Automatic Data Processing, Inc. and Subsidiaries
Notes to the Consolidated Financial Statements
(Tabular dollars in millions, except per share amounts)
(Unaudited)

Note 1. Basis of Presentation

The accompanying Consolidated Financial Statements and footnotes thereto of Automatic Data Processing, Inc. and its subsidiaries (“ADP” or the “Company”) have been prepared in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”). The Consolidated Financial Statements and footnotes thereto are unaudited. In the opinion of the Company’s management, the Consolidated Financial Statements reflect all adjustments, which are of a normal recurring nature, that are necessary for a fair statement of the Company’s results for the interim periods.

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the assets, liabilities, revenue, expenses, and other comprehensive income that are reported in the Consolidated Financial Statements and footnotes thereto. Actual results may differ from those estimates. All relevant footnotes have been adjusted for discontinued operations.

Interim financial results are not necessarily indicative of financial results for a full year. The information included in this Quarterly Report on Form 10-Q should be read in conjunction with the Company’s Annual Report on Form 10-K for the year ended June 30, 2012 (“fiscal 2012”).

Note 2. New Accounting Pronouncements

In July 2012, the Company adopted the Financial Accounting Standards Board (“FASB”) Accounting Standards Update (“ASU”) 2011-05, “Comprehensive Income (Topic 220): Presentation of Comprehensive Income.” ASU 2011-05 requires entities to present net income and other comprehensive income in either a single continuous statement or in two separate, but consecutive, statements of net income and other comprehensive income. The Company has elected to present net income and other comprehensive income on two separate, but consecutive statements. The adoption of ASU 2011-05 did not have an impact on the Company’s consolidated results of operations, financial condition, or cash flows.

In July 2012, the Company adopted ASU 2011-08, “Intangibles—Goodwill and Other (Topic 350): Testing Goodwill for Impairment.” ASU 2011-08 permits an entity to first perform a qualitative assessment to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying value. If it is concluded that the fair value of a reporting unit is less than its carrying value based upon the qualitative assessment, it is necessary to perform the currently prescribed two-step goodwill impairment test. ASU 2011-08 does not change how goodwill is calculated or assigned to reporting units, nor does it revise the requirement to test goodwill annually for impairment. The adoption of ASU 2011-08 did not have an impact on the Company’s consolidated results of operations, financial condition, other comprehensive income, or cash flows.

Note 3. Earnings per Share (“EPS”)

During the three months ended December 31, 2012, the Company completed the sale of two buildings that were previously classified as assets held for sale on the Consolidated Balance Sheets and, as a result, recorded gains of \$2.2 million in other income, net, on the Statements of Consolidated Earnings for the three and six months ended December 31, 2012.

During the three months ended December 31, 2011, the Company sold assets related to rights and obligations to resell a third-party expense management platform, and, as a result recorded a gain of \$66.0 million in other income, net, on the Statements of Consolidated Earnings for the three and six months ended December 31, 2011.

At December 31, 2011, the Company concluded that it had the intent to sell certain available-for-sale securities with unrealized losses of \$5.8 million. As such, the Company recorded an impairment charge of \$5.8 million in other income, net, on the Statements of Consolidated Earnings for the three and six months ended December 31, 2011. As of December 31, 2012, all such securities had been sold.

Note 5. Acquisitions

Assets acquired and liabilities assumed in business combinations were recorded on the Company's Consolidated Balance Sheets as of the respective acquisition dates based upon their estimated fair values at such dates. The results of operations of businesses acquired by the Company have been included in the Statements of Consolidated Earnings since their respective dates of acquisition. The excess of the purchase price over the estimated fair values of the underlying assets acquired and liabilities assumed was allocated to goodwill. In certain circumstances, the allocations of the excess purchase price are based upon preliminary estimates and assumptions and subject to revision when the Company receives final information, including appraisals and other analysis. Accordingly, the measurement period for such purchase price allocations will end when the information, or the facts and circumstances, becomes available, but will not exceed twelve months.

The Company did not acquire any businesses during the six months ended December 31, 2012.

The Company acquired five businesses during the six months ended December 31, 2011 for approximately \$229.1 million, net of cash acquired. These acquisitions resulted in approximately \$149.5 million of goodwill. Intangible assets acquired, which total approximately \$71.3 million for these five acquisitions, included customer contracts and lists, software, and trademarks that are being amortized over a weighted average life of approximately 11 years. The Company finalized the purchase price allocation for these five acquisitions during the six months ended December 31, 2012 and adjusted the preliminary values allocated to certain assets and liabilities in order to reflect final information received. As of December 31, 2012, the Company has accrued certain liabilities representing the estimated fair value of contingent consideration expected to be payable for certain specific performance metrics.

In addition, the Company made contingent payments relating to previously consummated acquisitions of \$0.5 million during the six months ended December 31, 2012.

Note 6. Divestitures

On December 17, 2012, the Company completed the sale of its Taxware Enterprise Service business ("Taxware") for a pre-tax gain of \$58.8 million, less costs to sell, and recorded such gain within earnings from discontinued operations on the Statements of Consolidated Earnings. In connection with the disposal of Taxware, the Company has classified the results of this business as discontinued operations for all periods presented. Taxware was previously reported in the Employer Services segment.

Operating results for discontinued operations were as follows:

	Three Months Ended December 31,		Six Months Ended December 31,	
	2012	2011	2012	2011
Revenues	\$10.8	\$12.3	\$23.7	\$23.9

At December 31, 2012, U.S. Treasury and direct obligations of U.S. government agencies primarily include debt directly issued by Federal Home Loan Banks, Federal Farm Credit Banks, Federal National Mortgage Association ("Fannie Mae"), and Federal Home Loan Mortgage Corporation ("Freddie Mac") with fair values of \$4,509.2 million, \$1,303.7 million, \$289.3 million, and \$129.1 million, respectively. At June 30, 2012, U.S. Treasury and direct obligations of U. S. government agencies

primarily include debt directly issued by Federal Home Loan Banks, Federal Farm Credit Banks, Fannie Mae, and Freddie Mac with fair values of \$4,189.1 million, \$1,134.1 million, \$428.6 million, and \$384.6 million, respectively. U.S. Treasury and direct obligations of U.S. government agencies represent senior, unsecured, non-callable debt that primarily carries a credit rating of AAA, as rated by Moody's and AA+, as rated by Standard & Poor's and has maturities ranging from January 2013 through December 2022. Corporate bonds include investment-grade debt securities, which include a wide variety of issuers, industries, and sectors, primarily carry credit ratings of A and above, and have maturities ranging from January 2013 to December 2022.

At December 31, 2012, asset-backed securities include AAA rated senior tranches of securities with predominately prime collateral of fixed rate credit card, auto loan receivables, and rate reduction with fair values of \$509.4 million, \$172.9 million, and \$103.4 million, respectively. At June 30, 2012, asset-backed securities include AAA rated senior tranches of securities with predominately prime collateral of fixed rate credit card, auto loan receivables, and rate reduction with fair values of \$323.0 million, \$85.1 million, and \$140.0 million, respectively. These securities are collateralized by the cash flows of the underlying pools of receivables. The primary risk associated with these securities is the collection risk of the underlying receivables. All collateral on such asset-backed securities has performed as expected through December 31, 2012.

At December 31, 2012, other securities and their fair value primarily represent: AA and AAA rated supranational bonds of \$438.2 million, AA and AAA rated sovereign bonds of \$411.8 million, AAA rated commercial mortgage-backed securities of \$222.8 million, and AA rated mortgage-backed securities of \$121.5 million that are guaranteed by Fannie Mae and Freddie Mac. At June 30, 2012, other securities and their fair value primarily represent: AAA rated supranational bonds of \$427.7 million, AA and AAA rated sovereign bonds of \$405.0 million, AAA rated commercial mortgage-backed securities of \$282.3 million, and AA rated mortgage-backed securities of \$135.3 million that are guaranteed by Fannie Mae and Freddie Mac. The Company's mortgage-backed securities represent an undivided beneficial ownership interest in a group or pool of one or more residential mortgages. These securities are collateralized by the cash flows of 15-year and 30-year residential mortgages and are guaranteed by Fannie Mae and Freddie Mac as to the timely payment of principal and interest.

Classification of corporate investments on the Consolidated Balance Sheets is as follows:

	December 31, 2012	June 30, 2012
Corporate investments:		
Cash and cash equivalents	\$1,390.9	\$1,548.1
Short-term marketable securities	43.9	30.4
Long-term marketable securities	82.4	86.9
Total corporate investments	\$1,517.2	\$1,665.4

Funds held for clients represent assets that, based upon the Company's intent, are restricted for use solely for the purposes of satisfying the obligations to remit funds relating to the Company's payroll and payroll tax filing services, which are classified as client funds obligations on our Consolidated Balance Sheets.

