Semi-Annual Report
April 30, 2003

Edgar Filing: ABERDEEN ASIA PACIFIC INCOME FUND INC - Form N-CSR

Letter to Shareholders

June 13, 2003

Dear Shareholder,

We present this Semi-Annual Report which covers the activities of Aberdeen Asia-Pacific Income Fund, Inc. (the "Fund") for the six months ended April 30, 2003. The Fund's investment objective is to seek current income. The Fund may also achieve incidental capital appreciation.

Net Asset Value Performance: 8.9% Per Annum Return Since Inception
The Fund's net asset value ("NAV") return was 16.3% for the six months ended April 30, 2003 and 8.9% per annum since inception, assuming reinvestment of distributions.

Share Price Performance

The Fund's share price rose 20.9% over the six months, from \$4.25 on October 31, 2002 to \$5.14 on April 30, 2003. The Fund's share price on April 30, 2003 represented a discount of 8.9% to the NAV per share of \$5.64. This represents a narrowing of the discount to NAV of 16.0% on October 31, 2002.

Asia: 38.2% of Total Investments invested in Asian Debt Securities
As of April 30, 2003, the Fund held 38.2% of its total investments in Asian debt securities (excluding New Zealand). Of the Fund's total investments, 26.9% were held in Asian Yankee bonds, bringing the Fund's total U.S. dollar exposure to 31.1%.

Credit Quality: 76.1% of Total Investments Rated or Deemed Equivalent to A or Better
The Fund's total investments have maintained a high credit quality. As of April 30, 2003, 76.1% of the portfolio was invested in securities where either the issue or the issuer was rated A or better, or judged by the Investment Manager to be of equivalent quality.

Distributions

Distributions to common shareholders for the 12 months ended April 30, 2003 totaled 42 cents per share. Based on the share price of \$5.14 on April 30, 2003, the cash distribution rate over the 12 months then ended was 8.2%. Since all distributions are paid after deducting applicable withholding taxes, the effective distribution rate may be higher for those U.S. investors who are able to claim a tax credit. On June 16, 2003 the Board of Directors declared a monthly distribution of 3.5 cents per share payable on July 11, 2003 to all shareholders of record as of June 30, 2003.

The Board's policy is to provide investors with a stable monthly distribution out of current

Edgar Filing: ABERDEEN ASIA PACIFIC INCOME FUND INC - Form N-CSR

income, supplemented by realized capital gains and, to the extent necessary, paid-in capital. It is the Board's intention that the monthly distribution of 3.5 cents per share be maintained for 12 months, beginning with the July 2003 distribution payment. This policy is subject to regular review at the Board's quarterly meetings, unless market conditions require an earlier evaluation. The next review is scheduled to take place in September 2003.

Letter to Shareholders (continued)

Buy-Back Program

On March 19, 2001 the Fund announced the approval of a share buy-back program. Purchases of shares under this program commenced on June 6, 2001 and, as of the date of this report, 2,723,300 shares have been repurchased.

Results of Annual Meeting of Shareholders
At the Annual Meeting of Shareholders held on Tuesday, April 15, 2003, as adjourned and reconvened on May 6, 2003 (the "Annual Meeting"), Messrs. David L. Elsum, Peter J. O'Connell, William J. Potter and Martin J. Gilbert were elected by the holders of the Fund's common stock as Class III Directors to serve for a three-year term expiring at the 2006 Annual Meeting of Shareholders. Mr. John T. Sheehy and Dr. Anton E. Schrafl were elected by the holders of the Fund's preferred stock for a one-year term expiring at the 2004 Annual Meeting of Shareholders. Shareholders also approved the amendment and restatement of the Fund's charter. The amendments have the effect of changing the terms of the Fund's nine series of Auction Market Preferred Stock.

In an effort to provide more timely information to shareholders, the market review and outlook will now be published separately.

2 Aberdeen Asia-Pacific Income Fund, Inc.

Your Board's policy is to provide investors with a stable monthly distribution out of current income, supplemented by realized capital gains and, to the extent necessary, paid-in capital.

The Fund is subject to U.S. corporate, tax and securities laws. Under U.S. tax accounting rules, the amount of distributable income for each fiscal period depends on the actual exchange rates during the entire year between the U.S. dollar and the currencies in which Fund assets are denominated and on the aggregate gains and losses realized by the Fund during the entire year.

