UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

✓ QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended March 31, 2016

☐ TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission file number 000-18911

GLACIER BANCORP, INC.
(Exact name of registrant as specified in its charter)

MONTANA	81-0519541
(State or other jurisdiction of incorporation or organization)	(IRS Employer Identification No.)

49 Commons Loop, Kalispell, Montana 59901
(Address of principal executive offices) (Zip Code)
(406) 756-4200

Registrant's telephone number, including area code
Not Applicable

(Former name, former address, and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. ✓ Yes No ☐

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). ✓ Yes No ☐

Indicate by checkmark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer", "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer	✓	Accelerated filer	☐
Non-accelerated filer	☐	(Do not check if a smaller reporting company)	Smaller reporting company

Indicate by checkmark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). ☐ Yes ✓ No

The number of shares of Registrant's common stock outstanding on April 18, 2016 was 76,168,388. No preferred shares are issued or outstanding.

GLACIER BANCORP, INC.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Note 1. Nature of Operations and Summary of Significant Accounting Policies

General

Glacier Bancorp, Inc. (“Company”) is a Montana corporation headquartered in Kalispell, Montana. The Company provides a full range of banking services to individuals and businesses in Montana, Idaho, Wyoming, Colorado, Utah and Washington through its wholly-owned bank subsidiary, Glacier Bank (“Bank”). The Company offers a wide range of banking products and services, including transaction and savings deposits, real estate, commercial, agriculture and consumer loans and mortgage origination services. The Company serves individuals, small to medium-sized businesses, community organizations and public entities.

In the opinion of management, the accompanying unaudited condensed consolidated financial statements contain all adjustments (consisting of normal recurring adjustments) necessary for a fair presentation of the Company’s financial condition as of March 31, 2016, the results of operations and comprehensive income for the three month periods ended March 31, 2016 and 2015, and changes in stockholders’ equity and cash flows for the three month periods ended March 31, 2016 and 2015. The condensed consolidated statement of financial condition of the Company as of December 31, 2015 has been derived from the audited consolidated statements of the Company as of that date.

The accompanying unaudited condensed consolidated financial statements do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America (“GAAP”) for complete financial statements. These unaudited condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto contained in the Company’s Annual Report on Form 10-K for the year ended December 31, 2015. Operating results for the three months ended March 31, 2016 are not necessarily indicative of the results anticipated for the year ending December 31, 2016.

The Company is a defendant in legal proceedings arising in the normal course of business. In the opinion of management, the disposition of pending litigation will not have a material affect on the Company’s consolidated financial position, results of operations or liquidity.

Material estimates that are particularly susceptible to significant change include: 1) the determination of the allowance for loan and lease losses (“ALLL” or “allowance”); 2) the valuation of investment securities; 3) the valuation of real estate acquired in connection with foreclosures or in satisfaction of loans; and 4) the evaluation of goodwill impairment. For the determination of the ALLL and real estate valuation estimates, management obtains independent appraisals (new or updated) for significant items. Estimates relating to investment valuations are obtained from independent third parties. Estimates relating to the evaluation of goodwill for impairment are determined based on internal calculations using significant independent party inputs.

Principles of Consolidation

The consolidated financial statements of the Company include the parent holding company, the Bank and all variable interest entities (“VIE”) for which the Company has both the power to direct the VIE’s significant activities and the obligation to absorb losses or right to receive benefits of the VIE that could potentially be significant to the VIE. The Bank consists of thirteen bank divisions, a treasury division and an information technology division. The treasury division includes the Bank’s investment portfolio and wholesale borrowings and the information technology division includes the Bank’s internal data processing and information technology expenses. The Bank divisions operate under separate names, management teams and directors. The Company considers the Bank to be its sole operating segment as the Bank 1) engages in similar bank business activity from which it earns revenues and incurs expenses; 2) the

operating results of the Bank are regularly reviewed by the Chief Executive Officer (i.e., the chief operating decision maker) who makes decisions about resources to be allocated to the Bank; and 3) financial information is available for the Bank. All significant inter-company transactions have been eliminated in consolidation.

In October 2015, the Company completed its acquisition of Cañon Bank Corporation and its wholly-owned subsidiary, Cañon National Bank, a community bank based in Cañon City, Colorado (collectively, “Cañon”). In February 2015, the Company completed its acquisition of Montana Community Banks, Inc. and its wholly-owned subsidiary, Community Bank, Inc., a community bank based in Ronan, Montana (collectively, “CB”). The transactions were accounted for using the acquisition method, and their results of operations have been included in the Company’s consolidated financial statements as of the acquisition dates.

In February 2015, the Financial Accounting Standards Board's ("FASB") amended consolidation guidance by modifying the evaluation of whether limited partnerships and similar legal entities are VIEs or voting interest entities and by changing how entities analyze related-party relationships and fee arrangements. As a result of this amendment, the Company determined it was no longer the primary beneficiary of its Low-Income Housing Tax Credit ("LIHTC") partnerships and deconsolidated its LIHTC investments effective January 1, 2016. There was no material effect on the Company's financial condition or results of operations upon adoption of this accounting guidance.

Loans Receivable

Loans that are intended to be held-to-maturity are reported at the unpaid principal balance less net charge-offs and adjusted for deferred fees and costs on originated loans and unamortized premiums or discounts on acquired loans. Fees and costs on originated loans and premiums or discounts on acquired loans are deferred and subsequently amortized or accreted as a yield adjustment over the expected life of the loan utilizing the interest method. The objective of the interest method is to calculate periodic interest income at a constant effective yield. When a loan is paid off prior to maturity, the remaining fees and costs on originated loans and premiums or discounts on acquired loans are immediately recognized into interest income.

The Company's loan segments, which are based on the purpose of the loan, include residential real estate, commercial, and consumer loans. The Company's loan classes, a further disaggregation of segments, include residential real estate loans (residential real estate segment), commercial real estate and other commercial loans (commercial segment), and home equity and other consumer loans (consumer segment).

Loans that are thirty days or more past due based on payments received and applied to the loan are considered delinquent. Loans are designated non-accrual and the accrual of interest is discontinued when the collection of the contractual principal or interest is unlikely. A loan is typically placed on non-accrual when principal or interest is due and has remained unpaid for ninety days or more. When a loan is placed on non-accrual status, interest previously accrued but not collected is reversed against current period interest income. Subsequent payments on non-accrual loans are applied to the outstanding principal balance if doubt remains as to the ultimate collectability of the loan. Interest accruals are not resumed on partially charged-off impaired loans. For other loans on nonaccrual, interest accruals are resumed on such loans only when they are brought fully current with respect to interest and principal and when, in the judgment of management, the loans are estimated to be fully collectible as to both principal and interest.

The Company considers impaired loans to be the primary credit quality indicator for monitoring the credit quality of the loan portfolio. Loans are designated impaired when, based upon current information and events, it is probable that the Company will be unable to collect the scheduled payments of principal or interest when due according to the contractual terms of the loan agreement and, therefore, the Company has serious doubts as to the ability of such borrowers to fulfill the contractual obligation. Impaired loans include non-performing loans (i.e., non-accrual loans and accruing loans ninety days or more past due) and accruing loans under ninety days past due where it is probable payments will not be received according to the loan agreement (e.g., troubled debt restructuring). Interest income on accruing impaired loans is recognized using the interest method. The Company measures impairment on a loan-by-loan basis in the same manner for each class within the loan portfolio. An insignificant delay or shortfall in the amounts of payments would not cause a loan or lease to be considered impaired. The Company determines the significance of payment delays and shortfalls on a case-by-case basis, taking into consideration all of the facts and circumstances surrounding the loan and the borrower, including the length and reasons for the delay, the borrower's prior payment record, and the amount of the shortfall in relation to the principal and interest due.

A restructured loan is considered a troubled debt restructuring ("TDR") if the creditor, for economic or legal reasons related to the debtor's financial difficulties, grants a concession to the debtor that it would not otherwise consider. The Company periodically enters into restructure agreements with borrowers whereby the loans were previously identified

as TDRs. When such circumstances occur, the Company carefully evaluates the facts of the subsequent restructure to determine the appropriate accounting and under certain circumstances it may be acceptable not to account for the subsequently restructured loan as a TDR. When assessing whether a concession has been granted by the Company, any prior forgiveness on a cumulative basis is considered a continuing concession. A TDR loan is considered an impaired loan and a specific valuation allowance is established when the fair value of the collateral-dependent loan or present value of the loan's expected future cash flows (discounted at the loan's effective interest rate based on the original contractual rate) is lower than the carrying value of the impaired loan. The Company has made the following types of loan modifications, some of which were considered a TDR:

- reduction of the stated interest rate for the remaining term of the debt;
- extension of the maturity date(s) at a stated rate of interest lower than the current market rate for newly originated debt having similar risk characteristics; and
- reduction of the face amount of the debt as stated in the debt agreements.

The Company recognizes that while borrowers may experience deterioration in their financial condition, many continue to be creditworthy customers who have the willingness and capacity for debt repayment. In determining whether non-restructured or unimpaired loans issued to a single or related party group of borrowers should continue to accrue interest when the borrower has other loans that are impaired or are TDRs, the Company on a quarterly or more frequent basis performs an updated and comprehensive assessment of the willingness and capacity of the borrowers to timely and ultimately repay their total debt obligations, including contingent obligations. Such analysis takes into account current financial information about the borrowers and financially responsible guarantors, if any, including for example:

- analysis of global, i.e., aggregate debt service for total debt obligations;
- assessment of the value and security protection of collateral pledged using current market conditions and alternative market assumptions across a variety of potential future situations; and
- loan structures and related covenants.

For additional information relating to loans, see Note 3.

Allowance for Loan and Lease Losses

Based upon management's analysis of the Company's loan portfolio, the balance of the ALLL is an estimate of probable credit losses known and inherent within the Bank's loan portfolio as of the date of the consolidated financial statements. The ALLL is analyzed at the loan class level and is maintained within a range of estimated losses. Determining the adequacy of the ALLL involves a high degree of judgment and is inevitably imprecise as the risk of loss is difficult to quantify. The determination of the ALLL and the related provision for loan losses is a critical accounting estimate that involves management's judgments about all known relevant internal and external environmental factors that affect loan losses. The balance of the ALLL is highly dependent upon management's evaluations of borrowers' current and prospective performance, appraisals and other variables affecting the quality of the loan portfolio. Individually significant loans and major lending areas are reviewed periodically to determine potential problems at an early date. Changes in management's estimates and assumptions are reasonably possible and may have a material impact upon the Company's consolidated financial statements, results of operations or capital.

Risk characteristics considered in the ALLL analysis applicable to each loan class within the Company's loan portfolio are as follows:

Residential Real Estate. Residential real estate loans are secured by owner-occupied 1-4 family residences. Repayment of these loans is primarily dependent on the personal income and credit rating of the borrowers. Credit risk in these loans is impacted by economic conditions within the Company's market areas that affect the value of the property securing the loans and affect the borrowers' personal incomes. Mitigating risk factors for this loan class include a large number of borrowers, geographic dispersion of market areas and the loans are originated for relatively smaller amounts.

Commercial Real Estate. Commercial real estate loans typically involve larger principal amounts, and repayment of these loans is generally dependent on the successful operation of the property securing the loan and/or the business conducted on the property securing the loan. Credit risk in these loans is impacted by the creditworthiness of a borrower, valuation of the property securing the loan and conditions within the local economies in the Company's diverse, geographic market areas.

Commercial. Commercial loans consist of loans to commercial customers for use in financing working capital needs, equipment purchases and business expansions. The loans in this category are repaid primarily from the cash flow of a borrower's principal business operation. Credit risk in these loans is driven by creditworthiness of a borrower and the economic conditions that impact the cash flow stability from business operations across the Company's diverse,

geographic market areas.

Home Equity. Home equity loans consist of junior lien mortgages and first and junior lien lines of credit (revolving open-end and amortizing closed-end) secured by owner-occupied 1-4 family residences. Repayment of these loans is primarily dependent on the personal income and credit rating of the borrowers. Credit risk in these loans is impacted by economic conditions within the Company's market areas that affect the value of the residential property securing the loans and affect the borrowers' personal incomes. Mitigating risk factors for this loan class are a large number of borrowers, geographic dispersion of market areas and the loans are originated for terms that range from 10 years to 20 years.

Other Consumer. The other consumer loan portfolio consists of various short-term loans such as automobile loans and loans for other personal purposes. Repayment of these loans is primarily dependent on the personal income of the borrowers. Credit risk is driven by consumer economic factors (such as unemployment and general economic conditions in the Company's diverse, geographic market area) and the creditworthiness of a borrower.

The ALLL consists of a specific valuation allowance component and a general valuation allowance component. The specific component relates to loans that are determined to be impaired and individually evaluated for impairment. The Company measures impairment on a loan-by-loan basis based on the present value of expected future cash flows discounted at the loan's effective interest rate, except when it is determined that repayment of the loan is expected to be provided solely by the underlying collateral. For impairment based on expected future cash flows, the Company considers all information available as of a measurement date, including past events, current conditions, potential prepayments, and estimated cost to sell when such costs are expected to reduce the cash flows available to repay or otherwise satisfy the loan. For alternative ranges of cash flows, the likelihood of the possible outcomes is considered in determining the best estimate of expected future cash flows. The effective interest rate for a loan restructured in a TDR is based on the original contractual rate. For collateral-dependent loans and real estate loans for which foreclosure or a deed-in-lieu of foreclosure is probable, impairment is measured by the fair value of the collateral, less estimated cost to sell. The fair value of the collateral is determined primarily based upon appraisal or evaluation of the underlying real property value.

The general valuation allowance component relates to probable credit losses inherent in the balance of the loan portfolio based on historical loss experience, adjusted for changes in trends and conditions of qualitative or environmental factors. The historical loss experience is based on the previous twelve quarters loss experience by loan class adjusted for risk characteristics in the existing loan portfolio. The same trends and conditions are evaluated for each class within the loan portfolio; however, the risk characteristics are weighted separately at the individual class level based on the Company's judgment and experience.

The changes in trends and conditions evaluated for each class within the loan portfolio include the following:

- Changes in lending policies and procedures, including changes in underwriting standards and collection, charge-off, and recovery practices not considered elsewhere in estimating credit losses;
- Changes in global, national, regional, and local economic and business conditions and developments that affect the collectability of the portfolio, including the condition of various market segments;
- Changes in the nature and volume of the portfolio and in the terms of loans;
- Changes in experience, ability, and depth of lending management and other relevant staff;
- Changes in the volume and severity of past due and nonaccrual loans;
- Changes in the quality of the Company's loan review system;
- Changes in the value of underlying collateral for collateral-dependent loans;
- The existence and effect of any concentrations of credit, and changes in the level of such concentrations; and
- The effect of other external factors such as competition and legal and regulatory requirements on the level of estimated credit losses in the Company's existing portfolio.

The ALLL is increased by provisions for loan losses which are charged to expense. The portions of loan balances determined by management to be uncollectible are charged off as a reduction of the ALLL and recoveries of amounts previously charged off are credited as an increase to the ALLL. The Company's charge-off policy is consistent with bank regulatory standards. Consumer loans generally are charged off when the loan becomes over 120 days delinquent. Real estate acquired as a result of foreclosure or by deed-in-lieu of foreclosure is classified as real estate owned until such time as it is sold.

At acquisition date, the assets and liabilities of acquired banks are recorded at their estimated fair values which results in no ALLL carried over from acquired banks. Subsequent to acquisition, an allowance will be recorded on the acquired loan portfolios for further credit deterioration, if any.

