an unrealized loss position:		22		72		94

As of September 30, 2015 and December 31, 2014, we conducted an analysis to determine whether any AFS securities currently in an unrealized loss position should be other-than-temporarily impaired. Such analyses considered, among other factors, the following criteria:

• Has the value of the investment declined more than what is deemed to be reasonable based on a risk and maturity adjusted discount rate?

• Is the investment credit rating below investment grade?

• Is it probable the issuer will be unable to pay the amount when due?

• Is it more likely than not that we will have to sell the security before recovery of its cost basis?

• Has the duration of the investment been extended?

Based on our analyses, the fact that we have asserted that we do not have the intent to sell AFS securities in an unrealized loss position, and considering it is unlikely that we will have to sell any AFS securities in an unrealized loss position before recovery of their cost basis, we do not believe that the values of any AFS securities were other-than-temporarily impaired as of September 30, 2015, or December 31, 2014.

Note 5 – Loans and ALLL

We grant commercial, agricultural, residential real estate, and consumer loans to customers situated primarily in Clare, Gratiot, Isabella, Mecosta, Midland, Montcalm, and Saginaw counties in Michigan. The ability of the borrowers to honor their repayment obligations is often dependent upon the real estate, agricultural, light manufacturing, retail, gaming, tourism, higher education, and general economic conditions of this region. Substantially all of our consumer and residential real estate loans are secured by various items of property, while commercial loans are secured primarily by real estate, business assets, and personal guarantees; a portion of loans are unsecured.

Loans that we have the intent and ability to hold in our portfolio are reported at their outstanding principal balance adjusted for any charge-offs, the ALLL, and any deferred fees or costs. Interest income is accrued over the term of the loan based on the principal amount outstanding. Loan origination fees and certain direct loan origination costs are capitalized and recognized as a component of interest income over the term of the loan using the level yield method. The accrual of interest on commercial, agricultural, and residential real estate loans is discontinued at the time the loan is 90 days or more past due unless the credit is well-secured and in the process of collection. Upon transferring the loans to nonaccrual status, we perform an evaluation to determine the net realizable value of the underlying collateral. This evaluation is used to help determine if any charge-offs are necessary. Consumer loans are typically charged-off no later than 180 days past due. Past due status is based on contractual terms of the loan. In all cases, loans are placed on nonaccrual status or charged-off at an earlier date if collection of principal or interest is considered doubtful. For loans that are placed on nonaccrual status or charged-off, all interest accrued in the current calendar year, but not collected, is reversed against interest income while interest accrued in prior calendar years, but not collected, is charged against the ALLL. Loans may be returned to accrual status after six months of continuous performance.

Commercial and agricultural loans include loans for commercial real estate, commercial operating loans, farmland and agricultural production, and states and political subdivisions. Repayment of these loans is dependent upon the successful operation and management of a business. We minimize our risk by limiting the amount of direct credit

exposure to any one borrower to \$15,000. Borrowers with direct credit needs of more than \$15,000 are serviced through the use of loan

Table of Contents

participations with other commercial banks. Commercial and agricultural real estate loans commonly require loan-to-value limits of 80% or less. Depending upon the type of loan, past credit history, and current operating results, we may require the borrower to pledge accounts receivable, inventory, and property and equipment. Personal guarantees are generally required from the owners of closely held corporations, partnerships, and sole proprietorships. In addition, we require annual financial statements, prepare cash flow analyses, and review credit reports.

We offer adjustable rate mortgages, construction loans, and fixed rate residential real estate loans which have amortization periods up to a maximum of 30 years. We consider the anticipated direction of interest rates, balance sheet duration, the sensitivity of our balance sheet to changes in interest rates, and overall loan demand to determine whether or not to sell fixed rate loans to Freddie Mac.

Our lending policies generally limit the maximum loan-to-value ratio on residential real estate loans to 97% of the lower of the appraised value of the property or the purchase price, with the condition that private mortgage insurance is required on loans with loan-to-value ratios in excess of 80%.

Underwriting criteria for residential real estate loans include:

• Evaluation of the borrower's ability to make monthly payments.

• Evaluation of the value of the property securing the loan.

• Ensuring the payment of principal, interest, taxes, and hazard insurance does not exceed 28% of a borrower's gross income.

• Ensuring all debt servicing does not exceed 36% of income.

• Verification of acceptable credit reports.

• Verification of employment, income, and financial information.

Appraisals are performed by independent appraisers and reviewed for appropriateness. All mortgage loan requests are reviewed by our mortgage loan committee or through a secondary market underwriting system; loans in excess of \$500 require the approval of our Internal Loan Committee, the Executive Loan Committee, the Board of Directors' Loan Committee, or the Board of Directors.

Consumer loans include secured and unsecured personal loans. Loans are amortized for a period of up to 12 years based on the age and value of the underlying collateral. The underwriting emphasis is on a borrower's perceived intent and ability to pay rather than collateral value. No consumer loans are sold to the secondary market.

The ALLL is established as losses are estimated to have occurred through a provision for loan losses charged to earnings. Loan losses are charged against the ALLL when we believe the uncollectability of the loan balance is confirmed. Subsequent recoveries, if any, are credited to the ALLL.

The appropriateness of the ALLL is evaluated on a quarterly basis and is based upon a periodic review of the collectability of the loans in light of historical experience, the nature and volume of the loan portfolio, adverse situations that may affect the borrower's ability to repay, estimated value of any underlying collateral, and prevailing economic conditions. This evaluation is inherently subjective as it requires estimates that are susceptible to significant revision as more information becomes available.

The primary factors behind the determination of the level of the ALLL are specific allocations for impaired loans, historical loss percentages, as well as unallocated components. Specific allocations for impaired loans are primarily determined based on the difference between the loan's outstanding balance to the present value of expected future cash flows discounted at the loan's effective interest rate, the loan's obtainable market price, or the fair value of the collateral, less cost to sell. Historical loss allocations are calculated at the loan class and segment levels based on a migration analysis of the loan portfolio over the preceding five years. The unallocated component of the allowance reflects the margin of imprecision inherent in the underlying assumptions used in the methodologies for estimating specific and general losses in the portfolio.

Table of Contents

A summary of changes in the ALLL and the recorded investment in loans by segments follows:

Allowance for Loan Losses

Internally assigned credit risk ratings are reviewed, at a minimum, when loans are renewed or when management has knowledge of improvements or deterioration of the credit quality of individual credits. Descriptions of the internally assigned credit risk ratings for commercial and agricultural loans are as follows:

1. EXCELLENT – Substantially Risk Free

Credit has strong financial condition and solid earnings history, characterized by:

- High liquidity, strong cash flow, low leverage.
- Unquestioned ability to meet all obligations when due.

Experienced management, with management succession in place.

Secured by cash.

2. HIGH QUALITY – Limited Risk

Credit with sound financial condition and a positive trend in earnings supplemented by:

Favorable liquidity and leverage ratios.

Ability to meet all obligations when due.

Management with successful track record.

Steady and satisfactory earnings history.

If loan is secured, collateral is of high quality and readily marketable.

Access to alternative financing.

Well defined primary and secondary source of repayment.

If supported by guaranty, the financial strength and liquidity of the guarantor(s) are clearly evident.

3. HIGH SATISFACTORY – Reasonable Risk

Credit with satisfactory financial condition and further characterized by:

Working capital adequate to support operations.

Cash flow sufficient to pay debts as scheduled.

Management experience and depth appear favorable.

Loan performing according to terms.

If loan is secured, collateral is acceptable and loan is fully protected.

Table of Contents

4. LOW SATISFACTORY – Acceptable Risk

Credit with bankable risks, although some signs of weaknesses are shown:

• Would include most start-up businesses.

• Occasional instances of trade slowness or repayment delinquency – may have been 10-30 days slow within the past year.

• Management’s abilities are apparent, yet unproven.

• Weakness in primary source of repayment with adequate secondary source of repayment.

• Loan structure generally in accordance with policy.

• If secured, loan collateral coverage is marginal.

• Adequate cash flow to service debt, but coverage is low.

To be classified as less than satisfactory, only one of the following criteria must be met.

5. SPECIAL MENTION – Criticized

Credit constitutes an undue and unwarranted credit risk but not to the point of justifying a classification of substandard. The credit risk may be relatively minor yet constitute an unwarranted risk in light of the circumstances surrounding a specific loan:

• Downward trend in sales, profit levels, and margins.

