About The Meeting

What am I voting on?

You will be voting to elect seven Directors, each to hold office until the next Annual Meeting of Shareholders or until a successor is appointed and qualified.

Who is soliciting my Proxy?

The Company's Board of Directors is soliciting your Proxy to be used at the 2002 Annual Meeting of Shareholders. The Company will pay the entire cost of soliciting Proxies and will arrange with brokerage houses, nominees, custodians and other fiduciaries to send Proxy soliciting materials to beneficial owners of the Company's Common Stock at the Company's expense. In addition to solicitation by mail, officers and other employees of the Company may solicit Proxies personally, by telephone or by fax.

Who is entitled to vote?

You may vote if you owned Common Stock of the Company as of the close of business on March 8, 2002. Each share of Common Stock is entitled to one vote on any matter voted on at the Annual Meeting. As of March 8, 2002 we had 48,561,208 shares of Common Stock outstanding.

How do I vote?

You can vote in one of four ways:

By Internet at <http://www.voteproxy.com>. We encourage you to vote this way.

By toll-free telephone at 800-PROXIES.

By completing and mailing your proxy card.

By ballot at the Annual Meeting.

May I change my mind after I vote?

You may change your vote at any time before the polls close at the meeting by:

Delivering a written notice of revocation, with a later date than the Proxy, to Champion's Secretary at or before the meeting.

Signing another Proxy with a later date and returning it to the address on the proxy card before the meeting.

Voting again by telephone or Internet before midnight EDT on April 29, 2002.

Voting in person at the meeting.

What if I return my proxy card but do not provide voting instructions?

Proxies that are signed and returned but do not contain voting instructions will be voted by the persons named on the enclosed proxy card FOR the election of the nominee Directors.

How do I vote my shares in the Champion Enterprises, Inc. Savings Plan?

Shares credited to your Champion Enterprises, Inc. Savings Plan are on your proxy card. You may vote these shares using the Internet, telephone or mail as described on the card. Your Proxy will be considered to be voting instructions to the Trustee of the Savings Plan concerning shares held in your account. If you do not provide voting instructions, if the card is not signed, or if the card is not received by April 25, 2002, the shares credited to your account will be voted in the same proportion as directions received from other participants.

What does it mean if I receive more than one proxy card?

If you receive more than one proxy card, it means that you have multiple accounts with brokers and/or our transfer agent. Please vote all of these shares. We recommend that you contact your broker and/or our transfer agent to consolidate as many accounts as possible under the same name and address. Our transfer agent is American Stock Transfer and Trust Company and you may reach them by phone at 800-937-5449. Shares held by the Savings Plan cannot be consolidated with your other holdings.

Who may attend the meeting?

The Annual Meeting is open to all holders of our Common Stock. For directions to the meeting, please call Investor Relations at 248-340-7731. We look forward to having you at the meeting.

May Shareholders ask questions at the meeting?

Yes, representatives of the Company will answer Shareholder questions of general interest at the meeting.

How many votes must be present to hold the meeting?

In order for us to hold the meeting, a majority of our outstanding shares of Common Stock as of March 8, 2002 must be present in person or by Proxy. This majority is referred to as a quorum. Your shares are counted as present at the meeting if you attend the meeting and vote in person or if you properly return a Proxy using the Internet, telephone, or mail. Abstention votes and votes withheld by brokers on non-routine proposals in the absence of instructions from beneficial owners (broker non-votes) will be counted as present at the Annual Meeting to determine whether a quorum exists.

How many votes are needed to elect Directors?

The seven Director nominees receiving the highest number of For votes will be elected as Directors. This number is called a plurality. Shares not voted, whether by marking Withhold Authority on your proxy card, by broker non-votes (which are described above) or otherwise, will have no impact on the election of Directors. Unless a properly executed proxy card is marked Withhold Authority, the proxy given will be voted For each of the seven Director nominees. If a nominee is unable or declines to serve, Proxies will be voted for the balance of the nominees and for such additional persons as designated by the Board to replace such nominee. However, the Board does not anticipate that this will occur.

Can my shares be voted on matters other than those described in this Proxy?

Yes, if any other item or proposal properly comes before the meeting, the Proxies received will be voted in accordance with the discretion of the Proxy holders. The Company, however, has not received proper notice of, and is not aware of, any business to be transacted at the meeting other than as indicated in this Proxy Statement.

When are shareholder proposals due for the 2003 Annual Meeting?

To be included in the Company's Proxy Statement for the 2003 Annual Meeting of Shareholders, proposals must be received by the Company not later than November 15, 2002. Such proposals should be addressed to the Company's Secretary at the address listed below. Shareholder proposals to be presented at the 2003 Annual Meeting or any Special Meeting which are not to be included in the Company's Proxy Statement must be received by the Company not less than 60 nor more than 90 days before the meeting date or no later than 10 days after the day of the public announcement of the meeting date in accordance with procedures in the Company's Bylaws.