Funds held for clients have been invested in the following categories:

	December 31, 2012	June 30, 2012
Funds held for clients:		
Restricted cash and cash equivalents held to satisfy client funds obligations	\$5,429.0	\$3,563.0

Restricted long-term marketable securities held to satisfy client funds obligations	16,259.0	15,022.0
Total funds held for clients	\$23,759.0	\$21,539.1

Client funds obligations represent the Company's contractual obligations to remit funds to satisfy clients' payroll and tax payment obligations and are recorded on the Consolidated Balance Sheets at the time that the Company impounds funds from clients. The client funds obligations represent liabilities that will be repaid within one year of the balance sheet date. The Company has reported client funds obligations as a current liability on the Consolidated Balance Sheets totaling \$23,064.7 million and \$20,856.2 million as of December 31, 2012 and June 30, 2012, respectively. The Company has classified funds held for clients as a current asset since these funds are held solely for the purposes of satisfying the client funds

obligations. The Company has reported the cash flows related to the purchases of corporate and client funds marketable securities and related to the proceeds from the sales and maturities of corporate and client funds marketable securities on a gross basis in the investing section of the Statements of Consolidated Cash Flows. The Company has reported the cash inflows and outflows related to client funds investments with original maturities of 90 days or less on a net basis within net increase in restricted cash and cash equivalents and other restricted assets held to satisfy client funds obligations in the investing section of the Statements of Consolidated Cash Flows. The Company has reported the cash flows related to the cash received from and paid on behalf of clients on a net basis within net increase in client funds obligations in the financing section of the Statements of Consolidated Cash Flows.

Approximately 84% of the available-for-sale securities held a AAA or AA rating at December 31, 2012, as rated by Moody's, Standard & Poor's and, for Canadian securities, Dominion Bond Rating Service. All available-for-sale securities were rated as investment grade at December 31, 2012.

Note 8. Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants at the measurement date and is based upon the Company's principal or most advantageous market for a specific asset or liability.

U.S. GAAP provides for a three-level hierarchy of inputs to valuation techniques used to measure fair value, defined as follows:

Level 1 Fair value is determined based upon quoted prices for identical assets or liabilities that are traded in active markets.

Level 2 Fair value is determined based upon inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the asset or liability, including:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in markets that are not active;
- inputs other than quoted prices that are observable for the asset or liability; or
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 Fair value is determined based upon inputs that are unobservable and reflect the Company's own assumptions about the assumptions that market participants would use in pricing the asset or liability based upon the best information available in the circumstances (e.g., internally derived assumptions surrounding the timing and amount of expected cash flows).

Available-for-sale securities included in Level 1 are valued using closing prices for identical instruments that are traded on active exchanges. Over 99% of the Company's available-for-sale securities included in Level 2 are valued utilizing inputs obtained from an independent pricing service. To determine the fair value of the Company's Level 2 investments, a variety of inputs are utilized, including benchmark yields, reported trades, non-binding broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, bids, offers, reference data, new issue data, and monthly payment information. The Company reviews the values generated by the independent pricing service for reasonableness by comparing the valuations received from the independent pricing service to valuations from at least one other observable source. The Company has not adjusted the prices obtained from the independent pricing service. The Company has no available-for-sale securities included in Level 3.

The Company's assessment of the significance of a particular input to the fair value measurement requires judgment and may affect the classification of assets and liabilities within the fair value hierarchy. In certain instances, the inputs used to measure fair value may meet the definition of more than one level of the fair value hierarchy. The significant input with the lowest level priority is used to determine the applicable level in the fair value hierarchy.

The following table presents the Company's assets measured at fair value on a recurring basis at December 31, 2012. Included in the table are available-for-sale securities within corporate investments of \$126.3 million and funds held for clients of \$18,330.0 million. Refer to Note 7 for additional disclosure in relation to corporate investments and funds held for clients.

Note 9. Receivables

Accounts receivable, net, includes the Company's trade receivables, which are recorded based upon the amount the Company expects to receive from its clients, net of an allowance for doubtful accounts. The Company's receivables also include notes receivable for the financing of the sale of computer systems, primarily from auto, truck, motorcycle, marine, recreational vehicle and heavy equipment retailers and manufacturers. Notes receivable are recorded based upon the amount the Company expects to receive from its clients, net of an allowance for doubtful accounts and unearned income. The allowance for doubtful accounts is the Company's best estimate of probable credit losses related to trade receivables and notes receivable based upon the aging of the receivables, historical collection data, internal assessments of credit quality and the economic conditions in the automobile industry, as well as in the economy as a whole. The Company charges off uncollectable amounts against the reserve in the period in which it determines they are uncollectable. Unearned income on notes receivable is amortized using the effective interest method.

The Company's receivables, whose carrying value approximates fair value, are as follows:

	December 31, 2012		June 30, 2012	
	Current	Long-term	Current	Long-term
Trade receivables	\$1,573.1	\$—	\$1,355.7	\$—
Notes receivable	90.2	152.4	89.1	145.5
Less:				
Allowance for doubtful accounts - trade receivables	(46.2) —	(40.7) —
Allowance for doubtful accounts - notes receivable	(5.9) (9.9) (5.4) (8.8
Unearned income - notes receivable	(7.1) (6.9) (7.0) (6.9
	\$1,604.1	\$135.6	\$1,391.7	\$129.8

The Company determines the allowance for doubtful accounts related to notes receivable based upon a specific reserve for known collection issues, as well as a non-specific reserve based upon aging, both of which are based upon history of such losses and current economic conditions. Based upon the Company's methodology, the notes receivable balances with specific and non-specific reserves and the specific and non-specific reserves associated with those balances are as follows:

	December 31, 2012			
	Notes Receivable		Reserve	
	Current	Long-term	Current	Long-term
Specific Reserve	\$0.7	\$1.2	\$0.7	\$1.2
Non-specific Reserve	89.5	151.2	5.2	8.7
	\$90.2	\$152.4	\$5.9	\$9.9
	June 30, 2012			
	Notes Receivable		Reserve	
	Current	Long-term	Current	Long-term
Specific Reserve	\$0.4	\$0.6	\$0.4	\$0.6
Non-specific Reserve	88.7	144.9	5.0	8.2
	\$89.1	\$145.5	\$5.4	\$8.8

The rollforward of the allowance for doubtful accounts related to notes receivable is as follows:

	Current	Long-term
Balance at June 30, 2012	\$5.4	\$8.8
Incremental provision	0.8	1.3
Recoveries and other	—	0.2
Chargeoffs	(0.3) (0.4
Balance at December 31, 2012	\$5.9	\$9.9

The allowance for doubtful accounts as a percentage of notes receivable was approximately 7% as of December 31, 2012 and 6% as of June 30, 2012.

Notes receivable aged over 30 days past due are considered delinquent. Notes receivable aged over 60 days past due and notes receivable with known collection issues are placed on non-accrual status. Interest revenue is not recognized on notes receivable while on non-accrual status. Cash payments received on non-accrual receivables are applied towards the principal. When notes receivable on non-accrual status are again less than 60 days past due, recognition of interest revenue for notes receivable is resumed. At December 31, 2012, the Company had \$1.9 million in notes receivable on non-accrual status, including \$0.6 million of notes receivable aged over 60 days past due. At June 30, 2012, the Company had \$0.4 million in notes receivable on non-accrual status, including \$0.1 million of notes receivable aged over 60 days past due.

On an ongoing basis, the Company evaluates the credit quality of its financing receivables, utilizing aging of receivables, collection experience and charge-offs. In addition, the Company evaluates economic conditions in the auto industry and

16

specific dealership matters, such as bankruptcy. As events related to a specific client dictate, the credit quality of a client is reevaluated.

The aging of the notes receivable past due at December 31, 2012 is as follows:

	Over 30 days to 60 days	Over 60 days
Notes Receivable	\$2.2	\$0.6

At December 31, 2012, approximately 99% of notes receivable are current.

The aging of the notes receivable past due at June 30, 2012 is as follows:

	Over 30 days to 60 days	Over 60 days
Notes Receivable	\$0.7	\$0.1

At June 30, 2012, approximately 100% of notes receivable are current.

	(1,889.9) (1,796.9
Intangible assets, net	\$670.6	\$688.3

Other intangibles consist primarily of purchased rights, covenants, patents, and trademarks (acquired directly or through acquisitions). All of the intangible assets have finite lives and, as such, are subject to amortization. The weighted average remaining useful life of the intangible assets is 7 years (4 years for software and software licenses, 10 years for customer contracts and lists, and 7 years for other intangibles). Amortization of intangible assets was

\$41.4 million and \$42.3 million for the three months ended December 31, 2012 and 2011, respectively, and totaled \$83.4 million and \$84.6 million for the six months ended December 31, 2012 and 2011, respectively.

Estimated future amortization expenses of the Company's existing intangible assets are as follows:

	Amount
Six months ending June 30, 2013	\$82.8
Twelve months ending June 30, 2014	\$144.6
Twelve months ending June 30, 2015	\$112.7
Twelve months ending June 30, 2016	\$76.4

Note 11. Short-term Financing

The Company has a \$2.0 billion, 364-day credit agreement with a group of lenders that matures in June 2013. In addition, the Company has a four-year \$3.25 billion credit facility maturing in June 2015 that contains an accordion feature under which the aggregate commitment can be increased by \$500.0 million, subject to the availability of additional commitments. The Company also has an existing \$1.5 billion five-year credit facility that matures in June 2017 that also contains an accordion feature under which the aggregate commitment can be increased by \$500.0 million, subject to the availability of additional commitments. The interest rate applicable to committed borrowings is tied to LIBOR, the federal funds effective rate or the prime rate depending on the notification provided by the Company to the syndicated financial institutions prior to borrowing. The Company is also required to pay facility fees on the credit agreements. The primary uses of the credit facilities are to provide liquidity to the commercial paper program and funding for general corporate purposes, if necessary. The Company had no borrowings through December 31, 2012 under the credit agreements.