Reclassifications

Certain reclassifications have been made to the 2015 financial statements to conform to the 2016 presentation.

Impact of Recent Authoritative Accounting Guidance

The Accounting Standards Codification (“ASC”) is FASB’s officially recognized source of authoritative GAAP applicable to all public and non-public non-governmental entities. Rules and interpretive releases of the Securities and Exchange Commission (“SEC”) under the authority of the federal securities laws are also sources of authoritative GAAP for the Company as an SEC registrant. All other accounting literature is non-authoritative. The following paragraphs provide descriptions of recently adopted or newly issued but not yet effective accounting standards that could have a material effect on the Company’s financial position or results of operations.

In March 2016, FASB amended FASB ASC Topic 718, Compensation - Stock Compensation. The amendments in this Update address certain aspects of the accounting for share-based payment transactions, including the income tax consequences, classification of awards as either equity or liabilities, and classification of awards on the statement of cash flows. The amendments are effective for public business entities for the first interim and annual reporting periods beginning after December 15, 2016. Early adoption is permitted in any interim or annual period. The Company is currently evaluating the impact of these amendments, but does not expect them to have a material effect on the Company's financial position or results of operations.

In February 2016, FASB amended FASB ASC Topic 842, Leases. The amendments in this Update address several aspects of lease accounting with the significant change being the recognition of lease assets and lease liabilities for leases previously classified as operating leases. The amendments are effective for public business entities for the first interim and annual reporting periods beginning after December 15, 2018 and early adoption is permitted. The Company is currently evaluating the impact of these amendments, but does not expect them to have a material effect on the Company's financial position or results of operations.

In January 2016, FASB amended FASB ASC Topic 825, Financial Instruments. The amendments in this Update address certain aspects of recognition, measurement, presentation, and disclosure of financial instruments. The amendments are effective for public business entities for the first interim and annual reporting periods beginning after December 15, 2017. Early adoption is only permitted under certain circumstances outlined in the amendments. A reporting entity should apply the amendments by means of a cumulative-effect adjustment to the Company's statement of financial condition as of the beginning of the reporting year of adoption. The amendments related to equity securities without readily determinable fair values should be applied prospectively. The Company is currently evaluating the impact of these amendments, but does not expect them to have a material effect on the Company's financial position or results of operations.

In September 2015, FASB amended FASB ASC Topic 805, Business Combinations. The amendments in this Update require that an acquirer recognize adjustments to provisional amounts that are identified during the measurement period in the reporting period in which the adjustments are necessary. The amendments in this Update require that the acquirer record, in the same period's financial statements, the effect on earnings of changes in depreciation, amortization, or other income effects, if any, as a result of the change to the provisional amounts, calculated as if the accounting had been completed at the acquisition date. The amendments in this Update require an entity to present separately on the face of the income statement or disclose in the notes the portion of the amount recorded in current-period earnings by line item that would have been recorded in previous reporting periods if the adjustment to the provisional amounts had been recognized as of the acquisition date. The amendments should be applied prospectively to all periods presented and are effective for public business entities for annual periods and interim periods within those annual periods, beginning after December 15, 2015. The Company has evaluated the impact of these amendments and determined there was not a material effect on the Company's financial position or results of operations.

In February 2015, FASB amended FASB ASC Topic 810, Consolidation. The amendments in this Update make targeted changes to the current consolidation guidance and end a deferral available for investment companies. The amendments modify the evaluation of whether limited partnerships and similar legal entities are VIEs or voting interest entities. Consolidation conclusions may change for entities that already are VIEs due to changes in how entities would analyze related-party relationships and fee arrangements. The amendments relax existing criteria for determining when fees paid to a decision maker or service provider do not represent a variable interest by focusing on whether those fees are "at market." The amendments eliminate both the consolidation model specific to limited partnerships and the current presumption that a general partner controls a limited partnership. Application of the new amendments could result in some entities being deconsolidated or considered a VIE and subject to additional

disclosures. The amendments are effective for public business entities for the first interim and annual reporting periods beginning after December 15, 2015. Early adoption is permitted, including adoption in an interim period with any adjustments reflected as of the beginning of the reporting year that includes the interim period. A reporting entity may apply the amendments using a modified retrospective approach by recording a cumulative-effect adjustment to equity as of the beginning of the reporting year of adoption or may apply the amendments retrospectively. The Company has evaluated the impact of these amendments and determined there was not a material effect on the Company's financial position or results of operations.

In May 2014, FASB amended FASB ASC Topic 606, Revenue from Contracts with Customers. The amendments clarify the principals for recognizing revenue and develop a common revenue standard among industries. The new guidance establishes the following core principal: recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for goods or services. Five steps are provided for a company or organization to follow to achieve such core principle. The new guidance also includes a cohesive set of disclosure requirements that will provide users of financial statements with comprehensive information about the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with customers. The entity should apply the amendments using one of two retrospective methods described in the amendment. Accounting Standards Update No 2015-14, Revenue from Contracts with Customers (Topic 606) delayed the effective date for public entities to annual reporting periods beginning after December 15, 2017, including interim reporting periods within that reporting period. Early application is permitted only as of annual reporting periods beginning after December 15, 2016, including interim reporting periods within that reporting period. The Company is currently evaluating the impact of these amendments, but does not expect them to have a material effect on the Company's financial position or results of operations.

Note 2. Investment Securities

The following tables present the amortized cost, the gross unrealized gains and losses and the fair value of the Company's investment securities:

	March 31, 2016			
(Dollars in thousands)	Amortized Cost	Gross Unrealized Gains / Losses		Fair Value
Available-for-sale				
U.S. government and federal agency	\$45,957	18	(288)	45,687

Total held-to-maturity	702,072	31,863	(4,422)	729,513
Total investment securities	\$3,290,085	72,928	(22,740)	3,340,273

15

The following table presents the amortized cost and fair value of available-for-sale and held-to-maturity securities by contractual maturity at March 31, 2016. Actual maturities may differ from expected or contractual maturities since issuers have the right to prepay obligations with or without prepayment penalties.

(Dollars in thousands)	March 31, 2016			
	Available-for-Sale		Held-to-Maturity	
	Amortized Cost	Fair Value	Amortized Cost	Fair Value
Due within one year	\$150,150	150,764	—	—
Due after one year through five years	503,233	503,879	—	—
Due after five years through ten years	144,750	149,613	28,545	29,370
Due after ten years	629,795	654,212	663,118	690,820
	1,427,928	1,458,468	691,663	720,190
Residential mortgage-backed securities ¹	1,140,413	1,146,157	—	—
Total	\$2,568,341	2,604,625	691,663	720,190

¹ Residential mortgage-backed securities, which have prepayment provisions, are not assigned to maturity categories due to fluctuations in their prepayment speeds.

Proceeds from sales and calls of investment securities and the associated gains and losses that have been included in earnings are listed below:

(Dollars in thousands)	Three Months ended	
	March 31, 2016	March 31, 2015
Available-for-sale		
Proceeds from sales and calls of investment securities	\$58,623	62,703
Gross realized gains ¹	800	39
Gross realized losses ¹	(739)	(35)
Held-to-maturity		
Proceeds from calls of investment securities	11,155	460
Gross realized gains ¹	47	1
Gross realized losses ¹	—	—

¹ The gain or loss on the sale or call of each investment security is determined by the specific identification method.

Investment securities with an unrealized loss position are summarized as follows:

(Dollars in thousands)	March 31, 2016					
	Less than 12 Months		12 Months or More		Total	
	Fair Value	Unrealized Loss	Fair Value	Unrealized Loss	Fair Value	Unrealized Loss
Available-for-sale

(Dollars in thousands)	December 31, 2015					
	Less than 12 Months		12 Months or More		Total	
	Fair Value	Unrealized Loss	Fair Value	Unrealized Loss	Fair Value	Unrealized Loss
Available-for-sale						
U.S. government and federal agency	\$42,493	(432)	2	—	42,495	(432)
U.S. government sponsored enterprises	60,010	(163)	—	—	60,010	(163)
State and local governments	102,422	(1,629)	115,943	(4,249)	218,365	(5,878)
Corporate bonds	228,258	(1,812)	13,962	(1,265)	242,220	(3,077)
Residential mortgage-backed securities	730,412	(7,226)	53,021	(1,542)	783,433	(8,768)
Total available-for-sale	\$1,163,595	(11,262)	182,928	(7,056)	1,346,523	(18,318)
Held-to-maturity						
State and local governments	\$42,322	(594)	81,709	(3,828)	124,031	(4,422)
Total held-to-maturity	\$42,322	(594)	81,709	(3,828)	124,031	(4,422)

Based on an analysis of its investment securities with unrealized losses as of March 31, 2016 and December 31, 2015, the Company determined that none of such securities had other-than-temporary impairment and the unrealized losses were primarily the result of interest rate changes and market spreads subsequent to acquisition. The fair value of the investment securities is expected to recover as payments are received and the securities approach maturity. At March 31, 2016, management determined that it did not intend to sell investment securities with unrealized losses, and there was no expected requirement to sell any of its investment securities with unrealized losses before recovery of their amortized cost.

Note 3. Loans Receivable, Net

The Company's loan portfolio is comprised of three segments: residential real estate, commercial, and consumer and other loans. The loan segments are further disaggregated into the following classes: residential real estate, commercial real estate, other commercial, home equity and other consumer loans. The following table presents loans receivable for each portfolio class of loans:

(Dollars in thousands)	March 31, 2016	December 31, 2015
Residential real estate loans	\$ 685,026	688,912
Commercial loans		
Real estate	2,680,691	2,633,953
Other commercial	1,172,956	1,099,564
Total	3,853,647	3,733,517
Consumer and other loans		
Home equity	423,895	420,901
Other consumer	234,625	235,351
Total	658,520	656,252
Loans receivable ¹	5,197,193	5,078,681
Allowance for loan and lease losses	(130,071)	(129,697)
Loans receivable, net	\$ 5,067,122	4,948,984
Weighted-average interest rate on loans (tax-equivalent)	4.81	% 4.84 %

¹ Includes net deferred fees, costs, premiums and discounts of \$14,010,000 and \$15,529,000 at March 31, 2016 and December 31, 2015, respectively.

The following tables summarize the activity in the ALLL by portfolio segment:

(Dollars in thousands)	Three Months ended March 31, 2016					
	Total	Residential Real Estate	Commercial Real Estate	Other Commercial	Home Equity	Other Consumer
Balance at beginning of period	\$ 129,697	14,427	67,877	32,525	8,998	5,870
Provision for loan losses	568	(1,149)	(873)	3,720	(793)	(337)

Recoveries	969	18	295	133	173	350
Balance at end of period	\$ 130,071	13,196	67,046	36,054	8,149	5,626

(Dollars in thousands)	Three Months ended March 31, 2015					
	Total	Residential Real Estate	Commercial Real Estate	Other Commercial	Home Equity	Other Consumer
Balance at beginning of period	\$ 129,753	14,680	67,799	30,891	9,963	6,420
Provision for loan losses	765	440	(286)	1,112	(459)	(42)
Charge-offs	(1,297)	(14)	(445)	(694)	(31)	(113)
Recoveries	635	25	259	206	46	99
Balance at end of period	\$ 129,856	15,131	67,327	31,515	9,519	6,364

The following tables disclose the balance in the ALLL and the recorded investment in loans by portfolio segment:

(Dollars in thousands)	March 31, 2016					
	Total	Residential Real Estate	Commercial Real Estate	Other Commercial	Home Equity	Other Consumer
Allowance for loan and lease losses						
Individually evaluated for impairment	\$8,440	597	914	6,442	190	297
Collectively evaluated for impairment	121,631	12,599	66,132	29,612	7,959	5,329
Total allowance for loan and lease losses	\$130,071	13,196	67,046	36,054	8,149	5,626
Loans receivable						
Individually evaluated for impairment	\$140,866	21,041	81,840	27,889	6,557	3,539
Collectively evaluated for impairment	5,056,327	663,985	2,598,851	1,145,067	417,338	231,086
Total loans receivable	\$5,197,193	685,026	2,680,691	1,172,956	423,895	234,625
(Dollars in thousands)	December 31, 2015					
	Total	Residential Real Estate	Commercial Real Estate	Other Commercial	Home Equity	Other Consumer
Allowance for loan and lease losses						
Individually evaluated for impairment	\$8,124	782	1,629	5,277	64	372
Collectively evaluated for impairment	121,573	13,645	66,248	27,248	8,934	5,498
Total allowance for loan and lease losses	\$129,697	14,427	67,877	32,525	8,998	5,870
Loans receivable						
Individually evaluated for impairment	\$140,773	20,767	85,845	23,874	6,493	3,794
Collectively evaluated for impairment	4,937,908	668,145	2,548,108	1,075,690	414,408	231,557
Total loans receivable	\$5,078,681	688,912	2,633,953	1,099,564	420,901	235,351

Substantially all of the Company's loans receivable are with customers in the Company's geographic market areas. Although the Company has a diversified loan portfolio, a substantial portion of its customers' ability to honor their obligations is dependent upon the economic performance in the Company's market areas.

The following tables disclose information related to impaired loans by portfolio segment:

(Dollars in thousands)	At or for the Three Months ended March 31, 2016					
	Total	Residential Real Estate	Commercial Real Estate	Other Commercial	Home Equity	Other Consumer

Recorded balance	\$106,090	12,514	73,291	11,951	6,391	1,943
Unpaid principal balance	132,718	13,969	94,028	15,539	7,153	2,029
Average balance	116,356	13,615	78,684	15,479	6,350	2,228
Total						
Recorded balance	\$140,773	20,767	85,845	23,874	6,493	3,794
Unpaid principal balance	168,875	23,167	106,609	27,874	7,262	3,963
Specific valuation allowance	8,124	782	1,629	5,277	64	372
Average balance	152,532	20,008	94,511	27,247	6,776	3,990

Interest income recognized on impaired loans for the three months ended March 31, 2016 and 2015 was not significant.

The following tables present an aging analysis of the recorded investment in loans by portfolio segment:

(Dollars in thousands)	March 31, 2016					
	Total	Residential Real Estate	Commercial Real Estate	Other Commercial	Home Equity	Other Consumer
Accruing loans 30-59 days past due	\$20,663	3,365	6,644	7,454	1,930	1,270
Accruing loans 60-89 days past due	3,333	110	1,268	1,106	739	110
Accruing loans 90 days or more past due	4,615	833	1,630	2,007	107	38
Non-accrual loans	53,523	7,319	29,747	9,799	5,998	660
Total past due and non-accrual loans	82,134	11,627	39,289	20,366	8,774	2,078
Current loans receivable	5,115,059	673,399	2,641,402	1,152,590	415,121	232,547
Total loans receivable	\$5,197,193	685,026	2,680,691	1,172,956	423,895	234,625

(Dollars in thousands)	December 31, 2015					
	Total	Residential Real Estate	Commercial Real Estate	Other Commercial	Home Equity	Other Consumer
Accruing loans 30-59 days past due	\$15,801	4,895	4,393	3,564	1,601	1,348
Accruing loans 60-89 days past due	3,612	961	1,841	286	280	244
Accruing loans 90 days or more past due	2,131	—	231	1,820	15	65
Non-accrual loans	51,133	8,073	28,819	7,691	6,022	528
Total past due and non-accrual loans	72,677	13,929	35,284	13,361	7,918	2,185
Current loans receivable	5,006,004	674,983	2,598,669	1,086,203	412,983	233,166
Total loans receivable	\$5,078,681	688,912	2,633,953	1,099,564	420,901	235,351

The following tables present TDRs that occurred during the periods presented and the TDRs that occurred within the previous twelve months that subsequently defaulted during the periods presented:

(Dollars in thousands)	Three Months ended March 31, 2016					
	Total	Residential Real Estate	Commercial Real Estate	Other Commercial	Home Equity	Other Consumer
TDRs that occurred during the period						
Number of loans	3	—	1	1	1	—
Pre-modification recorded balance	\$8,959	—	56	8,755	148	—
Post-modification recorded balance	\$8,959	—	56	8,755	148	—
TDRs that subsequently defaulted						
Number of loans	—	—	—	—	—	—
Recorded balance	\$—	—	—	—	—	—

(Dollars in thousands)	Three Months ended March 31, 2015					
	Total	Residential Real Estate	Commercial Real Estate	Other Commercial	Home Equity	Other Consumer
TDRs that occurred during the period						
Number of loans	5	—	2	3	—	—
Pre-modification recorded balance	\$3,085	—	2,182	903	—	—
Post-modification recorded balance	\$3,085	—	2,182	903	—	—
TDRs that subsequently defaulted						
Number of loans	6	—	—	3	2	1
Recorded balance	\$174	—	—	57	116	1

The modifications for the TDRs that occurred during the three months ended March 31, 2016 and 2015 included one or a combination of the following: an extension of the maturity date, a reduction of the interest rate or a reduction in the principal amount.

