ChoiceOne Financial Services, Inc.

NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Principles of Consolidation

The consolidated financial statements include ChoiceOne Financial Services, Inc. (the "Registrant") and its wholly-owned subsidiary, ChoiceOne Bank (the "Bank"), and the Bank's wholly-owned subsidiaries, ChoiceOne Insurance Agencies, Inc. (the "Insurance Agency"), and ChoiceOne Mortgage Company of Michigan (the "Mortgage Company"). Intercompany transactions and balances have been eliminated in consolidation.

The consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information, prevailing practices within the banking industry and the instructions to Form 10-Q. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements.

The accompanying consolidated financial statements reflect all adjustments ordinary in nature which are, in the opinion of management, necessary for a fair presentation of the Consolidated Balance Sheets as of September 30, 2008 and December 31, 2007, the Consolidated Statements of Income for the three- and nine-month periods ended September 30, 2008 and September 30, 2007, the Consolidated Statements of Changes in Shareholders' Equity for the nine-month periods ended September 30, 2008 and September 30, 2007, and the Consolidated Statements of Cash Flows for the nine-month periods ended September 30, 2008 and September 30, 2007. Operating results for the nine months ended September 30, 2008 are not necessarily indicative of the results that may be expected for the year ending December 31, 2008.

The accompanying consolidated financial statements should be read in conjunction with the consolidated financial statements and footnotes thereto included in the Registrant's Annual Report on Form 10-K for the year ended December 31, 2007.

Allowance for Loan Losses

The allowance for loan losses is maintained at a level believed adequate by management to absorb probable incurred losses inherent in the consolidated loan portfolio. Management's evaluation of the adequacy of the allowance is an estimate based on reviews of individual loans, assessments of the impact of current economic conditions on the portfolio and historical loss experience of seasoned loan portfolios. See Note 2 to the interim consolidated financial statements for additional information.

Management believes the accounting estimate related to the allowance for loan losses is a "critical accounting estimate" because (1) the estimate is highly susceptible to change from period to period because of assumptions concerning the changes in the types and volumes of loans in the portfolio and economic conditions and (2) the impact of recognizing an impairment or loan loss could have a material effect on ChoiceOne's assets reported on the balance sheet as well as its net income.

Stock Transactions

A total of 5,420 shares of common stock were issued to the Registrant's Board of Directors for a cash price of \$65,000 under the terms of the Directors' Stock Purchase Plan in the first nine months of 2008. A total of 7,084 shares were issued to employees for a cash price of \$54,000 under the Employee Stock Purchase Plan in the first nine months of 2008.

Reclassifications

Certain amounts presented in prior periods have been reclassified to conform to the current presentation.

ChoiceOne Financial Services, Inc.
NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS (Continued)

NOTE 2 - ALLOWANCE FOR LOAN LOSSES

An analysis of changes in the allowance for loan losses follows:

(Dollars in thousands)	Three Months Ended September 30,		Nine Months Ended September 30,	
	<u>2008</u>	<u>2007</u>	<u>2008</u>	<u>2007</u>
Balance at beginning of period	\$ 3,710	\$ 3,549	\$ 3,600	\$ 3,569
Provision charged to expense	750	665	1,750	1,035
Recoveries credited to the allowance	110	79	300	219
Loans charged off	(485)	(570)	(1,565)	(1,100)
	<u> </u>	<u> </u>	<u> </u>	<u> </u>
Balance at end of period	\$ 4,085	\$ 3,723	\$ 4,085	\$ 3,723
	<u> </u>	<u> </u>	<u> </u>	<u> </u>

Information regarding impaired loans follows:

(Dollars in thousands)	<u>September 30, 2008</u>	<u>December 31, 2007</u>
Loans with no allowance allocated	\$ 1,304	\$ 2,677
Loans with allowance allocated	4,864	2,130
Amount of allowance for loan losses allocated	1,233	824

(Dollars in thousands)	Three Months Ended September 30,		Nine Months Ended September 30,	
	<u>2008</u>	<u>2007</u>	<u>2008</u>	<u>2007</u>
Average balance during the period	\$ 5,568	\$ 6,018	\$ 5,009	\$ 6,397

NOTE 3 - EARNINGS PER SHARE

Earnings per share are based on the weighted average number of shares outstanding during the period. A computation of basic earnings per share and diluted earnings per share follows:

(Dollars in thousands, except per share data)	Three Months Ended September 30,		Nine Months Ended September 30,	
	<u>2008</u>	<u>2007</u>	<u>2008</u>	<u>2007</u>