The Company's U.S. short-term funding requirements related to client funds are sometimes obtained through a short-term commercial paper program, which provides for the issuance of up to \$6.75 billion in aggregate maturity value of commercial paper, rather than liquidating previously-collected client funds that have already been invested in available-for-sale securities. The Company's commercial paper program is rated A-1+ by Standard and Poor's and Prime-1 by Moody's. These ratings denote the highest quality commercial paper securities. Maturities of commercial paper can range from overnight to up to 364 days. At December 31, 2012 and June 30, 2012, the Company had no commercial paper outstanding. For the three months ended December 31, 2012 and 2011, the Company's average borrowings were \$3.7 billion and \$3.3 billion, respectively, at weighted average interest rates of 0.2% and 0.1%, respectively. For the six months ended December 31, 2012 and 2011, the Company's average borrowings were \$3.5 billion and \$3.2 billion, respectively, at weighted average interest rate of 0.2% and 0.1%, respectively. The weighted average maturity of the Company's commercial paper during the three and six months ended December 31, 2012 approximated three and two days, respectively.

The Company's U.S. and Canadian short-term funding requirements related to client funds obligations are sometimes obtained on a secured basis through the use of reverse repurchase agreements, rather than liquidating previously-collected client funds that have already been invested in available-for-sale securities. These agreements are collateralized principally by government and government agency securities. These agreements generally have terms ranging from overnight to up to five business days. The Company has \$3.0 billion available to it on a committed basis under these reverse repurchase agreements. At December 31, 2012, the Company had \$13.5 million of obligations outstanding related to reverse repurchase agreements. All outstanding reverse repurchase obligations matured by January 2, 2013 and the outstanding obligations were repaid. At June 30, 2012, there were no outstanding obligations under reverse repurchase agreements. For the three months ended December 31, 2012 and 2011, the Company had average outstanding balances under reverse repurchase agreements of \$416.8 million and \$271.5 million, respectively, at weighted average interest rates of 0.7% and 0.7%, respectively. For the six months ended December 31, 2012 and 2011, the Company has average outstanding balances under reverse repurchase agreements of \$475.7 million and \$384.2 million, respectively, at weighted average interest rates of 0.7% and 0.5%, respectively.

Note 12. Employee Benefit Plans

A. Stock Plans. The Company recognizes stock-based compensation expense in net earnings based on the fair value of the award on the date of grant. Stock-based compensation consists of the following:

Stock Options. Stock options are granted to employees at exercise prices equal to the fair market value of the Company's common stock on the dates of grant. Stock options are issued under a graded vesting schedule. Options granted prior to July 1, 2008 generally vest ratably over five years and have a term of 10 years. Options granted after July 1, 2008 generally vest ratably over four years and have a term of 10 years. Compensation expense for

18

stock options is recognized over the requisite service period for each separately vesting portion of the stock option award.

Employee Stock Purchase Plan. The Company offers an employee stock purchase plan that allows eligible employees to purchase shares of common stock at a price equal to 95% of the market value for the Company's common stock on the last day of the offering period. This plan has been deemed non-compensatory and therefore, no compensation expense has been recorded.

Restricted Stock.

Time-Based Restricted Stock. The Company has issued time-based restricted stock to certain employees which are subject to vesting periods of up to five years from the date of grant. These shares are restricted as to transfer during the vesting period, and are forfeited if the grantee ceases to be employed by the Company prior to vesting or in certain other circumstances. The Company records stock compensation expense relating to the issuance of restricted stock based on market prices on the date of grant on a straight-line basis over the period in which the transfer restrictions exist.

Performance-Based Restricted Stock. The performance-based restricted stock program has a one-year performance period, and a subsequent one-year service period. Under this program, the Company communicates "target awards" to certain key employees at the beginning of the performance period and, as such, dividends are not paid in respect of the "target awards" during the performance period. After the performance period, if the performance targets are achieved, associates are eligible to receive dividends on shares awarded under the program. The performance target is based on earnings per share growth over the performance period, with possible payouts at the end of the performance period ranging from 0% to 150% of the "target awards." Stock-based compensation expense is measured based upon the fair value of the award on the grant date. Compensation expense is recognized on a straight-line basis over the vesting period of approximately 24 months, based upon the probability that the performance target will be met.

The Company currently utilizes treasury stock to satisfy stock option exercises, issuances under the Company's employee stock purchase plan and restricted stock awards. From time to time, the Company may repurchase shares of its common stock under its authorized share repurchase programs. The Company repurchased 2.0 million shares in the three months ended December 31, 2012 as compared to 0.9 million shares repurchased in the three months ended December 31, 2011 and the Company repurchased 5.4 million shares in the six months ended December 31, 2012 as compared to 6.2 million shares repurchased in the six months ended December 31, 2011. The Company considers several factors in determining when to execute share repurchases, including, among other things, actual and potential acquisition activity, cash balances and cash flows, issuances due to employee benefit plan activity, and market conditions.

Stock-based compensation expense of \$24.3 million and \$27.1 million was recognized in earnings for the three months ended December 31, 2012 and 2011, respectively, as well as related tax benefits of \$9.2 million and \$10.0 million, respectively. Stock-based compensation expense of \$41.9 million and \$45.5 million was recognized in earnings for the six months ended December 31, 2012 and 2011, respectively, as well as related tax benefits of \$15.7 million and \$16.8 million, respectively.

The fair value of each stock option issued is estimated on the date of grant using a binomial option pricing model. The binomial model considers a range of assumptions related to volatility, risk-free interest rate and employee exercise behavior. Expected volatilities utilized in the binomial model are based on a combination of implied market volatilities, historical volatility of the Company's stock price and other factors. Similarly, the dividend yield is based on historical experience and expected future changes. The risk-free rate is derived from the U.S. Treasury yield curve in effect at the time of grant. The binomial model also incorporates exercise and forfeiture assumptions based on an analysis of historical data. The expected life of the stock option grant is derived from the output of the binomial model and represents the period of time that options granted are expected to be outstanding.

The fair value for stock options granted was estimated at the date of grant using the following assumptions:

	Six Months Ended December 31,

B. Pension Plans

The components of net pension expense were as follows:

	Three Months Ended		Six Months Ended	
	December 31,		December 31,	
	2012	2011	2012	2011
Service cost – benefits earned during the period	\$16.8	\$14.3	\$33.6	\$28.6
Interest cost on projected benefits	13.8	15.5	27.5	31.0
Expected return on plan assets	(27.4) (24.4) (54.8) (48.8
Net amortization and deferral	7.7	3.7	15.5	7.5
Net pension expense	\$10.9	\$9.1	\$21.8	\$18.3

During the six months ended December 31, 2012, the Company contributed \$130.1 million to the pension plans and expects to contribute approximately \$4.2 million during the remainder of the fiscal year ended June 30, 2013.

Note 13. Income Taxes

The effective tax rate for the three months ended December 31, 2012 and 2011 was 33.4% and 35.3%, respectively. The decrease in the effective tax rate is due to a reduction in foreign taxes and the availability of foreign tax credits during the three month period ended December 31, 2012.

The effective tax rate for the six months ended December 31, 2012 and 2011 was 34.2% and 34.8%, respectively. The decrease in the effective tax rate is due to a reduction in foreign taxes and the availability of foreign tax credits during the six month period ended December 31, 2012, partially offset by the expiration of certain statutes of limitation during the six month period ended December 31, 2011.

Note 14. Commitments and Contingencies

On July 18, 2011, athenahealth, Inc. filed a patent infringement lawsuit against ADP AdvancedMD, Inc. (“ADP AdvancedMD”), a subsidiary of the Company, seeking monetary damages, injunctive relief, and costs. The allegations include a claim that ADP AdvancedMD’s activities in providing medical practice management and billing and revenue management software and associated services to physicians and medical practice managers infringe a patent owned by athenahealth, Inc. The parties are currently engaged in the discovery process. The Company believes that it has meritorious defenses to this lawsuit and continues to vigorously defend itself against the allegations.

In June 2011, the Company received a Commissioner’s Charge from the U.S. Equal Employment Opportunity Commission (“EEOC”) alleging that the Company has violated Title VII of the Civil Rights Act of 1964 by refusing to recruit, hire, transfer and promote certain persons on the basis of their race, in the State of Illinois from at least the period of January 1, 2007 to the present. The Company continues to investigate the allegations set forth in the Commissioner’s Charge and is cooperating with the EEOC’s investigation.

The Company is subject to various claims and litigation in the normal course of business. When a loss is considered probable and reasonably estimable, the Company records a liability in the amount of its best estimate for the ultimate loss. At this time the Company is unable to estimate any reasonably possible loss, or range of reasonably possible loss, with respect to the matters described above. This is primarily because these matters involve complex issues subject to inherent uncertainty. There can be no assurance that these matters will be resolved in a manner that is not adverse to the Company.

It is not the Company's business practice to enter into off-balance sheet arrangements. In the normal course of business, the Company may enter into contracts in which it makes representations and warranties that relate to the performance of the Company's services and products. The Company does not expect any material losses related to such representations and warranties.

