**Table of Contents****CLEAR CHANNEL COMMUNICATIONS, INC. AND SUBSIDIARIES  
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS  
(UNAUDITED)**

## Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Preparation of Interim Financial Statements

The consolidated financial statements have been prepared by Clear Channel Communications, Inc. (the Company) pursuant to the rules and regulations of the Securities and Exchange Commission (SEC) and, in the opinion of management, include all adjustments (consisting of normal recurring accruals and adjustments necessary for adoption of new accounting standards) necessary to present fairly the results of the interim periods shown. Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles in the United States have been condensed or omitted pursuant to such SEC rules and regulations. Management believes that the disclosures made are adequate to make the information presented not misleading. Due to seasonality and other factors, the results for the interim periods are not necessarily indicative of results for the full year. The financial statements contained herein should be read in conjunction with the consolidated financial statements and notes thereto included in the Company's 2004 Annual Report on Form 10-K.

The consolidated financial statements include the accounts of the Company and its subsidiaries, the majority of which are wholly-owned. Investments in companies in which the Company owns 20 percent to 50 percent of the voting common stock or otherwise exercises significant influence over operating and financial policies of the company are accounted for under the equity method. All significant intercompany transactions are eliminated in the consolidation process. Certain reclassifications have been made to the 2004 consolidated financial statements to conform to 2005 presentation.

Stock-Based Compensation

The Company accounts for its stock-based award plans in accordance with Accounting Principles Board (APB) Opinion No. 25, *Accounting for Stock Issued to Employees*, and related interpretations, under which compensation expense is recorded to the extent that the market price on the grant date of the underlying stock exceeds the exercise price. The required pro forma net income and pro forma earnings per share as if the stock-based awards had been accounted for using the provisions of Statement of Financial Accounting Standards No. 123, *Accounting for Stock-Based Compensation*, are as follows:

<i>(In thousands, except per share data)</i>	Nine Months Ended September 30,		Three Months Ended September 30,	
	2005	2004	2005	2004
Net income				
Reported	\$ 474,089	\$ 631,464	\$ 205,475	\$ 261,234
Pro forma stock compensation expense, net of tax	(18,878)	(58,213)	(2,902)	(20,628)
Pro Forma	\$ 455,211	\$ 573,251	\$ 202,573	\$ 240,606
Net income per common share				
Basic:				
Reported	\$ .86	\$ 1.04	\$ .38	\$ .45
Pro Forma	\$ .83	\$ .95	\$ .37	\$ .41
Diluted:				
Reported	\$ .86	\$ 1.04	\$ .38	\$ .44
Pro Forma	\$ .83	\$ .94	\$ .37	\$ .41

The fair value for these options was estimated at the date of grant using a Black-Scholes option-pricing model with the following weighted average assumptions for 2005 and 2004:

	2005		2004	
Risk-free interest rate	4.06%	4.20%	2.21%	4.30%
Dividend yield		2.30%	.90%	1.46%
Volatility factors		25%	42%	50%
Expected life in years		5.0 - 7.5	3.0	7.5

- 7 -

---

**Table of Contents****Recent Accounting Pronouncements**

In March 2005, the Financial Accounting Standards Board ( FASB ) issued Interpretation No. 47, *Accounting for Conditional Asset Retirement Obligations* ( FIN 47 ). FIN 47 is an interpretation of FASB Statement 143, *Accounting for Asset Retirement Obligations*, which was issued in June 2001. According to FIN 47, uncertainty about the timing and (or) method of settlement because they are conditional on a future event that may or may not be within the control of the entity should be factored into the measurement of the asset retirement obligation when sufficient information exists. FIN 47 also clarifies when an entity would have sufficient information to reasonably estimate the fair value of an asset retirement obligation. FIN 47 is effective no later than the end of fiscal years ending after December 15, 2005. Retrospective application of interim financial information is permitted, but is not required. The Company adopted FIN 47 on January 1, 2005, which did not materially impact the Company's financial position or results of operations.

In March 2005, the SEC issued Staff Accounting Bulletin No. 107 *Share-Based Payment* ( SAB 107 ). SAB 107 expresses the SEC staff's views regarding the interaction between Statement of Financial Accounting Standards No. 123(R) *Share-Based Payment* ( Statement 123(R) ) and certain SEC rules and regulations and provides the staff's views regarding the valuation of share-based payment arrangements for public companies. In particular, SAB 107 provides guidance related to share-based payment transactions with nonemployees, the transition from nonpublic to public entity status, valuation methods (including assumptions such as expected volatility and expected term), the accounting for certain redeemable financial instruments issued under share-based payment arrangements, the classification of compensation expense, non-GAAP financial measures, first time adoption of Statement 123(R) in an interim period, capitalization of compensation cost related to share-based payment arrangements, the accounting for income tax effects of share-based payment arrangements upon adoption of Statement 123(R) and the modification of employee share options prior to adoption of Statement 123(R). The Company is unable to quantify the impact of adopting SAB 107 and Statement 123(R) at this time because it will depend on levels of share-based payments granted in the future. Additionally, the Company is still evaluating the assumptions it will use upon adoption.

In April 2005, the SEC issued a press release announcing that it would provide for phased-in implementation guidance for Statement 123(R). The SEC would require that registrants that are not small business issuers adopt Statement 123(R)'s fair value method of accounting for share-based payments to employees no later than the beginning of the first fiscal year beginning after June 15, 2005. The Company intends to adopt Statement 123(R) on January 1, 2006.

In June 2005, the Emerging Issues Task Force ( EITF ) issued EITF 05-6, *Determining the Amortization Period of Leasehold Improvements* ( EITF 05-6 ). EITF 05-6 requires that assets recognized under capital leases generally be amortized in a manner consistent with the lessee's normal depreciation policy except that the amortization period is limited to the lease term (which includes renewal periods that are reasonably assured). EITF 05-6 also addresses the determination of the amortization period for leasehold improvements that are purchased subsequent to the inception of the lease. Leasehold improvements acquired in a business combination or purchased subsequent to the inception of the lease should be amortized over the lesser of the useful life of the asset or the lease term that includes reasonably assured lease renewals as determined on the date of the acquisition of the leasehold improvement. The Company adopted EITF 05-6 on July 1, 2005 which did not materially impact its financial position or results of operations.

In October 2005, the FASB issued Staff Position 13-1 ( FSP 13-1 ). FSP 13-1 requires rental costs associated with ground or building operating leases that are incurred during a construction period be recognized as rental expense. The guidance in FSP 13-1 shall be applied to the first reporting period beginning after December 15, 2005. The Company will adopt FSP 13-1 January 1, 2006 and does not anticipate adoption to materially impact its financial position or results of operations.

**Note 2: INTANGIBLE ASSETS AND GOODWILL****Definite-lived Intangibles**

The Company has definite-lived intangible assets which consist primarily of transit and street furniture contracts and other contractual rights in the outdoor segment, talent and program right contracts in the radio segment, and contracts for non-affiliated radio and television stations in the Company's media representation operations, all of which are amortized over the respective lives of the agreements. Other definite-lived intangible assets are amortized over the period of time the assets are expected to contribute directly or indirectly to the Company's future cash flows. The following table presents the gross carrying amount and accumulated amortization for each major class of

definite-lived intangible assets at September 30, 2005 and December 31, 2004:

- 8 -

---

**Table of Contents**

	September 30, 2005		December 31, 2004	
	Gross Carrying Amount	Accumulated Amortization	Gross Carrying Amount	Accumulated Amortization
<i>(In thousands)</i>				
Transit, street furniture, and other outdoor contractual rights	\$ 641,316	\$ 396,720	\$ 688,373	\$ 364,939
Talent contracts	202,161	170,818	202,161	155,647
Representation contracts	300,170	123,836	268,283	94,078
Other	193,962	114,954	197,462	111,952
Total	\$ 1,337,609	\$ 806,328	\$ 1,356,279	\$ 726,616

Total amortization expense from definite-lived intangible assets for the three and nine months ended September 30, 2005 and for the year ended December 31, 2004 was \$36.8 million, \$115.0 million and \$136.6 million, respectively. The following table presents the Company's estimate of amortization expense for each of the five succeeding fiscal years for definite-lived intangible assets:

<i>(In thousands)</i>	
2006	\$ 121,272
2007	72,921
2008	38,121
2009	30,986
2010	21,667

As acquisitions and dispositions occur in the future and as purchase price allocations are finalized, amortization expense may vary.

**Indefinite-lived Intangibles**

The Company's indefinite-lived intangible assets consist of FCC broadcast licenses and billboard permits. FCC broadcast licenses are granted to both radio and television stations for up to eight years under the Telecommunications Act of 1996. The Act requires the FCC to renew a broadcast license if: it finds that the station has served the public interest, convenience and necessity; there have been no serious violations of either the Communications Act of 1934 or the FCC's rules and regulations by the licensee; and there have been no other serious violations which taken together constitute a pattern of abuse. The licenses may be renewed indefinitely at little or no cost. The Company does not believe that the technology of wireless broadcasting will be replaced in the foreseeable future. The Company's billboard permits are issued in perpetuity by state and local governments and are transferable or renewable at little or no cost. Permits typically include the location for which the permit allows the Company the right to operate an advertising structure. The Company's permits are located on either owned or leased land. In cases where the Company's permits are located on leased land, the leases are typically from 10 to 30 years and renew indefinitely, with rental payments generally escalating at an inflation based index. If the Company loses its lease, the Company will typically obtain permission to relocate the permit or bank it with the municipality for future use.