Therefore, the exact amount of distributable income for each fiscal year can only be determined as of the end of the Fund's fiscal year, October 31. However, under the U.S. Investment Company Act of 1940, the Fund is required to indicate the source of each distribution to shareholders.

The Fund estimates that distributions for the fiscal year commencing November 1, 2002, including the distribution paid on June 13, 2003, are comprised of 70% net investment income and 30% return of paid-in capital.

This estimated distribution composition may vary from month to month because it may be materially impacted by future realized gains and losses on securities and fluctuations in the value of the currencies in which Fund assets are denominated.

The amount attributed as a return of capital reflects, in part, the realization of currency losses in the Fund's Australian bond portfolio as a result of positioning the Fund's investments more toward Asia. Fund assets are marked to market, therefore the realization of such currency losses does not impact the Fund's net asset value. However these losses do offset distributable income, therefore increasing the return of capital component of the distribution.

In January 2004, a Form 1099 DIV will be sent to shareholders, which will state the amount

Edgar Filing: ABERDEEN ASIA PACIFIC INCOME FUND INC - Form N-CSR

and composition of distributions and provide information with respect to their appropriate tax treatment.

Aberdeen Asia-Pacific Income Fund, Inc. 3

Dividend Reinvestment and Cash Purchase Plan

We invite you to participate in the Fund's Dividend Reinvestment and Cash Purchase Plan ("the Plan") which allows you to automatically re-invest your distributions in shares of the Fund's common stock at favorable commission rates. Distributions made under the Plan are taxed to the same extent as are cash distributions. The Plan also enables you to make additional cash investments in shares of at least \$100 per month. Under this arrangement, EquiServe Trust Company N.A. (the "Plan Agent") will purchase shares for you on the stock exchange or otherwise on the open market on or about the 15th of each month, unless shares of the Fund are trading at a premium, in which case the Fund will issue additional shares.

As a Participant in the Plan, you will have the convenience of:
Automatic reinvestment - the Plan Agent will automatically reinvest your distributions, allowing you to gradually grow your holdings in the Fund;

Lower costs - shares purchased on your behalf under the Plan will be at reduced brokerage rates. Brokerage on share purchases is currently 2 cents per share;

Convenience - the Plan Agent will hold your shares in non-certificated form and will provide a detailed record of your holdings at the end of each distribution period.

To request a brochure containing information on the Plan, together with an authorization form, please contact the Plan Agent, EquiServe Trust Company N.A., P.O. Box 43011, Providence, RI 02940-3011 or toll free on 1-800-451-6788.

Report of the Investment Manager

Share Price Performance

On April 30, 2003 the Fund's share price was \$5.14, which represented a discount of 8.9% to the NAV of \$5.64. At the date of this report, the share price was \$5.69 representing a

Edgar Filing: ABERDEEN ASIA PACIFIC INCOME FUND INC - Form N-CSR

discount of 8.4% to the NAV of \$6.21.

(GRAPH)

Auction Market Preferred Stock (AMPS)

The Fund's \$600 million of AMPS continued to be well bid at the weekly auctions. The average interest rate paid was 1.51% over the six months ended April 30, 2003, compared with an interest rate of 1.27% for 30-day U.S. commercial paper over the same period. These rates declined over the period as U.S. yields, particularly at the short end of the curve, continued to rally. The rates paid to preferred shareholders have decreased further since April 30, 2003 to a level of 1.24% as of the date of this report.

Aberdeen Asia-Pacific Income Fund, Inc. 5

Report of the Investment Manager (continued)

Over the past year, the impact of AMPS on the Fund has been positive, as the Australian dollar strengthened against the U.S. dollar and key Asian currencies followed a similar trend. The differential between AMPS funding rates and the yields at which the Fund invests has remained positive as U.S. interest rates have remained at historic lows, while bond movements detracted slightly as ongoing geopolitical risks provided a volatile environment for global bond yields.

On September 16, 2002 the Fund entered into a two-year interest rate swap agreement in order to hedge one-third of the Fund's outstanding issues of AMPS. Under the original terms of the agreement the Fund received a floating rate of interest (one month USD-LIBOR BBA rate) based on a notional amount of US\$200,000,000 and paid interest at a fixed rate of 2.46%. The fixed rate was re-priced to 2.10% on October 1, 2002, to 1.7175% on December 24, 2002 and then to 1.37% on February 18, 2003.