• Impaired working capital position.

• Cash flow is strained in order to meet debt repayment.

• Loan delinquency (30-60 days) and overdrafts may occur.

• Shrinking equity cushion.

• Diminishing primary source of repayment and questionable secondary source.

• Management abilities are questionable.

• Weak industry conditions.

• Litigation pending against the borrower.

• Collateral or guaranty offers limited protection.

• Negative debt service coverage, however the credit is well collateralized and payments are current.

6. SUBSTANDARD – Classified

Credit where the borrower’s current net worth, paying capacity, and value of the collateral pledged is inadequate. There is a distinct possibility that we will implement collection procedures if the loan deficiencies are not corrected. In addition, the following characteristics may apply:

• Sustained losses have severely eroded the equity and cash flow.

• Deteriorating liquidity.

• Serious management problems or internal fraud.

• Original repayment terms liberalized.

• Likelihood of bankruptcy.

• Inability to access other funding sources.

• Reliance on secondary source of repayment.

• Litigation filed against borrower.

• Collateral provides little or no value.

• Requires excessive attention of the loan officer.

• Borrower is uncooperative with loan officer.

7. VULNERABLE – Classified

Credit is considered “Substandard” and warrants placing on nonaccrual status. Risk of loss is being evaluated and exit strategy options are under review. Other characteristics that may apply:

• Insufficient cash flow to service debt.

• Minimal or no payments being received.

• Limited options available to avoid the collection process.

Transition status, expect action will take place to collect loan without immediate progress being made.

19

Table of Contents

8. DOUBTFUL – Workout

Credit has all the weaknesses inherent in a “Substandard” loan with the added characteristic that collection and/or liquidation is pending. The possibility of a loss is extremely high, but its classification as a loss is deferred until liquidation procedures are completed, or reasonably estimable. Other characteristics that may apply:

Normal operations are severely diminished or have ceased.

Seriously impaired cash flow.

Original repayment terms materially altered.

Secondary source of repayment is inadequate.

Survivability as a “going concern” is impossible.

Collection process has begun.

Bankruptcy petition has been filed.

Judgments have been filed.

Portion of the loan balance has been charged-off.

Our primary credit quality indicator for residential real estate and consumer loans is the individual loan’s past due aging. The following tables summarize the past due and current loans as of:

	September 30, 2015						
	Accruing Interest and Past Due:				Total Past Due and Nonaccrual	Current	Total

Impaired Loans

Loans may be classified as impaired if they meet one or more of the following criteria:

1. There has been a charge-off of its principal balance (in whole or in part);
2. The loan has been classified as a TDR; or
3. The loan is in nonaccrual status.

Impairment is measured on a loan-by-loan basis for commercial and agricultural loans by comparing the loan's outstanding balance to the present value of expected future cash flows discounted at the loan's effective interest rate, the loan's obtainable market price, or the fair value of the collateral, less cost to sell, if the loan is collateral dependent. Large groups of smaller balance homogeneous loans are collectively evaluated for impairment. Impairment is measured on a loan-by-loan basis for residential real estate and consumer loans by comparing the loan's unpaid principal balance to the present value of expected future cash flows discounted at the loan's effective interest rate.

Table of Contents

We do not recognize interest income on impaired loans in nonaccrual status. For impaired loans not classified as nonaccrual, interest income is recognized daily, as earned, according to the terms of the loan agreement and the principal amount outstanding. The following is a summary of information pertaining to impaired loans as of:

	September 30, 2015			December 31, 2014		
	Outstanding Balance	Unpaid Principal Balance	Valuation Allowance	Outstanding Balance	Unpaid Principal Balance	Valuation Allowance

As of September 30, 2015 and December 31, 2014, we had committed to advance \$2 and \$0, respectively, in connection with impaired loans, which include TDRs.

Troubled Debt Restructurings

Loan modifications are considered to be TDRs when the modification includes terms outside of normal lending practices to a borrower who is experiencing financial difficulties.

Typical concessions granted include, but are not limited to:

1. Agreeing to interest rates below prevailing market rates for debt with similar risk characteristics.
2. Extending the amortization period beyond typical lending guidelines for loans with similar risk characteristics.
3. Forgiving principal.
4. Forgiving accrued interest.

To determine if a borrower is experiencing financial difficulties, factors we consider include:

1. The borrower is currently in default on any of their debt.
2. The borrower would likely default on any of their debt if the concession was not granted.
3. The borrower's cash flow was insufficient to service all of their debt if the concession was not granted.
4. The borrower has declared, or is in the process of declaring, bankruptcy.
5. The borrower is unlikely to continue as a going concern (if the entity is a business).

Table of Contents

The following is a summary of information pertaining to TDRs granted for the:

	Three Months Ended September 30, 2015			Nine Months Ended September 30, 2015

We did not restructure any loans by forgiving principal or accrued interest in the three and nine month periods ended September 30, 2015 or 2014.

Based on our historical loss experience, losses associated with TDRs are not significantly different than other impaired loans within the same loan segment. As such, TDRs, including TDRs that have been modified in the past 12 months that subsequently defaulted, are analyzed in the same manner as other impaired loans within their respective loan segment.

Following is a summary of loans that defaulted in the three and nine month periods ended September 30, 2015 and 2014, which were modified within 12 months prior to the default date.

	Three Months Ended September 30, 2015				Nine Months Ended September 30, 2015			
	Number of Loans	Pre-Default Recorded Investment	Charge-Off Recorded Upon Default	Post-Default Recorded Investment	Number of Loans	Pre-Default Recorded Investment	Charge-Off Recorded Upon Default	Post-Default Recorded Investment

Consumer unsecured	2	\$7	\$7	\$—	2	\$7	\$7	\$—

The following is a summary of TDR loan balances as of:

	September 30, 2015	December 31, 2014
TDRs	\$21,457	\$23,341

The following is a summary of foreclosed assets as of:

	September 30, 2015	December 31, 2014
Consumer mortgage loans collateralized by residential real estate foreclosed as a result of obtaining physical possession (1)	\$190	N/A
All other foreclosed assets	411	885
Total	\$601	\$885

- (1) Disclosure requirement from the adoption of ASU No. 2014-04 on January 1, 2015. As such, measurement was not applicable for December 31, 2014.

Table of Contents

Consumer mortgage loans collateralized by residential real estate in the process of foreclosure were \$181 as of September 30, 2015.

Note 6 – Equity Securities Without Readily Determinable Fair Values

Included in equity securities without readily determinable fair values are restricted securities, which are carried at cost, and investments in unconsolidated entities accounted for under the equity method of accounting.

Equity securities without readily determinable fair values consist of the following as of:

	September 30 2015	December 31 2014
FHLB Stock	\$11,700	\$9,800
Corporate Settlement Solutions, LLC	7,304	6,936
FRB Stock	1,999	1,999
Valley Financial Corporation	1,000	1,000
Other	338	341
Total	\$22,341	\$20,076

Note 7 – Borrowed Funds

Borrowed funds consist of the following obligations as of:

	September 30, 2015		December 31, 2014			
	Amount	Rate	%	Amount	Rate	%
FHLB advances	\$215,000	1.97	%	\$192,000	2.05	%
Securities sold under agreements to repurchase without stated maturity dates	69,510	0.12	%	95,070	0.14	%
Securities sold under agreements to repurchase with stated maturity dates	—	—		439	3.25	%
Federal funds purchased	13,100	0.39	%	2,200	0.50	%
Total	\$297,610	1.47	%	\$289,709	1.41	%

FHLB advances are collateralized by a blanket lien on all qualified 1-4 family residential real estate loans, specific AFS securities, and FHLB stock.