Note 15. Foreign Currency Risk Management Programs

The Company transacts business in various foreign jurisdictions and is therefore exposed to market risk from changes in foreign currency exchange rates that could impact its consolidated results of operations, financial position or cash flows. The Company manages its exposure to these market risks through its regular operating and financing activities and, when deemed appropriate, through the use of derivative financial instruments. The Company does not use derivative financial instruments for trading purposes. The Company had no derivative financial instruments outstanding at December 31, 2012 or June 30, 2012.

Note 16. Interim Financial Data by Segment

Based upon similar economic characteristics and operational characteristics, the Company's strategic business units have been aggregated into the following three reportable segments: Employer Services, PEO Services, and Dealer Services. The primary components of the "Other" segment are the results of operations of ADP Indemnity (a wholly-owned captive insurance company that provides workers' compensation and employer's liability deductible reimbursement insurance protection for PEO Services worksite employees), non-recurring gains and losses, miscellaneous processing services, such as customer financing transactions, and certain expenses that have not been charged to the reportable segments, such as stock-based compensation expense. Certain revenues and expenses are charged to the reportable segments at a standard rate for management reasons. Other costs are recorded based on management responsibility. The prior year reportable segments' revenues and earnings from continuing operations before income taxes have been adjusted to reflect updated fiscal 2013 budgeted foreign exchange rates. In addition, there is a reconciling item for the difference between actual interest income earned on invested funds held for clients and interest credited to Employer Services and PEO Services at a standard rate of 4.5%. The reportable segments' results also include an internal cost of capital charge related to the funding of acquisitions and other investments. All of these adjustments/charges are reconciling items to the Company's reportable segments' revenues and/or earnings from continuing operations before income taxes and result in the elimination of these adjustments/charges in consolidation.

FORWARD-LOOKING STATEMENTS

This report and other written or oral statements made from time to time by Automatic Data Processing, Inc (“ADP”) may contain “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. Statements that are not historical in nature, and which may be identified by the use of words like “expects,” “assumes,” “projects,” “anticipates,” “estimates,” “we believe,” “could” and other words of similar meaning, are forward-looking statements. These statements are based on management's expectations and assumptions and are subject to risks and uncertainties that may cause actual results to differ materially from those expressed. Factors that could cause actual results to differ materially from those contemplated by the forward-looking statements include: ADP's success in obtaining, retaining and selling additional services to clients; the pricing of services and products; changes in laws regulating payroll taxes, professional employer organizations and employee benefits; overall market and economic conditions, including interest rate and foreign currency trends; competitive conditions; auto sales and related industry changes; employment and wage levels; changes in technology; availability of skilled technical associates, and; the impact of new acquisitions and divestitures. ADP disclaims any obligation to update any forward-looking statements, whether as a result of new information, future events or otherwise. These risks and uncertainties, along with the risk factors discussed under "Item 1A. Risk Factors" in our Annual Report on Form 10-K for the fiscal year ended June 30, 2012 (“fiscal 2012”), should be considered in evaluating any forward-looking statements contained herein.

CRITICAL ACCOUNTING POLICIES

Our consolidated financial statements and accompanying notes have been prepared in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”). The preparation of these financial statements requires management to make estimates, judgments and assumptions that affect reported amounts of assets, liabilities, revenues and expenses. We continually evaluate the accounting policies and estimates used to prepare the consolidated financial statements. The estimates are based on historical experience and assumptions believed to be reasonable under current facts and circumstances. Actual amounts and results could differ from these estimates made by management. Certain accounting policies that require significant management estimates and are deemed critical to our results of operations or financial position are discussed in our fiscal 2012 Annual Report on Form 10-K in the Critical Accounting Policies section of Management's Discussion and Analysis of Financial Condition and Results of Operations.

RESULTS OF OPERATIONS

Executive Overview

As we execute against our strategic pillars and focus on driving innovation, service excellence, and building talent, our results continue to reflect the strength and resilience of our underlying business model. Our focus on product innovation and our investment in sales associate headcount has led to growth in new business sales and solid revenue retention across our business segments. Our business segments have continued to perform well, driving solid revenue growth and pre-tax margin expansion, and we also remain pleased with the continued strength in our same-store-sales growth. We continue to be impacted by the decline in high-margin client interest revenues as a result of lower interest rates, partially offset by an increase in our average client funds balances. Despite the negative impact to our margins from our recently completed strategic acquisitions, we remain pleased with their current performance, including their positive contribution to our revenue growth. Our financial condition and balance sheet remain solid at December 31,

2012, with cash and cash equivalents and marketable securities of \$1.5 billion.

Our business model remains strong with a high percentage of recurring revenues, excellent margins, the ability to generate consistent, healthy cash flows, strong client revenue retention, and low capital expenditure requirements. We invest our funds held for clients in accordance with ADP's prudent and conservative investment guidelines where the safety, liquidity, and diversification are the foremost objectives of our investment strategy. The portfolio is predominantly invested in AAA/AA rated fixed-income securities. We continue to return excess cash to our shareholders through dividends and our share repurchase program.

Total Revenues

Total revenues increased \$177.1 million, or 7%, to \$2,747.8 million for the three months ended December 31, 2012, from \$2,570.7 million for the three months ended December 31, 2011, due to an increase in revenues in Employer Services of 7%, or \$125.7 million, to \$1,907.7 million, an increase in revenues in PEO Services of 13%, or \$51.9 million, to \$465.7 million, and an increase in revenues in Dealer Services of 11%, or \$42.9 million, to \$449.8 million. Total revenues would have increased approximately 6% without the impact of acquisitions completed in fiscal 2012 and the impact to revenues pertaining to the sale in fiscal 2012 of assets related to rights and obligations to resell a third-party expense management platform. In addition, revenues decreased \$11.6 million due to changes in foreign currency exchange rates.

Total revenues for the three months ended December 31, 2012 include interest on funds held for clients of \$101.7 million, as compared to \$117.9 million for the three months ended December 31, 2011. The decrease in the consolidated interest earned on funds held for clients resulted from the decrease in the average interest rate earned to 2.4% during the three months ended December 31, 2012 as compared to 3.0% for the three months ended December 31, 2011, partially offset by an increase in our average client funds balance of 9%, to \$17.0 billion, for the three months ended December 31, 2012.

Total revenues increased \$303.7 million, or 6%, to \$5,385.3 million for the six months ended December 31, 2012, from \$5,081.6 million for the six months ended December 31, 2011, due to an increase in revenues in Employer Services of 7%, or \$235.8 million, to \$3,726.7 million, an increase in revenues in PEO Services of 13%, or \$103.2

million, to \$917.6 million, and an increase in revenues in Dealer Services of 10%, or \$80.1 million, to \$889.6 million. Total revenues would have increased approximately 5% without the impact of acquisitions completed in fiscal 2012 and the impact to revenues pertaining to the sale in fiscal 2012 of assets related to rights and obligations to resell a third-party expense management platform. In addition, revenues decreased \$58.3 million due to changes in foreign currency exchange rates.

Total revenues for the six months ended December 31, 2012 include interest on funds held for clients of \$208.4 million, as compared to \$239.8 million for the six months ended December 31, 2011. The decrease in the consolidated interest earned on funds held for clients resulted from the decrease in the average interest rate earned to 2.5% during the six months ended December 31, 2012 as compared to 3.1% for the six months ended December 31, 2011, partially offset by an increase in our average client funds balance of 8%, to \$16.5 billion, for the six months ended December 31, 2012.

Total Expenses

Our total expenses increased \$161.3 million, or 8%, to \$2,252.0 million for the three months ended December 31, 2012, from \$2,090.7 million for the three months ended December 31, 2011. The increase in our consolidated expenses was due to an increase in operating expenses of \$97.4 million, an increase in selling, general and administrative expenses of \$49.8 million, and an increase in systems development and programming costs of \$12.6 million. Total expenses would have increased approximately 6% without the impact of acquisitions completed in fiscal 2012.

Our total expenses increased \$273.0 million, or 7%, to \$4,453.1 million for the six months ended December 31, 2012, from \$4,180.1 million for the six months ended December 31, 2011. The increase in our consolidated expenses was due to an increase in operating expenses of \$175.2 million, an increase in selling, general and administrative expenses of \$74.3 million, and an increase in systems development and programming costs of \$21.0 million. Total expenses would have increased approximately 5% without the impact of acquisitions completed in fiscal 2012.

Our total costs of revenues increased \$110.6 million, or 7% to \$1,624.3 million for the three months ended December 31, 2012, as compared to the three months ended December 31, 2011, due to an increase in operating expenses of \$97.4 million and an increase in systems development and programming costs of \$12.6 million.

Our total costs of revenues increased \$196.8 million, or 7% to \$3,210.9 million for the six months ended December 31, 2012, as compared to the six months ended December 31, 2011, due to an increase in operating expenses of \$175.2 million and an increase in systems development and programming costs of \$21.0 million.