Edgar Filing: CHOICEONE FINANCIAL SERVICES INC - Form 10-Q

Basic Earnings Per Share

Net income available to common
shareholders

\$	612	\$	674	\$	2,094	\$	2,576
----	-----	----	-----	----	-------	----	-------

Weighted average common shares outstanding

-----------	-----------	-----------	-----------

Basic earnings per share

\$	0.19	\$	0.20	\$	0.65	\$	0.79
----	------	----	------	----	------	----	------

(Dollars in thousands, except per share data)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2008	2007	2008	2007
<u>Diluted Earnings Per Share</u>				
Net income available to common shareholders	\$ 612	\$ 674	\$ 2,094	\$ 2,576
Weighted average common shares outstanding	3,239,451	3,236,724	3,234,915	3,242,512
Plus dilutive stock options	-	784	-	1,486
Weighted average common shares outstanding and potentially dilutive shares	3,239,451	3,237,508	3,234,915	3,243,998
Diluted earnings per share	\$ 0.19	\$ 0.20	\$ 0.65	\$ 0.79

As of September 30, 2008, there were 48,732 stock options that are considered to be anti-dilutive to earnings per share for both the three-month and nine-month periods ended September 30, 2008. As of September 30, 2007, there were 30,585 stock options considered to be anti-dilutive to earnings per share for the three- and nine-month periods ended September 30, 2007. These stock options have been excluded from the calculation above.

NOTE 4 - FAIR VALUE MEASUREMENTS

The following tables present information about the Bank's assets and liabilities measured at fair value on a recurring basis at September 30, 2008, and the valuation techniques used by the Bank to determine those fair values.

In general, fair values determined by Level 1 inputs use quoted prices in active markets for identical assets or liabilities that the Bank has the ability to access.

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset or liability.

In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Bank's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset or liability.

There were no liabilities measured at fair value as of September 30, 2008. Disclosures concerning assets measured at fair value are as follows:

Assets Measured at Fair Value on a Recurring Basis at September 30, 2008
(Dollars in Thousands)

	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Balance at September 30, 2008
Assets				
Investment securities, available for sale	\$ 70,932	\$ 4,471	\$ 3,994	\$ 79,397

**Changes in Level 3 Assets Measured at Fair Value on a Recurring Basis
(Dollars in Thousands)**

Investment Securities, Available for Sale

Balance at December 31, 2007	\$ 4,748
Total realized and unrealized gains (losses) included in income	-
Total unrealized gains (losses) included in other comprehensive income	(219)
Net purchases, sales, calls, and maturities	(406)
Net transfers in (out) of Level 3	(129)
	<hr/>
Balance at September 30, 2008	\$ 3,994
	<hr/>

Of the Level 3 assets that were still held by the Bank at September 30, 2008, the net unrealized loss for the nine months ended September 30, 2008 was \$209,000, which is recognized in other comprehensive income in the consolidated balance sheet. There were sales of \$200,000 of Level 3 securities in the first nine months of 2008. There were no purchases of Level 3 securities during the nine months ended September 30, 2008.

Both observable and unobservable inputs may be used to determine the fair value of positions classified as Level 3 assets and liabilities. As a result, the unrealized gains and losses for these assets and liabilities presented in the tables above may include changes in fair value that were attributable to both observable and unobservable inputs.

Available-for-sale investment securities categorized as Level 3 assets consist of bonds issued by local municipalities and money market preferred securities. The Bank estimates the fair value of these assets based on the present value of expected future cash flows using management's best estimate of key assumptions, including forecasted interest yield and payment rates, credit quality and a discount rate commensurate with the current market and other risks involved.

The Bank also has assets that under certain conditions are subject to measurement at fair value on a non-recurring basis. These assets include loans which have been classified as impaired under the provisions of Statement of Financial Accounting Standards 114, "Accounting by Creditors for Impairment of a Loan" ("SFAS 114"). The Bank has estimated the fair values of these assets using Level 3 inputs, specifically discounted cash flow projections.

**Assets Measured at Fair Value on a Nonrecurring Basis
(Dollars in Thousands)**

Balance at September 30, 2008	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total Losses for the Period Ended September 30, 2008
<hr/>	<hr/>	<hr/>	<hr/>	<hr/>

Assets

Impaired loans accounted for under SFAS 114	\$ 6,168	\$ -	\$ -	\$ 6,168	\$ 93
---	----------	------	------	----------	-------

Impaired loans accounted for under SFAS 114 categorized as Level 3 assets consist of non-homogeneous loans that are considered impaired. The Bank estimates the fair value of the loans based on the present value of expected future cash flows using management's best estimate of key assumptions. These assumptions include future payment ability, timing of payment streams, and estimated realizable values of available collateral (typically based on outside appraisals). The losses indicated for the period ended September 30, 2008 consisted of charge-downs that were posted to the allowance for loan losses.

