Audit Committee

The Audit Committee of the Board of Directors oversees our corporate accounting and financial reporting process. For this purpose, the Audit Committee performs several functions:

- evaluates the performance of and assesses the qualifications of the independent auditors;
- determines and approves the engagement of the independent auditors;
- determines whether to retain or terminate the existing independent auditors or to appoint and engage new independent auditors;
- reviews and approves the retention of the independent auditors to perform any proposed permissible non-audit services;
- monitors the rotation of partners of the independent auditors on our audit engagement team as required by law;
- confers with management and the independent auditors regarding the effectiveness of internal controls over financial reporting;
- establishes procedures, as required under applicable law, for the receipt, retention and treatment of complaints we receive regarding accounting, internal accounting controls or auditing matters and the confidential and anonymous submission by employees of concerns regarding questionable accounting or auditing matters;
- reviews the financial statements to be included in our Annual Report on Form 10-K; and
- discusses with management and the independent auditors the results of the annual audit and the results of their review of our quarterly financial statements.

Three directors currently comprise the Audit Committee: Messrs. Taira, Chikagami and Chwang. The Audit Committee met four times during 2003.

The Board of Directors annually reviews the Nasdaq listing standards definition of independence for Audit Committee members and has determined that all members of our Audit Committee are independent (as independence is currently defined in Rule 4350(d)(2)(A)(i) and (ii) of the Nasdaq listing standards). We currently do not have an audit committee financial expert as defined in Item 401(h) of Regulation S-K. At this time, the Board believes that the interests of our shareholders are best served through the identification and recruitment of board members who possess a wide range of business, operational and scientific experience in the semiconductor industry.

Section 16(a) of the Securities Exchange Act of 1934, as amended, requires our directors and officers, and persons who own more than ten percent of a registered class of our equity securities, to file with the SEC initial reports of ownership and reports of changes in ownership of our common stock and other equity securities. Officers, directors and greater than ten percent shareholders are required by SEC regulation to furnish us with copies of all Section 16(a) forms they file.

To our knowledge, based solely on a review of the copies of such reports furnished to us, during the year ended December 31, 2003, all Section 16(a) filing requirements applicable to our officers and directors were complied with.

Stock Option Grants and Exercises

The following tables show for the fiscal year ended December 31, 2003, information regarding options granted to, exercised by, and held at year end by the officers listed in the Summary Compensation Table above.

2003 Stock Option Grants

The exercise price of each option was equal to the fair market value of our common stock on the date of grant. Mr. Yeh's option was equal to 110% of the fair market value of our common stock on the date of grant. The exercise price may be paid in cash, in shares of our common stock valued at fair value on the exercise date or through a cashless exercise procedure involving a same-day sale of the purchased shares.

The potential realizable value is calculated based on the term of the option at the time of grant. Stock price appreciation of 5% and 10% is assumed pursuant to rules promulgated by the Securities and Exchange Commission and does not represent our prediction of our stock price performance. The potential realizable values at 5% and 10% appreciation are calculated by:

- ◆ multiplying the number of shares of common stock subject to a given option by 100% of the fair market value of our common stock on the date of grant;
- ◆ assuming that the aggregate stock value derived from that calculation compounds at the annual 5% or 10% rate shown in the table until the expiration of the options; and
- ◆ subtracting from that result the aggregate option exercise price.

The shares listed in the following table under "Number of Securities Underlying Option Granted" are subject to vesting. Each of the stock options listed in the table, except for Mr. Yeh's option, vests monthly over a one-year period beginning approximately two to four years from the date of grant. Mr. Yeh's option vests over a four-year period, 25% after one year and 2.083% per month thereafter. Each of the options has a ten-year term, except for Mr. Yeh's option which has a five-year term, subject to earlier termination if the optionee's service with us ceases. Under certain circumstances following a change of control, the vesting of such option grants may accelerate and become immediately exercisable.

Percentages shown under "Percent of Total Options Granted in 2003" are based on 1,337,289 options granted to our employees and directors during 2003.
