General Information

Edgar Filing: SOUTHERN CO - Form PRE 14A

- Q: How do I give voting instructions?
- A: You may attend the meeting and give instructions in person or by the Internet, by telephone, or by mail. Instructions are on the proxy form. The Proxies, named on the enclosed proxy form, will vote all properly executed proxies that are delivered pursuant to this solicitation and not subsequently revoked in accordance with the instructions given by you.
- Q: Can I change my vote?
- A: Yes, you may revoke your proxy by submitting a subsequent proxy or by written request received by the Company's secretary before the meeting.
- Q: Who can vote?
- A: All stockholders of record on the record date of March 31, 2003. On that date, there were _____ shares of Southern Company common stock outstanding and entitled to vote.
- Q: How much does each share count?
- A: Each share counts as one vote, except votes for directors may be cumulative. Abstentions that are marked on the proxy form are included for the purpose of determining a quorum, but shares that a broker fails to vote are not counted toward a quorum. Neither is counted for or against the matters being considered.
- Q: What does it mean if I get more than one proxy form?
- A: You will receive a proxy form for each account that you have. Please vote proxies for all accounts to ensure that all your shares are voted. If you wish to consolidate multiple accounts, please contact Stockholder Services at (800) 554-7626.
- Q: Can the Company's Proxy Statement and Annual Report be accessed from the Internet?
- A: Stockholders may view the Proxy Statement and Annual Report on the Internet instead of receiving them by U.S. mail, each year. This choice will save the Company money by reducing printing and postage costs, and is friendlier to our environment. If you choose to access future Proxy Statements and Annual Reports online, you will continue to receive a proxy form in the mail. Future proxy forms will contain the website address and other necessary information to view the proxy materials and to submit your vote. Whether you receive your proxy materials in the mail or view them on the Internet, you will continue to have the option to vote on the Internet, by telephone, by mail, or in person at the Annual Meeting. If you wish to take advantage of this option, you may make this election when voting your proxy. If you vote on the Internet, simply respond to the question when prompted. If you vote by mail, please mark the appropriate box on your proxy form. You may also consent to suppressing the mailing of future Proxy Statements and Annual Reports by marking the appropriate box on a registered account statement or dividend check stub and mailing it to Stockholder Services.
- If you elect to view the proxy materials on the Internet and then change your mind, please contact Stockholder Services at (800) 554-7626.

1

Q: What is "householding"?

A: Certain beneficial owners of the Company's common stock, sharing a single address, may receive only one copy of the Proxy Statement and Annual Report unless the broker, bank, or nominee has received contrary instructions from any beneficial owner at that address. This practice - known as householding - is designed to reduce printing and mailing costs. If a beneficial owner does not wish to participate in householding, this year or in the future, he or she may contact Stockholder Services at (800) 554-7626 or at 270 Peachtree Street NW, Atlanta, Georgia 30303 and ask to receive a Proxy Statement or Annual Report. As noted earlier, beneficial owners may view the Proxy Statement and Annual Report on the Internet.

Q: When are stockholder proposals due for the 2004 Annual Meeting of Stockholders?

A: The deadline for the receipt of stockholder proposals to be considered for inclusion in the Company's proxy materials is December 10, 2003. They must be submitted in writing to Tommy Chisholm, Corporate Secretary, Bin 912, Southern Company, 270 Peachtree Street NW, Atlanta, Georgia 30303. Additionally, the proxy solicited by the Board of Directors for next year's meeting will confer discretionary authority to vote on any stockholder proposal presented at that meeting that is not included in the Company's proxy materials unless the Company is provided written notice of such proposal no later than March 2, 2004.

Q: Who pays the expense of soliciting proxies?

A: The Company pays the cost of soliciting proxies. The officers or other employees of the Company or its subsidiaries may solicit proxies to have a larger representation at the meeting.

The Company's 2002 Annual Report to the Securities and Exchange Commission on Form 10-K will be provided without charge upon written request to Tommy Chisholm, Corporate Secretary, Bin 912, Southern Company, 270 Peachtree Street NW, Atlanta, Georgia 30303.