Other assets, including bank-owned life insurance, goodwill, intangible assets and other assets acquired in business combinations, are also subject to periodic impairment assessments under other accounting principles generally accepted in the United States of America. These assets are not considered financial instruments. Effective February 12, 2008, the Financial Accounting Standards Board issued a staff position that delayed the applicability of

Statement of Financial Accounting Standards 157, "Fair Value Measurements," to non-financial instruments. Accordingly, these assets have been omitted from the above disclosures.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

The following discussion is designed to provide a review of the consolidated financial condition and results of operations of ChoiceOne Financial Services, Inc. ("ChoiceOne" or the "Registrant") and its wholly-owned subsidiary, ChoiceOne Bank (the "Bank"), and the Bank's wholly-owned subsidiaries, ChoiceOne Insurance Agencies, Inc. (the "Insurance Agency"), and ChoiceOne Mortgage Company of Michigan (the "Mortgage Company"). This discussion should be read in conjunction with the consolidated financial statements and related notes.

FORWARD-LOOKING STATEMENTS

This discussion and other sections of this report contain forward-looking statements that are based on management's beliefs, assumptions, current expectations, estimates, and projections about the financial services industry, the economy, and the Registrant itself. Words such as "anticipates," "believes," "estimates," "expects," "forecasts," "intends," "is likely," "plans," "predicts," "projects," variations of such words and similar expressions are intended to identify such forward-looking statements. These statements are not guarantees of future performance and involve certain risks, uncertainties, and assumptions ("risk factors") that are difficult to predict with regard to timing, extent, likelihood, and degree of occurrence. Therefore, actual results and outcomes may materially differ from what may be expressed, implied or forecasted in such forward-looking statements. Furthermore, the Registrant undertakes no obligation to update, amend, or clarify forward-looking statements, whether as a result of new information, future events, or otherwise.

Risk factors include, but are not limited to, the risk factors disclosed in Item 1A of the Registrant's Annual Report on Form 10-K for the fiscal year ended December 31, 2007; changes in interest rates and interest rate relationships; demand for products and services; the degree of competition by traditional and non-traditional competitors; changes in banking laws and regulations; changes in tax laws; changes in prices, levies, and assessments; the impact of technological advances; governmental and regulatory policy changes; the outcomes of pending and future litigation and contingencies; trends in customer behavior as well as their ability to repay loans; changes in the local and national economies; changes in market conditions; the possibility that anticipated cost savings and revenue enhancements from the merger with Valley Ridge Financial Corp. may not be fully realized at all or within the expected time frames; the level and timing of asset growth; local and global uncertainties such as acts of terrorism and military actions; and current uncertainties and fluctuations in the financial markets and stocks of financial services providers due to concerns about credit availability and concerns about the Michigan economy in particular. These are representative of the risk factors that could cause a difference between an ultimate actual outcome and a preceding forward-looking statement.

RESULTS OF OPERATIONS

Summary

Net income was \$612,000 in the third quarter of 2008 compared to \$674,000 in the third quarter of 2007. For the nine months ended September 30, 2008, net income was \$2,094,000, compared to \$2,576,000 in the same period in 2007. The change in both cases resulted primarily from a higher provision for loan losses in 2008 than in 2007. Lower noninterest expense in the third quarter and first nine months of 2008 compared to the same periods in 2007 was offset by lower noninterest income in the same periods. The return on average assets and return on average shareholders' equity was 0.60% and 5.20%, respectively, for the first nine months of 2008, compared to .74% and 6.61%, respectively, for the same period in 2007.

Dividends

Cash dividends of \$550,000 or \$0.17 per share were declared in the third quarter of 2008, compared to \$550,000 or \$0.17 per share in the third quarter of 2007. The cash dividends declared in the first nine months of 2008 were \$1,650,000 or \$.51 per share, compared to \$1,653,000 or \$.51 per share declared in 2007. The cash dividend payout percentage was 79% for the first nine months of 2008, compared to 64% in the same period a year ago.

Interest Income and Expense

Tables 1 and 2 on the following pages provide information regarding interest income and expense for the nine-month periods ended September 30, 2008 and 2007, respectively. Table 1 documents ChoiceOne's average balances and interest income and expense, as well as the average rates earned or paid on assets and liabilities. Table 2 documents the effect on interest income and expense of changes in volume (average balance) and interest rates. These tables are referred to in the discussion of interest income, interest expense and net interest income.

Table 1 - Average Balances and Tax-Equivalent Interest Rates

Net interest income as a percentage of earning
assets (tax-equivalent basis)

3.91%

3.91%

- (1) Adjusted to a fully tax-equivalent basis to facilitate comparison to the taxable interest-earning assets. The adjustment uses an incremental tax rate of 34% for the periods presented.
- (2) Includes the effect of unrealized gains or losses on securities.
- (3) Taxable securities include dividend income from Federal Home Loan Bank and Federal Reserve Bank stock.