The following table lists the maturities and weighted average interest rates of FHLB advances as of:

	September 30, 2015		December 31, 2014			
	Amount	Rate	%	Amount	Rate	%
Fixed rate due 2015	\$20,000	0.88	%	\$42,000	0.72	%
Variable rate due 2015	10,000	0.49	%	—	—	
Fixed rate due 2016	10,000	2.15	%	10,000	2.15	%
Variable rate due 2016	15,000	0.49	%	—	—	
Fixed rate due 2017	30,000	1.95	%	30,000	1.95	%
Fixed rate due 2018	40,000	2.35	%	40,000	2.35	%
Fixed rate due 2019	40,000	2.35	%	20,000	3.11	%
Fixed rate due 2020	10,000	1.98	%	10,000	1.98	%
Fixed rate due 2021	30,000	2.26	%	30,000	2.26	%
Fixed rate due 2023	10,000	3.90	%	10,000	3.90	%
Total	\$215,000	1.97	%	\$192,000	2.05	%

Securities sold under agreements to repurchase are classified as secured borrowings and are reflected at the amount of cash received in connection with the transaction. The securities underlying the agreements have a carrying value and a fair value of \$69,564 and \$94,537 at September 30, 2015 and December 31, 2014, respectively. Such securities remain under our control. We may be required to provide additional collateral based on the fair value of underlying securities.

Table of Contents

The following table lists the maturity and weighted average interest rates of securities sold under agreements to repurchase with stated maturity dates as of:

	September 30, 2015		December 31, 2014		%
	Amount	Rate	Amount	Rate	
Repurchase agreements due 2015	\$—	—	\$439	3.25	

Securities sold under repurchase agreements without stated maturity dates, federal funds purchased, and FRB Discount Window advances generally mature within one to four days from the transaction date. The following table provides a summary of securities sold under repurchase agreements without stated maturity dates, federal funds purchased, and FRB Discount Window advances borrowings for the three and nine month periods ended:

	Three Months Ended September 30				2014			
	Maximum Month End Balance	Average Balance	Weighted Average Interest Rate During the Period		Maximum Month End Balance	Average Balance	Weighted Average Interest Rate During the Period	
Securities sold under agreements to repurchase without stated maturity dates	\$71,170	\$68,963	0.13	%	\$91,472	\$88,906	0.13	%
Federal funds purchased	13,100	7,265	0.51	%	17,700	2,252	0.48	%
	Nine Months Ended September 30				2014			
	Maximum Month End Balance	Average Balance	Weighted Average Interest Rate During the Period		Maximum Month End Balance	Average Balance	Weighted Average Interest Rate During the Period	
Securities sold under agreements to repurchase without stated maturity dates	\$84,859	\$70,399	0.13	%	\$94,741	\$91,231	0.13	%
Federal funds purchased	13,100	6,253	0.50	%	17,700	4,939	0.48	%

We had pledged AFS securities and 1-4 family residential real estate loans in the following amounts at:

	September 30 2015	December 31 2014
Pledged to secure borrowed funds	\$344,385	\$324,584
Pledged to secure repurchase agreements	69,564	94,537
Pledged for public deposits and for other purposes necessary or required by law	24,321	19,851
Total	\$438,270	\$438,972

AFS securities pledged to repurchase agreements without stated maturity dates consisted of the following at:

	September 30 2015	December 31 2014
States and political subdivisions	\$2,811	\$6,643
Mortgage-backed securities	23,008	29,655
Collateralized mortgage obligations	43,745	58,239
Total	\$69,564	\$94,537

AFS securities pledged to repurchase agreements are monitored to ensure the appropriate level is collateralized. In the event of maturities, calls, significant principal repayments, or significant decline in market values, we have adequate levels of available AFS securities to pledge to satisfy required collateral.

As of September 30, 2015, we had the ability to borrow up to an additional \$140,938, based on assets pledged as collateral. We had no investment securities that are restricted to be pledged for specific purposes.

Table of Contents

Note 8 – Other Noninterest Expenses

A summary of expenses included in other noninterest expenses is as follows for the:

	Three Months Ended		Nine Months Ended	
	September 30		September 30	
	2015	2014	2015	2014
FDIC insurance premiums	\$204	\$196	\$619	\$619

Education and travel	90	154	311	418
Printing and supplies	111	89	309	278
Postage and freight	94	105	284	303
Legal fees	121	88	273	248
Consulting fees	122	96	264	263
Loan underwriting fees	98	83	248	270
All other	660	596	1,725	1,866
Total other	\$2,172	\$2,295	\$5,938	\$6,305

Note 9 – Federal Income Taxes

The reconciliation of the provision for federal income taxes and the amount computed at the federal statutory tax rate of 34% of income before federal income tax expense is as follows for the:

	Three Months Ended		Nine Months Ended	
	September 30		September 30	
	2015	2014	2015	2014
Income taxes at 34% statutory rate	\$1,723	\$1,309	\$4,959	\$4,072
Effect of nontaxable income				
Interest income on tax exempt municipal securities	(509)	(501)	(1,519)	(1,498)
Earnings on corporate owned life insurance policies	(64)	(62)	(194)	(189)
Effect of tax credits	(175)	(187)	(542)	(575)
Other	(18)	(158)	(70)	(235)
Total effect of nontaxable income	(766)	(908)	(2,325)	(2,497)
Effect of nondeductible expenses	45	43	116	121
Federal income tax expense	\$1,002	\$444	\$2,750	\$1,696

Note 10 – Fair Value

Following is a description of the valuation methodologies, key inputs, and an indication of the level of the fair value hierarchy in which the assets or liabilities are classified.

Cash and cash equivalents: The carrying amounts of cash and demand deposits due from banks and interest bearing balances due from banks approximate fair values. As such, we classify cash and cash equivalents as Level 1.

AFS securities: AFS securities are recorded at fair value on a recurring basis. Level 1 fair value measurement is based upon quoted prices for identical instruments. Level 2 fair value measurement is based upon quoted prices for similar instruments. If quoted prices are not available, fair values are measured using independent pricing models or other model based valuation techniques such as the present value of future cash flows, adjusted for the security's credit rating, prepayment assumptions and other factors such as credit loss and liquidity assumptions. The values for Level 1 and Level 2 investment securities are generally obtained from an independent third party. On a quarterly basis, we compare the values provided to alternative pricing sources.

Table of Contents

Mortgage loans AFS: Mortgage loans AFS are carried at the lower of cost or fair value. The fair value of Mortgage loans AFS are based on the price secondary markets are currently offering for portfolios with similar characteristics. As such, we classify Mortgage loans AFS subject to nonrecurring fair value adjustments as Level 2.

Loans: For variable rate loans with no significant change in credit risk, fair values are based on carrying values. Fair values for fixed rate loans are estimated using discounted cash flow analyses, using interest rates currently being offered for loans with similar terms to borrowers of similar credit quality. The resulting amounts are adjusted to estimate the effect of changes in the credit quality of borrowers since the loans were originated. As such, we classify loans as Level 3 assets.

We do not record loans at fair value on a recurring basis. However, from time-to-time, loans are classified as impaired and a specific allowance for loan loss may be established. Loans for which it is probable that payment of interest and principal will be significantly different than the contractual terms of the original loan agreement are considered impaired. Once a loan is identified as impaired, we measure the estimated impairment. The fair value of impaired loans is estimated using one of several methods, including the present value of expected future cash flows discounted at the loan's effective interest rate, the loan's obtainable market price, or the fair value of the collateral, less cost to sell, if the loan is collateral dependent. Those impaired loans not requiring an allowance represent loans for which the fair value of the expected repayments or collateral exceed the recorded investments in such loans.

We review the net realizable values of the underlying collateral for collateral dependent impaired loans on at least a quarterly basis for all loan types. To determine the collateral value, we utilize independent appraisals, broker price opinions, or internal evaluations. We review these valuations to determine whether an additional discount should be applied given the age of market information that may have been considered as well as other factors such as costs to sell an asset if it is determined that the collateral will be liquidated in connection with the ultimate settlement of the loan. We use these valuations to determine if any specific reserves or charge-offs are necessary. We may obtain new valuations in certain circumstances, including when there has been significant deterioration in the condition of the collateral, if the foreclosure process has begun, or if the existing valuation is deemed to be outdated.

The following tables list the quantitative fair value information about impaired loans as of:

		September 30, 2015	
Valuation Technique	Fair Value	Unobservable Input	Range

		Discount applied to collateral appraisal:	
		Real Estate	20% - 25%
		Equipment	30% - 40%
Discounted appraisal value	\$8,720	Cash crop inventory	40%
		Other inventory	75%
		Accounts receivable	50%
		Liquor license	75%

Discount factors with ranges are based on the age of the independent appraisal, broker price opinion, or internal evaluation.

Accrued interest receivable: The carrying amounts of accrued interest receivable approximate fair value. As such, we classify accrued interest receivable as Level 1.