In addition to the TDRs that occurred during the period provided in the preceding tables, the Company had TDRs with pre-modification loan balances of \$210,000 and \$3,595,000 for the three months ended March 31, 2016 and 2015, respectively, for which other real estate owned (“OREO”) was received in full or partial satisfaction of the loans. The majority of such TDRs were in residential real estate and commercial real estate for the three months ended March 31, 2016 and 2015, respectively. At March 31, 2016 and December 31, 2015, the Company had \$3,531,000 and \$3,253,000, respectively, of consumer mortgage loans secured by residential real estate properties for which formal foreclosure proceedings are in process. At March 31, 2016 and December 31, 2015, the Company had \$1,995,000 and \$1,496,000, respectively, of OREO secured by residential real estate properties.

Note 4. Goodwill

The following schedule discloses the changes in the carrying value of goodwill:

(Dollars in thousands)	Three Months ended	
	March 31, 2016	March 31, 2015
Net carrying value at beginning of period	\$140,638	129,706
Acquisitions	—	1,137
Net carrying value at end of period	\$140,638	130,843

The gross carrying value of goodwill and the accumulated impairment charge consists of the following:

(Dollars in thousands)	March 31,	December 31,
	2016	2015
Gross carrying value	\$180,797	180,797
Accumulated impairment charge ¹	(40,159)	(40,159)
Net carrying value	\$140,638	140,638

¹ A goodwill impairment charge was recognized in 2011 and was due to high levels of volatility and dislocation in bank stock prices nationwide.

The Company performed its annual goodwill impairment test during the third quarter of 2015 and determined the fair value of the aggregated reporting units exceeded the carrying value, such that the Company’s goodwill was not

considered impaired. Changes in the economic environment, operations of the aggregated reporting units, or other factors could result in the decline in the fair value of the aggregated reporting units which could result in a goodwill impairment in the future.

Note 5. Variable Interest Entities

A VIE is a partnership, limited liability company, trust or other legal entity that meets one of the following criteria: 1) the entity's equity investment at risk is not sufficient to permit the entity to finance its activities without additional subordinated financial support from other parties; 2) the holders of the equity investment at risk, as a group, lack the characteristics of a controlling financial interest; and 3) the voting rights of some holders of the equity investment at risk are disproportionate to their obligation to absorb losses or receive returns, and substantially all of the activities are conducted on behalf of the holder of equity investment at risk with disproportionately few voting rights. A VIE must be consolidated by the Company if it is deemed to be the primary beneficiary, which is the party involved with the VIE that has both: 1) the power to direct the activities of the VIE that most significantly affect the VIE's economic performance; and 2) the obligation to absorb the losses of the VIE that could potentially be significant to the VIE or the right to receive benefits from the VIE that could potentially be significant to the VIE.

The Company's VIEs are regularly monitored to determine if any reconsideration events have occurred that could cause the primary beneficiary status to change. A previously unconsolidated VIE is consolidated when the Company becomes the primary beneficiary. A previously consolidated VIE is deconsolidated when the Company ceases to be the primary beneficiary or the entity is no longer a VIE. In February 2015, FASB amended consolidation guidance by modifying the evaluation of whether limited partnerships and similar legal entities are VIEs or voting interest entities and by changing how entities analyze related-party relationships and fee arrangements. As a result of this amendment, the Company determined it was no longer the primary beneficiary of its LIHTC partnerships and deconsolidated its LIHTC investments effective January 1, 2016. Due to this reevaluation event, the Company determined its LIHTC investments would qualify for the proportional amortization method and elected to adopt this accounting method. The proportional amortization method allows for the amortization of LIHTC investments to be presented as a component of income taxes. Once elected, the proportional amortization method is required for all eligible LIHTC investments.

Consolidated Variable Interest Entities

The Company has equity investments in Certified Development Entities ("CDE") which have received allocations of New Markets Tax Credits ("NMTC"). The NMTC program provides federal tax incentives to investors to make investments in distressed communities and promotes economic improvements through the development of successful businesses in these communities. The NMTC is available to investors over a seven-year period and is subject to recapture if certain events occur during such period. The maximum exposure to loss in the CDEs is the amount of equity invested and credit extended by the Company. However, the Company has credit protection in the form of indemnification agreements, guarantees, and collateral arrangements. The Company has evaluated the variable interests held by the Company in each CDE (NMTC) investment and determined the Company does not individually meet the characteristics of a primary beneficiary; however, the related-party group does meet the criteria as a group and substantially all of the activities of the CDEs either involve or are conducted on behalf of the Company. As a result, the Company is the primary beneficiary of the CDEs and their assets, liabilities, and results of operations are included in the Company's consolidated financial statements. The primary activities of the CDEs are recognized in commercial loans interest income and other borrowed funds interest expense on the Company's statements of operations and the federal income tax credit allocations from the investments are recognized in the Company's statements of operations as a component of income tax expense. Such related cash flows are recognized in loans originated, principal collected on loans and change in other borrowed funds.

The following table summarizes the carrying amounts of the consolidated VIEs' assets and liabilities included in the Company's statements of financial condition and are adjusted for intercompany eliminations. All assets presented can be used only to settle obligations of the consolidated VIEs and all liabilities presented consist of liabilities for which creditors and other beneficial interest holders therein have no recourse to the general credit of the Company.

(Dollars in thousands)	March 31, December 31,	
	2016	2015
Assets		
Loans receivable	\$ 57,228	57,126
Premises and equipment, net	—	13,503
Accrued interest receivable	206	117
Other assets	1,029	1,429
Total assets	\$ 58,463	72,175
Liabilities		
Other borrowed funds	\$ 4,555	6,195
Accrued interest payable	4	9
Other liabilities	145	139
Total liabilities	\$ 4,704	6,343

Unconsolidated Variable Interest Entities

The Company has equity investments in LIHTC partnerships with carrying values of \$4,579,000 as of March 31, 2016. The LIHTCs are indirect federal subsidies to finance low-income housing and are used in connection with both newly constructed and renovated residential rental buildings. Once a project is placed in service, it is generally eligible for the tax credit every year for ten years. To continue generating the tax credit and to avoid tax credit recapture, a LIHTC building must satisfy specific low-income housing compliance rules for a full fifteen-year period. The maximum exposure to loss in the VIEs is the amount of equity invested and credit extended by the Company. However, the Company has credit protection in the form of indemnification agreements, guarantees, and collateral arrangements. The Company has evaluated the variable interests held by the Company in each LIHTC investment and determined that the Company does not have controlling financial interests in such investments, and is not the primary beneficiary. The Company reports the investments in the unconsolidated LIHTCs as other assets on the Company's statements of financial condition. Total unfunded contingent commitments related to the Company's LIHTC investments totaled \$4,536,000 at March 31, 2016. The Company expects to fulfill these commitments during 2017. There were no impairment losses on the Company's LIHTC investments during the three months ended March 31, 2016.

The following table summarizes the amortization expense and the amount of tax credits and other tax benefits recognized for qualified affordable housing project investments during the three months ended March 31, 2016 and 2015. Amortization expense is recognized as a component of income tax expense.

(Dollars in thousands)	Three Months ended	
	March 31, 2016	March 31, 2015
Amortization expense	\$255	252
Tax credits and other tax benefits recognized	392	391

The Company also owns the following trust subsidiaries, each of which issued trust preferred securities as Tier 1 capital instruments: Glacier Capital Trust II, Glacier Capital Trust III, Glacier Capital Trust IV, Citizens (ID) Statutory Trust I, Bank of the San Juans Bancorporation Trust I, First Company Statutory Trust 2001, and First Company Statutory Trust 2003. The trust subsidiaries have no assets, operations, revenues or cash flows other than

those related to the issuance, administration and repayment of the securities held by third parties. The trust subsidiaries are not included in the Company's consolidated financial statements because the sole asset of each trust subsidiary is a receivable from the Company, even though the Company owns all of the voting equity shares of the trust subsidiaries, has fully guaranteed the obligations of the trust subsidiaries and may have the right to redeem the third party securities under certain circumstances. The Company reports the trust preferred securities issued to the trust subsidiaries as subordinated debentures on the Company's statements of financial condition.

Note 6. Securities Sold Under Agreements to Repurchase

The Company's securities sold under agreements to repurchase ("repurchase agreements") totaled \$445,960,000 and \$423,414,000 at March 31, 2016 and December 31, 2015, respectively, and are secured by investment securities with carrying values of \$397,148,000 and \$446,838,000, respectively. Securities are pledged to customers at the time of the transaction in an amount at least equal to the outstanding balance and are held in custody accounts by third parties. The fair value of collateral is continually monitored and additional collateral is provided as deemed appropriate.

The following tables summarize the carrying value of the Company's repurchase agreements by remaining contractual maturity and category of collateral:

(Dollars in thousands)	March 31, 2016		
	Remaining Contractual Maturity of the Agreements	Overnight Up to and 30 Days	Total
Residential mortgage-backed securities	\$443,913	2,047	445,960

(Dollars in thousands)	December 31, 2015		
	Remaining Contractual Maturity of the Agreements	Overnight Up to and 30 Days	Total
U.S. government sponsored enterprises	\$12,507	—	12,507
Residential mortgage-backed securities	408,460	2,447	410,907
	\$420,967	2,447	423,414

Note 7. Derivatives and Hedging Activities

As of March 31, 2016, the Company's interest rate swap derivative financial instruments were designated as cash flow hedges and are summarized as follows:

(Dollars in thousands)	Forecasted Notional Amount	Variable Interest Rate ¹	Fixed Interest Rate ¹	Payment Term
Interest rate swap	\$ 160,000	3 month LIBOR	3.378 %	Oct. 21, 2014 - Oct. 21, 2021
Interest rate swap	100,000	3 month LIBOR	2.498 %	Nov. 30, 2015 - Nov. 30, 2022

¹ The Company pays the fixed interest rate and the counterparty pays the Company the variable interest rate.

The hedging strategy converts the LIBOR-based variable interest rate on borrowings to a fixed interest rate, thereby protecting the Company from interest rate variability.

The interest rate swaps with the \$160,000,000 and \$100,000,000 notional amounts began their payment terms in October 2014 and November 2015, respectively. The Company designated wholesale deposits as the cash flow hedge

and these deposits were determined to be fully effective during the current and prior year. As such, no amount of ineffectiveness has been included in the Company's statements of operations for the three months ended March 31, 2016 and 2015. Therefore, the aggregate fair value of the interest rate swaps was recorded in other liabilities with changes recorded in other comprehensive income ("OCI"). The Company expects the hedges to remain highly effective during the remaining terms of the interest rate swaps. Interest expense recorded on the interest rate swaps totaled \$1,998,000 and \$1,351,000 during 2016 and 2015, respectively, and is reported as a component of interest expense on deposits. Unless the interest rate swaps are terminated during the next year, the Company expects \$7,903,000 of the unrealized loss reported in other comprehensive income at March 31, 2016 to be reclassified to interest expense during the next twelve months.

The following table presents the pre-tax gains or losses recorded in accumulated other comprehensive income and the Company's statements of operations relating to the interest rate swap derivative financial instruments:

(Dollars in thousands)	Three Months ended	
	March 31, 2016	March 31, 2015
Interest rate swaps		
Amount of loss recognized in OCI (effective portion)	\$(9,928)	(5,993)
Amount of loss reclassified from OCI to interest expense	(1,829)	(1,251)
Amount of loss recognized in other non-interest expense (ineffective portion)	—	—

The following table discloses the offsetting of financial liabilities and interest rate swap derivative liabilities. There were no interest rate swap derivative assets at the dates presented.

(Dollars in thousands)	March 31, 2016			December 31, 2015		
	Gross Amounts of Recognized Liabilities	Offset in the Statements of Financial Position	Net Amounts of Liabilities Presented in the Statements of Financial Position	Gross Amounts of Recognized Liabilities	Offset in the Statements of Financial Position	Net Amounts of Liabilities Presented in the Statements of Financial Position
Interest rate swaps	\$27,598	—	27,598	19,499	—	19,499

Pursuant to the interest rate swap agreements, the Company pledged collateral to the counterparty in the form of investment securities totaling \$32,673,000 at March 31, 2016. There was \$0 collateral pledged from the counterparty to the Company as of March 31, 2016. There is the possibility that the Company may need to pledge additional collateral in the future if there were declines in the fair value of the interest rate swap derivative financial instruments versus the collateral pledged.

Note 8. Other Expenses

Other expenses consists of the following:

(Dollars in thousands)	Three Months ended	
	March 31, 2016	March 31, 2015
Debit card expenses	\$1,849	1,352
Consulting and outside services	1,014	1,471
Telephone	960	809
Printing and supplies	943	790
Postage	880	914
Loan expenses	783	609
Checking and operating expenses	694	705

Edgar Filing: GLACIER BANCORP INC - Form 10-Q

VIE write-downs and other expenses	639	607
Employee expenses	579	496
Accounting and audit fees	391	450
Business development	342	308
ATM expenses	255	266
Legal fees	237	265
Other	980	879
Total other expenses	\$10,546	9,921

26

Note 9. Accumulated Other Comprehensive Income

The following table illustrates the activity within accumulated other comprehensive income by component, net of tax:

(Dollars in thousands)	Gains on Available-For-Sale Securities	Losses on Derivatives Used for Cash Flow Hedges	Total
Balance at December 31, 2014	\$ 27,945	(10,201)	17,744
Other comprehensive income (loss) before reclassification	3,201	(3,682)	(481)
Amounts reclassified from accumulated other comprehensive income	(3)) 767	764
Net current period other comprehensive income (loss)	3,198	(2,915)	283
Balance at March 31, 2015	\$ 31,143	(13,116)	18,027
Balance at December 31, 2015	\$ 13,935	(11,946)	1,989
Other comprehensive income (loss) before reclassification	8,331	(6,082)	2,249
Amounts reclassified from accumulated other comprehensive income	(38)) 1,121	1,083
Net current period other comprehensive income (loss)	8,293	(4,961)	3,332
Balance at March 31, 2016	\$ 22,228	(16,907)	5,321

Note 10. Earnings Per Share

Basic earnings per share is computed by dividing net income by the weighted-average number of shares of common stock outstanding during the period presented. Diluted earnings per share is computed by including the net increase in shares as if dilutive outstanding stock options were exercised and restricted stock awards were vested, using the treasury stock method.