Table 2 - Changes in Tax-Equivalent Net Interest Income

(Dollars in thousands)	Nine Months Ended September 30, 2008 Over 2007		
	Total	Volume	Rate
Increase (decrease) in interest income (1)			
Loans (2)	\$ (1,602)	\$ (154)	\$ (1,448)
Taxable securities	(167)	(175)	8
Nontaxable securities (2)	338	327	11
Other	(12)	50	(62)
Net change in tax-equivalent income	(1,443)	48	(1,491)
Increase (decrease) in interest expense (1)			
Interest-bearing demand deposits	(583)	16	(599)
Savings deposits	(3)	8	(11)
Certificates of deposit	(1,073)	(580)	(493)
Advances from Federal Home Loan Bank	274	504	(230)
Other	(75)	43	(118)
Net change in interest expense	(1,460)	(9)	(1,451)
Net change in tax-equivalent net interest income	\$ 17	\$ 57	\$ (40)

- (1) The volume variance is computed as the change in volume (average balance) multiplied by the previous year's interest rate. The rate variance is computed as the change in interest rate multiplied by the previous year's volume (average balance). The change in interest due to both volume and rate has been allocated to the volume and rate changes in proportion to the relationship of the absolute dollar amounts of the change in each.
- (2) Interest on nontaxable investment securities and loans has been adjusted to a fully tax-equivalent basis using an incremental tax rate of 34% for the periods presented.

Net Interest Income

The presentation of net interest income on a tax-equivalent basis is not in accordance with generally accepted accounting principles ("GAAP"), but is customary in the banking industry. This non-GAAP measure ensures comparability of net interest income arising from both taxable and tax-exempt loans and investment securities. The adjustments to determine net interest income on a tax-equivalent basis were \$734,000 and \$640,000 for the nine months ended September 30, 2008 and 2007, respectively. These adjustments were computed using a 34% federal income tax rate.

As shown in Tables 1 and 2, tax-equivalent net interest income increased \$17,000 in the first nine months of 2008 compared to the same period in 2007. Average interest-earning assets grew very slightly in the first three quarters of 2008 compared to the same period in 2007. The net interest spread also increased slightly.

The average balance of loans decreased \$2.7 million in the first nine months of 2008 compared to the same period in 2007. Average residential mortgage loans were \$7.6 million lower in 2008 than in 2007 as borrowers refinanced from adjustable rate loans that the Bank held in its portfolio to fixed rate loans that were sold in the secondary market. The

decrease in the average loans balance combined with a 59 basis point decrease in the average rate earned caused tax-equivalent interest income from loans to decrease \$1,602,000 in the first nine months of 2008 compared to the same period in the prior year. The decrease in the average rate earned on loans was due to a 225 basis point decrease in the Bank's prime lending rate that occurred in the first four months of 2008. The average balance of total securities increased \$2.6 million in the first nine months of 2008 compared to the same period in 2007. Securities were purchased in the first nine months of 2007 and early 2008 to provide growth in interest-earnings assets. As a result of the balance growth and a small increase in yields earned, tax-equivalent interest

income rose \$171,000 in the first nine months of 2008 compared to the same period in the prior year. The increase in other interest-earning assets in the first nine months of 2008 compared to the first nine months of 2007 was caused by a higher level of federal funds sold in 2008 than in the prior year.

The average balance of interest-bearing demand deposits increased \$527,000 in the first nine months of 2008 compared to the same period in 2007. The effect of the higher average balance was offset by an 86 basis point decline in the average rate paid, which caused interest expense to fall \$583,000 in the first nine months of 2008 compared to the same period in 2007. The average balance of certificates of deposit was down \$16.7 million in the first nine months of 2008 compared to the same period in 2007. The decrease was caused by maturing brokered certificates of deposit that were not replaced, which caused the average brokered balance to be \$21.0 million less in the first nine months of 2008 than in the same period in 2007. The decline in certificates of deposit, combined with a 37 basis point decrease in the average rate paid, caused interest expense to fall \$1,073,000 in 2008 compared to 2007. The average balance of advances from the Federal Home Loan Bank of Indianapolis ("FHLB") was \$12.3 million higher in the first nine months of 2008 than the prior year. FHLB advances were used in the last quarter of 2007 and the first three quarters of 2008 to replace maturing brokered certificates of deposit since the rate on new advances was lower than that of new certificates of deposit. The growth in FHLB advances, although partially offset by a 71 basis point decrease in the average rate paid, caused interest expense to increase \$274,000 in the first nine months of 2008 compared to the same period in 2007. Growth in other interest-bearing liabilities in the first three quarters of 2008 compared to the first three quarters of 2007 was due to a higher average balance in repurchase agreements.