Equity securities without readily determinable fair values: Included in equity securities without readily determinable fair values are FHLB stock and FRB stock as well as our ownership interests in Corporate Settlement Solutions, LLC and Valley Financial

30

Table of Contents

Corporation. The investment in Corporate Settlement Solutions, LLC, a title insurance company, was made in the first quarter 2008 and we account for our investment under the equity method of accounting. Valley Financial Corporation is the parent company of 1st State Bank in Saginaw, Michigan, which is a community bank that opened in 2005. We made investments in Valley Financial Corporation in 2004 and in 2007 and we account for our investment under the cost method of accounting.

The lack of an active market, or other independent sources to validate fair value estimates coupled with the impact of future capital calls and transfer restrictions, is an inherent limitation in the valuation process. As the fair values of these investments are not readily determinable, they are not disclosed under a specific fair value hierarchy; however, they are reviewed quarterly for impairment. If we were to record an impairment adjustment related to these securities, it would be classified as a nonrecurring Level 3 fair value adjustment. During 2015 and 2014, there were no impairments recorded on equity securities without readily determinable fair values.

Foreclosed assets: Upon transfer from the loan portfolio, foreclosed assets (which are included in other assets) are adjusted to and subsequently carried at the lower of carrying value or fair value less costs to sell. Net realizable value is based upon independent market prices, appraised values of the collateral, or management's estimation of the value of the collateral. Due to the inherent level of estimation in the valuation process, we classify foreclosed assets as nonrecurring Level 3.

The table below lists the quantitative fair value information related to foreclosed assets as of:

Valuation Technique	September 30, 2015		
	Fair Value	Unobservable Input Discount applied to collateral appraisal:	Range
Discounted appraisal value	\$601	Real Estate	20% - 30%
Valuation Technique	December 31, 2014		
	Fair Value	Unobservable Input Discount applied to collateral appraisal:	Range
Discounted appraisal value	\$885	Real Estate	20% - 25%

Discount factors with ranges are based on the age of the independent appraisal, broker price opinion, or internal evaluations.

Goodwill and other intangible assets: Acquisition intangibles and goodwill are evaluated for potential impairment on at least an annual basis. Acquisition intangibles and goodwill are typically qualitatively evaluated to determine if it is more likely than not that the carrying balance is impaired. If it is determined that the carrying balance of acquisition intangibles or goodwill is more likely than not to be impaired, we perform a cash flow valuation to determine the extent of the potential impairment. If the testing resulted in impairment, we would classify goodwill and other acquisition intangibles subjected to nonrecurring fair value adjustments as Level 3. During 2015 and 2014, there were no impairments recorded on goodwill and other acquisition intangibles.

OMSR: OMSR (which are included in other assets) are subject to impairment testing. To test for impairment, we utilize a discounted cash flow analysis using interest rates and prepayment speed assumptions currently quoted for comparable instruments and discount rates. If the valuation model reflects a value less than the carrying value, OMSR are adjusted to fair value through a valuation allowance as determined by the model. As such, we classify OMSR subject to nonrecurring fair value adjustments as Level 2.

Deposits: The fair value of demand, savings, and money market deposits are equal to their carrying amounts and are classified as Level 1. Fair values for variable rate certificates of deposit approximate their carrying value. Fair values for fixed rate certificates of deposit are estimated using a discounted cash flow calculation that applies interest rates currently being offered on certificates to a schedule of aggregated expected monthly maturities on time deposits. As such, fixed rate certificates of deposit are classified as Level 2.

Borrowed funds: The carrying amounts of federal funds purchased, borrowings under overnight repurchase agreements, and other short-term borrowings maturing within ninety days approximate their fair values. The fair values of other borrowed funds are estimated using discounted cash flow analyses based on current incremental

borrowing arrangements. As such, borrowed funds are classified as Level 2.

Accrued interest payable: The carrying amounts of accrued interest payable approximate fair value. As such, we classify accrued interest payable as Level 1.

Table of Contents

Commitments to extend credit, standby letters of credit, and undisbursed loans: Our commitments to extend credit, standby letters of credit, and undisbursed funds have no carrying amount and are estimated to have no realizable fair value. Historically, a majority of the unused commitments to extend credit have not been drawn upon and, generally, we do not receive fees in connection with these commitments other than standby letter of credit fees, which are not significant.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Although we believe our valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement.

Estimated Fair Values of Financial Instruments Not Recorded at Fair Value in their Entirety on a Recurring Basis
Disclosure of the estimated fair values of financial instruments, which differ from carrying values, often requires the use of estimates. In cases where quoted market values in an active market are not available, we use present value techniques and other valuation methods to estimate the fair values of our financial instruments. These valuation methods require considerable judgment and the resulting estimates of fair value can be significantly affected by the assumptions made and methods used.

The carrying amount and estimated fair value of financial instruments not recorded at fair value in their entirety on a recurring basis were as follows as of:

	September 30, 2015				
	Carrying Value	Estimated Fair Value	(Level 1)	(Level 2)	(Level 3)
ASSETS					
Cash and cash equivalents	\$18,322	\$18,322	\$18,322	\$—	\$—

Note 13 – Operating Segments

Our reportable segments are based on legal entities that account for at least 10% of net operating results. The operations of the Bank as of September 30, 2015 and 2014 and each of the three and nine month periods then ended, represent approximately 90% or more of our consolidated total assets and operating results. As such, no additional segment reporting is presented.

Table of Contents

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

ISABELLA BANK CORPORATION FINANCIAL REVIEW

(Dollars in thousands except per share amounts)

This section reviews our financial condition and results of our operations for the unaudited three and nine month periods ended September 30, 2015 and 2014. This analysis should be read in conjunction with our 2014 Annual Report on Form 10-K and with the unaudited interim condensed consolidated financial statements and notes, beginning on page 4 of this report.

Executive Summary

During the three and nine month periods ended September 30, 2015, we reported net income of \$4,063 and \$11,834 and earnings per common share of \$0.52 and \$1.52, respectively. Our strong earnings have primarily been the result of increased interest income and continued improvements in credit quality. Net loan recoveries during the first nine months of 2015 were \$99 versus net loans charged-off of \$496 in the first nine months of 2014. In addition, we continue to see reductions in loans classified as less than satisfactory as well as those past due and in nonaccrual status which have reached record lows. These factors required a reduction in the level of the ALLL in both amount and as a percentage of gross loans which resulted in a \$1,999 reversal of provision for loan losses recorded in the nine month period ended September 30, 2015.

During the nine month period ended September 30, 2015, total assets grew by 4.50% to \$1,619,250, and assets under management increased to \$2,300,642 which includes loans sold and serviced, and assets managed by our Investment and Trust Services Department of \$681,392. Total loans declined by \$235 from December 31, 2014 which has been driven by a \$14,745 decline in residential real estate loans as demand continued to be soft. Offsetting this decline is commercial and agricultural loan growth of \$12,680 during the first nine months of 2015.

We increased our AFS securities portfolio by \$61,078 during the first nine months of 2015 to continue to provide growth in our balance sheet to increase interest income. While our net yield on interest earning assets of 3.37% remains historically low, it has stabilized. Net interest income will increase only through continued growth in loans, investments, and other income earning assets. We are committed to increasing earnings and dedicated to providing long term sustainable growth to enable us to increase shareholder value.

While we have been able to grow our commercial and agricultural loan portfolios, increasing our residential real estate and consumer loan portfolios has been more challenging. To generate growth in these portfolios, we are implementing new products, enhancing our marketing efforts, streamlining delivery channels for direct and indirect loans, and expanding our service area. These initiatives are designed to attract new customers while expanding our relationships with current customers to improve earnings.

Recent Acquisitions

On July 31, 2015, we completed the acquisition of a branch from Flagstar Bank, FSB located in Saginaw, Michigan. In addition to real estate and equipment, we assumed deposit liabilities of \$44,290 and recorded \$156 of core deposit intangibles and \$2,061 of goodwill, which represented the excess of the purchase price over the fair value of identifiable net assets acquired.

On August 28, 2015, we completed the acquisition of a branch from Independent Bank located in Midland, Michigan. In addition to real estate and equipment, we assumed \$8,658 of deposit liabilities and recorded \$50 of core deposit intangibles and \$602 of goodwill, which represented the excess of the purchase price over the fair value of identifiable net assets acquired.