Basic and diluted earnings per share has been computed based on the following:

(Dollars in thousands, except per share data)	Three Months ended	
	March 31, 2016	March 31, 2015
Net income available to common stockholders, basic and diluted	\$28,682	27,670
Average outstanding shares - basic	76,126,257	75,206,348
Add: dilutive stock options and awards	47,166	38,611
Average outstanding shares - diluted	76,173,417	75,244,959
Basic earnings per share	\$0.38	0.37
Diluted earnings per share	\$0.38	0.37

There were no stock options or restricted stock awards excluded from the diluted average outstanding share calculation for the three months ended March 31, 2016 and 2015, because to do so would have been anti-dilutive for those periods. Anti-dilution occurs when the exercise price of a stock option or the unrecognized compensation cost per share of a restricted stock award exceeds the market price of the Company's stock.

Note 11. Fair Value of Assets and Liabilities

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. There is a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The three levels of inputs that may be used to measure fair value are as follows:

- Level 1 Quoted prices in active markets for identical assets or liabilities
- Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities
- Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities

Transfers in and out of Level 1 (quoted prices in active markets), Level 2 (significant other observable inputs) and Level 3 (significant unobservable inputs) are recognized on the actual transfer date. There were no transfers between fair value hierarchy levels during the three month periods ended March 31, 2016 and 2015.

Recurring Measurements

The following is a description of the inputs and valuation methodologies used for assets and liabilities measured at fair value on a recurring basis, as well as the general classification of such assets and liabilities pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the period ended March 31, 2016.

Investment securities, available-for-sale: fair value for available-for-sale securities is estimated by obtaining quoted market prices for identical assets, where available. If such prices are not available, fair value is based on independent asset pricing services and models, the inputs of which are market-based or independently sourced market parameters, including but not limited to, yield curves, interest rates, volatilities, market spreads, prepayments, defaults, recoveries, cumulative loss projections, and cash flows. Such securities are classified in Level 2 of the valuation hierarchy. Where Level 1 or Level 2 inputs are not available, such securities are classified as Level 3 within the hierarchy.

Fair value determinations of available-for-sale securities are the responsibility of the Company's corporate accounting and treasury departments. The Company obtains fair value estimates from independent third party vendors on a monthly basis. The vendors' pricing system methodologies, procedures and system controls are reviewed to ensure they are appropriately designed and operating effectively. The Company reviews the vendors' inputs for fair value estimates and the recommended assignments of levels within the fair value hierarchy. The review includes the extent to which markets for investment securities are determined to have limited or no activity, or are judged to be active markets. The Company reviews the extent to which observable and unobservable inputs are used as well as the appropriateness of the underlying assumptions about risk that a market participant would use in active markets, with adjustments for limited or inactive markets. In considering the inputs to the fair value estimates, the Company places less reliance on quotes that are judged to not reflect orderly transactions, or are non-binding indications. In assessing credit risk, the Company reviews payment performance, collateral adequacy, third party research and analyses, credit rating histories and issuers' financial statements. For those markets determined to be inactive or limited, the valuation techniques used are models for which management has verified that discount rates are appropriately adjusted to reflect illiquidity and credit risk.

Interest rate swap derivative financial instruments: fair values for interest rate swap derivative financial instruments are based upon the estimated amounts to settle the contracts considering current interest rates and are calculated using

discounted cash flows that are observable or that can be corroborated by observable market data and, therefore, are classified within Level 2 of the valuation hierarchy. The inputs used to determine fair value include the 3 month LIBOR forward curve to estimate variable rate cash inflows and the Fed Funds Effective Swap Rate to estimate the discount rate. The estimated variable rate cash inflows are compared to the fixed rate outflows and such difference is discounted to a present value to estimate the fair value of the interest rate swaps. The Company also obtains and compares the reasonableness of the pricing from an independent third party.

The following tables disclose the fair value measurement of assets and liabilities measured at fair value on a recurring basis:

(Dollars in thousands)	Fair Value March 31, 2016	Fair Value Measurements At the End of the Reporting Period Using	
		Quoted Prices in Significant Markets for Observable Inputs (Level 1) (Assets)	Significant Unobservable Inputs (Level 3)
Investment securities, available-for-sale			
U.S. government and federal agency	\$45,687	—45,687	—
U.S. government sponsored enterprises	68,773	—68,773	—
State and local governments	901,133	—901,133	—
Corporate bonds	442,875	—442,875	—
Residential mortgage-backed securities	1,146,157	—1,146,157	—
Total assets measured at fair value on a recurring basis	\$2,604,625	—2,604,625	—
Interest rate swaps	\$27,598	—27,598	—
Total liabilities measured at fair value on a recurring basis	\$27,598	—27,598	—

(Dollars in thousands)	Fair Value December 31, 2015	Fair Value Measurements At the End of the Reporting Period Using	
		Quoted Prices in Significant Markets for Observable Inputs (Level 1) (Assets)	Significant Unobservable Inputs (Level 3)
Investment securities, available-for-sale			
U.S. government and federal agency	\$47,451	—47,451	—
U.S. government sponsored enterprises	93,167	—93,167	—
State and local governments	885,019	—885,019	—
Corporate bonds	384,163	—384,163	—
Residential mortgage-backed securities	1,200,960	—1,200,960	—
Total assets measured at fair value on a recurring basis	\$2,610,760	—2,610,760	—
Interest rate swaps	\$19,499	—19,499	—
Total liabilities measured at fair value on a recurring basis	\$19,499	—19,499	—

Non-recurring Measurements

The following is a description of the inputs and valuation methodologies used for assets recorded at fair value on a non-recurring basis, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the period ended March 31, 2016.

Other real estate owned: OREO is carried at the lower of fair value at acquisition date or current estimated fair value, less estimated cost to sell. Estimated fair value of OREO is based on appraisals or evaluations (new or updated). OREO is classified within Level 3 of the fair value hierarchy.

Collateral-dependent impaired loans, net of ALLL: loans included in the Company's loan portfolio for which it is probable that the Company will not collect all principal and interest due according to contractual terms are considered impaired. Estimated fair value of collateral-dependent impaired loans is based on the fair value of the collateral, less estimated cost to sell. Collateral-dependent impaired loans are classified within Level 3 of the fair value hierarchy.

The Company's credit departments review appraisals for OREO and collateral-dependent loans, giving consideration to the highest and best use of the collateral. The appraisal or evaluation (new or updated) is considered the starting point for determining fair value. The valuation techniques used in preparing appraisals or evaluations (new or updated) include the cost approach, income approach, sales comparison approach, or a combination of the preceding valuation techniques. The key inputs used to determine the fair value of the collateral-dependent loans and OREO include selling costs, discounted cash flow rate or capitalization rate, and adjustment to comparables. Valuations and significant inputs obtained by independent sources are reviewed by the Company for accuracy and reasonableness. The Company also considers other factors and events in the environment that may affect the fair value. The appraisals or evaluations (new or updated) are reviewed at least quarterly and more frequently based on current market conditions, including deterioration in a borrower's financial condition and when property values may be subject to significant volatility. After review and acceptance of the collateral appraisal or evaluation (new or updated), adjustments to the impaired loan or OREO may occur. The Company generally obtains appraisals or evaluations (new or updated) annually.

The following tables disclose the fair value measurement of assets with a recorded change during the period resulting from re-measuring the assets at fair value on a non-recurring basis:

(Dollars in thousands)	Fair Value March 31, 2016	Fair Value Measurements At the End of the Reporting Period Using	
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Unobservable Inputs (Level 3)
Other real estate owned	\$547	—	547
Collateral-dependent impaired loans, net of ALLL	9,691	—	9,691
Total assets measured at fair value on a non-recurring basis	\$10,238	—	10,238

(Dollars in thousands)	Fair Value December 31, 2015	Fair Value Measurements At the End of the Reporting Period Using	
		Quoted Prices in Active Markets for Identical Assets (Level 2)	Significant Unobservable Inputs (Level 3)

			Adjustment to comparables	20.0% - 20.0% (20.0%)
	\$ 12,938			

¹ The range for selling costs and adjustments to comparables indicate reductions to the fair value.

Fair Value of Financial Instruments

The following is a description of the methods used to estimate the fair value of all other assets and liabilities recognized at amounts other than fair value.

Cash and cash equivalents: fair value is estimated at book value.

Investment securities, held-to-maturity: fair value for held-to-maturity securities is estimated in the same manner as available-for-sale securities, which is described above.

Loans held for sale: fair value is estimated at book value.

Loans receivable, net of ALLL: fair value is estimated by discounting the future cash flows using the rates at which similar notes would be written for the same remaining maturities. The market rates used are based on current rates the Company would impose for similar loans and reflect a market participant assumption about risks associated with non-performance, illiquidity, and the structure and term of the loans along with local economic and market conditions. Estimated fair value of impaired loans is based on the fair value of the collateral, less estimated cost to sell, or the present value of the loan's expected future cash flows (discounted at the loan's effective interest rate). All impaired loans are classified as Level 3 and all other loans are classified as Level 2 within the valuation hierarchy.

Accrued interest receivable: fair value is estimated at book value.

Non-marketable equity securities: fair value is estimated at book value due to restrictions that limit the sale or transfer of such securities.

Deposits: fair value of term deposits is estimated by discounting the future cash flows using rates of similar deposits with similar maturities. The market rates used were obtained from an independent third party and reviewed by the Company. The rates were the average of current rates offered by the Company's local competitors. The estimated fair value of demand, NOW, savings, and money market deposits is the book value since rates are regularly adjusted to market rates and transactions are executed at book value daily. Therefore, such deposits are classified in Level 1 of the valuation hierarchy. Certificate accounts and wholesale deposits are classified as Level 2 within the hierarchy.

Federal Home Loan Bank advances: fair value of non-callable Federal Home Loan Bank ("FHLB") advances is estimated by discounting the future cash flows using rates of similar advances with similar maturities. Such rates were obtained from current rates offered by FHLB. The estimated fair value of callable FHLB advances was obtained from FHLB and the model was reviewed by the Company.

Securities sold under agreements to repurchase and other borrowed funds: fair value of term repurchase agreements and other term borrowings is estimated based on current repurchase rates and borrowing rates currently available to the Company for repurchases and borrowings with similar terms and maturities. The estimated fair value for overnight repurchase agreements and other borrowings is book value.

Subordinated debentures: fair value of the subordinated debt is estimated by discounting the estimated future cash flows using current estimated market rates. The market rates used were averages of currently traded trust preferred securities with similar characteristics to the Company's issuances and obtained from an independent third party.

Accrued interest payable: fair value is estimated at book value.

Off-balance sheet financial instruments: commitments to extend credit and letters of credit represent the principal categories of off-balance sheet financial instruments. Rates for these commitments are set at time of loan closing, such that no adjustment is necessary to reflect these commitments at market value. The Company has an insignificant amount of off-balance sheet financial instruments.

The following tables present the carrying amounts, estimated fair values and the level within the fair value hierarchy of the Company's financial instruments:

(Dollars in thousands)	Carrying Amount March 31, 2016	Fair Value Measurements At the End of the Reporting Period Using

Note 12. Subsequent Event

On April 20, 2016, the Company announced the signing of a definitive agreement to acquire Treasure State Bank, a community bank based in Missoula, Montana. Treasure State Bank provides banking services to individuals and businesses in the greater Missoula market. As of December 31, 2015, Treasure State Bank had total assets of \$71,000,000, gross loans of \$53,000,000 and total deposits of \$58,000,000. Upon closing of the transaction, which is anticipated to take place in the third quarter of 2016, Treasure State Bank will be merged into the Bank and will become part of the First Security Bank of Missoula division.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion is intended to provide a more comprehensive review of the Glacier Bancorp, Inc.'s ("Company") operating results and financial condition than can be obtained from reading the Consolidated Financial Statements alone. The discussion should be read in conjunction with the Consolidated Financial Statements and the notes thereto included in "Part I. Item 1. Financial Statements."

FORWARD-LOOKING STATEMENTS

This Form 10-Q may contain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements include, but are not limited to, statements about management's plans, objectives, expectations and intentions that are not historical facts, and other statements identified by words such as "expects," "anticipates," "intends," "plans," "believes," "should," "projects," "seeks," "estimates" or words of similar nature. These forward-looking statements are based on current beliefs and expectations of management and are inherently subject to significant business, economic and competitive uncertainties and contingencies, many of which are beyond the Company's control. In addition, these forward-looking statements are subject to assumptions with respect to future business strategies and decisions that are subject to change. In addition to the factors set forth in the sections titled "Risk Factors," "Business" and "Management's Discussion and Analysis of Financial Condition and Results of Operations", as applicable, in this report and the Annual Report on Form 10-K for the year ended December 31, 2015 (the "2015 Annual Report"), the following factors, among others, could cause actual results to differ materially from the anticipated results:

- the risks associated with lending and potential adverse changes of the credit quality of loans in the Company's portfolio;
- changes in trade, monetary and fiscal policies and laws, including interest rate policies of the Board of Governors of the Federal Reserve System or the Federal Reserve Board, which could adversely affect the Company's net interest income and profitability;
- legislative or regulatory changes, including increased banking and consumer protection regulation that adversely affect the Company's business;
- inability to complete pending or prospective future acquisitions, limit certain sources of revenue, or increase cost of operations;
- costs or difficulties related to the completion and integration of acquisitions;
- the goodwill the Company has recorded in connection with acquisitions could become impaired, which may have an adverse impact on earnings and capital;
- reduced demand for banking products and services;
- the risks presented by continued public stock market volatility, which could adversely affect the market price of the Company's common stock and the ability to raise additional capital or grow the Company through acquisitions;
- consolidation in the financial services industry in the Company's markets resulting in the creation of larger financial institutions who may have greater resources could change the competitive landscape;
-

dependence on the Chief Executive Officer (“CEO”), the senior management team and the Presidents of Glacier Bank (“Bank”) divisions;
potential interruption or breach in security of the Company’s systems and technological changes which could expose us to new risks, fraud or system failures; and
the Company’s success in managing risks involved in the foregoing.

Please take into account that forward-looking statements speak only as of the date of this Form 10-Q. The Company does not undertake any obligation to publicly correct or update any forward-looking statement if it later becomes aware that actual results are likely to differ materially from those expressed in such forward-looking statement.

¹ Includes a special dividend declared of \$0.30 per share for the three months ended December 31, 2015.

The Company reported net income of \$28.7 million for the current quarter, an increase of of \$1.0 million, or 4 percent, from the \$27.7 million of net income for the prior year first quarter. Diluted earnings per share for the current quarter was \$0.38 per share, an increase of \$0.01, or 3 percent, from the prior year first quarter diluted earnings per share of \$0.37. Included in the current quarter was \$135 thousand from acquisition-related expenses and \$831 thousand of expenses related to the Company's consolidation of its Bank divisions' core database systems (Core Consolidation Project or "CCP"), including expenses related to the re-issuance of debit cards with chip technology. The Company's Core Consolidation Project will occur throughout the current year and is expected to be completed by year end.