ChoiceOne's net interest income spread was 3.42% in the first nine months of 2008, compared to 3.36% for the first nine months of 2007. The lower average rate earned on loans caused the average rate earned on interest-earning assets to decline 48 basis points in the first three quarters of 2008 compared to the same period in 2007. The total funding cost dropped 54 basis points in the first nine months of 2008 compared to the same period in 2007. This was due to lower interest rates paid on all interest-bearing liability categories. Management plans to continue its emphasis on local deposit growth in 2008.

Provision and Allowance for Loan Losses

The allowance for loan losses was \$4,085,000 as of September 30, 2008, compared to \$3,710,000 as of June 30, 2008 and \$3,600,000 as of December 31, 2007. The increase that occurred in the allowance balance in the third quarter of 2008 and has occurred since the end of 2007 was due to a higher level of specific allowance allocations to certain commercial and industrial and commercial real estate loans. This was in contrast to the second quarter of 2008 when specific allocations declined. The provision for loan losses was \$750,000 and \$1,750,000 for the third quarter and first nine months of 2008, respectively, compared to \$665,000 and \$1,035,000 for the comparable periods in 2007. The allowance increase and higher provision in 2008 were believed necessary due to higher net charge-offs in the first nine months of 2008 than in the same period in 2007, deterioration in certain commercial real estate and residential real estate loan credits, and continued concerns over the Michigan economy. The allowance for loan losses was 1.25% of total loans as of September 30, 2008, compared to 1.13% at June 30, 2008 and 1.10% at December 31, 2007.

Charge-offs and recoveries for respective loan categories for the nine months ended September 30 were as follows:

(Dollars in thousands)	2008		2007	
	Charge-offs	Recoveries	Charge-offs	Recoveries
Agricultural	\$ -	\$ -	\$ 33	\$ 3
Commercial and industrial	330	54	418	10
Consumer	386	205	446	196
Real estate, commercial	223	35	77	1
Real estate, residential	626	6	126	9

\$	1,565	\$	300	\$	1,100	\$	219
----	-------	----	-----	----	-------	----	-----

Net charge-offs in the first nine months of 2008 were \$1,265,000, compared to \$881,000 in the first nine months of 2007. Net charge-offs as a percentage of average loans were .78% in the first nine months of 2008 and .54% for the same period in the prior year. As shown in the table above, the increase was due to higher charge-off levels for commercial real estate loans and residential real estate loans. Management believes that the primary reason for the higher charge-off level is the economic climate in Michigan which has affected both business and personal borrowers. This climate has had a negative impact on real estate collateral values for ChoiceOne's loans. Management has and intends to continue to work with delinquent borrowers in an attempt to lessen the negative impact to ChoiceOne. As charge-offs, changes in the level of nonperforming loans, and changes within the composition of the loan portfolio occur throughout 2008, the provision and allowance for loan losses will be reviewed by the Bank's management and adjusted as necessary.

Noninterest Income

Total noninterest income was \$1,104,000 in the third quarter of 2008 compared to \$1,427,000 in the same period in 2007. For the nine months ended September 30, 2008, total noninterest income was \$3,686,000, compared to \$4,308,000 in the same period in 2007. Much of the decrease in noninterest income in the third quarter and first nine months of 2008 compared to 2007 was due to the sale of ChoiceOne's property and casualty insurance lines of business in October 2007. These lines of business produced \$158,000 in revenues in the third quarter of 2007 and \$563,000 in the first nine months of 2007 that were included in insurance commissions and other noninterest income. A gain of \$875,000 was recognized in the fourth quarter of 2007 from the sale of the insurance lines of business; this gain will not recur in 2008. Also contributing to the decrease in noninterest income in 2008 were a lower level of gains on sales of loans, higher losses on sales of other assets, and lower other noninterest income. Offsetting part of the effect of the insurance sale was an increase of \$94,000 in investment commission revenue in the first nine months of 2008 compared to the same period in 2007. The growth in investment commissions was caused by increased mutual fund and annuity sales and higher investment advisory fees in the first nine months of 2008 compared to the same period in 2007.