The Board of Directors has resolved to amend the Fund's policies with respect to derivatives to increase the percentage of the Fund's AMPS liabilities which may be hedged pursuant to interest rate swaps from one-third to up to 100% of the AMPS liabilities. A significant type of risk associated with interest rate swaps is the risk that the counterparty may default or file for bankruptcy, in which case the Fund would bear the risk of loss of the amount expected to be received under the swap agreement. There can be no assurance that the Fund will have an interest rate swap in place at any given time nor can there be any assurance that, if an interest rate swap is in

Edgar Filing: ABERDEEN ASIA PACIFIC INCOME FUND INC - Form N-CSR

place, it will be successful in hedging the Fund's interest rate risk with respect to the AMPS. The implementation of this strategy is at the discretion of the AMPS Pricing Committee of the Board of Directors.

Notes to Financial Statements (unaudited)

Aberdeen Asia-Pacific Income Fund, Inc. (the 'Fund') was incorporated in Maryland on March 14, 1986 as a closed-end, non-diversified management investment company. The Fund's investment objective is to seek current income. The Fund may also achieve incidental capital appreciation. The Fund will seek to achieve its investment objective through investment in Australian and Asian debt securities. In order to comply with a rule adopted by the Securities and Exchange Commission under the Investment Company Act of 1940 regarding fund names, the Board of Directors has adopted an investment policy that, for as long as the name of the Fund remains Aberdeen Asia-Pacific Income Fund, Inc., it shall be the policy of the Fund normally to invest at least 80% of its net assets plus the amount of any borrowings for investment purposes, in Asian debt securities, Australian debt securities and New Zealand debt securities. This 80% investment policy is a non-fundamental policy of the Fund and may be changed by the Board of Directors upon 60 days prior written notice to shareholders. There can be no assurance that the Fund will achieve its objectives. The ability of issuers of debt securities held by the Fund to meet their obligations may be affected by economic developments in a specific industry, country or region.

Note 1. Accounting Policies

The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements.

Basis of Presentation:

The financial statements of the Fund are prepared in accordance with accounting principles generally accepted in the United States of America, using the United States dollar as both the functional and reporting currency.

Security Valuation:

The Fund's Board of Directors has adopted Pricing and Valuation Procedures (the 'Procedures') to be used in determining the value of the assets held by the Fund. In accordance with the Procedures, investments are stated at value. Investments for which market quotations are readily available are valued at the last trade price on the date of determination as obtained from a pricing source. If no such trade price is available, such investments are valued at the quoted bid price or the mean between the quoted bid and asked price on the date of determination as obtained from a pricing source. Short-term securities which mature in more than 60 days are valued at current market quotations. Short-term securities which mature in 60 days or less are valued at amortized cost.

Aberdeen Asia-Pacific Income Fund, Inc. 27

Notes to Financial Statements (unaudited) (continued)

Securities for which market quotations are not readily available are valued at fair value in good faith using methods set forth in the Procedures.

Edgar Filing: ABERDEEN ASIA PACIFIC INCOME FUND INC - Form N-CSR

Repurchase Agreements:

In connection with transactions in repurchase agreements with U.S. financial institutions, it is the Fund's policy that its custodian takes possession of the underlying collateral securities, the value of which exceeds the principal amount of the repurchase transaction, including accrued interest. To the extent that any repurchase transaction exceeds one business day, the collateral is valued on a daily basis to determine its adequacy. If the seller defaults and the value of the collateral declines or if bankruptcy proceedings are commenced with respect to the seller of the security, realization of the collateral by the Fund may be delayed or limited.

Foreign Currency Translation:

Australian dollar ('A\$'), New Zealand dollar ('NZD') and Asian currency amounts are translated into United States dollars on the following basis:

(i) market value of investment securities, other assets and liabilities--at the exchange rates at the end of the reporting periods;

(ii) purchases and sales of investment securities, income and expenses--at the rates of exchange prevailing on the respective dates of such transactions. The Fund isolates that portion of the results of operations arising as a result of changes in the foreign exchange rates from the fluctuations arising from changes in the market prices of the securities held at April 30, 2003. Similarly, the Fund isolates the effect of changes in foreign exchange rates from the fluctuations arising from changes in the market prices of portfolio securities sold during the reporting periods.

