Ratification of Stock Option Grants (Proposal 2)

On October 13, 2009, the Board submitted to and recommended that the Company's stockholders ratify the Past Option Grants that were granted since April 30, 2007 as set forth on Appendix B hereto. Such Past Option Grants served as an incentive for attracting and retaining qualified and competent employees, officers and directors of the Company. The Board believes the ratification of the Past Option Grants would be in the best interest of the Company in order to continue to administer previously-granted stock options and smoothly transition to the Incentive Plan.

Tax Consequences for Optionees and the Company

The Past Option Grants are all nonqualified stock options. Accordingly, each optionee who was granted one of the Past Option Grants did not recognize any income for federal income tax purposes on the grant of the option. Generally, on the exercise of the option, the optionee recognizes taxable ordinary income equal to the excess of the fair market value of the shares on the exercise date over the option price for the shares. The Company generally is entitled to a deduction on the date of exercise in an amount equal to the ordinary income recognized by the optionee. Upon disposition of the shares purchased pursuant to the stock option, the optionee recognizes long-term or short-term capital gain or loss, as the case may be, equal to the difference between the amount realized on such disposition and the basis for such shares, which basis includes the amount previously recognized by the optionee as ordinary income.