The Company does not amortize its FCC broadcast licenses or billboard permits. The Company tests these indefinite-lived intangible assets for impairment at least annually using the direct method. Under the direct method, it is assumed that rather than acquiring indefinite-lived intangible assets as a part of a going concern business, the buyer hypothetically obtains indefinite-lived intangible assets and builds a new operation with similar attributes from scratch. Thus, the buyer incurs start-up costs during the build-up phase which are normally associated with going concern value. Initial capital costs are deducted from the discounted cash flows model which results in value that is directly attributable to the indefinite-lived intangible assets.

Under the direct method, the Company continues to aggregate its indefinite-lived intangible assets at the market level for purposes of impairment testing. The Company's key assumptions using the direct method are market revenue

growth rates, market share, profit margin, duration and profile of the build-up period, estimated start-up capital costs and losses incurred during the build-up period, the risk-adjusted discount rate and terminal values. This data is populated using industry normalized information.

Goodwill

The Company tests goodwill for impairment using a two-step process. The first step, used to screen for potential impairment, compares the fair value of the reporting unit with its carrying amount, including goodwill. The second step, used to measure the amount of the impairment loss, compares the implied fair value of the reporting unit goodwill with the carrying amount of that goodwill.

- 9 -

---

**Table of Contents**

The following table presents the changes in the carrying amount of goodwill in each of the Company's reportable segments for the nine-month period ended September 30, 2005:

<i>(In thousands)</i>	Radio	Outdoor	Entertainment	Other	Total
Balance as of December 31, 2004	\$ 6,369,182	\$ 787,694	\$ 34,429	\$ 29,139	\$ 7,220,444
Acquisitions	16,683	17,287	99,834	13,784	147,588
Dispositions	(1,253)				(1,253)
Foreign currency		(42,049)	(852)		(42,901)
Adjustments	(117)	(1,733)	(448)		(2,298)
Balance as of September 30, 2005	\$ 6,384,495	\$ 761,199	\$ 132,963	\$ 42,923	\$ 7,321,580

**Note 3: DERIVATIVE INSTRUMENTS**

The Company holds a net purchased option (the collar) under a secured forward exchange contract that limits its exposure to and benefit from price fluctuations in XM Satellite Radio Holding, Inc. (XMSR) over the term of the contract. The collar is accounted for as a hedge of the forecasted sale of the underlying shares. At September 30, 2005 and December 31, 2004, the fair value of the collar was a liability recorded in Other long-term obligations of \$188.0 million and \$208.1 million, respectively, and the amount recorded in other comprehensive income (loss), net of tax, related to the change in fair value of the collar for the nine months ended September 30, 2005 and the year ended December 31, 2004 was \$12.5 million, and \$(65.8) million, respectively.

The Company also holds options under two secured forward exchange contracts that limit its exposure to and benefit from price fluctuations in American Tower Corporation (AMT) over the terms of the contracts. These options are not designated as hedges of the underlying shares of AMT. The AMT contracts had a value of \$16.4 million and \$29.9 million at September 30, 2005 and December 31, 2004, respectively, recorded in Other assets. For the nine months ended September 30, 2005 and year ended December 31, 2004, the Company recognized losses of \$13.4 million and \$17.4 million, respectively, in Gain (loss) on marketable securities related to the change in fair value of the options. To offset the change in the fair value of these contracts, the Company has recorded AMT shares as trading securities. During the nine months ended September 30, 2005 and year ended December 31, 2004, the Company recognized gains of \$13.2 million and \$15.2 million, respectively, in Gain (loss) on marketable securities related to the change in the fair value of the shares.

As a result of the Company's foreign operations, the Company is exposed to foreign currency exchange risks related to its investment in net assets in foreign countries. To manage this risk, the Company entered into two United States dollar Euro cross currency swaps with an aggregate Euro notional amount of 706.0 million and a corresponding aggregate U.S. dollar notional amount of \$877.7 million. These cross currency swaps had a value of \$26.0 million and \$75.8 million at September 30, 2005 and December 31, 2004, respectively, which was recorded in Other long-term obligations. These cross currency swaps require the Company to make fixed cash payments on the Euro notional amount while it receives fixed cash payments on the equivalent U.S. dollar notional amount, all on a semiannual basis. The Company has designated these cross currency swaps as a hedge of its net investment in Euro denominated assets. The Company selected the forward method under the guidance of the Derivatives Implementation Group Statement 133 Implementation Issue H8, *Foreign Currency Hedges: Measuring the Amount of Ineffectiveness in a Net Investment Hedge*. The forward method requires all changes in the fair value of the cross currency swaps and the semiannual cash payments to be reported as a cumulative translation adjustment in other comprehensive income (loss) in the same manner as the underlying hedged net assets. As of the nine months ended September 30, 2005 and year ended December 31, 2004, a loss, net of tax of \$15.8 million, and \$47.5 million, respectively, was recorded as a cumulative translation adjustment to other comprehensive income (loss) related to the cross currency swap.

**Note 4: RECENT DEVELOPMENTS****Company Share Repurchase Program**

On February 1, 2005 (February 2005 Program), the Company's Board of Directors authorized its third share repurchase program of up to \$1.0 billion effective immediately. The first two share repurchase programs, each for

\$1.0 billion, were authorized during 2004 and have each been completed. On August 9, 2005, the Company's Board of Directors authorized a \$692.6 million increase to the existing balance of the February 2005 Program, bringing the authorized amount to an aggregate of \$1.0 billion. The increase in the February 2005 Program was effective immediately, and expires on August 8, 2006, although the program may be discontinued or suspended at any time prior to its expiration. As of September 30, 2005, the Company had purchased 77.4 million shares for an aggregate purchase price of \$2.7 billion, including commission and fees, under its repurchase programs.

- 10 -

---

**Table of Contents****Clear Media Limited ( Clear Media )**

In July, 2005, the Company increased its investment in Clear Media, a Chinese company that operates street furniture displays throughout China, to a controlling majority ownership interest. As a result, the Company began consolidating the results of Clear Media in the third quarter of 2005. The Company had been accounting for Clear Media as an equity investment prior to July 2005. The net assets of Clear Media represent less than 2% of the Company's consolidated net assets at September 30, 2005.

**Recent Legal Proceedings**

At the U.S. House Judiciary Committee hearing on July 29, 2003, an Assistant United States Attorney General announced that the Department of Justice ( DOJ ) is pursuing two separate antitrust inquiries concerning the Company. One inquiry is whether the Company has violated antitrust laws in one of our radio markets. The other is whether the Company has tied radio airplay or the use of certain concert venues to the use of the Company's concert promotion services, in violation of antitrust laws. The Company is cooperating with DOJ requests.

On September 9, 2003, the Assistant United States Attorney for the Eastern District of Missouri caused a Subpoena to Testify before Grand Jury to be issued to the Company. The Subpoena requires the Company to produce certain information regarding commercial advertising run on behalf of offshore and/or online (Internet) gambling businesses, including sports bookmaking and casino-style gambling. The Company is cooperating with such requirements.

On February 7, 2005, the Company received a subpoena from the State of New York Attorney General's office, requesting information on policies and practices regarding record promotion on radio stations in the state of New York. The Company is cooperating with this subpoena.

The Company is among the defendants in a lawsuit filed September 3, 2002 by JamSports in United States Federal District Court for the Northern District of Illinois. The plaintiff alleged that the Company violated federal antitrust laws and wrongfully interfered with plaintiff's business and contractual rights. On March 21, 2005, the jury rendered its verdict finding that the Company had not violated the antitrust laws, but had tortiously interfered with a contract which the plaintiff had entered into with co-defendant AMA Pro Racing and with the plaintiff's prospective economic advantage. In connection with the findings regarding tortious interference, the jury awarded to the plaintiffs approximately \$17.0 million in lost profits and \$73.0 million in punitive damages. In April, 2005, the Company filed a Renewed Motion for Judgment as a Matter of Law and Motion For a New Trial, to seek a judgment notwithstanding the verdict or a new trial from the U.S. District Court that tried the case. On August 15, 2005, the District Court granted that motion in part, granting judgment in favor of the Clear Channel defendants on the plaintiff's claim for tortious interference with prospective economic advantage and granting the Clear Channel defendants a new trial with respect to the issue of damages on the plaintiff's claim for tortious interference with contract. The District Court has set a new date for this trial, on February 6, 2006. The Company is vigorously defending this remaining claim.

The Company is also currently involved in certain other legal proceedings and, as required, has accrued an estimate of the probable costs for the resolution of these claims, inclusive of those discussed above. These estimates have been developed in consultation with counsel and are based upon an analysis of potential results, assuming a combination of litigation and settlement strategies. It is possible, however, that future results of operations for any particular period could be materially affected by changes in the Company's assumptions or the effectiveness of its strategies related to these proceedings.