Financial Condition Analysis

Assets

The following table summarizes the Company's assets as of the dates indicated:

(Dollars in thousands)	\$ Change from				
	Mar 31, 2016	Dec 31, 2015	Mar 31, 2015	Dec 31, 2015	Mar 31, 2015
Cash and cash equivalents	\$ 150,861	193,253	183,466	(42,392)	(32,605)

Commercial real estate	2,680,691	2,633,953	2,418,843	46,738	261,848
Other commercial	1,172,956	1,099,564	1,007,173	73,392	165,783
Home equity	423,895	420,901	402,970	2,994	20,925
Other consumer	234,625	235,351	221,218	(726)	13,407
Loans receivable	5,197,193	5,078,681	4,687,669	118,512	509,524
Allowance for loan and lease losses	(130,071)	(129,697)	(129,856)	(374)	(215)
Loans receivable, net	5,067,122	4,948,984	4,557,813	118,138	509,309
Other assets	606,471	634,163	619,439	(27,692)	(12,968)
Total assets	\$9,120,742	9,089,232	8,475,096	31,510	645,646

Total investment securities of \$3.296 billion at March 31, 2016 decreased \$16.5 million, or 50 basis points, during the current quarter and increased \$182 million, or 6 percent, from March 31, 2015. The Company continues to selectively purchase investment securities when the Company has excess liquidity. Investment securities represented 36 percent of total assets at March 31, 2016 compared to 36 percent of total assets at December 31, 2015 and 37 percent at March 31, 2015.

The loan portfolio increased \$119 million, or 9 percent annualized, during the current quarter. The loan category with the largest dollar and percentage increase during the current quarter was other commercial loans which increased \$73.4 million, or 7 percent, of which \$35.6 million of the increase was from municipal and SBA loans. Excluding the acquisition of Cañon Bank Corporation and its subsidiary, Cañon National Bank (collectively, "Cañon") in October 2015, the loan portfolio increased \$350 million, or 7 percent, since March 31, 2015 with \$152 million and \$150 million of the increase coming from growth in commercial real estate and other commercial loans, respectively.

Liabilities

The following table summarizes the Company's liabilities as of the dates indicated:

(Dollars in thousands)	Mar 31, 2016	Dec 31, 2015	Mar 31, 2015	\$ Change from	
				Dec 31, 2015	Mar 31, 2015
Deposits					
Non-interest bearing deposits	\$1,887,004	1,918,310	1,675,451	(31,306)	211,553
NOW and DDA accounts	1,448,454	1,516,026	1,313,036	(67,572)	135,418
Savings accounts	879,541	838,274	748,590	41,267	130,951
Money market deposit accounts	1,411,970	1,382,028	1,345,422	29,942	66,548
Certificate accounts	1,063,735	1,060,650	1,164,909	3,085	(101,174)
Core deposits, total	6,690,704	6,715,288	6,247,408	(24,584)	443,296
Wholesale deposits	325,490	229,720	211,384	95,770	114,106
Deposits, total	7,016,194	6,945,008	6,458,792	71,186	557,402
Securities sold under agreements to repurchase	445,960	423,414	425,652	22,546	20,308
Federal Home Loan Bank advances	313,969	394,131	298,148	(80,162)	15,821
Other borrowed funds	6,633	6,602	6,703	31	(70)
Subordinated debentures	125,884	125,848	125,741	36	143
Other liabilities	118,422	117,579	106,536	843	11,886
Total liabilities	\$8,027,062	8,012,582	7,421,572	14,480	605,490

Non-interest bearing deposits of \$1.887 billion at March 31, 2016, decreased \$31 million, or 2 percent, from the prior quarter, which was driven by seasonal fluctuations. Excluding the Cañon acquisition, non-interest bearing deposits increased \$122 million, or 7 percent, from March 31, 2015. Core interest bearing deposits of \$4.804 billion at March 31, 2016, increased \$6.7 million, or 14 basis points, from the prior quarter. The increase in savings and money market accounts during the current quarter offset the decrease in NOW and DDA accounts. Excluding the Cañon acquisition, core interest bearing deposits at March 31, 2016 increased \$83.5 million, or 2 percent, from March 31, 2015.

Wholesale deposits (i.e., brokered deposits classified as NOW, DDA, money market deposit and certificate accounts) of \$325 million at March 31, 2016 increased \$95.8 million over the prior quarter and increased \$114 million over the prior year first quarter. A portion of the increases were driven by a need to obtain wholesale deposits necessary for hedge accounting to be applicable for the interest rate swaps.

Securities sold under agreements to repurchase ("repurchase agreements") of \$446 million at March 31, 2016 increased \$22.5 million, or 5 percent, from the prior quarter and increased \$20.3 million, or 5 percent, from the prior year first quarter. Federal Home Loan Bank ("FHLB") advances of \$314 million at March 31, 2016 decreased \$80.2 million, or 20 percent, during the current quarter due to stable deposit balances and reduced need for additional borrowings.

Stockholders' Equity

The following table summarizes the stockholders' equity balances as of the dates indicated:

(Dollars in thousands, except per share data)			\$ Change from	
	Mar 31, 2016	Dec 31, 2015	Mar 31, 2015	Dec 31, Mar 31, 2015 2015
Common equity	\$1,088,359	1,074,661	1,035,497	13,698 52,862
Accumulated other comprehensive income	5,321	1,989	18,027	3,332 (12,706)
Total stockholders' equity	1,093,680	1,076,650	1,053,524	17,030 40,156
Goodwill and core deposit intangible, net	(154,396)	(155,193)	(143,099)	797 (11,297)
Tangible stockholders' equity	\$939,284	921,457	910,425	17,827 28,859
Stockholders' equity to total assets	11.99 %	11.85 %	12.43 %	
Tangible stockholders' equity to total tangible assets	10.48 %	10.31 %	10.93 %	
Book value per common share	\$14.36	14.15	13.95	0.21 0.41
Tangible book value per common share	\$12.33	12.11	12.05	0.22 0.28

Tangible stockholders' equity of \$939 million at March 31, 2016 increased \$17.8 million, or 2 percent, from the prior quarter primarily from earnings retention and an increase in accumulated other comprehensive income. Tangible stockholders' equity increased \$28.9 million, or 3 percent, from a year ago, the result of earnings retention and \$15.2 million of Company stock issued in connection with the Cañon acquisition. These two items offset the decrease in accumulated other comprehensive income and increases in goodwill and other intangibles from the acquisition. At March 31, 2016, the tangible book value per common share was \$12.33 an increase of \$0.22 per share from \$12.11 the prior quarter principally due to earnings retention. Tangible book value per common share for March 31, 2016, increased \$0.28 per share from the prior year first quarter.

Cash Dividend

On March 30, 2016, the Company's Board of Directors ("Board") declared a quarterly cash dividend of \$0.20 per share, a \$0.01 per share, or 5 percent, increase over the prior quarter dividend. The Company has increased its quarterly dividend 40 times. The dividend was payable April 21, 2016 to shareholders of record on April 12, 2016. Future cash dividends will depend on a variety of factors, including net income, capital, asset quality, general economic conditions and regulatory considerations.

Operating Results for Three Months Ended March 31, 2016
Compared to December 31, 2015 and March 31, 2015

Income Summary

The following table summarizes revenue for the periods indicated:

(Dollars in thousands)	Three Months ended			\$ Change from	
	Mar 31, 2016	Dec 31, 2015	Mar 31, 2015	Dec 31, 2015	Mar 31, 2015
Net interest income					
Interest income	\$84,381	83,211	77,486	1,170	6,895
Interest expense	7,675	7,215	7,382	460	293
Total net interest income	76,706	75,996	70,104	710	6,602
Non-interest income					
Service charges and other fees	14,331	15,044	12,999	(713)	1,332
Miscellaneous loan fees and charges	1,021	922	1,157	99	(136)
Gain on sale of loans	5,992	6,033	5,430	(41)	562
Gain on sale of investments	108	143	5	(35)	103
Other income	2,800	2,325	3,102	475	(302)
Total non-interest income	24,252	24,467	22,693	(215)	1,559
	\$100,958	100,463	92,797	495	8,161
Net interest margin (tax-equivalent)	4.01	% 4.02	% 4.03	%	

Net Interest Income

In the current quarter, interest income of \$84.4 million increased \$1.2 million, or 1 percent from the prior quarter and increased \$6.9 million, or 9 percent, over the prior year first quarter. The increases in interest income over the prior periods were driven primarily by increases in interest income on commercial loans which increased \$1.4 million, or 3 percent, over the prior quarter and increased \$5.5 million, or 14 percent, over the prior year first quarter and was the result of an increased volume of commercial loans. Interest income of \$23.9 million from investment securities increased \$152 thousand, or 1 percent, over the prior quarter and increased \$924 thousand, or 4 percent, over the prior year first quarter.

The current quarter interest expense of \$7.7 million increased \$460 thousand, or 6 percent, from the prior quarter and increased \$293 thousand from the prior year first quarter. The increases in interest expense were driven by the increase in wholesale deposits and the additional interest expense for an interest rate swap with a notional \$100 million that began its accrual period in December 2015. The total cost of funding (including non-interest bearing deposits) for the current quarter was 39 basis points compared to 37 basis points for the prior quarter and 42 basis points in the prior year first quarter.

The Company's net interest margin as a percentage of earning assets, on a tax-equivalent basis, for the current quarter was 4.01 percent compared to 4.02 percent in the prior quarter. During the current quarter, the earning asset yield increased by 1 basis point and was the result of a 1 basis point increase in loan yields. The cost of funds increased 2 basis points during the current quarter due to increased wholesale deposits and higher interest expense from the previously mentioned interest rate swap. The Company's current quarter net interest margin decreased 2 basis points from the prior year first quarter net interest margin of 4.03 percent. The decrease in the net interest margin from the prior year first quarter was the result of a 4 basis points reduction in the yield on earning assets that outpaced the 3 basis points reduction in cost of funding. The yield on earning assets benefited from the shift in earning assets from the lower yielding investment securities to the higher yielding loans; nevertheless it was outpaced by the overall

decreased yield on the loan portfolio.

39

Non-interest Income

Non-interest income for the current quarter totaled \$24.3 million, a decrease of \$215 thousand, or 1 percent, from the prior quarter and an increase of \$1.6 million, or 7 percent, over the same quarter last year. Service fee income of \$14.3 million, increased \$1.3 million, or 10 percent, from the prior year first quarter driven by the increased number of deposit accounts. Gain on sale of residential loans for the current quarter increased \$562 thousand, or 10 percent, from the prior year first quarter. In the prior year first quarter, the Company experienced a strong quarter for sales of residential loans as a result of the refinance activity and the Company's resource commitment to this line of business has benefited the Company with an even stronger current year first quarter. Other non-interest income of \$2.8 million for the current quarter increased \$475 thousand, or 20 percent, over the prior quarter primarily due to annual vendor incentives received and a gain on the sale of a bank building. Other non-interest income for the current quarter decreased \$302 thousand from the prior year first quarter due to insurance proceeds received in the prior year first quarter from a bank owned life insurance policy. Included in other income was operating revenue of \$11 thousand from OREO and a gain of \$203 thousand from the sale of OREO, a combined total of \$214 thousand for the current quarter compared to \$239 thousand for the prior quarter and \$417 thousand for the prior year first quarter.

Non-interest Expense

The following table summarizes non-interest expense for the periods indicated:

(Dollars in thousands)	Three Months ended			\$ Change from	
	Mar 31, 2016	Dec 31, 2015	Mar 31, 2015	2015	2015
Compensation and employee benefits	\$36,941	35,902	32,244	1,039	4,697
Occupancy and equipment	6,676	6,579	6,060	97	616
Advertising and promotions	2,125	2,035	1,927	90	198
Data processing	3,373	3,244	2,551	129	822
Other real estate owned	390	511	758	(121)	(368)
Regulatory assessments and insurance	1,508	1,494	1,305	14	203
Core deposit intangibles amortization	797	758	731	39	66
Other expenses	10,546	11,680	9,921	(1,134)	625
Total non-interest expense	\$62,356	62,203	55,497	153	6,859

Compensation and employee benefits for the current quarter increased by \$1.0 million, or 3 percent, from the prior quarter as a result of an increased number of employees from the Cañon acquisition and annual salary increases. Compensation and employee benefits for the current quarter increased by \$4.7 million, or 15 percent, from the prior year first quarter due to the increased number of employees from the Montana Community Banks, Inc. and its subsidiary, Community Bank (collectively, "CB") acquisition in February 2015 and the Cañon acquisition, annual salary increases, and an increase in the number of employees. Current quarter occupancy and equipment expense increased \$616 thousand, or 10 percent, from the prior year first quarter as a result of added costs associated with the acquisitions. The current quarter data processing expense increased \$822 thousand, or 32 percent, from the prior year first quarter primarily from expenses associated with CCP and expenses from the Cañon acquisition. The current quarter OREO expense of \$390 thousand was a decrease of \$368 thousand from the prior year first quarter and included \$136 thousand of operating expense, \$55 thousand of fair value write-downs, and \$199 thousand of loss from the sales of OREO. Current quarter other expenses of \$10.6 million decreased by \$1.1 million, or 10 percent, from the prior quarter. The prior quarter included professional expenses associated with the Cañon acquisition and expenses connected with equity investments in New Markets Tax Credit ("NMTC") projects. Federal and state income tax expense of \$9.4 million in the current quarter increased \$1.0 million from the prior quarter and was primarily the result of the NMTC credits recognized in the prior quarter. Current quarter other expenses increased \$625 thousand, or 6 percent, over the prior year first quarter with increases related to CCP and increased expenses from recent

acquisitions, albeit several areas experienced decreases including outside services, which decreased as a result of acquisition-related expenses in the prior year first quarter.

Efficiency Ratio

Although there were increased expenses in the current quarter related to CCP, the efficiency ratio for the current quarter of 56.53 percent remained stable compared to 56.52 percent in the prior quarter with minimal changes in the income and expense items related to the efficiency ratio. The current quarter efficiency ratio of 56.53 percent compares to 54.80 percent in the prior year first quarter. The 1.73 percent increase in the efficiency ratio resulted primarily from increased compensation expense from recent acquisitions and increased salaries along with increased expenses related to CCP, which outpaced the increases in net interest income and non-interest income for the same period.

Provision for Loan Losses

The following table summarizes the provision for loan losses, net charge-offs and select ratios relating to the provision for loan losses for the previous eight quarters:

(Dollars in thousands)	Provision for Loan Losses	Net Charge-Offs (Recoveries)	Allowance for Loan and Lease Losses as a Percent of Loans	Accruing Loans 30-89 Days Past Due as a Percent of Loans	Non-Performing Assets to Total Sub-sidiary Assets
First quarter 2016	\$ 568	\$ 194	2.50 %	0.46 %	0.88 %
Fourth quarter 2015	411	1,482	2.55 %	0.38 %	0.88 %
Third quarter 2015	826	577	2.68 %	0.37 %	0.97 %
Second quarter 2015	282	(381)	2.71 %	0.59 %	0.98 %
First quarter 2015	765	662	2.77 %	0.71 %	1.07 %
Fourth quarter 2014	191	1,070	2.89 %	0.58 %	1.08 %
Third quarter 2014	360	364	2.93 %	0.39 %	1.21 %
Second quarter 2014	239	332	3.11 %	0.44 %	1.30 %

Net charge-offs of loans for the current quarter were \$194 thousand compared to net charge-offs of \$1.5 million for the prior quarter and net charge-offs of \$662 thousand from the same quarter last year. The current quarter provision for loan losses of \$568 thousand increased \$157 thousand from the prior quarter and decreased \$197 thousand from the prior year first quarter. Loan portfolio growth, composition, average loan size, credit quality considerations, and other environmental factors will continue to determine the level of the loan loss provision.