Table of Contents

Average Balances, Interest Rate, and Net Interest Income

The following schedules present the daily average amount outstanding for each major category of interest earning assets, nonearning assets, interest bearing liabilities, and noninterest bearing liabilities. These schedules also present an analysis of interest income and interest expense for the periods indicated. All interest income is reported on a FTE basis using a 34% federal income tax rate. Loans in nonaccrual status, for the purpose of the following computations, are included in the average loan balances. FRB and FHLB restricted equity holdings are included in accrued income and other assets.

The following table displays the results for the:

	Three Months Ended September 30, 2015			June 30, 2015			September 30, 2014

Net Interest Income

Net interest income is the amount by which interest income on earning assets exceeds the interest expenses on interest bearing liabilities. Net interest income is influenced by changes in the balance and mix of assets and liabilities and market interest rates. We exert some control over these factors; however, FRB monetary policy and competition have a significant impact. For analytical purposes, net interest income is adjusted to an FTE basis by adding the income tax savings from interest on tax exempt loans, and nontaxable investment securities, thus making year to year comparisons more meaningful. Included in interest income are loan fees which are displayed in the following table for the three and nine month periods ended:

	Three Months Ended		September 30		Nine Months Ended	
	September 30 2015	June 30 2015	September 30 2014	September 30 2015	September 30 2014	September 30 2014
Loan fees	\$613	\$772	\$488	\$1,892	\$1,530	

Table of Contents

Volume and Rate Variance Analysis

The following table sets forth the effect of volume and rate changes on interest income and expense for the periods indicated. For the purpose of this table, changes in interest due to volume and rate were determined as follows:

Volume—change in volume multiplied by the previous period's rate.

Rate—change in the FTE rate multiplied by the previous period's volume.

The change in interest due to both volume and rate has been allocated to volume and rate changes in proportion to the relationship of the absolute dollar amounts of the change in each.

	Three Months Ended September 30, 2015 Compared to June 30, 2015			Three Months Ended September 30, 2015 Compared to September 30, 2014			Nine Months Ended September 30, 2015 Compared to September 30, 2014

Net change in interest margin (FTE)	\$262	\$(316)	\$(54)	\$469	\$(118)	\$351	\$1,248	\$(267)	\$981

Our net yield on interest earning assets remains at historically low levels. The persistent low interest rate environment coupled with an increase in the concentration of AFS securities as a percentage of earning assets has also placed downward pressure on net interest margin yield. While we anticipate that the FRB will increase short term interest rates in late 2015, we do not anticipate the increase to be significant due to lack of underlying economic strength in the environment. As such, we do not expect any significant change in our yield on interest earning assets and will continue to see compression on margins as the rates paid on interest bearing liabilities will likely increase faster than those of interest earning assets. We will continue our strategy of balance sheet growth to provide net interest income in future periods.

	Average Yield / Rate for the Three Month Periods Ended:				
	September 30 2015	June 30 2015	March 31 2015	December 31 2014	September 30 2014
Total earning assets	4.03	% 4.11	% 4.07	% 4.17	% 4.10
Total interest bearing liabilities	0.84	% 0.84	% 0.84	% 0.85	% 0.85
Net yield on interest earning assets (FTE)	3.33	% 3.41	% 3.37	% 3.46	% 3.39

Table of Contents

	Quarter to Date Net Interest Income (FTE)				
	September 30 2015	June 30 2015	March 31 2015	December 31 2014	September 30 2014
Total interest income (FTE)	\$ 14,790	\$ 14,782	\$ 14,401	\$ 14,702	\$ 14,357
Total interest expense	2,580	2,518	2,488	2,504	2,498
Net interest income (FTE)	\$ 12,210	\$ 12,264	\$ 11,913	\$ 12,198	\$ 11,859

Also contributing to the decline in the net yield on interest earning assets in the past year is the decline in loan fees. While loan fees are improving, they remain at low levels as a result of the soft demand for residential mortgage loans and the intense competition for commercial loans. The following table displays data for the three month periods ended:

	September 30 2015	June 30 2015	March 31 2015	December 31 2014	September 30 2014	
Net interest income (FTE)	\$ 12,210	\$ 12,264	\$ 11,913	\$ 12,198	\$ 11,859	
Less loan fees	613	772	507	669	488	
Net interest income excluding loan fees (FTE)	\$ 11,597	\$ 11,492	\$ 11,406	\$ 11,529	\$ 11,371	
Net yield on interest earning assets excluding loan fees (FTE)	3.16	% 3.19	% 3.23	% 3.27	% 3.25	%

Allowance for Loan and Lease Losses

The viability of any financial institution is ultimately determined by its management of credit risk. Loans represent our single largest concentration of risk. The ALLL is our estimation of incurred losses within the existing loan portfolio. We allocate the ALLL throughout the loan portfolio based on our assessment of the underlying risks associated with each loan segment. Our assessments include allocations based on specific impairment valuation allowances, historical charge-offs, internally assigned credit risk ratings, and past due and nonaccrual balances. A portion of the ALLL is not allocated to any one loan segment, but is instead a reflection of other qualitative risks that reflects the margin of imprecision inherent in the underlying assumptions used in the methodologies for estimating specific and general losses in the portfolio.

The following table summarizes our charge-offs, recoveries, provisions for loan losses, and ALLL balances as of, and for the three and nine month periods ended September 30:

	Three Months Ended September 30		Nine Months Ended September 30		
	2015	2014	2015	2014	
ALLL at beginning of period	\$9,000	\$10,700	\$10,100	\$11,500	
Charge-offs					
Commercial and agricultural	61	163	89	465	
Residential real estate	70	180	325	557	
Consumer	79	73	252	255	
Total charge-offs	210	416	666	1,277	
Recoveries					
Commercial and agricultural	68	171	459	477	
Residential real estate	33	68	152	190	
Consumer	47	39	154	114	
Total recoveries	148	278	765	781	
Net loan charge-offs	62	138	(99)	496	
Provision for loan losses	(738)) (162)) (1,999)) (604))
ALLL at end of period	\$8,200	\$10,400	\$8,200	\$10,400	
Net loan charge-offs to average loans outstanding	0.01	% 0.02	% (0.01))% 0.06	%

Table of Contents

The following table summarizes our charge-offs, recoveries, provisions for loan losses, and ALLL balances as of, and for the three month periods ended:

	September 30 2015	June 30 2015	March 31 2015	December 31 2014	September 30 2014
Total charge-offs	\$210	\$296	\$160	\$351	\$416
Total recoveries	148	231	386	115	278
Net loan charge-offs	62	65	(226)	236	138
Net loan charge-offs to average loans outstanding	0.01	% 0.01	% (0.03)	% 0.03	% 0.02
Provision for loan losses	\$(738)	\$(535)	\$(726)	\$(64)	\$(162)
Provision for loan losses to average loans outstanding	(0.09)%	(0.07)%	(0.09)%	(0.01)%	(0.02)%
ALLL	\$8,200	\$9,000	\$9,600	\$10,100	\$10,400
ALLL as a % of loans at end of period	0.98	% 1.09	% 1.18	% 1.21	% 1.26

As the level of net loans charged-off decline and credit quality indicators continue to improve, we have reduced the ALLL in both amount and as a percentage of loans. Soft loan growth during the year also contributed to the decline in the ALLL as a percentage of loans. The following table illustrates our changes within the two main components of the ALLL.

	September 30 2015	June 30 2015	March 31 2015	December 31 2014	September 30 2014
ALLL					
Individually evaluated for impairment	\$3,217	\$3,202	\$3,361	\$3,427	\$3,654
Collectively evaluated for impairment	4,983	5,798	6,239	6,673	6,746
Total	\$8,200	\$9,000	\$9,600	\$10,100	\$10,400
ALLL to gross loans					
Individually evaluated for impairment	0.39	% 0.39	% 0.41	% 0.41	% 0.44
Collectively evaluated for impairment	0.59	% 0.70	% 0.77	% 0.80	% 0.82
Total	0.98	% 1.09	% 1.18	% 1.21	% 1.26

While more volatile, loans individually evaluated for impairment have been relatively flat in recent quarters. The decline in loans collectively impaired illustrates the downward trend we are experiencing in our overall level of ALLL to gross loans.

For further discussion of the allocation of the ALLL, see “Note 5 – Loans and ALLL” of our interim condensed consolidated financial statements.