**Note 5: RESTRUCTURING**

The following table represents the Company's restructuring activities of acquired businesses, including the 2000 restructuring of the AMFM Inc. ( AMFM ) and SFX Entertainment, Inc. ( SFX ) operations, the 2002 restructuring of The Ackerley Group, Inc. ( Ackerley ) operations, and the 2005 restructuring of the Mean Fiddler Music Group Plc ( Mean Fiddler ) operations:

Ending balance of severance and lease termination accrual	\$	14,190	\$	11,015

- 11 -

---

**Table of Contents**

During 2005, the Company acquired a controlling majority interest in Mean Fiddler, a promoter of music festivals and venues in the United Kingdom. As part of the acquisition, the Company recorded approximately \$5.4 million in restructuring costs primarily related to lease terminations, which it expects to pay over the next several years. The remaining severance and lease termination accrual for AMFM, SFX, Ackerley and Mean Fiddler at September 30, 2005 is comprised of \$2.0 million of severance and \$12.2 million of lease termination costs. The severance accrual includes amounts that will be paid over the next several years related to deferred payments to former employees as well as other compensation. The lease termination accrual will be paid over the next several years. During the first nine months of 2005, \$1.0 million was paid and charged to the restructuring accrual relating to severance. During 2004, the Company reduced its restructuring reserve by approximately \$43.6 million, as amounts previously recorded were no longer expected to be paid. This reversal was recorded as an adjustment to the purchase price. Any future potential excess reserves will be recorded as an adjustment to the purchase price.

In addition to the restructurings described above, the Company restructured its outdoor operations in France during the third quarter of 2005. As a result, the Company recorded \$26.6 million in restructuring costs as a component of divisional operating expenses during the third quarter of 2005; \$22.5 million was related to severance costs and \$4.1 million was related to other costs. It has been announced that the restructuring will result in the termination of 101 employees. During the third quarter, \$2.7 million of related costs were paid and charged to the restructuring accrual. As of September 30, 2005, the accrual balance was \$23.9 million.

Also, the Company restructured its outdoor advertising operations in Spain and France during 2004 and 2003, respectively. As a result of the Spain restructuring, the Company recorded in 2004 a \$4.1 million accrual in divisional operating expenses; \$2.2 million was related to severance and \$1.9 million was related to consulting and other costs. As a result of the France restructuring, the Company recorded in 2003 a \$13.8 million accrual in divisional operating expenses; \$12.5 million was related to severance and \$1.3 million was related to lease terminations and consulting costs. As of September 30, 2005, the aggregate accrual balance relating to the Spain and France restructuring was \$2.5 million. It is expected that these accruals will be paid in the current year. These restructurings have resulted in the termination of 178 employees.

**Note 6: COMMITMENTS AND CONTINGENCIES**

Certain agreements relating to acquisitions provide for purchase price adjustments and other future contingent payments based on the financial performance of the acquired companies. The Company will continue to accrue additional amounts related to such contingent payments if and when it is determinable that the applicable financial performance targets will be met. The aggregate of these contingent payments, if performance targets are met, would not significantly impact the financial position or results of operations of the Company.

As discussed in Note 4, there are various lawsuits and claims pending against the Company. Based on current assumptions, the Company has accrued its estimate of the probable costs for the resolution of these claims. Future results of operations could be materially affected by changes in these assumptions.

**Note 7: GUARANTEES**

As of September 30, 2005, the Company guaranteed third party debt of approximately \$13.4 million. The guarantees arose primarily in 2000 in conjunction with the Company entering into long-term contracts with third parties. The operating assets associated with these contracts secure the debt that the Company has guaranteed. Only to the extent that the assets are either sold by the third-party for less than the guaranteed amount or the third party is unable to service the debt will the Company be required to make a cash payment under the guarantee. As of September 30, 2005, it is not probable that the Company will be required to make a payment under these guarantees. Thus, as of September 30, 2005, the guarantees associated with long-term operating contracts are not recorded on the Company's financial statements. These guarantees are included in the Company's calculation of its leverage ratio covenant under the bank credit facility.

Within the Company's \$1.75 billion credit facility, there exists a \$150.0 million sub-limit available to certain of the Company's international subsidiaries. This \$150.0 million sub-limit allows for borrowings in various foreign currencies, which are used to hedge net assets in those currencies and provides funds to the Company's international operations for certain working capital needs. Subsidiary borrowings under this sub-limit are guaranteed by the Company. At September 30, 2005, this portion of the \$1.75 billion credit facility's outstanding balance was

\$49.7 million. At September 30, 2005, this outstanding balance is recorded in Long-term debt on the Company's financial statements.

- 12 -

---

**Table of Contents**

Within the Company's bank credit facility agreement is a provision that requires the Company to reimburse lenders for any increased costs that they may incur in an event of a change in law, rule or regulation resulting in their reduced returns from any change in capital requirements. In addition to not being able to estimate the potential amount of any future payment under this provision, the Company is not able to predict if such event will ever occur.

The Company currently has guarantees that provide protection to its international subsidiaries' banking institutions related to overdraft lines and credit card charge-back transactions up to approximately \$65.5 million. As of September 30, 2005, no amounts were outstanding under these agreements.

As of September 30, 2005, the Company has outstanding commercial standby letters of credit and surety bonds of \$230.0 million and \$44.6 million, respectively, that primarily expire during the next twelve months. These letters of credit and surety bonds relate to various operational matters including insurance, bid and performance bonds as well as other items. These letters of credit are included in the Company's calculation of its leverage ratio covenant under the bank credit facility. The surety bonds are not considered borrowings under the Company's bank credit facility.

**Note 8: SEGMENT DATA**

The Company has three reportable segments, which it believes best reflects how the Company is currently managed: radio broadcasting, outdoor advertising and live entertainment. The category "other" includes television broadcasting, sports representation and media representation. Revenue and expenses earned and charged between segments are recorded at fair value and eliminated in consolidation.

Net revenue of \$1.8 billion and \$660.7 million for the nine and three months ended September 30, 2005, respectively, and \$1.6 billion and \$579.2 million for the nine and three months ended September 30, 2004, respectively, and identifiable assets of \$2.9 billion and \$2.5 billion as of September 30, 2005 and 2004, respectively, are included in the data above and are derived from the Company's foreign operations.

**Note 9: STRATEGIC REALIGNMENT**

On April 29, 2005, the Company announced a plan to strategically realign its businesses. This plan includes an initial public offering ( IPO ) of approximately 10% of the common stock of the Company's outdoor business ( Clear Channel Outdoor ) and a 100% spin-off of its entertainment business ( Clear Channel Entertainment ). The closing of the IPO and spin-off of Clear Channel Entertainment are subject to approval of the Company's Board of Directors, receipt of a tax opinion of counsel and letter ruling from the IRS relating to the Clear Channel Entertainment spin-off, favorable market conditions, effectiveness of registration statements filed with the Securities and Exchange Commission and other customary conditions.

It is the Company's current intention to return approximately \$1.6 billion of capital to shareholders through either share repurchases, a special dividend or a combination of both. Since announcing its intent on August 9, 2005, the Company has returned \$117.1 million to shareholders by repurchasing 3.8 million shares of its common stock. It is the Company's current intention to pay a special dividend in 2006 after taking into account the results of the Company's share repurchases, and subject to the Company's financial condition, and market and economic conditions among other factors. The Company intends to fund any share repurchases and/or a special dividend from funds generated from the repayment of intercompany debt, the proceeds of any new debt offerings, available cash balances and cash flow from operations. The timing and amount of a special dividend, if any, is in the discretion of the Board of Directors and will be based on the economic and market factors described above, among others.

**Note 10: SUBSEQUENT EVENTS**

On October 26, 2005, the Company's Board of Directors declared a quarterly cash dividend of \$0.1875 per share on the Company's Common Stock. The dividend is payable on January 15, 2006 to shareholders of record at the close of business on December 31, 2005.

From October 1, 2005 through November 4, 2005, 3.8 million shares were repurchased for an aggregate purchase price of \$117.1 million, including commissions and fees, under the Company's share repurchase program. At

November 4, 2005 \$882.9 million remained available for repurchase through the Company's repurchase program authorized on August 9, 2005.

---

**Table of Contents****Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS*****Executive Summary***

Our outdoor advertising segment has experienced consistent revenue growth throughout 2005 as compared to 2004. Domestically, revenue growth was driven by increased rates on our bulletin and poster inventory. Internationally, growth was driven by increased revenue per display on our transit and street furniture inventory. We acquired a controlling majority interest in Clear Media Limited, a Chinese outdoor advertising company, during the third quarter of 2005. We have faced difficult economic and competitive environments in France throughout 2005, and announced a plan to restructure our outdoor advertising operations there. As a result of the restructuring, we recorded approximately \$26.6 million as a component of divisional operating expenses during the third quarter of 2005.

Our radio revenues declined each quarter of 2005 compared to the same periods of 2004, primarily as a result of the reduction in the amount of commercial minutes broadcast on our radio stations as part of our *Less is More* initiative. However, sequential improvement occurred each quarter of 2005 in our yield, or revenue divided by commercial minutes broadcast, as well as average unit rates for our inventory. 15 and 30 second advertisements as a percent of total advertising inventory increased each quarter of 2005 over the previous quarter.