The determination of the allowance for loan and lease losses (“ALLL” or “allowance”) and the related provision for loan losses is a critical accounting estimate that involves management’s judgments about current environmental factors which affect loan losses, such factors including economic conditions, changes in collateral values, net charge-offs, and other factors discussed below in “Additional Management’s Discussion and Analysis.”

ADDITIONAL MANAGEMENT'S DISCUSSION AND ANALYSIS

Acquisition

On April 20, 2016, the Company announced the signing of a definitive agreement to acquire Treasure State Bank, a community bank based in Missoula, Montana. Treasure State Bank provides banking services to individuals and businesses in the greater Missoula market. As of December 31, 2015, Treasure State Bank had total assets of \$71 million, gross loans of \$53 million and total deposits of \$58 million. Upon closing of the transaction, which is anticipated to take place in the third quarter of 2016, Treasure State Bank will be merged into the Bank and will become part of the First Security Bank of Missoula division.

Investment Activity

Investment securities classified as available-for-sale are carried at estimated fair value and investment securities classified as held-to-maturity are carried at amortized cost. Unrealized gains or losses, net of tax, on available-for-sale securities are reflected as an adjustment to other comprehensive income. The Company's investment securities are summarized below:

(Dollars in thousands)	March 31, 2016			December 31, 2015			March 31, 2015		
	Carrying Amount	Percent		Carrying Amount	Percent		Carrying Amount	Percent	
Available-for-sale									
U.S. government and federal agency	\$45,687	1 %		\$47,451	1 %		\$52,852	2 %	
U.S. government sponsored enterprises	68,773	2 %		93,167	3 %		78,228	3 %	
State and local governments	901,133	27 %		885,019	27 %		996,146	32 %	
Corporate bonds	442,875	14 %		384,163	12 %		380,310	12 %	
Residential mortgage-backed securities	1,146,157	35 %		1,200,960	36 %		1,036,557	33 %	
Total available-for-sale	2,604,625	79 %		2,610,760	79 %		2,544,093	82 %	
Held-to-maturity									
State and local governments	691,663	21 %		702,072	21 %		570,285	18 %	
Total held-to-maturity	691,663	21 %		702,072	21 %		570,285	18 %	
Total investment securities	\$3,296,288	100 %		\$3,312,832	100 %		\$3,114,378	100 %	

The Company's investment portfolio is primarily comprised of state and local government securities and residential mortgage-backed securities. State and local government securities are largely exempt from federal income tax and the Company's maximum federal statutory rate of 35 percent is used in calculating the tax-equivalent yields on the tax-exempt securities. Residential mortgage-backed securities are typically short, weighted-average life U.S. agency collateralized mortgage obligations that provide the Company with ongoing liquidity as scheduled and pre-paid principal is received on the securities.

State and local government securities carry different risks that are not as prevalent in other security types. The Company evaluates the investment grade quality of its securities in accordance with regulatory guidance. Investment grade securities are those where the issuer has an adequate capacity to meet the financial commitments under the security for the projected life of the investment. An issuer has an adequate capacity to meet financial commitments if the risk of default by the obligor is low and the full and timely payment of principal and interest are expected. In assessing credit risk, the Company may use credit ratings from Nationally Recognized Statistical Rating Organizations ("NRSRO" entities such as Standard and Poor's ["S&P"] and Moody's) as support for the evaluation; however, they are not solely relied upon. There have been no significant differences in the Company's internal evaluation of the creditworthiness of any issuer when compared with the ratings assigned by the NRSROs.

The following table stratifies the state and local government securities by the associated NRSRO ratings. The highest issued rating was used to categorize the securities in the table for those securities where the NRSRO ratings were not at the same level.

(Dollars in thousands)	March 31, 2016		December 31, 2015	
	Amortized	Fair	Amortized	Fair
	Cost	Value	Cost	Value
S&P: AAA / Moody's: Aaa	\$364,615	372,653	366,961	374,470

Washington	180,196	189,900	179,173	187,949
California	105,360	107,983	105,510	108,235
Montana	93,517	99,826	90,272	95,644
All other states	787,896	814,295	816,406	841,791
Total	\$1,561,902	1,621,323	1,558,810	1,614,532

The following table presents the carrying amount and weighted-average yield of available-for-sale and held-to-maturity investment securities by contractual maturity at March 31, 2016. Weighted-average yields are based upon the amortized cost of securities and are calculated using the interest method which takes into consideration premium amortization, discount accretion and mortgage-backed securities' prepayment provisions. Weighted-average yields on tax-exempt investment securities exclude the federal income tax benefit.

(Dollars in thousands)	One Year or Less		After One through Five Years		After Five through Ten Years		After Ten Years		Residential Mortgage-Backed Securities		Total Amount

For additional information on investment securities, see Note 2 to the Consolidated Financial Statements in "Part I. Item 1. Financial Statements."

Other-Than-Temporary Impairment on Securities Analysis

Non-marketable equity securities. Non-marketable equity securities largely consist of capital stock issued by the FHLB of Des Moines and are evaluated for impairment whenever events or circumstances suggest the carrying value may not be recoverable. Based on the Company's evaluation of its investments in non-marketable equity securities as of March 31, 2016, the Company determined that none of such securities had other-than-temporary impairment.

Debt securities. In evaluating debt securities for other-than-temporary impairment losses, management assesses whether the Company intends to sell the security or if it is more-likely-than-not that the Company will be required to sell the debt security. In so doing, management considers contractual constraints, liquidity, capital, asset/liability management and securities portfolio objectives. For debt securities with limited or inactive markets, the impact of macroeconomic conditions in the U.S. upon fair value estimates includes higher risk-adjusted discount rates and

changes in credit ratings provided by NRSRO. In June 2015, S&P reaffirmed its AA+ rating of U.S. government long-term debt, and the outlook remains stable. In October 2015, Moody's reaffirmed its Aaa rating of U.S. government long-term debt and the outlook remains stable. In April 2015, Fitch reaffirmed its AAA rating of U.S. government long-term debt and the outlook remains stable. S&P, Moody's and Fitch have similar credit ratings and outlooks with respect to certain long-term debt instruments issued by Federal National Mortgage Association ("Fannie Mae"), Federal Home Loan Mortgage Corporation ("Freddie Mac") and other U.S. government agencies linked to the long-term U.S. debt.

The following table separates investments with an unrealized loss position at March 31, 2016 into two categories: investments purchased prior to 2016 and those purchased during 2016. Of those investments purchased prior to 2016, the fair market value and unrealized gain or loss at December 31, 2015 is also presented.

(Dollars in thousands)	March 31, 2016			December 31, 2015		
	Fair Value	Unrealized Loss	Unrealized Loss as a Percent of Fair Value	Fair Value	Unrealized Loss	Unrealized Loss as a Percent of Fair Value
Temporarily impaired securities purchased prior to 2016						
U.S. government and federal agency	\$41,769	\$(288)	(1)%	\$43,374	\$(419)	(1)%
State and local governments	300,287	(10,244)	(3)%	301,250	(9,780)	(3)%
Corporate bonds	206,199	(1,188)	(1)%	206,920	(1,526)	(1)%
Residential mortgage-backed securities	319,621	(2,637)	(1)%	339,912	(4,246)	(1)%
Total	\$867,876	\$(14,357)	(2)%	\$891,456	\$(15,971)	(2)%
Temporarily impaired securities purchased during 2016						
State and local governments	\$21,290	\$(136)	(1)%			
Corporate bonds	35,635	(307)	(1)%			
Residential mortgage-backed securities	4,955	(53)	(1)%			
Total	\$61,880	\$(496)	(1)%			
Temporarily impaired securities						
U.S. government and federal agency	\$41,769	\$(288)	(1)%			
State and local governments	321,577	(10,380)	(3)%			
Corporate bonds	241,834	(1,495)	(1)%			
Residential mortgage-backed securities	324,576	(2,690)	(1)%			
Total	\$929,756	\$(14,853)	(2)%			

With respect to severity, the following table provides the number of debt securities and amount of unrealized loss in the various ranges of unrealized loss as a percent of book value at March 31, 2016:

(Dollars in thousands)	Number of Debt Securities	Unrealized Loss
Greater than 10.0%	2	\$(379)
5.1% to 10.0%	27	(3,381)
0.1% to 5.0%	458	(11,093)
Total	487	\$(14,853)

With respect to the duration of the impaired debt securities, the Company identified 230 securities which have been continuously impaired for the twelve months ending March 31, 2016. The valuation history of such securities in the prior year(s) was also reviewed to determine the number of months in the prior year(s) in which the identified securities were in an unrealized loss position.

The following table provides details of the 230 debt securities which have been continuously impaired for the twelve months ended March 31, 2016, including the most notable loss for any one bond in each category.

(Dollars in thousands)	Number of Debt Securities	Unrealized Loss for 12 Months Or More	Most Notable Loss
U.S. government and federal agency	28	\$(283)	\$(33)
State and local governments	170	(9,727)	(811)
Corporate bonds	13	(268)	(52)
Residential mortgage-backed securities	19	(1,035)	(399)
Total	230	\$(11,313)	

Based on the Company's analysis of its impaired debt securities as of March 31, 2016, the Company determined that none of such securities had other-than-temporary impairment and the unrealized losses were primarily the result of interest rate changes and market spreads subsequent to acquisition. A substantial portion of the debt securities with unrealized losses at March 31, 2016 were issued by Fannie Mae, Freddie Mac, Government National Mortgage Association ("Ginnie Mae") and other agencies of the U.S. government or have credit ratings issued by one or more of the NRSRO entities in the four highest credit rating categories. All of the Company's impaired debt securities at March 31, 2016 have been determined by the Company to be investment grade.

Lending Activity

The Company focuses its lending activities primarily on the following types of loans: 1) first-mortgage, conventional loans secured by residential properties, particularly single-family; 2) commercial lending, including agriculture, that concentrates on targeted businesses; and 3) installment lending for consumer purposes (e.g., home equity, automobile, etc.). Supplemental information regarding the Company's loan portfolio and credit quality based on regulatory classification is provided in the section captioned "Loans by Regulatory Classification" included in "Part I. Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations." The regulatory classification of loans is based primarily on the type of collateral for the loans. Loan information included in "Part I. Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations" is based on the Company's loan segments and classes, which are based on the purpose of the loan, unless otherwise noted as a regulatory classification.

The following table summarizes the Company's loan portfolio as of the dates indicated:

(Dollars in thousands)	March 31, 2016		December 31, 2015		March 31, 2015

Residential real estate	7,319	8,073	7,365
Commercial	39,546	36,510	46,608
Consumer and other	6,658	6,550	6,314
Total	53,523	51,133	60,287
Total non-performing assets ¹	\$80,223	80,079	90,768
Non-performing assets as a percentage of subsidiary assets	0.88	% 0.88	% 1.07
ALLL as a percentage of non-performing loans	224	% 244	% 207
Accruing loans 30-89 days past due	\$23,996	19,413	33,450
Accruing troubled debt restructurings	\$53,311	63,590	69,397
Non-accrual troubled debt restructurings	\$23,879	27,057	34,237
Interest income ²	\$639	2,471	721

¹ As of March 31, 2016, non-performing assets have not been reduced by U.S. government guarantees of \$2.2 million.

² Amounts represent estimated interest income that would have been recognized on loans accounted for on a non-accrual basis as of the end of each period had such loans performed pursuant to contractual terms.

Non-performing assets at March 31, 2016 were \$80.2 million, an increase of \$144 thousand, or 18 basis points, during the current quarter. Non-performing assets at March 31, 2016 decreased \$10.5 million, or 12 percent, from a year ago. Early stage delinquencies (accruing loans 30-89 days past due) of \$24.0 million at March 31, 2016 increased \$4.6 million from the prior quarter and decreased \$9.5 million from the prior year first quarter.

Most of the Company's non-performing assets are secured by real estate, and based on the most current information available to management, including updated appraisals or evaluations (new or updated), the Company believes the value of the underlying real estate collateral is adequate to minimize significant charge-offs or losses to the Company. The Company evaluates the level of its non-performing loans, the values of the underlying real estate and other collateral, and related trends in internal and external environmental factors and net charge-offs in determining the adequacy of the ALLL. Through pro-active credit administration, the Company works closely with its borrowers to seek favorable resolution to the extent possible, thereby attempting to minimize net charge-offs or losses to the Company. The Company continues to maintain an adequate allowance while working to reduce non-performing loans.

Construction loans, a regulatory classification, accounted for 31 percent of the Company's non-accrual loans as of March 31, 2016. Land, lot and other construction loans, a regulatory classification, were 94 percent of the non-accrual construction loans. Of the Company's \$16.6 million of non-accrual construction loans at March 31, 2016, 91 percent of such loans had collateral properties securing the loans in Western Montana. Consistent with the gradual economic recovery, the upscale primary, secondary and other housing markets, as well as the associated construction and building industries show improved activity after several years of decline. As the housing market (rental and owner-occupied) and related industries continue to recover from the downturn, the Company continues to reduce its exposure to loss in the land, lot and other construction loan portfolio.

During the construction loan term, all construction loan collateral properties are inspected at least monthly, or more frequently as needed, until completion. Draws on construction loans are predicated upon the results of the inspection and advanced based upon a percentage-of-completion basis versus original budget percentages. When construction loans become non-performing and the associated project is not complete, the Company on a case-by-case basis makes the decision to advance additional funds or to initiate collection/foreclosure proceedings. Such decision includes obtaining "as-is" and "at completion" appraisals for consideration of potential increases or decreases in the collateral's value. The Company also considers the increased costs of monitoring progress to completion, and the related collection/holding period costs should collateral ownership be transferred to the Company. With very limited exception, the Company does not disburse additional funds on non-performing loans. Instead, the Company has proceeded to collection and foreclosure actions in order to reduce the Company's exposure to loss on such loans.

For additional information on accounting policies relating to non-performing assets and impaired loans, see Note 1 to the Consolidated Financial Statements in "Part I. Item 1. Financial Statements."

Impaired Loans

Loans are designated impaired when, based upon current information and events, it is probable that the Company will be unable to collect the scheduled payments of principal or interest when due according to the contractual terms of the loan agreement and therefore, the Company has serious doubts as to the ability of such borrowers to fulfill the contractual obligation. Impaired loans include non-performing loans (i.e., non-accrual loans and accruing loans ninety days or more past due) and accruing loans under ninety days past due where it is probable payments will not be received according to the loan agreement (e.g., troubled debt restructuring).

Impaired loans were \$141 million as of March 31, 2016 and December 31, 2015. The ALLL includes specific valuation allowances of \$8.4 million and \$8.1 million of impaired loans as of March 31, 2016 and December 31, 2015, respectively. Of the total impaired loans at March 31, 2016, there were 21 significant commercial real estate and other commercial loans that accounted for \$58.9 million, or 42 percent, of the impaired loans. The 21 loans were collateralized by 132 percent of the loan value, the majority of which had appraisals or evaluations (new or updated) during the last year, such appraisals reviewed at least quarterly taking into account current market conditions. Of the total impaired loans at March 31, 2016, there were 159 loans aggregating \$86.3 million, or 61 percent, whereby the borrowers had more than one impaired loan.

Restructured Loans

A restructured loan is considered a troubled debt restructuring ("TDR") if the creditor, for economic or legal reasons related to the debtor's financial difficulties, grants a concession to the debtor that it would not otherwise consider. The Company had TDR loans of \$77.2 million and \$90.6 million as of March 31, 2016 and December 31, 2015, respectively. The Company's TDR loans are considered impaired loans of which \$23.9 million and \$27.1 million as of March 31, 2016 and December 31, 2015, respectively, are designated as non-accrual.

