DIGITAL SUPPORT CORPORATION NOTES TO THE FINANCIAL STATEMENTS SEPTEMBER 30, 2003

NOTE 1 - ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

DESCRIPTION OF BUSINESS

Digital Support Corporation (the "Company") was incorporated in the State of Virginia in April 1984. The Company, which is privately held, provides consulting and technical services to both the Federal government and commercial businesses. In addition, the Company resells and provides maintenance support for microcomputers and related peripherals.

USE OF ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions regarding certain types of assets, liabilities, revenues, and expenses. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

REVENUE RECOGNITION

A substantial portion of the Company's contract revenue results from contracts with agencies of the Federal government. Revenue is recognized under time and

Edgar Filing: TECHTEAM GLOBAL INC - Form 8-K/A

material contracts based upon time (at established rates) and other direct costs incurred. Revenue from the resale of microcomputers and related peripherals is recognized upon shipment. Revenue is recognized under maintenance contracts ratably over the terms of the underlying agreements. Amounts billed, but not yet earned, under these maintenance agreements are recorded as unearned revenue. Revenue recognized on contracts in excess of related billing is reflected as unbilled receivables. Losses on contracts are provided for in the period they are first determined.

INVENTORY

Inventory, which consists principally of computer hardware for resale and computer components used for repairing and replacing computer units, is accounted for using the first in, first out (FIFO) method. Inventory is stated at the lower of cost or market.

PROPERTY AND EQUIPMENT

Property and equipment is stated at cost less accumulated depreciation and amortization. Depreciation of property and equipment is computed using the straight-line method over estimated useful lives of three to five years. Amortization of leasehold improvements is computed using the straight-line method over the shorter of the estimated useful lives of the assets or the term of the related lease.

INTANGIBLE ASSET

The Company had an intangible asset that was amortized using the straight-line method over a period of five years. Amortization expense on the intangible asset was \$33,187 for the year ended September 30, 2003. The intangible asset was fully amortized as of September 30, 2003.

-8-

DIGITAL SUPPORT CORPORATION NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) SEPTEMBER 30, 2003

INCOME TAXES

Income taxes have been recorded using the liability method. The income tax provision includes Federal and state income taxes both currently payable and changes in deferred taxes due to differences between the financial reporting and tax basis of assets and liabilities. Deferred tax assets and liabilities are measured using the enacted tax rates that are expected to be in effect when the differences are expected to reverse.

NOTE 2 - PROPERTY AND EQUIPMENT

Property and equipment consists of the following as of September 30, 2003:

Office equipment	\$ 734,298
Technical equipment	608,655
Automobiles	214,912
Computer software	170,490
Leasehold improvements	159,682
Furniture and fixtures	12,143

	1,900,180

Edgar Filing: TECHTEAM GLOBAL INC - Form 8-K/A

Less: accumulated depreciation and amortization	(1,587,128)

Net property and equipment	\$ 313,052
	=====

Equipment acquired under the terms of noncancelable capital leases totaled \$573,604 at September 30, 2003. Accumulated depreciation on this equipment at September 30, 2003 was \$495,018. Total depreciation and amortization expense on property and equipment totaled \$325,501 for the year ended September 30, 2003.

NOTE 3 - NOTE PAYABLE

The note payable consists of a bank line-of-credit under which the Company may borrow up to the lesser of \$3,000,000 or 85% of eligible accounts receivable. Interest is payable at the "Wall Street Journal's" prime rate plus a percentage that varies based on the Company's debt to tangible net worth ratio (a range of 0.5% to 1.0%) (effective interest rate of 4.5% as of September 30, 2003). The line-of-credit is secured by all of the Company's assets, is guaranteed by its stockholders, and expires on January 31, 2004.

The provisions of the line-of-credit agreement require the Company to maintain certain financial covenants, including a minimum tangible net worth and a minimum ratio of current tangible assets to current liabilities. At September 30, 2003, the Company was in compliance with these covenants.

Interest expense, including interest paid to stockholders as discussed in Note 4, which approximated interest paid, totaled \$65,670 for the year ended September 30, 2003.

-9-

DIGITAL SUPPORT CORPORATION NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) SEPTEMBER 30, 2003

NOTE 4 - NOTES PAYABLE TO STOCKHOLDERS

These notes payable were subordinated to the bank line-of-credit (see Note 3) and were paid off during the year ended September 30, 2003. The notes were unsecured and accrued interest at either 14.55% or 20% per annum, with interest payments due monthly. Current income taxes	
Federal	\$ 297,000
State	56,000
Deferred income taxes	
Federal	(25,000)

Edgar Filing: TECHTEAM GLOBAL INC - Form 8-K/A

State	(5,000)

Total provision for income taxes	\$ 323,000
	=====

The reconciliation of the provision for income taxes and the amount computed by applying the United States Federal statutory income tax rate to income before income taxes is as follows:

Provision for income taxes at Federal statutory rate	\$ (287,000)
State income taxes, net of Federal income tax benefit	(33,000)
Other permanent differences (primarily meals and entertainment)	(3,000)

Total provision for income taxes	\$ (323,000)
	=====

Deferred income taxes reflect temporary differences in the recognition of revenue and expenses for tax reporting and financial statement purposes. The deferred tax asset as of September 30, 2003 results from the following temporary differences:

Depreciation and amortization	\$ 63,230
Amortization of intangible asset	(17,448)

DIGITAL SUPPORT CORPORATION NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) SEPTEMBER 30, 2003

NOTE 6 - RETIREMENT PLAN

The Company maintains a 401(k) and profit sharing plan (the "Plan") for all employees over 21 years of age who have completed 90 days of service. Under the Plan, employees may make voluntary contributions up to the maximum amount allowable by law. The Company matches the first 3% of each employee's contributed eligible wages. Company contributions to the Plan vest ratably over six years, beginning with the second year of participation.

The Company may make additional contributions to the Plan at management's discretion. Such additional contributions may be in the form of an additional 401(k) match (up to an additional 3% of each employee's compensation) or as a profit sharing contribution, which would be allocated to all eligible employees based on the ratio of each eligible employee's compensation to total eligible employee compensation. The Company's total contribution to the Plan totaled \$174,134 for the year ended September 30, 2003.

Edgar Filing: TECHTEAM GLOBAL INC - Form 8-K/A

NOTE 7 - CONCENTRATIONS OF CREDIT RISK

Financial instruments that potentially subject the Company to significant concentrations of credit risk consist primarily of cash, accounts receivable, and unbilled receivables. The Company's management believes the risk of loss associated with cash is very low since cash is maintained in financial institutions. However, at times, the Company may have cash on deposit with a financial institution that exceeds the Federal insured limit. To date, accounts receivable and unbilled receivables have been derived primarily from contracts with agencies of the Federal government. Accounts receivable are generally due within 30 days and no collateral is required. The Company maintains reserves for potential credit losses and historically such losses have been within management's expectations.