Compensation of Directors

Compensation:	Nonemployee Directors are compensated pursuant to the 2000 Stock Compensation Plan for Nonemployee Directors (the Directors Plan), which the Shareholders approved in 2000. The Directors Plan provides stock-based compensation to nonemployee Directors at three stages of service of the Director as described below. Nonemployee Directors do not receive any cash compensation for their services. A Director who is also an employee of the Company receives no compensation for serving as a Director other than compensation for services as an employee. All Directors are reimbursed for expenses to attend Board and Committee meetings.
Annual Stock Retainer:	Each nonemployee Director elected or reelected at an Annual Meeting receives an annual retainer of 4,800 shares of Company Common Stock (or 5,200 shares for Chairpersons of Board Committees). In lieu of receiving the stock retainer at the time of an Annual Meeting, a Director may elect to (i) defer his or her retainer until retirement, death or other termination of service from the Board, or (ii) receive an option to purchase four shares of Company Common Stock for each share that would otherwise have been received as part of the stock retainer. The option vests immediately and is exercisable for 10 years from the grant date at an exercise price equal to the fair market value of the Common Stock on the grant date. Any new nonemployee Director who is appointed by the Board prior to an Annual Meeting to fill a vacancy on the Board receives a pro-rated number of shares of Common Stock as a retainer for services during such interim term. In lieu of receiving the pro-rated stock retainer, a Director may elect the deferral or stock option alternatives available to full-term Directors as discussed above.
Option Grant Upon First Election to the Board:	Upon first being elected to the Board at an Annual Meeting, a nonemployee Director receives an option to purchase 24,000 shares of Company Common Stock if the Director purchases at least 6,000 shares of Company Common Stock in the open market. If less than the 6,000 (but at least 3,000) shares are purchased, the Director will receive a portion of the option, which is reduced by a number equal to four times the difference between 6,000 and the number of shares actually purchased. The option vests immediately but becomes exercisable at the rate of 25% of the total shares subject to the option on each of the next four Annual Meeting dates following the grant date. The option remains exercisable for 10 years from the grant date at an exercise price equal to the fair market value of the Common Stock on the grant date.

**Discretionary
10-Year Anniversary
Option Grant:**

At the Annual Meeting marking the anniversary of 10 consecutive years of service as a nonemployee Director, the Board has discretionary authority, based upon the recommendation of the Compensation and Human Resources Committee, to grant to such Director an option to purchase 24,000 shares of Company Common Stock if the Director personally owns at least 6,000 shares of Company Common Stock 60 days after such Annual Meeting. If the Director owns less than 6,000 (but at least 3,000) shares at the end of the 60-day period, the Director will receive a portion of the option, which is reduced by a number equal to four times the difference between 6,000 and the number of shares actually owned. The option vests immediately but becomes exercisable at the rate of 25% of the total shares subject to the option on each of the next four Annual Meeting dates following the grant date. The option remains exercisable for a period of 10 years from the grant date at an exercise price equal to the fair market value of the Common Stock on the grant date.

Pursuant to this provision of the Directors Plan, in 2001 Messrs. Anestis and Isakow were each granted options to purchase 24,000 shares of Company Common Stock.

Compensation and Human Resources Committee Report On Executive Compensation

The Committee: Primary function is to consider and recommend to the Board compensation programs, benefits and awards for executive officers and Directors.

Develops and monitors executive compensation policies.

Oversees administration of stock option plans and programs.

Compensation Policies: Our executive compensation policies are designed to encourage and reward efforts that create shareholder value through achievement of corporate performance goals, as follows:

annual base salaries should be competitive, but slightly below the mean of other companies of comparable size;

annual incentive-based (at-risk) compensation should provide opportunity for significant additional compensation based on improved Company performance; and

long-term incentive-based compensation should further link executive performance to shareholder interests, encourage Company stock ownership, and provide an incentive to create long-term shareholder value.

To assist in its development of compensation policies, the Committee:

uses an independent consultant from time to time to make recommendations based on its expertise in compensation arrangements for senior executive officers of general manufacturing companies with sales comparable to those of the Company; and

considers the executive compensation levels for a group of comparable manufactured housing companies consisting of Clayton Homes, Inc., Fleetwood Enterprises, Inc., and Oakwood Homes Corporation, as well as broader categories of housing companies and general companies of comparable size.

Annual Base Salaries: Executive salaries are based on level of job responsibility, individual performance, and compensation data for comparable companies obtained from consultant and market surveys. At an executive's election all or a portion of base salary can be deferred under the Company's Deferred Compensation Plan (the "Deferred Plan"), as discussed below. The objective for

executive base salaries is that they be competitive but slightly below the mean of comparable companies.