Each restructured debt is separately negotiated with the borrower and includes terms and conditions that reflect the borrower's prospective ability to service the debt as modified. The Company discourages the use of the multiple loan strategy when restructuring loans regardless of whether or not the loans are designated as TDRs.

Other Real Estate Owned

The book value prior to the acquisition and transfer of the loan into OREO during 2016 was \$210 thousand. The fair value of the loan collateral acquired in foreclosure during 2016 was \$178 thousand. The following table sets forth the changes in OREO for the periods indicated:

	Three Months ended March 31, 2016	Year ended December 31, 2015	Three Months ended March 31, 2015
(Dollars in thousands)			
Balance at beginning of period	\$ 26,815	27,804	27,804

Additions	178	7,989	3,217
Capital improvements	75	1,710	138
Write-downs	(55)	(1,575)	(224)
Sales	(4,928)	(10,087)	(3,275)
Balance at end of period	\$ 22,085	26,815	28,124

Allowance for Loan and Lease Losses

Determining the adequacy of the ALLL involves a high degree of judgment and is inevitably imprecise as the risk of loss is difficult to quantify. The ALLL methodology is designed to reasonably estimate the probable loan and lease losses within the Company's loan portfolio. Accordingly, the ALLL is maintained within a range of estimated losses. The determination of the ALLL, including the provision for loan losses and net charge-offs, is a critical accounting estimate that involves management's judgments about all known relevant internal and external environmental factors that affect loan losses, including the credit risk inherent in the loan portfolio, economic conditions nationally and in the local markets in which the Company operates, trends and changes in collateral values, delinquencies, non-performing assets, net charge-offs and credit-related policies and personnel. Although the Company continues to actively monitor economic trends, soft economic conditions combined with potential declines in the values of real estate that collateralize most of the Company's loan portfolio may adversely affect the credit risk and potential for loss to the Company.

The ALLL evaluation is well documented and approved by the Company's Board. In addition, the policy and procedures for determining the balance of the ALLL are reviewed annually by the Company's Board, the internal audit department, independent credit reviewers and state and federal bank regulatory agencies.

At the end of each quarter, the Company analyzes its loan portfolio and maintains an ALLL at a level that is appropriate and determined in accordance with accounting principles generally accepted in the United States of America ("GAAP"). The allowance consists of a specific valuation allowance component and a general valuation allowance component. The specific valuation allowance component relates to loans that are determined to be impaired. A specific valuation allowance is established when the fair value of a collateral-dependent loan or the present value of the loan's expected future cash flows (discounted at the loan's effective interest rate) is lower than the carrying value of the impaired loan. The general valuation allowance component relates to probable credit losses inherent in the balance of the loan portfolio based on historical loss experience, adjusted for changes in trends and conditions of qualitative or environmental factors.

The Bank divisions' credit administration reviews their respective loan portfolios to determine which loans are impaired and estimates the specific valuation allowance. The impaired loans and related specific valuation allowance are then provided to the Company's credit administration for further review and approval. The Company's credit administration also determines the estimated general valuation allowance and reviews and approves the overall ALLL. The credit administration of the Company exercises significant judgment when evaluating the effect of applicable qualitative or environmental factors on the Company's historical loss experience for loans not identified as impaired. Quantification of the impact upon the Company's ALLL is inherently subjective as data for any factor may not be directly applicable, consistently relevant, or reasonably available for management to determine the precise impact of a factor on the collectability of the Company's loans collectively evaluated for impairment as of each evaluation date. The Company's credit administration documents its conclusions and rationale for changes that occur in each applicable factor's weight (i.e., measurement) and ensures that such changes are directionally consistent based on the underlying current trends and conditions for the factor. To have directional consistency, the provision for loan losses and credit quality should generally move in the same direction.

The Company's model includes thirteen Bank divisions with separate management teams providing substantial local oversight to the lending and credit management function. The Company's business model affords multiple reviews of larger loans before credit is extended, a significant benefit in mitigating and managing the Company's credit risk. The geographic dispersion of the market areas in which the Company operates further mitigates the risk of credit loss. While this process is intended to limit credit exposure, there can be no assurance that further problem credits will not arise and additional loan losses incurred, particularly in this slowly improving, but fragile economic recovery and in periods of rapid economic downturns.

The primary responsibility for credit risk assessment and identification of problem loans rests with the loan officer of the account. This continuous process of identifying impaired loans is necessary to support management's evaluation of the ALLL adequacy. An independent loan review function verifying credit risk ratings evaluates the loan officer and management's evaluation of the loan portfolio credit quality.

No assurance can be given that the Company will not, in any particular period, sustain losses that are significant relative to the ALLL amount, or that subsequent evaluations of the loan portfolio applying management's judgment about then current factors, including economic and regulatory developments, will not require significant changes in the ALLL. Under such circumstances, this could result in enhanced provisions for loan losses.

The following table summarizes the allocation of the ALLL as of the dates indicated:

(Dollars in thousands)	March 31, 2016				December 31, 2015				March 31, 2015			
	ALLL	Percent of ALLL in Category	Percent of Loans in Category	ALLL	Percent of ALLL in Category	Percent of Loans in Category	ALLL	Percent of ALLL in Category	Percent of Loans in Category			
Residential real estate	\$13,196	10 %	13 %	\$14,427	11 %	13 %	\$15,131	12 %	14 %			
Commercial real estate	67,046	52 %	52 %	67,877	52 %	52 %	67,327	52 %	52 %			
Other commercial	36,054	28 %	22 %	32,525	25 %	22 %	31,515	24 %	21 %			
Home equity	8,149	6 %	8 %	8,998	7 %	8 %	9,519	7 %	8 %			
Other consumer	5,626	4 %	5 %	5,870	5 %	5 %	6,364	5 %	5 %			
Total	\$130,071	100 %	100 %	\$129,697	100 %	100 %	\$129,856	100 %	100 %			

The following table summarizes the ALLL experience for the periods indicated:

	Three Months ended March 31, 2016	Year ended December 31, 2015	Three Months ended March 31, 2015
(Dollars in thousands)			
Balance at beginning of period	\$ 129,697	129,753	129,753
Provision for loan losses	568	2,284	765
Charge-offs			
Residential real estate	(100)	(985)	(14)
Commercial loans	(577)	(4,242)	(1,139)
Consumer and other loans	(486)	(1,775)	(144)
Total charge-offs	(1,163)	(7,002)	(1,297)
Recoveries			
Residential real estate	18	92	25
Commercial loans	428	3,620	465
Consumer and other loans	523	950	145
Total recoveries	969	4,662	635
Charge-offs, net of recoveries	(194)	(2,340)	(662)
Balance at end of period	\$ 130,071	129,697	129,856
ALLL as a percentage of total loans	2.50 %	2.55 %	2.77 %
Net charge-offs as a percentage of total loans	— %	0.05 %	0.01 %

The allowance was \$130 million at March 31, 2016, consistent with prior periods. The allowance as a percent of total loans outstanding at March 31, 2016 was 2.50 percent, a slight decrease from 2.55 percent at December 31, 2015. The allowance as a percent of total loans in the current quarter decreased 27 basis points from 2.77 percent at March 31, 2015 which was driven primarily by loan growth, stabilizing credit quality, and no allowance carried over from the Cañon acquisition as a result of the acquired loans recorded at fair value.

The Company's ALLL of \$130 million is considered adequate to absorb losses from any class of its loan portfolio. For the periods ended March 31, 2016 and 2015, the Company believes the ALLL is commensurate with the risk in the Company's loan portfolio and is directionally consistent with the change in the quality of the Company's loan portfolio.

When applied to the Company's historical loss experience, the qualitative or environmental factors result in the provision for loan losses being recorded in the period in which the loss has probably occurred. When the loss is confirmed at a later date, a charge-off is recorded. During 2016, the provision for loan losses exceeded loan charge-offs, net of recoveries, by \$374 thousand. During the same period in 2015, the provision for loan losses exceeded loan charge-offs, net of recoveries, by \$103 thousand.

The Company provides commercial services to individuals, small to medium-sized businesses, community organizations and public entities from 144 locations, including 135 branches, across Montana, Idaho, Wyoming, Colorado, Utah, and Washington. The Rocky Mountain states in which the Company operates have diverse economies and markets that are tied to commodities (crops, livestock, minerals, oil and natural gas), tourism, real estate and land development and an assortment of industries, both manufacturing and service-related. Thus, the changes in the global, national, and local economies are not uniform across the Company's geographic locations.

Overall, there continues to be slow improvements in the economic environment compared to the past several years and the housing market is slowly recovering. Home prices continue to increase within most of the Company's footprint. Colorado, Idaho, Washington and Utah all rank in the top 10 nationally for home price increases, while Montana and Wyoming continue to lag behind the national trend. The level of year-over-year home price appreciation has increased in all of the Company's states, except Montana, and home prices in Colorado, Montana, Wyoming, Washington and Utah are above their 2007 highs. Home ownership in the United States increased during the second half of 2015 for the first time since 2013 and the United States homeownership rate is at 64.3 percent. Personal income growth remains in positive territory for each of the Company's states; however, Idaho and Wyoming are lagging behind the national average. The Federal Reserve Bank of Philadelphia's composite state coincident indices projects steady growth during the next six months in most of the Company's footprint, except Wyoming and Washington. Wyoming has been adversely impacted by the reduced prices of oil and natural gas, while Washington has been disproportionately affected by a slump in the Chinese economy. Consumer sentiment ended 2015 with a positive trend; however, a decrease in consumer sentiment is anticipated due to rising gas prices and the uncertain global economy. The general unemployment rate trend across the Company's footprint is down; however, minor upticks have occurred recently in Washington and Wyoming. Year-over-year unemployment trends remain favorable in all of the Company's states, except Wyoming. Crude oil, natural gas and base metal prices continue to be stressed and agriculture commodities within the Company's footprint remain relatively consistent. The tourism industry and related lodging activity continues to be a source of strength for the locations where the Company's market areas have national parks and similar recreational areas in the market areas served. Overall, the Company sees positive signs in the various economic indices; however, given the significant recession experienced during 2008 and 2009, the Company is cautiously optimistic about the recovery of the housing industry. The Company will continue to actively monitor the economy's impact on its lending portfolio.

In evaluating the need for a specific or general valuation allowance for impaired and unimpaired loans, respectively, within the Company's construction loan portfolio (i.e., regulatory classification), including residential construction and land, lot and other construction loans, the credit risk related to such loans was considered in the ongoing monitoring of such loans, including assessments based on current information, including appraisals or evaluations (new or updated) of the underlying collateral, expected cash flows and the timing thereof, as well as the estimated cost to sell when such costs are expected to reduce the cash flows available to repay or otherwise satisfy the construction loan. Construction loans were 11 percent of the Company's total loan portfolio and accounted for 31 percent and 34 percent of the Company's non-accrual loans at March 31, 2016 and December 31, 2015, respectively. Collateral securing construction loans includes residential buildings (e.g., single/multi-family and condominiums), commercial buildings, and associated land (e.g., multi-acre parcels and individual lots, with and without shorelines).

The Company's ALLL consisted of the following components as of the dates indicated:

(Dollars in thousands)	March 31, 2016	December 31, 2015	March 31, 2015
Specific valuation allowance	\$8,440	8,124	10,324
General valuation allowance	121,631	121,573	119,532
Total ALLL	\$130,071	129,697	129,856

During 2016, the ALLL increased by \$374 thousand, the net result of a \$316 thousand increase in the specific valuation allowance and a \$58 thousand increase in the general valuation allowance. The specific valuation allowance remained stable compared to the prior year end due to the insignificant change in loans individually reviewed for impairment with a specific impairment. The increase in the general valuation allowance since the prior year end was a result of an increase of \$118 million in loans collectively evaluated for impairment which was partially offset by an improvement in credit quality metrics.

For additional information regarding the ALLL, its relation to the provision for loan losses and risk related to asset quality, see Note 3 to the Consolidated Financial Statements in “Part I. Item 1. Financial Statements.”

Loans by Regulatory Classification

Supplemental information regarding identification of the Company's loan portfolio and credit quality based on regulatory classification is provided in the following tables. The regulatory classification of loans is based primarily on the type of collateral for the loans. There may be differences when compared to loan tables and loan amounts appearing elsewhere which reflect the Company's internal loan segments and classes which are based on the purpose of the loan.

The following table summarizes the Company's loan portfolio by regulatory classification:

(Dollars in thousands)	Loans Receivable, by Loan Type			% Change from	
	Mar 31, 2016	Dec 31, 2015	Mar 31, 2015	Dec 31, 2015	Mar 31, 2015
Custom and owner occupied construction	\$68,893	\$75,094	\$51,693	(8)%	33 %

Sources of Funds

The Company's deposits have traditionally been the principal source of funds for use in lending and other business purposes. The Company also obtains funds from repayment of loans and investment securities, repurchase agreements, wholesale deposits, advances from FHLB and other borrowings. Loan repayments are a relatively stable source of funds, while interest bearing deposit inflows and outflows are significantly influenced by general interest rate levels and market conditions. Borrowings and advances may be used on a short-term basis to compensate for reductions in normal sources of funds such as deposit inflows at less than projected levels. Borrowings also may be used on a long-term basis to support expanded activities, match maturities of longer-term assets or manage interest rate risk.

Deposits

The Company has several deposit programs designed to attract both short-term and long-term deposits from the general public by providing a wide selection of accounts and rates. These programs include non-interest bearing demand accounts, interest bearing checking, savings, money market deposit accounts, fixed rate certificates of deposit with maturities ranging from three months to five years, negotiated-rate jumbo certificates, and individual retirement accounts. These deposits are obtained primarily from individual and business residents in the Bank's geographic market areas. In addition, wholesale deposits are obtained through various programs and include brokered deposits classified as NOW, DDA, money market deposit and certificate accounts. The Company's deposits are summarized below:

(Dollars in thousands)	March 31, 2016		December 31, 2015		March 31, 2015	
	Amount	Percent	Amount	Percent	Amount	Percent
Non-interest bearing deposits	\$1,887,004	27 %	\$1,918,310	28 %	\$1,675,451	26 %
NOW and DDA accounts	1,448,454	21 %	1,516,026	22 %	1,313,036	20 %
Savings accounts	879,541	12 %	838,274	12 %	748,590	12 %

Certificate accounts	1,063,735	15 %	1,060,650	15 %	1,164,909	18 %
Wholesale deposits	325,490	5 %	229,720	3 %	211,384	3 %
Total interest bearing deposits	5,129,190	73 %	5,026,698	72 %	4,783,341	74 %
Total deposits	\$7,016,194	100 %	\$6,945,008	100 %	\$6,458,792	100 %

Securities Sold Under Agreements to Repurchase, Federal Home Loan Bank Advances and Other Borrowings

The Company borrows money through repurchase agreements. This process involves the selling of one or more of the securities in the Company's investment portfolio and simultaneously entering into an agreement to repurchase that same securities at an agreed upon later date, typically overnight. A rate of interest is paid for the agreed period of time. Through a policy adopted by the Bank's Board of Directors, the Bank enters into repurchase agreements with local municipalities, and certain customers, and has adopted procedures designed to ensure proper transfer of title and safekeeping of the underlying securities. In addition to retail repurchase agreements, the Company enters into wholesale repurchase agreements as additional funding sources. The Company has not entered into reverse repurchase agreements.