By-Laws Amendments

ITEM NO. 2. -- RATIFICATION OF BY-LAWS AMENDMENTS PERMITTING BOOK-ENTRY SHARES

To gain efficiencies in the issuance and trading of securities, the New York Stock Exchange modified its listing criteria to permit listed companies to issue and directly register securities in electronic book-entry form (uncertificated) through the Direct Registration System ("DRS"), as administered by the Depository Trust Company. DRS allows stockholders to hold their securities in electronic book-entry form directly on the Company's books without having to take possession of a physical stock certificate.

Currently nearly 400 companies permit their stockholders to hold securities in electronic book-entry form. Benefits include greater flexibility in the manner that the companies' securities are held, convenience of not having to hold and store physical certificates and the ability to electronically transfer securities.

On February 17, 2003, the Board amended the by-laws as indicated below and as provided in detail in Appendix "A" to permit Southern securities to be issued and registered in book-entry form. The by-law changes do not affect the right of a stockholder to request or hold physical certificates and do not affect participation in the Company's direct stock purchase plan.

The by-law changes are as follows:

Section 14 under the "DIRECTOR." heading was amended removing the requirement that an original or a duplicate stock ledger be maintained in the state of Delaware; Section 31 entitled "POWERS AND DUTIES OF THE SECRETARY." was amended removing the requirement that the Secretary affix the seal of the Corporation to all certificates; Section 34 entitled "TRANSFER AGENT AND REGISTRAR." was amended allowing the Board of Directors to require Transfer Agents, Transfer Clerks, and Registrars to sign written notices or statements relative to uncertificated stock; Section 35 entitled "STOCK LEDGER." requiring that a stock ledger be open for examination at the principal office or place of business of the Corporation in the State of Delaware was deleted; Section 36 entitled "STOCK LEDGER AND CERTIFICATES OF STOCK." was deleted and a new Section 35 entitled "CERTIFICATES FOR SHARES." was added providing for representation of shares of the Corporation in uncertificated form as well as in certificated form; Section 37 entitled "TRANSFER OF STOCK." was renumbered as Section 36 and amended authorizing shares presented for transfer to be transferred in uncertificated form as well as certificated form; Sections 38 and 39 of the by-laws were renumbered as Section 37 and 38 respectively; Section 40 entitled "LOST, STOLEN OR DESTROYED CERTIFICATES." was renumbered as Section 39 and amended to authorize the issuance of new certificate(s) or uncertificated shares to replace lost, stolen, or destroyed certificates upon the making of an affidavit and authorizing the Board of Directors, in its discretion, to require that a bond of indemnity be given in favor of the Corporation as a condition for replacement of lost, stolen, or destroyed certificates; and Sections 41 through 47 of the by-laws were renumbered as Sections 40 through 46 respectively.

A complete text of the amendments is set forth in Appendix A.

These amendments are now being submitted to the Company's stockholders for their ratification and approval, as required by the by-laws.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE "FOR" PROPOSAL NO. 2.

Stockholder Proposal on Environmental Report

ITEM NO. 3 STOCKHOLDER PROPOSAL ON ENVIRONMENTAL REPORT

The Company has been advised that The Sisters of Charity of Saint Elizabeth, P. O. Box 476, Convent Station, New Jersey 07961, holder of 100 shares of common stock; United Church Foundation, 475 Riverside Drive, Suite 1020, New York, New York 10115, holder of 23,400 shares of common stock; Sinsinawa Dominicans, 1059 East Hyde Park Boulevard, Apartment 2, Chicago, Illinois 60615, holder of 90 shares of common stock; and Sisters of St. Dominic of Caldwell New Jersey, 52 Old Swartswood Station Road, Newton, New Jersey, holder of 100 shares of common stock, propose to submit the following resolution at the 2003 Annual Meeting of Stockholders.

"WHEREAS:

"In 2001 The Intergovernmental Panel on Climate Change concluded that `there is new and stronger evidence that most of the warming observed over the last 50 years is attributable to human activities.'