Operating expenses increased \$97.4 million, or 7%, for the three months ended December 31, 2012, as compared to the three months ended December 31, 2011 due to the increase in revenues described above, including the increases in PEO Services, which has pass-through costs that are re-billable and which includes costs for benefits coverage, workers' compensation coverage and state unemployment taxes for worksite employees. These pass-through costs were \$353.8 million for the three months ended December 31, 2012, which included costs for benefits coverage of \$296.0 million and costs for workers' compensation and payment of state unemployment taxes of \$57.8 million. These pass-through costs were \$314.9 million for the three months ended December 31, 2011, which included costs for benefits coverage of \$261.9 million and costs for workers' compensation and payment of state unemployment taxes of \$53.0 million. The increase in operating expenses is also due to expenses related to businesses acquired of \$24.3 million, offset by a decrease of \$6.4 million due to changes in foreign currency exchange rates.

Operating expenses increased \$175.2 million, or 7%, for the six months ended December 31, 2012, as compared to the six months ended December 31, 2011 due to the increase in revenues described above, including the increases in PEO Services, which has pass-through costs that are re-billable and which includes costs for benefits coverage, workers' compensation coverage and state unemployment taxes for worksite employees. These pass-through costs were \$701.5 million for the six months ended December 31, 2012, which included costs for benefits coverage of \$584.2 million and costs for workers' compensation and payment of state unemployment taxes of \$117.3 million. These pass-through costs were \$623.2 million for the six months ended December 31, 2011, which included costs for benefits coverage of

\$516.7 million and costs for workers' compensation and payment of state unemployment taxes of \$106.5 million. The increase in operating expenses is also due to expenses related to businesses acquired of \$64.1 million, offset by a decrease of \$33.0 million due to changes in foreign currency exchange rates.

Systems development and programming costs increased \$12.6 million, or 9%, for the three months ended December 31, 2012, as compared to the three months ended December 31, 2011 due to increased costs to develop, support, and maintain our services and products and increased costs related to businesses acquired of \$2.4 million.

Systems development and programming costs increased \$21.0 million, or 7%, for the six months ended December 31, 2012, as compared to the six months ended December 31, 2011 due to increased costs to develop, support, and maintain our services and products and increased costs related to businesses acquired of \$4.7 million partially offset by a decrease of \$6.1 million due to changes in foreign currency exchange rates.

Selling, general and administrative expenses increased \$49.8 million, or 9%, for the three months ended December 31, 2012, as compared to the three months ended December 31, 2011. The increase in expenses was related to an increase in selling expenses of \$6.5 million resulting from increases in sales force headcount and an increase in selling, general and administrative expenses of businesses acquired of \$4.3 million, partially offset by a decrease of \$4.2 million due to changes in foreign currency exchange rates.

Selling, general and administrative expenses increased \$74.3 million, or 6%, for the six months ended December 31, 2012, as compared to the six months ended December 31, 2011. The increase in expenses was related to an increase in selling expenses of \$21.7 million resulting from increases in sales force headcount, an increase in selling, general and administrative expenses of businesses acquired of \$11.5 million, and an increase of \$5.5 million in severance expenses, partially offset by a decrease of \$21.6 million due to changes in foreign currency exchange rates.

Other income, net, decreased \$63.2 million for the three months ended December 31, 2012 as compared to the three months ended December 31, 2011. The decrease was due to a \$66.0 million gain on the sale of assets related to rights and obligations to resell a third-party expense management platform during the three months ended December 31, 2011 and a decrease in interest income on corporate funds of \$5.7 million during the three months ended December 31, 2012 as compared to the three months ended December 31, 2011. The decrease in interest income on corporate funds resulted from lower average interest rates from 2.2% for the three months ended December 31, 2011 to 1.6% for the three months ended December 31, 2012, partially offset by increasing average daily corporate funds which increased from \$4.8 billion for the three months ended December 31, 2011 to \$5.3 billion for the three months ended December 31, 2012. Such decreases were partially offset by gains of \$2.2 million pertaining to the sale of two buildings during the three months ended December 31, 2012. In addition, the Company recognized a \$5.8 million impairment loss on available-for-sale securities during the three months ended December 31, 2011.

Other income, net, decreased \$68.2 million for the six months ended December 31, 2012 as compared to the six months ended December 31, 2011. The decrease was due to a \$66.0 million gain on the sale of assets related to rights and obligations to resell a third-party expense management platform during the six months ended December 31, 2011 and a decrease in interest income on corporate funds of \$11.5 million during the six months ended December 31, 2012 as compared to the six months ended December 31, 2011. The decrease in interest income on corporate funds resulted from lower average interest rates from 2.3% for the six months ended December 31, 2011 to 1.8% for the six months ended December 31, 2012, partially offset by increasing average daily corporate funds which increased from \$4.9

Such decreases were partially offset by gains of \$2.2 million pertaining to the sale of two buildings during the six months ended December 31, 2012. In addition, the Company recognized a \$5.8 million impairment loss on available-for-sale securities during the six months ended December 31, 2011.

Earnings from Continuing Operations before Income Taxes

Earnings from continuing operations before income taxes decreased \$47.4 million, or 8%, to \$528.8 million for the three months ended December 31, 2012 compared to \$576.2 million for the three months ended December 31, 2011, which included the effect of a \$66 million gain on the sale of assets related to the rights and obligations to resell a third-party expense management platform. Overall margin decreased approximately 320 basis points for the three months ended December 31, 2012, with approximately 260 basis points of margin decrease attributable to a gain on the sale of assets during the three months ended December 31, 2011, 20 basis points of margin decrease attributable to acquisitions completed in fiscal 2012, and 90 basis points related to the continued decline in interest on funds held for clients discussed above. These decreases were partially offset by margin improvements in our business segments.

Earnings from continuing operations before income taxes decreased \$37.5 million, or 4%, to \$994.4 million for the six months ended December 31, 2012, compared to \$1,031.9 million for the six months ended December 31, 2011, which included the effect of a \$66 million gain on the sale of assets related to the rights and obligations to resell a third-party expense management platform. Overall margin decreased approximately 180 basis points for the six months ended December 31, 2012, with approximately 140 basis points of margin decrease attributable to a gain on the sale of assets during the six months ended December 31, 2011, 30 basis points of margin decrease attributable to acquisitions completed in fiscal 2012, and 80 basis points related to the continued decline in interest on funds held for clients discussed above. These decreases were partially offset by margin improvements in our business segments.

Provision for Income Taxes

The effective tax rate for the three months ended December 31, 2012 and 2011 was 33.4% and 35.3%, respectively. The decrease in the effective tax rate is due to a reduction in foreign taxes and the availability of foreign tax credits during the three month period ended December 31, 2012.

The effective tax rate for the six months ended December 31, 2012 and 2011 was 34.2% and 34.8%, respectively. The decrease in the effective tax rate is due to a reduction in foreign taxes and the availability of foreign tax credits during the six month period ended December 31, 2012, partially offset by the expiration of certain statutes of limitation during the six month period ended December 31, 2011.

Net Earnings from Continuing Operations and Diluted Earnings per Share from Continuing Operations

Net earnings from continuing operations decreased \$20.8 million, or 6%, to \$352.0 million for the three months ended December 31, 2012 compared to \$372.8 million for the three months ended December 31, 2011, which included the effect of an after tax gain on the sale of assets of \$41.2 million. Diluted earnings per share from continuing operations decreased 5% to \$0.72 for the three months ended December 31, 2012 compared to \$0.76 for the three months ended December 31, 2011.

Net earnings from continuing operations decreased \$18.8 million, or 3%, to \$654.4 million for the six months ended December 31, 2012 compared to \$673.2 million for the six months ended December 31, 2011, which included the effect of an after tax gain on the sale of assets of \$41.2 million. Diluted earnings per share from continuing operations decreased 2% to \$1.34 for the six months ended December 31, 2012 compared to \$1.37 for the six months ended December 31, 2011.

For the three and six months ended December 31, 2012, the decrease in diluted earnings per share from continuing operations reflects the decrease in net earnings from continuing operations and the impact of fewer shares outstanding as a result of the repurchase of approximately 2.0 million and 5.4 million shares during the three and six months ended December 31, 2012, respectively, and the repurchase of 14.6 million shares in the fiscal year ended June 30, 2012.

The following table reconciles our results for the three and six months ended December 31, 2011 to adjusted results that exclude the sale of assets related to rights and obligations to resell a third-party expense management platform. We use certain adjusted results, among other measures, to evaluate our operating performance in the absence of certain items and for planning and forecasting of future periods. We believe that the adjusted results provide relevant and useful information for investors because it allows investors to view performance in a manner similar to the method used by us and improves our ability to understand our operating performance. Since adjusted earnings and adjusted diluted EPS are not measures of performance calculated in accordance with U.S. GAAP, they should not be considered in isolation of, or as a substitute for, earnings and diluted EPS and they may not be comparable to similarly titled measures employed by other companies.

The prior year's reportable segment revenues and earnings from continuing operations before income taxes have been adjusted to reflect updated fiscal 2013 budgeted foreign exchange rates. This adjustment is made for management purposes so that the reportable segments' revenues are presented on a consistent basis without the impact of changes in foreign currency exchange rates. This adjustment is a reconciling item to revenues and earnings from continuing operations before income taxes and is eliminated in consolidation.

Certain revenues and expenses are charged to the reportable segments at a standard rate for management reasons. Other costs are charged to the reportable segments based on management's responsibility for the applicable costs. The primary components of the "Other" segment are the results of operations of ADP Indemnity (a wholly-owned captive insurance company that provides workers' compensation and employer's liability deductible reimbursement insurance protection for PEO Services worksite employees), non-recurring gains and losses, miscellaneous processing services, such as customer financing transactions, and certain expenses that have not been charged to the reportable segments, such as stock-based compensation expense.

