Item 2.02. Results of Operations and Financial Condition.

On May 8, 2015, TETRA Technologies, Inc. (the "Company") issued a press release announcing its financial results for the first quarter of 2015. The press release is furnished herewith as Exhibit 99.1 and is incorporated herein by reference.

The information furnished in this Item 2.02 and in Exhibit 99.1 to this Current Report shall not be deemed "filed" for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), or otherwise subject to the liabilities of that section, nor shall such information be deemed incorporated by reference in any filing under the Securities Act of 1933, as amended, except as shall be expressly set forth by specific reference in such filing.

#### Use of Non-GAAP Financial Information

In addition to the quarterly and annual financial information determined in accordance with generally accepted accounting principles (GAAP) that are included in the attached press release, the press release includes certain non-GAAP financial measures. Management believes that these non-GAAP financial measures are helpful in understanding the Company's past financial performance and future financial performance. The attached press release includes the following non-GAAP financial measures:

Consolidated and Segment income before taxes, excluding the Company's Maritech segment and unusual charges. Management believes that following the sale of essentially all of Maritech's oil and gas properties, it is helpful to show the Company's results excluding the impact of the costs and charges relating to the decommissioning of Maritech's remaining properties since these results will show TETRA's historical results of operations on a basis consistent with expected future operations. Management also believes that the exclusion of the unusual charges from the historical results of operations enables management to evaluate more effectively the Company's operations over the prior periods and to identify operating trends that could be obscured by the excluded items.

Adjusted EBITDA. Adjusted EBITDA is defined as adjusted earnings before interest, taxes, depreciation, amortization and equity compensation expenses. Adjusted EBITDA may be presented on a consolidated and segment basis. Management uses Adjusted EBITDA as a supplemental financial measure to assess the financial performance of the Company's assets, without regard to financing methods, capital structure or cost basis, and to assess the Company's ability to incur and service debt and fund capital expenditures.

Net Debt. Net Debt is defined as the sum of long-term and short-term debt on the Company's consolidated balance sheet less cash, excluding restricted cash on the consolidated balance sheet and excluding the debt and cash of CSI Compressco LP. Management believes that Net Debt provides information concerning the Company's ability to reduce debt, add to cash balances, pay dividends, repurchase stock, and fund investing and financing activities. Free cash flow. Free cash flow is cash from operations, excluding cash settlements of Maritech's asset retirement obligations, less capital expenditures. Management believes this is an important supplemental financial measure because it allows management to assess the Company's ability to retire debt, evaluate the capacity to further invest and grow and determine the ability to pay dividends.

The methods the Company uses to produce these non-GAAP financial measures may differ from methods used by other companies. The foregoing non-GAAP financial measures should be considered in addition to, not as a substitute for, financial measures prepared in accordance with GAAP, as more fully discussed in the Company's financial statements and filings with the Securities and Exchange Commission. Reconciliations to the nearest GAAP financial measure of each non-GAAP financial measure is included in the press release attached hereto as Exhibit 99.1.

Item 9.01. Financial Statements and Exhibits.

(d) Exhibits.

Exhibit Number Description

99.1 Press Release, dated May 8, 2015, issued by TETRA Technologies, Inc.

### **SIGNATURES**