Our live entertainment revenues declined approximately \$85.7 million for the nine months ended September 30, 2005 compared to the same period of 2004. The revenue decline is primarily the result of fewer events and lower attendance. During the third quarter of 2005, we acquired a controlling majority interest in Mean Fiddler, a promoter of music festivals and venue operator in the United Kingdom, and consolidated approximately \$41.9 million in revenue.

***Strategic Realignment of Businesses***

On April 29, 2005, we announced our plan to strategically realign our businesses. This plan includes an initial public offering ( IPO ) of approximately 10% of the common stock of our outdoor business ( Clear Channel Outdoor ) and a 100% spin-off of our entertainment business ( Clear Channel Entertainment ). The closing of the IPO and spin-off of Clear Channel Entertainment are subject to approval of our Board of Directors, receipt of a tax opinion of counsel and letter ruling from the IRS relating to the Clear Channel Entertainment spin-off, favorable market conditions, effectiveness of registration statements filed with the Securities and Exchange Commission and other customary conditions.

It is our current intention to return approximately \$1.6 billion of capital to shareholders through either share repurchases, a special dividend or a combination of both. Since announcing our intent on August 9, 2005, we have returned \$117.1 million to shareholders by repurchasing 3.8 million shares of our common stock. It is our current intention to pay a special dividend in 2006 after taking into account the results of our share repurchases, and subject to our financial condition, and market and economic conditions among other factors. We intend to fund any share repurchases and/or a special dividend from funds generated from the repayment of intercompany debt, the proceeds of any new debt offerings, available cash balances and cash flow from operations. The timing and amount of a special dividend, if any, is in the discretion of the Board of Directors and will be based on the economic and market factors described above, among others.

***Format of Presentation***

Management's discussion and analysis of our results of operations and financial condition should be read in conjunction with the consolidated financial statements and related footnotes. Our discussion is presented on both a consolidated and segment basis. Our reportable operating segments are Radio Broadcasting, which includes our national syndication business, Outdoor Advertising and Live Entertainment. Included in the other segment are television broadcasting, sports representation and our media representation business, Katz Media.

We manage our operating segments primarily focusing on their operating income, while Corporate expenses, Interest expense, Gain (loss) on sale of marketable securities, Equity in earnings of nonconsolidated affiliates, Other income (expense) net, and Income tax benefit (expense) are managed on a total company basis and are, therefore, included only in our discussion of consolidated results.

***Radio Broadcasting***

Our local radio markets are run predominantly by local management teams who control the formats selected for their programming. The formats are designed to reach audiences with targeted demographic characteristics that appeal to our advertisers. Our advertising rates are principally based on how many people in a targeted audience listen to our stations, as measured by an independent ratings service. The size of the market influences rates as well, with larger markets typically receiving higher rates than smaller markets.

- 15 -

---

## **Table of Contents**

Also, our advertising rates are influenced by the time of day the advertisement airs, with morning and evening drive-time hours typically the highest. We sell a certain number of radio advertising spots per hour to our advertisers. Radio advertising contracts are typically less than one year.

During the first quarter of 2005, we completed the rollout of our *Less is More* initiative, which lowered the amount of commercial minutes played per hour by approximately 15% - 20% across our stations. A key component of *Less is More* is encouraging advertisers to invest in shorter advertisements rather than the traditional 60-second spot. Based on our research, we believe that the effectiveness of a commercial is not related to its length. Because effectiveness is not tied to the length of the advertisement, on a cost per thousand listeners reached basis, we can provide our advertisers a more efficient investment with our new shorter commercials than with the traditional 60-second commercials.

Management monitors macro level indicators to assess our radio operations' performance. Due to the geographic diversity and autonomy of our markets, we have a multitude of market specific advertising rates and audience demographics. Therefore, our discussion of the results of operations of our radio broadcasting segment focuses on the macro level indicators that management monitors to assess our radio segment's financial condition and results of operations.

Management looks at our radio operations' overall revenues as well as local advertising, which is sold predominately in a station's local market, and national advertising, which is sold across multiple markets. Local advertising is sold by our local radio stations' sales staffs while national advertising is sold, for the most part, through our national representation firm.

Local advertising, which is our largest source of advertising revenue, and national advertising revenues are tracked separately, because these revenue streams have different sales forces and respond differently to changes in the economic environment.

Management also looks at radio revenue by market size, as defined by Arbitron. Typically, larger markets can reach bigger audiences with wider demographics than smaller markets. Over half of our radio revenue and divisional operating expenses comes from our 50 largest markets.

Additionally, management reviews our share of target demographics listening to the radio in an average quarter hour. This metric gauges how well our formats are attracting and keeping listeners.

A significant portion of our radio segment's expenses vary in connection with changes in revenue. These variable expenses primarily relate to costs in our sales department, such as salaries, commissions and bad debt. Our programming and general and administrative departments incur most of our fixed costs, such as talent costs, rights fees, utilities and office salaries. Lastly, our highly discretionary costs are in our marketing and promotions department, which we primarily incur to maintain and/or increase our audience share.

### ***Outdoor Advertising***

Our outdoor advertising revenues are generated from selling advertisements on our display faces, which include bulletins, posters and transit displays, as well as street furniture panels. Our advertising rates are based on a particular display's impressions in relation to the demographics of a particular market and its location within a market. The lengths of our outdoor advertising contracts vary across our inventory, ranging from one week to one year.

To monitor the health of our outdoor business, management reviews average rates, average occupancy and inventory levels of each of our display faces by market. In addition, because a significant portion of our outdoor advertising is conducted in foreign markets, principally Europe, management looks at the operating results from our foreign operations on a constant dollar basis. A constant dollar basis allows for comparison of operations independent of foreign exchange movements.

Our significant outdoor expenses include production expenses, revenue sharing or minimum guarantees on our transit and street furniture contracts and site lease expenses, primarily for land under our advertising displays. Our site lease terms vary from monthly to yearly, can be for terms of 20 years or longer and typically provide for renewal options. Our street furniture contracts are usually won in a competitive bid and generally have terms of between 10 and 20 years.

### ***Live Entertainment***

We derive live entertainment revenues primarily from promoting or producing music and theatrical events. Revenues from these events are mainly from ticket sales, rental income, corporate sponsorships, concessions and merchandise. We typically receive either all the ticket sales or a fixed fee for each event we host. We also generally receive fees representing a percentage of total concession sales from vendors and total merchandise sales from the merchandiser.

- 16 -

---

**Table of Contents**

We generally receive higher music profits when an event is at a venue we own rather than a venue we rent. The higher music profits are due to our ability to share in a percentage of the revenues received from concession and merchandise sales as well as the opportunity to sell sponsorships for venue naming rights and signage.

To judge the health of our live entertainment business, management monitors the number of shows, average paid attendance, talent cost as a percentage of revenue, sponsorship dollars and ticket revenues. In addition, because a significant portion of our live entertainment business is conducted in foreign markets, management looks at the operating results from our foreign operations on a constant dollar basis.

The primary expense driver for live entertainment is talent cost. Talent cost is the amount we pay a musical artist or theatrical production to perform at an event. This is a negotiated amount primarily driven by what the artist or production requires to cover their direct costs and the value of their time. These fees are typically agreed to at a fixed guarantee, a percentage of ticket sales or the greater of the two amounts.

The comparison of Three and Nine Months Ended September 30, 2005 to Three and Nine Months Ended September 30, 2004 is as follows:

**Consolidated**

(In thousands)	Three Months Ended September 30,		%	Nine Months Ended September 30,		%
	2005	2004		2005	2004

Consolidated Revenue

Consolidated revenues increased \$28.0 million for the three months ended September 30, 2005 compared to the same period of the prior year. This increase was the result of revenue increases of approximately \$67.8 million in our outdoor segment primarily from domestic bulletin and poster sales and international street furniture and transit sales and approximately \$22.9 million from our acquisition of a controlling majority interest in Clear Media, a Chinese outdoor company, during the third quarter of 2005. Our radio segment revenue declined \$40.8 million, primarily as a result of fewer commercial minutes broadcast in the current year as part of our *Less is More* initiative. Live entertainment revenues increased approximately \$8.8 million primarily from revenue growth in our European music division, as a result of our acquiring a controlling majority interest in Mean Fiddler, a promoter of music festivals and venues in the United Kingdom.

- 17 -

**Table of Contents**

Consolidated revenues were down \$82.9 million for the nine months ended September 30, 2005 compared to the same period of the prior year. Our radio segment revenue declined \$165.1 million, primarily as a result of fewer commercial minutes broadcast in the current year as part of our *Less is More* initiative. Our live entertainment revenues were down \$85.7 million for the nine months of 2005 compared to the same period of 2004 primarily attributable to a decline in ticket revenues resulting from fewer concerts and lower attendance in the current year. This decline was partially offset by our outdoor segment, which experienced revenue growth of \$170.2 million for the period primarily from domestic bulletin sales and international street furniture and transit sales, approximately \$22.9 million from the consolidation of Clear Media, and approximately \$33.9 million from increase in foreign exchange fluctuations.