In addition, the reconciling items include an adjustment for the difference between actual interest income earned on invested funds held for clients and interest credited to Employer Services and PEO Services at a standard rate of 4.5%. This allocation is made for management reasons so that the reportable segments' results are presented on a consistent basis without the impact of fluctuations

in interest rates. This allocation is a reconciling item to our reportable segments' revenues and earnings from continuing operations before income taxes and is eliminated in consolidation.

Finally, the reportable segments' results also include a cost of capital charge related to the funding of acquisitions and other investments. This charge is a reconciling item to earnings from continuing operations before income taxes and is eliminated in consolidation.

Employer Services

Revenues

Employer Services' revenues increased \$125.7 million, or 7%, to \$1,907.7 million for the three months ended December 31, 2012 as compared to the three months ended December 31, 2011. Revenues for our Employer Services business would have increased approximately 6% without the impact of acquisitions and revenues pertaining to the sale in fiscal 2012 of assets related to rights and obligations to resell a third-party expense management platform. Revenues increased due to new business started during the second quarter from new business sales growth, an increase in the number of employees on our clients' payrolls, and the impact of price increases. Our worldwide client revenue retention rate for the three months ended December 31, 2012 increased 80 basis points as compared to our rate for the three months ended December 31, 2011. Pays per control, which represents the number of employees on our clients' payrolls as measured on a same-store-sales basis utilizing a representative subset of payrolls ranging from small to large businesses that are reflective of a broad range of U.S. geographic regions, increased 2.6% for the three months ended December 31, 2012.

Employer Services' revenues increased \$235.8 million, or 7%, to \$3,726.7 million for the six months ended December 31, 2012 as compared to the six months ended December 31, 2011. Revenues for our Employer Services business would have increased approximately 5% without the impact of acquisitions and revenues pertaining to the sale in fiscal 2012 of assets related to rights and obligations to resell a third-party expense management platform. Revenues increased due to new business started during the first six months from new business sales growth, an increase in the number of employees on our clients' payrolls, and the impact of price increases. Our worldwide client revenue retention rate for the six months ended December 31, 2012 increased 20 basis points as compared to our rate for the six months ended December 31, 2011. Pays per control, which represents the number of employees on our clients' payrolls as measured on a same-store-sales basis utilizing a representative subset of payrolls ranging from small to large businesses that are reflective of a broad range of U.S. geographic regions, increased 2.9% for the six months ended December 31, 2012.

Earnings from Continuing Operations before Income Taxes

Employer Services' earnings from continuing operations before income taxes increased \$44.0 million, or 10%, to \$485.0 million for the three months ended December 31, 2012 as compared to the three months ended December 31, 2011. The increase was due to the increase in revenues of \$125.7 million discussed above, which was partially offset by an increase in expenses of \$81.7 million. In addition to an increase in expenses related to increased revenues, expenses increased for the three months ended December 31, 2012 due to increases in sales headcount and labor-related costs over the same period prior year levels coupled with the effects of acquisitions. Overall margin increased 70 basis points to 25.4% for the three months ended December 31, 2012 as compared to 24.7% for the three months ended December 31, 2011, and included the benefit of increased operating scale and lower selling expenses, partially offset by approximately 50 basis points of margin decline attributable to acquisitions.

Employer Services' earnings from continuing operations before income taxes increased \$58.6 million, or 7%, to \$906.8 million for the six months ended December 31, 2012 as compared to the six months ended December 31, 2011. The

increase was due to the increase in revenues of \$235.8 million discussed above, which was partially offset by an increase in expenses of \$177.2 million. In addition to an increase in expenses related to increased revenues, expenses increased for the six months ended December 31, 2012 due to increases in sales headcount and labor-related costs over the same period prior year levels coupled with the effects of acquisitions. Overall margin was flat at 24.3% for the six months ended December 31, 2012 as compared to 24.3% for the six months ended December 31, 2011, and included the benefit of increased operating scale, offset by approximately 70 basis points of margin decline attributable to acquisitions.

PEO Services

Revenues

PEO Services' revenues increased \$51.9 million, or 13%, to \$465.7 million for the three months ended December 31, 2012, as compared to the three months ended December 31, 2011. Such revenues include pass-through costs of \$353.8 million for the three months ended December 31, 2012 and \$314.9 million for the three months ended December 31, 2011 associated with benefits coverage, workers' compensation coverage, and state unemployment taxes for worksite employees. The increase in revenues was due to a 10% increase in the average number of worksite employees, resulting from an increase in the number of new clients and growth in our existing clients.

PEO Services' revenues increased \$103.2 million, or 13%, to \$917.6 million for the six months ended December 31, 2012, as compared to the six months ended December 31, 2011. Such revenues include pass-through costs of \$701.5 million for the six months ended December 31, 2012 and \$623.2 million for the six months ended December 31, 2011 associated with benefits coverage, workers' compensation coverage, and state unemployment taxes for worksite employees. The increase in revenues was due to a 10% increase in the average number of worksite employees, resulting from an increase in the number of new clients and growth in our existing clients.

Earnings from Continuing Operations before Income Taxes

PEO Services' earnings from continuing operations before income taxes increased \$7.3 million, or 17%, to \$49.8 million for the three months ended December 31, 2012, as compared to the three months ended December 31, 2011. Earnings from continuing operations before income taxes increased due to growth in earnings related to the increase in the average number of worksite employees. Overall margin increased to 10.7% for the three months ended December 31, 2012 as compared to 10.3% for the three months ended December 31, 2011, resulting from slower growth in pass-through costs.

PEO Services' earnings from continuing operations before income taxes increased \$16.9 million, or 21%, to \$96.0 million for the six months ended December 31, 2012, as compared to the six months ended December 31, 2011. Earnings from continuing operations before income taxes increased due to growth in earnings related to the increase in the average number of worksite employees. Overall margin increased to 10.5% for the six months ended December 31, 2012 as compared to 9.7% for the six months ended December 31, 2011, resulting from slower growth in pass-through costs.

Dealer Services

Revenues

Dealer Services' revenues increased \$42.9 million, or 11%, to \$449.8 million for the three months ended December 31, 2012 as compared to the three months ended December 31, 2011. Excluding the impact of acquisitions completed in fiscal 2012, revenues would have increased approximately 9% due to new clients, improved client retention, and growth in our key products during the three months ended December 31, 2012, as compared to the three months ended December 31, 2011. The growth in our key products included increased users of our digital marketing solutions, our "Drive" and "PFW IntelliDealer" dealer management systems (DMS) solutions, as well as of our hosted IP telephony and data services. We continue to see increased utilization of our credit report and vehicle registration transactions, consistent with the steady improvement of the North American new car market.

Dealer Services' revenues increased \$80.1 million, or 10%, to \$889.6 million for the six months ended December 31, 2012 as compared to the six months ended December 31, 2011. Excluding the impact of acquisitions completed in fiscal 2012, revenues would have increased approximately 8% due to new clients, improved client retention, and growth in our key products during the six months ended December 31, 2012, as compared to the six months ended December 31, 2011. The growth in our key products included increased users of our digital marketing solutions, our "Drive" and "PFW IntelliDealer" dealer management systems (DMS) solutions, as well as of our hosted IP telephony and data services. We continue to see increased utilization of our credit report and vehicle registration transactions, consistent with the steady improvement of the North American new car market.

Earnings from Continuing Operations before Income Taxes

Dealer Services' earnings from continuing operations before income taxes increased \$15.5 million, or 22%, to \$86.2 million for the three months ended December 31, 2012, as compared to the three months ended December 31, 2011. This increase was due to the increase in revenues of \$42.9 million discussed above and was partially offset by higher operating expenses related to implementing and servicing new clients and products. Overall margin increased approximately 180 basis points from 17.4% to 19.2% due to increased operating scale and included approximately 20 basis points of margin improvement related to acquisitions completed in fiscal 2012.

Dealer Services' earnings from continuing operations before income taxes increased \$28.1 million, or 21.0%, to \$162.2 million for the six months ended December 31, 2012, as compared to the six months ended December 31, 2011. This increase was due to the increase in revenues of \$80.1 million discussed above and was partially offset by higher operating expenses related to implementing and servicing new clients and products. Overall margin increased approximately 160 basis points from 16.6% to 18.2% due to increased operating scale and included approximately 20 basis points of margin improvement related to acquisitions completed in fiscal 2012.

Other

The primary components of the "Other" segment are the results of operations of ADP Indemnity, non-recurring gains and losses, miscellaneous processing services, such as customer financing transactions, and certain expenses that have not been charged to the reportable segments, such as stock-based compensation expense.