"In 2001 the National Academy of Sciences stated that the `degree of confidence in the IPCC assessment is higher today than it was 10, or even 5 years ago... there is general agreement that the observed warming is real and particularly strong within the past 20 years.'

"The United States government's "Climate Action Report - 2002," concluded that global climate change may harm the country. The report highlights risks to coastal communities in the Southeast due to sea level rise, water shortages throughout the West, and increases in the heat index and frequency of heat waves.

"In July 2002, eleven Attorneys General wrote President Bush, outlining their concern over the U. S. Climate Action Report's failure to recommend mandatory reductions of greenhouse gas emissions. They declared that States are being forced to fill the federal regulatory void through state-by-state regulation and litigation, increasing the ultimate costs of addressing climate change. They urged a reconsideration of his regulatory position, and adoption of a `comprehensive policy that will protect both our citizens and our economy.'

"U.S. power plants are responsible for about two-thirds of the country's sulfur dioxide emissions, one-quarter of its nitrogen oxides emissions, one-third of its mercury emissions, approximately 40 percent of its carbon dioxide emissions, and 10 percent of global carbon dioxide emissions.

"Scientific studies show that air pollution from U.S. power plants causes tens of thousands of premature deaths and hospitalizations, hundreds of thousands of asthma attacks, and several million lost workdays nationwide every year from pollution-related ailments.

"Standards for carbon dioxide emissions and other air pollutants are emerging across multiple fronts. Ninety-six countries have ratified the Kyoto Protocol, requiring carbon dioxide reductions. Massachusetts and New Hampshire have enacted legislation capping power plants emissions of carbon dioxide and other air pollutants. In June 2002 the Senate Environment and Public Works Committee passed a bill seeking to cap emissions from the generation of electric and thermal energy.

Edgar Filing: SOUTHERN CO - Form PRE 14A

"We believe that taking early action on reducing emissions and preparing for standards could better position companies over their peers, including being first to market with new high-efficiency and low-emission technologies. Changing consumer preferences, particularly those relating to clean energy, should also be considered.

"Inaction and opposition to emissions control efforts could expose companies to reputation and brand damage, and regulatory and litigation risk.

"RESOLVED: That the Board of Directors report (at reasonable cost and omitting proprietary information) by August 2003 to shareholders on (a) the economic

13

risks associated with the Company's past, present, and future emissions of carbon dioxide, sulfur dioxide, nitrogen oxide and mercury emissions, and the public stance of the company regarding efforts to reduce these emissions and (b) the economic benefits of committing to a substantial reduction of those emissions related to its current business activities (i.e., potential improvement in competitiveness and profitability)."

THE BOARD OF DIRECTORS RECOMMENDS A VOTE "AGAINST" ITEM NO. 3 FOR THE FOLLOWING REASONS:

The Company is committed to complying fully with all environmental laws and regulations as well as maintaining our commitment to environmental stewardship in such a way that appropriately considers our customers and stockholders.

The proposal requests a report to our shareholders on the "economic risks associated with the Company's past, present, and future emissions." The Company currently provides details regarding its risk factors including historic and anticipated environmental costs and known future contingencies. This information is included in the Company's Annual Report on Form 10-K for the year ended December 31, 2002 ("Form 10-K"). The Form 10-K is available on the Company's website and the website of the Securities and Exchange Commission and may be obtained from the Company. (See page ___ of this Proxy Statement for information on requesting a copy of the Form 10-K from the Company.)

Details on the Company's risk factors, including historic and anticipated environmental costs and known future contingencies, are also included in the Annual Report to stockholders in the Management's Discussion and Analysis of Results of Operations and Financial Condition section and in the Notes to Financial Statements.

In addition, the Company's environmental commitment and achievements are described in our Environmental Progress Report. This report is available for viewing and downloading on the Company's web site and will be sent to stockholders or others upon request.

The Company opposes this proposal because the information the Company would report is largely duplicative of information already provided. We also believe the detailed information requested on future costs and risks would require knowledge of future governmental or other legal action and is too speculative to report and quantify as requested by the proposal, beyond what is discussed in the reports noted above. We believe that it is in the best interests of our stockholders that the Company not be required to incur the additional expense of producing and distributing such a report.