Noninterest Expense

Total noninterest expense was \$3,646,000 in the third quarter of 2008 compared to \$3,859,000 in the same period in 2007. For the nine months ended September 30, 2008, total noninterest expense was \$10,891,000 compared to \$11,516,000 in the first nine months of 2007. Compensation and benefits were \$330,000 lower in the third quarter and \$637,000 lower in the first nine months of 2008 than in the same periods in 2007. The decrease was primarily due to the sale of the property and casualty insurance lines of business in October 2007, which eliminated the ongoing compensation and other costs related to this activity. Compensation expense was also affected by lower bonus accruals in the first nine months of 2008 than in the same period in 2007. Data processing expense was \$11,000 lower in the third quarter and \$108,000 lower in the first nine months of 2008 than in the same periods in the prior year. This resulted primarily from cost reductions for ATM processing due to a new contract signed by ChoiceOne in early 2008. Professional fees were up \$21,000 in the second quarter and \$61,000 in the first nine months of 2008 than the same periods in 2007. The reason for the increase was higher legal and accounting fees and costs related to ChoiceOne's overdraft protection program. FDIC insurance cost was \$54,000 higher in the third quarter and \$161,000 higher in the first nine months of 2008 compared to similar periods in 2007. ChoiceOne had assessment credits from the FDIC that were used to reduce the insurance cost in 2007. These credits were fully utilized in January 2008. Advertising and promotional expense was down in both the third quarter and first nine months of 2008 compared to the same periods in 2007 as fewer costs had been incurred in 2008. The increase in other noninterest expense in the first three quarters of 2008 compared to the same period in 2007 was caused by higher training expenses, higher loan-related costs, and increases in various other expenses.

Income Tax Expense

Income tax expense decreased \$32,000 and \$307,000, respectively, in the third quarter and first nine months of 2008 compared to the same periods in 2007. Taxable income was significantly less in 2008 due to the lower level of income

before income tax. Nontaxable income from municipal securities, money market preferred securities, and bank-owned life insurance also affected taxable income as they comprised a larger percentage of income before income tax in 2008 than in the prior year. As a result, ChoiceOne's effective tax rate was 14.8% for the first nine months of 2008 versus 20.6% for the first nine months of 2007.

FINANCIAL CONDITIONSecurities

Securities available for sale were virtually unchanged from the end of the second quarter of 2008 to the end of the third quarter and have declined \$3.8 million from December 31, 2007 to September 30, 2008. ChoiceOne has purchased a mix of government agency, mortgage-backed, municipal, and equity securities totaling \$16.6 million in the first nine months of 2008 to replace maturities, principal repayments, and calls within the securities portfolio. Approximately \$13.8 million in various securities were called or matured since the end of 2007. Principal repayments on securities totaled \$4.1 million in the first nine months of 2008. Approximately \$1.7 million of securities were sold in the first nine months of 2008 for a net gain of \$33,000. ChoiceOne's balance in Money Market Preferred Securities declined from \$4.5 million as of December 31, 2007 to \$2.8 million as of September 30, 2008. Management has reviewed the quality of its securities in the first nine months of 2008 with particular attention paid to the ratings of insurance companies that insure municipal bonds. Management anticipates that purchases of securities in the remainder of 2008 will depend on reinvestment rates and the level of growth in ChoiceOne's local deposits.

Loans

The loan portfolio (excluding loans held for sale) declined \$1.5 million in the third quarter of 2008 and \$2.3 million from December 31, 2007 to September 30, 2008. Commercial and industrial loans grew \$4.5 million in the first nine months of 2008 due to calling efforts on borrowers. Commercial real estate loans and agricultural loans were down a total of \$2.8 million since the end of 2007. Consumer loans have increased slightly first nine months of 2008. Residential real estate loans declined \$4.4 million in the first nine months of 2008. The residential loans decrease was primarily due to mortgage borrowers refinancing from adjustable rate loans into fixed rate loans. ChoiceOne holds adjustable rate mortgage loans in its loan portfolio while most fixed rate loans are sold into the secondary market.

Information regarding impaired loans can be found in Note 2 to the consolidated financial statements included in this report. The total balance of loans classified as impaired was \$6.2 million as of September 30, 2008, compared to \$5.0 million as of June 30, 2008 and \$4.8 million as of December 31, 2007. The balance of loans with no allowance allocated decreased \$1.4 million in the first nine months of 2008 while the balance of loans with an allowance allocated increased \$2.7 million. The balance of loans shown in Note 2 with no allowance allocated was \$2,677,000 as of December 31, 2007.

As part of its review of the loan portfolio, management also monitors the various nonperforming loans. Nonperforming loans are comprised of: (1) loans accounted for on a nonaccrual basis; (2) loans, not included in nonaccrual loans, which are contractually past due 90 days or more as to interest or principal payments; and (3) loans, not included in nonaccrual or loans past due 90 days or more, which are considered troubled debt restructurings.