ADP Indemnity provides workers' compensation and employer's liability deductible reimbursement insurance protection for PEO Services worksite employees up to a \$1 million per occurrence retention. PEO Services has secured specific per occurrence and aggregate stop loss insurance from a wholly-owned and regulated insurance carrier of AIG that covers all losses in excess of the \$1 million per occurrence retention and also any aggregate losses within the \$1 million retention that collectively exceed a certain level in each policy year. We utilize historical loss experience and actuarial judgment to determine the estimated claim liability for the PEO Services business. Premiums are charged to PEO Services to cover the claims expected to be incurred by the PEO Services' worksite employees. Changes in estimated ultimate incurred losses are recognized by ADP Indemnity. During the six months ended December 31, 2012 ADP Indemnity paid a premium of \$141.4 million to enter into a reinsurance arrangement with ACE American Insurance Company to cover substantially all losses incurred by ADP Indemnity for the fiscal 2013 policy year up to the \$1 million per occurrence retention related to the workers' compensation and employer's liability deductible reimbursement insurance protection for PEO Services worksite employees.

FINANCIAL CONDITION, LIQUIDITY AND CAPITAL RESOURCES

At December 31, 2012, cash and marketable securities were \$1,517.2 million, stockholders' equity was \$6,395.3 million, and the ratio of long-term debt-to-equity was 0.2%. Working capital before funds held for clients and client funds obligations at December 31, 2012 was \$1,419.6 million, as compared to \$1,337.0 million at June 30, 2012. The change in working capital resulted from an increase in accounts receivable, net and other current assets, offset by a decrease in cash and cash equivalents and net unfavorable changes in the remaining components of working capital.

Our principal sources of liquidity for operations are derived from cash generated through operations and through corporate cash and marketable securities on hand. We continued to generate positive cash flows from operations during the six months ended December 31, 2012, and we held approximately \$1.5 billion of cash and marketable securities at December 31, 2012. We also have the ability to generate cash through our financing arrangements under our U.S. short-term commercial paper program and our U.S. and Canadian short-term reverse repurchase agreements to meet short-term funding requirements related to client funds obligations. Of the cash and cash equivalents and

marketable securities held at December 31, 2012, approximately \$13.4 million are classified as short-term marketable securities and were pledged as collateral by our Canadian subsidiary to engage in reverse repurchase obligations that were subsequently settled as of January 2, 2013. An additional \$0.5 billion was held by our foreign subsidiaries. Amounts held by foreign subsidiaries, if repatriated to the U.S., would generally be subject to foreign withholding and U.S. income taxes, adjusted for foreign tax credits. Our intent is to permanently reinvest these funds outside of the U.S. and our current plans do not demonstrate a need to repatriate them to fund our U.S. operations.

Net cash flows provided by operating activities were \$383.4 million for the six months ended December 31, 2012, as compared to \$747.9 million provided by operating activities for the six months ended December 31, 2011. The decrease in net cash flows provided by operating activities was due to the payment of a premium of \$141.4 million related to our reinsurance arrangement with ACE American Insurance Company, higher pension plan contributions of \$50.9 million, a variance in the timing of tax-related net cash payments of \$107.2 million, and an unfavorable change in the net components of working capital.

Net cash flows used in investing activities were \$2,143.8 million for the six months ended December 31, 2012, as compared to net cash flows provided by investing activities of \$1,568.1 million for the six months ended December 31, 2011. The net change in cash used in investing activities is due to the timing of receipts and disbursements of restricted cash and cash equivalents held to satisfy client funds obligations of \$3,854.0 million, partially offset by a decrease in the purchases of corporate and client funds marketable securities of \$72.7 million, a decrease in cash used for business acquisitions of \$175.6 million, and an increase in cash received from the sale of businesses included in discontinued operations of \$161.4 million.

Net cash flows provided by financing activities were \$1,587.0 million for the six months ended December 31, 2012 as compared to net cash flows used in financing activities of \$2,339.8 million for the six months ended December 31, 2011. The net change in cash provided by financing activities is due to the net change in client funds obligations of \$3,949.1 million as a result of the timing of cash received and payments made related to client funds, and higher proceeds received from our stock purchase plan and the exercises of stock options. We purchased approximately 5.4 million shares of our common stock at an average price per share of \$57.31 during the six months ended December 31, 2012 compared to purchases of 6.2 million shares at an average price per share of \$47.99 during the six months ended December 31, 2011. From time to time, the Company may repurchase shares of its common stock under its authorized share repurchase programs. The Company considers several factors in determining when to execute share repurchases, including, among other things, actual and potential acquisition activity, cash balances and cash flows, issuances due to employee benefit plan activity, and market conditions.

Our U.S. short-term funding requirements related to client funds are sometimes obtained through a short-term commercial paper program, which provides for the issuance of up to \$6.75 billion in aggregate maturity value of commercial paper, rather than liquidating previously-collected client funds that have already been invested in available-for-sale securities. Our commercial paper program is rated A-1+ by Standard and Poor's and Prime-1 by Moody's. These ratings denote the highest quality commercial paper securities. Maturities of commercial paper can range from overnight to up to 364 days. For the three months ended December 31, 2012 and 2011, our average borrowings were \$3.7 billion and \$3.3 billion, respectively, at weighted average interest rates of 0.2% and 0.1%, respectively. For the six months ended December 31, 2012 and 2011, our average borrowings were \$3.5 billion and \$3.2 billion, respectively, at weighted average interest rate of 0.2% and 0.1%, respectively. The weighted average maturity of the Company's commercial paper during the three and six months ended December 31, 2012 approximated three and two days, respectively. We have successfully borrowed through the use of our commercial paper program on an as needed basis to meet short-term funding requirements related to client funds obligations. At December 31, 2012 and June 30, 2012 we had no outstanding obligations under our short-term commercial paper program.

Our U.S. and Canadian short-term funding requirements related to client funds obligations are sometimes obtained on a secured basis through the use of reverse repurchase agreements, which are collateralized principally by government and government agency securities, rather than liquidating previously-collected client funds that have already been invested in available-for-sale securities. These agreements generally have terms ranging from overnight to up to five business days. We have \$3.0 billion available to us on a committed basis under these reverse repurchase agreements. We believe that we currently meet all conditions set forth in the committed reverse repurchase agreements to borrow thereunder, and we are not aware of any conditions that would prevent us from borrowing part or all of the \$3.0 billion available to us under the committed reverse repurchase agreements. We have successfully borrowed through the use of reverse repurchase agreements on an as needed basis to meet short-term funding requirements related to client funds obligations. At December 31, 2012, we had \$13.5 million of obligations outstanding related to reverse repurchase agreements. All outstanding reverse repurchase obligations matured by January 2, 2013 and the outstanding obligations were repaid. At June 30, 2012, we had no outstanding obligations under reverse repurchase agreements. For the three months ended December 31, 2012 and 2011, we had average outstanding balances under reverse repurchase agreements of \$416.8 million and \$271.5 million, respectively, at

weighted average interest rates of 0.7% and 0.7%, respectively. For the six months ended December 31, 2012 and 2011, we had average outstanding balances under reverse repurchase agreements of \$475.7 million and \$384.2 million, respectively, at weighted average interest rates of 0.7% and 0.5%, respectively.

We have a \$2.0 billion, 364-day credit agreement with a group of lenders that matures in June 2013. In addition, we have a four-year \$3.25 billion credit facility maturing in June 2015 that contains an accordion feature under which the aggregate commitment can be increased by \$500.0 million, subject to the availability of additional commitments. We also have an existing \$1.5 billion five-year credit facility that matures in June 2017 that also contains an accordion feature under which the aggregate commitment can be increased by \$500.0 million, subject to the availability of additional commitments. The interest rate applicable to committed borrowings is tied to LIBOR, the federal funds effective rate, or the prime rate depending on the notification provided by the Company to the syndicated financial institutions prior to borrowing. The Company is also required to pay facility fees on the credit agreements. The primary uses of the credit facilities are to provide liquidity to the commercial paper program and funding for general corporate purposes, if necessary. We had no borrowings through December 31, 2012 under the credit agreements. We believe that we currently meet all conditions set forth in the revolving credit agreements to

borrow thereunder, and we are not aware of any conditions that would prevent us from borrowing part or all of the \$6.75 billion available to us under the revolving credit agreements.

Our investment portfolio does not contain any asset-backed securities with underlying collateral of subprime mortgages, alternative-A mortgages, sub-prime auto loans or sub-prime home equity loans, collateralized debt obligations, collateralized loan obligations, credit default swaps, asset-backed commercial paper, derivatives, auction rate securities, structured investment vehicles or non-investment grade fixed-income securities. Furthermore, we do not hold direct investments in sovereign debt issued by Greece, Ireland, Italy, Portugal, or Spain. We own AAA rated senior tranches of fixed rate credit card, rate reduction, auto loan and other asset-backed securities, secured predominately by prime collateral. All collateral on asset-backed securities is performing as expected. In addition, we own senior debt directly issued by Federal Home Loan Banks, Federal Farm Credit Banks, Federal National Mortgage Association ("Fannie Mae"), and Federal Home Loan Mortgage Corporation ("Freddie Mac"). We do not own subordinated debt, preferred stock or common stock of any of these agencies. We do own mortgage-backed securities, which represent an undivided beneficial ownership interest in a group or pool of one or more residential mortgages. These securities are collateralized by the cash flows of 15-year and 30-year residential mortgages and are guaranteed by Fannie Mae and Freddie Mac as to the timely payment of principal and interest. Our client funds investment strategy is structured to allow us to average our way through an interest rate cycle by laddering the maturities of our investments out to five years (in the case of the extended portfolio) and out to ten years (in the case of the long portfolio). This investment strategy is supported by our short-term financing arrangements necessary to satisfy short-term funding requirements relating to client funds obligations.