**Consolidated Divisional Operating Expenses**

Consolidated divisional operating expenses increased \$72.1 million for the three months ended September 30, 2005 compared to the same period of 2004 primarily related to approximately \$26.6 million recorded from restructuring our outdoor advertising business in France during the third quarter of 2005 and approximately \$12.5 million and \$34.4 million related to our consolidation of Clear Media and Mean Fiddler, respectively, both of which we acquired a controlling majority interest in during the third quarter of 2005.

Consolidated divisional operating expenses increased \$82.3 million for the nine months ended September 30, 2005 compared to the same period of 2004 principally from \$26.6 million of costs related to restructuring our outdoor advertising business in France, approximately \$12.5 million from our consolidation of Clear Media, and approximately \$28.7 million and from increases in foreign exchange as compared to the same period of 2004. In addition to the France restructuring, foreign exchange and the Clear Media acquisition, our outdoor segment contributed approximately \$55.7 million primarily related to increased site lease, direct production and commission expenses associated with the increase in revenue. Our radio and other segment contributed approximately \$8.7 million and \$9.1 million, respectively to the increase. These increases were partially offset by a \$56.8 million decline in divisional operating expenses in our live entertainment segment primarily due to fewer events that led to lower talent costs and reduced artist guarantees in the current year compared to 2004.

**Non-cash Compensation Expense**

Non-cash compensation expense increased 247% and 135% during the three and nine months ended September 30, 2005, respectively, as compared to the same periods of 2004, primarily from the granting in 2005 of more restricted stock awards rather than stock options which we account for under Accounting Principles Board Opinion No. 25, *Accounting for Stock Issued to Employees*.

**Corporate Expenses**

Corporate expenses increased \$3.3 million and \$6.9 million during the three and nine months ended September 30, 2005, respectively, as compared to the same periods of 2004. The increases for the three months is comprised of \$3.0 million related to costs of our strategic realignment plan and approximately \$3.7 million related to severance in conjunction with reorganizing our live entertainment business, offset by a decline in bonus expenses. The increase for the nine months primarily related to an increase in corporate legal expenses of approximately \$12.5 million associated with legal contingencies in our live entertainment segment, offset by a decline in bonus expenses.

**Interest Expense**

Interest expense increased \$22.1 million and \$59.1 million during the three and nine months ended September 30, 2005, respectively, as compared to the same periods of 2004, primarily as a result of an increase in our average debt outstanding as well as an increase in our weighted average cost of debt. Our debt balances and weighted average cost of debt at September 30, 2005 and 2004 were \$8.0 billion, 5.7%, \$7.2 billion and 5.2%, respectively.

**Gain (Loss) on Marketable Securities**

Gain (loss) on marketable securities for the third quarter of 2005 and 2004 consisted entirely of changes in fair value of certain investment securities that are classified as trading and a related secured forward exchange contract associated with those securities.

The loss on marketable securities for the nine months ended September 30, 2005 of \$.3 million decreased \$48.0 million compared to the gain of \$47.7 million for the same period of 2004. The loss on marketable securities for the nine months ended September 30, 2005 consisted of changes in fair value of certain investment securities that are

classified as trading and a related secured forward exchange contract associated with those securities. The gain on marketable securities during the nine months of 2004 consisted primarily of a \$47.0 million gain on the sale of our remaining investment in Univision Communications, offset by changes in fair value of certain investment securities that are classified as trading and a related secured forward exchange contract associated with those securities.

- 18 -

---

**Table of Contents****Other Income (Expense) Net**

Other income (expense) net decreased \$2.9 million and increased \$27.8 million for the three and nine months ended September 30, 2005, respectively, compared to the same period of 2004. The increase for the three months was attributable to an approximately \$31.6 million loss on the early extinguishment of debt in 2004.

**Income Tax Benefit (Expense)**

Current tax expense increased approximately \$3.9 million for the three months ended September 30, 2005 as compared to the same period of 2004. Deferred tax expense decreased during the three months ended September 30, 2005 as compared to the same period of 2004 by approximately \$17.1 million primarily due to higher deferred tax expense related to additional tax depreciation and tax gains on the sale of certain investments recorded during 2004.

Current tax expense decreased \$139.6 million for the nine months ended September 30, 2005 as compared to the same period of the prior year primarily as a result of current tax expense related to the sale of our remaining investment in Univision, partially offset by a tax benefit related to a tax loss on our early extinguishment of debt, both occurring during the nine months ended September 30, 2004. Deferred tax expense increased approximately \$49.8 million for the nine months ended September 30, 2005 as compared to the same period of 2004 primarily due to net deferred tax benefits recorded during the prior year primarily related to our sale of our remaining investment in Univision.

**Segment Revenue and Divisional Operating Expenses****Radio Broadcasting**

	Three Months Ended			Nine Months Ended		
	September 30,		%	September 30,		%
(In thousands)	2005	2004		Change	2005

**Three Months**

Our radio revenue declined \$40.8 million, or 4%, to \$919.2 million during the third quarter of 2005 compared to the same period of 2004. The decline includes a reduction of approximately \$4.3 million from non-cash trade revenues. Both local and national revenues were down for the quarter as well, primarily from the reduction in commercial minutes made available for sale on our radio stations. As a result, some of our larger advertising categories declined during the quarter, including automotive and retail. Yield, or revenue divided by total minutes of available inventory, experienced an increase each month of the third quarter. Our 30 and 15 second commercials, as a percent of total commercial minutes available, were higher in the third quarter than in the first six months of the year. Average unit rates were also higher during the third quarter than during the first six months of the year.

Radio divisional operating expenses increased \$8.4 million during the third quarter of 2005 compared to the same period of 2004. This increase was driven by increases in promotion and advertising as well as programming and content expenses.

**Nine Months**

Our radio revenue declined \$165.1 million during the nine months ended September 30, 2005 compared to the same period of 2004. Both local and national revenues were down for the nine months, as we continue to implement *Less is More*. While there were increases in average unit rates of 30 and 15 second commercials as the year progressed, these increases have not yet offset the reduction of commercial minutes. The decline also includes a

reduction of approximately \$18.5 million from non-cash trade revenues.

Radio divisional operating expenses increased, \$8.8 million, or 1% during the nine months ended September 30, 2005 compared to the same period of 2004. While we experienced increased advertising and promotional expenditures as well as additional

- 19 -

---

**Table of Contents**

expenses associated with sports broadcasting rights related to contracts awarded in the second half of 2004. These increases were partially offset by decreases in commission expenses as well as a decline in non-cash trade expenses.

Depreciation and amortization declined \$7.3 million for the nine months ended September 30, 2005 compared to the same period of 2004 primarily related to syndicated radio talent and sports broadcasting contracts acquired through acquisitions of radio companies that became fully amortized in the fourth quarter of 2004.

**Outdoor Advertising**

<i>(In thousands)</i>	Three Months Ended September 30,			Nine Months Ended September 30,		
	2005	2004	% Change	2005	2004	% Change
Revenue	\$ 668,003	\$ 600,166	11%	\$ 1,931,470	\$ 1,761,308	10%
Divisional operating expenses	483,379	431,383	12%	1,400,603	1,277,110	10%
Depreciation and amortization	95,405	96,254	(1%)	290,233	288,810	0%
Operating income	\$ 89,219	\$ 72,529	23%	\$ 240,634	\$ 195,388	23%

**Three Months**

Our outdoor advertising revenue increased \$67.8 million during the third quarter of 2005 compared to the same period of 2004. Included in the third quarter 2005 results is an approximately \$1.7 million increase related to foreign exchange compared to the third quarter of 2004. Approximately \$22.9 million of the revenue growth is related to our third quarter acquisition of a controlling majority interest in Clear Media Limited. Clear Media is a Chinese outdoor company which we previously accounted for as an equity method investment.

Our domestic revenue increased \$31.6 million to \$317.7 million during the third quarter of 2005 compared to the same period of 2004. The increase was mainly due to an increase in bulletin and poster revenues primarily attributable to increased rates during 2005. Increased revenues from our airport, street furniture and transit advertising displays also contributed to the revenue increase. Growth occurred across the majority of our markets including strong growth in New York, Miami, Houston, Seattle, Cleveland and Las Vegas. Strong advertising client categories for the nine months ended September 30, 2005 included automotive, entertainment and amusements, business and consumer services, retail and telecommunications.

Our international revenues increased \$36.2 million to \$350.3 million during the three months ended September 30, 2005 as compared to the same period in 2004. Included in the revenue growth is approximately \$22.9 million in revenue from Clear Media. In addition, the remaining revenue growth was attributable to increases in our street furniture and transit revenues. Leading markets contributing to our international revenue growth were Italy, Sweden and Australia.

Our divisional operating expenses increased \$52.0 million to \$483.4 million during the third quarter of 2005 compared to the same period of 2004. Included in the increase is approximately \$1.4 million from increases in foreign exchange. Our consolidation of Clear Media contributed approximately \$12.5 million to the increase. Also, we began a restructuring of our business in France during the third quarter of 2005 and recorded approximately \$26.6 million in restructuring costs.