Loans Past Due and Loans in Nonaccrual Status

Fluctuations in past due and nonaccrual status loans can have a significant impact on the ALLL. To determine the potential impact, and corresponding estimated losses, we analyze our historical loss trends on loans past due greater than 30 days and nonaccrual status loans. We monitor all loans that are past due and in nonaccrual status for indications of additional deterioration.

	Total Past Due and Nonaccrual				
	September 30 2015	June 30 2015	March 31 2015	December 31 2014	September 30 2014
Commercial and agricultural	\$1,709	\$2,407	\$4,017	\$4,805	\$3,904
Residential real estate	2,030	2,995	2,965	4,181	4,011
Consumer	60	126	106	138	134
Total	\$3,799	\$5,528	\$7,088	\$9,124	\$8,049
Total past due and nonaccrual loans to gross loans	0.46	% 0.67	% 0.87	% 1.09	% 0.98

Declines in past due and nonaccrual status loans are the result of strengthened loan performance. A summary of loans past due and in nonaccrual status, including the composition of the ending balance of nonaccrual status loans by type, is included in “Note 5 – Loans and ALLL” of our interim condensed consolidated financial statements.

Table of Contents

Troubled Debt Restructurings

We have taken a proactive approach to avoid foreclosures on borrowers who are willing to work with us in modifying their loans, thus making them more affordable. While this approach has allowed certain borrowers to develop a payment structure that will allow them to continue making payments in lieu of foreclosure, it has contributed to a significant increase in the level of loans classified as TDRs. The modifications have been successful for us and our customers as very few of the modified loans have resulted in foreclosures. At the time of the TDR, the loan is reviewed to determine whether or not to classify the loan as accrual or nonaccrual status. The majority of new modifications result in terms that satisfy our criteria for continued interest accrual. TDRs that have been placed on nonaccrual status may be placed back on accrual status after six months of continued performance.

We restructure debt with borrowers who, due to temporary financial difficulties, are unable to service their debt under the original terms. We may extend the amortization period, reduce interest rates, forgive principal, forgive interest, or a combination of these modifications. Typically, the modifications are for a period of five years or less. There were no TDRs that were Government sponsored as of September 30, 2015 or December 31, 2014.

Losses associated with TDRs, if any, are included in the estimation of the ALLL in the quarter in which a loan is identified as a TDR, and we review the analysis of the ALLL estimation each reporting period to ensure its continued appropriateness.

The following tables provide a roll-forward of TDRs for the:

	Three Months Ended September 30, 2015

Nonperforming Assets

The following table summarizes our nonperforming assets as of:

	September 30 2015	June 30 2015	March 31 2015	December 31 2014	September 30 2014	
Nonaccrual status loans	\$796	\$1,530	\$3,422	\$4,044	\$4,496	
Accruing loans past due 90 days or more	—	19	173	148	164	
Total nonperforming loans	796	1,549	3,595	4,192	4,660	
Foreclosed assets	601	873	717	885	1,041	
Total nonperforming assets	\$1,397	\$2,422	\$4,312	\$5,077	\$5,701	
Nonperforming loans as a % of total loans	0.10	% 0.19	% 0.44	% 0.50	% 0.57	%
Nonperforming assets as a % of total assets	0.09	% 0.15	% 0.27	% 0.33	% 0.37	%

After a loan is 90 days past due, it is placed on nonaccrual status unless it is well secured and in the process of collection. Upon transferring the loans to nonaccrual status, we perform an evaluation to determine the net realizable

value of the underlying collateral. This evaluation is used to help determine if any charge-offs are necessary. Loans may be placed back on accrual status after six months of continued performance. Total nonperforming loans continue to improve with current levels reflecting historic lows.

Table of Contents

Included in the nonaccrual loan balances above were loans currently classified as TDRs as of:

	September 30 2015	December 31 2014
Commercial and agricultural	\$256	\$1,995
Residential real estate	77	262
Consumer	—	153
Total	\$333	\$2,410

Additional disclosures about nonaccrual status loans are included in “Note 5 – Loans and ALLL” of our interim condensed consolidated financial statements.

We continue to devote considerable attention to identifying impaired loans and adjusting the net carrying value of these loans to their current net realizable values through the establishment of a specific reserve or the recording of a charge-off. We believe that we have identified all impaired loans as of September 30, 2015.

We believe that the level of the ALLL is appropriate as of September 30, 2015. We will continue to closely monitor overall credit quality indicators and our policies and procedures related to the analysis of the ALLL to ensure that the ALLL remains at the appropriate level.

Noninterest Income and Noninterest Expenses

Significant noninterest account balances are highlighted in the following table with additional descriptions of significant fluctuations:

	Three Months Ended September 30				
	2015	2014	Change \$	%

Total noninterest income	\$ 7,858	\$ 6,899	\$ 959	13.90	%

Significant changes in noninterest income are detailed below:

ATM and debit card fees increased during 2015 as a result of marketing incentives. While we do not anticipate significant changes to our ATM and debit fees, we do expect that fees will continue to increase in the remainder of 2015 as the usage of ATM and debit cards continues to increase.

NSF and overdraft fees fluctuate from period-to-period based on customer activity as well as the number of business days in the period. We anticipate fees to continue to decline for the remainder of 2015.

Offering rates on residential mortgage loans, as well as the decline in loan demand, have been the most significant drivers behind fluctuations in the gain on sale of mortgage loans and net OMSR income (loss). Mortgage rates are expected to approximate current levels in the foreseeable future and purchase money mortgage activity is anticipated to increase as a result of our various initiatives to drive growth. As such, we anticipate increases in origination volumes and in turn, gains on sale of mortgage loans.

The increase in earnings from our Corporate Settlement Solutions joint venture during 2015 can be attributed to two initiatives - expansion of national sales and maintaining consistent margins with the increased sales volume. Income for the remainder of 2015 is expected to continue to increase.

The fluctuations in all other income is spread throughout various categories, none of which are individually significant.

Total other	5,938	6,305	(367)	(5.82))%
Total noninterest expenses	\$28,730	\$28,300	\$430	1.52	%

Significant changes in noninterest expenses are detailed below:

The decline in employee benefits is related to health care costs as a result of lower than anticipated claims. Employee benefits are expected to remain at current levels for the remainder of 2015.

Service contracts include approximately \$147 of conversion related costs incurred as a result of our recent branch acquisitions. Additional costs related to these acquisitions are not expected to be significant during the remainder of 2015.

We have consistently been a strong supporter of the various communities, schools, and charities in the markets we serve. We sponsor a foundation, which we established in 1996, that is funded by discretionary donations. The affiliated foundation provides centralized oversight for donations to organizations that benefit our communities. Included in Donations and community relations expense are discretionary donations to the foundation of \$0 and \$250 for the nine month periods ended September 30, 2015 and 2014, respectively.

The fluctuations in all other expenses are spread throughout various categories, none of which are individually significant.

Total	\$833,347	\$828,602	\$815,468	\$833,582	\$822,299

Table of Contents

While competition for commercial loans continues to be strong, we experienced growth in this segment of the portfolio during the third quarter of 2015 and anticipate continued growth in the remainder of 2015. Residential real estate loans were relatively flat and we anticipate growth in the remainder of 2015 as a result of initiatives designed to increase loan volume and the number of originations.

The following table outlines the changes in deposits:

	September 30 2015	December 31 2014	\$ Change	% Change (unannualized)
Noninterest bearing demand deposits	\$181,782	\$181,826	\$(44)	(0.02)%
Interest bearing demand deposits	197,476	190,984	6,492	3.40%
Savings deposits	316,590	261,412	55,178	21.11%
Certificates of deposit	328,806	339,824	(11,018)	(3.24)%
Brokered certificates of deposit	76,948	72,134	4,814	6.67%
Internet certificates of deposit	26,401	28,304	(1,903)	(6.72)%
Total	\$1,128,003	\$1,074,484	\$53,519	4.98%

The following table displays deposit balances as of:

	September 30 2015	June 30 2015	March 31 2015	December 31 2014	September 30 2014
Noninterest bearing demand deposits	\$181,782	\$182,259	\$176,160	\$181,826	\$175,634
Interest bearing demand deposits	197,476	193,680	197,364	190,984	192,211

Certificates of deposit	328,806	330,226	333,554	339,824	341,153
Brokered certificates of deposit	76,948	78,853	76,671	72,134	74,132
Internet certificates of deposit	26,401	27,346	28,165	28,304	29,285
Total	\$1,128,003	\$1,090,469	\$1,098,655	\$1,074,484	\$1,081,890

Deposit demand continues to be driven by non-contractual deposits while certificates of deposit gradually decline. We anticipate this trend to continue in future periods. Our significant growth in savings deposits during the third quarter is the result of our recent branch acquisitions and without these deposits, total deposits would have declined. We look to retain and attract new customers with the recent branch acquisitions to provide growth in deposits in future periods.