Capital expenditures for continuing operations for the six months ended December 31, 2012 were \$76.6 million, as compared to \$68.2 million for the six months ended December 31, 2011. Capital expenditures for the fiscal year ending June 30, 2013 are expected to be between \$180 million and \$200 million as compared to \$146.2 million in the fiscal year ended June 30, 2012.

In the normal course of business, we also enter into contracts in which we make representations and warranties that relate to the performance of our services and products. We do not expect any material losses related to such representations and warranties.

Quantitative and Qualitative Disclosures about Market Risk

Our overall investment portfolio is comprised of corporate investments (cash and cash equivalents, short-term marketable securities, and long-term marketable securities) and client funds assets (funds that have been collected from clients but not yet remitted to the applicable tax authorities or client employees).

Our corporate investments are invested in cash and cash equivalents and highly liquid, investment-grade marketable securities. These assets are available for repurchases of common stock for treasury and/or acquisitions, as well as other corporate operating purposes. All of our short-term and long-term fixed-income securities are classified as available-for-sale securities.

Our client funds assets are invested with safety of principal, liquidity, and diversification as the primary goals. Consistent with those goals, we also seek to maximize interest income and to minimize the volatility of interest income. Client funds assets are invested in highly liquid, investment-grade marketable securities, with a maximum maturity of 10 years at the time of purchase and money market securities and other cash equivalents. At December 31, 2012, approximately 92% of the available-for-sale securities categorized as U.S. Treasury and direct obligations of U.S. government agencies were invested in senior, unsecured, non-callable debt directly issued by the Federal Home Loan Banks, Federal Farm Credit Banks, Fannie Mae, and Freddie Mac.

We utilize a strategy by which we extend the maturities of our investment portfolio for funds held for clients and employ short-term financing arrangements to satisfy our short-term funding requirements related to client funds obligations. Our client funds investment strategy is structured to allow us to average our way through an interest rate cycle by laddering the maturities of our investments out to five years (in the case of the extended portfolio) and out to ten years (in the case of the long portfolio). As part of our client funds investment strategy, we use the daily collection of funds from our clients to satisfy other unrelated client funds obligations, rather than liquidating previously-collected client funds that have already been invested in available-for-sale securities. We minimize the risk of not having funds collected from a client available at the time such client's obligation becomes due by impounding, in virtually all instances, the client's funds in advance of the timing of payment of such client's obligation. As a result of this practice, we have consistently maintained the required level of client funds assets to satisfy all of our obligations.

There are inherent risks and uncertainties involving our investment strategy relating to our client funds assets. Such risks include liquidity risk, including the risk associated with our ability to liquidate, if necessary, our available-for-sale securities in a timely manner in order to satisfy our client funds obligations. However, our investments are made with the safety of

principal, liquidity, and diversification as the primary goals to minimize the risk of not having sufficient funds to satisfy all of our client funds obligations. We also believe we have significantly reduced the risk of not having sufficient funds to satisfy our client funds obligations by consistently maintaining access to other sources of liquidity, including our corporate cash balances, available borrowings under our \$6.75 billion commercial paper program (rated A-1+ by Standard and Poor's and Prime-1 (P1) by Moody's, the highest possible credit rating), our ability to execute reverse repurchase transactions (\$3.0 billion of which is available on a committed basis) and available borrowings under our \$6.75 billion committed revolving credit facilities. However, the reduced availability of financing during periods of economic turmoil, even to borrowers with the highest credit ratings, may limit our ability to access short-term debt markets to meet the liquidity needs of our business. In addition to liquidity risk, our investments are subject to interest rate risk and credit risk, as discussed below.

We have established credit quality, maturity, and exposure limits for our investments. The minimum allowed credit rating at time of purchase for corporate and Canadian provincial bonds is BBB, for asset-backed is AAA, and for municipal bonds is A. The maximum maturity at time of purchase for BBB rated securities is 5 years, for single A rated securities is 7 years, and for AA rated and AAA rated securities is 10 years. Commercial paper must be rated A1/P1.

We are exposed to interest rate risk in relation to securities that mature, as the proceeds from maturing securities are reinvested. Factors that influence the earnings impact of the interest rate changes include, among others, the amount of invested funds and the overall portfolio mix between short-term and long-term investments. This mix varies during the fiscal year and is impacted by daily interest rate changes. The annualized interest rates earned on our entire portfolio decreased 60 basis points, from 2.8% for the three months ended December 31, 2011 to 2.2% for the three months ended December 31, 2012 and decreased 60 basis points, from 2.9% for the six months ended December 31,

2011 to 2.3% for the six months ended December 31, 2012. A hypothetical change in both short-term interest rates (e.g., overnight interest rates or the federal funds rate) and intermediate-term interest rates of 25 basis points applied to the estimated average investment balances and any related short-term borrowings would result in approximately a \$9 million impact to earnings from continuing operations before income taxes over the ensuing twelve-month period ending December 31, 2013. A hypothetical change in only short-term interest rates of 25 basis points applied to the estimated average short-term investment balances and any related short-term

borrowings would result in approximately a \$4 million impact to earnings from continuing operations before income taxes over the ensuing twelve-month period ending December 31, 2013.

We are exposed to credit risk in connection with our available-for-sale securities through the possible inability of the borrowers to meet the terms of the securities. We limited credit risk by investing in investment-grade securities, primarily AAA and AA rated securities, as rated by Moody's, Standard & Poor's, and for Canadian securities, Dominion Bond Rating Service. Approximately 84% of our available-for-sale securities held a AAA or AA rating at December 31, 2012. In addition, we limit amounts that can be invested in any security other than U.S. and Canadian government or government agency securities.

We operate and transact business in various foreign jurisdictions and are therefore exposed to market risk from changes in foreign currency exchange rates that could impact our consolidated results of operations, financial position or cash flows. We manage our exposure to these market risks through our regular operating and financing activities and, when deemed appropriate, through the use of derivative financial instruments. We use derivative financial instruments as risk management tools and not for trading purposes. We had no derivative financial instruments outstanding at December 31, 2012 or June 30, 2012.

During the three months ended December 31, 2012 and 2011, Dealer Services earned 12.4% and 10.4%, respectively, and earned 11.9% and 11.2% for the six months ended December 31, 2012 and 2011, respectively, of its segment revenues from one client. We did not have any customers that individually accounted for more than 10% of our consolidated revenue from continuing operations.

New Accounting Pronouncements

In July 2012, the Company adopted the Financial Accounting Standards Board ("FASB") Accounting Standards Update ("ASU") 2011-05, "Comprehensive Income (Topic 220): Presentation of Comprehensive Income." ASU 2011-05 requires entities to present net income and other comprehensive income in either a single continuous statement or in two separate, but consecutive, statements of net income and other comprehensive income. The Company has elected to present net income and other comprehensive income on two separate, but consecutive statements. The adoption of ASU 2011-05 did not have an impact on the Company's consolidated results of operations, financial condition, or cash flows.

In July 2012, the Company adopted ASU 2011-08, "Intangibles-Goodwill and Other (Topic 350): Testing Goodwill for Impairment." ASU 2011-08 permits an entity to first perform a qualitative assessment to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying value. If it is concluded that the fair value of a reporting unit is less than its carrying value based upon the qualitative assessment, it is necessary to perform the currently prescribed two-step goodwill impairment test. ASU 2011-08 does not change how goodwill is calculated or assigned to reporting units, nor does it revise the requirement to test goodwill annually for impairment. The adoption of ASU 2011-08 did not have an impact on the Company's consolidated results of operations, financial condition, other comprehensive income, or cash flows.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

The information called for by this item is provided under the caption "Quantitative and Qualitative Disclosures about Market Risk" under Item 2 – Management's Discussion and Analysis of Financial Condition and Results of Operations.

Item 4. Controls and Procedures.

The Company carried out an evaluation, under the supervision and with the participation of the Company's management, including its Chief Executive Officer and Chief Financial Officer, of the effectiveness of the Company's disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934 (the "evaluation"). Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by the Company in the reports that it files or submits under the Securities Exchange Act of 1934 is accumulated and communicated to the Company's management, including its Chief Executive Officer and Chief Financial Officer, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure. Based on the evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded that the Company's disclosure controls and procedures were effective as of December 31, 2012 in ensuring that (i) information required to be disclosed by the Company in reports that it files or submits under the Securities Exchange Act of 1934 is accumulated and communicated to the Company's management, including its Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure and (ii) such information is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission's rules and forms.

There were no changes in the Company's internal control over financial reporting that occurred during the six months ended December 31, 2012 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

Except as noted below, all other items are either inapplicable or would result in negative responses and, therefore, have been omitted.

Item 1. Legal Proceedings.

In the normal course of business, the Company is subject to various claims and litigation. While the outcome of any litigation is inherently unpredictable, the Company believes it has valid defenses with respect to the legal matters pending against it and the Company believes that the ultimate resolution of these matters will not have a material adverse impact on its financial condition, results of operations or cash flows.

Item 1A. Risk Factors.

There have been no material changes in our risk factors disclosed in Part 1, Item 1A, of our Annual Report on Form 10-K for the fiscal year ended June 30, 2012.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.