Domestic divisional operating expenses increased \$5.7 million to \$168.5 million during the third quarter as compared to the same period in 2004. The increase is related to increases in site lease expenses, commission expenses associated with the increase in revenue and direct production expenses. International divisional operating expenses grew \$46.3 million to \$314.9 million during the quarter ended September 30, 2005 as compared to the same period of the 2004, primarily from the consolidation of Clear Media and the France restructuring.

**Nine Months**

Edgar Filing: CLEAR CHANNEL COMMUNICATIONS INC - Form 10-Q

Our revenue increased approximately \$170.2 million, or 10%, during the nine months ended September 30, 2005 as compared to the same period of 2004. Included in these results is approximately \$33.9 million from increases in foreign exchange as compared to the same period of 2004. Our domestic operations contributed approximately \$85.9 million to the increase primarily from growth in bulletin and poster revenues of approximately \$41.4 million. In addition to foreign exchange, our international operations contributed approximately \$50.4 million to the increase from our consolidation of Clear Media and increases from our street furniture and transit revenues.

- 20 -

---

**Table of Contents**

Divisional operating expenses increased approximately \$123.5 million during the nine months ended September 30, 2005 as compared to the same period of 2004. Included in these expenses is approximately \$28.7 million from increases in foreign exchange as compared to the same period of 2004. Our domestic operations contributed approximately \$29.4 million to the increased expense, of which approximately \$5.6 million related to direct production expenses, \$6.0 million related to site lease expenses, \$2.9 million from an increase in commission expenses, and \$1.8 million from an increase in bad debt expense. In addition to foreign exchange, our international operations contributed approximately \$65.4 million to the increase, comprised of an approximate \$25.9 million increase in fixed rent and minimum annual guarantees associated with the increase in revenues on our street furniture and transit contracts, approximately \$12.5 million from our consolidation of Clear Media and approximately \$26.6 million of costs related to the restructuring of our business in France.

**Live Entertainment**

	Three Months Ended September 30,			Nine Months Ended September 30,		
	2005	2004	% Change	2005	2004	% Change
<i>(In thousands)</i>

Depreciation and amortization	15,341	15,134	1%	47,703	45,577	5%
Operating income	\$ 70,154	\$ 75,896	(8%)	\$ 77,068	\$ 108,105	(29%)

**Three Months**

Our live entertainment revenue increased \$8.8 million for the third quarter of 2005 compared to the same period of 2004. The revenue increase was led by our European music division primarily as a result of acquiring a controlling majority interest in Mean Fiddler, a promoter of music festivals and venue operator in the United Kingdom, which contributed approximately \$41.9 million to the net increase. This increase was partially offset by a decline in revenue from our domestic music and theater divisions. This was the result of a decline in the number of events and average ticket prices in the current year compared to 2004. The lower number of events led to a decline in ancillary revenues as well. The third quarter revenues also included a decline of approximately \$6.1 million related to foreign exchange compared to 2004 due to the strengthening of the U.S. dollar relative to our international functional currencies.

Our live entertainment divisional operating expenses increased \$14.3 million for the third quarter of 2005 compared to the same period of 2004. During the quarter, we recorded approximately \$8.4 million related to certain legal costs and certain severance costs in conjunction with reorganizing the business. Also included in the increase is approximately \$34.4 million from the consolidation of Mean Fiddler. These increases were partially offset by approximately \$5.3 million from decreases in foreign exchange due to the strengthening of the U.S. dollar and by decreases in talent costs associated with the decrease in revenues.

**Nine Months**

Our live entertainment revenue declined \$85.7 million for the nine months of 2005 compared to the same period of 2004. The decline was primarily attributable to an overall decline in ticket revenues resulting from fewer concerts and lower attendance in the current year. The lower number of shows and attendance at our amphitheatres led to a decline in concessions and merchandising. The decline in revenues was partially offset by an increase of approximately \$41.9 million from the consolidation of Mean Fiddler and approximately \$7.0 million from foreign exchange fluctuations.

Our live entertainment divisional operating expenses were down \$56.8 million during the nine months ended September 30, 2005 compared to the same period of 2004. This decline correlates with fewer events which led to decreased artist costs. The decline was partially offset by an increase of approximately \$34.4 million from the

consolidation of Mean Fiddler, approximately \$7.1 million from foreign exchange fluctuations, an increase of approximately \$12.5 million from expenses related to legal contingencies recorded in the first quarter of 2005, and approximately \$8.4 million related to certain legal costs and certain severance costs in conjunction with reorganizing the business in the third quarter of 2005.

**Table of Contents****Reconciliation of Segment Operating Income (Loss) to Consolidated Operating Income**

<i>(In thousands)</i>	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
	2005	2004	2005	2004
Radio Broadcasting	\$ 336,445	\$ 383,779	\$ 906,176	\$ 1,072,191
Outdoor Advertising	89,219	72,529	240,634	195,388
Live Entertainment	70,154	75,896	77,068	108,105
Other	6,802	14,205	20,075	34,452
Corporate	(57,373)	(52,311)	(169,644)	(160,159)
Consolidated Operating Income	\$ 445,247	\$ 494,098	\$ 1,074,309	\$ 1,249,977

**LIQUIDITY AND CAPITAL RESOURCES****Cash Flow****Operating Activities:**

Net cash provided by operating activities was \$228.8 million less for the nine months ended September 30, 2005 compared to the same period of 2004 principally from a decline in net income of \$157.4 million. Also contributing to the decline were taxes accrued but not yet paid on the sale of our remaining investment in Univision during 2004 and tax return adjustments that were paid during 2005 upon the completion of our 2004 federal tax return.

**Investing Activities:**

Net cash provided by investing activities of \$250.7 million for the nine months ended September 30, 2004 declined \$669.7 million to net cash used in investing activities of \$419.0 million for the nine months ended September 30, 2005. The decline was primarily due to \$627.5 million in proceeds from the sale of investments primarily related to our remaining investment in Univision Communications during 2004.

**Financing Activities:**

Net cash used in financing activities for the nine months ended September 30, 2005 declined approximately \$993.5 million compared to the same period of 2004 primarily from a reduction of treasury share repurchases during 2005 of \$569.0 million.

We expect to fund anticipated cash requirements (including payments of principal and interest on outstanding indebtedness and commitments, acquisitions, anticipated capital expenditures, quarterly dividends and share repurchases) for the foreseeable future with cash flows from operations and various externally generated funds.

**SOURCES OF CAPITAL**

As of September 30, 2005 and December 31, 2004 we had the following debt outstanding:

<i>(In millions)</i>	September 30, 2005	December 31, 2004
Credit facility	\$ 1,201.5	\$ 350.5
Long-term bonds (a)	6,551.9	6,846.1

2004,  
respectively.

- 22 -

---

**Table of Contents**

**Credit Facility**

We have a multi-currency revolving credit facility in the amount of \$1.75 billion, which can be used for general working capital purposes including commercial paper support as well as to fund capital expenditures, share repurchases, acquisitions and the refinancing of public debt securities. At September 30, 2005, the outstanding balance on this facility was \$1.2 billion and, taking into account letters of credit of \$227.4 million, \$321.1 million was available for future borrowings, with the entire balance to be repaid on July 12, 2009.

During the nine months ended September 30, 2005, we made principal payments totaling \$753.0 million and drew down \$1.6 billion on the credit facility. As of November 4, 2005, the credit facility's outstanding balance was \$1.3 billion and, taking into account outstanding letters of credit, \$238.1 million was available for future borrowings.

**Shelf Registration**

On April 22, 2004, we filed a Registration Statement on Form S-3 covering a combined \$3.0 billion of debt securities, junior subordinated debt securities, preferred stock, common stock, warrants, stock purchase contracts and stock purchase units. The shelf registration statement also covers preferred securities that may be issued from time to time by our three Delaware statutory business trusts and guarantees of such preferred securities by us. The SEC declared this shelf registration statement effective on April 26, 2004. After debt offerings on September 15, 2004, November 17, 2004, and December 16, 2004, \$1.75 billion remains available from this shelf registration statement.

**Debt Covenants**

The significant covenants on our \$1.75 billion five-year, multi-currency revolving credit facility relate to leverage and interest coverage contained and defined in the credit agreement. The leverage ratio covenant requires us to maintain a ratio of consolidated funded indebtedness to operating cash flow (as defined by the credit agreement) of less than 5.25x. The interest coverage covenant requires us to maintain a minimum ratio of operating cash flow (as defined by the credit agreement) to interest expense of 2.50x. In the event that we do not meet these covenants, we are considered to be in default on the credit facility at which time the credit facility may become immediately due. At September 30, 2005, our leverage and interest coverage ratios were 3.5x and 5.2x, respectively. This credit facility contains a cross default provision that would be triggered if we were to default on any other indebtedness greater than \$200.0 million.

Our other indebtedness does not contain provisions that would make it a default if we were to default on our credit facility.

