*Preliminary Q4 FY03 Financial Results*

## Edgar Filing: SILICON GRAPHICS INC - Form 8-K

The Company announced today its preliminary results for the fourth quarter ended June 27, 2003. The Company currently anticipates revenue to be approximately \$238 to \$242 million. These results are within the guidance range of \$225 to \$245 million provided by the Company in its April 21, 2003 conference call.

Based on this preliminary data, the Company currently expects to report an operating loss of approximately \$38 to \$42 million, including restructuring and non-cash impairment charges of approximately \$11 to \$13 million. Without these charges, the non-GAAP operating loss is expected to be approximately \$28 to \$32 million, within the range of the Company's guidance. The Company is presenting this non-GAAP information in order to facilitate comparisons with prior periods. Unrestricted cash, cash equivalents and marketable investments at June 27, 2003 are expected to be approximately \$140 million.

These estimated results are based on preliminary information and management assumptions. A copy of the press release announcing the Company's preliminary financial results is included as an exhibit to and incorporated by reference in this Current Report on Form 8-K.

### *Lease Restructuring*

The Company also announced today that it has entered into an agreement to sublease its Amphitheatre Technology Center campus in Mountain View, CA to Google Inc. SGI will relocate its corporate headquarters to the nearby Crittenden Technology center campus, where it will lease additional space. The lease transactions are expected to result in a net reduction in SGI's facilities occupancy costs of \$14 to \$17 million per year beginning in July 2004. The transactions are subject to normal closing conditions, including the consent of the landlords' lenders.

SGI will vacate the Amphitheatre campus in stages beginning this month and complete the relocation by August 2004. During the transition period, SGI expects to make a \$1 to \$3 million net investment in costs associated with the move, and will recognize additional non-cash charges currently expected to total approximately \$18 to \$20 million. In subsequent years, SGI will record additional non-cash charges currently expected to be approximately \$3 to \$8 million per year over the term of the sublease. On a cash basis, the transactions are expected to generate significant annual net savings once the transition to the Crittenden campus is completed.