The vote needed to pass the proposed stockholders resolution is a majority of the shares represented at the meeting and entitled to vote.

Edgar Filing: SOUTHERN CO - Form PRE 14A

THE BOARD OF DIRECTORS RECOMMENDS A VOTE "AGAINST" ITEM NO. 3.

Audit Committee Report

The Audit Committee (the "Committee") oversees the Company's financial reporting process on behalf of the Board of Directors. Management has the primary responsibility for the financial statements and the reporting process including the systems of internal controls. In fulfilling its oversight responsibilities, the Committee reviewed the audited consolidated financial statements of the Company and its subsidiaries in the Annual Report to stockholders with management. The Committee's review process included discussions of the quality, not just the acceptability, of the accounting principles, the reasonableness of significant judgments, and the clarity of disclosures in the financial statements.

The independent auditors are responsible for expressing an opinion on the conformity of those audited financial statements with accounting principles generally accepted in the United States. The Committee reviewed with the independent auditors their judgments as to the quality, not just the acceptability, of the Company's accounting principles and such other matters as are required to be discussed with the Committee under generally accepted auditing standards. In addition, the Committee has discussed with the independent auditors their independence from management and the Company including the matters in the written disclosures required by Independence Standards Board No. 1, "Independence Discussions with Audit Committees." The Committee has also considered whether the independent auditors' provision of non-audit services to the Company is compatible with maintaining their independence.

The Committee discussed the overall scopes and plans with the Company's internal and independent auditors for their respective audits. The Committee meets with the internal and independent auditors with and without management present, to discuss the results of their audits, their evaluations of the Company's internal controls, and the overall quality of the Company's financial reporting. The Committee held 14 meetings during 2002.

In reliance on the reviews and discussions referred to above, the Committee recommended to the Board of Directors (and the Board approved) that the audited consolidated financial statements be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2002 and filed with the Securities and Exchange Commission. The Committee also reappointed Deloitte & Touche LLP as the Company's independent auditors for 2003.

Dorrit J. Bern
Donald M. James

The Audit Committee has adopted a Policy on Engagement of the Independent Auditor for Audit and Non-Audit Services (see Appendix C) that includes requirements for the Audit Committee to pre-approve audit and non-audit services provided by Deloitte & Touche LLP.

15

CHANGE IN PRINCIPAL PUBLIC ACCOUNTING FIRM

On March 28, 2002, the Board of Directors of the Company, upon recommendation of the Committee, decided not to engage Arthur Andersen LLP ("Arthur Andersen") as the Company's principal public accountants and engaged Deloitte & Touche LLP ("Deloitte & Touche") to serve as the Company's principal public accountants for fiscal year, 2002.

Arthur Andersen's reports on the consolidated financial statements of the Company and its subsidiaries for the two fiscal years ended December 31, 2001 did not contain any adverse opinion or disclaimer of opinion, nor were they qualified or modified as to uncertainty, audit scope, or accounting principles. Such reports have not been re-issued in connection with the Company's financial statements included in the Annual Report on Form10-K for the year ended December 31, 2002.

During the Company's two fiscal years ended December 31, 2001, and the subsequent interim period through March 28, 2002:

- o there were no disagreements between the Company and Arthur Andersen on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure, which disagreements, if not resolved to Arthur Andersen's satisfaction, would have caused them to make reference to the subject matter of the disagreement in connection with their reports;
- o there were no reportable events as described in Item 304(a)(1)(v) of Regulation S-K; and
- o the Company did not consult Deloitte & Touche with respect to the application of accounting principles to a specified transaction, either completed or proposed, or the type of audit opinion that might be rendered on the Company's consolidated financial statements, or any other matters or reportable events as set forth in Items 304(a)(2)(i) and (ii) of Regulation S-K.

Representatives from Deloitte & Touche will be present at the Annual Meeting of Stockholders and will be given the opportunity to make a statement, if they desire, and to respond to questions.