The fees we pay on our \$1.75 billion, five-year multi-currency revolving credit facility depend on our long-term debt ratings. Based on our current ratings level of BBB-/Baa3, our fees on borrowings are a 45.0 basis point spread to LIBOR and are 17.5 basis points on the total \$1.75 billion facility. In the event our ratings improve, the fee on borrowings and facility fee decline gradually to 20.0 basis points and 9.0 basis points, respectively, at ratings of A/A3 or better. In the event that our ratings decline, the fee on borrowings and facility fee increase gradually to 120.0 basis points and 30.0 basis points, respectively, at ratings of BB/Ba2 or lower.

We believe there are no other agreements that contain provisions that trigger an event of default upon a change in long-term debt ratings that would have a material impact to our financial statements.

Additionally, our 8% senior notes due 2008, which were originally issued by AMFM Operating Inc., a wholly-owned subsidiary of Clear Channel, contain certain restrictive covenants that limit the ability of AMFM Operating Inc. to incur additional indebtedness, enter into certain transactions with affiliates, pay dividends, consolidate, or effect certain asset sales.

At September 30, 2005, we were in compliance with all debt covenants. We expect to remain in compliance throughout 2005.

**Table of Contents**

## USES OF CAPITAL

**Dividends**

Our Board of Directors declared quarterly cash dividends as follows:  
(In millions, except per share data)

Declaration	Amount per Common Share	Record Date	Payment Date	Total Payment
October 20, 2004	\$ 0.125	December 31, 2004	January 15, 2005	\$ 70.9
February 16, 2005	0.125	March 31, 2005	April 15, 2005	68.9
April 26, 2005	0.1875	June 30, 2005	July 15, 2005	101.7
July 27, 2005	0.1875	September 30, 2005	October 15, 2005	101.8

Additionally, on October 26, 2005, the Company's Board of Directors declared a quarterly cash dividend of \$0.1875 per share on the Company's Common Stock. The dividend is payable on January 15, 2006 to shareholders of record at the close of business on December 31, 2005.

**Acquisitions**

During the nine months ended September 30, 2005, we acquired radio stations for \$8.7 million in cash. We also acquired outdoor display faces for \$43.7 million in cash. Our live entertainment segment used \$67.9 million in cash, primarily for our acquisition of Mean Fiddler. In addition, our national representation firm acquired contracts for \$32.5 million in cash and our television business acquired a station for \$5.4 million in cash.

**Capital Expenditures**

Capital expenditures were \$291.4 million and \$242.7 million in the nine months ended September 30, 2005 and 2004, respectively.

(In millions)	Nine Months Ended September 30, 2005 Capital Expenditures				
	Radio	Outdoor	Entertainment	Corporate and Other	Total
Non-revenue producing	\$ 65.8	\$ 53.0	\$ 40.0	\$ 16.4	\$ 175.2
Revenue producing		84.2	32.0		116.2
	\$ 65.8	\$ 137.2	\$ 72.0	\$ 16.4	\$ 291.4

**Treasury Stock Transactions**

Our Board of Directors approved two separate share repurchase programs during 2004, each for \$1.0 billion. On February 1, 2005, our Board of Directors approved a third \$1.0 billion share repurchase program. On August 9, 2005, our Board of Directors authorized an increase in and extension of the February 2005 program, which had \$307.4 million remaining, by \$692.6 million, for a total of \$1.0 billion. This increase expires on August 8, 2006, although the program may be discontinued or suspended at anytime prior to its expiration. As of November 4, 2005, 81.2 million shares had been repurchased for an aggregate purchase price of \$2.8 billion, including commission and fees, under the share repurchase programs. From January 1, 2005 through November 4, 2005, we repurchased 29.7 million shares of our common stock for an aggregate purchase price of \$968.3 million, including commission and fees.

**Commitments, Contingencies and Guarantees****Commitments and Contingencies**

We are among the defendants in a lawsuit filed September 3, 2002 by JamSports in United States Federal District Court for the Northern District of Illinois. The plaintiff alleged that we violated federal antitrust laws and wrongfully interfered with plaintiff's business and contractual rights. On March 21, 2005, the jury rendered its verdict finding that we had not violated the antitrust laws, but had tortiously interfered with a contract which the plaintiff had entered into with co-defendant AMA Pro Racing and with the plaintiff's prospective economic advantage. In connection with the findings regarding tortious interference, the jury awarded to the plaintiffs approximately \$17.0 million in lost profits and \$73.0 million in punitive damages. In April, 2005, we filed a Renewed Motion for

- 24 -

---

## **Table of Contents**

Judgment as a Matter of Law and Motion For a New Trial, to seek a judgment notwithstanding the verdict or a new trial from the U.S. District Court that tried the case. On August 15, 2005, the District Court granted that motion in part, granting judgment in favor of the Clear Channel defendants on the plaintiff's claim for tortious interference with prospective economic advantage and granting the Clear Channel defendants a new trial with respect to the issue of damages on the plaintiff's claim for tortious interference with contract. The District Court has set a new date for this trial, on February 6, 2006. We are vigorously defending this remaining claim.

There are various other lawsuits and claims pending against us. Based on current assumptions, we have accrued an estimate of the probable costs for the resolution of these claims. Future results of operations could be materially affected by changes in these assumptions.

Certain agreements relating to acquisitions provide for purchase price adjustments and other future contingent payments based on the financial performance of the acquired companies generally over a one to five year period. We will continue to accrue additional amounts related to such contingent payments if and when it is determinable that the applicable financial performance targets will be met. The aggregate of these contingent payments, if performance targets are met, would not significantly impact our financial position or results of operations.

### **Guarantees**

As of September 30, 2005, we guaranteed the debt of third parties of approximately \$13.4 million primarily related to long-term operating contracts. The third parties' associated operating assets secure a substantial portion of these obligations.

### **Market Risk**

#### **Interest Rate Risk**

At September 30, 2005, approximately 34% of our long-term debt, including fixed-rate debt on which we have entered into interest rate swap agreements, bears interest at variable rates. Accordingly, our earnings are affected by changes in interest rates. Assuming the current level of borrowings at variable rates and assuming a two percentage point change in the quarter's average interest rate under these borrowings, it is estimated that our interest expense for the nine months ended September 30, 2005 would have changed by \$40.4 million and that our net income for the nine months ended September 30, 2005 would have changed by \$25.0 million. In the event of an adverse change in interest rates, management may take actions to further mitigate its exposure. However, due to the uncertainty of the actions that would be taken and their possible effects, this interest rate analysis assumes no such actions. Further, the analysis does not consider the effects of the change in the level of overall economic activity that could exist in such an environment.

At September 30, 2005, we had entered into interest rate swap agreements with a \$1.3 billion aggregate notional amount that effectively float interest at rates based upon LIBOR. These agreements expire from February 2007 to March 2012. The fair value of these agreements at September 30, 2005 was a liability of \$20.9 million.

#### **Equity Price Risk**

The carrying value of our available-for-sale and trading equity securities is affected by changes in their quoted market prices. It is estimated that a 20% change in the market prices of these securities would change their carrying value at September 30, 2005 by \$74.4 million and would change accumulated comprehensive income (loss) and net income by \$39.9 million and \$6.2 million, respectively. At September 30, 2005, we also held \$18.4 million of investments that do not have a quoted market price, but are subject to fluctuations in their value.

We maintain derivative instruments on certain of our available-for-sale and trading equity securities to limit our exposure to and benefit from price fluctuations on those securities.

#### **Foreign Currency**

We have operations in countries throughout the world. As a result, our financial results could be affected by factors such as changes in foreign currency exchange rates or weak economic conditions in the foreign markets in which we have operations. To mitigate a portion of the exposure of international currency fluctuations, we maintain a natural hedge through borrowings in currencies other than the U.S. dollar. In addition, we have U.S. dollar Euro cross currency swaps which are also designated as a hedge of our net investment in foreign denominated assets. These hedge positions are reviewed monthly. Our foreign operations reported net income of \$3.5 million for the nine months ended September 30, 2005. It is estimated that a 10% change in the value of the U.S. dollar to foreign currencies

would change net income for the nine months ended September 30, 2005 by \$0.4 million.

- 25 -

---

**Table of Contents**

Our earnings are also affected by fluctuations in the value of the U.S. dollar as compared to foreign currencies as a result of our investments in various countries, all of which are accounted for under the equity method. It is estimated that the result of a 10% fluctuation in the value of the dollar relative to these foreign currencies at September 30, 2005 would change our equity in earnings of nonconsolidated affiliates by \$2.8 million and would change our net income by approximately \$1.8 million for the nine months ended September 30, 2005.

This analysis does not consider the implications that such fluctuations could have on the overall economic activity that could exist in such an environment in the U.S. or the foreign countries or on the results of operations of these foreign entities.

**Recent Accounting Pronouncements**

In March 2005, the Financial Accounting Standards Board ( FASB ) issued Interpretation No. 47, *Accounting for Conditional Asset Retirement Obligations* ( FIN 47 ). FIN 47 is an interpretation of FASB Statement 143, *Asset Retirement Obligations*, which was issued in June 2001. According to FIN 47, uncertainty about the timing and (or) method of settlement because they are conditional on a future event that may or may not be within the control of the entity should be factored into the measurement of the asset retirement obligation when sufficient information exists. FIN 47 also clarifies when an entity would have sufficient information to reasonably estimate the fair value of an asset retirement obligation. FIN 47 is effective no later than the end of fiscal years ending after December 15, 2005. Retrospective application of interim financial information is permitted, but is not required. We adopted FIN 47 on January 1, 2005, which did not materially impact our financial position or results of operations.