Annual Performance Incentives: Annual performance incentives are provided primarily through cash bonuses or, at an executive's election, in deferred compensation or deferred stock, as discussed below. Bonuses for executive officers are based on the achievement of performance goals, which are established by the Committee prior to each fiscal year. During 2001 performance goals related to cash flow, earnings per share, business unit performance, internal controls and consumer satisfaction.

Long-Term Performance Incentives: Long-term performance incentives are generally made through annual stock option awards granted at exercise prices equal to the fair market value of our Common Stock on the grant date. Options may be granted at an exercise price below fair market value, particularly as employment incentives. Awards are determined primarily through the use of guidelines provided by an independent consultant, which are derived from a nationwide database and present executive officer stock option award levels that are consistent with general industry practices.

During 2001 executive officers received stock option awards on January 2, 2001 and on September 4, 2001. The January 2, 2001 awards were granted as a special incentive in light of the fact that no long-term performance incentive options were granted to executive officers during 2000 and that most options granted to executive officers in 1998 and 1999 were voluntarily forfeited by executive officers during May 2000. The September 4, 2001 options were granted as the annual long-term incentive award for 2001. All options were granted at the fair market value of the Company's Common Stock on the grant date. The January 2, 2001 options vest equally (33%) over three years on each anniversary of the grant date through 2004. The September 4, 2001 options vest equally (25%) over four years on each anniversary of the grant date through 2005.

Policy On Deductibility Of Compensation: Section 162(m) of the Internal Revenue Code limits to \$1 million the corporate tax deduction for compensation paid to certain executive officers unless the compensation is based on nondiscretionary, pre-established performance goals. The Committee believes that it has taken appropriate actions to preserve the deductibility of annual incentive bonuses and stock options granted as long-term performance incentives. However, from time to time the Committee may recommend incentive awards that may not be deductible when it believes that such awards are in the best interest of the Company and its shareholders.

**Deferred
Compensation:**

Executive officers may elect to defer receipt of all or a portion of their salaries or their bonuses under the Deferred Plan. Under the Deferred Plan, amounts deferred are held by a grantor trust, are 100% vested and, at the employees' directions, are invested in various managed funds. Upon termination of employment, retirement, death, disability or a change in control of the Company, deferred amounts are paid in a lump sum or in annual installments, depending upon a previously made election.

Through participation in the Company's Corporate Officer Stock Purchase Plan (the Stock Plan), executive officers may elect to defer receipt of bonus compensation up to the lesser of 50% or \$500,000. Under the Stock Plan, amounts deferred are invested in shares of our Common Stock at a 30% discount to the closing price on the New York Stock Exchange on the purchase date. Shares purchased are held by a grantor trust established by the Company, and the Company exercises voting rights as to the shares. Upon termination of employment, retirement, death, disability or a change in control of the Company, the deferring executive receives the vested portion of his or her account balance in shares of stock in a lump sum or in annual installments, depending on a previously-made election. The stock vests based on the executive's length of service with the Company following deferral, as follows: 0% for less than one year; 25% for one year; 50% for two years; and 100% for three years.

**Chief Executive
Officer
Compensation:**

The Committee believes that the compensation of Walter R. Young, our Chairman of the Board, President and Chief Executive Officer, should be heavily influenced by Company performance. The performance incentive component of his compensation is based on achieving specified performance targets concerning cash flow, earnings per share, internal controls and consumer satisfaction. The current CEO compensation program was developed by the Committee, with the assistance of an independent consultant.

Mr. Young's annual base salary for 2001 was \$500,000. Based on meeting certain cash flow targets, thresholds of earnings per share and operating performance goals, Mr. Young earned a bonus of \$693,182 for the 2001 fiscal year. This bonus amount consisted of \$346,591 paid in cash and \$346,591 deferred under the Company's Stock Plan. As a result, shares of our Common Stock will be issued on March 29, 2002 and held pursuant to the Stock Plan.

Mr. Young received stock option awards on January 2, 2001 and September 4, 2001 to purchase 600,000 shares and 250,000 shares, respectively, of our Common Stock as previously described under Long-Term Performance Incentives.

(2) Vests equally (25%) over four years on each grant date anniversary through 2005.

The following weighted average assumptions were used in the Black-Scholes option pricing model:

Risk-free interest rate	4.53%
Expected stock price volatility	38.31%
Expected dividend yield	0%
Expected option life	4.13 years

The risk-free interest rate represents the interest rate of a U.S. Treasury security with a maturity corresponding to that of the expected option life. Expected stock price volatility is based on historical volatility and management estimates. Expected option life is the vesting period plus two years. Notwithstanding the fact that these options are non-transferable, no discount for lack of marketability was taken.

The ultimate values of the options will depend on the future market price of the Company's Common Stock, which cannot be forecasted with reasonable accuracy. The actual value, if any, an optionee will realize upon exercise of an option will depend on the excess of the market value of the Company's Common Stock over the exercise price on the date the option is exercised.