Compensation & Management Succession Committee Report

What is the executive compensation philosophy?

We have established an executive compensation program that is competitive and is tied to the Company's short-and long-term performance. With the objective of maximizing stockholder value over time, our program aligns the interests of our executives and stockholders.

TOTAL EXECUTIVE COMPENSATION

How is total executive compensation established?

We retain an independent executive compensation consultant who provides information on total executive compensation paid at other large companies in the electric and gas utility industries. Seventeen of these companies are included in the 27 companies that comprise the S&P Electric Utility Index - the peer group used in the five-year performance graph. Based on the market data, total executive compensation targets are set at an appropriate size-adjusted level. This means that for target level performance, our program is designed to pay executives an amount that is at or about the median of the market. Total executive compensation is paid through an appropriate mix of both fixed and performance-based (incentive) compensation. Because our program focuses on incentive compensation, actual total compensation paid can be above or below the targets based on actual corporate performance.

What are the components of total executive compensation?

- o Base pay (salary);
- o Short-term incentives (annual performance bonuses); and
- o Long-term incentives.

These are the primary components of our executive compensation program. The Company does provide certain perquisites that we review periodically to determine if they are reasonable and appropriate. The primary perquisites provided by the Company are financial planning services, club memberships (for business use), and home security.

BASE PAY

A range for base pay is determined for each executive, including Mr. Franklin, by comparing the base pay at the appropriate peer group of companies described previously. Base pay is set at a level that is at or below the size-adjusted median paid at those companies because of our emphasis on incentive compensation in our executive compensation program.

ANNUAL PERFORMANCE BONUSES

Annual bonuses are paid through the Omnibus Incentive Compensation Plan. All named executives participated in this plan in 2002.

Performance Goals

Maximum annual performance bonus levels are based on a percentage of net income from operations. In addition, the annual performance bonuses are reviewed in comparison to the attainment of other corporate performance and short-term business unit goals and individual goals. All performance goals were set at the beginning of the year.

Edgar Filing: SOUTHERN CO - Form PRE 14A

For 2002, the corporate performance goals included specific targets for:

17

- o Company earnings-- earnings per share ("EPS") and
- o Subsidiary companies' net income and return on equity ("ROE")

We believe that accomplishing the corporate goals is essential for the Company's continued success and sustained financial performance. A target performance level is set for each corporate performance goal. Performance above or below the targets results in proportionately higher or lower bonus payments. The bonus amount is then adjusted, up or down, based on the degree of achievement of the short-term business unit goals related to capital expenditures, cash flow, customer service, plant availability, and diversity; and, also, individual goals.

A target percentage of base pay is established for each executive officer based on his or her position level, for target-level performance. Annual performance bonuses based on the achievement of the corporate performance goals, as adjusted for the short-term business unit goals and individual performance, may range from 0 percent of the target to 240 percent.

No bonuses are paid if performance is below a threshold level or if a minimum earnings level is not reached. Also, no bonuses are paid if the Company's current earnings are not sufficient to fund the common stock dividend at the same level as the prior year. We also capped the maximum amount for the annual performance bonus for each named executive officer at 0.6 percent of net income.

Annual Bonus Payments

Performance met or exceeded the target levels in all areas in 2002, resulting in bonuses that exceeded the target levels.

Mr. Franklin's annual performance bonus under the Plan for target-level performance was 100 percent of his base pay. His bonus paid for 2002 performance was based entirely on the degree of achievement of the Company's EPS goal as adjusted for achievement of the short-term business unit goals, and resulted in a bonus that exceeded the target.

The target percentage of base pay for the other named executive officers ranged from 60 to 75 percent and the resulting payout exceeded the executives' respective targets.

LONG-TERM INCENTIVES

We base a significant portion of our total compensation program on long-term incentives including Company stock options and performance dividend equivalents.

Stock Options

Executives are granted options with ten-year terms to purchase the Company's common stock at the market price on the date of the grant under the terms of the Omnibus Incentive Compensation Plan. The estimated annualized value represented approximately 48 percent of Mr. Franklin's total target compensation, and 24 to 27 percent for the other named executives. The size of prior grants was not considered in determining the size of the grants made in 2002. These options vest over a three-year period.

