-

Item 8.01. Other Events

On May 16, 2011, Diamond Offshore Drilling Limited, a subsidiary of Diamond Offshore Drilling, Inc. (the Company), exercised its option with Hyundai Heavy Industries Co., Ltd. to build a third ultra-deepwater drillship, with delivery scheduled for the second quarter of 2014. Total cost, including commissioning, spares and project management, is estimated to be approximately \$610 million and is anticipated to be paid out of cash flow and available funds. Like its previously announced sister drillships, the new unit will be dynamically-positioned, have a seven ram blow-out preventer, dual activity capability, five mud pumps and a maximum hook-load capacity of 1,250 tons. The unit will be designed for operations in up to 12,000 feet of water. On May 19, 2011, the Company issued a press release announcing the drillship order. Filed herewith is a copy of such press release.

Statements in this report that contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, include, but are not limited to, statements concerning future costs, sources of funds, timing of delivery and future returns. Such statements are inherently subject to a variety of assumptions, risks and uncertainties that could cause actual results to differ materially from those anticipated, estimated or projected. A discussion of the risk factors that could impact these areas and the Company's overall business and financial performance can be found in the Company's reports and other documents filed with the Securities and Exchange Commission. These factors include, among others, general economic and business conditions, contract cancellation, changes in oil and natural gas prices, operating risks, casualty losses, industry fleet capacity, changes in foreign and domestic oil and gas exploration and production activity, competition, changes in foreign, political, social and economic conditions, regulatory initiatives and compliance with governmental regulations, customer preferences and various other matters, many of which are beyond the Company's control. Given these concerns, investors and analysts should not place undue reliance on forward-looking statements. Each forward-looking statement speaks only as of the date of this report. The Company expressly disclaims any obligation or undertaking to release publicly any updates or revisions to any forward-looking statement to reflect any change in the Company's expectations with regard thereto or any change in events, conditions or circumstances on which any forward-looking statement is based.

Item 9.01. Financial Statements and Exhibits

(d) Exhibits.

Exhibit number	Description
99.1	Press release dated May 19, 2011