The balances of these nonperforming loans were as follows:

(Dollars in thousands)

	September 30, 2008	December 31, 2007
Loans accounted for on a nonaccrual basis	\$ 7,748	\$ 5,605
Accruing loans contractually past due 90 days or more as to principal or interest payments	251	188
Loans considered troubled debt restructurings	1,025	-
Total	\$ 9,024	\$ 5,793

At September 30, 2008, nonaccrual loans included \$4.8 million in commercial industrial and commercial real estate loans, \$2.8 million in residential real estate loans, and \$0.1 million in consumer loans. At December 31, 2007, nonaccrual loans included \$3.0 million in commercial industrial and commercial real estate loans, \$2.4 million in residential real estate loans, and \$0.2 million in consumer loans. Part of the increase in nonperforming loans since

the end of 2007 was caused by a restaurant property loan for \$1.5 million that was reclassified to a nonaccrual basis in the second quarter of 2008. The loan is in the process of foreclosure. The balance in loans considered troubled debt restructurings consisted of two commercial loans that were restructured in the third quarter of 2008. Management believes the specific reserves allocated to its nonperforming loans are sufficient at September 30, 2008.

Other Real Estate Owned

The balance of other real estate owned ("OREO") decreased \$204,000 in the third quarter of 2008 and has increased \$872,000 from December 31, 2007 to September 30, 2008. Commercial and residential real estate loans totaling \$2,201,000 were transferred into OREO during the first nine months of 2008. This was offset by sales of properties or payments upon them of \$1,133,000 and write-downs of other real estate balances of \$196,000 during the same time period. Due to the current state of the Michigan economy, there may be continuing transfers from loans into OREO during the remainder of 2008.

Deposits and Borrowings

Total deposits were \$338 million as of September 30, 2008, compared to \$344 million as of June 30, 2008 and \$352 million as of December 31, 2007. Local deposits declined \$7.8 million in the third quarter of 2008 and have declined \$4.4 million in the first nine months of 2008. Since the end of 2007, noninterest-bearing and interest-bearing checking account balances have decreased \$8.6 million, while money market accounts and savings accounts balances have grown \$10.8 million in the same time period. Local certificates of deposit have been reduced \$6.7 million since the end of 2007, due in part to relatively high interest rates in ChoiceOne's market areas. Brokered certificates of deposit increased \$1.1 million in the third quarter of 2008 and have fallen \$9.7 million in the first three quarters of 2008. Some of the maturing brokered deposits have been replaced by Federal Home Loan Bank advances in 2008.

Federal Home Loan Bank advances grew \$3.0 million in the third quarter of 2008 and have increased \$6.0 million in the first nine months of 2008 as management used them to replace maturing brokered certificates of deposit. The rates paid on these borrowings were lower than comparable brokered deposit rates. The \$4.9 million decline in the balance of securities sold under agreements to repurchase since the end of 2007 was due to normal fluctuations in funds provided by bank customers. Certain securities are sold under agreements to repurchase them the following day or over a certain fixed term.

Management plans to continue its marketing efforts toward growing local deposits to replace maturing brokered deposits and other borrowings for the remainder of 2008.

Shareholders' Equity

Total shareholders' equity was virtually the same at September 30, 2008 as it was at June 30, 2008 and December 31, 2007. The effect of current year's net income and proceeds from the sale of ChoiceOne's stock was offset by cash dividends paid and a decrease in accumulated other comprehensive income. ChoiceOne's capital ratios as of September 30, 2008 of 8.0% for the leverage ratio, 10.6 % for the Tier 1 capital ratio, and 11.8% for the total risk-based capital ratio, exceed the minimum ratios to be well-capitalized of 5.0%, 6.0%, and 10.0%, respectively. ChoiceOne did not repurchase any of its common stock in the first nine months of 2008, in contrast to the same period in 2007 when 32,700 shares were repurchased. Management may repurchase shares of its common stock in future quarters and retire them. The Registrant's Board of Directors authorized an additional repurchase plan on July 26, 2007 to buy back 100,000 shares of common stock.

At the Annual Meeting of Shareholders of ChoiceOne Financial Services, Inc. held on April 24, 2008, the shareholders approved an amendment to the Restated Articles of Incorporation to increase the number of shares of authorized capital stock from 4,100,000 to 7,100,000. The purpose of the amendment was to provide additional shares of common stock for possible future issuance. ChoiceOne's Board of Directors has no present plans or commitments for the issuance of any of the additional shares.

Liquidity and Sensitivity to Interest Rates

Net cash from operating activities was \$4,925,000 for the nine months ended September 30, 2008 compared to \$3,378,000 provided in the same period a year ago. The increase resulted from proceeds from sales of other real

estate owned and a higher provision for loan losses in 2008 than in 2007. Net cash from investing activities was \$1,140,000 in the first nine months of 2008 compared to a negative \$3,035,000 in the same period in 2007. A lower amount of securities purchases in 2008 compared to 2007 was offset by net loan originations in 2008 compared to net loan repayments in 2007. Net cash used in financing activities was \$9,385,000 in the first nine months of 2008 compared to \$1,385,000 of cash used in the same period in the prior year. The increase in net cash used was caused by a larger decrease in deposits in 2008 than in 2007 and a decline in securities sold under agreements to repurchase in 2008, in contrast with an increase experienced in 2007.