Performance Dividends

Executives also are paid performance-based dividend equivalents on most stock options held at the end of the year. Dividend equivalents can range from 25 percent of the common stock dividend paid during the year if total shareholder return over a four-year period, compared to a group of other utility companies, is at the 30th percentile to 100 percent of the dividend paid if it reaches the 90th percentile. For eligible stock options held on December 31, 2002, all executives received a payout of \$1.355 per option for maximum performance under the Omnibus Incentive Compensation Plan.

18

POLICY ON INCOME TAX DEDUCTIBILITY OF EXECUTIVE COMPENSATION

Section 162(m) of the Internal Revenue Code limits the deductibility of certain executives' compensation that exceeds \$1 million per year unless the compensation is paid under a performance-based plan as defined in the Code and that has been approved by stockholders. The Company has obtained stockholder approval of the Omnibus Incentive Compensation Plan. However, because our policy is to maximize long-term stockholder value, tax deductibility is only one factor considered in setting compensation.

SUMMARY

We believe that the policies and programs described in this report link pay and performance and serve the best interest of stockholders. We frequently review the various pay plans and policies and modify them as we deem necessary to continue to attract, retain, and motivate talented executives.

Five-Year Performance Graph

Edgar Filing: SOUTHERN CO - Form PRE 14A

This performance graph compares the cumulative total shareholder return on the Company's common stock with the Standard & Poor's Electric Utility Index and the Standard & Poor's 500 Index for the past five years. The graph assumes that \$100 was invested on December 31, 1997, in the Company's common stock and each of the above indices, and that all dividends are reinvested. The distribution of shares of Mirant Corporation stock to Company stockholders effective April 2, 2001, is treated as a special dividend for purposes of calculating shareholder return. The shareholder return shown below for the five-year historical period may not be indicative of future performance.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) Beneficial Ownership Reporting Compliance: No reporting person failed to file, on a timely basis, the reports required by Section 16(a) except Mr. McCrary who inadvertently reported two transactions on one Form 4, late.

LEGAL PROCEEDINGS

In November 2002, the Company and certain current and former directors of Mirant Corporation ("Mirant"), including Company director H. Allen Franklin, were added as defendants in a class action lawsuit (In re: Mirant Corporation Securities Litigation, United State District Court for the North District of Georgia) originally filed by certain Mirant shareholders against Mirant and certain Mirant officers. The claims against Mirant and the Mirant officers are based on allegations related to alleged improper energy trading and marketing activities

Edgar Filing: SOUTHERN CO - Form PRE 14A

in the California energy market, alleged false statements and omissions in Mirant's prospectus for its initial public offering and in subsequent public statements by Mirant, and accounting-related issues previously disclosed by Mirant. The claims against the Company are based on allegations that the Company was a control person, as defined in Section 20(a) of the Securities Exchange Act of 1934 and Section 15 of the Securities Act of 1933, as to Mirant, based on the Company's majority ownership of Mirant prior to the April 2, 2001 Mirant spin-off and allegations of knowledge of and involvement in Mirant's activities thereafter. The claims against Mr. Franklin and the other current and former Mirant directors are based on alleged misstatements and omissions in Mirant's initial public offering prospectus. The Company does not believe that Mr. Franklin's interest in this litigation is adverse to the Company.

A motion seeking to dismiss all claims against the Company and Mr. Franklin has been filed. However, the final outcome of this matter cannot now be determined.

For more information concerning this litigation, please see the Company's financial statements, including particularly notes 3 and 11, and Management's Discussion and Analysis of Results of Operation and Financial Condition which are included in the Company's Annual Report.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

During 2002, Mr. Jeffrey G. Franklin, son of H. Allen Franklin, a director and executive officer of the Company, and Ms. Iris Franklin, daughter-in-law of H. Allen Franklin, were employed by subsidiaries of the Company. Mr. Franklin was employed by Southern Company Services Inc. as a Project Manager and received compensation in 2002 of \$133,918. Ms. Franklin was employed by Alabama Power Company as a Market Specialist and received compensation in 2002 of \$63,592.