The current interest rate environment has made it almost impossible to increase net interest income without increasing earning assets. As deposit growth outpaced loan demand in recent periods, we deployed funds from deposit growth into purchases of AFS securities to provide additional interest income. In addition to utilizing deposits, we have also utilized borrowings and brokered deposits to fund earning assets. We anticipate that future increases in our AFS securities will be in the form of mortgage-backed securities and collateralized mortgage obligations. The following table displays fair values of AFS securities as of:

	September 30 2015	June 30 2015	March 31 2015	December 31 2014	September 30 2014
Government sponsored enterprises	\$24,368	\$24,203	\$24,397	\$24,136	\$23,917
States and political subdivisions	232,374	216,647	222,479	215,345	223,545
Auction rate money market preferred	2,707	2,719	2,775	2,619	2,863
Preferred stocks	3,192	3,230	6,324	6,140	6,173
Mortgage-backed securities	234,258	210,194	201,997	166,926	170,767
Collateralized mortgage obligations	131,713	138,325	147,236	152,368	147,815
Total	\$628,612	\$595,318	\$605,208	\$567,534	\$575,080

Table of Contents

The following table displays borrowed funds balances as of:

	September 30 2015	June 30 2015	March 31 2015	December 31 2014	September 30 2014
FHLB advances	\$215,000	\$240,000	\$217,000	\$192,000	\$182,000
Securities sold under agreements to repurchase without stated maturity dates	69,510	67,599	66,321	95,070	89,535
Securities sold under agreements to repurchase with stated maturity dates	—	—	—	439	1,203
Federal funds purchased	13,100	—	—	2,200	17,700
Total Capital	\$297,610	\$307,599	\$283,321	\$289,709	\$290,438

Capital consists solely of common stock, retained earnings, and accumulated other comprehensive income (loss). We are authorized to raise capital through dividend reinvestment, employee and director stock purchases, and shareholder stock purchases. Pursuant to these authorizations, we issued 142,388 shares or \$3,310 of common stock during the first nine months of 2015, as compared to 122,261 shares or \$2,845 of common stock during the same period in 2014. We also offer the Directors Plan in which participants either directly purchase stock or purchase stock units through deferred fees, in lieu of cash payments. Pursuant to this plan, we increased shareholders' equity by \$425 and \$382 during the nine month periods ended September 30, 2015 and 2014, respectively.

We have approved a publicly announced common stock repurchase plan. Pursuant to this plan, we repurchased 153,329 shares or \$3,588 of common stock compared to 110,680 shares for \$2,550 during the first nine months of 2015 and 2014, respectively. As of September 30, 2015, we were authorized to repurchase up to an additional 198,436 shares of common stock.

The FRB has established minimum risk based capital guidelines. Pursuant to these guidelines, a framework has been established that assigns risk weights to each category of on and off-balance-sheet items to arrive at risk adjusted total assets. Regulatory capital is divided by the risk adjusted assets with the resulting ratio compared to the minimum standard to determine whether a corporation has adequate capital. On July 2, 2013, the FRB published revised BASEL III Capital standards for banks. The final rules redefine what is included or deducted from equity capital, changes risk weighting for certain on and off-balance sheet assets, increases the minimum required equity capital to be considered well capitalized, and introduces a capital cushion buffer. The rules, which are being gradually phased in between 2015 and 2019, are not expected to have a material impact on the Corporation but will require us to hold more capital than we have historically.

There are no significant regulatory constraints placed on our capital. The FRB's current recommended minimum primary capital to assets requirement is 6.00%. Our primary capital to adjusted average assets, or tier 1 leverage ratio, was 8.54% as of September 30, 2015.

Effective January 1, 2015, the minimum standard for primary, or tier 1, capital increased from 4.00% to 6.00%. The minimum standard for total capital remains at 8.00%. Also effective January 1, 2015 is the new common equity tier 1 capital ratio which has a minimum requirement of 4.50%. The following table sets forth the percentages required under the Risk Based Capital guidelines and our values as of:

	September 30 2015	December 31 2014	Required	
Common equity tier 1 capital	13.36	% N/A	4.50	%
Tier 1 capital	13.36	% 14.08	% 6.00	%
Tier 2 capital	0.83	% 1.10	% 2.00	%
Total Capital	14.19	% 15.18	% 8.00	%

Tier 2 capital, or secondary capital, includes only the ALLL. The percentage for the secondary capital under the required column is the maximum amount allowed from all sources.

The FRB and FDIC also prescribe minimum capital requirements for Isabella Bank. At September 30, 2015, the Bank exceeded these minimum capital requirements.

Table of Contents

Contractual Obligations and Loan Commitments

We are party to credit related financial instruments with off-balance-sheet risk. These financial instruments are entered into in the normal course of business to meet the financing needs of our customers. These financial instruments involve, to varying degrees, elements of credit and interest rate risk in excess of the amounts recognized in the consolidated balance sheets. The contract or notional amounts of these instruments reflect the extent of involvement we have in a particular class of financial instrument.

The following table summarizes our credit related financial instruments with off-balance-sheet risk as of:

	September 30 2015	December 31 2014
Unfunded commitments under lines of credit	\$ 130,146	\$ 116,935
Commercial and standby letters of credit	2,727	4,985
Commitments to grant loans	40,162	13,988
Total	\$ 173,035	\$ 135,908

Unfunded commitments under lines of credit are commitments for possible future extensions of credit to existing customers. These commitments may expire without being drawn upon and do not necessarily represent future cash requirements.

Commercial and standby letters of credit are conditional commitments issued to guarantee the performance of a customer to a third party. Those guarantees are primarily issued to support private borrowing arrangements, including commercial paper, bond financing, and similar transactions. These commitments to extend credit and letters of credit generally mature within one year. The credit risk involved in these transactions is essentially the same as that involved in extending loans to customers. We evaluate each customer's credit worthiness on a case-by-case basis. The amount of collateral obtained, if deemed necessary upon the extension of credit, is based on a credit evaluation of the borrower. While we consider standby letters of credit to be guarantees, the amount of the liability related to such guarantees on the commitment date is not significant and a liability related to such guarantees is not recorded on the consolidated balance sheets.

Commitments to grant loans are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. The amount of collateral obtained, if it is deemed necessary, is based on management's credit evaluation of the customer. Commitments to grant loans include residential mortgage loans with the majority being loans committed to be sold to the secondary market.

Our exposure to credit-related loss in the event of nonperformance by the counter parties to the financial instruments for commitments to extend credit and standby letters of credit could be up to the contractual notional amount of those instruments. We use the same credit policies as we do for extending loans to customers. No significant losses are anticipated as a result of these commitments.

Fair Value

We utilize fair value measurements to record fair value adjustments to certain assets and liabilities and to determine fair value disclosures. AFS securities and certain liabilities are recorded at fair value on a recurring basis.

Additionally, from time-to-time, we may be required to record at fair value other assets on a nonrecurring basis, such as mortgage loans AFS, foreclosed assets, OMSR, and certain other assets and liabilities. These nonrecurring fair value adjustments typically involve the application of lower of cost or market accounting or write-downs of individual assets.

For further information regarding fair value measurements see "Note 10 – Fair Value" of our notes to the interim condensed consolidated financial statements.

Table of Contents

Liquidity

Liquidity is monitored regularly by our Market Risk Committee, which consists of members of senior management. The committee reviews projected cash flows, key ratios, and liquidity available from both primary and secondary sources.

Our primary sources of liquidity are cash and cash equivalents and AFS securities. These categories totaled \$646,934 or 39.95% of assets as of September 30, 2015 as compared to \$587,440 or 37.91% as of December 31, 2014. Liquidity is important for financial institutions because of their need to meet loan funding commitments, depositor withdrawal requests, and various other commitments including expansion of operations, investment opportunities, and payment of cash dividends. Liquidity varies significantly daily, based on customer activity.