Net realized and unrealized foreign exchange gains include realized foreign exchange gains and losses from sales and maturities of portfolio securities, sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions, the difference between the amounts of interest, discount and foreign withholding taxes recorded on the Fund's books and the U.S. dollar equivalent amounts actually received or paid and changes in unrealized foreign exchange gains and losses in the value of portfolio securities and other assets and liabilities arising as a result of changes in the exchange rate. Accumulated net realized and unrealized foreign exchange gains shown in the composition of net assets at April 30, 2003 represent foreign exchange gains for book purposes that have not yet been recognized for tax purposes.

28 Aberdeen Asia-Pacific Income Fund, Inc.

Notes to Financial Statements (unaudited) (continued)

Foreign security and currency transactions may involve certain considerations and risks not typically associated with those of domestic origin, including unanticipated movements in the value of the foreign currency relative to the U.S. dollar.

The exchange rate at April 30, 2003 was US\$0.63 to A\$1.00 for the Australian dollar.

Securities Transactions and Investment Income:

Securities transactions are recorded on the trade date. Realized and unrealized gains and losses from security and currency transactions are calculated on the identified cost basis. Interest income is recorded on an accrual basis. Discounts and premiums on securities purchased are accreted or amortized on an effective yield basis over the estimated lives of the respective securities. Expenses are recorded on the accrual basis. The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts and disclosures. Actual results could differ from those

Edgar Filing: ABERDEEN ASIA PACIFIC INCOME FUND INC - Form N-CSR

estimates.

Forward Currency Contracts:

A forward currency contract is a commitment to purchase or sell a foreign currency at a future date at a negotiated forward rate. The Fund enters into forward currency contracts in order to hedge its exposure to changes in foreign currency exchange rates on its foreign portfolio holdings or on specific receivables and payables denominated in a foreign currency. The contracts are valued daily at current forward exchange rates and any unrealized gain or loss is included in net unrealized appreciation or depreciation on investments. Gain or loss is realized on the settlement date of the contract equal to the difference between the settlement value of the original and renegotiated forward contracts. This gain or loss, if any, is included in net realized gain (loss) on foreign currency transactions. Risks may arise upon entering into these contracts from the potential inability of the counterparties to meet the terms of their contracts.

Financial Futures Contracts:

A financial futures contract is an agreement to purchase (long) or sell (short) an agreed amount of securities or commodities at a set price for delivery on a future date. Upon entering into a financial futures contract, the Fund is required to pledge to the broker an amount of cash and/or other assets equal to a certain percentage of the contract amount. This amount is known as the 'initial margin.' Subsequent payments, known as 'variation margin,' are made or received by the Fund periodically, depending on the periodic fluctuations in the value of the underlying security or commodity. Such variation margin is recorded for financial statement purposes on a daily basis as unrealized gain or loss.

When

Aberdeen Asia-Pacific Income Fund, Inc. 29

Notes to Financial Statements (unaudited) (continued)

the contract expires or is closed, the gain or loss is realized and is presented in the statement of operations as net realized gain (loss) on financial futures contracts.

The Fund invests in financial futures contracts in order to hedge existing portfolio securities, or securities the Fund intends to purchase, against fluctuations in value. Under a variety of circumstances, the Fund may not achieve the anticipated benefits of the financial futures contracts and may realize a loss. The use of futures transactions involves the risk of imperfect correlation in movements in the price of futures contracts and the underlying assets.

Securities Lending:

The Fund's investment policies permit the Fund to lend to banks and broker-dealers, portfolio securities with an aggregate market value of up to 15% of the Fund's total assets when it deems advisable. Pursuant to a securities lending agreement ('Agreement') between the Fund and State Street Bank and Trust Company ('State Street'), any loans made under the Agreement must be secured by collateral (consisting of any combination of cash, U.S. Government securities, irrevocable letters of credit or other high-quality debt securities) in an amount at least equal (on a daily marked-to-market basis) to the current market value of the securities loaned. An amendment to the Agreement provides that the cash collateral may be invested in State Street Navigator Securities Lending Trust, an affiliate of State Street, and proceeds from this investment are divided 70% as to the Fund and 30% as to State Street.

The Agreement also provides that the Fund may terminate the loans at any time and obtain the return of the securities, and that the Fund will continue to

Edgar Filing: ABERDEEN ASIA PACIFIC INCOME FUND INC - Form N-CSR

receive any interest or dividends obtained on any of the loaned securities and will continue to have voting rights with respect to the securities.