Executive Compensation

EMPLOYMENT, CHANGE IN CONTROL, AND SEPARATION AGREEMENTS

The Company has Change in Control Agreements with each of its executive officers shown on the Summary Compensation Table on page _____. If an executive is involuntarily terminated, other than for cause, within two years following a change in control of the Company, the Agreements provide for:

- o lump sum payment of three times annual compensation,
- o up to five years' coverage under group health and life insurance plans,
- o immediate vesting of all stock options previously granted,
- o payment of any accrued long-term and short-term bonuses and dividend equivalents, and
- o payment of any excise tax liability incurred as a result of payments made under the Agreement.

A change in control is defined under the Agreements as:

Edgar Filing: SOUTHERN CO - Form PRE 14A

- o acquisition of at least 20 percent of the Company's stock,
- o a change in the majority of the members of the Company's Board of Directors,
- o a merger or other business combination that results in the Company's stockholders immediately before the merger owning less than 65 percent of the voting power after the merger, or
- o a sale of substantially all the assets of the Company.

If a change in control affects only a subsidiary of the Company, these payments would only be made to executives of the affected subsidiary who are involuntarily terminated as a result of that change in control.

The Company's Omnibus Incentive Compensation Plan provides for pro-rata payments at not less than target-level performance if a change in control occurs and the plan is not continued or replaced with a comparable plan or plans.

On February 23, 1998, the Company and Southern Nuclear Operating Company entered into a Deferred Compensation Agreement with Mr. Hairston which provides that on the fifth anniversary of the Agreement, if still employed by the Company or one of its subsidiaries, Mr. Hairston would receive the cash value of the number of shares of common stock that could have been purchased for \$250,000 on February 23, 1998, and on which dividends were reinvested throughout the five-year period. If certain performance goals are met, Mr. Hairston also will receive the estimated income tax expense on the compensation. This Agreement expired by its terms on February 23, 2003, and the cash value of the shares on that date (\$601,058) was paid to Mr. Hairston along with the estimated income tax expense on the compensation (464,647) for a total payment of \$1,065,705.

The restricted stock units vested on April 2, 2001 and the value was transferred to the Company's Deferred Compensation Plan. The only named executive officer holding restricted stock units or restricted stock as of December 31, 2002, was Mr. Hairston. He received a grant of restricted stock units on February 23, 1998, valued at \$250,000 on that date. Dividends are reinvested and the number of units was adjusted after the spin off of Mirant Corporation under the anti-dilution provisions of the agreement with Mr. Hairston. The units vest on his continued employment and the value is payable in cash. (See page for a description of the agreement with Mr. Hairston.) On December 31, 2002, Mr. Hairston held 21,246.29 units valued at \$601,058.

For eligible stock options held on December 31, 2000, 2001, and 2002 all named executives received a payout of \$.90, \$1.34, and \$1.355 per option, respectively. For Mr. Franklin this amount also includes a payout of \$201,760 under a former long-term incentive compensation plan (the Executive Productivity Improvement Plan) for the four-year performance period ended December 31, 2000.

This table shows the estimated annual pension benefits payable at normal retirement age under the Company's qualified Pension Plan, as well as non-qualified supplemental benefits, based on the stated compensation and years of service with the Company's subsidiaries. Compensation for pension purposes is limited to the average of the highest three of the final 10 years' compensation. Compensation is base salary plus the excess of annual incentive compensation over 15 percent of base salary. These compensation components are reported under the columns titled "Salary" and "Bonus" in the Summary Compensation Table on

page .

As of December 31, 2002, the applicable compensation levels and accredited service for determination of pension benefits would have been:

W. G. Hairston, III	770,739	33
G. E. Klappa	738,137	27

D. M. Ratcliffe	1,204,867	30

The amounts shown in the table were calculated according to the final average pay formula and are based on a single life annuity without reduction for joint and survivor annuities or computation of Social Security offset that would apply in most cases.