The Bank is a member of the FHLB of Des Moines, which is one of eleven banks that comprise the FHLB system. The Bank is required to maintain a certain level of activity-based stock in order to borrow or to engage in other transactions with the FHLB of Des Moines. Additionally, the Bank is subject to a membership capital stock requirement that is based upon an annual calibration tied to the total assets of the Bank. The borrowings are collateralized by eligible categories of loans and investment securities (principally, securities which are obligations of, or guaranteed by, the U.S. government and its agencies), provided certain standards related to credit-worthiness have been met. Advances are made pursuant to several different credit programs, each of which has its own interest rates

and range of maturities. The Bank's maximum amount of FHLB advances is limited to the lesser of a fixed percentage of the Bank's total assets or the discounted value of eligible collateral. FHLB advances fluctuate to meet seasonal and other withdrawals of deposits and to expand lending or investment opportunities of the Company.

Additionally, the Company has other sources of secured and unsecured borrowing lines from various sources that may be used from time to time.

Short-term borrowings

A critical component of the Company's liquidity and capital resources is access to short-term borrowings to fund its operations. Short-term borrowings are accompanied by increased risks managed by the Bank's Asset Liability Committee ("ALCO") such as rate increases or unfavorable change in terms which would make it more costly to obtain future short-term borrowings. The Company's short-term borrowing sources include FHLB advances, federal funds purchased and retail and wholesale repurchase agreements. The Company also has access to the short-term discount window borrowing programs (i.e., primary credit) of the Federal Reserve Bank ("FRB"). FHLB advances and certain other short-term borrowings may be renewed as long-term borrowings to decrease certain risks such as liquidity or interest rate risk; however, the reduction in risks are weighed against the increased cost of funds and other risks.

The following table provides information relating to short-term borrowings which consists of borrowings that mature within one year of period end:

(Dollars in thousands)	At or for the Three Months ended March 31, 2016	At or for the Year ended December 31, 2015		
Repurchase agreements				
Amount outstanding at end of period	\$445,960	423,414		
Weighted interest rate on outstanding amount	0.32	%	0.31	%
Maximum outstanding at any month-end	\$445,960	441,041		
Average balance	\$389,104	376,983		
Weighted-average interest rate	0.33	%	0.27	%
FHLB advances				
Amount outstanding at end of period	\$105,059	185,091		
Weighted interest rate on outstanding amount	1.51	%	1.02	%
Maximum outstanding at any month-end	\$105,059	185,091		
Average balance	\$92,810	107,341		
Weighted-average interest rate	1.48	%	3.06	%

Subordinated Debentures

In addition to funds obtained in the ordinary course of business, the Company formed or acquired financing subsidiaries for the purpose of issuing trust preferred securities that entitle the investor to receive cumulative cash distributions thereon. The subordinated debentures outstanding as of March 31, 2016 were \$126 million, including fair value adjustments from prior acquisitions.

Contractual Obligations and Off-Balance Sheet Arrangements

In the normal course of business, there may be various outstanding commitments to obtain funding and to extend credit, such as letters of credit and un-advanced loan commitments, which are not reflected in the accompanying condensed consolidated financial statements. The Company does not anticipate any material losses as a result of these transactions.

Off-balance sheet arrangements also include any obligation related to a variable interest held in an unconsolidated entity. The Company does not anticipate any material losses as a result of these transactions. For additional information regarding the Company's interests in unconsolidated variable interest entities ("VIE"), see Note 5 to the Consolidated Financial Statements in "Part I. Item 1. Financial Statements."

Liquidity Risk

Liquidity risk is the possibility that the Company will not be able to fund present and future obligations as they come due because of an inability to liquidate assets or obtain adequate funding at a reasonable cost. The objective of liquidity management is to maintain cash flows adequate to meet current and future needs for credit demand, deposit withdrawals, maturing liabilities and corporate operating expenses. Effective liquidity management entails three elements:

1. Assessing on an ongoing basis, the current and expected future needs for funds, and ensuring that sufficient funds or access to funds exist to meet those needs at the appropriate time;
2. Providing for an adequate cushion of liquidity to meet unanticipated cash flow needs that may arise from potential adverse circumstances ranging from high probability/low severity events to low probability/high severity; and
3. Balancing the benefits between providing for adequate liquidity to mitigate potential adverse events and the cost of that liquidity.

The Company has a wide range of versatility in managing the liquidity and asset/liability mix. The Bank's ALCO meets regularly to assess liquidity risk, among other matters. The Company monitors liquidity and contingency funding alternatives through management reports of liquid assets (e.g., investment securities), both unencumbered and pledged, as well as borrowing capacity, both secured and unsecured, including off-balance sheet funding sources. The Company evaluates its potential funding needs across alternative scenarios and maintains contingency funding plans consistent with the Company's access to diversified sources of contingent funding.

The following table identifies certain liquidity sources and capacity available to the Company as of the dates indicated:

(Dollars in thousands)	March 31, 2016	December 31, 2015
FHLB advances		
Borrowing capacity	\$1,510,439	1,494,288
Amount utilized	(313,969)	(394,131)
Amount available	\$1,196,470	1,100,157
FRB discount window		
Borrowing capacity	\$942,670	945,948
Amount utilized	—	—
Amount available	\$942,670	945,948
Unsecured lines of credit available	\$255,000	255,000
Unencumbered investment securities		
U.S. government and federal agency	\$45,687	47,451
U.S. government sponsored enterprises	59,645	75,419
State and local governments	891,942	880,866
Corporate bonds	135,402	48,528
Residential mortgage-backed securities	423,613	435,749
Total unencumbered securities	\$1,556,289	1,488,013

Capital Resources

Maintaining capital strength continues to be a long-term objective of the Company. Abundant capital is necessary to sustain growth, provide protection against unanticipated declines in asset values, and to safeguard the funds of depositors. Capital is also a source of funds for loan demand and enables the Company to effectively manage its assets and liabilities. The Company has the capacity to issue 117,187,500 shares of common stock of which 76,168,388 have been issued as of March 31, 2016. The Company also has the capacity to issue 1,000,000 shares of preferred stock of which none have been issued as of March 31, 2016. Conversely, the Company may decide to utilize a portion of its strong capital position, as it has done in the past, to repurchase shares of its outstanding common stock, depending on market price and other relevant considerations.

The Federal Reserve has adopted capital adequacy guidelines that are used to assess the adequacy of capital in supervising a bank holding company. In July 2013, the federal banking agencies approved the final rules (“Final Rules”) to establish a new comprehensive regulatory capital framework with a phase-in period beginning on January 1, 2015 and ending on January 1, 2019. The Final Rules implement the third installment of the Basel Accords (“Basel III”) regulatory capital reforms and changes required by the Dodd-Frank Wall Street Reform and Consumer Protection Act (“Dodd-Frank Act”) and substantially amend the regulatory risk-based capital rules applicable to the Company. Basel III redefines the regulatory capital elements and minimum capital ratios, introduces regulatory capital buffers above those minimums, revises rules for calculating risk-weighted assets and adds a new component of Tier 1 capital called Common Equity Tier 1, which includes common equity and retained earnings and excludes preferred equity.

The following table illustrates the Bank’s regulatory ratios and the Federal Reserve’s current capital adequacy guidelines as of March 31, 2016. The Federal Reserve’s fully phased-in guidelines applicable in 2019 are also summarized.

	Total Capital (To Risk-Weighted Assets)	Tier 1 Capital (To Risk-Weighted Assets)	Common Equity Tier 1 (To Risk-Weighted Assets)	Leverage Ratio/ Tier 1 Capital (To Average Assets)
Glacier Bank’s actual regulatory ratios	16.50	% 15.25	% 15.25	% 11.56
Minimum capital requirements	8.00	% 6.00	% 4.50	% 4.00
Well capitalized requirements	10.00	% 8.00	% 6.50	% 5.00
Minimum capital requirements, including fully-phased in capital conservation buffer (2019)	10.50	% 8.50	% 7.00	% N/A

The Company has evaluated the impact of the Final Rules and believes that, as of March 31, 2016, the Company would meet all capital adequacy requirements under the Basel III capital rules on a fully phased-in basis as if all such requirements were currently in effect. There are no conditions or events since March 31, 2016 that management believes have changed the Company’s or the Bank’s risk-based capital category.

Federal and State Income Taxes

The Company files a consolidated federal income tax return using the accrual method of accounting. All required tax returns have been timely filed. Financial institutions are subject to the provisions of the Internal Revenue Code of 1986, as amended, in the same general manner as other corporations.

Under Montana, Idaho, Colorado and Utah law, financial institutions are subject to a corporation income tax, which incorporates or is substantially similar to applicable provisions of the Internal Revenue Code. The corporation income tax is imposed on federal taxable income, subject to certain adjustments. State taxes are incurred at the rate of 6.75 percent in Montana, 7.4 percent in Idaho, 5 percent in Utah and 4.63 percent in Colorado. Wyoming and Washington do not impose a corporate income tax.

Income tax expense for the three months ended March 31, 2016 and 2015 was \$9.4 million and \$8.9 million, respectively. The Company's effective tax rate for the three months ended March 31, 2016 and 2015 was 24.6 percent and 24.3 percent, respectively. The primary reason for the current and prior year's low effective tax rate is the amount of tax-exempt investment income and federal income tax credits. Tax-exempt investment income was \$12.8 million and \$12.6 million for the three months ended March 31, 2016 and 2015, respectively. The benefits from federal income tax credits were \$509 thousand and \$515 thousand for the three months ended March 31, 2016 and 2015, respectively.

The Company has equity investments in Certified Development Entities ("CDE") which have received allocations of NMTCs. Administered by the Community Development Financial Institutions Fund ("CDFI Fund") of the U.S. Department of the Treasury, the NMTC program is aimed at stimulating economic and community development and job creation in low-income communities. The federal income tax credits received are claimed over a seven-year credit allowance period. The Company also has equity investments in Low Income Housing Tax Credits ("LIHTC") which are indirect federal subsidies used to finance the development of affordable rental housing for low-income households. The federal income tax credits are claimed over a ten-year credit allowance period. The Company has investments of \$22.8 million in Qualified Zone Academy and Qualified School Construction bonds whereby the Company receives quarterly federal income tax credits in lieu of taxable interest income. The federal income tax credits on these investment securities are subject to federal and state income tax.

Following is a list of expected federal income tax credits to be received in the years indicated.

(Dollars in thousands)	New Markets Tax Credits	Low-Income Housing Tax Credits	Investment Securities Tax Credits	Total
2016	\$ 1,654	1,175	863	3,692
2017	1,090	1,507	786	3,383
2018	768	1,629	709	3,106
2019	768	1,629	660	3,057
2020	768	1,502	611	2,881
Thereafter	768	3,561	2,494	6,823
	\$ 5,816	11,003	6,123	22,942

Average Balance Sheet

The following schedule provides 1) the total dollar amount of interest and dividend income of the Company for earning assets and the average yields; 2) the total dollar amount of interest expense on interest bearing liabilities and the average rates; 3) net interest and dividend income and interest rate spread; and 4) net interest margin (tax-equivalent).

(Dollars in thousands)	Three Months ended March 31, 2016			Three Months ended March 31, 2015

¹ Includes tax effect of \$832 thousand and \$583 thousand on tax-exempt municipal loan and lease income for the three months ended March 31, 2016 and 2015, respectively.

Total loans are gross of the allowance for loan and lease losses, net of unearned income and include loans held for sale. Non-accrual loans were included in the average volume for the entire period.

- ³ Includes tax effect of \$6.6 million and \$5.9 million on tax-exempt investment securities income for the three months ended March 31, 2016 and 2015, respectively.
- ⁴ Includes tax effect of \$352 thousand and \$362 thousand on federal income tax credits for the three months ended March 31, 2016 and 2015, respectively.
- ⁵ Wholesale deposits include brokered deposits classified as NOW, DDA, money market deposit and certificate accounts.

Rate/Volume Analysis

Net interest income can be evaluated from the perspective of relative dollars of change in each period. Interest income and interest expense, which are the components of net interest income, are shown in the following table on the basis of the amount of any increases (or decreases) attributable to changes in the dollar levels of the Company's interest earning assets and interest bearing liabilities ("volume") and the yields earned and rates paid on such assets and liabilities ("rate"). The change in interest income and interest expense attributable to changes in both volume and rates has been allocated proportionately to the change due to volume and the change due to rate.

(Dollars in thousands)	Three Months ended March 31, 2016 vs. 2015		
	Increase (Decrease) Due to:		
	Volume	Rate	Net
Interest income			
Residential real estate loans	\$888	(364)	524
Commercial loans (tax-equivalent)	6,137	(407)	5,730
Consumer and other loans	651	(685)	(34)
Investment securities (tax-equivalent)	1,319	278	1,597
Total interest income	8,995	(1,178)	7,817
Interest expense			
NOW and DDA accounts	35	(10)	25
Savings accounts	20	(5)	15
Money market deposit accounts	47	(11)	36
Certificate accounts	(131)	(148)	(279)
Wholesale deposits	768	83	851
FHLB advances	84	(627)	(543)
Repurchase agreements and other borrowed funds	49	139	188
Total interest expense	872	(579)	293
Net interest income (tax-equivalent)	\$8,123	(599)	7,524

Net interest income (tax-equivalent) increased \$7.5 million for the three months ended March 31, 2016 compared to the same period in 2015. The increase in current quarter net interest income compared to the prior year first quarter primarily resulted from increased growth of the Company's commercial loan portfolio along with an increased growth and yield on the investment portfolio. The increase in interest expense was driven by an increased amount of wholesale deposits and increased interest expense associated with an interest rate swap which started interest expense accruals in the fourth quarter of 2015.

Effect of inflation and changing prices

GAAP often requires the measurement of financial position and operating results in terms of historical dollars, without consideration for change in relative purchasing power over time due to inflation. Virtually all assets of the Company are monetary in nature; therefore, interest rates generally have a more significant impact on a company's performance than does the effect of inflation.

Item 3. Quantitative and Qualitative Disclosure about Market Risk

The Company's assessment of market risk as of March 31, 2016 indicates there are no material changes in the quantitative and qualitative disclosures from those in the 2015 Annual Report.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

The Company's Chief Executive Officer and Chief Financial Officer have reviewed and evaluated the effectiveness of the Company's disclosure controls and procedures (as required by Exchange Act Rules 240.13a-15(b) and 15d-14(c)) as of March 31, 2016. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that the Company's current disclosure controls and procedures are effective and timely, providing them with material information relating to the Company required to be disclosed in the reports the Company files or submits under the Exchange Act.

Changes in Internal Controls

There have not been any changes in the Company's internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the first quarter of 2016, to which this report relates that have materially affected, or are reasonably likely to materially affect the Company's internal control over financial reporting.

PART II – OTHER INFORMATION

Item 1. Legal Proceedings

The Company is involved in various claims, legal actions and complaints which arise in the ordinary course of business. In the Company's opinion, all such matters are adequately covered by insurance, are without merit or are of such kind, or involve such amounts, that unfavorable disposition would not have a material adverse effect on the financial condition or results of operations of the Company.

Item 1A. Risk Factors

The Company believes there have been no material changes from risk factors previously disclosed in the 2015 Annual Report. The risks and uncertainties described in the 2015 Annual Report should be carefully reviewed. These are not the only risks and uncertainties that the Company faces. Additional risks and uncertainties that the Company does not currently know about or that the Company currently believes are immaterial, or that the Company has not predicted, may also harm its business operations or adversely affect the Company. If any of these risks or uncertainties actually occurs, the Company's business, financial condition, operating results or liquidity could be adversely affected.