In the event the Fund lends its portfolio securities, the Fund may be exposed to counterparty risk, which may result in the delay in recovery of the loaned securities or possible loss of right in the collateral should the borrower become insolvent. However, under the amendment to the Agreement, State Street will indemnify the Fund in the case of borrower default. No securities were out on loan at April 30, 2003.

Interest Rate and Currency Swaps:

The Fund may engage in certain swap transactions in order to obtain a desired return at a lower cost than if the Fund had invested directly in the asset that yielded the desired return.

30 Aberdeen Asia-Pacific Income Fund, Inc.

Notes to Financial Statements (unaudited) (continued)

An interest rate and currency swap is an agreement between two parties which involves exchanging principal and fixed rate interest payments (one currency for principal and fixed rate interest payments in another currency in the case of interest rate and currency swap) for a specified period of time. Interest rate and currency swaps involve the accrual and exchange of interest payments between the parties.

During the term of the swap, changes in the value of the swap are recognized as unrealized gains or losses by 'marking-to-market' to reflect the market value of the swap. When the swap is terminated, the Fund will record a realized gain or loss equal to the difference, if any, between the proceeds from (or cost of) the closing transaction and the Fund's basis in the contract.

The Fund is exposed to credit loss in the event of non-performance by the other party to the interest rate and currency swap. However, the Fund does not anticipate non-performance by any counterparty.

Dividends and Distributions:

It is the Fund's current policy to pay dividends from net investment income supplemented by net realized foreign exchange gains, net realized short-term capital gains and return of capital distributions if necessary, on a monthly basis. The Fund will also declare and pay distributions at least annually from net realized gains on investment transactions and net realized foreign exchange gains, if any. Dividends and distributions to common shareholders are recorded on the ex-dividend date. Dividends and distributions to preferred shareholders are accrued on a weekly basis and are determined as described in Note 6. Income distributions and capital and currency gains distributions are determined in accordance with income tax regulations which may differ from accounting principles generally accepted in the United States of America. These differences are primarily due to differing treatments for foreign currencies, loss deferrals and recognition of market discount and premium.

Taxes:

For federal income and excise tax purposes, the Fund's transactions are accounted for using the Australian dollar as the functional currency. Accordingly, only realized currency gains and losses resulting from the repatriation of Australian dollars into United States dollars or transactions in New Zealand dollars or Asian country currencies are recognized for tax purposes.

Aberdeen Asia-Pacific Income Fund, Inc. 31

Edgar Filing: ABERDEEN ASIA PACIFIC INCOME FUND INC - Form N-CSR

Notes to Financial Statements (unaudited) (continued)

No provision has been made for United States income taxes because it is the Fund's policy to continue to meet the requirements of the United States Internal Revenue Code applicable to regulated investment companies and to distribute all of its taxable income to shareholders. The chart below summarizes the withholding tax rates in effect on interest income at the period end.

Country	Withholding Tax Rate
-----	-----
Australia	10%
Hong Kong	30
Japan	10
Korea	12
Malaysia	30
New Zealand	10
Philippines	15

Cash Flow Information:

The Fund invests in securities and makes distributions to common shareholders from net investment income and net realized gains from investment and currency transactions, and to the extent necessary, from return of paid-in capital. These distributions are paid in cash or are reinvested at the discretion of shareholders. These activities are reported in the Statement of Changes in Net Assets and additional information on cash receipts and cash payments is presented in the Statement of Cash Flows. Cash includes domestic and foreign currency.

Note 2. Agreements

Aberdeen Asset Managers (C.I.) Limited (the 'Investment Manager') serves as investment manager to the Fund and Aberdeen Asset Management Limited (the 'Investment Adviser') serves as investment adviser to the Fund pursuant to a management agreement and an advisory agreement, respectively. The Investment Manager and the Investment Adviser are wholly-owned subsidiaries of Aberdeen Asset Management PLC.

The Investment Manager makes investment decisions on behalf of the Fund on the basis of recommendations and information furnished to it by the Investment Adviser, including the selection of and the placement of orders with brokers and dealers to execute portfolio transactions on behalf of the Fund.

The management agreement provides the Investment Manager with a fee, computed weekly and payable monthly, at the following annual rates: 0.65% of the Fund's average

32 Aberdeen Asia-Pacific Income Fund, Inc.

Notes to Financial Statements (unaudited) (continued)

weekly total net assets of common and preferred shareholders up to \$200 million, 0.60% of such assets between \$200 million and \$500 million, 0.55% of such assets between \$500 million and \$900 million, 0.50% of such assets between \$900 million and \$1,750 million and 0.45% of such assets in excess of \$1,750 million.

