DEAR STOCKHOLDERS OF VOICESTREAM AND POWERTEL:

Set forth below is a description of some recent developments concerning Deutsche Telekom AG that we have previously disclosed and that we think you should consider in connection with the special meetings of stockholders of VoiceStream Wireless Corporation and Powertel, Inc. that are scheduled for March 13, 2001.

1. On February 21, 2001, Deutsche Telekom announced that it had recently decided to pursue a new strategy to more aggressively dispose of a significant part of its real estate portfolio. As part of this process, Deutsche Telekom is engaging in a review of the value of its real estate portfolio and has decided to take a special write-down for its land values in an amount of Euro 2.0 billion before taxes in the fourth quarter of 2000, compared to a total real estate portfolio book value of Euro 17.2 billion. On an after tax basis this led to an adjustment of the company's preliminary announced profit of Euro 7.4 billion to Euro 5.9 billion for the full year 2000. This write-down had no cash effect or any effect on the continuing business operations. The adjustment concerns Deutsche Telekom's results under German accounting principles; the treatment of the adjustment under U.S. accounting principles remains to be determined.
2. As previously reported, the Bonn Public Prosecutor has been conducting an investigation into allegations in the press and elsewhere asserting that the book values recorded by Deutsche Telekom for its real property portfolio have been improperly established and maintained under applicable accounting principles. Deutsche Telekom disputes these allegations. Deutsche Telekom nonetheless has been cooperating fully in the investigation and is interested in seeing it expeditiously resolved. Deutsche Telekom expects, but cannot be sure, that the adjustment described in the preceding paragraph will be helpful in resolving the investigation. Deutsche Telekom cannot offer assurances, however, as to the timing or outcome of the prosecutor's investigations. Deutsche Telekom believes that the investigation is being conducted with regard to certain individuals and is not directed against Deutsche Telekom itself. Adverse consequences for Deutsche Telekom could nonetheless follow if such individuals were found to have violated the law.

Very truly yours,

Dr. Karl-Gerhard Eick signature