The current financial crisis and its impact on liquidity has been a source of concern for banks. The Bank's primary sources of liquidity are deposits from its local markets, maturities of securities, normal loan repayments, and income retention. Secondary sources of liquidity available to the Bank are certificates of deposit from national markets, federal funds lines of credit from correspondent banks, and short- and longer-term advances available from the Federal Home Loan Bank of Indianapolis. These sources are supplemented by a secured line of credit from the Federal Reserve Bank. The secured line of credit can be used for either normal operating needs or for a short-term liquidity source in special circumstances. The Bank maintains a Contingency Funding Plan that provides action steps if changes in liquidity occur.

The Bank's sensitivity to changes in interest rates is monitored by the Bank's Asset/Liability Management Committee ("ALCO"). ALCO uses a simulation model to subject rate-sensitive assets and liabilities to interest rate shocks. Assets and liabilities are subjected to an immediate 300 basis point shock up and down and the effect on net income and shareholders' equity is measured. The Bank's Interest Rate Risk Policy states that changes in interest rates cannot cause net interest income to decrease more than 10% and the market value of shareholders' equity to decrease more than 20% if rates are instantaneously shocked 200 basis points upward or downward. The rate shock computation as of September 30, 2008 increased net interest income 2% if rates rose 200 basis points and decreased net interest income 9% if rates fell 200 basis points. The economic value of shareholders' equity declined 12% when rates were shocked 200 basis points upward and increased shareholders' equity 13% if rates were shocked 200 basis points downward. The impact of these interest rate shocks is within the allowable policy limits established by ALCO. ALCO will continue to monitor the effect of changes in interest rates upon the Registrant's interest margin and financial condition.

Item 4T. Controls and Procedures.

An evaluation was performed under the supervision and with the participation of the Registrant's management, including the Chief Executive Officer and Principal Financial Officer, of the effectiveness of the design and operation of the Registrant's disclosure controls and procedures. Based on and as of the time of that evaluation, the Registrant's management, including the Chief Executive Officer and Principal Financial Officer, concluded that the Registrant's disclosure controls and procedures were effective as of the end of the period covered by this report. There was no change in the Registrant's internal control over financial reporting that occurred during the three months ended September 30, 2008 that has materially affected, or that is reasonably likely to materially affect, the Registrant's internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings.

There are no material pending legal proceedings to which the Registrant or the Bank is a party to or to which any of their properties are subject, except for proceedings that arose in the ordinary course of business. In the opinion of management, pending or current legal proceedings will not have a material effect on the consolidated financial condition of the Registrant.

Item 1A. Risk Factors.

There has been no material change in the risk factors reported in Item 1A of the Registrant's Annual Report on Form 10-K for the year ended December 31, 2007.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

On July 24, 2008, the Registrant issued 1,504 shares of common stock, without par value, to the directors of the Registrant pursuant to the Directors' Stock Purchase Plan for an aggregate cash price of \$16,000. The Registrant relied on the exemption contained in Section 4(6) of the Securities Act of 1933 in connection with these sales.

ISSUER PURCHASES OF EQUITY SECURITIES

There were no purchases of equity securities by the Registrant in the third quarter of 2008. As of September 30, 2008, there are 135,668 shares remaining that may yet be purchased under approved plans or programs. The repurchase plan was adopted and announced on July 21, 2004. There is no stated expiration date. The plan authorized the repurchase of up to 50,000 shares. The Registrant's Board of Directors authorized an additional repurchase plan on July 26, 2007. There is no stated expiration date and this plan authorized ChoiceOne to repurchase an additional 100,000 shares.

Item 3. Defaults Upon Senior Securities.

None.

Item 4. Submission of Matters to a Vote of Security Holders.

None.

Item 5. Other Information.

None.

Item 6. Exhibits

The following exhibits are filed or incorporated by reference as part of this report:

<u>Exhibit Number</u>	<u>Document</u>
3.1	Amended and Restated Articles of Incorporation of the Registrant. Previously filed as an exhibit to the Registrant's Form 10-Q Quarterly Report for the quarter ended June 30, 2008. Here incorporated by reference.
3.2	Bylaws of the Registrant as currently in effect and any amendments thereto. Previously filed as an exhibit to the Registrant's Form 10-K Annual Report for the year ended December 31, 2003. Here incorporated by reference.