The Investment Manager pays fees to the Investment Adviser for its services rendered. The Investment Manager informed the Fund that it paid \$2,312,781 to the Investment Adviser during the period ended April 30, 2003.

Prudential Investments LLC (the 'Administrator') serves as administrator to the Fund pursuant to an agreement. The administration agreement provides the

Edgar Filing: ABERDEEN ASIA PACIFIC INCOME FUND INC - Form N-CSR

Administrator with a fee at the annual rate of 0.15% of the Fund's average weekly total net assets of common and preferred shareholders up to \$900 million, 0.10% of such assets between \$900 million and \$1,750 million and 0.07% of such assets in excess of \$1,750 million. During the six months ended April 30, 2003, the Administrator remitted \$120,000 to the Investment Manager for certain compliance related administrative services provided.

Under terms of an Investor Relations Services Agreement, Aberdeen Fund Managers, Inc. ('Aberdeen'), an affiliate of the Fund's Investment Manager and Investment Advisor, serves as the Fund's investor relations services provider. This agreement provides Aberdeen with a monthly retainer fee of \$10,000 plus out-of-pocket expenses. During the six months ended April 30, 2003, the Fund incurred fees of approximately \$60,000 for the services of Aberdeen. As of April 30, 2003, \$10,000 of this amount was due to Aberdeen. Investor relations fees and expenses in the Statement of Operations include certain out-of-pocket expenses.

Note 3. Portfolio Securities

Purchases and sales of investment securities, other than short-term investments, for the six months ended April 30, 2003 aggregated \$213,652,003 and \$241,321,361, respectively.

The Fund entered into two interest rate and foreign currency swaps on February 16, 1999. Under the terms of the first swap, the Fund receives interest at a rate of 11.50% based on a notional amount of KRW5,124,367,250 and pays interest at a rate of 3.70% based on a notional amount of JPY500,000,000. Net receipts or payments of such amounts are exchanged semi-annually. At April 30, 2003 the unrealized appreciation on this currency swap was \$407,784. The swap is scheduled to terminate on April 26, 2006.

On September 16, 2002, the Fund entered into a two-year interest rate swap agreement in order to hedge one-third of the Fund's outstanding issues of AMPS. Under the original

Aberdeen Asia-Pacific Income Fund, Inc. 33

Notes to Financial Statements (unaudited) (continued)

terms of the agreement, the Fund received a floating rate of interest (one-month USD-LIBOR BBA rate) based on a notional amount of \$200,000,000 and paid interest at a fixed rate of 2.46%. The fixed rate interest payment has been periodically repriced and the most recent repricing occurred on February 18, 2003 at a new fixed rate of 1.37%. Net receipts of payments of such amounts are exchanged every 28 days. At April 30, 2003 the unrealized depreciation of interest rate swaps was \$36,529. The swap is scheduled to terminate on September 18, 2004. Net interest income of \$204,742 on interest rate and currency swaps earned during the year is included in interest income in the Statement of Operations.

At April 30, 2003 the Fund had outstanding forward currency contracts to buy and sell foreign currency against United States dollars as follows:

Foreign Currency Purchase Contract	Value at Settlement Date Payable	Current Value	Appreciation (Depreciation)
-----	-----	-----	-----

Note 4. Tax Information

The United States federal income tax basis of the Fund's investments and the net unrealized appreciation as of April 30, 2003 were as follows:

Tax Basis of Investments	Appreciation	Depreciation	Net Unrealized Appreciation
-----	-----	-----	-----
\$2,006,906,568	\$78,861,372	\$31,164,890	\$47,696,482

The difference between book basis and tax basis was primarily attributable to deferred losses on wash sales, differing tax treatment for foreign currencies, loss deferrals and recognition of discount and of premium amortization.

Edgar Filing: ABERDEEN ASIA PACIFIC INCOME FUND INC - Form N-CSR

The Fund estimates that distributions for the fiscal year commencing November 1, 2002, including the distribution paid on June 13, 2003, are comprised of 70% net investment income and 30% return of paid-in capital.

Note 5. Common Stock

There are 400 million shares of common stock authorized. At April 30, 2003, there were 264,654,000 common shares issued and outstanding.