Our primary source of funds is through deposit accounts. We also have the ability to borrow from the FHLB, the FRB, and through various correspondent banks in the form of federal funds purchased and a line of credit. These funding methods typically carry a higher interest rate than traditional market deposit accounts. Some borrowed funds, including FHLB advances, FRB Discount Window advances, and repurchase agreements, require us to pledge assets, typically in the form of AFS securities or loans, as collateral. As of September 30, 2015, we had available lines of credit of \$140,938.

The following table summarizes our sources and uses of cash for the nine month periods ended September 30:

	2015	2014	\$ Variance
Net cash provided by (used in) operating activities	\$6,725	\$12,040	\$(5,315)
Net cash provided by (used in) investing activities	(63,756)	(72,254)	8,498
Net cash provided by (used in) financing activities	55,447	44,187	11,260
Increase (decrease) in cash and cash equivalents	(1,584)	(16,027)	14,443
Cash and cash equivalents January 1	19,906	41,558	(21,652)
Cash and cash equivalents September 30	\$18,322	\$25,531	\$(7,209)

Market Risk

Our primary market risks are interest rate risk and liquidity risk. We have no significant foreign exchange risk and do not utilize interest rate swaps or derivatives, except for interest rate locks and forward loan commitments, in the management of IRR. Any changes in foreign exchange rates or commodity prices would have an insignificant impact on our interest income and cash flows.

IRR is the exposure of our net interest income to changes in interest rates. IRR results from the difference in the maturity or repricing frequency of a financial institution's interest earning assets and its interest bearing liabilities. IRR is the fundamental method by which financial institutions earn income and create shareholder value. Excessive exposure to IRR could pose a significant risk to our earnings and capital.

The FRB has adopted a policy requiring us to effectively manage the various risks that can have a material impact on our safety and soundness. The risks include credit, interest rate, liquidity, operational, and reputational. We have policies, procedures, and internal controls for measuring and managing these risks. Specifically, our Funds Management policy and procedures include defining acceptable types and terms of investments and funding sources, liquidity requirements, limits on investments in long term assets, limiting the mismatch in repricing opportunity of assets and liabilities, and the frequency of measuring and reporting to our Board.

The primary technique to measure IRR is simulation analysis. Simulation analysis forecasts the effects on the balance sheet structure and net interest income under a variety of scenarios that incorporate changes in interest rates, the shape of yield curves, interest rate relationships, and loan prepayments. These forecasts are compared against net interest income projected in a stable interest rate environment. While many assets and liabilities reprice either at maturity or in accordance with their contractual terms, several balance sheet components demonstrate characteristics that require an evaluation to more accurately reflect their repricing behavior. Key assumptions in the simulation analysis include prepayments on loans, probable calls of investment securities, changes in market conditions, loan volumes and loan pricing, deposit sensitivity, and customer preferences. These assumptions are inherently uncertain as they are subject to fluctuation and revision in a dynamic environment. As a result, the simulation analysis cannot precisely forecast the impact of rising and falling interest rates on net interest income. Actual results will differ from simulated results due to many other factors, including changes in balance sheet components, interest rate changes, changes in market

conditions, and management strategies.

57

Table of Contents

Our interest rate sensitivity is estimated by first forecasting the next 12 and 24 months of net interest income under an assumed environment of a constant balance sheet and constant market interest rates (base case). We then compare the results of various simulation analyses to the base case. At September 30, 2015, we projected the change in net interest income during the next 12 and 24 months assuming market interest rates were to immediately decrease by 100 basis points and increase by 100, 200, 300, and 400 basis points in a parallel fashion over the entire yield curve during the same time period. We did not project scenarios showing decreases in interest rates beyond 100 basis points as this is considered extremely unlikely given current interest rate levels. These projections were based on our assets and liabilities remaining static over the next 12 and 24 months, while factoring in probable calls and prepayments of certain investment securities and real estate residential and consumer loans. While it is extremely unlikely that interest rates would immediately increase to these levels, we feel that these extreme scenarios help us identify potential gaps and mismatches in the repricing characteristics of assets and liabilities. We regularly monitor our projected net interest income sensitivity to ensure that it remains within established limits.

The following tables summarize our interest rate sensitivity for the 12 and 24 months as of:

	September 30, 2015					December 31, 2014				
	12 Months					24 Months				
Immediate basis point change assumption (short-term)	-100	+100	+200	+300	+400	-100	+100	+200	+300	+400
Percent change in net interest income vs. constant rates	(1.76)%	0.15 %	0.22 %	(0.77)%	(1.83)%	(1.67)%	0.18 %	1.13 %	0.44 %	(0.39)%
Immediate basis point change assumption (short-term)	-100	+100	+200	+300	+400	-100	+100	+200	+300	+400
Percent change in net interest income vs. constant rates	(1.66)%	0.29 %	0.45 %	(3.18)%	(4.39)%	(1.83)%	0.25 %	1.04 %	(2.70)%	(3.98)%

Table of Contents

The following tables provide information about assets and liabilities that are sensitive to changes in interest rates as of September 30, 2015 and December 31, 2014. The principal amounts of investments, loans, other interest earning assets, borrowings, and time deposits maturing were calculated based on the contractual maturity dates. Estimated cash flows for savings and NOW accounts are based on our estimated deposit decay rates.

We do not believe that there has been a material change in the nature or categories of our primary market risk exposure, or the particular markets that present the primary risk of loss. As of the date of this report, we do not know of or expect there to be any material change in the general nature of our primary market risk exposure in the near term. As of the date of this report, we do not expect to make material changes in those methods in the near term. We may change those methods in the future to adapt to changes in circumstances or to implement new techniques.

Table of Contents

Item 3. Quantitative and Qualitative Disclosures about Market Risk.

The information presented in the section captioned “Market Risk” in Management's Discussion and Analysis of Financial Condition and Results of Operations is incorporated herein by reference.

Item 4. Controls and Procedures.

DISCLOSURE CONTROLS AND PROCEDURES

We carried out an evaluation, under the supervision and with the participation of the Principal Executive Officer and Principal Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15(d)-15(e) under the Exchange Act) as of September 30, 2015, pursuant to Exchange Act Rule 13a-15. Based upon that evaluation, the Principal Executive Officer and Principal Financial Officer concluded that our disclosure controls and procedures as of September 30, 2015, were effective to ensure that information required to be disclosed in reports that we file or submit under the Exchange Act are recorded, processed, summarized and reported within the time periods specified in SEC rules and forms.

CHANGES IN INTERNAL CONTROL OVER FINANCIAL REPORTING

During the most recent fiscal quarter, no change occurred in our internal control over financial reporting that materially affected, or is likely to materially effect, our internal control over financial reporting.

PART II – OTHER INFORMATION

Item 1. Legal Proceedings.

We are not involved in any material legal proceedings. We are involved in ordinary, routine litigation incidental to our business; however, no such routine proceedings are expected to result in any material adverse effect on operations, earnings, financial condition, or cash flows.

Item 1A. Risk Factors.

There have been no material changes to the risk factors disclosed in Item 1A in our Annual Report on Form 10-K for the year ended December 31, 2014.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

(A) None

(B) None

(C) Repurchases of Common Stock

We have adopted and publicly announced a common stock repurchase plan. The plan was last amended on September 23, 2015, to allow for the repurchase of an additional 200,000 shares of common stock after that date. These authorizations do not have expiration dates. As common shares are repurchased under this plan, they are retired and revert back to the status of authorized, but unissued common shares.

The following table provides information for the three month period ended September 30, 2015, with respect to this plan:

	Common Shares Repurchased		Total Number of Common Shares Purchased as Part of Publicly Announced Plan or Program	Maximum Number of Common Shares That May Yet Be Purchased Under the Plans or Programs
	Number	Average Price Per Common Share		
Balance, June 30				77,873
July 1 - 31	25,977	\$24.18	25,977	51,896
August 1 - 31	25,379	23.25	25,379	26,517
September 1 - 22	15,000	23.80	15,000	11,517
Additional Authorization (200,000 shares)				211,517
September 23 - 30	13,081	23.62	13,081	198,436
Balance, September 30	79,437	\$23.72	79,437	198,436