In March 2005, the Securities and Exchange Commission ( SEC ) issued Staff Accounting Bulletin No. 107 *Share-Based Payment* ( SAB 107 ). SAB 107 expresses the SEC staff's views regarding the interaction between Statement of Financial Accounting Standards No. 123(R) *Share-Based Payment* ( Statement 123(R) ) and certain SEC rules and regulations and provides the staff's views regarding the valuation of share-based payment arrangements for public companies. In particular, SAB 107 provides guidance related to share-based payment transactions with nonemployees, the transition from nonpublic to public entity status, valuation methods (including assumptions such as expected volatility and expected term), the accounting for certain redeemable financial instruments issued under share-based payment arrangements, the classification of compensation expense, non-GAAP financial measures, first time adoption of Statement 123(R) in an interim period, capitalization of compensation cost related to share-based payment arrangements, the accounting for income tax effects of share-based payment arrangements upon adoption of Statement 123(R) and the modification of employee share options prior to adoption of Statement 123(R). We are unable to quantify the impact of adopting SAB 107 and Statement 123(R) at this time because it will depend on levels of share-based payments granted in the future. Additionally, we are still evaluating the assumptions we will use upon adoption.

In April 2005, the SEC issued a press release announcing that it would provide for phased-in implementation guidance for Statement 123(R). The SEC would require that registrants that are not small business issuers adopt Statement 123(R)'s fair value method of accounting for share-based payments to employees no later than the beginning of the first fiscal year beginning after June 15, 2005. We intend to adopt Statement 123(R) on January 1, 2006.

In June 2005, the Emerging Issues Task Force ( EITF ) issued EITF 05-6, *Determining the Amortization Period of Leasehold Improvements* ( EITF 05-6 ). EITF 05-6 requires that assets recognized under capital leases generally be amortized in a manner consistent with the lessee's normal depreciation policy except that the amortization period is limited to the lease term (which includes renewal periods that are reasonably assured). EITF 05-6 also addresses the determination of the amortization period for leasehold improvements that are purchased subsequent to the inception of the lease. Leasehold improvements acquired in a business combination or purchased subsequent to the inception of the lease should be amortized over the lesser of the useful life of the asset or the lease term that includes reasonably assured lease renewals as determined on the date of the acquisition of the leasehold improvement. We adopted EITF 05-6 on July 1, 2005 which did not materially impact our financial position or results of operations.

In October 2005, the FASB issued Staff Position 13-1 ( FSP 13-1 ). FSP 13-1 requires rental costs associated with ground or building operating leases that are incurred during a construction period be recognized as rental expense. The guidance in FSP 13-1 shall be applied to the first reporting period beginning after December 15, 2005. We will adopt FSP 13-1 January 1, 2006 and do not anticipate adoption to materially impact our financial position or results of

operations.

**Inflation**

Inflation has affected our performance in terms of higher costs for wages, salaries and equipment. Although the exact impact of inflation is indeterminable, we believe we have offset these higher costs in various manners.

- 26 -

---

**Table of Contents****Ratio of Earnings to Fixed Charges**

The ratio of earnings to fixed charges is as follows:

Nine Months ended September 30,		Year Ended December 31,				
2005	2004	2004	2003	2002	2001	2000
2.23	2.85	2.80	3.62	2.62	*	2.20

\* For the year ended December 31, 2001, fixed charges exceeded earnings before income taxes and fixed charges by \$1.3 billion.

The ratio of earnings to fixed charges was computed on a total enterprise basis. Earnings represent income from continuing operations before income taxes less equity in undistributed net income (loss) of unconsolidated affiliates plus fixed charges. Fixed charges represent interest, amortization of debt discount and expense, and the estimated interest portion of rental charges. We had no preferred stock outstanding for any period presented.

**Risks Regarding Forward Looking Statements**

The Private Securities Litigation Reform Act of 1995 provides a safe harbor for forward-looking statements made by us or on our behalf. Except for the historical information, this report contains various forward-looking statements which represent our expectations or beliefs concerning future events, including the future levels of cash flow from operations. Management believes that all statements that express expectations and projections with respect to future matters, including the success of our strategic realignment plan, our *Less is More* initiative; the strategic fit of radio assets; expansion of market share; our ability to negotiate contracts having more favorable terms; and the availability of capital resources; are forward-looking statements within the meaning of the Private Securities Litigation Reform Act. We caution that these forward-looking statements involve a number of risks and uncertainties and are subject to many variables which could impact our financial performance. These statements are made on the basis of management's views and assumptions, as of the time the statements are made, regarding future events and business performance. There can be no assurance, however, that management's expectations will necessarily come to pass.

Various risks that could cause future results to differ from those expressed by the forward-looking statements included in this Quarterly Report on Form 10-Q include, but are not limited to:

the impact of general economic conditions in the United States and in other countries in which we currently do business, including those resulting from recessions, political events and acts or threats of terrorism or military conflicts;

the impact of the geopolitical environment;

our ability to integrate the operations of recently acquired companies;

shifts in population and other demographics;

industry conditions, including competition;

fluctuations in operating costs;

technological changes and innovations;

changes in labor conditions;

fluctuations in exchange rates and currency values;

changes in capital expenditure requirements;

the outcome of pending and future litigation;

changes in governmental regulations and policies and actions of regulatory bodies;

fluctuations in interest rates;

the effect of leverage on our financial position and earnings;

changes in tax rates;

risks and costs inherent in the contemplated IPO, spin-off, cash dividends or borrowings;

access to capital markets and changes in credit ratings, including those that may result from the proposed strategic realignment; and

certain other factors set forth in our SEC filings, including our Annual Report on Form 10-K for the year ended December 31, 2004.

This list of factors that may affect future performance and the accuracy of forward-looking statements is illustrative, but by no means exhaustive. Accordingly, all forward-looking statements should be evaluated with the understanding of their inherent uncertainty.

**Table of Contents**

**ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

Required information is within Item 2

**ITEM 4. CONTROLS AND PROCEDURES**

Our principal executive and financial officers have concluded, based on their evaluation as of the end of the period covered by this Form 10-Q, that our disclosure controls and procedures, as defined under Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, are effective to ensure that information we are required to disclose in the reports we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and include controls and procedures designed to ensure that information we are required to disclose in such reports is accumulated and communicated to management, including our principal executive and financial officers, as appropriate to allow timely decisions regarding required disclosure.

Subsequent to our evaluation, there were no significant changes in internal controls or other factors that could significantly affect these internal controls.

**Part II OTHER INFORMATION**

**Item 1. Legal Proceedings**

We are among the defendants in a lawsuit filed September 3, 2002 by JamSports in United States Federal District Court for the Northern District of Illinois. The plaintiff alleged that we violated federal antitrust laws and wrongfully interfered with plaintiff's business and contractual rights. On March 21, 2005, the jury rendered its verdict finding that we had not violated the antitrust laws, but had tortiously interfered with a contract which the plaintiff had entered into with co-defendant AMA Pro Racing and with the plaintiff's prospective economic advantage. In connection with the findings regarding tortious interference, the jury awarded to the plaintiffs approximately \$17.0 million in lost profits and \$73.0 million in punitive damages. In April, 2005, we filed a Renewed Motion for Judgment as a Matter of Law and Motion For a New Trial, to seek a judgment notwithstanding the verdict or a new trial from the U.S. District Court that tried the case. On August 15, 2005, the District Court granted that motion in part, granting judgment in favor of the Clear Channel defendants on the plaintiff's claim for tortious interference with prospective economic advantage and granting the Clear Channel defendants a new trial with respect to the issue of damages on the plaintiff's claim for tortious interference with contract. The District Court has set a new date for this trial, on February 6, 2006. We are vigorously defending this remaining claim.

We are currently involved in certain legal proceedings and, as required, have accrued our estimate of the probable costs for the resolution of these claims. These estimates have been developed in consultation with counsel and are based upon an analysis of potential results, assuming a combination of litigation and settlement strategies. It is possible, however, that future results of operations for any particular period could be materially affected by changes in our assumptions or the effectiveness of our strategies related to these proceedings.

**Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**

(c) Purchases of Equity Securities by the Issuer and Affiliated Purchases.

On March 30, 2004, July 21, 2004, and then again on February 1, 2005, we publicly announced that our Board of Directors authorized share repurchase programs each up to \$1.0 billion effective immediately. The March 30, 2004 program was completed at August 2, 2004 and the July 21, 2004 program was completed at February 4, 2005 upon the repurchase of \$1.0 billion each in our shares. On August 9, 2005, our Board of Directors authorized an increase in and extension of the February 2005 program, which had \$307.4 million remaining, by \$692.6 million, for a total of \$1.0 billion. This increase expires on August 8, 2006, although the program may be discontinued or suspended at anytime prior to its expiration. During the three months ended September 30, 2005, we did not repurchase shares.