Aberdeen Asia-Pacific Income Fund, Inc. 35

Notes to Financial Statements (unaudited) (continued)

On March 1, 2001, the Board of Directors approved a stock repurchase program. The stock repurchase program allows the Fund to repurchase up to 10% of its outstanding common stock in the open market during any 12 month period if and when the discount to net asset value is at least 10%. The number of shares repurchased and cancelled under this program for the six month period ended April 30, 2003 and the year ended October 31, 2002 were 0 and 2,127,600, respectively.

On October 8, 2002, the Fund filed a registration statement with the Securities and Exchange Commission in connection with a proposed transferable rights offering to common shareholders. On January 10, 2003 the Fund announced that it would not proceed with the proposed rights offering, based upon the determination of the Rights Offering Committee of the Board of Directors that market conditions were unfavorable for the commencement of the rights offering and that favorable market conditions were not anticipated to develop in the near term. Expenses incurred in connection with the proposed rights offering are included in the Statement of Operations.

Note 6. Preferred Stock

The Preferred Stock shareholders have rights as determined by the Board of Directors. The 24,000 shares of Auction Market Preferred Stock ('Preferred Stock') outstanding consist of nine series as follows: Series A--3,000 shares, Series B--3,000 shares, Series C--2,000 shares, Series D--4,000 shares, Series E--2,000 shares, Series F--2,000 shares, Series G--3,000 shares, Series H--2,500 shares and Series I--2,500 shares.

Dividends on each series of Preferred Stock are cumulative at a rate established at the initial public offering and are typically reset every 28 days for Series A through D and every seven days for Series E through I based on the results of an auction. Dividend rates ranged from 1.2% to 2.1% during the six months ended April 30, 2003. Under the Investment Company Act of 1940, the Fund may not declare dividends or make other distributions on shares of common stock or purchase any such shares if, at the time of the declaration, distribution or purchase, asset coverage with respect to the outstanding Preferred Stock would be less than 200%.

The Preferred Stock is redeemable at the option of the Fund, in whole or in part, on any dividend payment date at liquidation value plus any accumulated but unpaid dividends. The Preferred Stock is also subject to mandatory redemption at liquidation value plus any accumulated but unpaid dividends if certain requirements relating to the composition of the assets and liabilities of the Fund as set forth in the Charter are not satisfied.

stock (one vote per share) and will vote together with holders of shares of common stock as a single class. However, holders of Preferred Stock are also entitled to elect two of the Fund's directors.

Note 7. Subsequent Events

On May 12, 2003 and June 16, 2003, the Board of Directors declared a monthly distribution of 3.5 cents per share payable on June 13, 2003 and July 11, 2003 to all shareholders of record as of May 30, 2003 and June 30, 2003, respectively (ex-dividend dates May 28, 2003 and June 26, 2003, respectively).

Subsequent to April 30, 2003, dividends and distributions declared and paid on Preferred Stock totaled approximately \$999,545 for the nine outstanding preferred share series in the aggregate through June 13, 2003.

D Total investment return is calculated assuming a purchase of common stock on the first day of sale on the last day of each year reported. Dividends and distributions are assumed, for purposes of this calculation, to be reinvested at prices obtained under the Fund's dividend reinvestment plan. Total investment return does not reflect brokerage commissions.

DD Includes expenses of both preferred and common stock.

Pound Ratios calculated on the basis of income, expenses and preferred share dividends applicable to both the common and preferred shares relative to the average net assets of common shareholders. Expense ratios relative to the average net assets of common and preferred shareholders are 1.03%, 1.03%, .98%, .95% and .95%, respectively. Ratios to average net assets of net investment income before preferred stock dividends are 7.56%, 8.18%, 10.76%, 10.52%, 9.79% and 10.72%, respectively. Ratios to average net assets of preferred stock dividends are .65%, .97%, 2.23%, 2.30%, 1.45% and 2.21%, respectively.

Pound Less than \$0.005 per share.

Pound Effective November 1, 2001, the Fund has adopted the provisions of the AICPA Audit Guide for Investment Companies and began amortizing premiums on debt securities. The effect of this change for the year ended October 31, 2002 was to decrease net investment income per share by \$0.05 and increase net realized and unrealized gain (loss) per share by \$0.05 and decrease ratio of net investment income from 8.31% to 7.21%. Per share amounts and ratios for the years ended prior to October 31, 2002 have not been restated to reflect this change in presentation.
